### **Westbound I-395 Ramp to Northbound I-95 Traffic Shift August 31**

**MIAMI, Fla.** – On Tuesday morning, August 31, the ramp from westbound I-395 to northbound I-95 will be closed and traffic will be shifted to a temporary single-lane ramp on the left side of the road. Variable Message Signs (VMS) will direct drivers going west on I-395 who want to go north on I-95 to the new temporary ramp.

The temporary ramp will be in place for approximately 16 months while workers build a new permanent two-lane ramp and other I-395 bridges. To view additional information, including a video of the of the ramp shift, please [click here](#).

Please note that this schedule may change due to bad weather or other unforeseen conditions.

The work is part of the I-395/SR 836/I-95 Design-Build Project that will reconstruct the I-395 corridor from the SR 836/I-395/I-95 (Midtown) Interchange to the MacArthur Causeway Bridge, including the construction of a Signature Bridge over NE 2 Avenue and Biscayne Boulevard; double-deck SR 836 from west of NW 17 Avenue to the Midtown Interchange and the replacement of the concrete pavement on I-95 from NW 8 Street to NW 29 Street.

For additional information, please contact Community Outreach Specialist Oscar Gonzalez at 786-280-0983. Additional project information can be found on the project website, [www.I-395miami.com](http://www.I-395miami.com).

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities
