State Road (SR) A1A/South Roosevelt Boulevard Nighttime Road Closure Begins Sunday, December 10, 2023

From Atlantic Boulevard to the east end of Smathers Beach

MIAMI, Fla. – Beginning Sunday, December 10, 2023, at 9:30 p.m., the inbound and outbound travel lanes of SR A1A/South Roosevelt Boulevard, and the pedestrian pathway, will be closed nightly, Sunday through Thursday from 9:30 p.m. to 5 a.m. This closure allows workers to install stormwater drainage pipes across the roadway. The work is expected to be completed by December 15, 2023. Motorists, cyclists, and pedestrians should plan an alternate route during the nighttime closure.

Access to Key West International Airport, and businesses and residences east of Bertha Street, will be from the east/inbound side of SR A1A/South Roosevelt Boulevard, via Flagler Avenue or SR US1/North Roosevelt Boulevard.

Access to La Brisa Condominiums, Margaritaville Beach House, and Key West by the Sea will be maintained throughout the closure.

Please follow detours via Flagler Avenue and SR US1/North Roosevelt Boulevard.

The construction schedule may change due to weather or other unforeseen circumstances.

This work is part of the ongoing roadway project along SR A1A/South Roosevelt Boulevard from Bertha Street to the end of Smathers Beach. For more information, please contact FDOT's Public Information Office at (305) 470-5349 or Community Outreach Specialist, Julie Brown, at (305) 927-1479 or Julie.Brown@exp.com. For additional information about this and other FDOT projects, please visit southflroads.com.

Drivers are encouraged to log on to www.fl511.com before they travel to get real-time traffic and lane closure information. The Florida Department of Transportation reminds motorists to always drive safely and avoid distractions while driving. Remember to put down cell phones. Florida law restricts motorists from using a wireless device in a school zone or an active construction zone.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
