State Road (SR) 994/Quail Roost Drive/SW 200 Street Roadway Project Begins July 24

From SR 997/Krome Avenue to SR 825/SW 137 Avenue

MIAMI, Fla. – The Florida Department of Transportation (FDOT) is scheduled to begin a roadway project the week of July 24 along SR 994/Quail Roost Drive/SW 200 Street from SR 997/Krome Avenue to SR 825/SW 137 Avenue. The work will last about nine months and will cost an estimated \$4.1 million.

The scope of work includes: repaving and restriping the roadway; installing new drainage structures in the swale areas along Quail Roost Drive; relocating or removing landscape; upgrading signalization features at the intersection of SW 147 Avenue/Naranja Road; and upgrading vehicular signage throughout the corridor.

To build this project safely, it will be necessary to close travel lanes and establish detours at times. Work will be done in stages to minimize construction-related impacts. Drivers might experience delays traveling through the area and should seek alternate routes if possible. Please use caution when traveling through construction zones.

Please follow all posted signage and note that this schedule may change due to bad weather or other unexpected conditions.

For more information, please contact FDOT's Public Information Office at (305) 470-5349, or Construction Community Outreach Specialist Christian Gonzalez at (786) 837-4884 or ChristianS.Gonzalez@dot.state.fl.us. For additional information about this or other FDOT projects, please visit www.southflroads.com.

Drivers are encouraged to log on to www.fl511.com before they travel to get real-time traffic and lane closure information. The Florida Department of Transportation reminds motorists to always drive safely and avoid distractions while driving. Remember to put down cell phones. Florida law restricts motorists from using a wireless device in a school zone or an active construction zone.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
