### **New Traffic Pattern for Northbound I-95 Drivers Heading to Eastbound I-395 Starts October 24**

MIAMI, Fla. – On **TUESDAY MORNING, OCTOBER 24**, a new traffic pattern will be implemented for drivers on northbound I-95 heading to eastbound I-395 to open newly constructed bridges.

Drivers on northbound I-95 will continue to use exit 2D and be diverted to the new eastbound I-395 bridges. Drivers wanting to continue to the MacArthur Causeway can stay left onto mainline I-395, and those wanting to exit at NE 2 Avenue or Biscayne Boulevard can use exit 2B on the right. To view a video of the new traffic pattern, please [click here](#). Electronic message boards and other signage will be in place to alert drivers to the new pattern.

Please note that this schedule may change due to bad weather or other unforeseen conditions. The work is part of the I-395/SR 836/I-95 Design-Build Project that will reconstruct the I-395 corridor from the SR 836/I-395/I-95 (Midtown) Interchange to the MacArthur Causeway Bridge.

For additional information, please contact the Florida Department of Transportation Communications Office at 305-470-5349 or Community Outreach Specialist Oscar Gonzalez at 786-280-0983. Additional project information can be found on the project website, [www.I-395miami.com](http://www.I-395miami.com).

Drivers are encouraged to log on to [www.fl511.com](http://www.fl511.com) before they travel to get real-time traffic and lane closure information. The Florida Department of Transportation reminds motorists to always drive safely and avoid distractions while driving. Remember to put down cell phones. Florida law restricts motorists from using a wireless device in a school zone or an active construction zone.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
