

ADVISORY

NE 203 STREET/IVES DAIRY ROAD INTERSECTION PROJECT BEGINS OCTOBER 18

FIN#: 433511-1-52-01

OVERVIEW

The Florida Department of Transportation (FDOT) is scheduled to begin an intersection roadway construction project along NE 203 Street the week of October 18, 2021. Within the next several weeks, the contractor will begin mobilizing and setting up the staging area near NE 206 Street and West Dixie Highway.

WHAT TO EXPECT

Construction vehicles and equipment will be moving around the area during daytime hours. Please expect additional noise while work is taking place. Motorists should be aware of crew and machines entering and existing the area

The first area of work is within the retention pond. No additional project lane closures on NE 203 Street or Biscayne Boulevard are expected at this time.

Utility relocation work is underway near NE 206 Street. These utilities may implement daytime closures as needed to perform their work.

Please note this schedule could change due to bad weather or unforeseen conditions.

BACKGROUND

This work is part of the overall improvements at the intersection of NE 203 Street/Ives Dairy Road between State Road (SR) 5/US 1/Biscayne Boulevard and West Dixie Highway. This project is expected to be completed by late 2024 and cost an estimated \$41.3 million.

The project will increase safety and ease traffic flow through this busy intersection by adding a new westbound bridge over the FEC Railway, adding a pedestrian bridge over the railroad track and adding new turn lanes to the eastbound bridge.

Lane closures and project information will be posted weekly on the department's website, www.fdotmiamidade.com.

HELPFUL TIPS

- Allow extra time to reach your destination
- Obey all posted signs and speed limits

ALWAYS PUT SAFETY FIRST

For your safety and the safety of others, please use caution when driving, walking or biking around any construction zone. Wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes.
