### **SR 934 W/E 21 Street/NW 74 Street Roadway Project Begins the Week of February 10, 2025** *From W 4 Avenue to E 4 Avenue*

**MIAMI, Fla.** – The Florida Department of Transportation (FDOT) is scheduled to begin a roadway project on February 10, 2025 along State Road (SR) 934 W/E 21 Street/NW 74 Street from W 4 Avenue to E 4 Avenue in Miami-Dade County. The project will last about 11 months, and the current construction cost is \$4.3 million.

The scope of work for this project includes upgrading the traffic signal at the Palm Avenue intersection to implement a flashing yellow left-turn signal to improve traffic flow at the intersection, upgrading lighting at signalized crosswalks for pedestrian visibility, and repaving and restriping the road.

To build this project safely, it will be necessary to close travel lanes, sidewalks, and to establish detours at times. Work will be done in stages to minimize construction-related impacts. Drivers might experience delays traveling through the area and should seek alternate routes if possible. Please use caution when traveling through construction zones.

Detours will be clearly marked. Please follow all posted signage and note that this schedule may change due to weather or other unexpected conditions.

For more information, please contact FDOT's Communication Office at (305) 470-5349 or visit our website at [www.southflroads.com](http://www.southflroads.com).

For real time traffic and lane closure information, drivers are encouraged to visit [www.fl511.com](http://www.fl511.com).

Remember, wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes. Always be safe and remain alert while driving in construction zones.
