State Road (SR) 985/SW 107 Avenue Intersection Project Begins June 5 *At SW 24 Street/Coral Way*

MIAMI, Fla. – The Florida Department of Transportation (FDOT) is scheduled to begin an intersection project the week of June 5 along SR 985/SW 107 Avenue at SW 24 Street/Coral Way. The work will last about five months and will cost an estimated \$915,762.

The scope of work includes: reconstructing the existing traffic median (east of the intersection) to accommodate a second left turn lane; installing new traffic signal mast arms at the NW and SW corners of the intersection; reconstructing concrete sidewalks, curb ramps, and curb and gutter; upgrading vehicular and pedestrian signals, signage, and pavement markings; upgrading select light poles with new Light Emitting Diode (LED) lights; removing landscape from traffic median east of the intersection; and repaving and restriping the roadway.

To build this project safely, it will be necessary to close travel lanes, sidewalks, and to establish detours at times. Work will be done in stages to minimize construction-related impacts. Drivers might experience delays traveling through the area and should seek alternate routes if possible. Please use caution when traveling through construction zones.

Please follow all posted signage and note that this schedule may change due to bad weather or other unexpected conditions.

For more information, please contact FDOT's Public Information Office at (305) 470-5349, or Construction Community Outreach Specialist Christian Gonzalez at (786) 837-4884 or ChristianS.Gonzalez@dot.state.fl.us. For additional information about this or other FDOT projects, please visit www.fdotmiamidade.com.

Drivers are encouraged to log on to www.fl511.com before they travel to get real-time traffic and lane closure information. The Florida Department of Transportation reminds motorists to always drive safely and avoid distractions while driving. Remember to put down cell phones. Florida law restricts motorists from using a wireless device in a school zone or an active construction zone.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
