State Road (SR) A1A/MacArthur Causeway East Bridge Double Westbound Lanes Closure Extended

Closures Being Performed Ahead of Schedule to Avoid Later Impacts

Miami, FL – Additional areas have been identified for bridge deck replacement along the westbound SR A1A/MacArthur Causeway East Bridge (bridge number 870077). The contractor will be performing these repairs ahead of schedule to avoid another daytime continuous double lane closure during the tourist season. The ongoing closure of two westbound lanes between Alton Road and Terminal Island will be extended for several weeks while the contractor addresses both full depth and partial depth concrete deck repairs. Daytime and nighttime work will be performed both on top and underneath the bridge.

Please note that this schedule may change due to bad weather or other unforeseen conditions.

The closures are part of the SR A1A/MacArthur Causeway Bridge Rehabilitation Project. At least one eastbound and one westbound travel lane will remain open at all times.

For more information, please call FDOT's Public Information Office at 305-470-5349 or Construction Public Information Specialist Melissa J. Rodriguez at 1-305-570-8076 or go to the website at www.fdotmiamidade.com.

Drivers are encouraged to call 511 before they travel or log on to www.fl511.com to get real-time traffic and lane closure information. FDOT would like to remind drivers that wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes. Please drive cautiously in construction zones.
