1.0 INTRODUCTION

A Public Involvement Plan (PIP) was executed to provide information on the planned corridor improvements and to obtain input from stakeholders within the community. Please refer to **Appendix A** for the complete PIP document. The PIP outlines the strategies that have been utilized to communicate, advise, and engage interested stakeholders, residents, and business owners along the corridor about the scope, potential impacts, and suggested enhancements to be executed along the Interstate 195 Corridor. Highlights of the public involvement activities conducted during this project are detailed below.

2.0 OUTREACH TOOLS AND STRATEGIES

Several measures were taken to ensure that the public was informed of the project and had a way to communicate their concerns to the department. The following participation tools were used during the I-195 Corridor Planning Study process:

- **Project Fact Sheet** – A fact sheet (English, Spanish, and Creole) was developed to present a project overview, including a map of the study area, the purpose of the I-195 Corridor Planning Study, a project schedule, and key milestones for public involvement to set the framework for community discussion. These were distributed at stakeholder briefings and public meetings. See **Appendix B** for the fact sheets distributed throughout the project.
- **Project Website** – A website (www.fdotmiamidade.com/I195CorridorPlanningStudy.html) with current project information, including all project boards, meeting presentations, and other study information was designed for ease of public access.

Participation strategies were utilized throughout the study to maximize community, stakeholder, and agency engagement:

- **Project Advisory Team (PAT)** – Project Advisory Team was formed to guide the planning process and obtain input from municipalities and other affected agency perspective.
- **Local Government Agencies/Elected Officials Briefings** – One-on-one meetings were held to solicit elected official input on the transportation and other challenges facing their section of the study area, ideas for alternatives to be studied, and guidance on how to best involve their communities in the I-195 Corridor Planning Study. In addition, meetings were also held with local governmental agencies to provide an overview of the study efforts and results.
- **Stakeholders/Community Agencies Meeting** – Meetings were held with stakeholders, business leaders, and community groups to obtain their feedback on the proposed improvements.

3.0 PROJECT ADVISORY TEAM

A Project Advisory Team (PAT), which consisted of representatives from various agencies was assembled as part of the study to serve as agency liaisons and to provide input on the project alternatives and recommendations in order to achieve the project goals. Approximately 11 members were identified through letters sent to each city mayor and agency head requesting them to serve or to appoint a representative. The PAT was comprised of representatives from City of Miami, City of Miami Beach, the Miami-Dade Transportation Planning Organization (TPO), Miami-Dade Department of Transportation and Public Works (DTPW), Miami-Dade Expressway Authority (MDX), South Florida Regional Planning Council (SFRPC), and the Miami-Dade Department of Transportation Planning Organization (TPO). PAT members from quasi-governmental agencies included staff from the Midtown Community Development District (CDD), Wynwood Business Improvement District (BID). Four PAT meetings were held. The PAT was instrumental in conducting interagency coordination and provided collective expertise in developing and analyzing study alternatives. Copies of the request for recommendations and invitation letters are included in **Appendix C**. PAT members for the I-195 Corridor Planning Study are listed in **Table 3-1**.

Figure 1: PAT Meeting #2 - December 5, 2018

Table 3-1: Project Advisory Team Members

No.	Agency	Name	Title
1	Miami-Dade Transportation Planning Organization (TPO)	Lisa Colmenares	Program Development Manager
2	Miami-Dade Transportation Planning Organization (TPO) - Representative	Kevin Walford	Transportation Planner 3
3	Miami-Dade Department of Transportation and Public Works	Caspar Miranda	Highway Engineering
4	City of Miami	Collin Worth	Bicycle Coordinator /Transportation Analyst
5	City of Miami Beach	José González, P.E.	Director of Transportation
6	City of Miami Beach	Lynda Kompelien Westin	Transportation Manager
7	Miami-Dade County Department of Regulatory and Economic Resources	Vinod Sandanasamy	Assistant Planning Director
8	Miami-Dade Expressway Authority (MDX)	Mayra Diaz	Planning Manager
9	South Florida Regional Planning Council (SFRPC)	Isabel Carballo	Executive Director
10	Midtown Community Development District (CDD)	Tariq Bayzid	Field Manager
11	Wynwood Business Improvement District (BID)	Manny Gonzalez	Executive Director

Four meetings covered various topics, discussed below:

- Project Advisory Team (PAT) Meeting #1 (May 23, 2018): Welcome and introductions, PAT members purpose and protocols, project overview.
- Project Advisory Team (PAT) Meeting #2 (December 5, 2018): Present proposed system alternatives and bike/path proposed improvements.
- Project Advisory Team (PAT) Meeting #3 (October 9, 2019): Present results of the screening of Tier 1 alternatives and the alternatives that are identified for the Tier 2 review.
- Project Advisory Team (PAT) Meeting #4 (June 3, 2020): Review results of the screening of Tier 1 and present the results for Tier 2 Performance Measures evaluation.

PAT members provided relevant insight into the study corridor and recommendations that were incorporated into the Build Alternatives. Copies of meeting notes and handouts are included in **Appendices D – G**.

[THIS AREA WAS INTENTIONALLY LEFT BLANK]

4.0 FDOT INTERNAL WORKSHOPS

An internal workshop was held during the development of the CPS, on April 30, 2019. It included FDOT District 6 Management and staff from Intermodal Systems Development, Design, Consultant Management, Traffic Operations, and Transportation Systems Management and Operations. The purpose of the workshop was to brief and seek input from FDOT District 6 Management as well as the Golden Glades Interchange project team, on the Tier 1 Alternatives that were developed.

5.0 LOCAL GOVERNMENT AGENCIES/ELECTED OFFICIALS BRIEFINGS

Coordination meetings and briefings were held with elected officials or their representatives and technical committee within the project area and local government agencies at various times during the project. The goal was to ensure that elected officials and their staff fully understood the project's objectives, the process, and schedule and conversely to ensure that their priorities, values and needs, and concerns were understood and reflected in the project efforts. Meeting notes, presentations, and handouts are provided in **Appendix H**. A list of Local Government Agencies/Elected Officials Briefings is shown below in **Table 5-1**.

Figure 2: BPAC Meeting - February 25, 2020

Table 5-1: Local Government Agencies/Elected Officials Briefings

Local Government Agencies/Elected Officials	Date
City of Miami Beach Mayor Dan Gelber	September 27, 2019, February 24, 2020
Chairwoman Audrey Edmonson, Miami-Dade County Board of County Commissioners, Miami-Dade County Commission, District 3	September 30, 2019
Office of City of Miami Commissioner Keon Hardemon, District 5, Chief of Staff James McQueen	October 1, 2019
Commissioner Ken Russell, City of Miami Commission District 2	October 1, 2019
Commissioner Sally Heyman, Miami-Dade County Commission, District 4	October 1, 2019
Miami-Dade Transportation Planning Organization (TPO) Bicycle Pedestrian Advisory Committee (BPAC)	February 25, 2020

6.0 STAKEHOLDERS/COMMUNITY AGENCIES MEETING

Meetings were held with stakeholders, business leaders, and community groups to obtain input on the proposed improvements. At the meetings, staff were given an update on project developments and were encouraged to share information that could assist the project team in the development of alternatives. Meeting notes, presentations, and handouts are provided in **Appendix I**. Numerous stakeholder meetings have occurred through the life of the project and are listed in **Table 6-1**.

7.0 PUBLIC OUTREACH

This section summarizes the public involvement efforts conducted in preparation for the Public Information Workshops and subsequent coordination.

Public Information Workshops

Two public information workshops were conducted to present the concepts developed in the Interstate (I-195) 195 Corridor Planning Study in accordance with the PIP. The workshops were held to obtain public input on the 3 Build Alternatives. The meeting schedule, locations, and the number of participants are listed in **Table 7-1** below.

Figure 3: Legion Memorial Park - February 12, 2020

Table 7-1: Public Information Workshops Location and Attendance

Public Workshops/Date	Location	# of Participants
Public Information Workshop #1 Wednesday, February 12, 2020 6:30 p.m.- 8:30 p.m.	Legion Memorial Park 6447 NE 7th Avenue Miami, FL 33138	29
Public Information Workshop #2 Thursday, February 13, 2020 6:00 p.m. – 8:00 p.m.	Miami Beach Golf Club 2301 Alton Road Miami Beach, FL 33140	24

The project website was updated to include information showed at the Public Information Workshops. The workshops were advertised through several methods, including:

- Notification emails were sent to 31 state, local elected, and appointed public officials on January 21, 2020.
- Invitations were sent to 3,940 property owners and tenants by first class mail on January 30, 2020.
- Advertisements were placed in the following publications: Miami Herald Neighbors, El Nuevo Herald, Miami Times, and Le Floridien. The ads ran from January 29, 2020, to February 14, 2020.
- Florida Administrative Register (FAR) Vol. 46/24 was posted on February 5, 2020.
- Press release was distributed by FDOT on Feb 3, 2020.
- Project Advisory Team (PAT) members and other interested parties were notified by e-mail twice: February 6, 2020, and February 11, 2020.

Both workshops began with an open house to allow attendees to review the roll plots of the proposed improvements within the study area, followed by a formal presentation with a question and answer (Q&A) session. The presentation provided the need for the project, information on the progress of the study, an overview of the project alternatives, and the project schedule.

Attendees were greeted at the door, given handouts, and asked to sign-in. In addition, each attendee was given a comment form and was encouraged to complete it before they left or to mail it back following the meeting. During the public information workshops a total of eight (8) written comments were received. The questions were regarding several issues such as concern about homes during construction, the effects that vibration may have on them, traffic congestion, and noise concerns. **Appendix J** provides the complete Public Information Workshops Summary Report, including the presentation, roll plots, sign-in sheets, and completed comment forms.

January 2018

EXECUTIVE SUMMARY

I-195 is a major thoroughfare connecting residents and visitors to the City of Miami, Midtown Miami, and the City of Miami Beach. During the I-195 Corridor Planning Study, the study team will engage the various stakeholders to obtain their feedback on existing conditions and proposed improvements. The Miami-Dade Expressway Authority (MDX), and Miami-Dade Transportation Planning Organization (TPO) Bicycle and Pedestrian Advisory Committee (BPAC) are two examples of the governmental entities to participate in the study. Residential and business stakeholder groups such as the Midtown Community Redevelopment Agency (CRA), Midtown Miami Community Development District (CDD), and Wynwood Business Improvement District (BID) will be engaged at key phases to provide input on the mobility needs of the community.

Since this corridor has both local and regional significance, public workshops will be held as a part of this study. The public involvement and outreach activities have been outlined in this document, I-195 Corridor Planning Study (CPS) Public Involvement Plan (PIP). The PIP guides the outreach process, provides a schedule of activities, and describes the purpose of the study. It also ensures that public comments are properly documented, the public is properly notified of meetings, and the team provides numerous opportunities for public input. As required, it ensures inclusion of the public in the transportation planning process.

APPENDIX A – GOVERNMENT DISTRICT MAPS

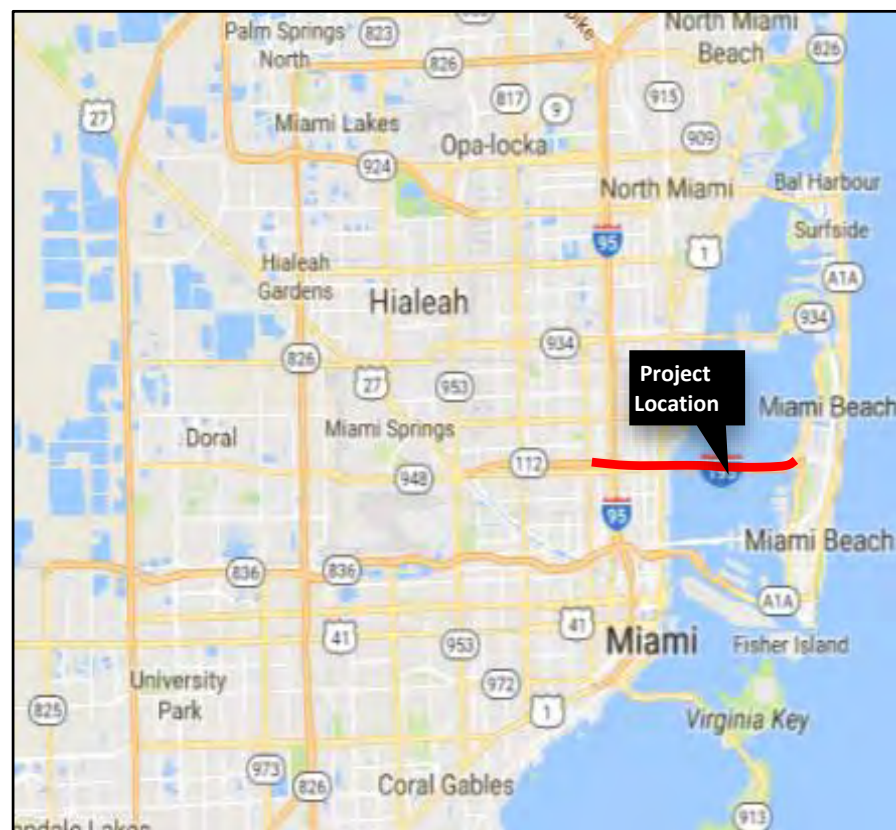

1.0 INTRODUCTION

This Public Involvement Plan (PIP) has been prepared to identify methods to obtain input from stakeholders for the I-195 Corridor Planning Study (CPS). It is envisioned that the PIP will facilitate the development of appropriate goals and objectives for the proposed corridor improvement plan for the I-195 corridor through collaboration with the stakeholders.

Interstate 195 is an important limited access facility in Miami-Dade County providing a direct connection between Miami International Airport (via State Road 112 [SR 112]), Interstate 95, and the densely populated areas of Miami Beach. One of two limited access facilities in Miami-Dade County connecting the mainland to the barrier island, I-195/SR 112 carries approximately 130,000 vehicles daily. The corridor provides interchange access to several neighborhoods recently experiencing significant growth including the Design District, Midtown, and Wynwood in the City of Miami. Travel demand in this corridor, is expected to increase over the next 30 years due to continued growth that is anticipated within both the City of Miami and the City of Miami Beach. Opportunities for geometric expansion along the corridor are constrained due to limited right-of-way.

The purpose of this study is to evaluate existing conditions, deficiencies, identify needs, and develop as well as evaluate improvement concepts. The study will include the evaluation of interchanges, interchange influence areas, and ramp junctions within the study area to identify deficiencies focusing on recurring bottlenecks. A series of proposed multi-modal solutions will be developed to address existing and future long-term demands of the corridor. **Exhibit 1-1** on the next page, shows the project location and study limits.

This PIP is a working document subject to updates and amendments throughout the duration of the corridor planning study as appropriate. In addition to the methods to obtain stakeholder input, responses to public inquiries will be prepared for use by the Florida Department of Transportation (FDOT) as part of the public involvement process. This PIP has been developed using the guidelines contained in the *FDOT Public Involvement Handbook, July 2015*.

2.0 PUBLIC INVOLVEMENT REQUIREMENTS

This PIP follows federal and state regulations as well as procedures and policies established by the Department that identify the requirements for the public involvement activities to be conducted as part of this corridor planning study. The key objectives identified by these requirements include:

- Develop early and continuous public involvement;
- Ensure inclusive practices in activities and notification;
- Consider needs of the traditionally underserved;
- Collaborate with other agencies, local governments, private sector transportation entities, and non MPO officials;
- Identify convenient meeting times and locations;
- Provide reasonable access to information;
- Timely notice of public involvement activities, including appropriate review and comment periods; and
- Acknowledge and consider public comments.

Tables 2-1 and **2-2** on the following pages, respectively summarize the key federal and state requirements for the public involvement process as outlined in the *FDOT Public Involvement Handbook, July 2015*.

[THIS AREA WAS INTENTIONALLY LEFT BLANK]

Table 2-1: Summary of Public Involvement Regulations – Federal

Regulation	Requirements
<i>Americans with Disabilities Act of 1990 (ADA)</i>	<ul style="list-style-type: none"> ■ Title II of this Act, 42 United States Code (USC) Sections 12131 - 12134, prohibits the exclusion of persons with disabilities from participation in services, programs, or activities of a public entity. This is the basis for the Department's standard language (see Part 1, Chapter 11, Section 11-2.4 of the Project Development and Environment [PD&E] Manual) regarding accommodating persons with disabilities for such issues as hearing or visual impairment. ■ Title III of this Act, 42 USC Sections 12181-12189, requires public accommodations to provide equivalent access to individuals with disabilities. This is important for public involvement activities, as the locations of public meetings, workshops, and hearings should be accessible.
<i>Title VI of the Civil Rights Act of 1964 and Other Nondiscrimination Laws</i>	<ul style="list-style-type: none"> ■ Title VI, 42 USC Sections 2000d-2000d-1, prohibits federally assisted programs from discrimination based on race, color, or national origin. Since public funds are comprised of contributions from taxpayer of all races, colors, and national origins, fairness requires that federal activities receiving such funds be conducted in a manner that discourages racial discrimination. ■ Age Discrimination Act of 1975, 42 USC Sections 6101-6107, prohibits federally assisted programs from discrimination based on age.
<i>Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations</i>	<ul style="list-style-type: none"> ■ Directs federal agencies to identify and address any disproportionately high and adverse human health or environmental effects of their actions on minority and low income populations. ■ Requires each agency to develop a strategy for evaluating environmental justice. ■ Promotes access by minority and low income communities to public information and public participation.
<i>Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency</i>	<ul style="list-style-type: none"> ■ Requires agencies to develop plans so that people for whom English is not their native language or who have a limited ability to read, speak, write, or understand English can have meaningful access to the services provided. ■ Requires recipients of federal funding to also provide meaningful access.
<i>23 USC, Highways</i>	<ul style="list-style-type: none"> ■ Section 109(h) requires the consideration of possible adverse effects on the human and natural environment as part of the project development process. ■ Section 128 requires public hearings and consideration of environmental impacts as part of planning projects for Federally aided highways. ■ Section 135 requires participation by interested parties in the development of statewide and nonmetropolitan transportation planning.
<i>23 CFR, Federal Highway Administration (FHWA), Department of Transportation (DOT)</i>	<ul style="list-style-type: none"> ■ Part 450, Section 210 states that interested parties, public involvement, and consultation, requires the state to "develop and use a documented public involvement process that provides opportunities for public review and comment at key decision points." This is the basis for the Department's public involvement program. ■ Part 771, Section 111 establishes the importance of early agency coordination and public involvement in the environmental review process.
<i>National Environmental Policy Act (NEPA) of 1969</i>	<ul style="list-style-type: none"> ■ Codified in 42 USC, Chapter 55, Sections 4321-4370, this law: <ul style="list-style-type: none"> - Established the Environmental Protection Agency (EPA), the National Oceanic and Atmospheric Administration (NOAA), and the Council on Environmental Quality (CEQ), which oversees the implementation of NEPA; - Requires federal agencies to consider environmental impacts as part of their planning and decision making processes; and - Established requirements for environmental impact reviews. ■ 40 CFR, Chapter V, Parts 1500-1508 implement the requirements of NEPA, providing procedural provisions and administration of the NEPA process, including preparation of environmental documents, the process for inviting and documenting comments, addressing interagency disputes, and defining roles and responsibilities of agencies. Section 1506.6 establishes the requirements for public involvement during the NEPA process, including preparation of environmental documents, the process for inviting and documenting comments, addressing interagency disputes, and defining roles and responsibilities of agencies. ■ Section 1506.6 establishes the requirements for public involvement during the NEPA process.

Source: FDOT Public Involvement Handbook, July 2015

Table 2-2: Summary of Public Involvement Regulations - State

Regulation	Requirements
<i>Executive Order 07-01, Section 2 - Plain Language Initiative</i>	<ul style="list-style-type: none"> ■ The purpose of this initiative is to ensure that announcements, publications, and other documents provided by state agencies contain "clear and concise" information. Specific requirements <ul style="list-style-type: none"> - Use of common language instead of technical jargon, - Providing only the pertinent information in an organized manner, - Use of short sentences and active voice, and - Layout and design that are user friendly.
<i>Section 120.525, FS, Administrative Procedures Act</i>	<ul style="list-style-type: none"> ■ Requires notice of public meetings, hearings, and workshops by publication in the Florida Administrative Register (FAR) and on the agency's website, no less than seven (7) days prior to the event. ■ Includes the general subject matter to be considered. ■ Requires an agenda (containing the items to be considered in order of presentation) to be prepared and published on the agency's website.
<i>Section 286.011, FS, Public Business (Government in the Sunshine)</i>	<ul style="list-style-type: none"> ■ Declares all meetings of any board or commission of any state, county, municipal, or political subdivision, agency, or authority to be public meetings that are open to the public at all times. ■ Requires reasonable notice of all such meetings. ■ Requires minutes of any such meeting to be available for public inspection. ■ Prohibits public meetings from being held at a facility or location that discriminates on the basis of sex, age, race, creed, color, origin, or economic status or that otherwise restricts public access. ■ Establishes penalties for violation of these provisions and exceptions for specific situations.
<i>Section 286.29, FS, Public Business (Green Lodging)</i>	<ul style="list-style-type: none"> ■ Requires state agencies to contract for meeting and conference space only with hotels or conference facilities that have been designated as Green Lodging facilities by the Florida Department of Environmental Protection (FDEP).
<i>Section 335.199, FS, State Highway System (Access Modification)</i>	<ul style="list-style-type: none"> ■ Requires notification of all affected property owners, municipalities, and counties at least 180 days prior to design finalization of any project on the State Highway System that modifies or otherwise affects access to the facility. ■ Requires at least one public hearing in the jurisdiction where the project is located.
<i>Section 339.155, FS, Transportation Finance and Planning</i>	<ul style="list-style-type: none"> ■ Establishes procedures for public participation in transportation planning, including: <ul style="list-style-type: none"> - Providing an opportunity for comment on the TIP, Requiring one or more public hearings to be held during the development of major transportation improvements,
<i>Jessica Lunsford Act</i>	<ul style="list-style-type: none"> ■ Codified in Title XLVIII K-20 Education Code, Chapter 1012 Personnel, §1012.465-1012.468, this law requires background checks of any person entering school grounds when children are present. As a result of this, FDOT adopted a policy that K-12 educational facilities should not be used for public meetings and hearings.

Source: FDOT Public Involvement Handbook, July 2015

3.0 KEY STAKEHOLDERS

The Department has identified key stakeholders for the public involvement activities that will be directed towards city, county, and regionally elected officials as well as appointed officials.

3.1 Project Advisory Team

A Project Advisory Team (PAT) will be established to provide overall guidance to the study team for the I-195 corridor planning study. The PAT will comprise representatives from a wide range of government as well as quasi-governmental entities reflecting a cross section of interests that would need to be considered as the study progresses. The PAT will include representatives from:

- The Miami-Dade Transportation Planning Organization (TPO);
- Miami-Dade Transit;
- City of Miami and City of Miami-Beach;
- Miami-Dade County;
- Miami-Dade Expressway Authority (MDX);
- South Florida Regional Council (SFRC);
- Federal Highway Administration (FHWA);
- Florida Highway Patrol; and
- Other Stakeholders identified in collaboration with the Department (such as the Miami Design District).

Four PAT meetings will be held throughout the project's duration. **Table 3-1** on the following pages, presents a summary of the stakeholders and their contact information.

3.2 Elected and Government Officials

The study corridor traverses areas of Miami-Dade County that are within the jurisdictions of many levels of government including state, county, and municipal. This PIP anticipates coordinating with elected officials at each level including:

State Level

- Florida House of Representatives for Districts 108, 109, and 113.
- Florida State Senator for District 38.

County Level

- Miami-Dade County Commissioners for Districts 3, 4 and 5.

Municipal Level

- City of Miami
 - Mayor and/or City Manager.
 - Commissioners Districts 2 and 5.
- City of Miami-Beach Mayor and/or City Manager.

Excerpts of District Maps for state, county and city governments are included in **Appendix A**. The PIP includes individual meetings with these elected officials at various stages of the I-195 CPS. In addition, presentations before the City of Miami Commission and the City of Miami Beach Commission are included as part of this PIP. **Table 3-1** on the following pages also presents a summary of these stakeholders and their contact information.

3.3 Quasi-Governmental Agencies

The PIP will include coordination with several quasi-governmental agencies with an interest in the project including:

- Midtown Community Development Agency (CRA);
- Midtown Miami Community Development District (CDD);
- Wynwood Business Improvement District (BID);
- Miami-Dade TPO Bicycle Pedestrian Advisory Committee (BPAC);
- Miami-Dade TPO Transportation Planning Council (TPC); and
- Miami-Dade TPO Citizens' Transportation Advisory Committee (CTAC).

Table 3-1 on the following pages also presents a summary of the stakeholders and their contact information.

3.4 General Public

Public engagement for the I-195 CPS will be facilitated in this PIP through two public workshops; one within the City of Miami and one within the City of Miami-Beach. At a minimum, it is anticipated that public outreach efforts will focus on the following neighborhoods surrounding the study corridor:

- Allapattah lies west of the I-95 Interchange, to the south.
- Model City lies west of the I-95 Interchange, to the north.
- Little Haiti/Upper East Side neighborhood designation applies to the large area east of I-95 and north of I-195. Several distinct communities are present. The neighborhoods contained within the southern extreme of the Little Haiti/Upper East Side designation are Buena Vista West and Buena Vista East, or simply Buena Vista, which encompasses the commercial Design District as well as residential areas. A sizable number of residents in this area speak Creole and English.
- The Upper East Side neighborhood designation applies to a large area east of the aforementioned Little Haiti/Buena Vista area; it is limited by NE 2nd Avenue to the west and Biscayne Bay to the east. Within this designation, there are smaller neighborhood units, including Brentwood, Bay Point, and Magnolia Park. The Brentwood name applies to a small wedge of mostly commercial/industrial land along the FEC Railroad corridor and west of Biscayne Boulevard. The Bay Point neighborhood is a walled and gated community of up-scale homes located between Biscayne Boulevard and Biscayne Bay on a series of canals. This exclusive community starts north of NE 39th Street and extends northward to NE 50th Street, next to the southern edge of the City of Miami's Morningside Bayfront Park. The Magnolia Park neighborhood encompasses a very small area inland from the parkland and east of Biscayne Boulevard. The southern limit of Magnolia Park is the I-195 mainline. The northern limit is NE 39th Street, which abuts Bay Point. The economic health and growth of the Design District is important to the larger area, beyond the surrounding neighborhoods. The majority of the Little Haiti/Upper East Side neighborhoods are sufficiently distant from the I-195 corridor so as to be unaffected by the project actions, other than indirectly benefitting from any economic stimulus of the Design District. Of this unit, only the southern neighborhood element, that is, the Buena Vista neighborhood, will be affected by the proposed project.

- Wynwood, Boulevard, and Edgewater are the potentially affected neighborhoods located on the south side of the project corridor. The Wynwood area occupies the western half of the corridor, from the I-95 corridor to Miami Avenue. Residential land use begins south of the commercial strip of NW/NE 36th Street. Wynwood contains a mix of residential, commercial, and industrial land uses and lies north of Overtown. Edgewater is a better-defined unit, extending from Biscayne Boulevard to Biscayne Bay, with downtown to the south and the I-195 mainline as the northern limit. Edgewater and Boulevard are combined as one unit for analysis in this study.

[THIS AREA WAS INTENTIONALLY LEFT BLANK]

Table 3-1: Stakeholder Contact List

Notes:

1. To be identified in consultation with FDOT D6

2. A separate contact log will be created of members of the public who provide comment or feedback during the study process.

4.0 PUBLIC INVOLVEMENT TOOLS and TECHNIQUES

This PIP will use a variety of methods to disseminate information about the I-195 CPS and promote public involvement activities. The PIP outlines the plan to work with the media as well as the potential for using innovative techniques to expand the sphere of influence for public involvement including utilizing social media to provide project information.

4.1 Working with the Media

Working with the District Public Involvement Officer, every effort will be undertaken to develop a clear and consistent message for the media to mitigate the potential for disseminating information that could be determinantal to public perception of the project. Accordingly, the PIP will focus on crafting a simple and easily understood message to include relatable themes such as the project's potential to improve job creation, increase mobility for people as well as goods and preserve the environment.

4.1.1 Press Releases/Fact Sheets

Press releases will be issued at key project milestones. The press releases will follow the Plain Language Initiative Guidelines as outlined in **Table 2-2** of this PIP.

A project fact sheet will be prepared that includes facts about the project, information on future public involvement activities and contact person for more information. Visual illustrations of the project will be prepared. All collateral materials will be made available to FDOT for dissemination as appropriate on the Department's website. If necessary, a standalone project website can be established as an optional service task upon authorization by the FDOT.

4.1.2 Media Outlets

Diverse media sources will be targeted to ensure a wide range of constituents are notified in advance of the public workshops and commission meetings. A list of media contacts will be developed in coordination with the District Public Information Officer (PIO) to be maintained throughout the life of the study. Public workshops will be advertised in English, Spanish, and Creole in the identified publications prior to the public meeting.

[THIS AREA WAS INTENTIONALLY LEFT BLANK]

5.0 PUBLIC MEETINGS and STAKEHOLDER COORDINATION

Public meetings will be held to share project information with and receive input from the various stakeholders described in **Section 3.0** of this PIP. Stakeholder coordination will include group meetings with the PAT, presentations to the City Commissions, Individual meetings with elected officials, and public workshops. The PIP will use the following basic steps for planning and conducting the stakeholder meetings:

- Establish the meeting purpose;
- Determine audience, appropriate format, time and location;
- Select appropriate meeting facility;
- Notify stakeholders about the meeting ahead of time;
- Prepare for meeting;
- Conduct meeting using innovative techniques as appropriate;
- Communicate using plain language; and
- Document and evaluate effectiveness of meeting.

Project Advisory Team – Meetings with the PAT will be used to present important project information for vetting and feedback ahead of subsequent meetings with other project stakeholders. Four PAT meetings will be held at key study milestones including:

- Meeting #1 - Introduce the project and discuss existing traffic deficiencies;
- Meeting #2 – Review No-Build traffic conditions and present Tier 1 alternatives for review;
- Meeting #3 – Review screening and Tier 2 alternatives; and
- Meeting #4 – Present Final study recommendations.

Exhibit 5-1 on the following pages outlines the timing of when the PAT meetings will be held.

Meeting with Elected Officials – Meetings held with elected officials noted in **Section 3.2** of this PIP will be conducted in two phases:

- The first group of meetings will be held after the second PAT meeting where No-Build future traffic conditions and Tier 1 alternatives would have been reviewed and vetted at the project advisory team level.
- The second group of meetings will be held after the fourth and final PAT meeting where “Final” Study Recommendations would have been reviewed and vetted at the project advisory team level.

Exhibit 5-1 on the following pages outlines the timing of when the meeting with elected officials are proposed to be held.

Presentations – Presentations will be made to quasi-governmental entities (ref. **Section 3.3** of PIP), City Commissions (Miami and Miami Beach) and at public workshops:

- Quasi-Governmental Agencies - A total of eight presentations to quasi-governmental agencies will be made during the study as follows:
 - The Midtown CRA - one presentation;
 - The Midtown Miami CDD - one presentation;

- The Wynwood BID - one presentation;
 - Miami-Dade TPO BPAC, - one presentation;
 - Miami-Dade TPO TPC - two presentations; and
 - Miami-Dade TPO CTAC -two presentations.
-
- Public workshops - Two public workshops; one within the City of Miami and one within the City of Miami-Beach will be held in an open-house format with a brief opening presentation. The public workshops in each municipality will be held in quick succession. The screening and evaluation of alternatives to be developed will be presented to obtain public feedback. In this forum, the public will be able to review project exhibits and ask questions of the study team. Public input from these workshops will be gathered and followed up with written responses as appropriate.

 - City Commission Meetings – The study team will present at two city commission meetings (City of Miami and City of Miami Beach). Handouts, presentation graphics, and summary notes of meetings will be prepared. The presentations will be conducted after the third PAT meeting in which the screening and Tier 2 alternatives would have been reviewed and vetted at the project advisory team level.

Exhibit 5-1 on the following page outlines the timing of when all the presentations are expected to be made.

[THIS AREA WAS INTENTIONALLY LEFT BLANK]

Public Meeting Sites – The proposed locations for many of the stakeholder meetings/presentations will likely be conducted in meeting rooms directly located within or near the sites housing the day to day operations of key stakeholders. The selection of the meeting sites (particularly for meetings open to the general public) will conform to the federal and statutory requirements summarized in **Section 2.0** of this PIP in regard to access (ref. Americans with Disabilities Act -1990) and security (ref. Jessica Lunsford Act). **Table 5-1** presents a summary of the likely meeting sites for stakeholders.

Table 5-1: Proposed Stakeholder Meeting Sites

Stakeholder	Number of Meetings	Meeting Place
Project Advisory Team	Four (4)	Likely at FDOT District 6 Office, though more centrally located site(s) are being researched
Elected / Appointed Officials (Municipal / County)	Ten (10)	Likely at Local Office(s) of officials
Elected / Appointed Officials (State)	Unscheduled (To Be Determined)	Likely at Local Office(s) of officials
Presentations (Quasi-Governmental)	Eight (8)	Likely to be held in meeting rooms directly located within or near the sites containing the day to day operations of key stakeholders. To be determined.
Presentations (City Commissions)	Two (2)	Commission Chambers at City Halls within the City of Miami and City of Miami Beach respectively
Presentations (Public Workshops)	Two (2)	One central location within the City of Miami and one with the City of Miami Beach.

[THIS AREA WAS INTENTIONALLY LEFT BLANK]

6.0 DOCUMENTATION

The study team will document all comments received during public meetings as well as comments received throughout the study. These comments will be compiled and maintained in a project file. To ensure study materials are accessible to the public, all presentations, display boards and other key documents will be made available to FDOT for dissemination as appropriate on the Department's website. If necessary, a standalone project website can be established as an optional service task upon authorization by the FDOT.

