## State Road (SR) 886/Port Boulevard over the Intracoastal Waterway Project Begins Week of June 27, 2022

**MIAMI, Fla.** –The Florida Department of Transportation (FDOT) is scheduled to begin a bridge rehabilitation project the week of June 27, 2022. The project limits extend along SR 886/Port Boulevard over the Intracoastal Waterway. This project will cost an estimated \$2.8 million and will take about 14 months to complete.

The scope of work includes repairing concrete elements, replacing the bridge expansion joints and restoring the existing sidewalk.

Construction will be done in stages with temporary lane closures scheduled to avoid special community events and peak periods of traffic. Nonpeak hours are 6 p.m. to 5 a.m., Monday through Friday. Temporary sidewalk detours will be in place when necessary. Access to and from Port Miami and adjacent neighborhoods and businesses will be maintained during construction.

Please note that this schedule may change due to bad weather or other unexpected conditions. For more information, please call Construction Senior Community Outreach Specialist Sergies Duarte at (305) 216-3617 or FDOT's Public Information Office at (305) 470-5349 or go to the website at [www.fdotmiamidade.com](http://www.fdotmiamidade.com).

Drivers are encouraged to log on to [www.fl511.com](http://www.fl511.com) to get real-time traffic and lane closure information. FDOT would like to remind drivers that wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes. Please drive cautiously in construction zones.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
