Roadway Project Begins Friday, February 3

State Road (SR) 968/West Flagler Street from 75 Avenue to 27 Avenue

Miami, FL – The Florida Department of Transportation (FDOT) is scheduled to begin a repaving and restriping roadway project on Friday, February 3, 2017. The project limits extend along SR 968/West Flagler Street from 75 Avenue to 27 Avenue in the City of Miami. The project will cost an estimated \$4.18 million. This project will last approximately 11 months and includes the following:

- Repaving and restriping the roadway
- Rebuilding pedestrian curb ramps
- Installing detectable warning pads at pedestrian crosswalks
- Constructing pedestrian refuge islands at side streets
- Updating pedestrian signs and signals
- Performing minor storm water drainage improvements

Please note that this upcoming repaving and restriping project is not a complete reconstruction of the road similar to the ongoing project along W Flagler Street from 27 Avenue to I-95 in the City of Miami's Little Havana neighborhood and does not include permanent lane closures.

To complete this work safely, it will be necessary to close travel lanes and detour traffic at times. Tasks will be done in stages and lane closures will be scheduled to keep traffic moving and avoid special community events.

Please note that this schedule may change due to bad weather or other unexpected conditions.

For more information, please call FDOT's Public Information Office at 305-470-5349 or Construction Public Information Specialist Sergies Duarte at 305-216-3617 or go to the website at www.fdotmiamidade.com.

Drivers are encouraged to call 511 before they travel or log on to www.fl511.com to get real-time traffic and lane closure information. FDOT would like to remind drivers that wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes. Please drive cautiously in construction zones.