At the end of the study, a public involvement activities report will be prepared. The report will summarize the project information presented to agencies, elected officials, and the public. The report will contain the project purpose and need, the PIP contact lists, schedule of activities, materials, maps, invitations, flyers, comment cards and photos of any community interaction relating to this corridor planning study. The report will include:

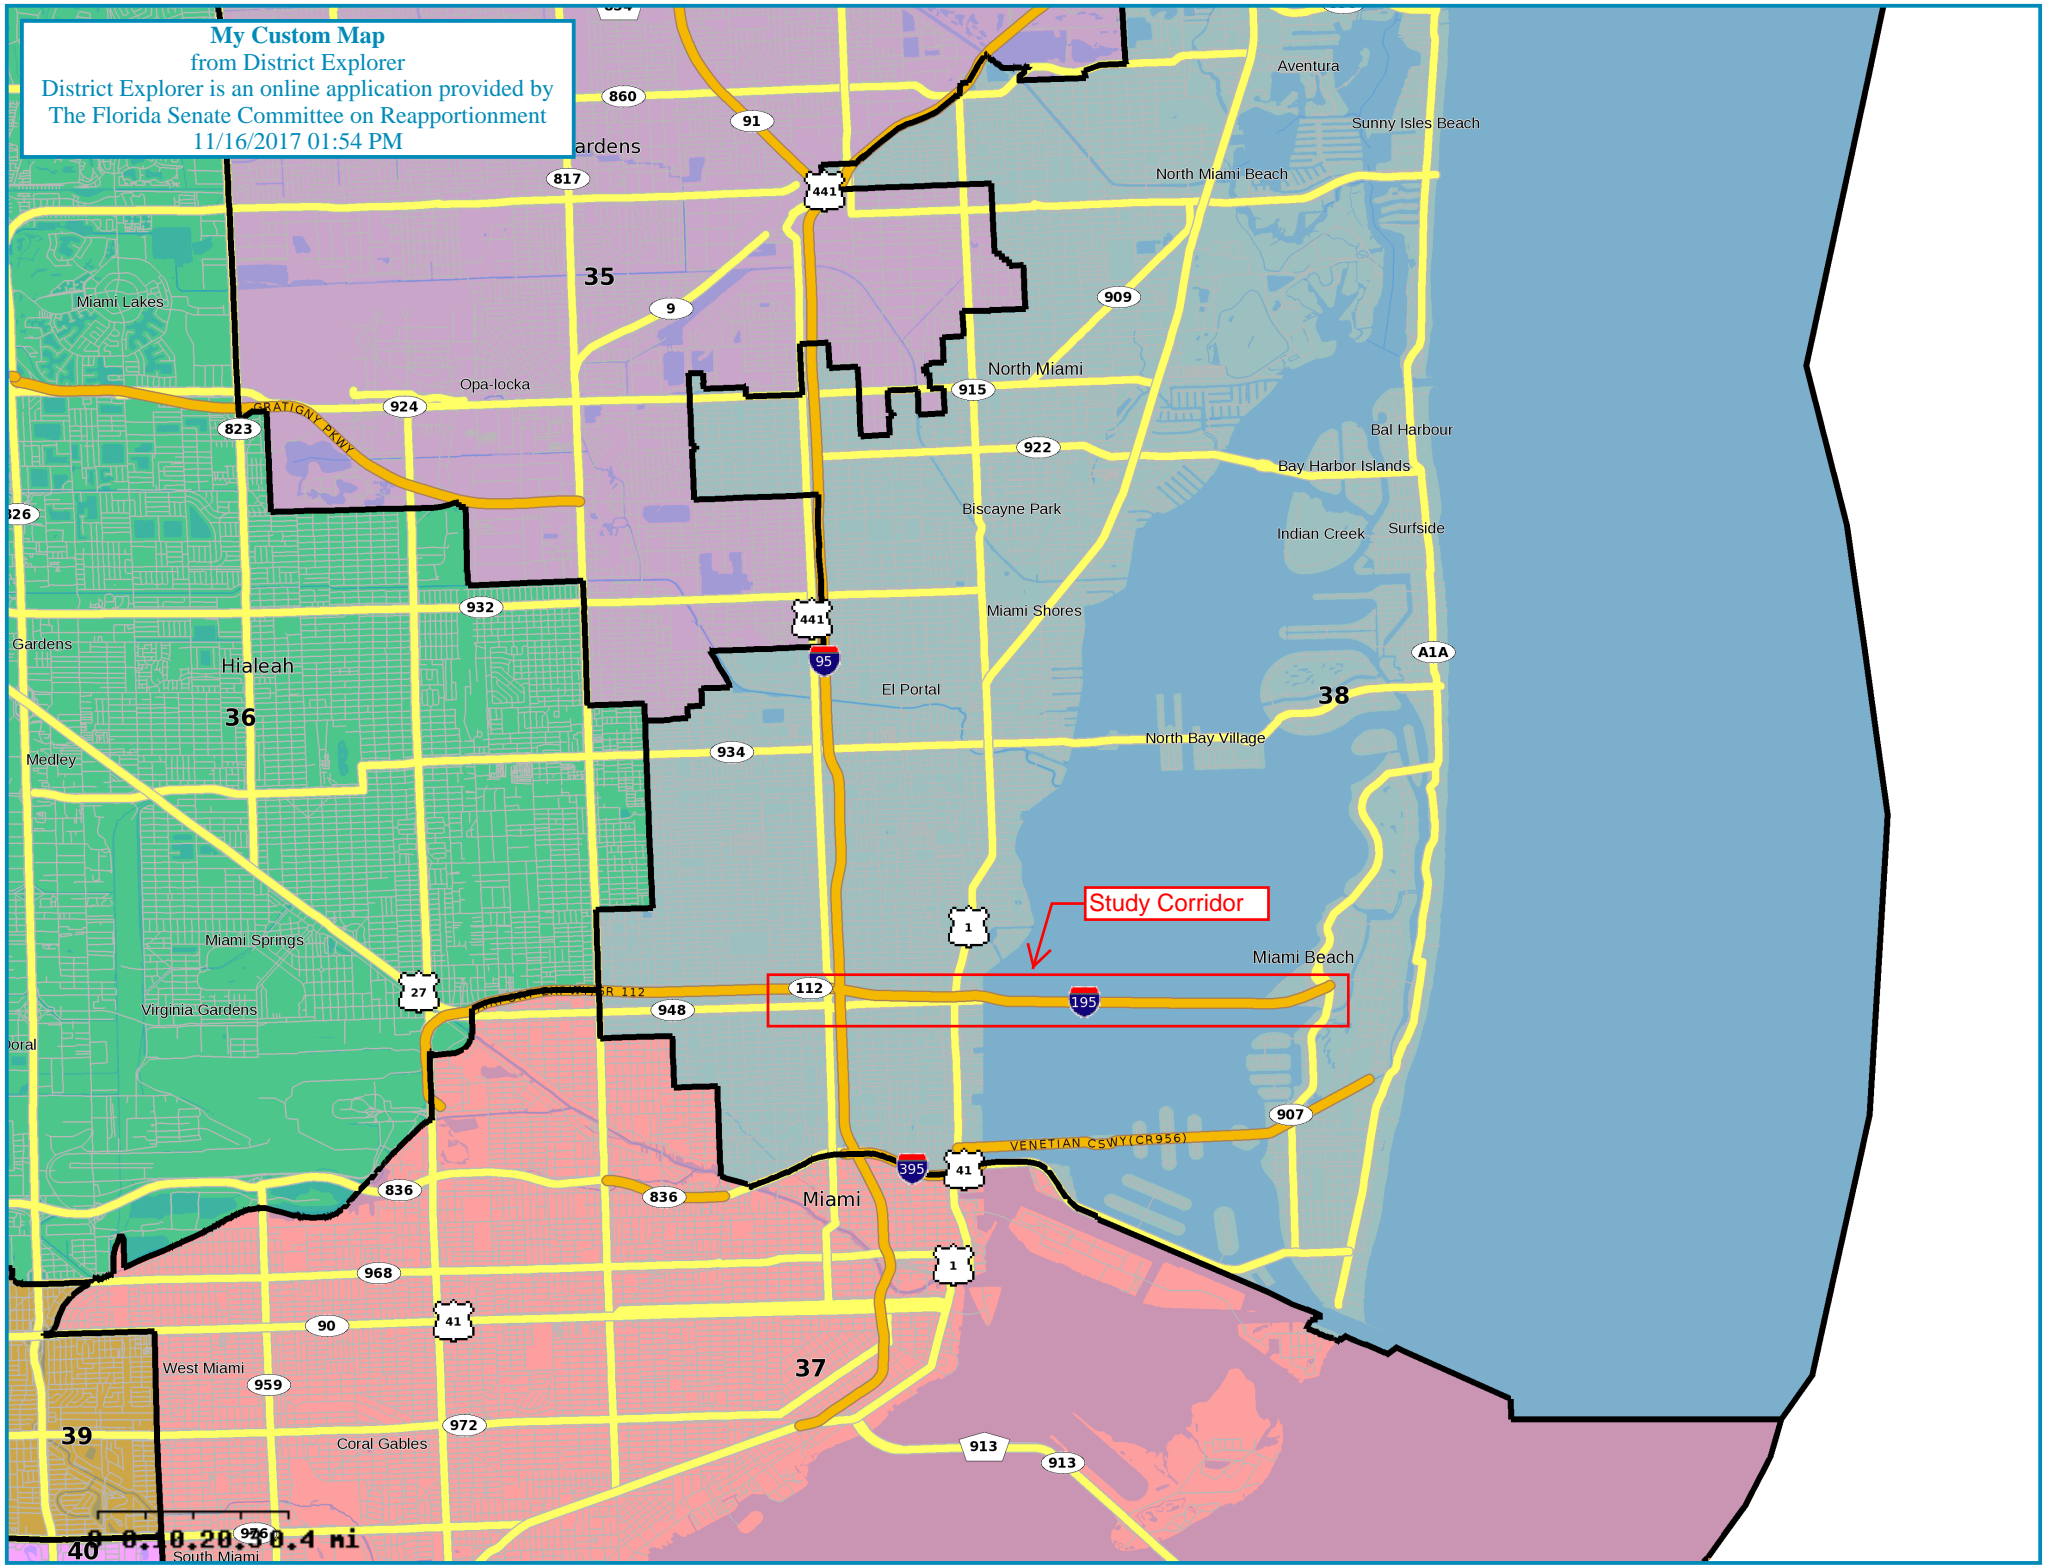

- A compilation of public involvement activity results using charts, graphs, photographs, newspaper articles, video clips, and other materials as appropriate; and
- A summary and presentation of the findings in clear and concise language.

APPENDIX B
PROJECT FACT SHEETS

Interstate 195 Corridor Planning Study

From NW 12th Avenue to SR 907/Alton Road
Miami-Dade County, Florida | FPID No.: 440228-1-22-01

PROJECT DESCRIPTION

In May 2018, the Florida Department of Transportation (FDOT) initiated the Interstate 195 Corridor Planning Study at Interstate 95 from NW 12th Avenue to SR 907/Alton Road. This Planning Study is being conducted to evaluate the existing interchange and ramp deficiencies in order to identify improvements that will accommodate the future needs of all transport modes.

Interstate 95 is a limited access facility in Miami-Dade County providing a direct connection between Miami International Airport (via State Road 112), Interstate 95, and the City of Miami Beach. This facility also provides access to rapidly growing areas of Wynwood, Midtown Miami, and the Miami Design District. It also serves as a major access thoroughfare providing connections to densely populated City of Miami Beach and SR 5/US 1/Biscayne Boulevard corridor. The interchange traverses two municipalities: City of Miami and City of Miami Beach and provides access to several neighborhoods including Buena Vista, Wynwood, Morningside, Little Haiti, and Allapattah.

PROJECT PURPOSE & NEED

The primary purpose of this project is to analyze the existing conditions and deficiencies of the interchange, and identify needs based on future travel demand. The study will also identify multiple alternatives to develop improvements for the mainline and system-to-system connections. The study will also evaluate the feasibility of providing a connection from the City of Miami to the City of Miami Beach for bike/pedestrian users.

Significant congestion is a critical issue during peak periods at the ramp exits. Several challenges have been identified in surrounding areas including pedestrian unfriendliness, access management and safety, transit facilities and reliability, adequate parking conditions, high off-peak vehicular speeds, and the need for improved access to residential areas. In addition, there are several planned high-rise residential and mixed-use developments along SR 5/US 1/Biscayne Boulevard. These proposed mixed-use developments will increase the traffic demand and further exacerbate the existing congestion and safety concerns along the project corridor.

COMMUNITY OUTREACH

The goal of our public involvement program for this planning study is to inform and engage interested stakeholders, residents and business owners along the corridor. Our public involvement began

in the spring of 2018 and will continue throughout the study.

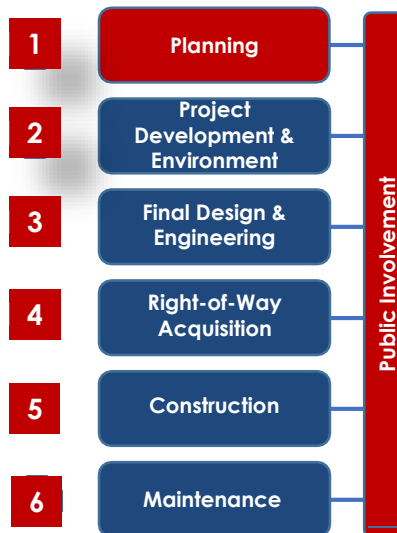

A Project Advisory Team (PAT) was established to advise the Department and build consensus for the future operations of the corridor. PAT members represent municipalities, local agencies, transportation authorities, and quasi-governmental organizations including Wynwood Business Improvement District (BID), Midtown Community Development Agency (CRA), and Midtown Miami Community Development District (CDD).

Through the Project Advisory Team meetings and community outreach, FDOT will ensure that all stakeholders have a sound understanding of the project scope, potential impacts are clearly communicated, and the recommended improvements are consistent with the general consensus of the stakeholders.

PROJECT SCHEDULE

The planning study began in May 2018 and is anticipated to be completed by August 2019. This project is in the planning phase of the transportation development process. During this phase, existing and expected future transportation issues will be identified and recommendations developed to address these issues and move the project into the next phase of the transportation process.

STUDY OBJECTIVES

- ✓ Provide a basis for a Project Development and Environment (PD&E) study for the corridor.
- ✓ Evaluate existing and future demand/operations of the corridor and interchanges.
- ✓ Develop improvements for mainline and system-to-system connections to improve operations and safety.
- ✓ Develop improvements to provide a dedicated bicycle/pedestrian connection between the City of Miami Beach and the City of Miami.
- ✓ Evaluate the potential community impacts and costs of the conceptual improvements.
- ✓ Inform the community about the potential improvements and study findings through multiple public workshops in Feb. 2020.

STUDY DESCRIPTION

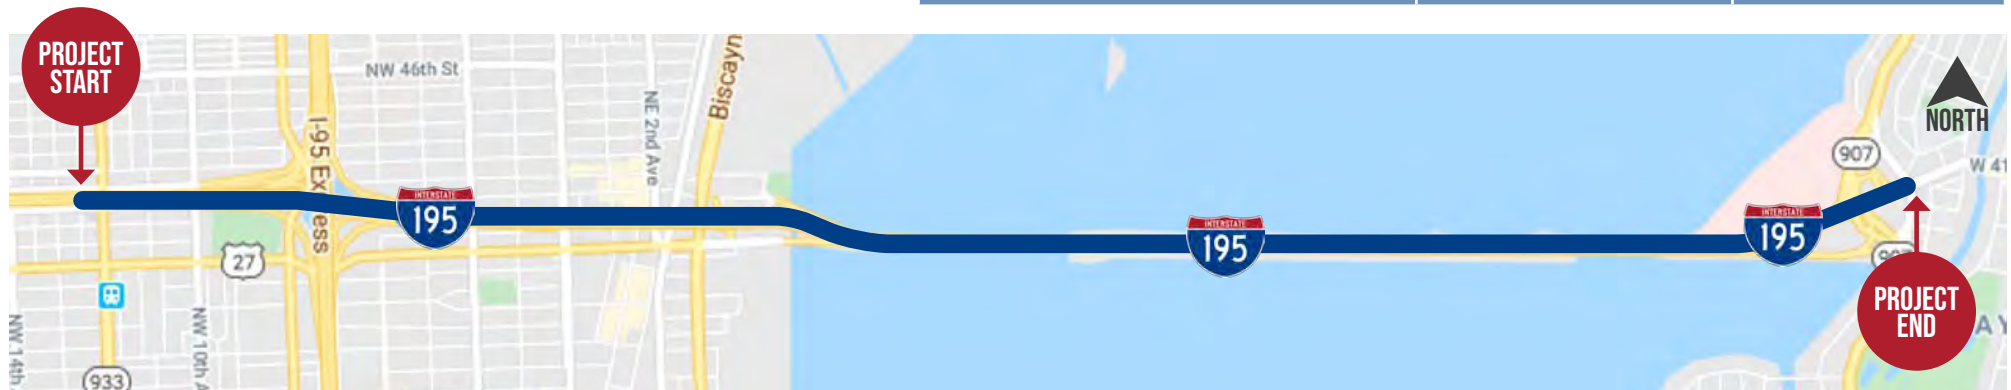

The Interstate 195 (I-195) Corridor Planning Study focuses on the 5-mile corridor along SR 112/I-195 from west of I-95 to Alton Road within the limits of Miami-Dade County to identify operational and safety improvements. The study area examines operations and conditions at interchange influence areas and ramp connections. The project also includes the development of performance measures, safety and operational analyses focusing on areas of recurring congestion, conceptual improvement development and evaluation, connectivity to the I-95 express lanes, cost estimating, and impact analyses.

DESKRIPSYON ETID LA

Etid Plannifikasyon Koridò pou Interstate 195 (I-195) la ap konsantre sou koridò ki gen longè 5 mil la, ki kouri sou SR 112/I-195 depi pati wès I-95 pou rive Alton Road, anedan limit Miami-Dade County, pou idantifye amelyorasyon pou operasyon ak sekirite. Etid nan zòn lan ap analize operasyon ak kondisyon ki genyen nan zòn ki anba enfluyans granwout la ak konneksyon pou ranp yo. Pwojè a genyen ladan tou, devlopman mwayen pou mezire pèfòmans, analiz sekirite ak operasyon ki konsantre sou zòn ki konn gen anbouteyaj yo, amelyorasyon ak evalyasyon konsepsyon mwayen pou konekte vwa rapid I-95 yo, estimasyon depans, ak analiz enpak.

OBJEKTIF ETID LA

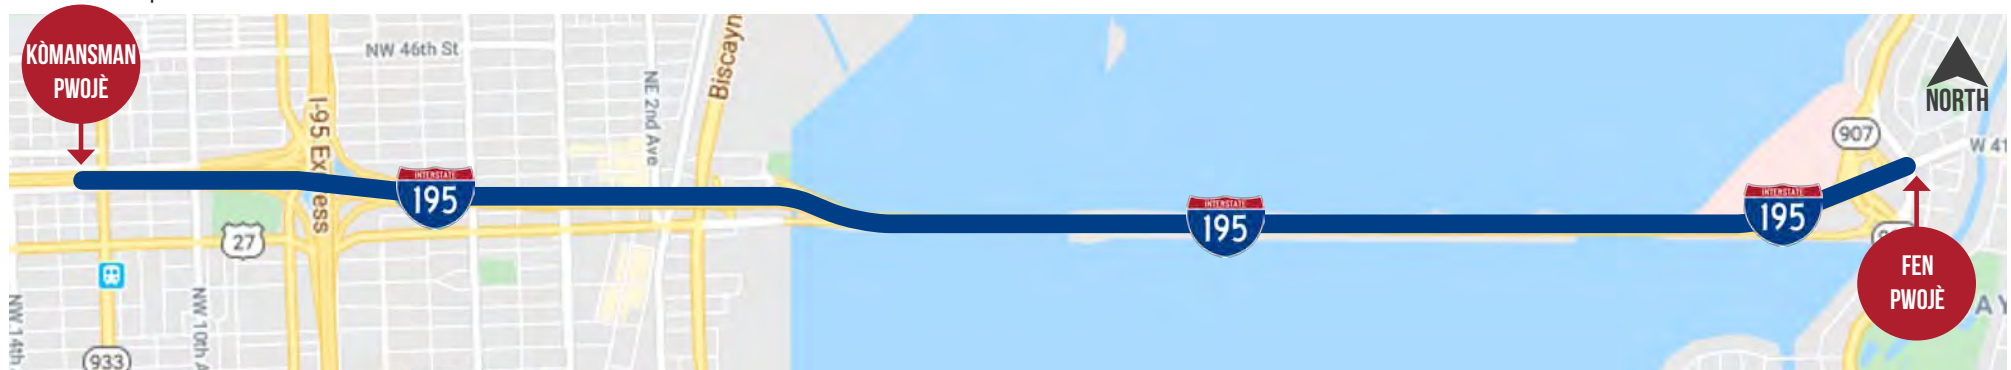

- ✓ Tabli yon baz pou yon etid sou Pwojè Devlopman ak Enviwonman (PD&E) nan koridò a.
- ✓ Evalye demann/operasyon aktyèl ak pwochen nan koridò a ak echanj.
- ✓ Devlope amelyorasyon pou konneksyon prensipal ak konneksyon sistèm avèk sistèm, pou amelyore operasyon ak sekirite.
- ✓ Devlope amelyorasyon pou pèmèt konneksyon rezève pou bisiklèt/pyeton ant Vil Miami Beach ak Vil Miami
- ✓ Evalye enpak kominotè ak depans potansyèl pou amelyorasyon yo konsevwa.
- ✓ Fè kominote a konnen amelyorasyon potansyèl ak rezilta etid yo, nan plizyè atelye enfòmasyon pandan mwa fevriye 2020 an.

KALANDRIYE PWOJÈ

Kòmanse: Out 2017 | **Fini:** Jen 2020

OBJETIVO DEL ESTUDIO

- ✓ Proporcionar una base para el Estudio del Proyecto de Desarrollo y Medio Ambiente (PD&E, Project Development and Environment) del corredor.
- ✓ Evaluar las operaciones y las demandas existentes y futuras del corredor y los intercambios.
- ✓ Desarrollar mejoras para la vía principal y las conexiones entre sistemas para mejorar las operaciones y la seguridad.
- ✓ Desarrollar mejoras para proporcionar una conexión dedicada para bicicletas y peatones entre la Ciudad de Miami Beach y la Ciudad de Miami.
- ✓ Evaluar los posibles impactos en la comunidad y los costos de las mejoras conceptuales.
- ✓ Realizar talleres públicos en febrero de 2020 para informar a la comunidad sobre las posibles mejoras y los hallazgos del estudio.

DESCRIPCIÓN DEL ESTUDIO

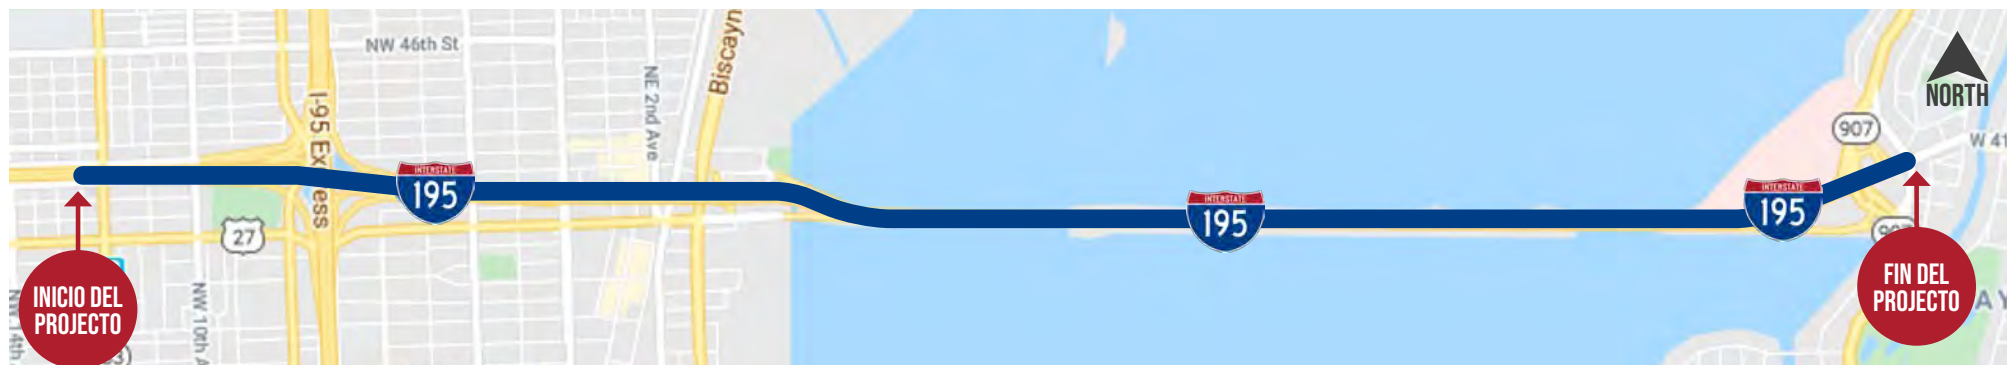

El Estudio de planificación del corredor de la carretera interestatal 195 (I-195) se centra en el corredor de 5 millas a lo largo de SR 112/I-195 desde el occidente de I-95 hasta Alton Road, dentro de los límites del condado de Miami-Dade, e identifica mejoras operacionales y de seguridad. El área del estudio examina operaciones y condiciones en las áreas de influencia del intercambio y las conexiones de rampas. El proyecto incluye el desarrollo de medidas de desempeño, análisis operacionales y de seguridad que se centran en áreas de congestión recurrente, evaluación y desarrollo de mejoras conceptuales, conectividad con los carriles exprés de I-95, estimación de costos y análisis de impactos.

Miami-Dade County Department of Regulatory and Economic Resources
701 NW 1 Court, Suite 1700
Miami, Florida 33128

**Subject: I-195/State Road (SR) 112 from NW 12 Avenue to SR 907/Alton Road Corridor
Planning Study Project Advisory Team Invitation**

Dear Mr. Bell:

The Florida Department of Transportation (FDOT) District Six seeks your agency's involvement in the I-195/SR 112 from NW 12 Avenue to SR 907/Alton Road Corridor Planning Study by becoming a member of the Project Advisory Team (PAT). This study aims to evaluate transportation needs and improvement alternatives for I-195/SR 112 from NW 12 Avenue to SR 907/Alton Road.

The PAT is a means for our team to directly engage agencies in the corridor planning process and help address technical issues associated with the study. The group will consist of professionals from each jurisdiction within the study area, resource agencies, and Wynwood Business Improvement District (BID).

- **What are the responsibilities?**

Participating members will be asked to review project information, participate in PAT meetings, and provide guidance at specific stages of the project development process. There are several milestones throughout this two-year effort when we would value your input, including strategies and conceptual alternatives development, project impact analysis, and recommendations.

- **What is the schedule?**

There will be four (4) meetings, beginning with the first one on **Wednesday, May 23, 2018, at 10 a.m. at the Dorothy Quintana Community Center, located at Roberto Clemente Park 101 NW 34 Street, Miami, Florida 33127.** The dates and locations for future meetings will be considered during this first meeting.

Mr. Jerry Bell
April 4, 2018

**Subject: I-195/State Road (SR) 112 from NW 12 Avenue to SR 907/Alton Road Corridor
Planning Study Project Advisory Team Invitation**

Dear Ms. Carballo:

The Florida Department of Transportation (FDOT) District Six seeks your agency's involvement in the I-195/SR 112 from NW 12 Avenue to SR 907/Alton Road Corridor Planning Study by becoming a member of the Project Advisory Team (PAT). This study aims to evaluate transportation needs and improvement alternatives for I-195/SR 112 from NW 12 Avenue to SR 907/Alton Road.

The PAT is a means for our team to directly engage agencies in the corridor planning process and help address technical issues associated with the study. The group will consist of professionals from each jurisdiction within the study area, resource agencies, and Wynwood Business Improvement District (BID).

- **What are the responsibilities?**

Participating members will be asked to review project information, participate in PAT meetings, and provide guidance at specific stages of the project development process. There are several milestones throughout this two-year effort when we would value your input, including strategies and conceptual alternatives development, project impact analysis, and recommendations.

- **What is the schedule?**

There will be four (4) meetings, beginning with the first one on **Wednesday, May 23, 2018, at 10 a.m. at the Dorothy Quintana Community Center, located at Roberto Clemente Park 101 NW 34 Street, Miami, Florida 33127.** The dates and locations for future meetings will be considered during this first meeting.

- **How to become a PAT member?**

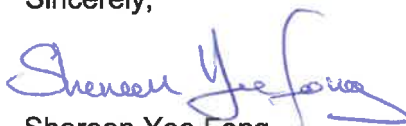

To confirm your interest in participating or designate a representative for your agency in this process, please contact:

Charesse Chester, Community Outreach Specialist
305-944-7564 or CChester@creativisionmedia.com.

Please respond by Wednesday, May 2, 2018.

Your agency's participation and cooperation in this effort is encouraged and appreciated. If you have any questions concerning this matter, please call me at 305-470-5393 or email me at Shereen.YeeFong@dot.state.fl.us.

Sincerely,

PROJECT ADVISORY TEAM (PAT) MEETING #1
DOCUMENTS

Notice of Meeting/Workshop/Hearing

OTHER AGENCIES AND ORGANIZATIONS

Creativision Media, Inc.

The Florida Department of Transportation (FDOT), District Six, announces a Project Advisory Team (PAT) Meeting to which all persons are invited.

DATE AND TIME: Wednesday, May 23, 2018, 10 a.m. - Noon

PLACE: Dorothy Quintana Community Center, Multipurpose Room, 101 NW 34 Street, Miami, FL 33127

GENERAL SUBJECT MATTER TO BE CONSIDERED:

The Florida Department of Transportation (FDOT), District Six, is holding the first Project Advisory Team (PAT) Meeting for the I-195/State Road (SR) 112 Corridor Planning Study (FM Number: 440228-1-22-01) from NW 12 Avenue to SR 907/Alton Road in Miami-Dade County, Florida. The purpose of the study is to evaluate conditions, deficiencies, identify needs, and develop as well as evaluate improvement concepts. PAT members will represent local, county, and regional governmental agencies as well as the Wynwood Business Improvement District (BID).

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this meeting is asked to advise the agency at least seven (7) days before the meeting by contacting: Hong Benitez, P.E., at 305-470-5219; in writing at FDOT, 1000 NW 111 Avenue, Miami, FL 33172; or by email at Hong.Benitez@dot.state.fl.us.

If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1-800-955-8771 (TDD) or 1 (800) 955-8770 (Voice).

For more information, you may contact: Project Manager Shereen Yee Fong, Department of Transportation, District Six at 305-470-5393; in writing at FDOT, 1000 NW 111 Avenue, Miami, FL 33172; or by email at Shereen.YeeFong@dot.state.fl.us.

 Study Area

EXISTING FREEWAY LANEAGE and AVERAGE DAILY VOLUMES

TRAFFIC CONDITIONS - Roadway Level of Service (LOS)

- Tells us how well roads are functioning
- LOS 'A' is best LOS 'F' is Worst
- FDOT Adopts minimum standard of LOS 'D' for Urban Areas
- LOS Color Scale

EXISTING TRAFFIC CONDITIONS – AM PEAK (PRELIMINARY)

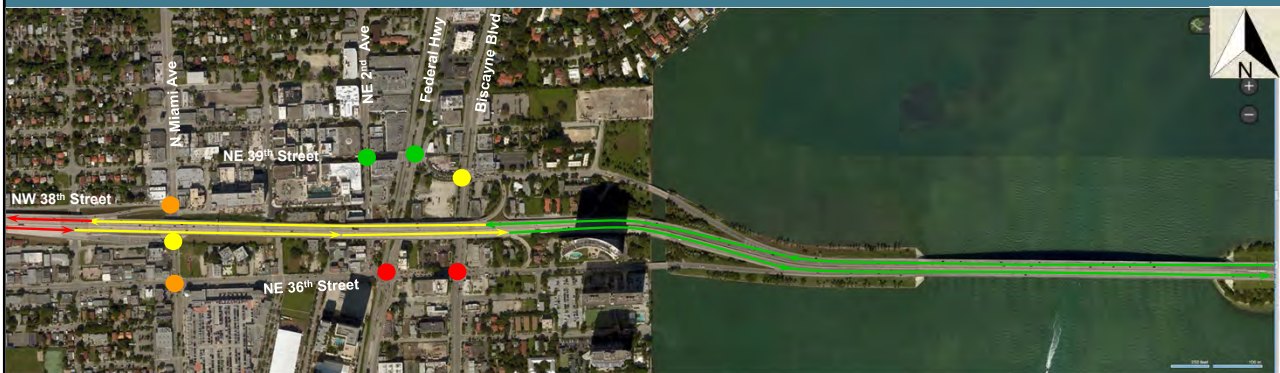

Level of Service (LOS) Scale

- Intersection
- Interstate segment
- A to C
- D
- E
- F

- Some critical freeway segments operating below LOS 'D'
- Couple intersections including ramp terminal below LOS 'D'

EXISTING TRAFFIC CONDITIONS – AM PEAK (PRELIMINARY)

Level of Service (LOS) Scale

- Intersection
- Interstate segment
- A to C
- D
- E
- F

- Freeway segments operating at LOS 'D' or better
- Number of intersections operating below LOS 'D'

EXISTING TRAFFIC CONDITIONS – AM PEAK (PRELIMINARY)

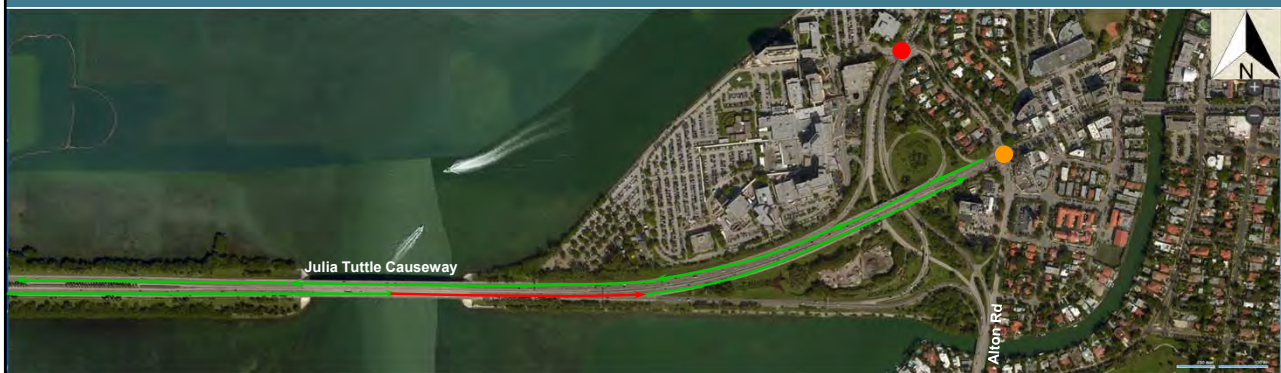

Level of Service (LOS) Scale

- Intersection
- Interstate segment
- A to C
- D
- E
- F

- Segments operating better than LOS 'D'

EXISTING TRAFFIC CONDITIONS – AM PEAK (PRELIMINARY)

Level of Service (LOS) Scale

- Intersection
- Interstate segment
- A to C
- D
- E
- F

- Eastbound diverge area before off ramp operating below LOS 'D'
- Major intersections operating below LOS 'D'

EXISTING TRAFFIC CONDITIONS – PM PEAK (PRELIMINARY)

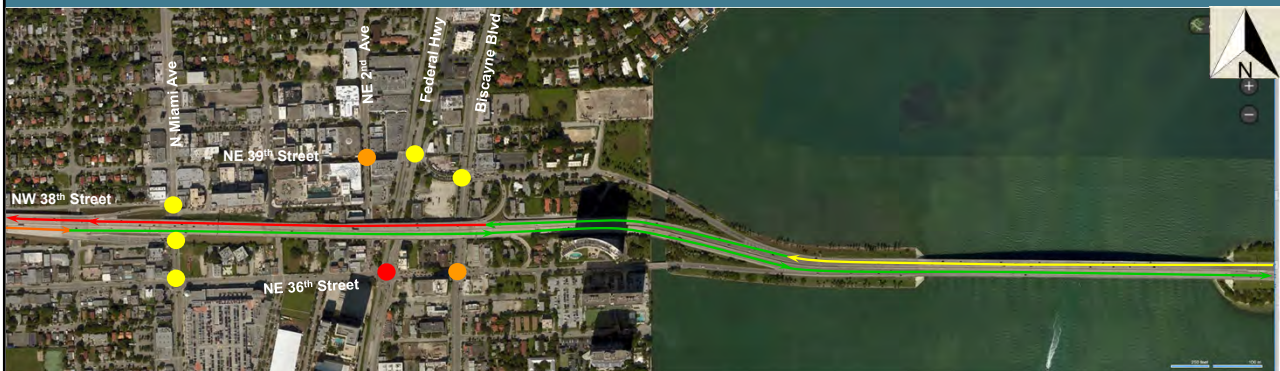

Level of Service (LOS) Scale

- Intersection
- Interstate segment
- A to C
- D
- E
- F

- Some freeway segments operating below LOS 'D'
- Ramp terminal intersections operating at LOS 'D'

EXISTING TRAFFIC CONDITIONS – PM PEAK (PRELIMINARY)

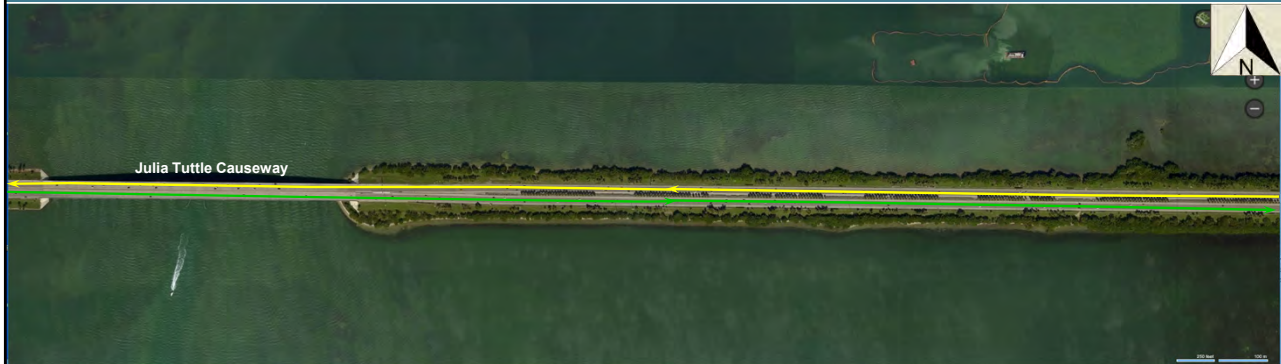

Level of Service (LOS) Scale

- Intersection
- Interstate segment
- A to C
- D
- E
- F

- Poor operations from downstream weave causing problems up to On-Ramp from Biscayne Blvd on I-195 westbound
- Major intersections on surface streets operating below LOS 'D'

EXISTING TRAFFIC CONDITIONS – PM PEAK (PRELIMINARY)

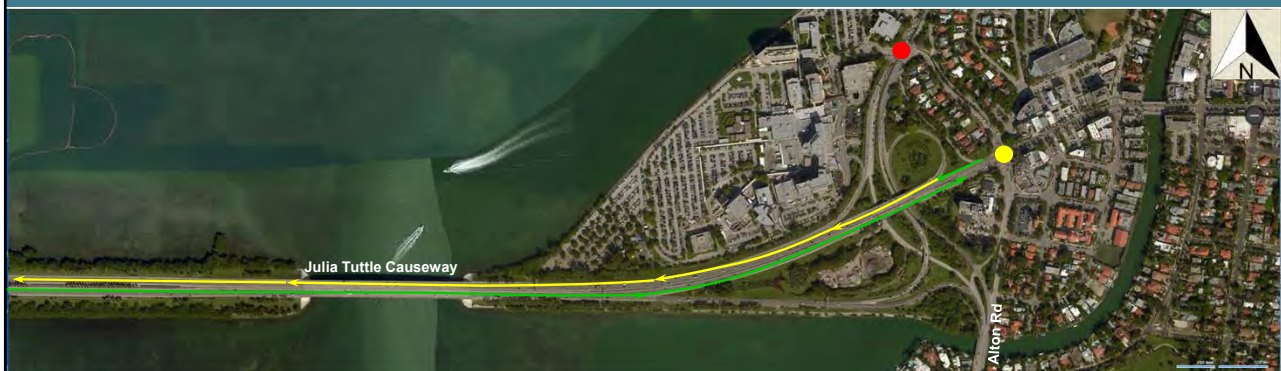

Level of Service (LOS) Scale

- Intersection
- Interstate segment
- A to C
- D
- E
- F

• Westbound segment operating at LOS 'D'

EXISTING TRAFFIC CONDITIONS – PM PEAK (PRELIMINARY)

Level of Service (LOS) Scale

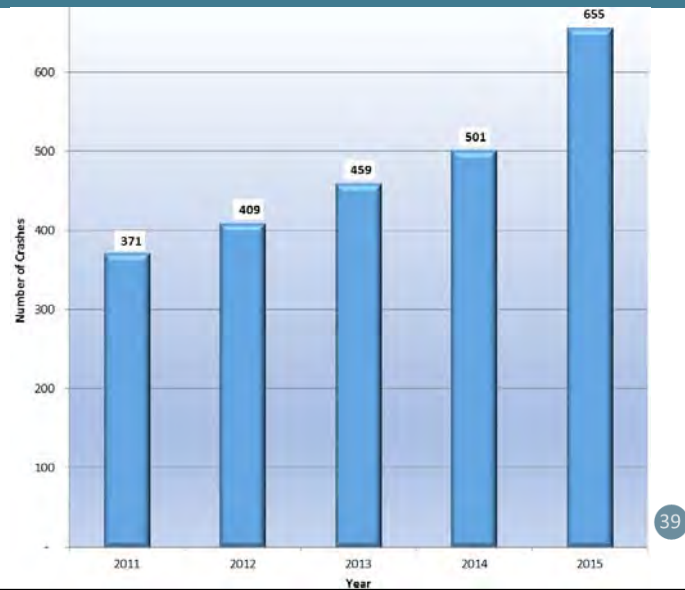

- Intersection
- Interstate segment
- A to C
- D
- E
- F

• LOS 'D' conditions for westbound extend into Alton Road Interchange

SAFETY ISSUES – OVERALL SUMMARY

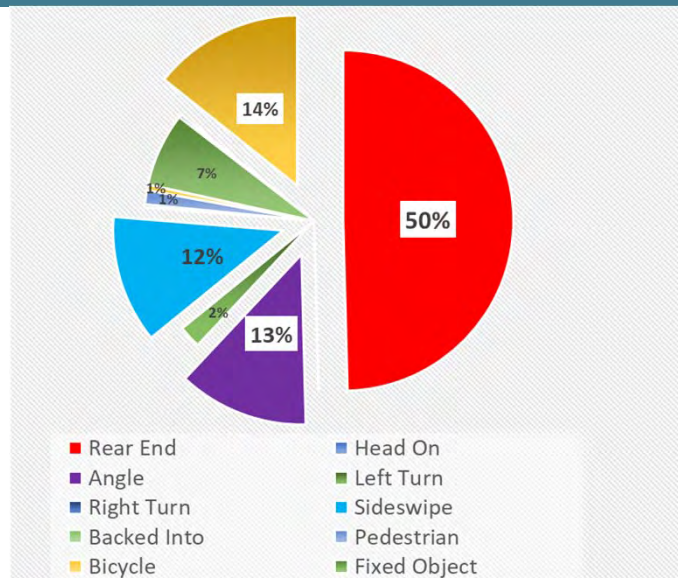

- Five year Study period (2011 to 2015)
- Total of 2,395 crashes
- Crashes increasing every year – approximately 10% per year from 2011 to 2014 then 30% in 2015

39

SAFETY ISSUES – LEADING CRASH TYPES

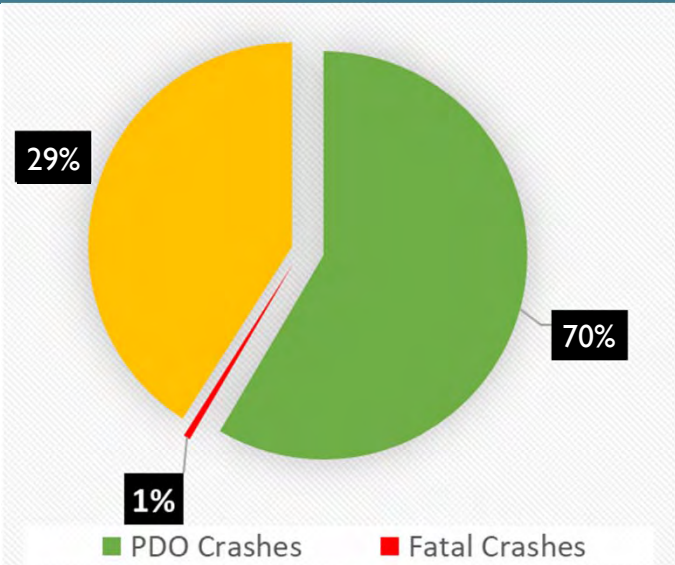

- Rear end with 1,206 crashes (50%).
- Sideswipe with 336 crashes (14%).
- Angle with 317 crashes (13%).

