State Road (SR) 90/US 41/Tamiami Trail Bridge Rehabilitation Project Begins May 22

Over the Spillway Bridges 870031 and 870028

MIAMI, Fla. – The Florida Department of Transportation (FDOT) is scheduled to begin a bridge rehabilitation project the week of May 22, 2023. The project limits extend along SR 90/US 41/SW 8 Street/Tamiami Trail over the Spillway Bridges 870031 and 870028, approximately 12 miles west of SR 997/Krome Avenue in western Miami-Dade County. The project will cost an estimated \$779,455 and is expected to be completed by late 2023.

The scope of work includes repairing the existing concrete bridge structures.

A temporary traffic signal will be used during repairs to the top of the bridges. Motorists should be prepared to stop. Lane closures will be posted on the department's project page. Work will be done in stages to minimize construction-related impacts. Please use caution when traveling through construction zones. Please note that this schedule may change due to bad weather or other unexpected conditions.

For more information, please call FDOT's Public Information Office at (305) 470-5349 or Senior Construction Community Outreach Specialist Heather M. Leslie at (305) 905-5876 or Heather@hmlpublicoutreach.com. For additional information about this or other FDOT projects, please visit www.fdotmiamidade.com.

Drivers are encouraged to log on to www.fl511.com before they travel to get real-time traffic and lane closure information. The Florida Department of Transportation reminds motorists to always drive safely and avoid distractions while driving. Remember to put down cell phones. Florida law restricts motorists from using a wireless device in a school zone or an active construction zone.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
