### **S.R. 9A/I-95/NB Flyover Ramp Roadway Project Begins on January 19, 2026 Over NW 17 and NW 20 Street**

**MIAMI, Fla.** – The Florida Department of Transportation (FDOT) is scheduled to begin a roadway project on Monday, January 19, 2026, along State Road (S.R.) 9A/I-95/NB Flyover Ramp over NW 17 Street and NW 20 Street in Miami-Dade County. The project will last approximately nine months and the current construction cost is \$1.5 million.

The scope of work for this project includes improving the northbound I-95 flyover bridge that goes over NW 17 and NW 20 Street; rehabilitating deteriorated sections of the northbound I-95 flyover ramp; cleaning and sealing the bridge's concrete surfaces to extend the roadway's service life.

To build this project safely, it will be necessary to close travel lanes and establish detours at times. Work will be done in stages to minimize construction-related impacts. Drivers might experience delays traveling through the area and should seek alternate routes if possible. Please use caution when traveling through construction zones.

Detours will be clearly marked. Please follow all posted signage and note that this schedule may change due to weather or other unexpected conditions.

For more information, please contact FDOT's Communications Office at (305) 470-5349 or visit our website at [www.southflroads.com](http://www.southflroads.com).

For real time traffic and lane closure information, drivers are encouraged to visit [www.fl511.com](http://www.fl511.com).

Remember, wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes. Always be safe and remain alert while driving in construction zones.