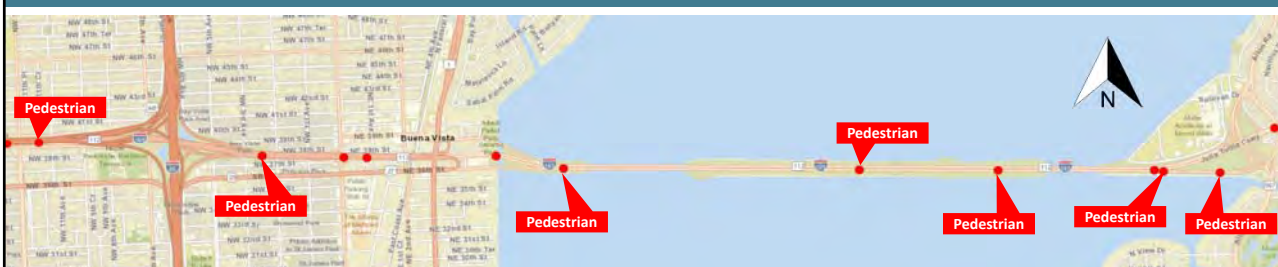

40

SAFETY ISSUES – CRASH SEVERITY

- 696 (29%) injury type crashes.
- 1684 (70%) Property Damage Only crashes (PDO) crashes.
- 15 fatal crashes (<1%).

SAFETY ISSUES – LOCATIONS OF FATAL CRASHES

- 15 Crashes
- Scattered throughout corridor
- 7 Involve pedestrians

SAFETY ISSUES – HIGH CRASH LOCATIONS

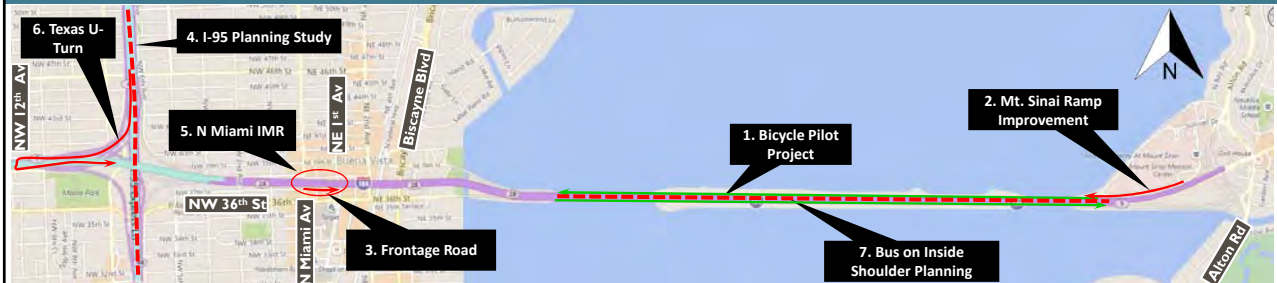

- Higher than statewide average for similar facility type

OTHER ACTIVITIES IN CORRIDOR

ON-GOING AND PLANNED ACTIVITIES AFFECTING CORRIDOR

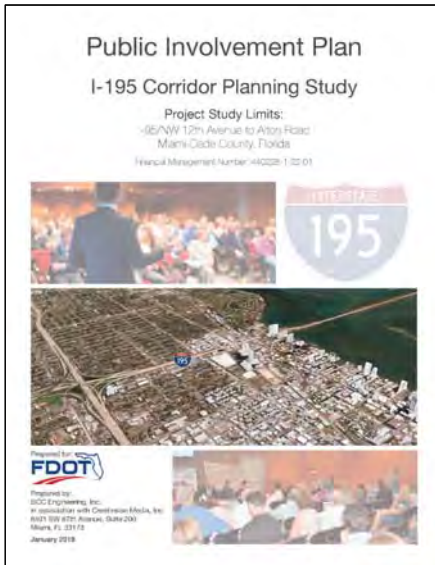

- 1) Bicycles on Julia Tuttle Causeway Pilot Project
- 2) Alton Road to Westbound Julia Tuttle Causeway On-Ramp Improvement (Mt. Sinai) – Currently in Procurement for Design.
- 3) I-195 Frontage Rd & Ramp Realignment (Miami Design District) - \$6.3 M Construction Project Starting in FY 2018 – 2019.
- 4) I-95 Corridor Planning Study (FDOT / Kimley-Horn)
- 5) I-95 at N Miami Ave Interchange Modification Report (IMR) (Miami-Dade County/HNTB)
- 6) SB I-95 Express to EB I-195 Texas U-Turn Connection Concept Development (BCC Reviewing)
- 7) Bus on Shoulder Express Bus Service on Julia Tuttle Causeway Feasibility (BCC Reviewing)

STAKEHOLDER COORDINATION

STAKEHOLDER COORDINATION – BASED ON PUBLIC INVOLVEMENT PLAN

• Based on Public Involvement Plan

- Develop early and continuous public involvement
- Inclusive practices in activities and notification
- Consider needs of traditionally underserved
- Ensure effective stakeholder collaboration
- Identify convenient meeting times and locations
- Provide reasonable access to information
- Provide timely notice of public involvement activities
- Acknowledge and consider public comments

STAKEHOLDER COORDINATION

Biscayne Neighbors Association 2/28/18 Meeting

- 4 PAT Meetings, (3 More in addition to this one)
- Met with DACRA
- Met with Biscayne Neighbors Association
- Future Meetings:
 - Midtown CRA
 - Midtown CDD
 - Wynwood BID
 - Public Workshops (2)
 - City of Miami Commission
 - City of Miami Beach Commission
 - One on One Meetings with Elected Officials as Needed

NEXT STEPS

- **Complete Existing Conditions Report - September 2018**
- **Begin Concept Development – September 2018**
- **PAT Meeting #2 (No-Build / Tier 1) – November 2018**
- **Begin Environmental Screening / Conceptual Evaluation Prioritization - November 2018**
- **PAT Meeting #3 (Screening / Tier 2 Alts.) – March 2019**
- **Complete Concept Development – April 2019**
- **PAT Meeting #4 (Final Recommendations / Tier 2) – May 2019**
- **Study Completion – August 2019**

QUESTIONS ?

I-195 Corridor Planning Study Project Advisory Team Meeting No. 1

Date: Wednesday, May 23, 2018
Time: 10 a.m.- Noon
Location: Dorothy Quintana Community Center
Multipurpose Center
101 NW 34 Street, Miami, Florida 33127
Attendees: See Sign-In Sheets and the end of this document

I. Overview

The I-195/State Road (SR) 112 Corridor Planning Study first Project Advisory Team (PAT) meeting was held on Wednesday, May 23, 2018, at 10 a.m. at the Dorothy Quintana Community Center, Multipurpose Room, 101 NW 34 Street, Miami, FL 33127. The Florida Department of Transportation (FDOT) Consultant Project Manager Jose Muñoz, P.E., welcomed meeting attendees and gave a brief overview of the project and the role of the PAT. Consultant Deputy Project Manager, Lorin Brissett, P.E., discussed the study objectives, project scope, other projects in the study area, and stakeholder coordination. FDOT Project Manager Shereen Yee Fong addressed questions or concerns.

Mr. Brissett's complete presentation is attached to the meeting summary.

II. Number of attendees: 16 (8 PAT members were in attendance. See Sign-In Sheets for represented agencies.)

III. Meeting Materials Distributed

- i. Meeting agenda
- ii. Presentation

IV. Open Discussion: Below is a summary of key points:

Miranda Gasper (Miami-Dade County Department of Transportation and Public Works (DTPW))

- Bicycle safety is an important issue. It's important to review the construction projects in other areas such as the Venetian Causeway to see how they did it.
- It's necessary to coordinate with bike/ped groups on this study. It's also important to include the Miami-Dade Transportation Planning Organization (TPO) Bicycle and Pedestrian Advisory Committee (BPAC) in this process.
- There are several alternatives to consider.

Ken Jeffries (FDOT District Six Transportation Planning Manager)

- The Florida Legislature approved three shared use with barriers pilot projects: Orlando, William Lehman Causeway, and the Julia Tuttle Causeway.
- The Federal Highway Administration (FHWA) approved the projects.
- Bike/ped users are traveling so close to traffic moving at 50 MPH.
- Safety is the priority.

Vinod Sandanasamy (Miami-Dade County – Transportation Planning)

- This is a high crash location like the Venetian Causeway.
- The study team should review the Venetian Causeway project to understand how the high crash issues were addressed
- Surprised that crash data was not included in the presentation.

Linda Kompelien West (City of Miami Beach)

- Northbound on I-95 Express Lanes and westbound to northbound connection from the Julia Tuttle Causeway is a priority for the City of Miami Beach.

Ken Jeffries (FDOT District Six Transportation Planning Manager)

- It's a reciprocal movement.
- SMART (Strategic Miami Area Rapid Transit) Plan proposes a Bus Rapid Transit (BRT) on the shoulder as a part of the solution.

Linda Kompelien West (City of Miami Beach)

- As the largest employers, Mount Sinai and the Greater Miami and the Beaches Hotel and Motel Association should be engaged in this process.
- Nearly 33,000 people work on South Beach
- 39,000 people use the Julia Tuttle Causeway everyday to get to their jobs on Miami Beach.
- RTM Planning Process

Hermes Diaz (City of Miami Public Works)

- Identify the land early as the number of high rises in the area are increasing.

Kevin Brown (Miami-Dade Expressway Authority (MDX)/HNTB)

- Last operational improvements Miami-Dade Expressway Authority (MDX) performed were within the City of Miami limits.
- The best typical section is east of the Julia Tuttle Causeway.

Ken Jeffries (FDOT District Six Transportation Planning Manager)

- Current survey in the area. The conversion was in 2014.

Jose Muñoz (FDOT Consultant Project Manager/BCC Engineering)

- There was no survey data between 2010 – 2012.

Kevin Brown (Miami-Dade Expressway Authority(MDX)/HNTB)

- MDX has performed some work in the area.
- MDX will research the area to find the latest improvement project.

Lisa Colmenares (Miami-Dade Transportation Planning Organization)

- TPO SMART Demonstration Project proposes Bus Rapid Transit (BRT) from the City of Miami Beach, north to the Earlington Heights station.
- TPO is coordinating with FDOT and City of Miami on the plan.
- TPO has several projects pending approval.

Ken Jeffries (FDOT District Six Transportation Planning Manager)

- The Julia Tuttle Causeway is preferred over the Venetian Causeway.

Linda Kompelien West (City of Miami Beach)

- It's in the SMART Plan. That confirms that this issue has been studied.

Lisa Colmenares (Miami-Dade Transportation Planning Organization)

- Wilson Fernandez (TPO Assistant Director of Mobility Management and Implementation) is working to get the ridership for the entire system.

Ken Jeffries (FDOT District Six Transportation Planning Manager)

- Are you saying the Greater Miami and the Beaches Hotel Association wants a transit option or some type of service to the mainland?

Linda Kompelien West (City of Miami Beach)

- This is a constrained corridor. Traffic is constantly traveling from the airport.
- The Department should consider adding a transit analysis to this study.

Ken Jeffries (FDOT District Six Transportation Planning Manager)

- Would you like to have a transit solution?

Linda Kompelien West (City of Miami Beach)

- Mount Sinai Hospital is willing to provide right of way.
- Mount Sinai employees rely on transit.
- Employees take transit instead of parking at the hospital.
- City of Miami Beach elected officials encourage transit use on Miami Beach and on the Julia Tuttle Causeway.

I. Action Items:

- Linda Kompelien West (City of Miami Beach) offered to send a list of the City's priorities to the study team.
- The study team to send the presentation to the PAT members.
- Kevin Brown (Miami Dade Expressway Authority/HNTB)) to research the last MDX project in the area.

Meeting Summary

This meeting summary is not a word-for-word transcript but is a summary of the comments. If you feel that clarifications are necessary, or if this differs from your understanding, please notify Charesse Chester, Public Information Specialist by telephone at 305-944-7564 or by email at cchester@creativisionmedia.com within five (5) working days upon receipt of this summary.

APPENDIX E

PROJECT ADVISORY TEAM (PAT) MEETING #2
DOCUMENTS

Notice of Meeting/Workshop/Hearing

OTHER AGENCIES AND ORGANIZATIONS

Creativision Media, Inc.

The Florida Department of Transportation (FDOT), District Six, announces a Project Advisory Team (PAT) Meeting to which all persons are invited.

DATE AND TIME: Wednesday, December 5, 2018, 10 a.m. - Noon

PLACE: Dorothy Quintana Community Center, Multipurpose Room, 101 NW 34 Street, Miami, FL 33127

GENERAL SUBJECT MATTER TO BE CONSIDERED:

The Florida Department of Transportation (FDOT), District Six, is holding the second Project Advisory Team (PAT) Meeting for the I-195/State Road (SR) 112 Corridor Planning Study (FM Number: 440228-1-22-01) from NW 12 Avenue to SR 907/Alton Road in Miami-Dade County, Florida. The purpose of the study is to evaluate conditions, deficiencies, identify needs, and develop as well as evaluate improvement concepts. PAT members will represent local, county, and regional governmental agencies as well as the Wynwood Business Improvement District (BID).

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this meeting is asked to advise the agency at least seven (7) days before the meeting by contacting: Hong Benitez, P.E., at 305-470-5219; in writing at FDOT, 1000 NW 111 Avenue, Miami, FL 33172; or by email at Hong.Benitez@dot.state.fl.us.

If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1-800-955-8771 (TDD) or 1 (800) 955-8770 (Voice).

For more information, you may contact: Project Manager Shereen Yee Fong, Department of Transportation, District Six at 305-470-5393; in writing at FDOT, 1000 NW 111 Avenue, Miami, FL 33172; or by email at Shereen.YeeFong@dot.state.fl.us.

I-195 Corridor Planning Study Project Advisory Team (PAT) Meeting #2

Dorothy Quintana Community Center | Multipurpose Room
101 NW 34 Street, Miami, Florida 33127
Wednesday, December 5, 2018 - 10:00 a.m.

I-195/ SR 112 Corridor Planning Study from NW 12 Avenue to SR 907/ Alton Road Miami- Dade County, Florida Project Advisory Team Meeting

Subject Project Advisory Team (PAT) Meeting #2
Date/Time Wednesday, December 5, 2018 10:00 a.m.
Location Dorothy Quintana Community Center, Multipurpose Room
101 NW 34 Street, Miami, Florida 33127

I-195 Corridor Planning Study

**Second Meeting With
Project Advisory Team**

**Meeting Presentation:
December 5, 2018**

District 6

INTRODUCTIONS

FDOT

- Shereen Yee-Fong – Project Manager
- Ken Jeffries – Planning Manager
- Phil Steinmiller – In-House Study Advisor/Reviewer for FDOT

BCC ENGINEERING

- Jose Muñoz, P.E. – Project Manager
- Lorin Brissett, P.E. – Deputy Project Manager
- Michelle Rossi, P.E. – Roadway Design Engineer

RENAISSANCE PLANNING

- Dan Hardy, P.E. – Principal Planner

CREATIVISION MEDIA

- Charesse Chester – Public Involvement Officer (PIO)
- Natacha Placide – Deputy PIO

AGENDA

1. Role of Project Advisory Team
2. Study Area & Background
3. Study Objectives
4. Study Overview
5. Project Scope & Status
6. No-Build Preliminary Results
7. Tier 1 Concept Development
8. Proposed Tier 2 Performance Measures Framework
9. Next Steps
10. Questions

ROLE OF PROJECT ADVISORY TEAM

- Provide guidance and serve as resource to study team
- Ensure stakeholder Interests are fully considered in Study
- Sounding board for recommendations

STUDY AREA & BACKGROUND

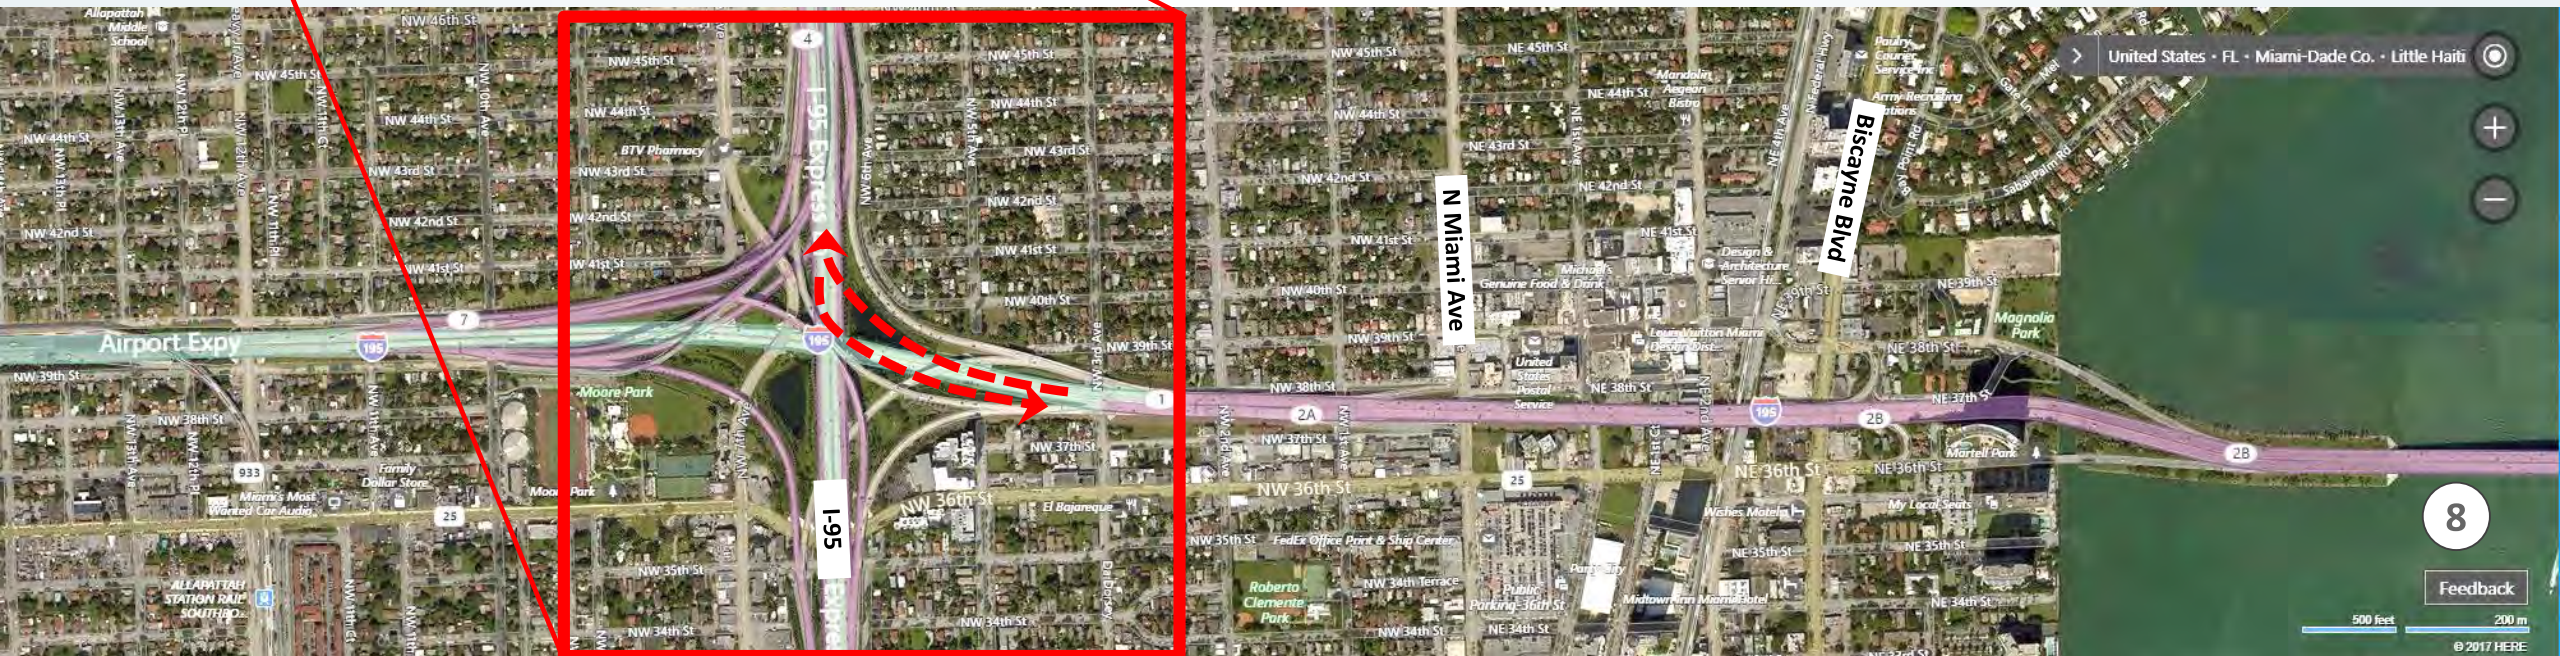

- Important Limited Access Facility Connecting Miami International Airport and Miami Beach
- Carries average 130,000 Vehicles Per Day – Total both directions
- Provides Access to Several High Growth Neighborhoods
- Continued Growth Expected to increase demand exacerbating access issues.

STUDY OBJECTIVES

- **Evaluate Existing Conditions and Deficiencies**
- **Identify Needs**
- **Develop and Evaluate Improvement Concepts**

STUDY OVERVIEW

STUDY OVERVIEW (Direct Connection to 95 Express Lanes)

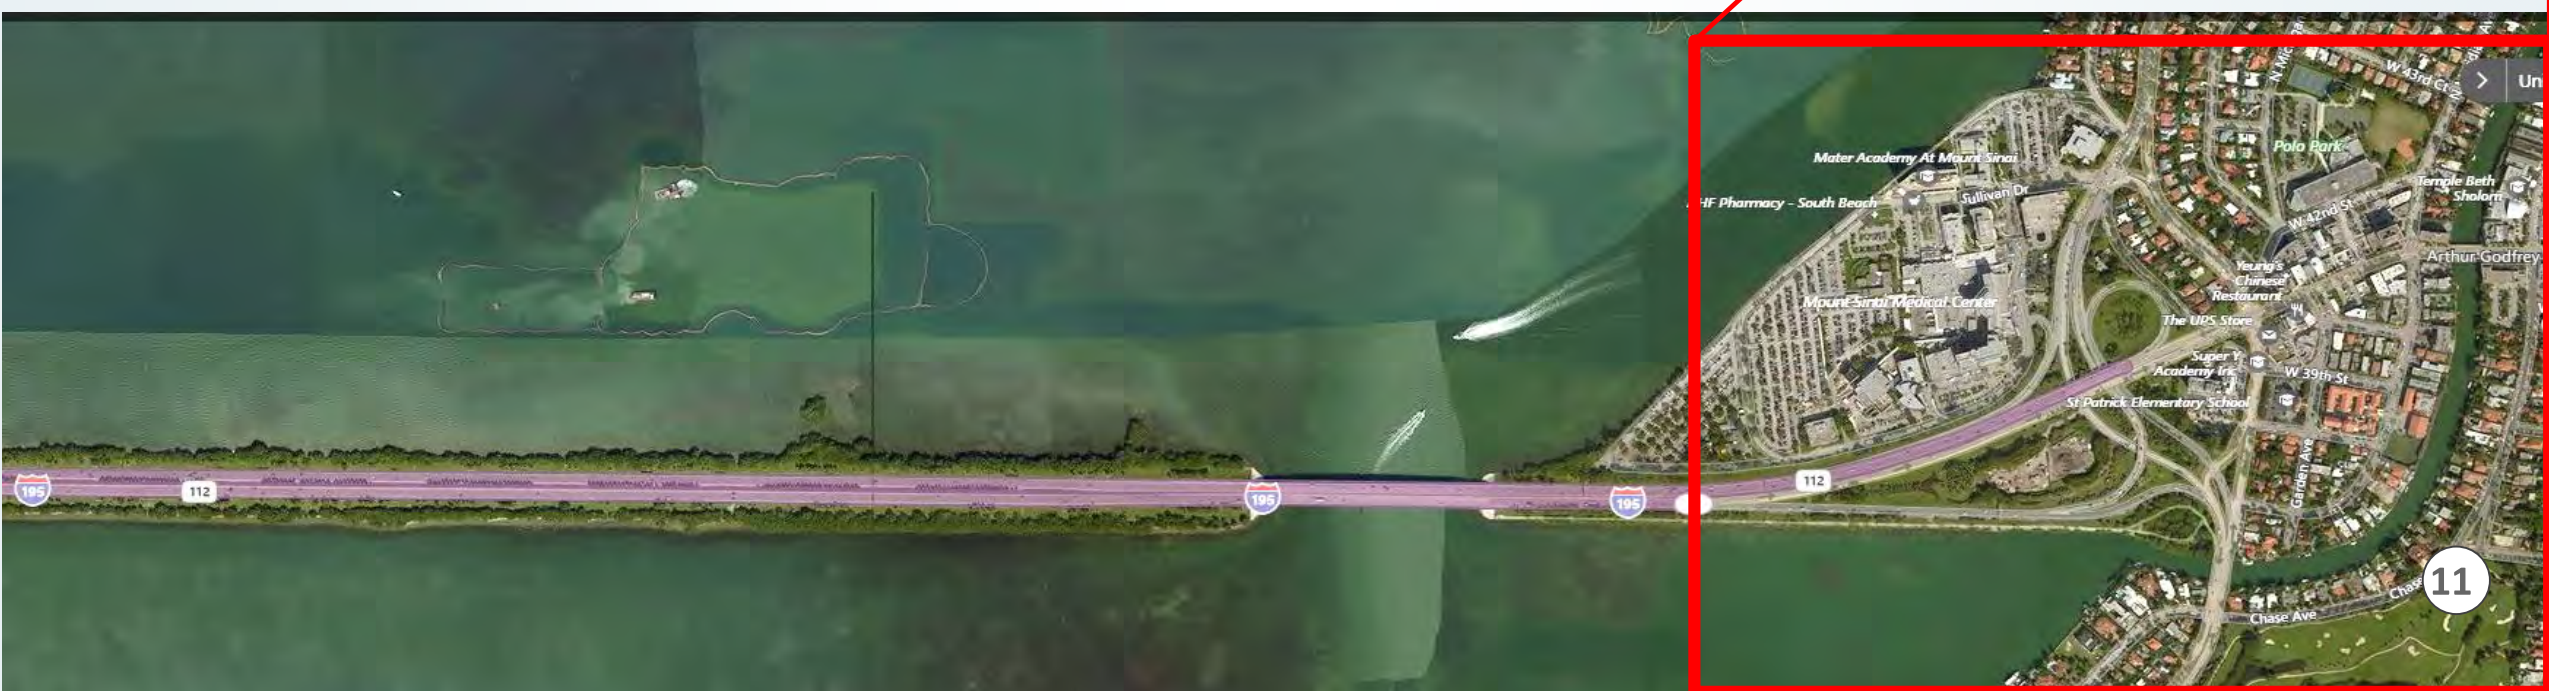

STUDY OVERVIEW (Improve Design District Interchange Access)

STUDY OVERVIEW (Improve Bicycle Access on Causeway)

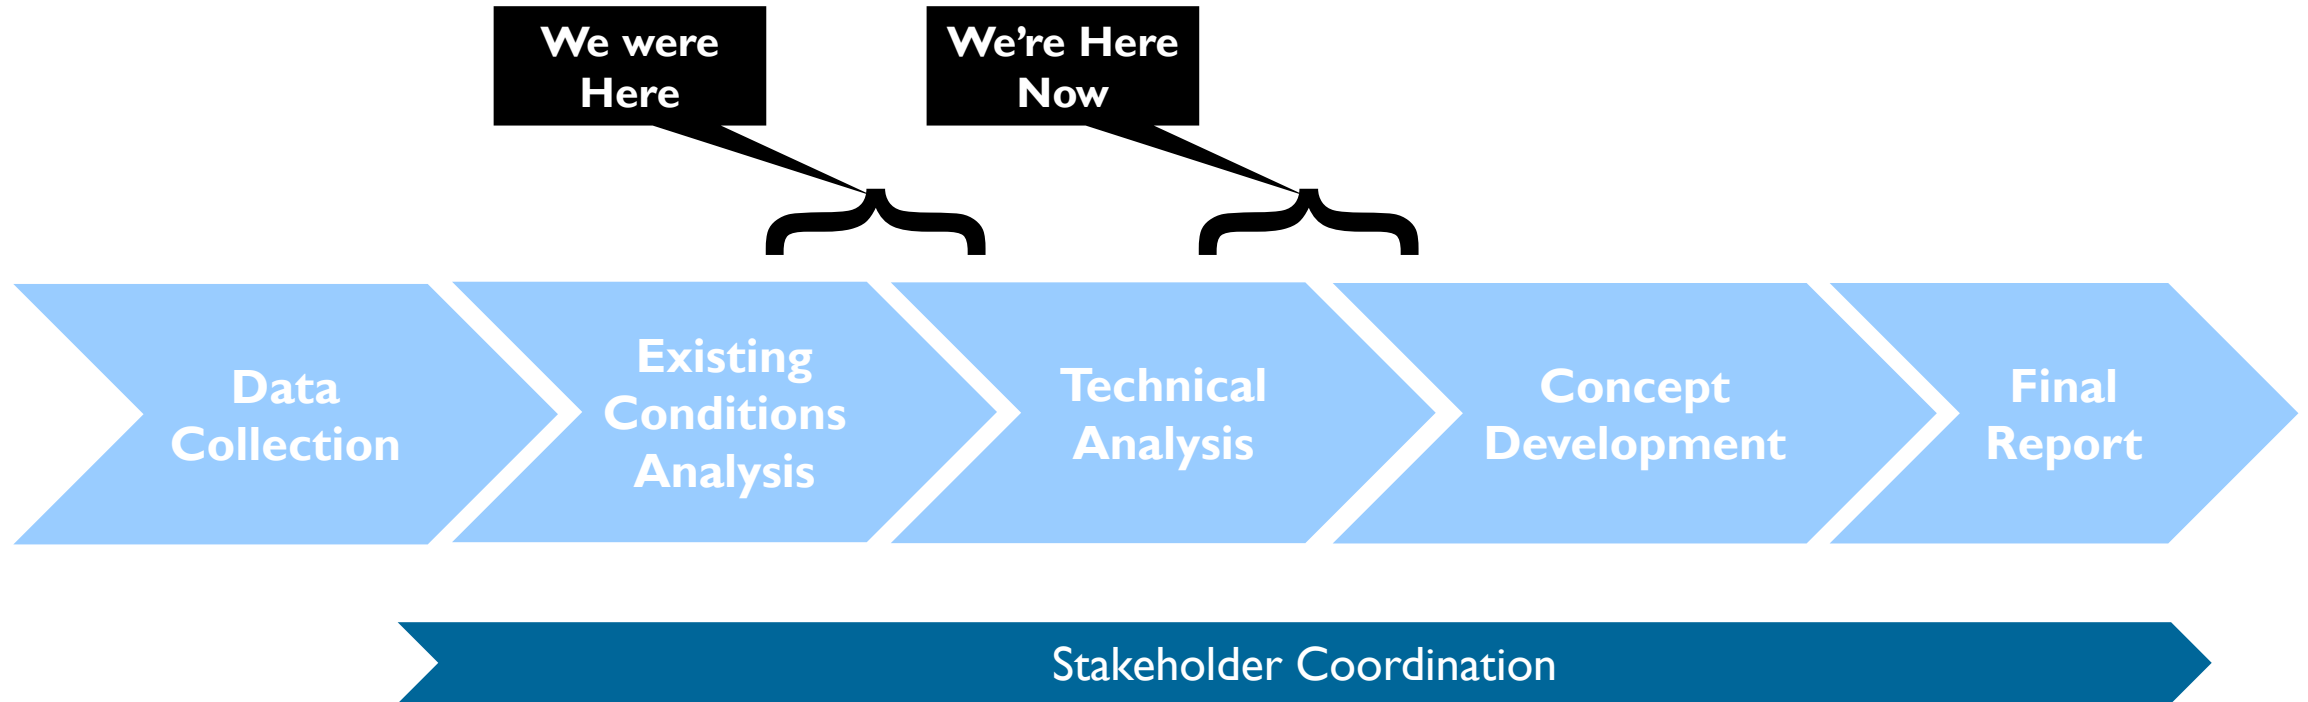

STUDY OVERVIEW (Improve Alton Road Interchange Access)

