### **FDOT to begin SR A1A/Collins Avenue Safety Improvement Project June 1**

*From 91 Street to 92 Street*

**MIAMI, Fla.** – The Florida Department of Transportation (FDOT) is scheduled to begin a pedestrian and bicycle safety project the week of June 1, 2021, along SR A1A/Collins Avenue from 91 Street and 92 Street, in Miami Beach. The project will cost an estimated \$230,505.

This project is part of a district-wide pushbutton contract. The work will last roughly six months and it includes the following: improving signalization and lighting; improving existing drainage structures; installing ADA: constructing high emphasis pedestrian crosswalk at the intersection of Collins Avenue and 92 Street; improving lighting; and installing signage and pavement markings.

To build this project safely, it will be necessary to close travel lanes, sidewalks and establish detours at times. Work will be done in stages to minimize construction related impacts. Please use caution when traveling through the construction zone.

**Please note this this schedule may change due to bad weather or other unexpected conditions.**

For more information, please call FDOT's Public Information Office at (305) 470-5349, or Construction Community Outreach Specialist Christian Gonzalez at (786) 837-4884, or visit [www.fdotmiamidade.com](http://www.fdotmiamidade.com).

Drivers are encouraged to log on to [www.fl511.com](http://www.fl511.com) before they travel to get real-time traffic and lane closure information. FDOT would like to remind drivers that wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
