Traffic Shift of Northbound State Road (SR) 25/US 27/Okeechobee Road from NW 116 Way to NW 105 Way

April 22

MIAMI, Fla. – On April 22, 2024, travel lanes along northbound/westbound SR 25/US 27/Okeechobee Road between NW 116 Way and NW 105 Way will be shifted south onto the new concrete pavement. This shift will create a protective work zone, adjacent to Frontage Road. To complete this traffic shift safely, lane closures will be implemented from 9 p.m. on Sunday, April 21, 2024, to 5 a.m. on Monday, April 22, 2024. One travel lane will remain open at all times and access to local businesses and neighborhoods will be maintained.

Please note that this schedule may change due to bad weather or other unforeseen conditions.

This project is part of the corridor wide reconstruction of the SR 25/US 27/Okeechobee Road from the Broward County Line to SR 826/Palmetto Expressway. This work will improve safety, enhance mobility along this Strategic Intermodal Systems (SIS) corridor, and inspire innovative transportation solutions, connecting commuters throughout Miami-Dade County.

For additional information, please call FDOT's Public Information Office at (305) 470-5349 or contact the Senior Community Outreach Specialist Maria Alzate at (305) 560-8218 or by email at Maria.Alzate@dot.state.fl.us. You can also visit, www.southflroads.com/okeechobee.

Drivers are encouraged to log on to www.fl511.com before they travel to get real-time traffic and lane closure information. The Florida Department of Transportation reminds motorists to always drive safely and avoid distractions while driving. Remember to put

down cell phones. Florida law restricts motorists from using a wireless device in a school zone or an active construction zone.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