PROJECT SCOPE & STATUS

PROJECT SCOPE - OVERVIEW

COMPLETED AND ONGOING TASKS

- **Operational and Safety Driven**
- **Stakeholder Driven**

TIER 1 CONCEPT DEVELOPMENT MATRIX SUMMARY (SHEET 1 OF 3)

Improvement Type	Alternative / Base Improvement	Description	Purpose	R/W Impacts	Bridge Impacts	Drainage	Constructability	Parks & Rec Facilities
NO-BUILD	No-Build	Include programmed improvements	-	-	-	-	-	-
MAJOR ALTERNATIVE	All 1	Express lanes connections to Existing I-195. Direct Connection to and from I-95 Express Lanes, touching down/originating at existing I-195 to/from I-95 ramps.	To provide direct I-95 express lanes connection to and from I-195 east and Miami-Beach, allowing access to Design District and Midtown communities via North Miami Avenue and Biscayne Boulevard ramps.	No impacts.	Significant Impacts: - Requires demolition of existing EB SR 112 to NB I-95 Express bridge - Requires reconstruction of existing SB I-95 Express to WB SR 112 bridge - Requires the new construction of 2 bridges connecting NB and SB I-95 Express to I-95	Moderate Impacts: - Ponds in I-95 Interchange may be affected due to new ramp connections. - New drainage along bridges	Moderate Impacts: - Bridge new construction and reconstruction - Demolition of existing Express lane bridge - Roadway widening at tie-in points	No impacts.
	All 2	Express lanes connection to new upper level. Direct connection to and from I-95 express lanes and I-195. Express lanes will remain elevated within the center of I-195, bypass N Miami Ave and Biscayne Blvd exits, and touch down east of Biscayne Boulevard.	To provide direct I-95 express lane connections to and from the east for Miami Beach traffic only.	Significant impacts: A total of 29 parcels will be impacted, including two parks and surface street roads.	Significant Impacts: - Demolition of existing EB SR 112 to NB I-95 Express bridge - Reconstruction of existing SB I-95 Express to WB SR 112 bridge - New construction of 2 bridges connecting NB and SB I-95 - New construction of elevated bridge for express lane traffic along median of I-195 - Widening of existing bridges along I-195 from I-95 to just east of Biscayne Blvd - Widening of one Julia Tuttle Causeway bridge	Moderate Impacts: - Ponds in I-95 Interchange may be affected due to new ramp connections. - Increase in impervious area due to elevated lanes and mainline widening. - New drainage along bridge and roadway widenings	Significant: - Bridge new construction and reconstruction - Demolition of existing Express lane bridge - Bridge widening - Roadway idening at tie-in points	Impacts two parks near Biscayne Bay

TIER 1 CONCEPT DEVELOPMENT MATRIX SUMMARY

(SHEET 2 OF 3)

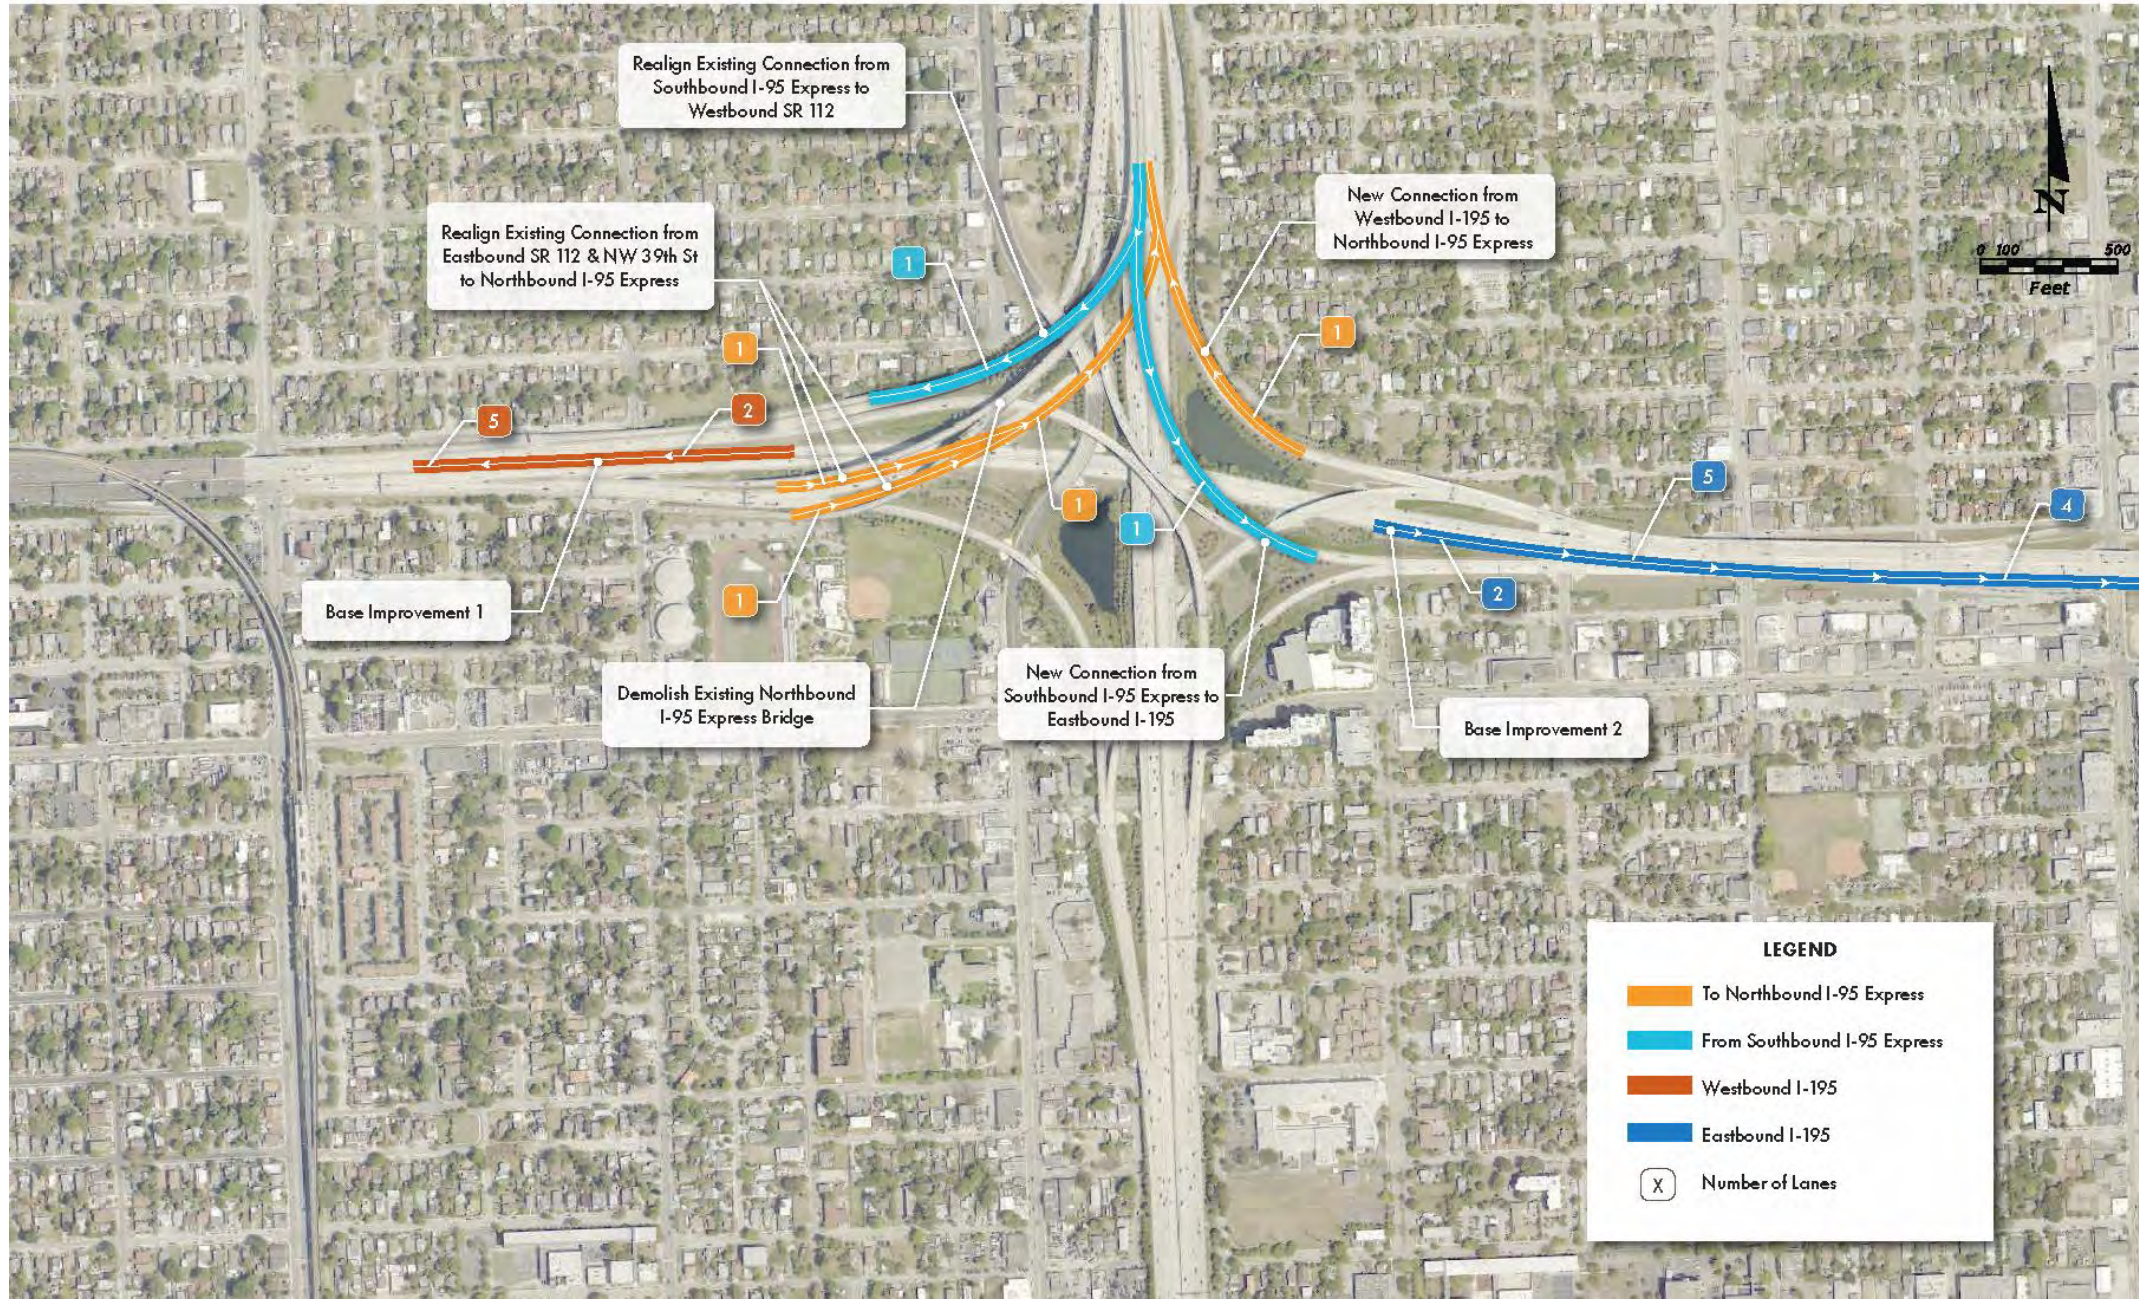

Improvement Type	Alternative / Base Improvement	Description	Purpose	R/W Impacts	Bridge Impacts	Drainage	Constructability	Parks & Rec Facilities
MAJOR ALTERNATIVE	Alt 3	<p>Express lanes and I-95 GP connection to upper level.</p> <p>Direct connection to and from I-95 express lanes and I-195. Express lanes traffic and NB and SB I-95 general purpose to and from Miami Beach will be elevated and avoid local exit traffic.</p>	To separate out Miami-Beach trips from Design-District / Midtown Communities Trips. Provides direct I-95 express lanes and GP lanes connection to and from I-195 and Miami-Beach and separates access to SR 112 and local exits, which include Biscayne Boulevard and N Miami Avenue.	<p>Significant impacts:</p> <p>A total of 36 parcels will be impacted, including two parks and surface street roads.</p>	<p>Significant Impacts:</p> <ul style="list-style-type: none"> - Demolition of existing EB SR 112 to NB I-95 Express bridge - Reconstruction of existing SB I-95 Express to WB SR 112 bridge - New construction of 2 bridges connecting NB and SB I-95 - New construction of 2 elevated bridges for I-95 Express and GP traffic - Reconstruction of I-195 bridges from I-95 interchange to just east of Biscayne Boulevard - Widening of one Julia Tuttle Causeway Bridge 	<p>Significant Impacts:</p> <ul style="list-style-type: none"> - Ponds in I-95 Interchange may be affected due to new ramp connections. - Increase in impervious area due to elevated lanes and reconstructed mainline. - Requires complete drainage system reconstruction. 	<p>Significant:</p> <ul style="list-style-type: none"> - Requires full reconstruction of I-195 	Impacts two parks near Biscayne Bay
	Alt 4	<p>New shared use path pedestrian bridge.</p> <p>New shared use path bridge structure from Biscayne Boulevard to Alton Road.</p>	To provide a connection from Biscayne to/from Miami Beach for pedestrians and bicyclists.	No impacts.	<p>Significant Impacts:</p> <ul style="list-style-type: none"> - New standalone shared use path bridge. - New connection under I-195 to north side of roadway under existing I-195 bridge near Alton 	<p>Moderate Impacts:</p> <ul style="list-style-type: none"> - New drainage for shared use path bridge 	<p>Significant:</p> <ul style="list-style-type: none"> - New bridge construction over the bay 	No impacts.
	Alt 5	<p>Widen existing Julia Tuttle Causeway bridges.</p> <p>Widen existing Julia Tuttle Causeway bridges to provide barrier separated shared use paths along eastbound and westbound sides of the Julia Tuttle Causeway from Biscayne Boulevard to Alton Road.</p>	To provide a connection from Biscayne to/from Miami Beach for pedestrians and bicyclists.	No impacts.	<p>Significant Impacts:</p> <ul style="list-style-type: none"> - Widening of existing Julia Tuttle Causeway bridges 	<p>Significant Impacts:</p> <ul style="list-style-type: none"> - Add drainage for shared use path and connect to existing bridge drainage 	<p>Significant:</p> <ul style="list-style-type: none"> - Bridge widening - New sidewalk construction 	No impacts.

TIER 1 CONCEPT DEVELOPMENT MATRIX SUMMARY

(SHEET 3 OF 3)

Improvement Type	Alternative / Base Improvement	Description	Purpose	R/W Impacts	Bridge Impacts	Drainage	Constructability	Parks & Rec Facilities
BASE IMPROVEMENT	Improvement 1	Convert single eastbound lane on I-195 at the I-95 interchange to 2 lanes.	To relieve existing eastbound bottleneck on I-195.	Moderate Impacts: - Local side streets will be impacted due to widening along the westbound side - Impacts to two MetroRail piers	Moderate Impacts: - Widening of several bridges along SR 112/I-195 from NW 12th Ave to NE 1st Ave - Impacts to two MetroRail piers	Minimal Impacts: - Increase in impervious area due to widening - Requires several new drainage structures - New drainage along bridge widenings	Significant: - Bridge and roadway widening - May require reconstruction of two MetroRail piers	No impacts.
	Improvement 2	Convert single westbound lane on I-195 at the I-95 interchange to 2 lanes.	To relieve existing westbound bottleneck on I-195.	No impacts.	Minimal Impacts: - Realignment of roadway on bridges may be required	Minimal Impacts	Moderate: - Roadway widening required	No impacts.
	Improvement 3	New roundabout at NW 36th Street and Biscayne boulevard off-ramp from I-195 eastbound.	To provide direct access from Biscayne Boulevard off-ramp to condominiums east of the ramp.	Significant Impacts: A total of 6 parcels will be impacted.	No impacts.	Moderate: - New drainage at roundabout.	Moderate: - Roadway and ramp reconstruction required for roundabout	No impacts.
	Improvement 4	Modify Biscayne Boulevard on ramp to eastbound I-195 from a taper type entrance to a parallel type entrance.	To improve merge conditions onto EB I-195 from Biscayne Boulevard.	No impacts.	No impacts.	Minimal Impacts: - Reconstruct existing shoulder gutter.	Minimal: - Widening of existing roadway.	No impacts.
	Improvement 5	Modify Biscayne Boulevard off-ramp from westbound I-195 from a single lane exit to a two-lane exit.	To provide additional capacity for the Biscayne Boulevard off-ramp by adding a designated ramp lane and a choice exit lane.	No impacts.	Moderate Impacts: - Widening of one Julia Tuttle Causeway bridge	Moderate Impacts: - Increase in impervious area due to widening - New drainage for bridge widenings	Moderate: - Bridge and roadway widening	No impacts.
	Improvement 6	Provide additional lane along I-195 eastbound from west of Alton Road off-ramp to Alton Road.	To provide additional capacity along eastbound I-195 near Alton Road	No impacts.	Moderate Impacts: - Widening of one Julia Tuttle Causeway bridge - Widening of I-195 bridge over Alton Road	Moderate Impacts: - Increase in impervious area due to widening - New drainage for bridge widenings	Moderate: - Bridge and roadway widening	No impacts.

TIER 2 PERFORMANCE MEASURES

TIER 2 PERFORMANCE MEASURES

PERFORMANCE MEASURES SHOULD PROVIDE:

- **Differentiation among alternatives**
 - Demonstration of purpose and need
 - Sensitivity to alternative strategies
 - Availability of analysis tools
- **Consistency with I-95 study**
- **Meaning to project stakeholders**
 - FDOT practices
 - Advisory group members
 - Other constituents

Initial suggestions summarized today; feedback desired as alternatives defined

GOOD PERFORMANCE MEASURES ARE:

- **Authoritative**
- **Available**
- **Causal**
- **Forecastable**
- **Relevant**
- **Reliable**
- **Replicable**
- **Scalable**
- **Understandable**

MENU OF POSSIBLE PERFORMANCE MEASURES

15 RECOMMENDED 1-195 MEASURES:

- Based on FDOT Multimodal Mobility Performance Measures
- Capture a variety of goals and perspectives
- Intentionally selective – not too many
- Finer-grained measures for transit, biking, walking, and quality elements specific to I-195 objectives

MODE	QUANTITY	QUALITY	ACCESSIBILITY	UTILIZATION	
PEOPLE	Auto/Truck	<ul style="list-style-type: none"> • Vehicle Miles Traveled • Person Miles Traveled • % of non-Single Occupancy Vehicle Travel 	<ul style="list-style-type: none"> • % Travel Meeting LOS Criteria • % Miles Meeting LOS Criteria • Travel Time Reliability <ul style="list-style-type: none"> » On-Time Arrival » Travel Time Variability • Vehicle Hours of Delay • Person Hours of Delay • Average Travel Speed • Number of Fatalities • Number of Serious Injuries • Rate of Fatalities • Serious Injuries Rate 	<ul style="list-style-type: none"> • Time Spent Commuting • Job Accessibility – Auto 	<ul style="list-style-type: none"> • % Travel Heavily Congested • % Miles Heavily Congested • Vehicles per Lane Mile • Hours Heavily Congested
	Transit	<ul style="list-style-type: none"> • Revenue Miles • Passenger Trips 	<ul style="list-style-type: none"> • Revenue Miles between Failures 	<ul style="list-style-type: none"> • Weekday Span of Service • Resident Access to Transit • Job Accessibility – Transit 	<ul style="list-style-type: none"> • Passenger Trips per Revenue Mile
	Pedestrian and Bicycle		<ul style="list-style-type: none"> • Pedestrian Level of Service • Pedestrian and Bicycle – Fatalities and Serious Injuries • Bicycle Level of Service 	<ul style="list-style-type: none"> • % Pedestrian Facility Coverage • % Bicycle Facility Coverage • % Population within 1 mile of Bike Lane and Shared-Use Paths 	
	Aviation	<ul style="list-style-type: none"> • Passenger Boardings 	<ul style="list-style-type: none"> • Departure Reliability 		<ul style="list-style-type: none"> • Demand to Capacity Ratios
	Rail	<ul style="list-style-type: none"> • Passengers 	<ul style="list-style-type: none"> • Departure Reliability 		
	Seaport	<ul style="list-style-type: none"> • Passengers 	<ul style="list-style-type: none"> • Departure Reliability 		
FREIGHT	Truck	<ul style="list-style-type: none"> • Combination Truck Miles Traveled • Truck Miles Traveled • Truck Tonnage • Combination Truck Ton Miles Traveled • Truck Value of Freight 	<ul style="list-style-type: none"> • Travel Time Reliability <ul style="list-style-type: none"> » On-Time Arrival » Travel Time Variability • Combination Truck Hours of Delay • Combination Truck Average Travel Speed • Combination Truck Return on Investment 	<ul style="list-style-type: none"> • Cumulative Bicycle Accessibility • Quality of Pedestrian Connections • Return on Investment 	<ul style="list-style-type: none"> • Truck Empty Backhaul Tonnage • % Miles Heavily Congested • Vehicles per Lane Mile
	Aviation	<ul style="list-style-type: none"> • Tonnage • Value of Freight 		<ul style="list-style-type: none"> • I-195 Access Points 	
	Rail	<ul style="list-style-type: none"> • Tonnage 		<ul style="list-style-type: none"> • Quality of Recreational Access to I-195 	
	Seaport	<ul style="list-style-type: none"> • Tonnage • Twenty-Foot Equivalent Units • Value of Freight 		<ul style="list-style-type: none"> • Seaport Rail Access 	

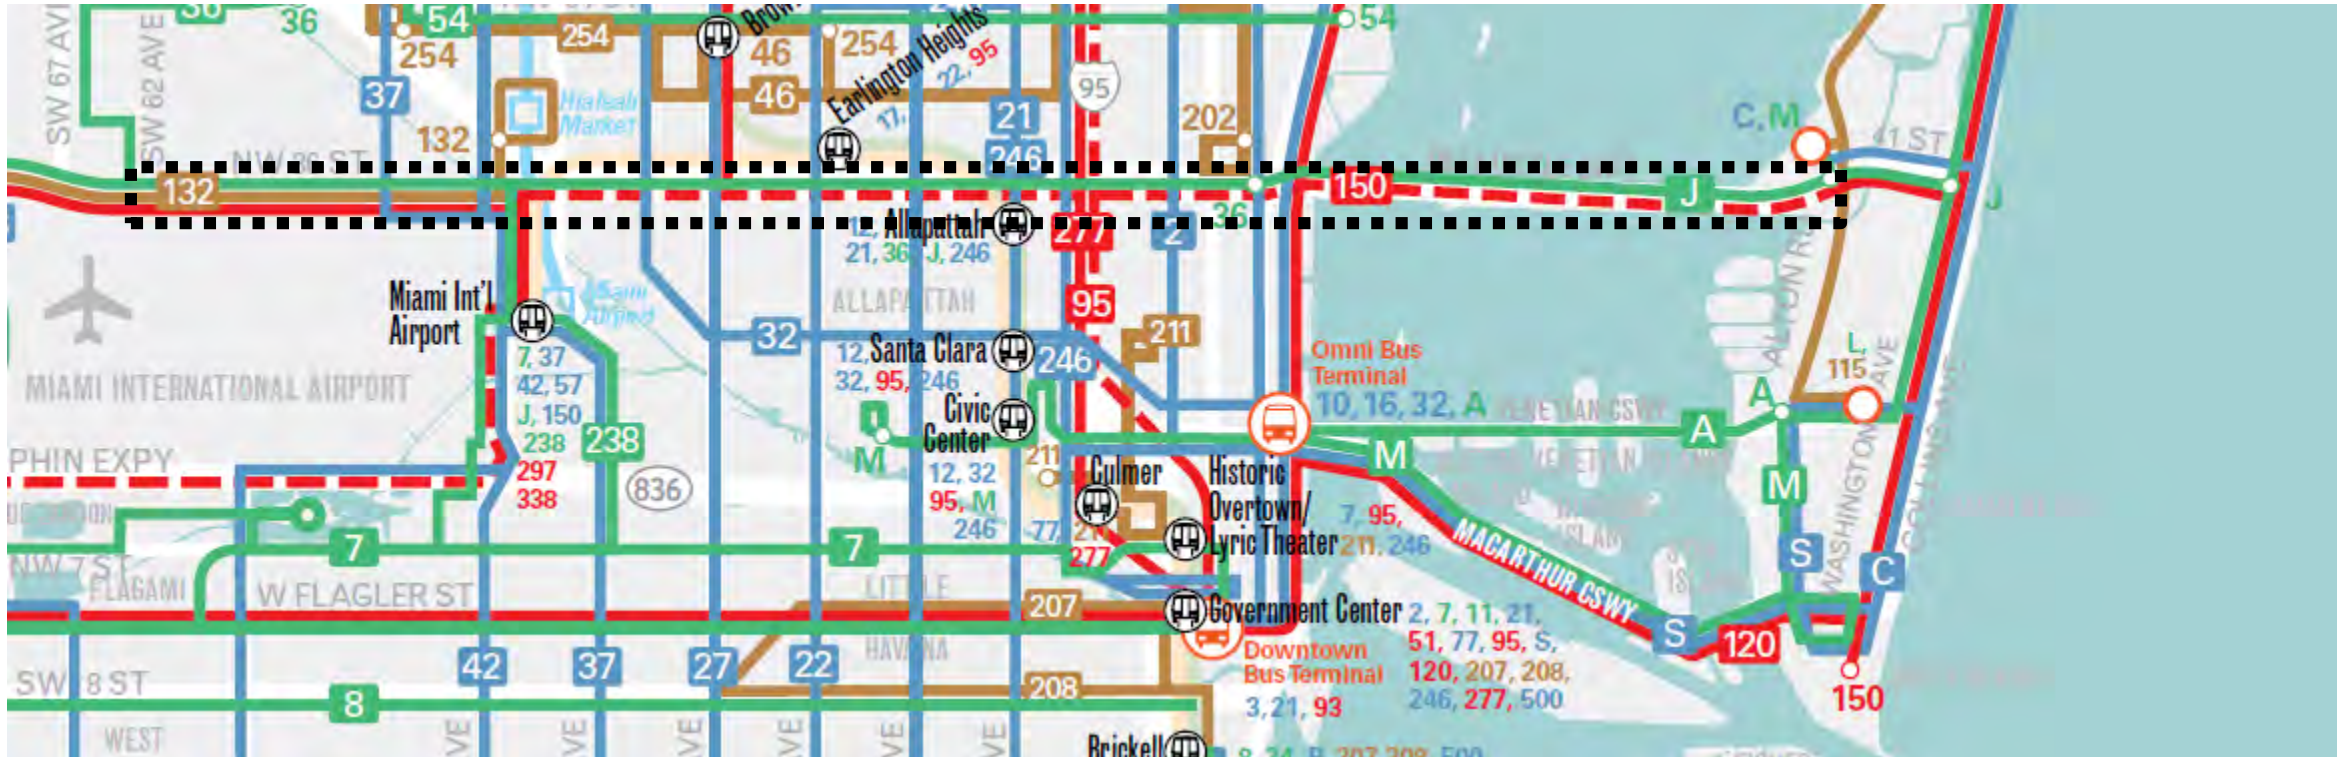

Other Measures beyond FDOT's MMPMs:

- Transit Travel Time
- Cumulative Bicycle Accessibility
- Quality of Pedestrian Connections
- Return on Investment
- I-195 Access Points
- Quality of Recreational Access to I-195

SUGGESTED PERFORMANCE MEASURES

Measure		Extent	Timeframe	Source(s)	Category
1	VMT (PMT)	Study area	Daily	SERPM / VISSIM	Quantity
2	Peak Period Travel Time Reliability (95 th percentile TTI)	I-195 + Freeway network	AM/PM	SERPM / VISSIM	Quality
3	Daily Vehicle-Hours of Delay	I-195 + Street network	Daily	SERPM / VISSIM	Quality
4	Fatality Rate	I-195	Annual	SERPM / HSM	Quality
5	Injury Rate	Street network	Annual	SERPM / HSM	Quality
6	Job Accessibility - Auto	Study area	AM	SERPM	Accessibility
7	Job Accessibility - Transit	Study area	AM	SERPM	Accessibility
8	Percentage Heavily Congested VMT	Street network	AM/PM	SERPM / VISSIM	Utilization
9	Heavily Congested Hours per day	I-195	Daily	SERPM / VISSIM	Utilization
10	Transit Travel Time	MDT Routes 110 & 150	AM	VISSIM	<i>Quality</i>
11	Quality of Pedestrian Connections	Areas underneath I-195	N/A	Qualitative	<i>Quality</i>
12	Point of Interest Bicycle Accessibility	Study area	Midday	SERPM / GIS	<i>Accessibility</i>
13	Quality of Access to Recreation	Study area	Midday	GIS	<i>Accessibility</i>
14	I-195 Access Points	I-195	N/A	Qualitative	<i>Accessibility</i>
15	Return on Investment	Project	N/A	FDOT B/C Tool	N/A

PERFORMANCE MEASURE - TRANSIT TRAVEL TIME

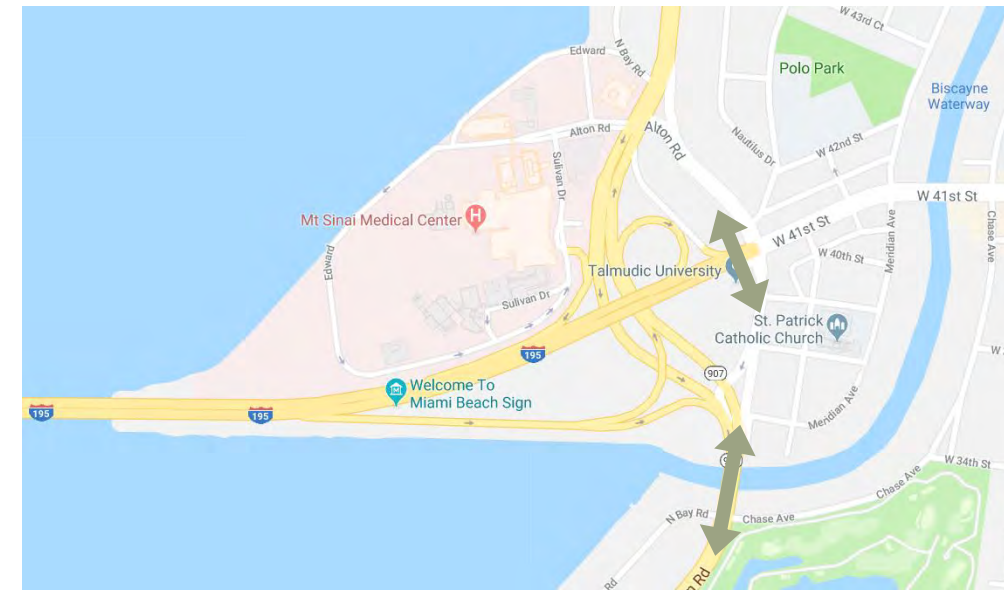

ROUTE 110: Miami Intl Airport ↔ 41 St / Miami Beach

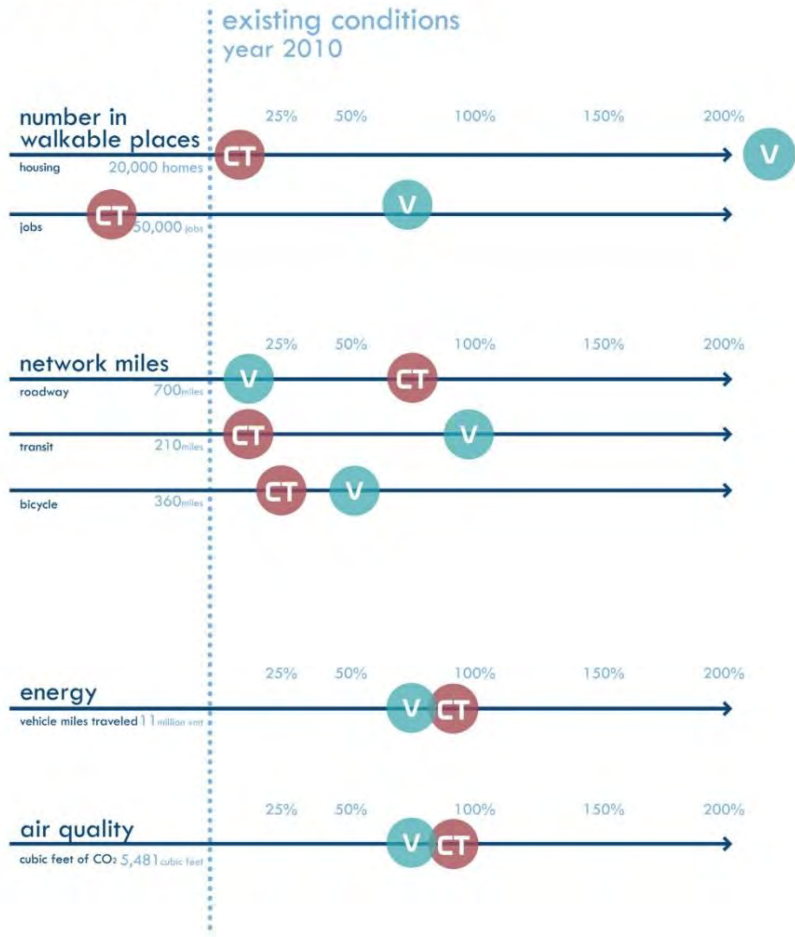

MIAMI BEACH AIRPORT EXPRESS Miami Intl Airport ↔ South Beach

PERFORMANCE MEASURE - PEDESTRIAN CONNECTIONS

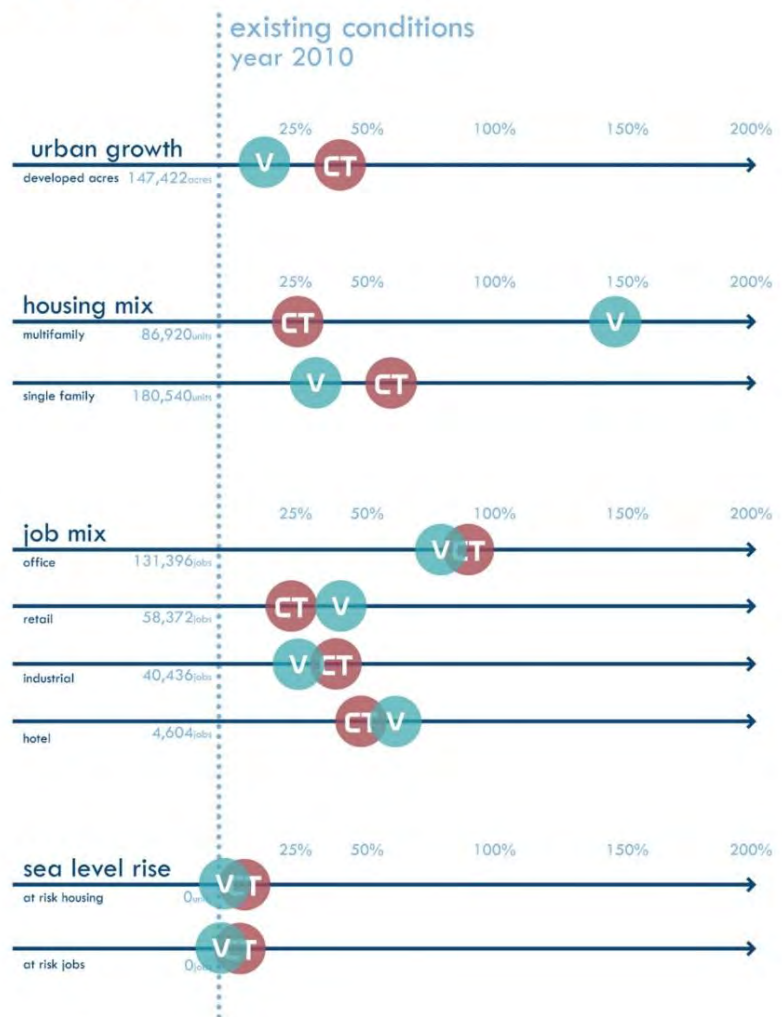

PERFORMANCE MEASURES - VISUALIZING THE RESULTS

TRANSPORTATION IMPACTS

LAND USE IMPACTS

GRAPHIC EXAMPLE

- Display results for each alternative
- Compare alternatives for each measure
- Convey tradeoffs between alternatives

Example from Space Coast TPO 2040 Long Range Transportation Plan

NEXT STEPS & ANTICIPATED SCHEDULE

- **Complete Existing and No-Build Traffic Analysis Report - December 2018**
- **Finalize Performance Measures – January 2019**
- **Refine Alternatives– February 2019**
- **Environmental Screening / Conceptual Evaluation Prioritization - February 2019**
- **PAT Meeting #3 (Screening / Tier 2 Alts.) – March 2019**
- **Complete Concept Development – April 2019**
- **PAT Meeting #4 (Final Recommendations / Tier 2) – May 2019**
- **Study Completion – August 2019**

QUESTIONS ?

