### **Roadway Construction Project Begins Week of Monday, October 19**

*State Road (SR) 93/I-75 Frontage Road/NW 138 Street/W 84 Street*

**MIAMI, Fla.** –The Florida Department of Transportation (FDOT) will begin a roadway construction project on the week of Monday, October 19, 2020. The project limits extend along SR 93/I-75 Frontage Road/NW 138 Street/W 84 Street from east of Hialeah Gardens Boulevard to W 23 Avenue in Miami-Dade County. This project will cost an estimated \$2.8 million and will take seven months to complete.

The scope of work includes: improving roadway capacity at W 24 Avenue by widening at the intersection to accommodate a left-turn lane; installing a new guardrail system along Peter's Pike Canal; providing bike lanes by widening the unpaved shoulder; improving lighting along the corridor; upgrading pedestrian features along the corridor; installing stormwater drainage in the grassy swale areas at multiple locations; upgrading signage and pavement markings; and repaving and restriping the roadway. To complete this work safely, temporary lane closures can occur during non-peak hours on non-event days, nights and weekends.

Please note that this schedule may change due to bad weather or other unexpected conditions.

For more information, please call Construction Community Outreach Specialist Maria Camacho at (305) 731-7699 or FDOT's Public Information Office at (305) 470-5349 or go to the website at [www.fdotmiamidade.com](http://www.fdotmiamidade.com). Drivers are encouraged to call 511 before they travel or log on to [www.fl511.com](http://www.fl511.com) to get real-time traffic and lane closure information. FDOT would like to remind drivers that wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes. Please drive cautiously in construction zones.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
