State Road (SR) 25/US 27/NW 36 Street Roadway Project Begins Week of October 30

From west of NW 7 Avenue to east of North Miami Avenue

MIAMI, Fla. –The Florida Department of Transportation (FDOT) is scheduled to begin a roadway project the week of October 30, 2023. The project limits extend along SR 25/US 27/NW 36 Street from west of NW 7 Avenue to east of North Miami Avenue in Miami-Dade County. This project will cost an estimated \$1.9 million and will take about six months to complete.

The scope of work includes installing pedestrian curb ramps, guardrails, detectable warning surfaces, signage, and pavement markings. Additionally, it involves replacing various traffic signals and adding traffic detection video equipment. The project also includes reconstructing damaged sidewalks and installing high-emphasis crosswalks at various locations, trimming trees to clear the line of sight, upgrading pedestrian signalization and pushbuttons and repaving and restriping the roadway.

Construction will be done in stages with temporary lane closures scheduled to avoid special community events and peak hours of traffic. Temporary sidewalk detours will be in place when necessary. Access to and from adjacent neighborhoods and businesses will be maintained during construction. Please note, this schedule may change due to bad weather or other unexpected conditions.

For more information, please contact FDOT's Public Information Office at (305) 470-5349 or Construction Community Outreach Specialist Jeff Baquedano at (786) 510-6113 or at Jeff.Baquedano@dot.state.fl.us or visit our website at www.southflroads.com.

Drivers are encouraged to log on to www.fl511.com to get real-time traffic and lane closure information. FDOT would like to remind drivers that wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes. Please drive cautiously in construction zones.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
