FDOT Completes State Road (SR) 997/Krome Avenue Roadway Project Ahead of Schedule *Between SW 232 Street and SW 312 Street*

MIAMI, Fla. – The Florida Department of Transportation (FDOT) has successfully completed the Krome Avenue Roadway Project from SW 232 Street and SW 312 Street 51 days ahead of schedule. This project began in January 2020 and was completed on Friday, January 15, 2021. The estimated cost of this project is \$32.7 million.

The scope of the work for this project included: widening and rebuilding the roadway; performing drainage work; constructing two new bridges; providing lighting along the corridor; installing guardrail in the median; installing a new signalized intersection; reconstructing curb and gutter and mast arm signals; and upgrading signage and pavement markings.

FDOT completed this project with the support of elected officials and the community. Halley Engineering Contractors, Inc. was the contractor.

For more information on the Krome Avenue projects, visit www.fdotmiamidade.com. You may also call FDOT's Public Information Office at (305) 470-5349 or Senior Community Outreach Specialist Heather M. Leslie at (305) 905-5876.

Drivers are encouraged to log on www.fl511.com to get real-time traffic and lane closure information. FDOT would like to remind drivers that wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicles crashes. Please drive cautiously in construction zones.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