I-195 Corridor Planning Study Project Advisory Team Meeting No. 2

Date: Wednesday, December 5, 2018
Time: 10 a.m.- Noon
Location: Dorothy Quintana Community Center
Multipurpose Center
101 NW 34 Street, Miami, Florida 33127
Attendees: See Sign-In Sheets and the end of this document

I. Overview

The I-195/State Road (SR) 112 Corridor Planning Study second Project Advisory Team (PAT) meeting was held on Wednesday, December 5, 2018, at 10 a.m. at the Dorothy Quintana Community Center, Multipurpose Room, 101 NW 34 Street, Miami, FL 33127. The Florida Department of Transportation (FDOT) Consultant Project Manager Jose Muñoz, P.E., welcomed meeting attendees and gave a brief overview of the project and the role of the PAT. Consultant Deputy Project Manager, Lorin Brissett, P.E., gave a recap of the last meeting, discussed the study objectives, project scope, other projects in the study area, and stakeholder coordination. FDOT Project Manager Shereen Yee Fong addressed questions or concerns.

Mr. Brissett's complete presentation is attached to the meeting summary.

II. Number of attendees: 14 The following seven (7) PAT members were in attendance: Collin Worth (City of Miami); José González, P.E. (City of Miami Beach); Kevin C. Walford (TPO); Lynda Kompelien Westin, AICP (City of Miami Beach); Mayra Diaz (Miami-Dade Expressway Authority); Tariq Bayzid (Midtown Community Development District); and Vinod Sandanasamy (Miami-Dade County Planning).

III. Meeting Materials Distributed

- i. Meeting agenda
- ii. Presentation
- iii. Alternatives 1, 2 and 3 and Bike/Ped Path Proposals

IV. Open Discussion: Below is a summary of key points:

Mayra Diaz (Miami-Dade Expressway Authority)

- Inquired about the I-195 at N Miami Avenue Interchange Modification Report that was listed as another initiative that was being conducted in the study area.

- North Miami Avenue is a partial interchange right now. Traffic can only go to and from the west on I-195.

Shereen Yee Fong (FDOT Project Manager)

- Department of Transportation and Public Work (DTPW) is taking the lead on the project's feasibility with Federal Highway Administration (FHWA) approval.

José González, P.E. (City of Miami Beach)

- When will the bike lane pilot along the Julia Tuttle Causeway be complete?
- It was mentioned that the pilot is ongoing and certain monitoring was put into place to look at crashes and other metrics and legislation was passed in 2015. The review is still ongoing.

Shereen Yee Fong (FDOT Project Manager)

- The monitoring went on 4 years and it has been completed.

Jose Muñoz, P.E. (BCC Engineering)

- It is no longer in the pilot phase.

Collin Worth (City of Miami)

- There is a safety study to close NE 2 Avenue.
- The transition from NW 36th Street and Federal Highway will impact everything exiting.

Jose Muñoz, P.E. (BCC Engineering)

- Can you provide us information on who is doing the study closing southbound NE 2nd Avenue?

Vinod Sandanasamy (Miami Dade County Planning Department of Regulatory and Economic Resources)

- Will the express lanes on I-95 have three lanes?

Lorin Brissett, P.E. (BCC Engineering)

- That's one of the concepts being considered in the I-95 Corridor Planning Study.

Mayra Diaz (Miami-Dade Expressway Authority)

- The study must also look at higher elevation and general-purpose lanes.

Vinod Sandanasamy (Miami Dade County Planning Department of Regulatory and Economic Resources)

- How do the Texas U-Turns work?

Jose Munoz, P.E. (BCC Engineering)

- The Texas U-Turn concept is being evaluated. It's a challenge, but we are looking to determine its feasibility.

Mayra Diaz (Miami-Dade Expressway Authority)

- Eastbound traffic exiting SR 112, will have to cross five (5) lanes of traffic.

Tariq Bayzid (Midtown Community Development District)

- Signage should warn drivers that this movement is prohibited.

Mayra Diaz, MDX Planning Manager (Miami-Dade Expressway Authority)

- People on SR 112 want to exit or exit earlier or exit at Miami Avenue from the mainline. That's the issue.
- There's a huge bottleneck going south on the Don Shula approaching Florida's Turnpike, the exit on SW 152nd Avenue. FTE built a ramp earlier to get traffic to the exit earlier.
- Is it possible to do something underneath, under the columns?

Jose Muñoz, P.E. (BCC Engineering)

- There is so little room and we must coordinate I-95 Corridor Planning Study.
- Keeping traffic on I-95 exacerbates the issues further.
- There's heavy traffic on North Miami Avenue and flows would need to be synchronized
- We will evaluate as a part of the study.

PAT members were invited to review the Alternatives and Bike/Ped maps. Listed are the major comments and questions:

Mayra Diaz (Miami-Dade Expressway Authority)

- Is there a plan to synchronize the traffic lights?
- If the lights are synchronized, then mobility will improve.
- Braided ramp is costly.
- Address the weaving

Tariq Bayzid (Midtown Community Development District)

- Midtown is 90% built out.
- Traffic to NW 36th Street is already backed up.

Michelle Rossi (BCC Engineering)

- BNA access only goes westbound
- Existing exit
- Free flow lane to westbound back to ROW

Mayra Diaz (Miami-Dade Expressway Authority)

- Add access to I-195 from N Miami Avenue
- This roadway already exists.

Collin Worth (City of Miami)

- This area would not support allowing access to I-95 using neighborhood streets.
- NE 42nd Street will provide an opening for the train.

Lynda Kompelien Westin, AICP (City of Miami Beach)

- In Biscayne Neighborhood Association (BNA), the bus stop near backs up the traffic.
- The entrance ramp to Miami Beach and the mainline are not the problem.
- Traffic heading west on Alton Road ramp also gets backed up.

José González, P.E. (City of Miami Beach)

- If I-95 is shut down, Miami Beach gets congested.

Jose Munoz, P.E. (BCC Engineering)

- We don't want to recommend widening the roadway between entrance and exit to Alton Road if the back-up is somewhere else.

Mayra Diaz (Miami-Dade Expressway Authority)

- The solution can be as simple as making operational improvements.

Lynda Kompelien Westin, AICP (City of Miami Beach)

- Add a pull off for the buses, so they can get out of the way of traffic

Lynda Kompelien Westin, AICP (City of Miami Beach)

- Reduce time spent waiting for the signal
- Miami Beach Commission passed a resolution listing its priorities.

Tariq Bayzid (Midtown Community Development District)

- What about sea-level rise?

Jose Muñoz, P.E. (BCC Engineering)

- FDOT is adding a widening project based on clearance.

Lynda Kompelien Westin, AICP (City of Miami Beach)

- Mount Sinai and Army Corp of Engineers rebuilt the access road.
- This may accommodate what FDOT plans to do with this project.
- There is an existing bike path near the main road.

Collin Worth (City of Miami)

- For new express lanes ramp, pull divider further back for people always trying to get over.

Mayra Diaz (Miami-Dade Expressway Authority)

- Texas U-turn must be evaluated for feasibility
- Southbound express lanes exit to NW 12th Avenue and make a U-turn.
- SR 112 shift south to create a return for southbound to eastbound traffic.
- Is this for express lanes and general-purpose lanes?

Michelle Rossi (BCC Engineering)

- General-purpose lanes will have direct access.

Jose Gonzalez, P.E. (City of Miami Beach)

- Are these short-term improvements?

Jose Muñoz, P.E. (BCC Engineering)

- We will be considering costs, geometric issues

Vinod Sandanasamy (Miami Dade County Planning Department of Regulatory and Economic Resources)

- Will direct connection ramp improvements be more expensive than Texas U-turn alternative?.

Jose Munoz, P.E. (BCC Engineering)

- Yes

Tariq Bayzid (Midtown Community Development District)

- Can't head eastbound from I-95 southbound Express lanes today.

Jose Muñoz, P.E. (BCC Engineering)

- The final design is based on clearance, tie-ins, etc.

Alternative 2

Michelle Rossi (BCC Engineering)

- SR 112 is built out. It's congested
- Widening not doable without ROW
- Have elevated sections; queue ramps
- Provide express lanes for Miami Beach traffic
- Widening existing bridge

Collin Worth (City of Miami)

- Parks have no access today.
- Raise the bridge to provide pedestrian access and connection to Baywalk.

Alternative 3

Michelle Rossi (BCC Engineering)

- Upper level 2 lanes each direction
- Lower level 2 lanes
- SR 112 traffic continue to Biscayne Boulevard
- Interstate Access to Wynwood is being considered as part of the I-95 Planning Study.

Jose Muñoz, P.E. (BCC Engineering)

- This alternative provides several benefits as 40-50% of traffic goes on top.
- This design makes full interchange for Design District possible.

Mayra Diaz (Miami-Dade Expressway Authority)

- Extend SR 112 further west if you preclude access to the Design District in the short term
- Avoid precluding existing access to North Miami Avenue

Michelle Rossi (BCC Engineering)

- Challenges include need for more ROW as well as constrained weave distance

Collin Worth (City of Miami)

- First exit on NW 12th Avenue will alleviate traffic if there is an opportunity to get off

Jose Muñoz, P.E. (BCC Engineering)

- Alternative 3 doesn't give access to express lanes to Design District

Tariq Bayzid (Midtown Community Development District)

- Exit at Wynwood will relieve a lot of congestion.

José González, P.E. (City of Miami Beach)

- Will both alternatives provide to and from access to express lanes?

Jose Muñoz, P.E. (BCC Engineering)

- Yes

Bike/Path Proposals

Michelle Rossi (BCC Engineering)

- Two Alternatives for Bike facility
 - Separated shared-use path
 - Pulls all buffers to west side
 - Goes over the water as a separate structure
 - Shift to the south side

Lorin Brissett, P.E. (BCC Engineering)

- Revitalize the path we could connect to the existing path on Miami Beach side

José González, P.E. (City of Miami Beach)

- Mount Sinai giving space for bike paths along sea wall.

Collin Worth (City of Miami)

- Will the bike and traffic improvements be done at the same time?

Jose Muñoz, P.E. (BCC Engineering)

- It may be separate or same time as other projects.

Michelle Rossi (BCC Engineering)

- Eastbound and westbound barrier separated
- Connection to switch to either side
- Existing path and to Mount Sinai path

José González, P.E. (City of Miami Beach)

- If you are going eastbound, how will you get to Mount Sinai?

Jose Muñoz, P.E. (BCC Engineering)

- Improvements must allow for a switchback connection.

Vinod Sandanasamy (Miami Dade County Planning Department of Regulatory and Economic Resources)

- Will you widen the bridge near pillar?

Jose Muñoz, P.E. (BCC Engineering)

- May need to reinforce the foundation to widen
- Widening will be based on the load of existing bridge
- One example is along the Courtney Campbell Causeway in Tampa.

Collin Worth (City of Miami)

- What's the timeline?

Shereen Yee Fong (FDOT Project Manager)

- After planning, the project will go to PD&E.

Jose Muñoz, P.E. (BCC Engineering)

- This study will end in August 2019

Collin Worth

- It would be great if the bike proposal moves forward in the interim to avoid the constraints of the larger projects.

Dan Hardy (Renaissance Planning)

- Demonstrate purpose and need
- Sensitive to alternative strategies – What are we trying get done?
- Availability of the analysis tools
- Consistent with I-95 Corridor Study Project
- Stakeholder input
- Where are the future places to be enhanced?
- Certain places have congestion.
- If we spend the money, does it yield some improvements?

Linda Kompelien Westin, AICP (City of Miami Beach)

- City adopted its priorities. Pedestrians first, bike users and vehicles/cars are third.

Dan Hardy (Renaissance Planning)

- How did you make that judgment?

Linda Kompelien Westin, AICP (City of Miami Beach)

- A master plan was developed and interim measurements.

Collin Worth (City of Miami)

- Improve mobility on Biscayne Boulevard and providing additional access to the westbound onto Miami Avenue from the east
- Coordinate with NW 38 Street and local street special area plan put together for the Miami Design District so that improvements will have some impact
- Bike/ped access is important.

- As the BPAC Chair, I'd like to see a presentation of the bike proposal at an upcoming meeting.
- Bike option could go a long way.
- Alternative 3 should have significant impact to the parks
- During the PD&E study, the City's planning department will be more involved.

Lorin Brissett, P.E. (BCC Engineering) closed the meeting with the following remarks:

- Anticipated schedule must coordinate with I-95 Express Lanes Study
- Will finalize the traffic report in the next few weeks.
- With today's feedback, performance measures will be finalized.
- Environmental Screening is scheduled for February 2019
- The next PAT meeting will be held in March 2019.
- This study will end in August 2019
- Feel free to share additional thoughts beyond today by contacting the study team.

I. Action Items:

- Linda Kompelien Westin, AICP (City of Miami Beach) will send resolution listing the City of Miami Beach's priorities.
- The study team to schedule a Transportation Planning Organization (TPO) BPAC presentation.
- FDOT to send study pilot study results to the City of Miami Beach.

Meeting Summary

This meeting summary is not a word-for-word transcript but is a summary of the comments. If you feel that clarifications are necessary, or if this differs from your understanding, please notify Charesse Chester, Public Information Specialist by telephone at 305-944-7564 or by email at cchester@creativisionmedia.com within five (5) working days upon receipt of this summary.

APPENDIX F

PROJECT ADVISORY TEAM (PAT) MEETING #3
DOCUMENTS

Notice of Meeting

OTHER AGENCIES AND ORGANIZATIONS

Creativision MEDIA Inc.

The Florida Department of Transportation (FDOT), District Six, announces a Project Advisory Team (PAT) Meeting to which all persons are invited.

DATE AND TIME: Wednesday, October 9, 2019, 10 a.m. - Noon

PLACE: Dorothy Quintana Community Center, Multipurpose Room, 101 NW 34 Street, Miami, FL 33127

GENERAL SUBJECT MATTER TO BE CONSIDERED:

The Florida Department of Transportation (FDOT), District Six, is holding the third Project Advisory Team (PAT) Meeting for the I-195/State Road (SR) 112 Corridor Planning Study (FM Number: 440228-1-22-01) from NW 12 Avenue to SR 907/Alton Road in Miami-Dade County, Florida. The purpose of the study is to evaluate conditions, deficiencies, identify needs, and develop as well as evaluate improvement concepts. PAT members will represent local, county, and regional governmental agencies as well as the Wynwood Business Improvement District (BID).

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this meeting is asked to advise the agency at least seven (7) days before the meeting by contacting: Hong Benitez, P.E., at 305-470-5219; in writing at FDOT, 1000 NW 111 Avenue, Miami, FL 33172; or by email at Hong.Benitez@dot.state.fl.us.

If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1-800-955-8771 (TDD) or 1 (800) 955-8770 (Voice).

For more information, you may contact: Project Manager Shereen Yee Fong, Department of Transportation, District Six at 305-470-5393; in writing at FDOT, 1000 NW 111 Avenue, Miami, FL 33172; or by email at Shereen.YeeFong@dot.state.fl.us or District Six Transportation Planning Manager Kenneth Jeffries at 305-470-5445; or by email at Ken.Jeffries@dot.state.fl.us.

I-195 Corridor Planning Study Project Advisory Team (PAT) Meeting #3

*Dorothy Quintana Community Center | Multipurpose Room
101 NW 34 Street, Miami, Florida 33127
Wednesday, October 9, 2019 - 10:00 a.m.*

I-195 Corridor Planning Study

**Third Meeting With
Project Advisory Team**

**Meeting Presentation:
October 9, 2019**

This PowerPoint presentation was prepared by the Florida Department of Transportation (FDOT) staff and has been made available to the public as part of public records access. Any dissemination of this presentation by anyone or entity other than FDOT staff is not official. Any questions can be sent to FDOT-D6PIO@dot.state.fl.us.

This presentation may not be altered.

District 6

INTRODUCTIONS

FDOT

- Shereen Yee-Fong – Project Manager
- Kenneth Jeffries – Planning Manager

BCC ENGINEERING

- Jose Muñoz, P.E. – Project Manager
- Lorin Brissett, P.E. – Deputy Project Manager
- Michelle Rossi, P.E. – Roadway Design Engineer
- John Krane, P.E. – Project Advisor

RENAISSANCE PLANNING

- Dan Hardy, P.E. – Principal Planner

CREATIVISION MEDIA

- Charesse Chester – Public Involvement Officer (PIO)
- Natacha Placide – Deputy PIO

AGENDA

1. Study Area & Background
2. Study Focus Areas
3. Project Scope & Status
4. Project Purpose and Need
5. Future Origin-Destination Traffic Flows
6. Review of Tier 1 Alternatives
7. Assessment of Tier 1 Alternatives
8. Evaluation of Tier 1 Alternatives
9. Recommended Alternatives For Tier 2
10. Recommended Performance Measures
11. Next Steps
12. Questions

STUDY AREA & BACKGROUND

- Important Limited Access Facility Connecting Miami International Airport and Miami Beach
- Carries average 130,000 Vehicles Per Day – Total both directions
- Provides Access to Several High Growth Neighborhoods
- Continued Growth Expected to increase demand exacerbating access issues

STUDY OBJECTIVES

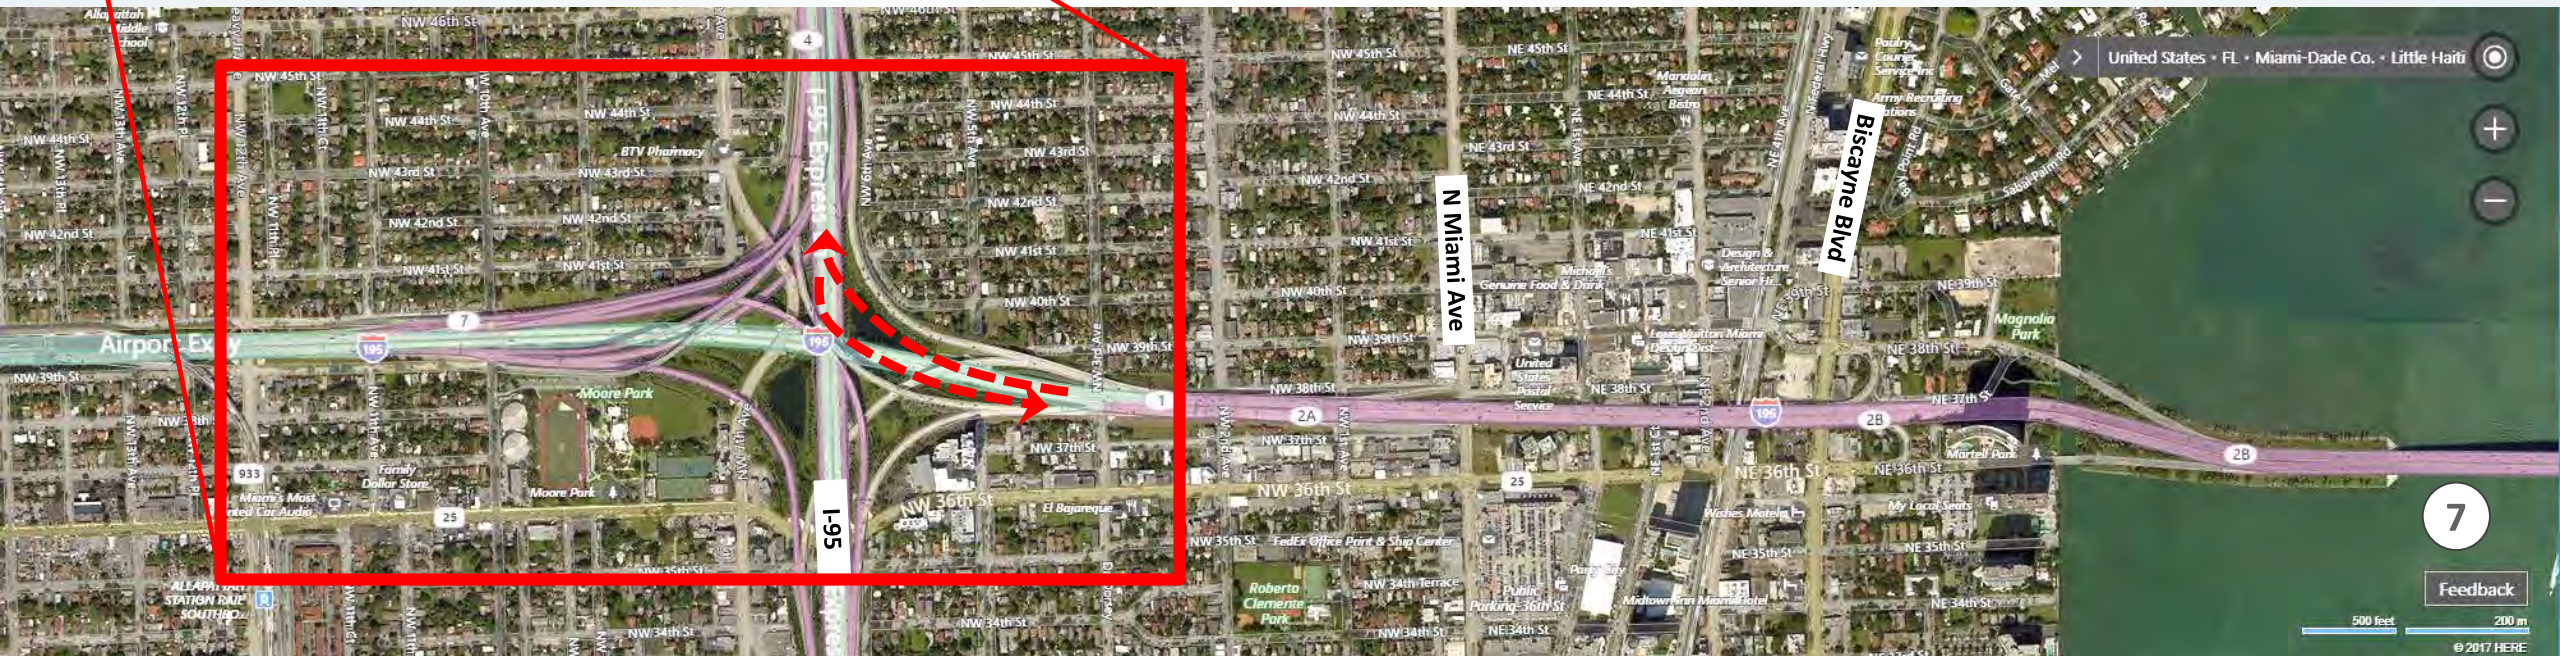

- **Evaluate Existing Conditions and Deficiencies**
- **Identify Needs**
- **Develop and Evaluate Improvement Concepts**

STUDY FOCUS AREAS

FOCUS AREA #1 (Direct Connection to 95 Express Lanes)

Western Limit

Eastern Limit

7

Feedback

500 feet 200 m

© 2017 HERE

FOCUS AREA #2 (Improve Interchange Access in Midtown Area)

FOCUS AREA #3 (Improve Bicycle Access on Causeway)

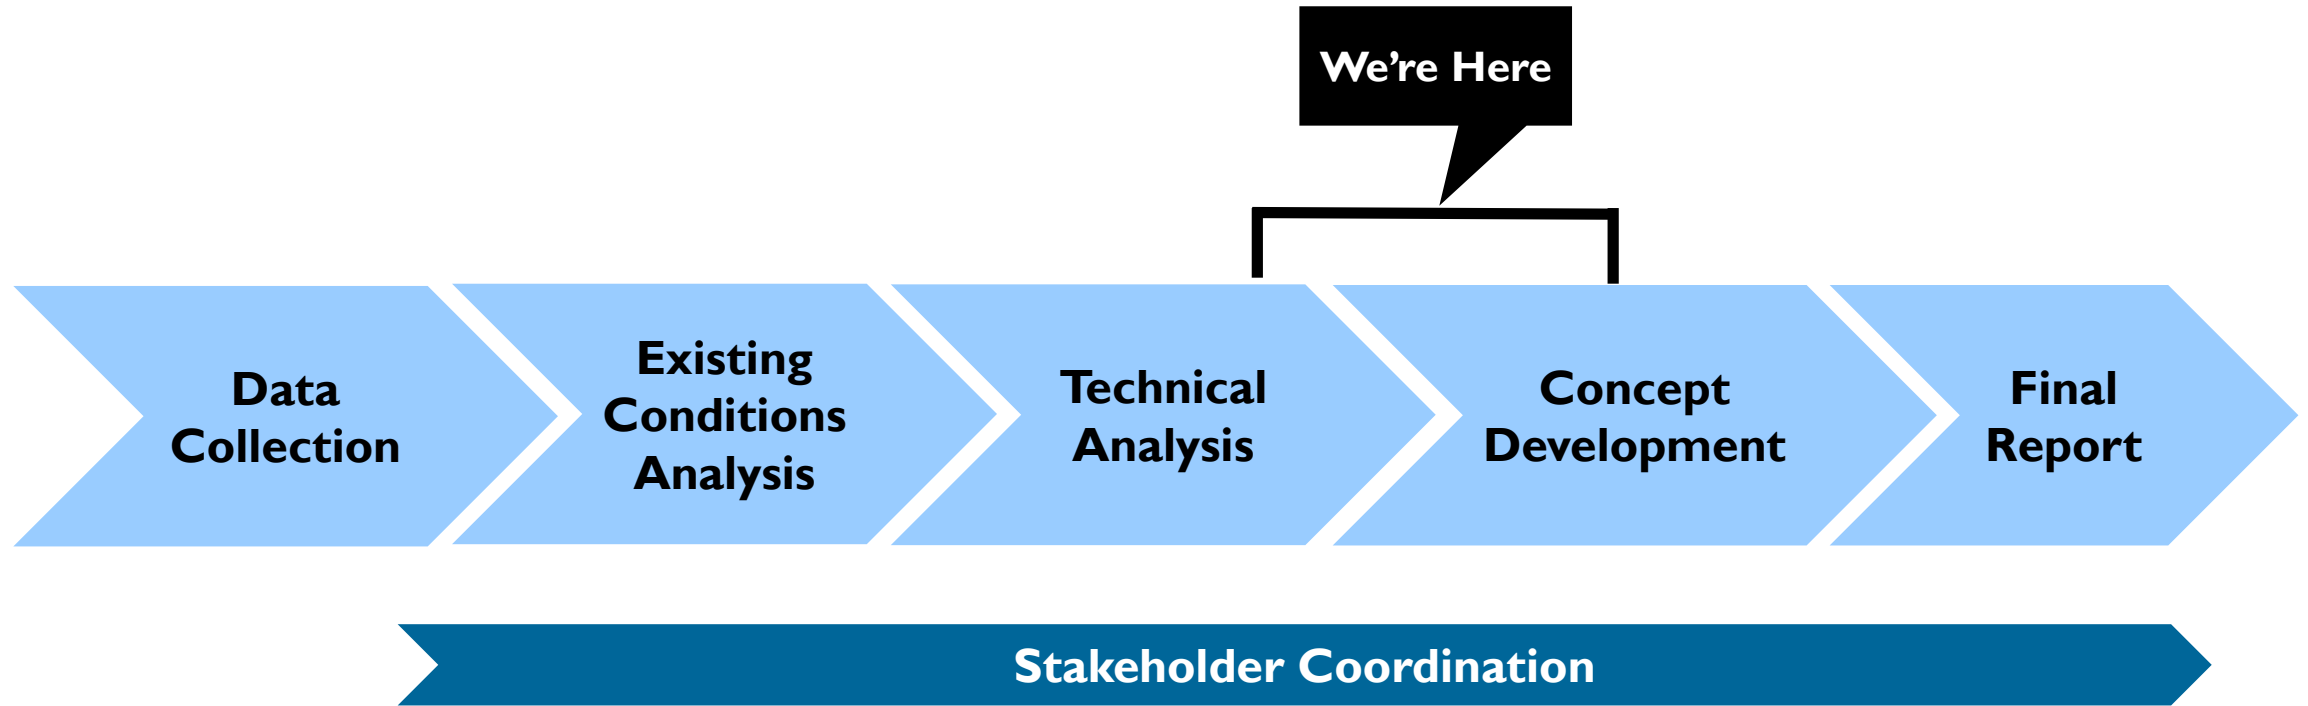

FOCUS AREA #4 (Improve Alton Road Interchange Access)

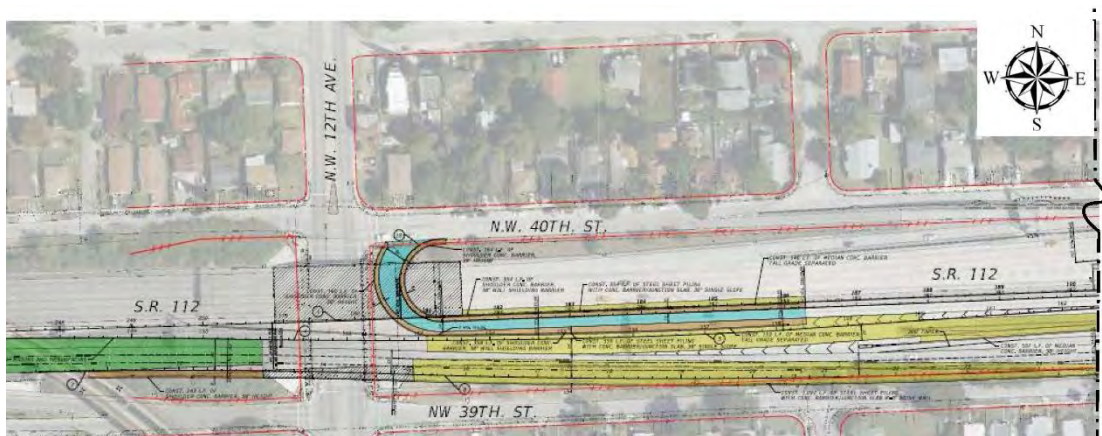

PROJECT SCOPE & STATUS

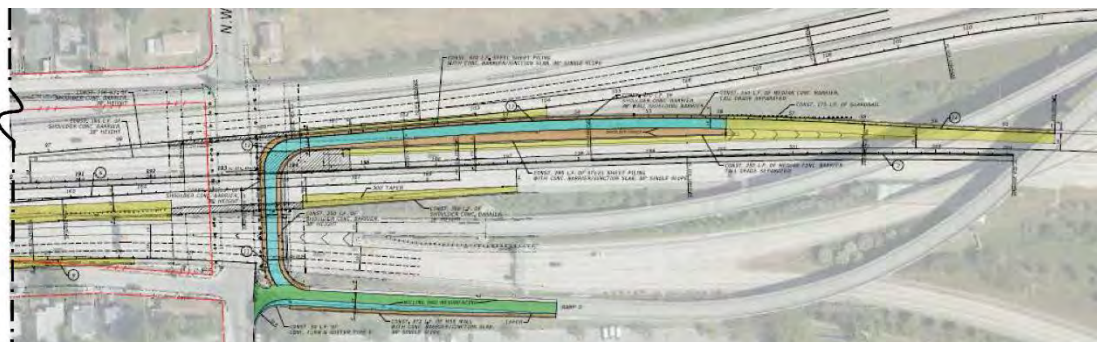

PROJECT SCOPE & STATUS

I-195/I-95 EXPRESS LANES TEXAS U-TURN CONCEPT DEVELOPEMENT

Southbound to Eastbound Connection

Westbound to Northbound Connection

- Added to Scope in February 2019
- Evaluating feasibility of concept with limited ROW Impact
- Reviewing potential design exceptions & Variations
- Developing scope for final design to be done by others
- Systems Interchange Modification Report (SIMR) for FHWA Approval being done by others

STAKEHOLDER COORDINATION - ONGOING

Project Advisory Team Meeting #1 - 5/23/18

- **4 PAT Meetings, (3 Down and 1 More to Go)**
- **Past Meetings:**
 - **One-on-One Meetings with Elected Officials**
 - **Miami Beach Chamber of Commerce**
 - **Dacra / Design District**
 - **Biscayne Neighborhood Association**
- **Upcoming Meetings:**
 - **Public Workshops**
 - **City Commission Meetings**

DRAFT TIER 1 CONCEPT EVALUATION REPORT - COMPLETED

TIER 1 CONCEPT EVALUATION REPORT I-195 Corridor Planning Study

I-95/NW 12th Avenue to Alton Road
Miami-Dade County, Florida

Financial Management Number: 440228-1-22-01

Prepared for:

DRAFT

Prepared by:
BCC Engineering, Inc.
6401 SW 87th Avenue, Suite 200
Miami, FL 33173

SEPTEMBER 2019

- **Completed September 2019**
- **Incorporated Texas U-Turns as another alternative**
- **Documented Following:**
 - **Project Purpose and Need**
 - **Future Origin-Destination Traffic Flows**
 - **Identification of Alternatives**
 - **Assessment of Alternatives**
 - **Evaluation of Alternatives**
 - **Recommendations & Proposed Tier 2 Performance Measures**

PROJECT PURPOSE AND NEED

PROJECT PURPOSE AND NEED

- **Project Purpose:**

To provide multimodal improvements within the I-195 study corridor to address identified mobility and safety needs.

