Nighttime Single Lane Closure on Missouri – Little Duck Key Bridge October 5 *Along State Road (SR) 5/US 1*

Miami, Fla. – A single lane closure will occur along SR 5/US 1, between MM 39.524 and MM 39.704, on Monday, October 5, while the contractor completes thermoplastic striping operations.

The work will be completed between 8 p.m. and 6 a.m. To perform this work safely, traffic along the bridge will be maintained by flagmen, with one lane open to traffic at all times. Drivers will be required to proceed at a reduced rate of speed through the construction zone.

This schedule may change due to bad weather or other unforeseen conditions.

For more information, please call Construction Community Outreach Specialist Paulette Summers at (786) 510-3921, or FDOT's Public Information Office at (305) 470-5349, or go to the website at www.fdotmonroe.com.

Drivers are encouraged to call 511 before they travel or log on to www.fl511.com to get real-time traffic and lane closure information. FDOT would like to remind drivers that wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes. Please use caution when traveling through construction zones.
