FDOT to Host a Public Meeting for State Road (SR) 25/US 27/Okeechobee Road Reconstruction Project – Segment Two

Wednesday, April 27, 2022

MIAMI, Fla. – The Florida Department of Transportation (FDOT) District Six will host a Public Meeting, both in-person and virtually, for a reconstruction project along SR 25/US 27/Okeechobee Road from east of NW 107 Avenue to east of NW 116 Way/Hialeah Gardens Boulevard, starting at 6 p.m., on Wednesday, April 27, 2022.

The In-Person Public Meeting will be held at:

Medley Town Hall, 7777 NW 72 Avenue, Medley, FL 33166. All current Centers for Disease Control and Prevention (CDC) guidelines will be observed. To RSVP click [here](#).

To attend the Virtual Public Meeting online:

Visit the link: <https://attendee.gotowebinar.com/register/3367109646257430800>

Participants can also call in by dialing +1 (562) 247-8422; Access code: 825-351-420

The meeting will consist of a formal presentation followed by an open discussion. Staff will be available to answer questions in the order they are received and as time permits. If your question is not responded to during the meeting, a response will be provided in writing afterwards.

Construction will begin the week of May 2, 2022 and will last roughly three years and eight months. This project will cost an estimated \$105.6 million.

The work includes: constructing a new second level overpass, four new bridges from SR 25/Okeechobee Road to NW 116 Way/Hialeah Gardens Boulevard; providing new access ramps to Frontage Road and Hialeah Gardens High School; widening the roadway, Frontage Road, NW South River Drive and the bridges over the Miami Canal; reconstructing SR 25/Okeechobee Road with concrete pavement; installing new traffic signals at the following intersections: Hialeah Gardens Boulevard, NW 11600 Block, SR 25/Okeechobee Road and NW 116 Way (overpass), Frontage Road and NW 122 Street, NW 98 Avenue, Frontage Road and NW 11500 Block; adding new bicycle lanes and sidewalks along Frontage Road; installing new guardrail, medians and shoulder concrete barrier walls along the roadway; installing a new sewer lift station at NW 121 Way and a new flow meter at NW 116 Way; installing a new 102-

inch culvert connecting the NW 97 Ave Canal to the Miami Canal; relocating the existing 24-inch sewer line between NW South River Drive and Frontage Road; upgrading roadway lighting with LED luminaires; upgrading traffic and pedestrian signage, pavement markings, and signalization; and installing new Intelligent Transportation System (ITS).

This project is part of the corridor wide reconstruction of the SR 25/US 27/Okeechobee Road from the Broward County Line to SR 826/Palmetto Expressway. This work will improve safety, enhance mobility along this Strategic Intermodal Systems (SIS) corridor, and inspire innovative transportation solutions, connecting commuters throughout Miami-Dade County.

For more information about the project or meeting, please contact Senior Community Outreach Specialist Maria Alzate at (305) 560-8218 or by email at Maria@iscprgroup. You can also visit the project website: www.fdotmiamidade.com/okeechobee.

FDOT encourages public participation without regard to race, color, national origin, age, sex, religion, disability or family status. Persons who need special assistance under the Americans with Disabilities Act of 1990 or who need translation services (free of charge) should contact Nicholas Danu at 305-470-5219 or in writing at FDOT, 1000 NW 111 Avenue, Miami, FL 33172 or by email at: Nicholas.Danu@dot.state.fl.us at least seven (7) days prior to the meetings.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
