### **Traffic shift at the intersection of SR 25/ US 27/Okeechobee Road and NW 154 Street** *Starts October 3*

**MIAMI, Fla.** – On Monday, October 3 the intersection at State Road (SR) 25/US 27/Okeechobee Road and NW 154 Street will be shifted west into the newly poured concrete. This shift will be in place for approximately three months to allow crews to continue the proposed work along the eastside of NW 154 Street. A temporary traffic signal will be installed at the intersection.

**Please note that this schedule may change due to bad weather or other unforeseen conditions.**

This project is part of the corridor wide reconstruction of the SR 25/US 27/Okeechobee Road from the Broward County Line to SR 826/Palmetto Expressway. This work will improve safety, enhance mobility along this Strategic Intermodal Systems (SIS) corridor, and inspire innovative transportation solutions, connecting commuters throughout Miami-Dade County.

For more information about the project or closure, please contact Senior Community Outreach Specialist Maria Alzate at (305) 560-8218 or by email at

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
