State Road (SR) 933/NW 12 Avenue Nighttime Lane Closures Begin May 3

Between NW 19 Street and NW 29 Street

MIAMI, Fla. – Beginning Wednesday, May 3 through Friday, May 19, from 9 p.m. to 6 a.m., at least one travel lane in each direction along SR 933/NW 12 Avenue will be closed between NW 19 Street and NW 29 Street to repave the road. Lane closures will not occur from Friday, May 5 to Saturday, May 6.

At least one travel lane in each direction will remain open at all times. Due to reduced travel lanes, drivers might experience delays traveling through the area and should seek alternate routes if possible. Law enforcement will be on-site to provide assistance as needed.

Please use caution when traveling through the construction zone and note that this schedule may change due to bad weather or other unexpected conditions.

This work is part of the ongoing roadway project along SR 933/NW 12 Avenue between NW 19 Street and NW 29 Street. For more information, please contact FDOT's Public Information Office at (305) 470-5349, or Construction Community Outreach Specialist Christian Gonzalez at (786) 837-4884 or ChristianS.Gonzalez@dot.state.fl.us. For additional information about this or other FDOT projects, please visit www.fdotmiamidade.com.

Drivers are encouraged to log on to www.fl511.com before they travel to get real-time traffic and lane closure information. The Florida Department of Transportation reminds motorists to always drive safely and avoid distractions while driving. Remember to put down cell phones. Florida law restricts motorists from using a wireless device in a school zone or an active construction zone.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
