### **State Road (SR) 924/NW 119 Street/Gratigny Road Roadway Project Begins March 14**

*From NW 27 Avenue to NW 7 Avenue*

**MIAMI, Fla.** – The Florida Department of Transportation (FDOT) is scheduled to begin a roadway project the week of March 14, along SR 924/NW 119 Street/Gratigny Road from NW 27 Avenue to NW 7 Avenue. The work will last roughly 13 months and will cost an estimated \$4.1 million.

The scope of work includes: rehabilitating bridge over Rio Vista Canal (# 870621); repaving and restriping the roadway; modifying traffic separators between NW 27 Avenue and NW 22 Avenue; reconstructing pedestrian crosswalks, sidewalks, driveways, and curb and gutters; upgrading drainage structures; replacing traffic signal mast arms at the intersection of NW 17 Avenue; and upgrading vehicular and pedestrian signs, signals and pavement markings.

To build this project safely, it will be necessary to close travel lanes, sidewalks and establish detours at times. Work will be done in stages to minimize construction related impacts. Drivers might experience delays traveling through the area and should seek alternate routes if possible.

During the scheduled nighttime bridge rehabilitation work, motorists will experience a traffic shift along eastbound and westbound SR 924/NW 119 Street/Gratigny Road. Please follow all posted signage and use caution when traveling through the construction zone.

**Please note that this schedule may change due to bad weather or other unexpected conditions.**

For more information, please contact FDOT's Public Information Office at (305) 470-5349, or Construction Community Outreach Specialist Christian Gonzalez at (786) 837-4884 or [csgonzalez@corradino.com](mailto:csgonzalez@corradino.com). For additional information about this or other FDOT projects, please visit [www.fdotmiamidade.com](http://www.fdotmiamidade.com).

Drivers are encouraged to log on to [www.fl511.com](http://www.fl511.com) before they travel to get real-time traffic and lane closure information. FDOT would like to remind drivers that wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
