Always Put

Safety First:

For your safety and the safety of others, please use caution when driving, walking or biking around any construction zone.

Wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes.

The department takes steps to reduce construction effects, but you might experience the following around the work site:

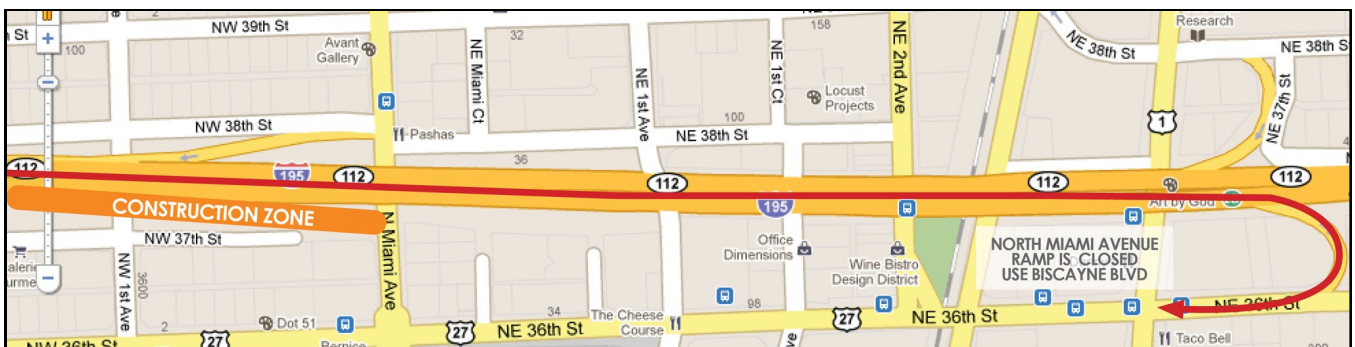

- Side street, travel lane and sidewalk closures
- Increased dust and noise
- Workers and equipment moving around the area

Helpful Tips:

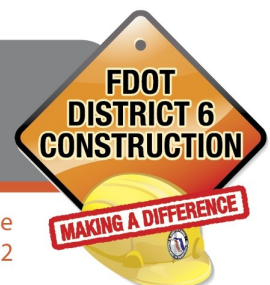

- Allow extra time to reach your destination
- Obey all posted signs and speed limits
- Watch for signs with information about upcoming work and traffic conditions

Please note that this schedule could change due to bad weather or other unexpected conditions.
