### **State Road (SR) 9/NW 27 Avenue Project Rescheduled to Week of August 22**

*From NW 39 Street to SR 934/NW 79 Street*

**MIAMI, Fla.** – The Florida Department of Transportation (FDOT) has rescheduled a roadway construction project along SR 9/NW 27 Avenue from NW 39 Street to SR 934/NW 79 Street to the week of August 22, 2022. The \$5.8-million project is expected to be completed by fall 2023.

The scope of work includes repaving and restriping the roadway; removing abandoned driveways; upgrading drainage inlets; widening the roadway along NW 41 Street; upgrading pedestrian curb ramps and signage; reconstructing and upgrading sidewalks; upgrading guardrail and street signs; and installing new pavement markings.

Please note that this schedule may change due to bad weather or other unexpected conditions. For more information, please call Construction Community Outreach Specialist Maria J. Espinoza at (786) 226-6927 or FDOT's Public Information Office at (305) 470-5349 or go to the website at [www.fdotmiamidade.com](http://www.fdotmiamidade.com).

Drivers are encouraged to log on to [www.fl511.com](http://www.fl511.com) to get real-time traffic and lane closure information. FDOT would like to remind drivers that wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicles crashes. Please drive cautiously in construction zones.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