- **Need for:**

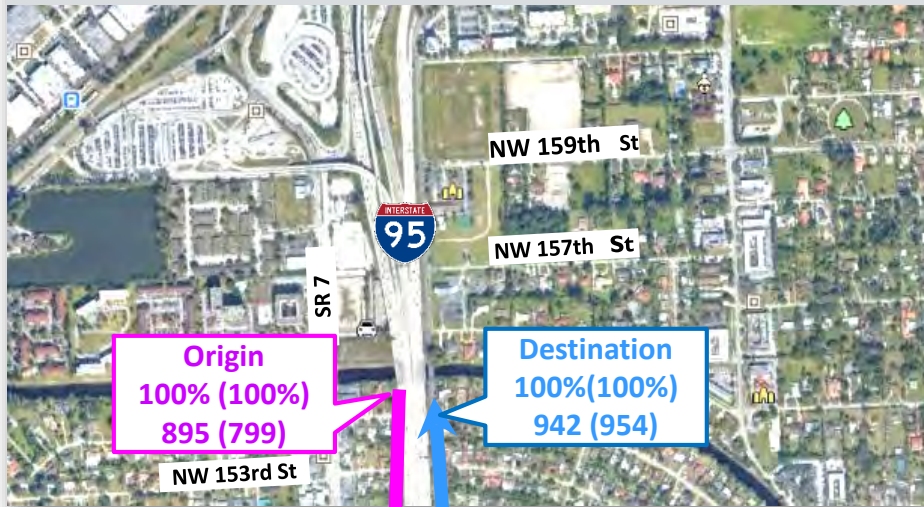

- **Better System Linkage including; better access to the I-95 express lanes for areas along I-195 east of I-95; better interchange access; separated bike/ped facility between City of Miami and City of Miami Beach.**
- **Increased transportation capacity to handle future transportation demand.**
- **Improved transportation system to facilitate the interaction of all transportation modes impacting the corridor.**
- **Better safety outcomes for the future.**

FUTURE ORIGIN-DESTINATION TRAFFIC FLOWS

FUTURE ORIGIN-DESTINATION TRAFFIC TO / FROM GOLDEN GLADES INTERCHANGE

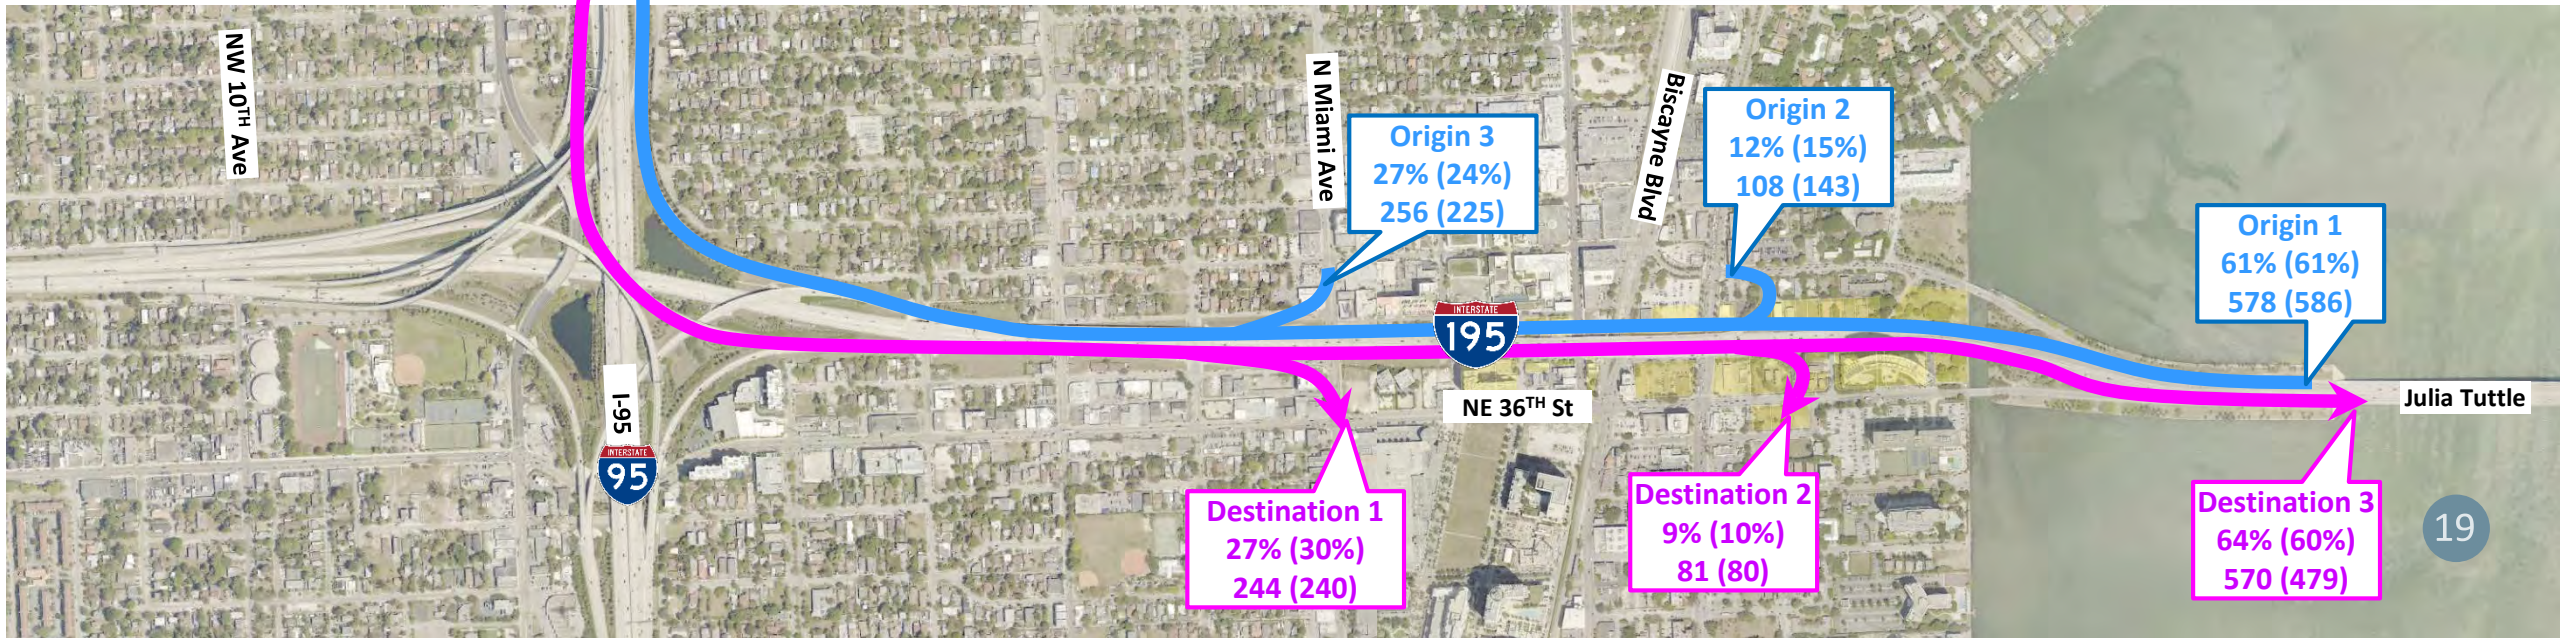

GOLDEN GLADES INTERCHANGE (NORTH OF STUDY AREA)

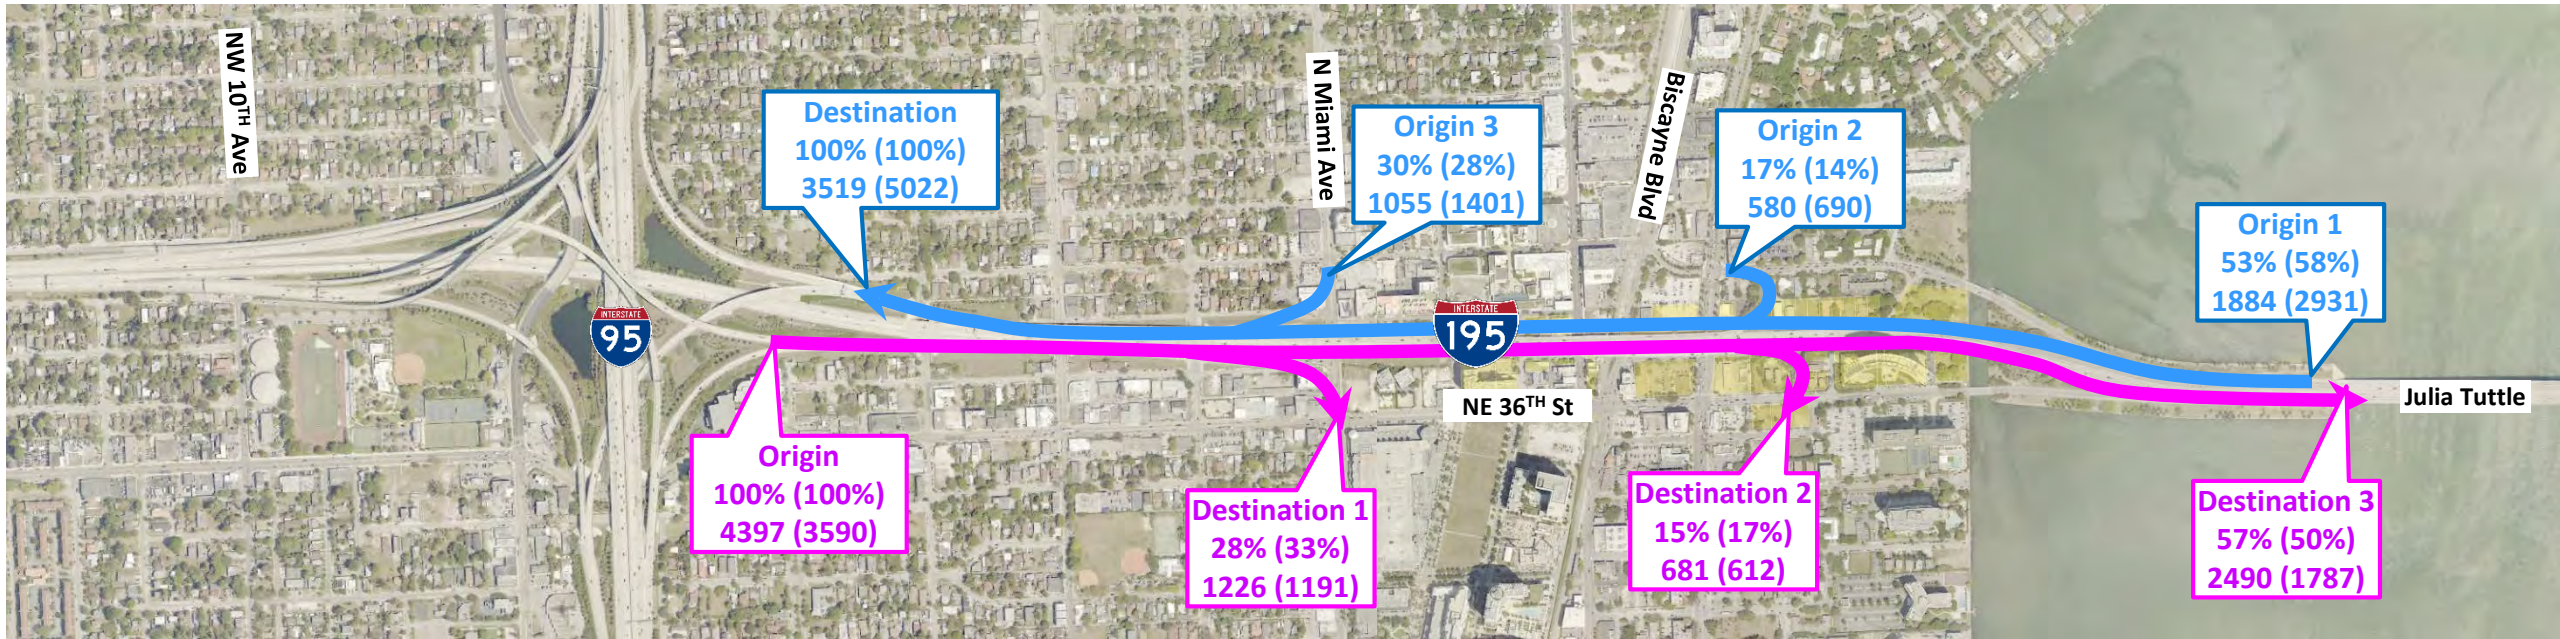

LEGEND

- XX%** AM PEAK PERCENTAGE
- (XX%)** PM PEAK PERCENTAGE
- XXX** AM PEAK VEHICLES PER HOUR
- XXX** PM PEAK VEHICLES PER HOUR
- I-95 SOUTHBOUND TO EASTBOUND 1-195
- WESTBOUND 1-195 TO NORTHBOUND I-95

FUTURE ORIGIN-DESTINATION TRAFFIC TO / FROM I-95

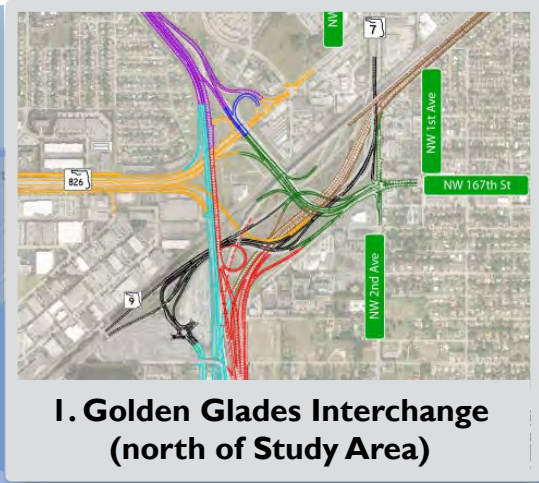

LEGEND

- XX%** AM PEAK PERCENTAGE
- (XX%)** PM PEAK PERCENTAGE
- XXX** AM PEAK VEHICLES PER HOUR
- XXX** PM PEAK VEHICLES PER HOUR
- FROM I-95 TO EASTBOUND I-195
- FROM WESTBOUND I-195 TO I-95

REVIEW OF TIER 1 ALTERNATIVES

NO-BUILD ALTERNATIVE (PROGRAMMED & PLANNED IMPROVEMENTS)

- 1) Golden Glades Interchange Enhancement Project (North of Study Area)
- 2) Alton Road to Westbound Julia Tuttle Causeway On-Ramp Improvement (Mt. Sinai)
- 3) Bus on Shoulder Express Bus Service on Julia Tuttle Causeway
- 4) I-195 Frontage Rd & Ramp Realignment (Miami Design District) – Project on Hold Pending Outcome of IMR.
- 5) I-95 Corridor Planning Study (FDOT / Kimley-Horn)

BASE IMPROVEMENTS

- **Identified to address operational deficiencies as well as specific local issues raised by stakeholders:**
 - **Improvement 1 - Construct second SR-112 WB lane to eliminate single lane bottleneck within the I-95 interchange area**
 - **Improvement 2 - Construct second I-195 EB lane to eliminate single lane bottleneck within the I-95 interchange area**
 - **Improvement 3 - Construct roundabout at NE 36th Street and the I-195 eastbound to Biscayne Boulevard off-ramp**
 - **Improvement 4 - Lengthen taper for acceleration lane for the on ramp from Biscayne Boulevard to I-195 eastbound**
 - **Improvement 5 - Provide a two-lane exit from I-195 WB to Biscayne Boulevard increasing the capacity of the off-ramp**
 - **Improvement 6 - Widen existing Julia Tuttle Causeway in the EB direction from just west of diverge area for off-ramp to Alton Rd to intersection with Arthur Godfrey Rd and Alton Rd**

SYSTEM IMPROVEMENTS

- **These alternatives address key study objectives relative to improving system linkage, system capacity, accommodating future transportation demand, modal interrelationships, and addressing safety:**
 - **Alternative 1 - Texas U-Turn Connections to/from 95 Express Lanes.**
 - **Alternative 2 - Direct Connections to 95 Express Lanes**
 - **Alternative 3 - Direct Connections to 95 Express Lanes with Viaduct on I-195.**
 - **Alternative 4 - Direct Connections to 95 Express Lanes with Viaduct on I-195 (I-95/Miami Beach**

BICYCLE / PEDESTRIAN IMPROVEMENTS

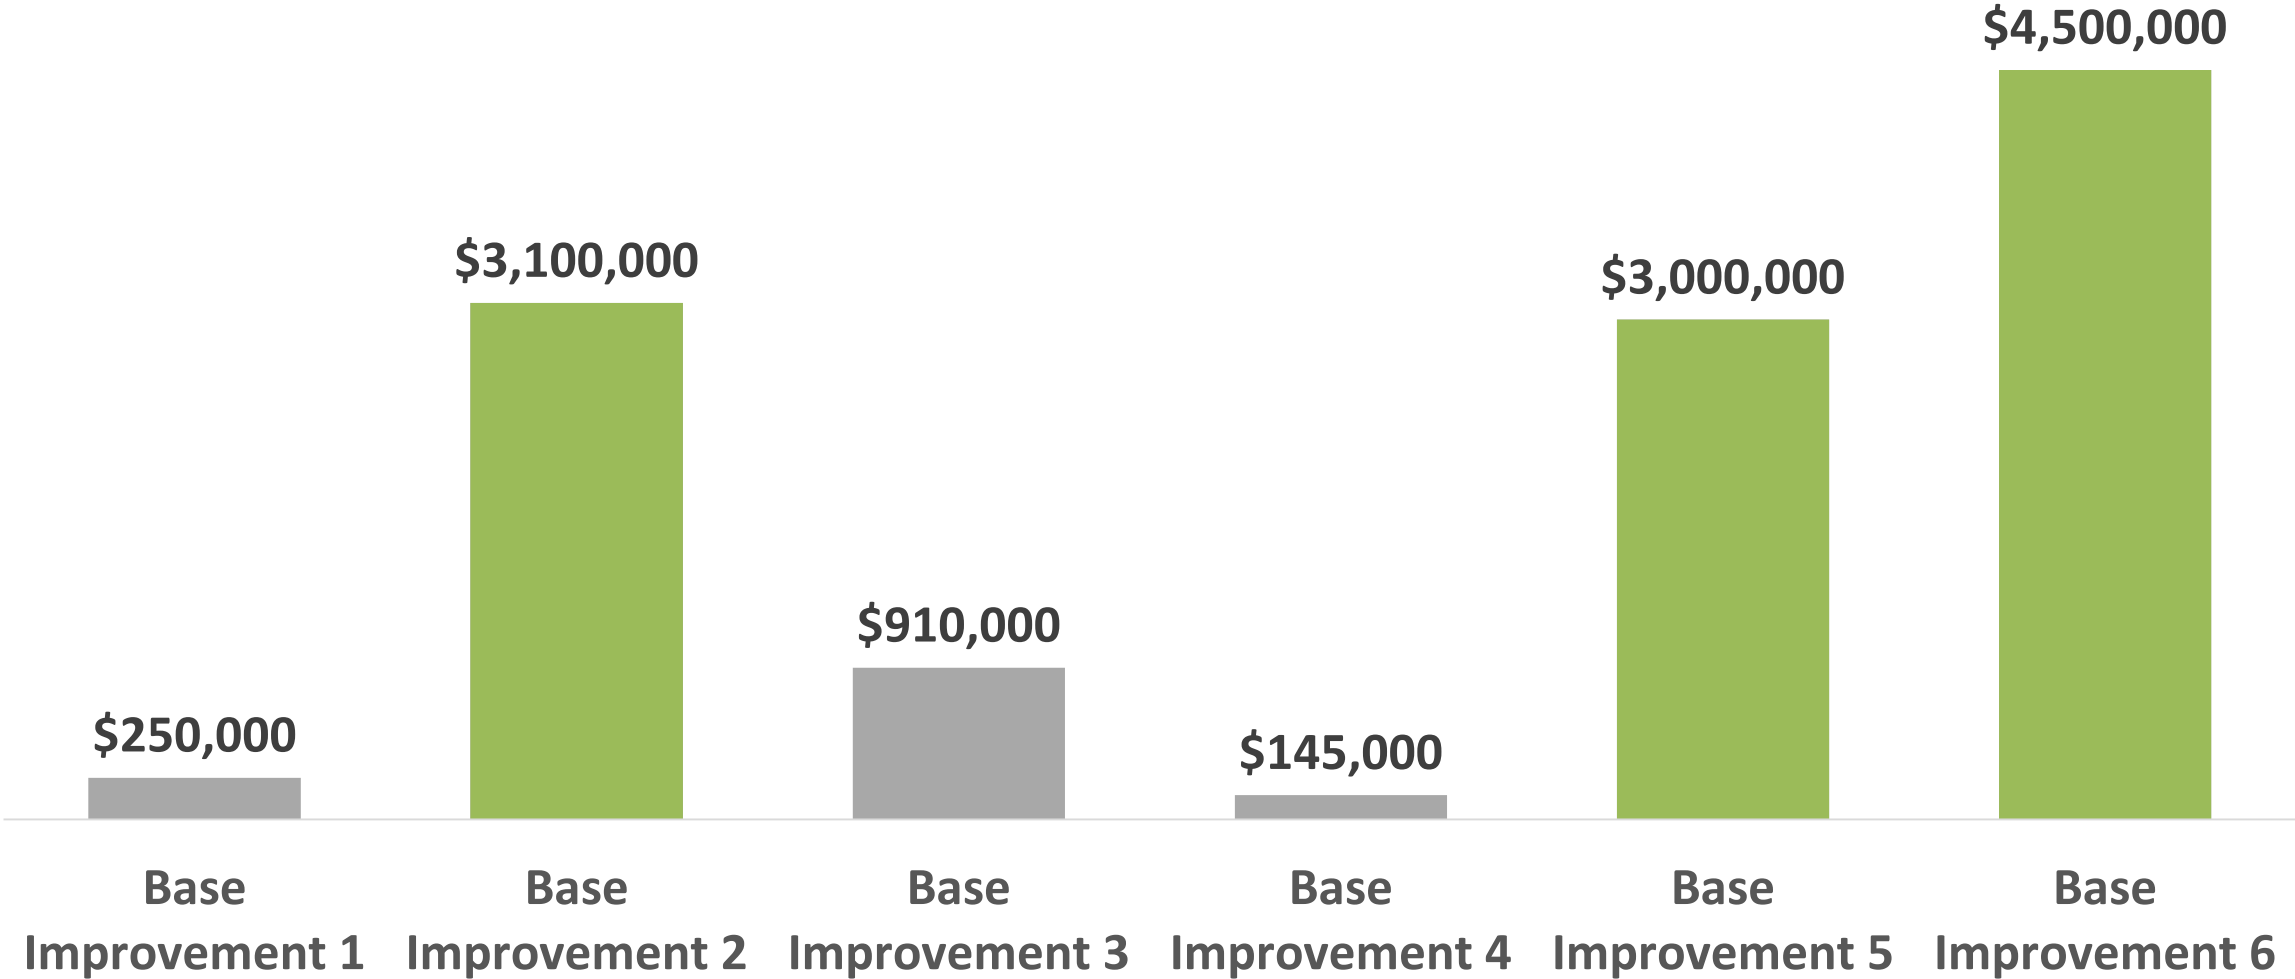

- **Provide improved bicycle/pedestrian connectivity between the City of Miami and Miami Beach via a separated protected facility consistent with the visions of the Miami-Dade 2040 Long Range Transportation Plan & the City of Miami Beach Master Plan :**
 - **Alternative A - 14' Shared Path With Bridge Structures On One Side Of Julia Tuttle Causeway**
 - **Alternative B - 12' Shared Use Paths With Widening Of Existing Causeway Bridges On North And South Sides**

ASSESSMENT OF TIER 1 ALTERNATIVES

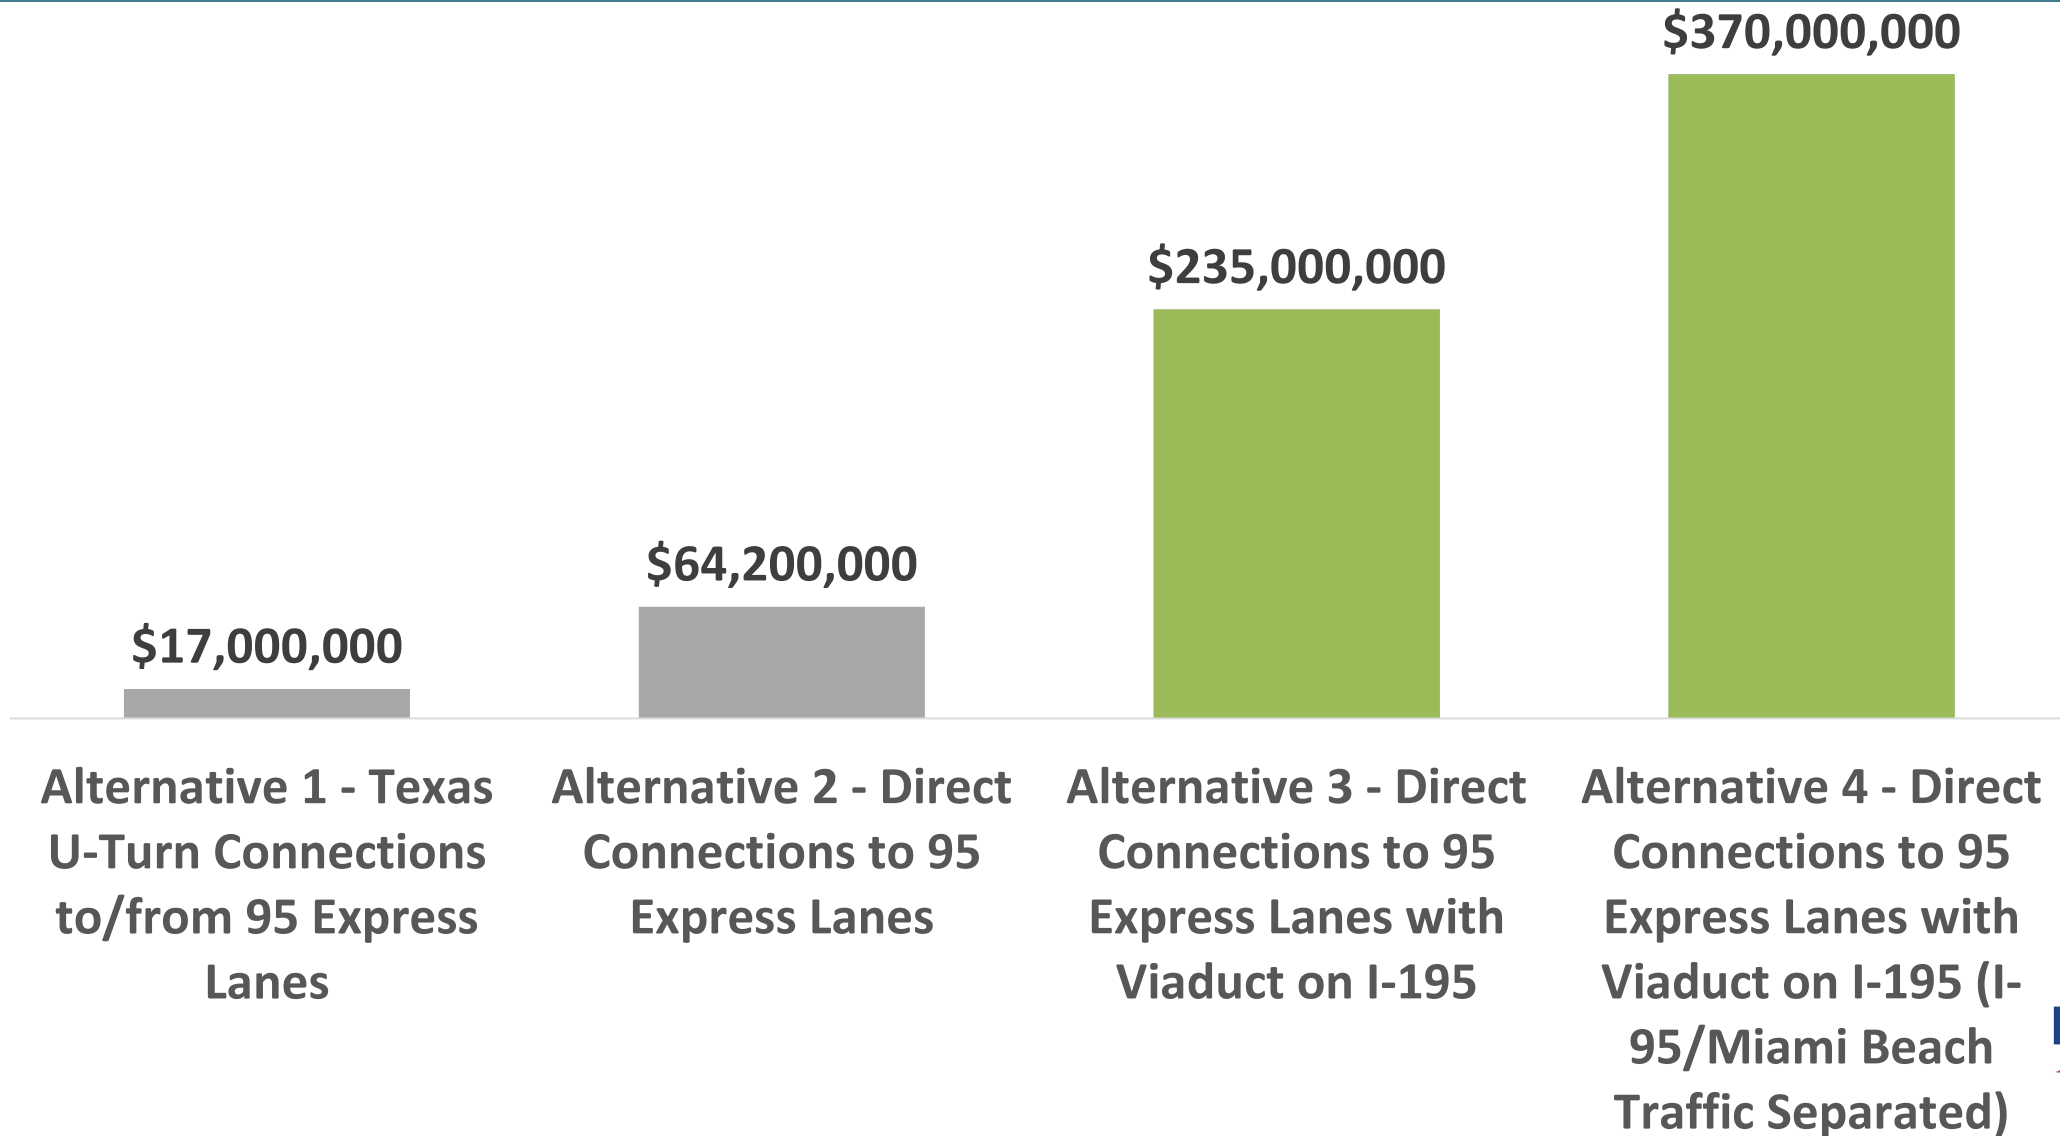

QUANTITATIVE MEASURES

- **Order of Magnitude Construction Cost (FDOT Long Range Estimates System)**
- **Potential Right-of-Way / Parcel Impacts**
- **Environmental Impacts**
- **System Traffic Operations**

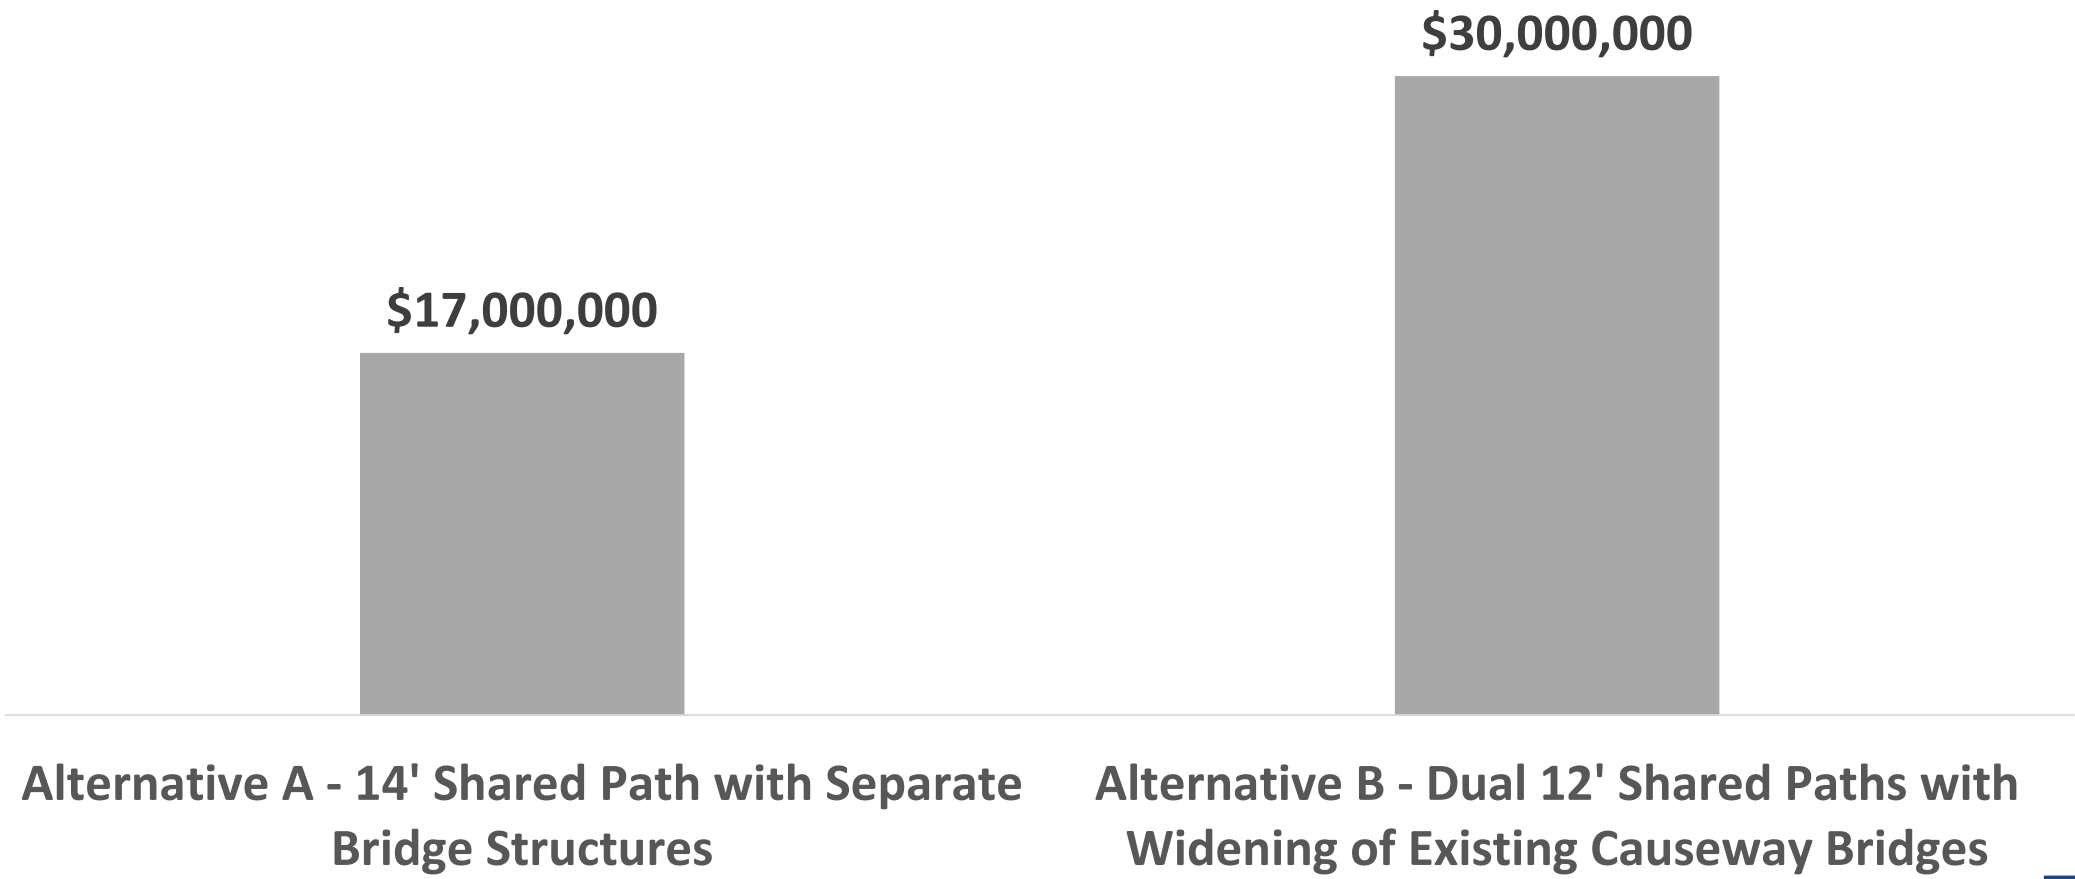

CONSTRUCTION COSTS - BASE IMPROVEMENTS

CONSTRUCTION COSTS - SYSTEM IMPROVEMENTS

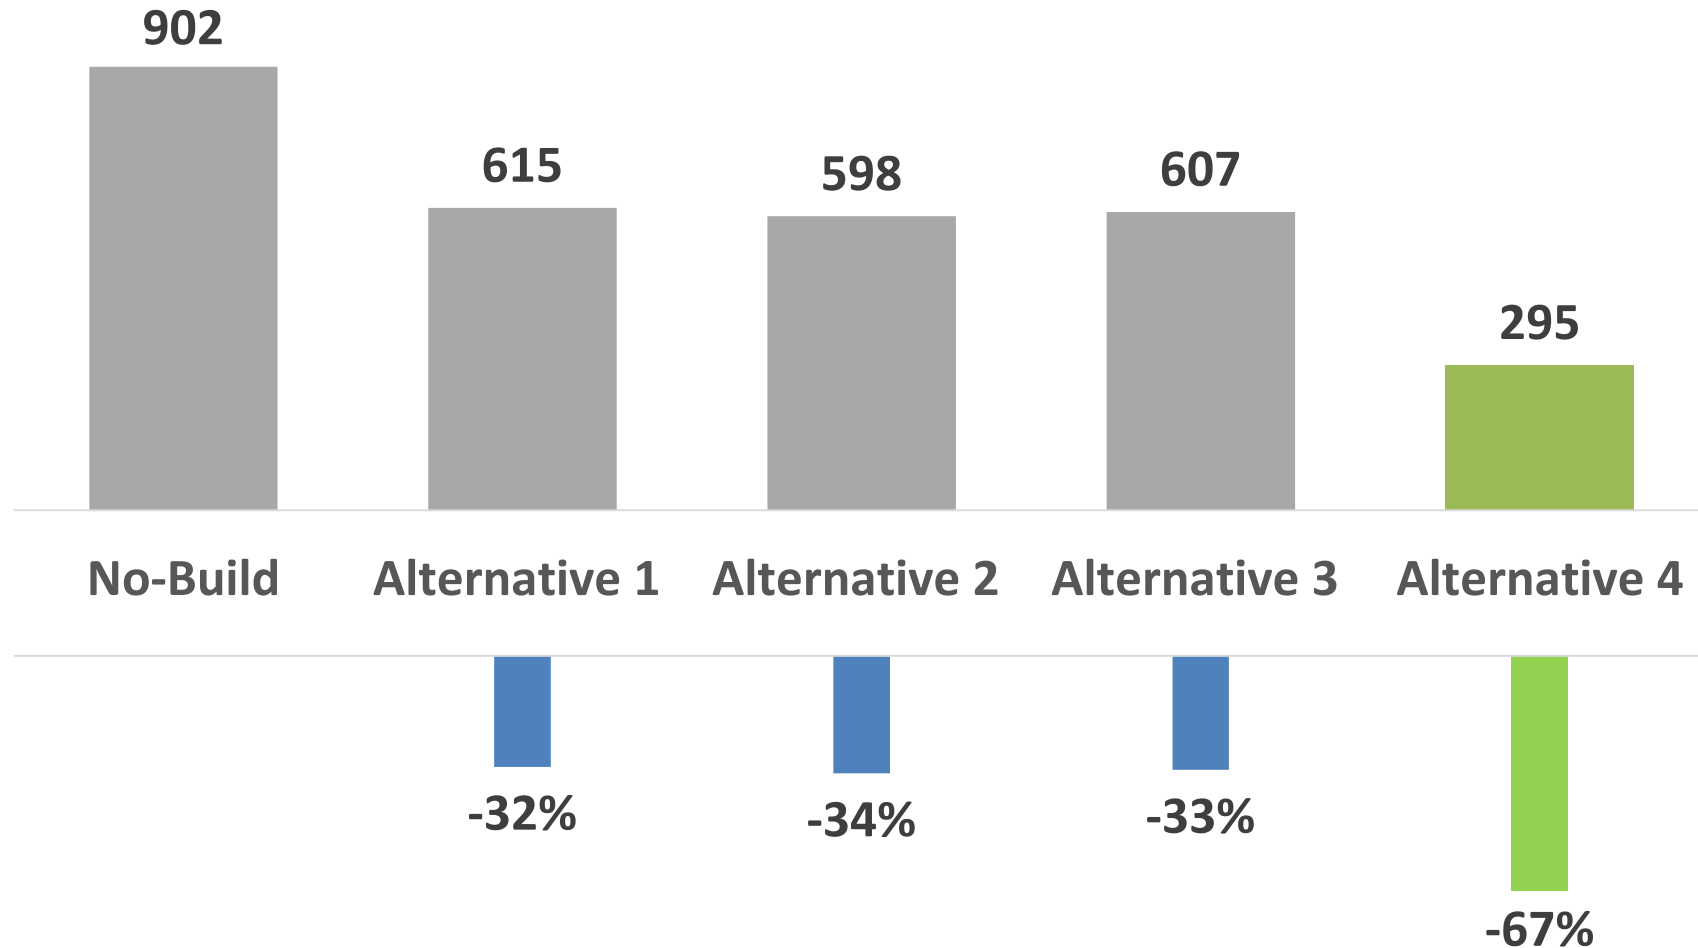

CONSTRUCTION COSTS – BICYCLE/PEDESTRIAN IMPROVEMENTS

POTENTIAL PARCEL IMPACTS

Description Of Alternative	No of Parcels Affected
Base Improvement 1	None Anticipated
Base Improvement 2	None Anticipated
Base Improvement 3	6
Base Improvement 4	None Anticipated
Base Improvement 5	None Anticipated
Base Improvement 6	None Anticipated
Alternative 1 - Texas U-Turn Connections to/from 95 Express Lanes	City of Miami Owned
Alternative 2 - Direct Connections to 95 Express Lanes	None Anticipated
Alternative 3 - Direct Connections to 95 Express Lanes with Viaduct on I-195	34
Alternative 4 - Direct Connections to 95 Express Lanes with Viaduct on I-195 (I-95/Miami Beach Traffic Separated)	40
Alternative A - Shared Path Bridge Structures	None Anticipated
Alternative B - Dual Shared Path with Widening of Existing Causeway Bridges	None Anticipated

SYSTEMS OPERATIONS SUMMARY (VEHICLE HOURS OF DELAY)

- In 2045, No-Build has 902 vehicle hours of delay for AM and PM peak hours combined
- Alternatives 1, 2, and 3 all reduce delay by about one-third
- Alternative 4 reduces delay by about two-thirds

EVALUATION OF TIER 1 ALTERNATIVES

EVALUATION CRITERIA

- **Expected Performance**
 - System Linkage
 - Capacity / Operations
 - Transportation Demand
 - Modal Interrelationships
 - Safety
- **Socio-Economic**
 - Community Cohesion
 - Potential for Controversy
- **Environmental**
 - Natural
 - Physical
 - Cultural / Historic / Archaeological

EVALUATION CRITERIA (Contd.)

