FDOT Completes State Road (SR) 932/NW-NE 103 Street Roadway Project

Between NW 6 Avenue and NE 2 Avenue

MIAMI, Fla. – FDOT has successfully completed the SR 932/NW-NE 103 Street roadway project from NW 6 Avenue to NE 2 Avenue, in Miami Shores Village. This nine-month project began in June 2023 and cost approximately \$1.9 million.

FDOT, along with its contractor, Bacallao Construction and Engineering, Inc., completed this project both on schedule and on budget. This project enhanced safety features for motorists and pedestrians, improved drainage at the intersection of SR 932/NE 103 Street and NE 2 Avenue to help reduce flooding, and upgraded roadway conditions throughout SR 932/NE 103 Street.

The scope of work included: reconstructing concrete sidewalks, curb ramps, and curb and gutter; installing new or replacing existing pedestrian pushbutton poles; upgrading vehicular and pedestrian signage and pavement markings; upgrading select light poles with new Light Emitting Diode (LED) lights; installing a new drainage structure at the intersection of NE 2 Avenue; adjusting existing manholes and water valves throughout project corridor; and repaving and restriping the roadway.

For more information, please contact FDOT's Public Information Office at (305) 470-5349, or Construction Community Outreach Specialist Christian Gonzalez at (786) 837-4884 or ChristianS.Gonzalez@dot.state.fl.us. For additional information about this or other FDOT projects, please visit www.southflroads.com.

Drivers are encouraged to log on to www.fl511.com before they travel to get real-time traffic and lane closure information. The Florida Department of Transportation reminds motorists to always drive safely and avoid distractions while driving. Remember to put down cell phones. Florida law restricts motorists from using a wireless device in a school zone or an active construction zone.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
