State Road (SR) 994/Quail Roost Drive Paving Begins November 16

MIAMI, Fla. – Beginning Monday, November 16 through Tuesday, November 17, 2020, between the hours of 9 p.m. and 6 a.m., the Florida Department of Transportation (FDOT) will close travel lanes to repave SR 994/Quail Roost Drive at the intersection of SW 200 Street.

To complete this work safely, one lane will be closed in each direction and the intersection will be closed as needed. Flaggers will direct traffic through the work zone. Drivers will need to stop and wait for the flagger to direct them to cross. The speed limit will be reduced through the work zone and drivers should expect delays.

This schedule may change due to bad weather or other unforeseen conditions.

For more information please visit www.fdotmiamidade.com. You may also call FDOT's Public Information Office at (305) 470-5349 or Community Outreach Specialist Jeanette Gorgas (786) 239-8862.

Drivers are encouraged to call 511 before they travel or log on to www.fl511.com to get real-time traffic and lane closure information. FDOT would like to remind drivers that wearing a safety belt is the single most effective way to protect people and reduce fatalities in motor vehicle crashes. Please drive cautiously in construction zones.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