- **Implementation**
 - **Utility Conflicts**
 - **Constructability**
- **Order of Magnitude Cost**
 - **Construction, Engineering & CEI**
 - **Right-of-Way / Business Damages**

EVALUATION SCORING & WEIGHTING

- **Scoring Scale of 1 to 5**
 1. **Substantial Negative Effect or Challenges**
 2. **Generally Negative Effect or Challenges**
 3. **Generally No Effect or Moderate Challenges**
 4. **Generally Positive Effect**
 5. **Substantial Positive Effect**
- **Weighting**
 - **Expected Performance = 9**
 - **Socio-Economic = 7**
 - **Environmental = 7**
 - **Implementation = 6**
 - **Cost = 4**

ALTERNATIVES SCORING – BASE IMPROVEMENTS

Criteria weight

Description Of Alternative	Socio-Economic		Environmental			Expected Performance					Implementation		Cost		WEIGHTED SCORE (WS)	RANK
	7	7	7	7	7	9	9	9	9	9	6	6	4	4		
	Community Cohesion	Potential for Controversy	Natural	Physical	Cultural / Historic / Archaeological	System Linkage	Capacity / Operations	Transportation Demand	Modal Interrelationships	Safety	Utility Conflicts	Constructability	Construction	Right of Way / Business Damages		
No Build Alternative	3	3	3	3	3	1	1	1	1	1	3	3	3	3	210	N/A
Base Improvement 1	3	3	3	3	3	3	4	3	3	4	3	3	3	3	318	NR ³
Base Improvement 2	3	3	3	3	3	3	4	3	3	4	3	3	3	3	318	NR ³
Base Improvement 3	3	2	3	2	3	3	4	3	3	3	3	2	3	2	285	NR ³
Base Improvement 4	3	3	3	3	3	3	4	3	3	4	3	2	3	3	312	NR ³
Base Improvement 5	3	3	2	3	3	3	4	3	3	4	3	3	3	3	311	NR ³
Base Improvement 6	3	3	2	3	3	3	4	3	3	4	3	3	3	3	311	NR ³

- Alternatives not ranked as they each address specific issue

ALTERNATIVES RANKING – SYSTEM IMPROVEMENTS

Description Of Alternative	Socio-Economic		Environmental			Expected Performance					Implementation		Cost		WEIGHTED SCORE (WS)	RANK
	7	7	7	7	7	9	9	9	9	9	6	6	4	4		
	Community Cohesion	Potential for Controversy	Natural	Physical	Cultural / Historic / Archaeological	System Linkage	Capacity / Operations	Transportation Demand	Modal Interrelationships	Safety	Utility Conflicts	Constructability	Construction	Right of Way / Business Damages		
No Build Alternative	3	3	3	3	3	1	1	1	1	1	3	3	3	3	210	N/A
Alternative 1 - Texas U-Turn Connections to/from 95 Express Lanes	3	1	3	2	2	4	2	2	3	2	3	3	3	3	254	4
Alternative 2 - Direct Connections to 95 Express Lanes	3	3	3	3	3	4	2	2	3	2	3	3	3	3	282	3
Alternative 3 - Direct Connections to 95 Express Lanes with Viaduct on I-195	2	1	3	1	2	4	4	5	5	4	2	2	2	2	301	2
Alternative 4 - Direct Connections to 95 Express Lanes with Viaduct on I-195 (I-95/Miami Beach Traffic Separated)	2	1	3	1	2	5	5	5	5	5	2	2	1	1	320	1

Criteria weight

- Alternatives 4 & 3 top ranked alternatives

ALTERNATIVES RANKING – BICYCLE/PEDESTRIAN IMPROVEMENTS

Description Of Alternative	Socio-Economic		Environmental			Expected Performance					Implementation		Cost		WEIGHTED SCORE (WS)	RANK
	7	7	7	7	7	9	9	9	9	9	6	6	4	4		
	Community Cohesion	Potential for Controversy	Natural	Physical	Cultural / Historic / Archaeological	System Linkage	Capacity / Operations	Transportation Demand	Modal Interrelationships	Safety	Utility Conflicts	Constructability	Construction	Right of Way / Business Damages		
No Build Alternative	3	3	3	3	3	1	1	1	1	1	3	3	3	3	210	N/A
Alternative A - Shared Path Bridge Structures	3	3	2	3	3	5	3	3	4	5	3	3	3	3	338	2
Alternative B - Dual Shared Path with Widening of Existing Causeway Bridges	3	3	2	3	3	5	3	3	5	5	3	3	2	3	343	1

Criteria weight

- Alternative B top ranked alternative

RECOMMENDED ALTERNATIVES FOR TIER 2

RECOMMENDED ALTERNATIVES FOR TIER 2

- **Base Improvements**

- All alternatives will be carried forward to Tier 2
- Concept plans will be developed during refinement of improvements

- **System Improvements**

- Alternative 4 and 3 carried forward to Tier 2 incorporating a modified Alternative 1
- Alternative 2 discarded
- Concept plans will be developed for only one alternative

- **Bicycle / Pedestrian Improvements**

- Alternative B and A carried forward to Tier 2
- Concept plans will be developed for only one alternative

RECOMMENDED TIER 2 PERFORMANCE MEASURES

RECOMMENDED TIER 2 PERFORMANCE MEASURES

Measure	Extent	Timeframe	Source(s)	Category
1 VMT (PMT)	Study Area	AM/PM	SERPM	Quantity
2 Peak Period Travel Time Reliability (95th percentile TTI)	I-195 + Freeway Network	AM/PM	SERPM	Quality
3 Δ Change in Safety Performance	I-195	Annual	HSM	Quality
4 Job Accessibility - Auto	Study Area	AM	SERPM	Accessibility
5 Job Accessibility - Transit	Study Area	AM	SERPM	Accessibility
6 Percentage Heavily Congested VMT	I-195	AM/PM	SERPM	Utilization
7 Transit Travel Time	MDT Routes 110 & 150	AM	VISSIM	Quality
8 Quality of Pedestrian Connections	Areas underneath I-195	N/A	Qualitative	Quality
9 Quality of Access to Recreation	Study Area	Midday	GIS	Accessibility
10 I-195 Access Points	I-195	N/A	Qualitative	Accessibility
11 Return of Investment	Project	N/A	FDOT B/C Tool	N/A

NEXT STEPS

- **Conduct Workshops for Community and Stakeholders**
- **Finalize Tier 2 Evaluation and Develop Recommended Alternatives**
- **Present Final Recommendations to PAT Meeting #4 (Final Recommendations)**
- **Prepare Final Report**
- **Project is Candidate for PD&E in 2021**

QUESTIONS ?

**I-195 Corridor Planning Study
Project Advisory Team Meeting #3**

**October 9, 2019 (10:00 AM to 12:00 PM)
Dorothy Quintana Community Center
101 NW 34 Street, Miami, FL 33127**

PURPOSE OF MEETING

The purpose of this meeting was to present the results of the screening of the Tier 1 alternatives and the alternatives that are identified for Tier 2 review in the I-195 Corridor Planning Study.

ATTENDEES

Name	Organization / Project Role
Collin Worth	City of Miami / PAT Member
Gaspar Miranda	Miami-Dade County DTPW / PAT Member
Jose Gonzalez, P.E.	City of Miami Beach / PAT Member
Josiel Ferrer	City of Miami Beach / PAT Member
Kevin C. Walford	Miami-Dade TPO / PAT Member
Lynda Kompelien Westin	City of Miami Beach / PAT Member
Manny Gonzalez	Wynwood Business Improvement District / PAT Member
Mayra Diaz	Miami-Dade Expressway Authority / PAT Member
Tariq Bayzid	Midtown CDD / PAT Member
Vinod Sandanasamy	Miami-Dade Dept. of Transp. Planning / PAT Member
Gerry Goldstein	Member of the Public
Kenneth Jeffries	FDOT D6 / Planning Manager
Jose Muñoz, P.E.	BCC Engineering / Consultant Project Manager
Lorin Brissett, P.E.	BCC Engineering / Consultant Deputy Project Manager
Michelle Rossi, P.E.	BCC Engineering / Consultant Design Engineer
John Krane, P.E.	BCC Engineering / Consultant Project Advisor
Dan Hardy, P.E., PTP	Renaissance Planning / Consultant Principal Planner
Charesse Chester	Creativision Media / Public Involvement Officer
Natacha Placide	Creativision Media / Public Involvement Officer

N/A

*Participation via teleconference.

MEETING HIGHLIGHTS

- **Overview** – **Ken Jeffries** opened the meeting and had all meeting attendees introduce themselves then turned over the presentation to **Lorin Brissett**. **Lorin** opened with an overview of the study highlighting study objectives and the study team's progress since the last PAT Meeting. **Michelle Rossi** used roll plot exhibits to walk meeting attendees through the various Tier 1 alternatives. The attached PowerPoint presentation provides additional details on the information shared with meeting attendees. The remainder of this summary highlights the aspects of the meeting where the PAT Members had specific questions or comments.

- **Stakeholder Coordination** – **Lorin** mentioned the past and upcoming stakeholder meetings associated with the project including the upcoming public workshops being scheduled for early December. **Lynda Westin** asked a clarifying question about making a presentation to the City Commission. She noted that the Commission does not meet in November.
- **No-Build Alternative** - **Lorin** noted all the future improvements considered as programmed or planned projects in the No-Build Alternative. **Maya Diaz** asked about the scope of the referenced Mid-Town I-195 at N Miami Avenue IMR. **Ken** clarified that the Miami Design District coordinated with the County to hire HNTB to study the I-195 at Miami Avenue interchange.
 - **Collin Worth** mentioned there were two projects that should also be considered in the No-Build conditions; 1) Improvements along NE 36th Street and 2). The improvements at the NE 36th Street intersection with NE 2nd Avenue / Dixie Highway. (*Authors' note: BCC will follow up with Collin to clarify and obtain specific information on projects cited.*)
 - **Vinod Sandanasamy** asked whether the analysis for the needs (No Build) had been documented and was available. It was explained that the September Report is still in Draft form but could be made available when finalized.
- **Base Improvements:**
 - A clarifying question was asked about the number of lanes being considered for the proposed roundabout at the ramp terminal of the I-195 eastbound off ramp to NE 36th Street. **Lorin** indicated that a one-lane roundabout was being considered with channelization at the entry approaches to separate right-turn flows where reasonable.
 - **Lynda Westin** noted that the access management to the side streets along the approaches to the roundabout should be carefully considered.
 - **Lorin** provided a summary of Improvement #6 which includes the proposed widening of the existing Julia Tuttle Causeway in the eastbound direction from just west of diverge area for off-ramp to Alton Road to intersection with Arthur Godfrey Road and Alton Road. **Lynda** asked whether the concepts considered sea level rise as well as infrastructure resiliency given the east end of the corridor is one of the lowest areas and floods during King Tide events (westbound near the hospital). **Ken** noted that this would be considered in more detail during the PD&E and Design phases.
 - **Jose Gonzalez** questioned whether providing an exclusive right-turn lane along the eastbound approach at the intersection of Alton Road with Arthur Godfrey Road was the best use for the extra width being created. He mentioned the City of Miami Beach had asked FDOT Traffic Operations Department to study the location and FDOT's assessment at the time was that there is not currently enough demand to justify an exclusive right-turn lane. **Michelle** explained that the greater traffic demand is along the parallel frontage road/off-ramp (to the south), but that the right of way (along the water) is too constrained to provide an exclusive right-turn lane. She mentioned it was anticipated that the increased capacity along the corridor provided by the additional lane that would terminate into

an exclusive right turn lane at the subject intersection (at Arthur Godfrey Road) would lead to increased right turn demand that would allow the entire eastbound demand from the Causeway destined to the southern areas of Miami-Beach to be processed more efficiently.

- **Collin** asked if improvements to the signalized intersections (e.g., along 36th Street) are being considered. Lorin indicated more detailed analysis will be done during the Tier 2 review.
- **Gerry Goldstein** indicated traffic along northbound Alton Road (at the on-ramp to westbound I-195) backs up and creates a lot of problems. **Josiel Ferrer** stated that the alignment of approaches at the unsignalized intersection should be considered with any improvements because that is where he sees the problem being the most critical – no gaps, and aggressive driving. **Michelle** indicated that she believed there was a separate FDOT project looking into that issue.
- **System Improvements:**
 - **Alternative 1** - In the Texas U-turn concept alternative, **Collin** mentioned the need to address impacts from new westbound traffic on the homes across from the U-turn and asked if residents adjacent to the area would be given access to the U-Turns. **Ken** indicated that the SIMR would examine this in further detail.
 - **Alternative 3**
 - **Josiel** asked about the touchdown point for the viaduct. **Michelle** explained it would be just east of Biscayne Boulevard.
 - In response to another question, it was mentioned that R/W impacts will be refined.
 - There was a question about utility of the viaduct – **Lorin** explained that raw potential demand with the new express lanes connection would be 800/900 vph in the AM/PM (but the actual could be lower due to the impact from Tolling – to be later determined by a Traffic and Revenue Study).
 - There was a follow-up question as to the need for 4-lanes within the viaduct (as shown) – i.e. shouldn't two lanes be sufficient? It was explained that the additional impact at ground level is minimal compared to the benefit of 4-lanes. From a planning perspective, you would be better off providing four lanes "now."
 - **Alternative 4** - **Lorin** explained that the U-Turn would be incorporated into Alternative 4 to accommodate the Midtown area access to the Express Lanes. It would need to be brought up to standard (whereas the current U-turn concept likely has variations and/or exceptions due to the goal of minimizing R/W Impacts for the U-Turns as an interim phase).
 - **Collin** asked if improvements to the ramp termini (e.g., along 36th Street) are being considered. **Lorin** indicated more detailed analysis will be done during the Tier 2 review.
 - **Collin** asked if a southbound drop-lane (new ramp) from the I-195/I-95 interchange to 7th Avenue can be considered? (**Authors' note:** *Exploration of this improvement is outside the scope of this planning*)

- study and would require a formal request be made to the FDOT to considering studying its feasibility.)*
- There was a question about the R/W costs – **Lorin** responded that the approximate parcel impacts were identified but will be evaluated in further detail in the Tier 2 review and during the PD&E phase. **Ken** explained that no money for R/W is programmed right now.
 - **Bicycle / Pedestrian Improvements:**
 - **Alternative A,**
 - **Ken** pointed out the need to adjust the Limited Access line (that extends about 300 feet – beyond the roadway) in order to develop a pathway parallel to the corridor.
 - In response to a question about how high the separate pedestrian bridge would be, it was mentioned the clearance would likely match that of the existing bridge per Coast Guard requirements.
 - **Lynda** cautioned that a single shared-use path (two-way traffic) would likely need to be wider at the termini to accommodate two-way bike traffic (that is probably moving at a high velocity due to the long downgrade) and pedestrians. This is a potential safety concern.
 - She suggested highlighting the existing unimproved trail located on the east side with a purple dashed line to signify the need for its rehabilitation.
 - **Alternative B,**
 - Should show the switchbacks in dashed purple lines to signify rehabbing of the existing system. It was also noted that the two-way bikes mixed with pedestrians at the end points are better accommodated under this Alternative.
 - **Lynda** asked if Bus on Shoulder (BOS) was addressed by the widening of the bridge – it was explained that the BOS could be accommodated without widening, but that this would be looked at in closer detail with Tier 2.
 - It was suggested that both Alternatives A and B should consider viewing areas, and that even though parking and fishing is not legal – the design should ensure that parked vehicles – if they occurred – would not block pathway. Same comment for fishing and pedestrian walkway.
 - **Collin** asked if an underpass in the vicinity of the parks at the west end of the Causeway could be implemented to allow north to south Bike / Ped access to NE 36th Street. **Lorin** said this would be looked at as part of Tier 2. [*Authors' note: The vertical clearance is likely an issue in this area.*]
 - **Collin** asked if lookout areas like what are being proposed as part of Plan Z are being considered. It was explained that this would be done as part of the design process. It was noted these features would be a major capital expenditure with the recognition they would still need to be considered.
 - It was explained that both Alternatives A and B could proceed on their own separate PD&E/Design/Construction track decoupled from the other improvements being developed within the corridor. There was a brief discussion as to whether this corridor was part of (or should become part of) the Sun Trail. The City of Miami Beach would likely need to modify their

map to include this corridor as well as FDOT. Future discussions on the potential to add the corridor would need to be conducted with Robin Birdsong (FDOT Sun Trail Statewide Coordinator).

OTHER COMMENTS:

1. **Collin** asked for clarification on how controversy was being considered in the evaluation matrix because social impacts in City of Miami is a major factor. It was explained that these impacts were qualitatively considered but that it was taken into consideration with the scoring of the alternatives under the “Potential for Controversy” criterion – e.g. the score of “1” under social impacts in the matrix for Alternatives, 1, 3 & 4.
2. **Jose Gonzalez** expressed concern that the Texas U-Turn Alternative (Alternative 1) was included as one of the long-term system alternatives in the alternatives evaluation matrix. He mentioned this was contrary to the City of Miami Beach's understanding that regarded the Texas U-Turn connections as an interim improvement pending the subsequent implementation of more direct long-term connections.
 - o **Ken** clarified that the Texas U-Turn project was indeed being pursued as an interim improvement where the concept was being evaluated to assess the likelihood the required Design Exceptions and Variations could be approved for the concept as currently configured to minimize ROW impacts.
 - o **Lorin** added that the Texas U-Turn concept was included in the evaluation matrix to show its inadequacy (by itself) as a sustainable long-term solution for the mobility needs of the area. He reiterated that the Texas U-Turn connections would ultimately need to be retained and incorporated into the recommended long-term alternative (either Alternative 4 or 3) as this would provide the express lanes access to and from the Midtown area. He noted the Texas U-Turn concept currently being considered for interim implementation would need to be modified as part of its incorporation into the final recommended long-term alternative.

NEXT STEPS:

1. Provide copy of September Draft Tier 1 Evaluation Report to PAT Members once finalized with FDOT.
2. Hold Public Workshops (City of Miami and City of Miami Beach) to present Tier 1 Alternatives.
3. Present Bicycle / Pedestrian Path Alternatives A & B to BPAC.
4. Finalize Tier 2 Review.
5. Hold 4th and Final PAT Meeting.

This meeting summary will be relied upon as an accurate representation of the key discussion points unless comments are received within three (3) business days. Should you have any additions, deletions and/or revisions, please notify either Lorin Brissett or John Krane at (954) 928-1828 or via email at Lbrissett@bcceng.com or Jkrane@bcceng.com for inclusion in our records.

APPENDIX G

PROJECT ADVISORY TEAM (PAT) MEETING #4
DOCUMENTS

Notice of Meeting

OTHER AGENCIES AND ORGANIZATIONS

Creativision MEDIA Inc.

The Florida Department of Transportation (FDOT), District Six, announces a Project Advisory Team (PAT) Meeting to which all persons are invited.

DATE AND TIME: Wednesday, June 3, 2020, 10 a.m. – Noon

PLACE: Microsoft Teams (online) Meeting at <https://teams.microsoft.com/l/meetup-join/413181843> or conference calling at 1 (786) 636-1440; Conference ID: 413 181 843, then hit the pound (#) sign.

GENERAL SUBJECT MATTER TO BE CONSIDERED:

The Florida Department of Transportation (FDOT), District Six, is holding the Fourth Project Advisory Team (PAT) Meeting for the I-195/State Road (SR) 112 Corridor Planning Study (FM Number: 440228-1-22-01) from NW 12 Avenue to SR 907/Alton Road in Miami-Dade County, Florida. The purpose of the study is to evaluate conditions, deficiencies, identify needs, and develop as well as evaluate improvement concepts. PAT members represent local, county, and regional governmental agencies as well as the Wynwood Business Improvement District (BID).

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this meeting is asked to advise the agency at least twenty-four (24) hours before the meeting by contacting: Irene Varela at 305-470-5342; in writing at FDOT, 1000 NW 111 Avenue, Miami, FL 33172; or by email at Irene.Varela@dot.state.fl.us.

If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1-800-955-8771 (TDD) or 1 (800) 955-8770 (Voice).

For more information, you may contact: Project Manager Shereen Yee Fong, Department of Transportation, District Six at 305-470-5393; in writing at FDOT, 1000 NW 111 Avenue, Miami, FL 33172; or by email at Shereen.YeeFong@dot.state.fl.us or District Six Transportation Planning Manager Kenneth Jeffries at 305-470-5445; or by email at Ken.Jeffries@dot.state.fl.us.

I-195 CORRIDOR PLANNING STUDY

FOURTH MEETING WITH PROJECT ADVISORY TEAM
MEETING PRESENTATION: JUNE 3, 2020

INTRODUCTIONS

FDOT

- Shereen Yee-Fong – Project Manager
- Kenneth Jeffries – Planning Manager

BCC ENGINEERING

- Jose Muñoz, P.E. – Project Manager
- Lorin Brissett, P.E. – Deputy Project Manager
- Michelle Rossi, P.E. – Concept Development
- Sudheer Chinta, P.E. – Concept Development
- Revanth Katta, P.E., PTOE – Traffic Engineering / Concept Development

RENAISSANCE PLANNING

- Dan Hardy, P.E. – Performance Measures / Alternatives Evaluation

CREATIVISION MEDIA

- Charesse Chester – Public Involvement Officer (PIO)
- Natacha Placide – Deputy PIO

AGENDA

1. Study Area & Background Review
2. Study Focus Areas Review
3. Project Purpose and Need Reveiw
4. Project Scope & Status
5. Summary of Stakeholder Activities
6. Texas U-Turn Concept Update
7. Concept Development & Evaluation Update
8. Refined Build Alternative
9. FDOT Project Development Process
10. Implementation Steps, Phasing & Prioritization
11. Closing
12. Questions

STUDY AREA & BACKGROUND

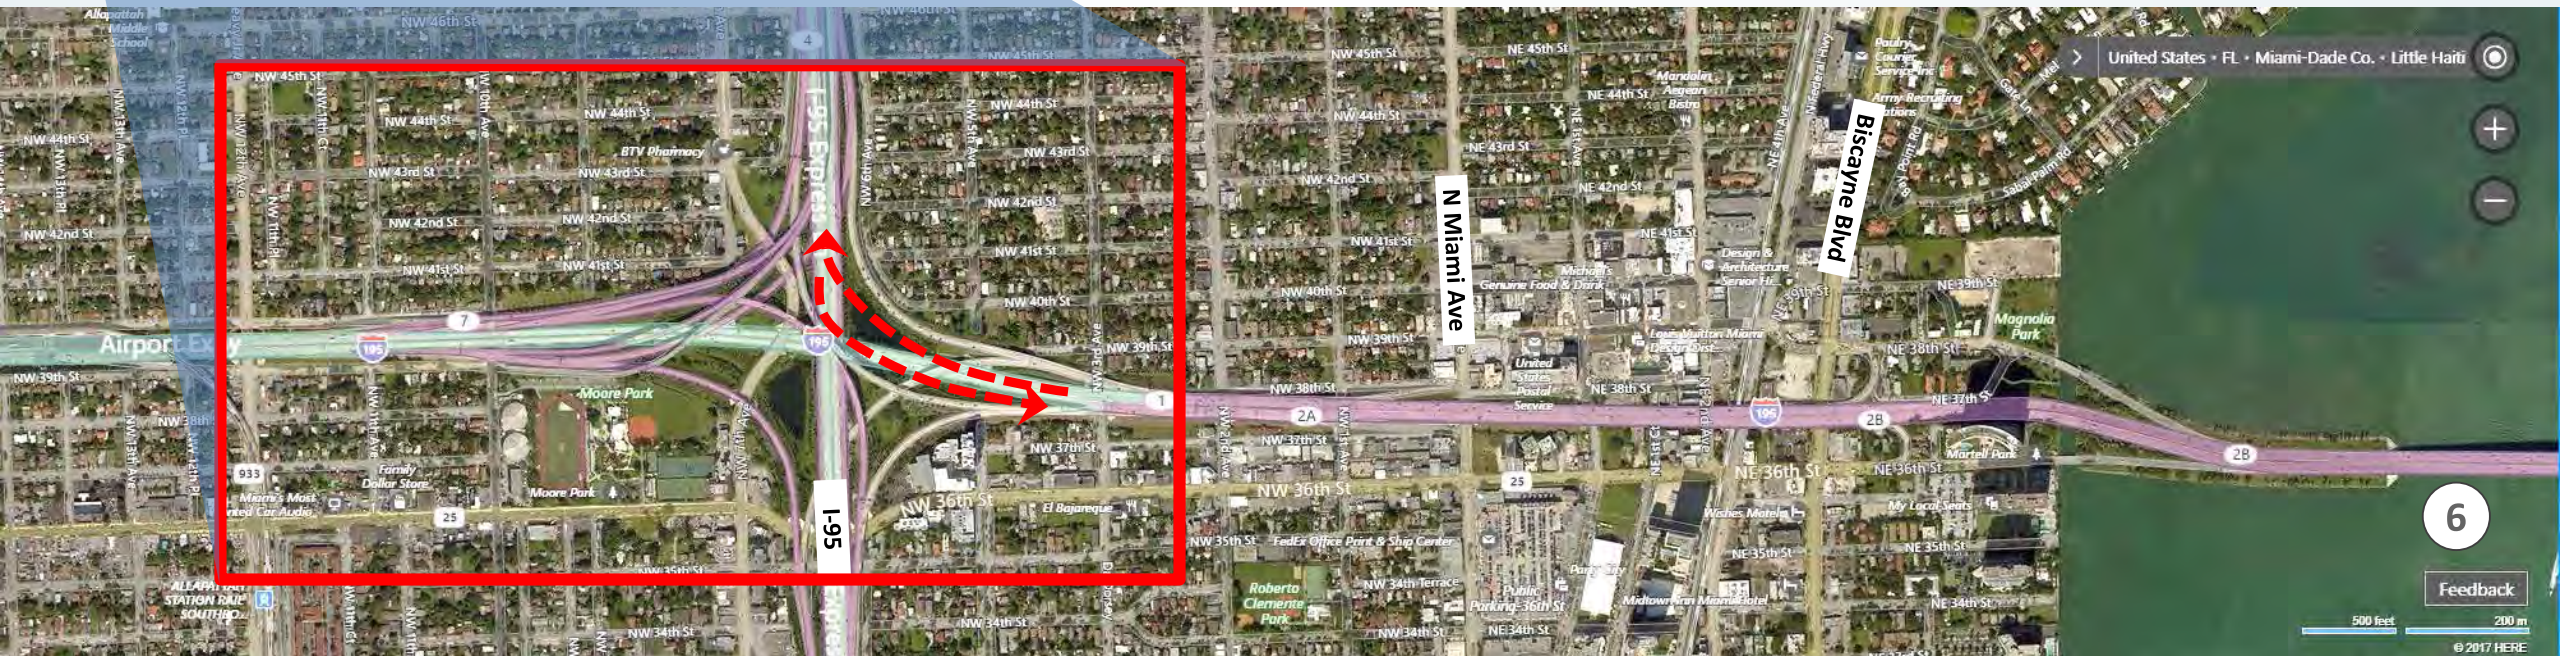

- Important Limited Access Facility Connecting Miami International Airport and Miami Beach
- Provides Access to Several High Growth Neighborhoods
- Continued Growth Expected to increase demand exacerbating access issues

STUDY FOCUS AREAS

FOCUS AREA #1 (Direct Connection to 95 Express Lanes)

Western Limit

Eastern Limit

FOCUS AREA #2 (Improve Interchange Access in Midtown Area)

FOCUS AREA #3 (Improve Bicycle Access on Causeway)

FOCUS AREA #4 (Improve Alton Road Interchange Access)

PROJECT PURPOSE AND NEED

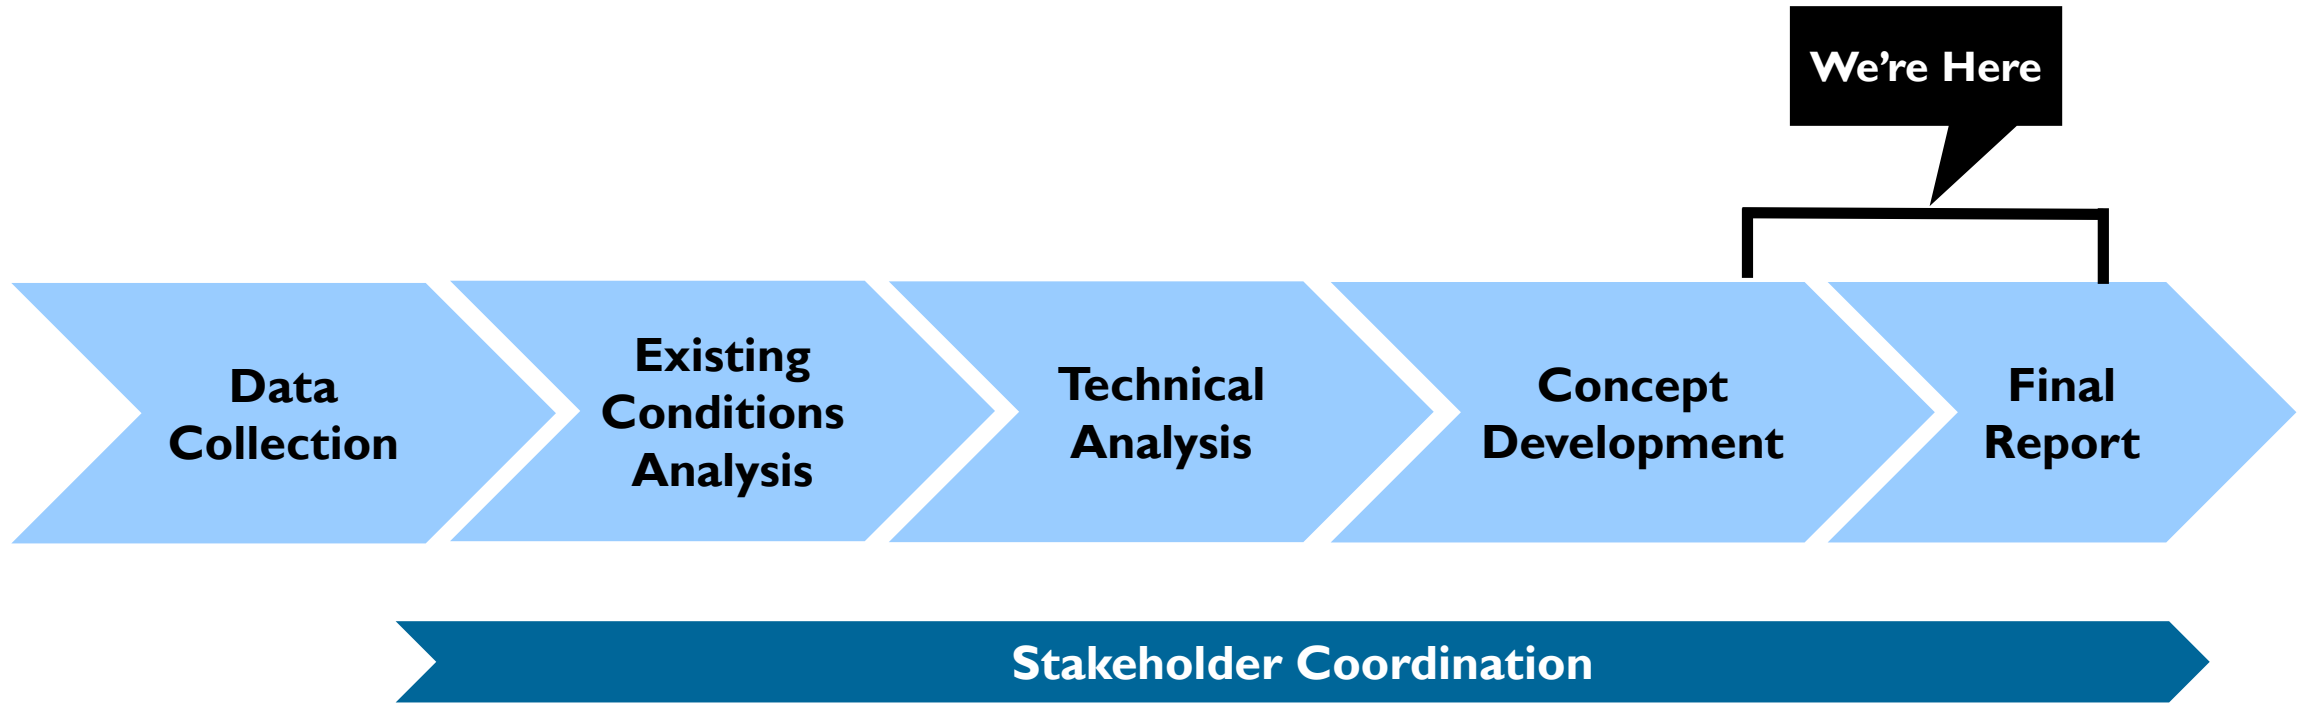

- **Project Purpose:**

To provide multimodal improvements within the I-195 study corridor to address identified mobility and safety needs.

