State Road (SR) 5/US 1/Overseas Highway Daytime Lane Closures Through July 2023

Between Mile Marker (MM) 72.0 and MM 75.0 in Islamorada

MIAMI, Fla. – Northbound and southbound lanes of SR 5/Overseas Highway will be closed as needed Monday through Thursday, between 9 a.m. and 4 p.m., through late July to repave the road. Lanes will be closed in one direction at a time and flaggers will direct traffic through the work zone. Drivers may experience delays while traveling through the area.

Please use caution when traveling through construction zones and note that this schedule may change due to bad weather or other unexpected conditions.

This work is part of the FDOT's ongoing roadway construction project along SR 5/US1/Overseas Highway from south of Tollgate Boulevard (MM 73.75) to Lignumvitae Channel (MM 77.5).

For more information, please contact FDOT's Public Information Office at (305) 470-5349, or Construction Community Outreach Specialist Paulette Summers at (786) 510-3921 or psummers@mrqmiami.com. For additional information about this or other FDOT projects, please visit www.fdotmonroe.com.

Drivers are encouraged to log on to www.fl511.com before they travel to get real-time traffic and lane closure information. The Florida Department of Transportation reminds motorists to always drive safely and avoid distractions while driving. Remember to put down cell phones. Florida law restricts motorists from using a wireless device in a school zone or an active construction zone.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
