FDOT Completes Roadway Project Along Hialeah Gardens Boulevard

From West 80 Street to West 84 Street/NW 138 Street

MIAMI, Fla. – The Florida Department of Transportation (FDOT) has successfully completed the roadway project along Hialeah Gardens Boulevard from West 80 Street to West 84 Street/NW 138 Street. The 13-month project began in January 2020 and cost an estimated \$2.7 million. FDOT completed this project on schedule and under budget with the support of elected officials and the community. Russell Engineering, Inc. was the contractor.

The following scope of work was performed on this project: adding one left turning lane on northbound Hialeah Gardens Boulevard at NW 138 Street; adding one left turning lane on southbound Hialeah Gardens Boulevard at W 84 Street; installing sidewalks; repaving and restriping the roadway; improving traffic signalization; and adding intelligent transportation system features.

For more information, please call FDOT's Public Information Office at (305) 470-5349, or Construction Community Outreach Specialist Christian Gonzalez at (786) 837-4884 or go to the website at www.fdotmiamidade.com.

Drivers are encouraged to log on to www.fl511.com to get real-time traffic and lane closure information. FDOT would like to remind drivers that wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
