NW 27 Avenue Closed for Railroad Crossing Repairs

Miami — Beginning at 6:00 a.m. on Friday, February 21, 2014, until 6:00 a.m., Friday, February 28, 2014, the Florida Department of Transportation (FDOT) and CSX Transportation (CSXT) will close the railroad crossing located on State Road (SR) 817/NW 27 Avenue (between Ali Baba Avenue and North Burlington Street) in Opa-locka, for these days, weather permitting. During this time, all traffic will be detoured away from the NW 27 Avenue crossing and directed to follow signs to alternate local streets.

This detour is being established to allow workers to perform necessary repairs to the CSXT Railway. During the closure, workers will replace the existing tracks and crossing surface to improve ride quality.

Southbound traffic will be directed to turn left and guided east through Ali Baba Avenue and then it will be able to turn right at NW 22 Avenue. This traffic will again be directed to another right turn at SR 9 to head southwest until the intersection with North Burlington Street and NW 27 Avenue.

The southbound traffic at the main closure will also be able to turn right to head west to the Le Jeune/Douglas Connector. This detour will be the main truck route for southbound traffic at the intersection of Ali Baba Avenue and to the Le Jeune/Douglas Connector. Traffic will be directed to turn LEFT to head south for an additional LEFT at NW 135 Street to head east and perform a right turn back at NW 27 Avenue.

At the intersection of North Burlington Street with NW 27 Avenue, the westbound right-turn movement will be closed, but guided to continue straight along North Burlington Street and directed to turn right to head north at Codadad Street with another right turn at Ali Baba Avenue to head east and perform a left turn to return to NW 27 Avenue.

Northbound traffic main detour is guided through SR 9 to turn left at NW 22 Avenue. Local traffic will be allowed to continue north using the inner lane from the junction with SR 9 to south of North Burlington Street. The main detoured traffic after turning left at NW 22 Avenue, will be directed north to turn left at NW 151 Street and then to head west and return back to NW 27 Avenue. An alternate route is that after turning left at NW 22 Avenue, vehicles can perform another left to head west.

If you have any questions please contact Jessie Smiley, at (305) 470-5333, Javier Hurtado at (305) 470-5166, or Marco Incer at (954) 677-7899.