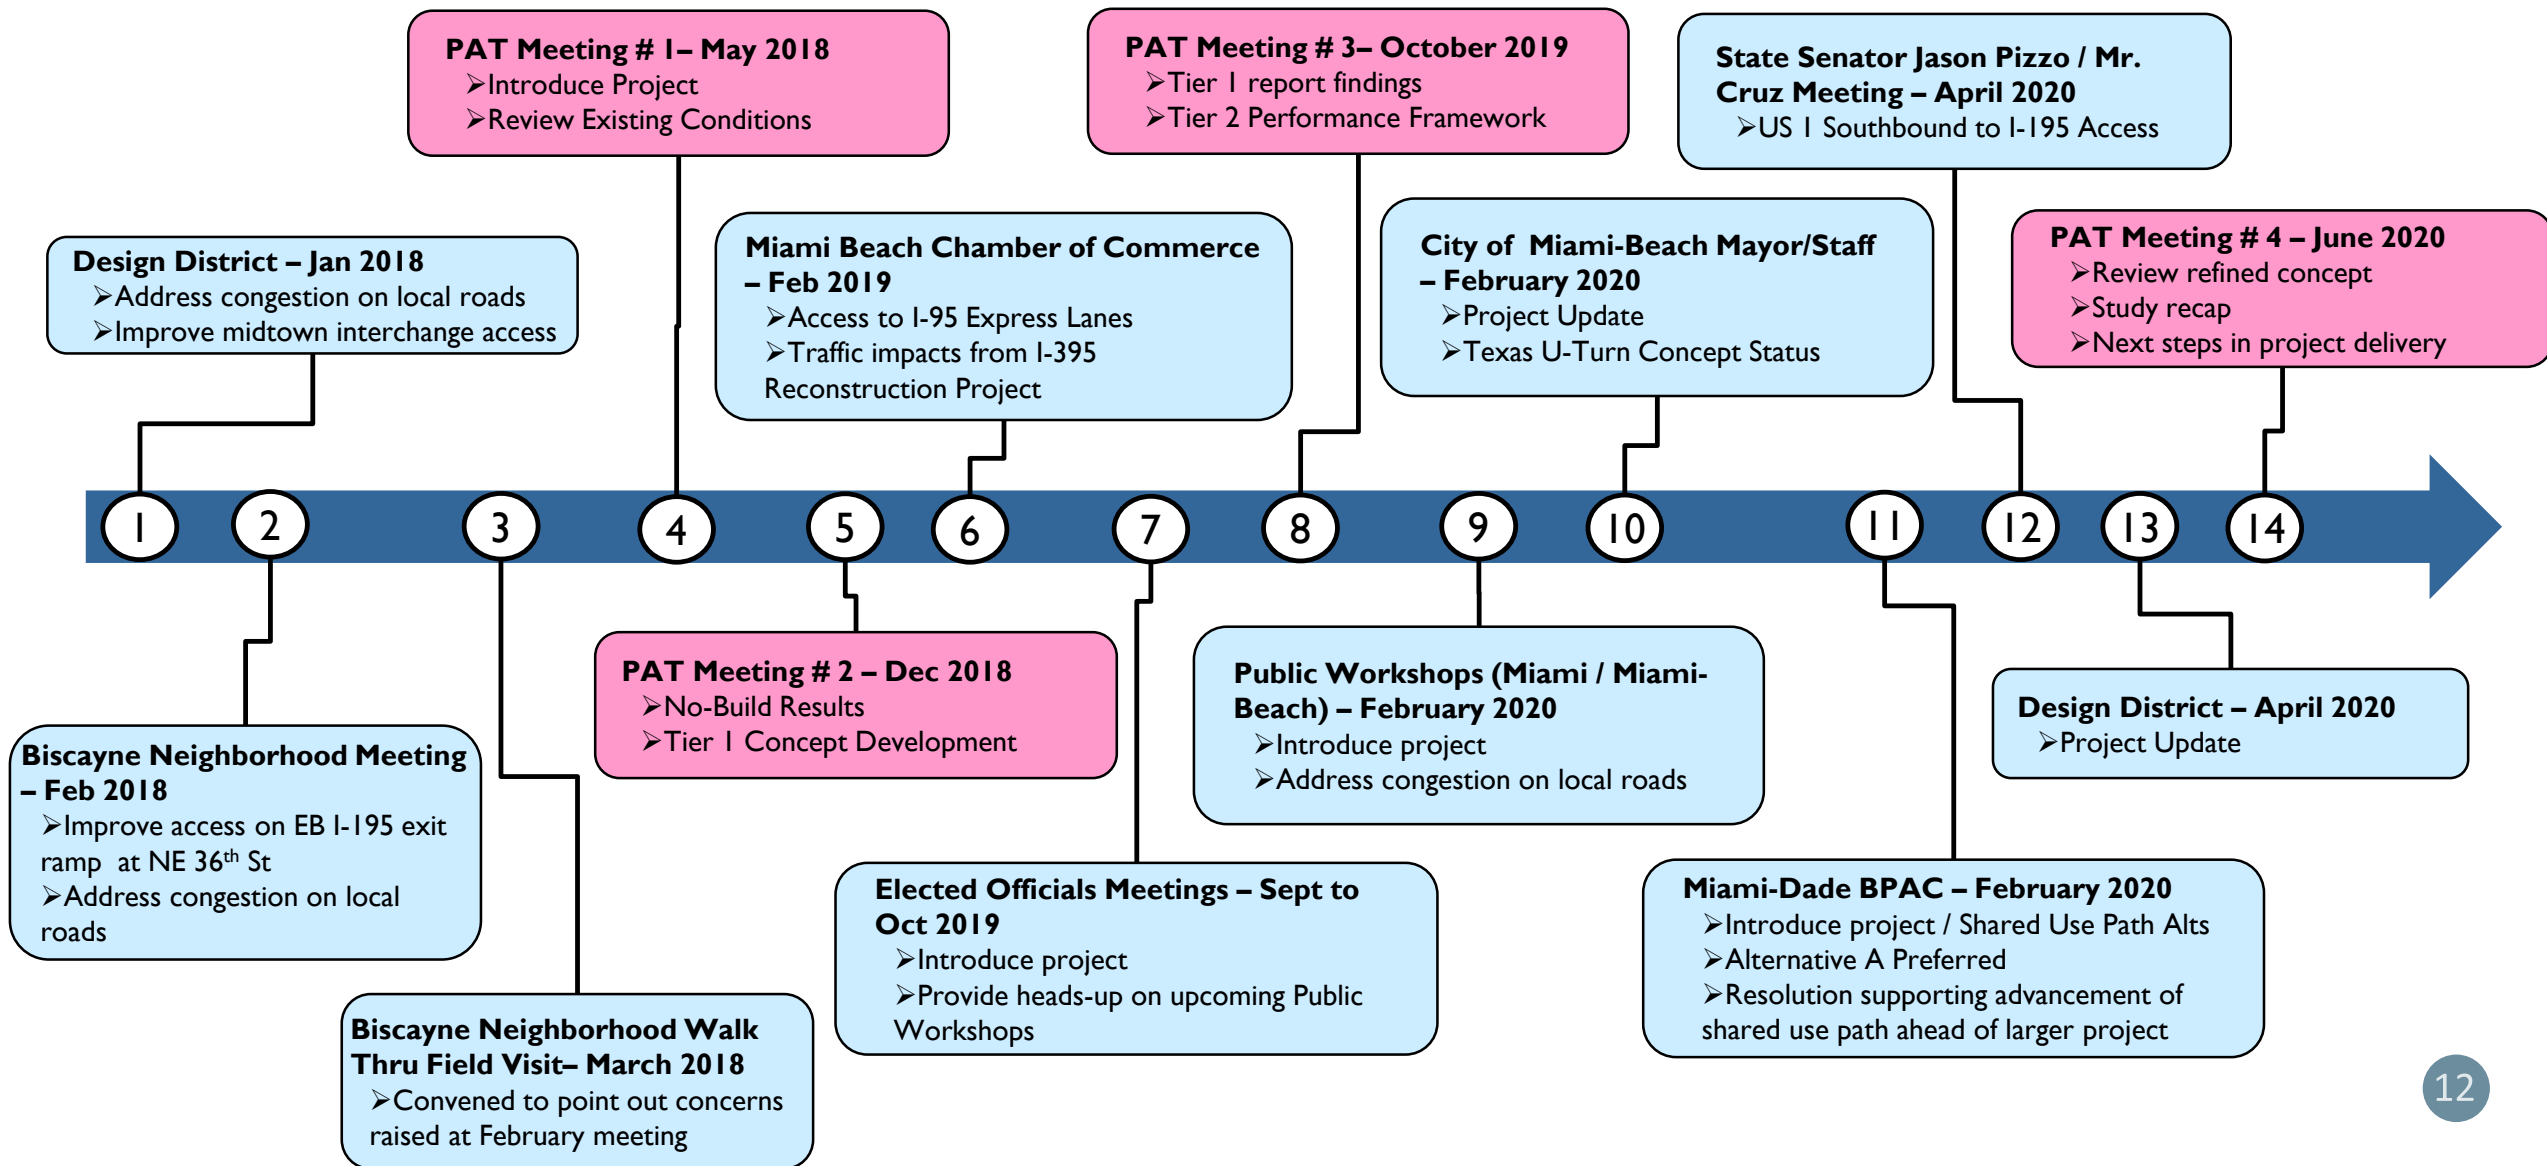

- **Need for:**

- **Better System Linkage including; better access to the I-95 express lanes east of I-95; better interchange access; separated bike/ped facility between City of Miami and City of Miami Beach.**
- **Increased transportation capacity to handle future transportation demand.**
- **Improved transportation system to facilitate the interaction of all transportation modes impacting the corridor.**
- **Better safety outcomes for the future.**

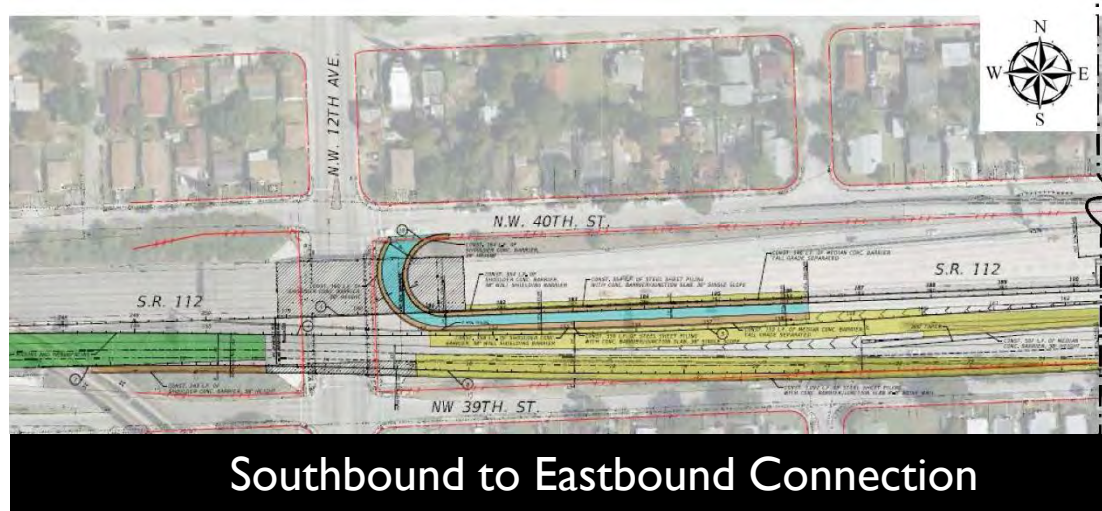

PROJECT SCOPE & STATUS

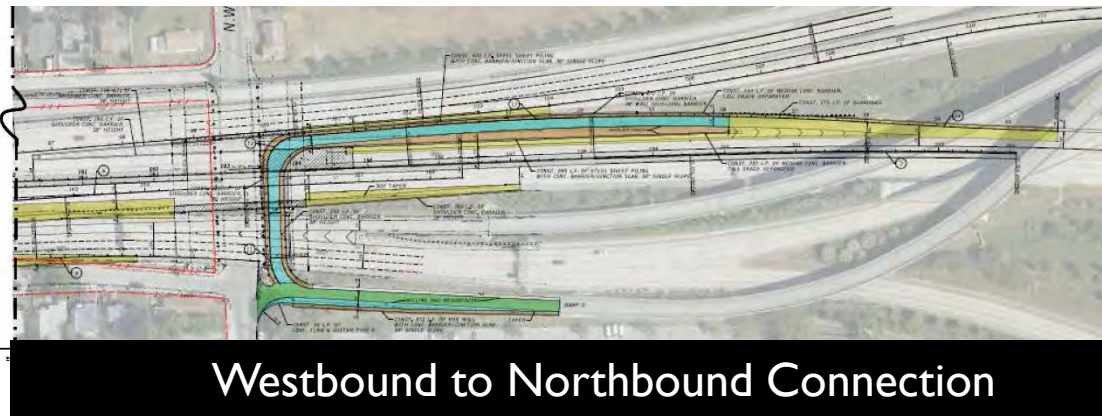

I-195 CPS: SUMMARY OF STAKEHOLDER ACTIVITIES

I-195/I-95 EXPRESS LANES TEXAS U-TURN CONCEPT STATUS

Southbound to Eastbound Connection

Westbound to Northbound Connection

- **Concept development put on hold due to:**
 - Project cannot be expedited with current concept and therefore prudent to pursue longer term solutions;
 - Deferral of GGI Reconstruction Phase impacts timing of needed express lanes capacity to accommodate increased demand from new connections;
 - Design Exceptions & Variation for current concept to minimize ROW Impacts cannot be approved.
- **Texas U-Turn connections excluded from long term system alternatives moving forward**
- **City of Miami Beach Briefed on status in February 2020**

CONCEPT DEVELOPMENT & EVALUATION

Tier 1 Concepts

- Identify Improvements
 - Base
 - System
 - Bicycle/pedestrian facilities
- Qualitative Evaluation
- Quantitative Evaluation
- Identify Tier 2 Improvements

Tier 2 Concepts

- Additional Qualitative / Quantitative Evaluations
 - Base
 - System
 - Bicycle/pedestrian facilities
- Identify Recommended Improvements for refinement

Refined Concepts

- Refine Recommended Improvements
 - Base
 - System
 - Bicycle/pedestrian facilities
- Cost / Right-of-Way Evaluation
- Concept Plans

- Three groups of improvements

Base Improvements

➤ Identified to address operational deficiencies as well as specific local issues raised by stakeholders.

System Improvements

➤ Address key study objectives relative to improving system linkage, system capacity, accommodating future transportation demand, modal interrelationships, and addressing safety.

Bicycle / Pedestrian Improvements

➤ Provide improved bicycle/pedestrian connectivity between the City of Miami and Miami Beach via a separated protected facility consistent with the visions of the Miami-Dade Long Range Transportation Plan & the City of Miami Beach Master Plan.

- Eight (8) Base Improvements

- **Three (3) Alternatives:**
 - **Alternative 1 - Direct Connections to 95 Express Lanes**

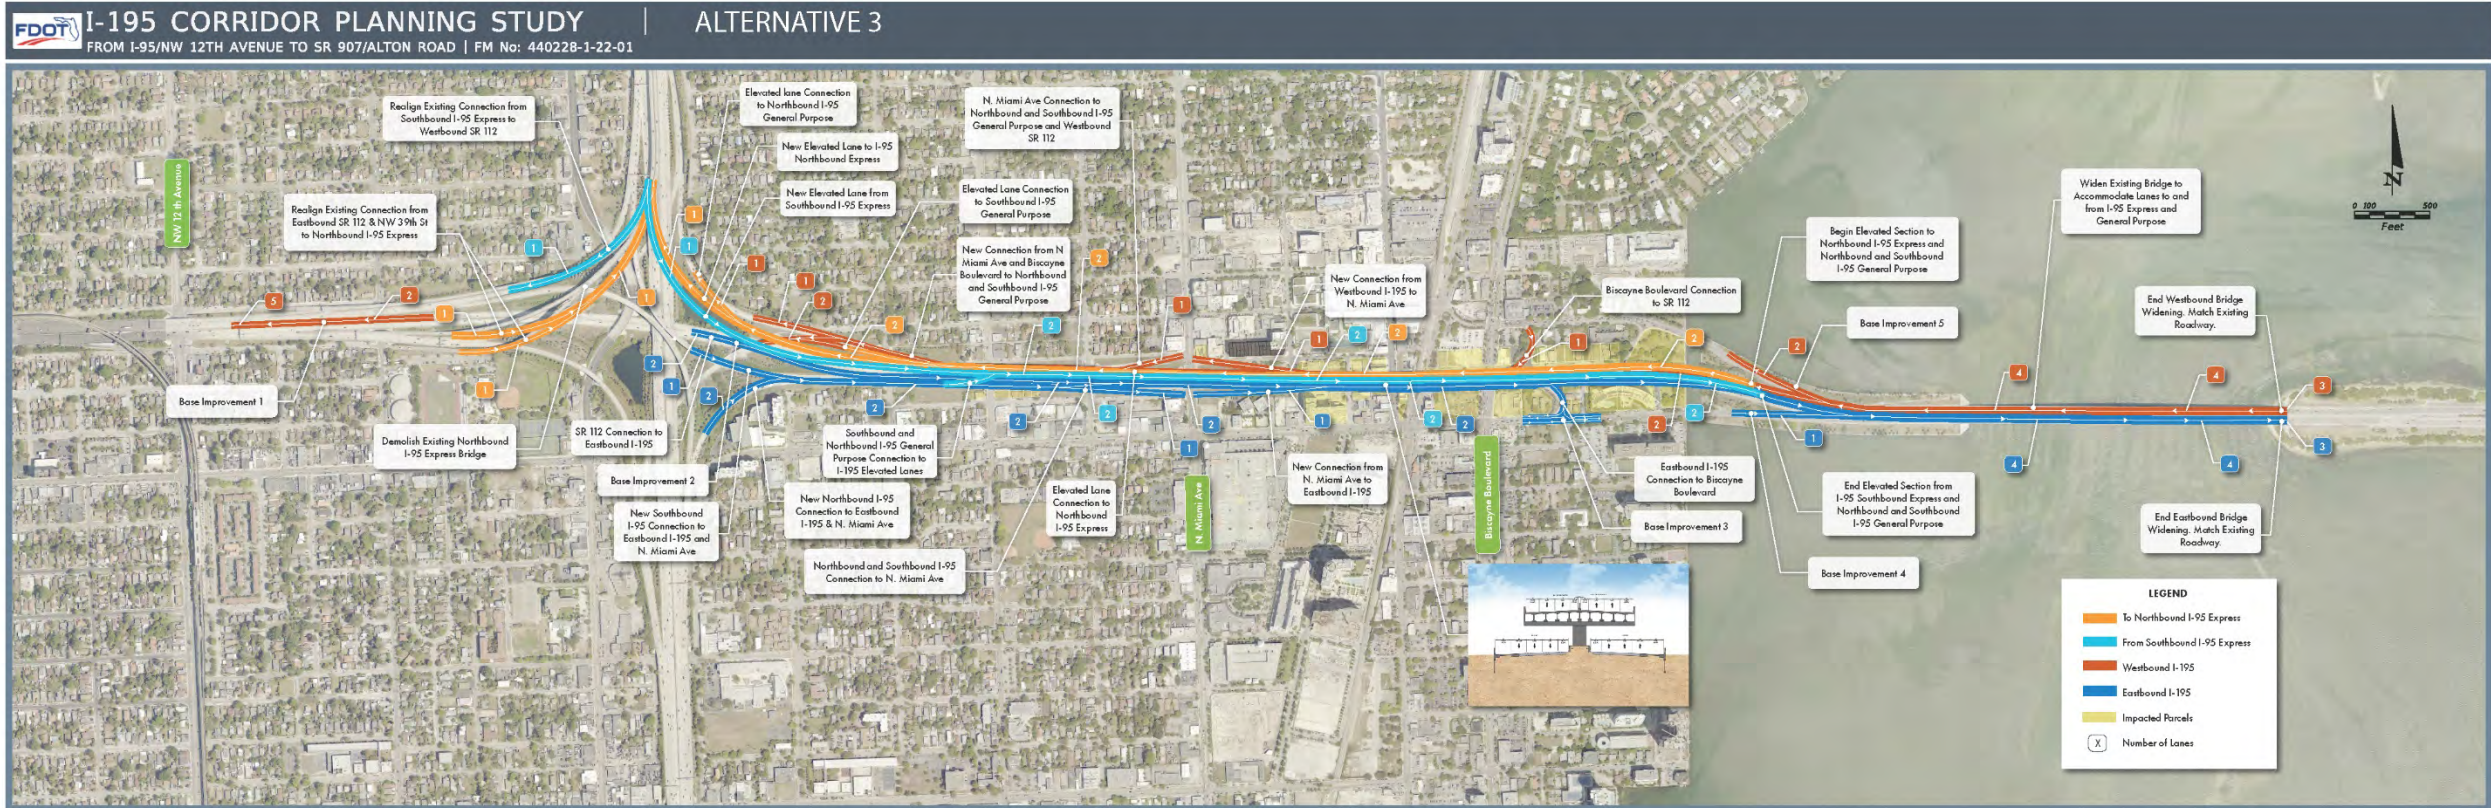

SYSTEM IMPROVEMENTS

- **Alternative 2 - Direct Connections to 95 Express Lanes with New Viaduct on I-195**

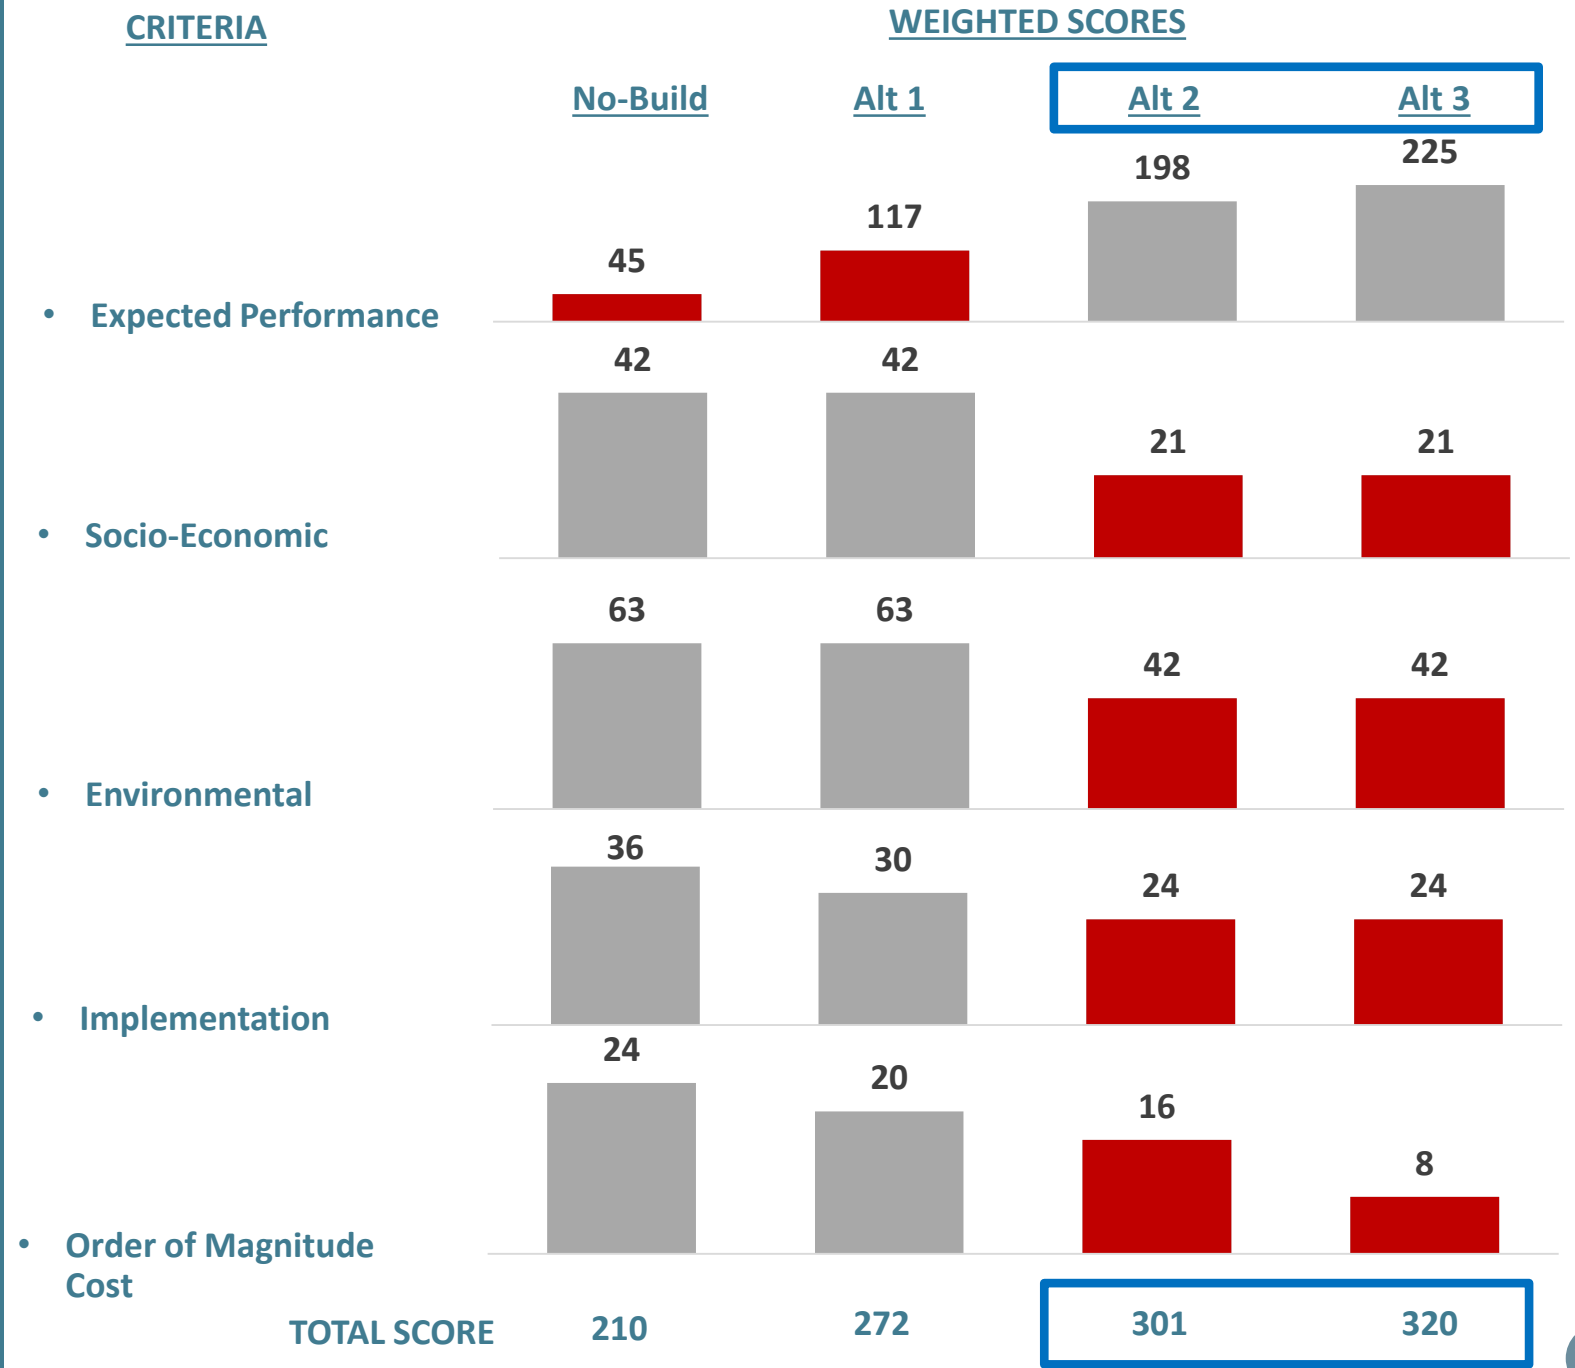

SYSTEM IMPROVEMENTS

- **Alternative 3 - Direct Connections between 95 Express Lanes / I-95 General Use Lanes and New Viaduct on I-195**

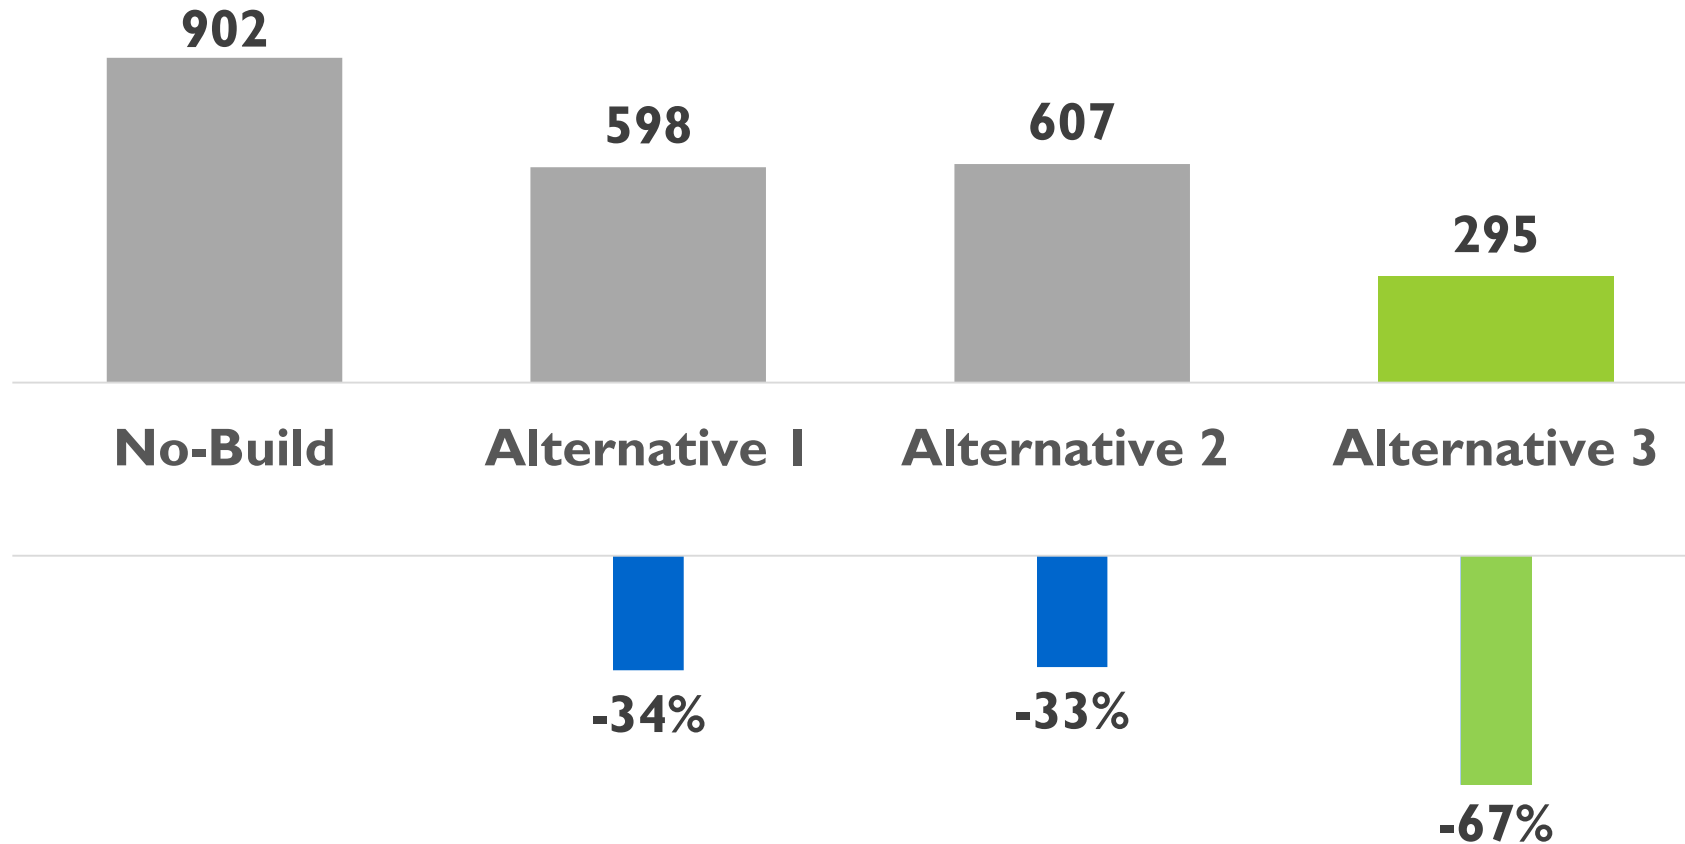

TIER 1 REVIEW (System Improvements)

- Alt 1 - Direct Connections to 95 Express Lanes
- Alt 2 - Direct Connections to 95 Express Lanes with New Viaduct on I-195
- Alt 3 - Direct Connections between 95 Express Lanes / I-95 General Use Lanes and New Viaduct on I-195

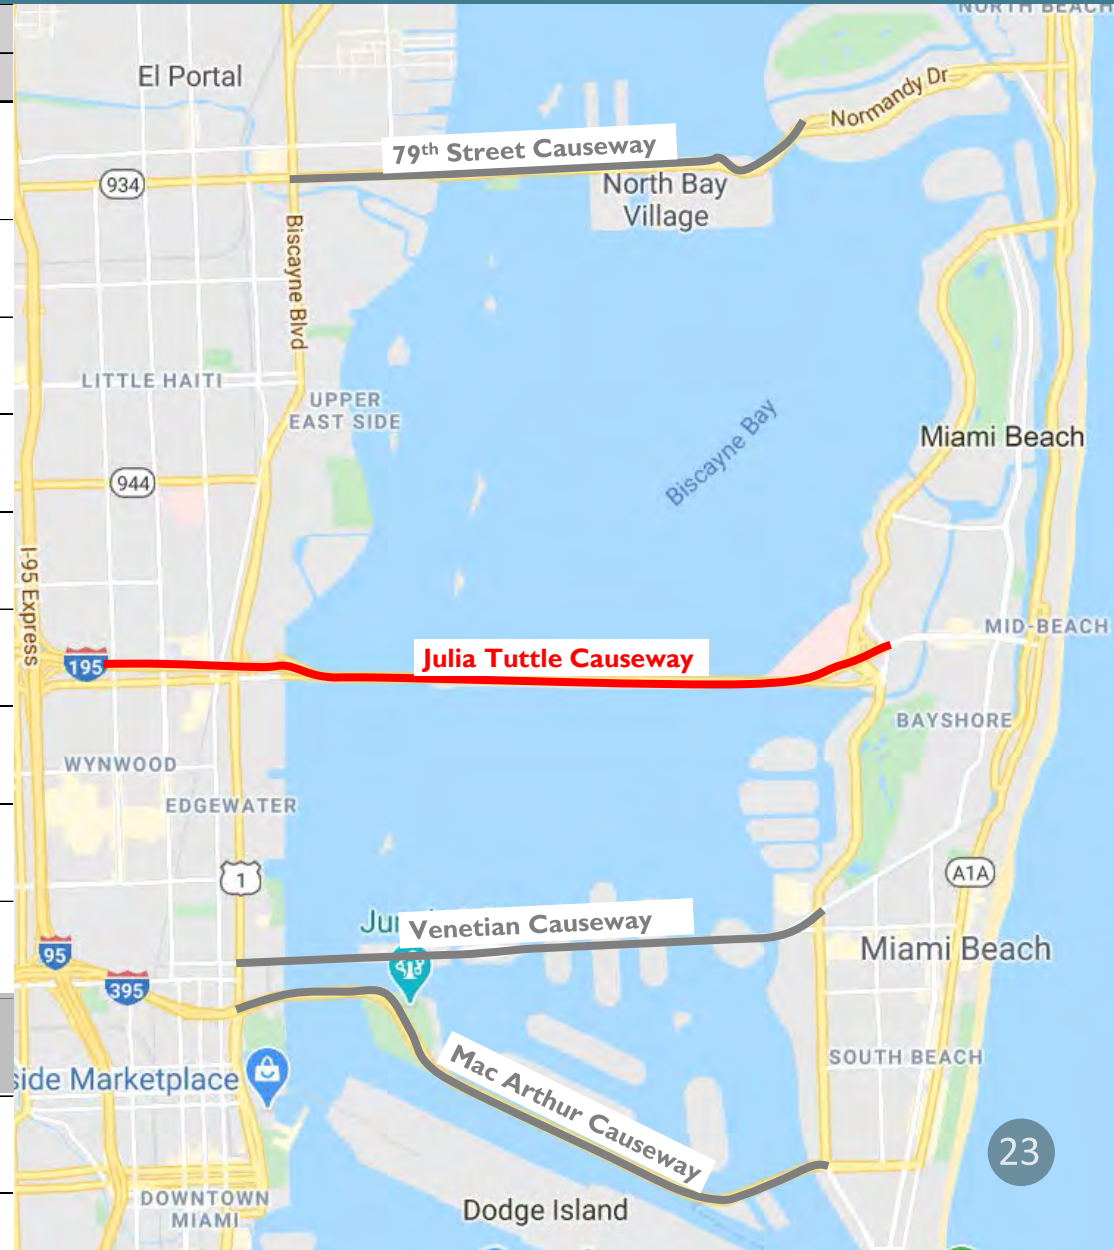

TIER 2 REVIEW - SYSTEMS OPERATIONS SUMMARY (VEHICLE HOURS OF DELAY)

- In 2045, No-Build has 902 vehicle hours of delay for AM and PM peak hours combined
- Alternatives 1, and 2 reduce delay by about one-third
- Alternative 3 reduces delay by about two-thirds

TIER 2 REVIEW - (OTHER PERFORMANCE MEASURES EVALUATION)

Measure	Comparison to Base Conditions						
	Alt 1	Alt 2	Alt 3	Option A	Option B	Notes	
1	Daily Vehicle Miles of Travel (VMT)	0.01%	0.02%	0.07%			Sum across four parallel causeways; VMT increases slightly on Julia Tuttle and decreases elsewhere
2a	Average peak period speed increase (MPH)	1.1	4.5	13.5			Base average speed of 37.3 MPH
2b	Daily Vehicle-Hours of Delay	84	234	591			From I-195 operational analyses; benefits on parallel causeways not included
3	Change in Safety Performance	TBD	TBD	TBD	TBD	TBD	TBD
4	Job Accessibility - Auto	TBD	TBD	TBD			TBD
5	Job Accessibility - Transit	Minimal	Minimal	Minimal			All support bus-on-shoulder treatments and dependent on those operational elements
6	Percentage Heavily Congested VMT	5.0%	5.2%	15.7%			VMT at < 45 MPH; Base percentage is 21.6
7	Transit Travel Time	Minimal	Minimal	Low			All support bus-on-shoulder treatments and dependent on those operational elements
8	Quality of Pedestrian Connections	Minimal	Minimal	Minimal	Low	Low	All provide similar design opportunities (repair, lighting, art, etc.)
9	Quality of Access to Recreation	Minimal	Minimal	Minimal	High	High	Both shared path options provide roughly equal improved access to views/recreation
10	I-195 Access Points Connectivity	Low	Low	Moderate			Base conditions improve local street access; Alternatives improve connections to I-95
11	Return on Investment	TBD	TBD	TBD	TBD	TBD	TBD

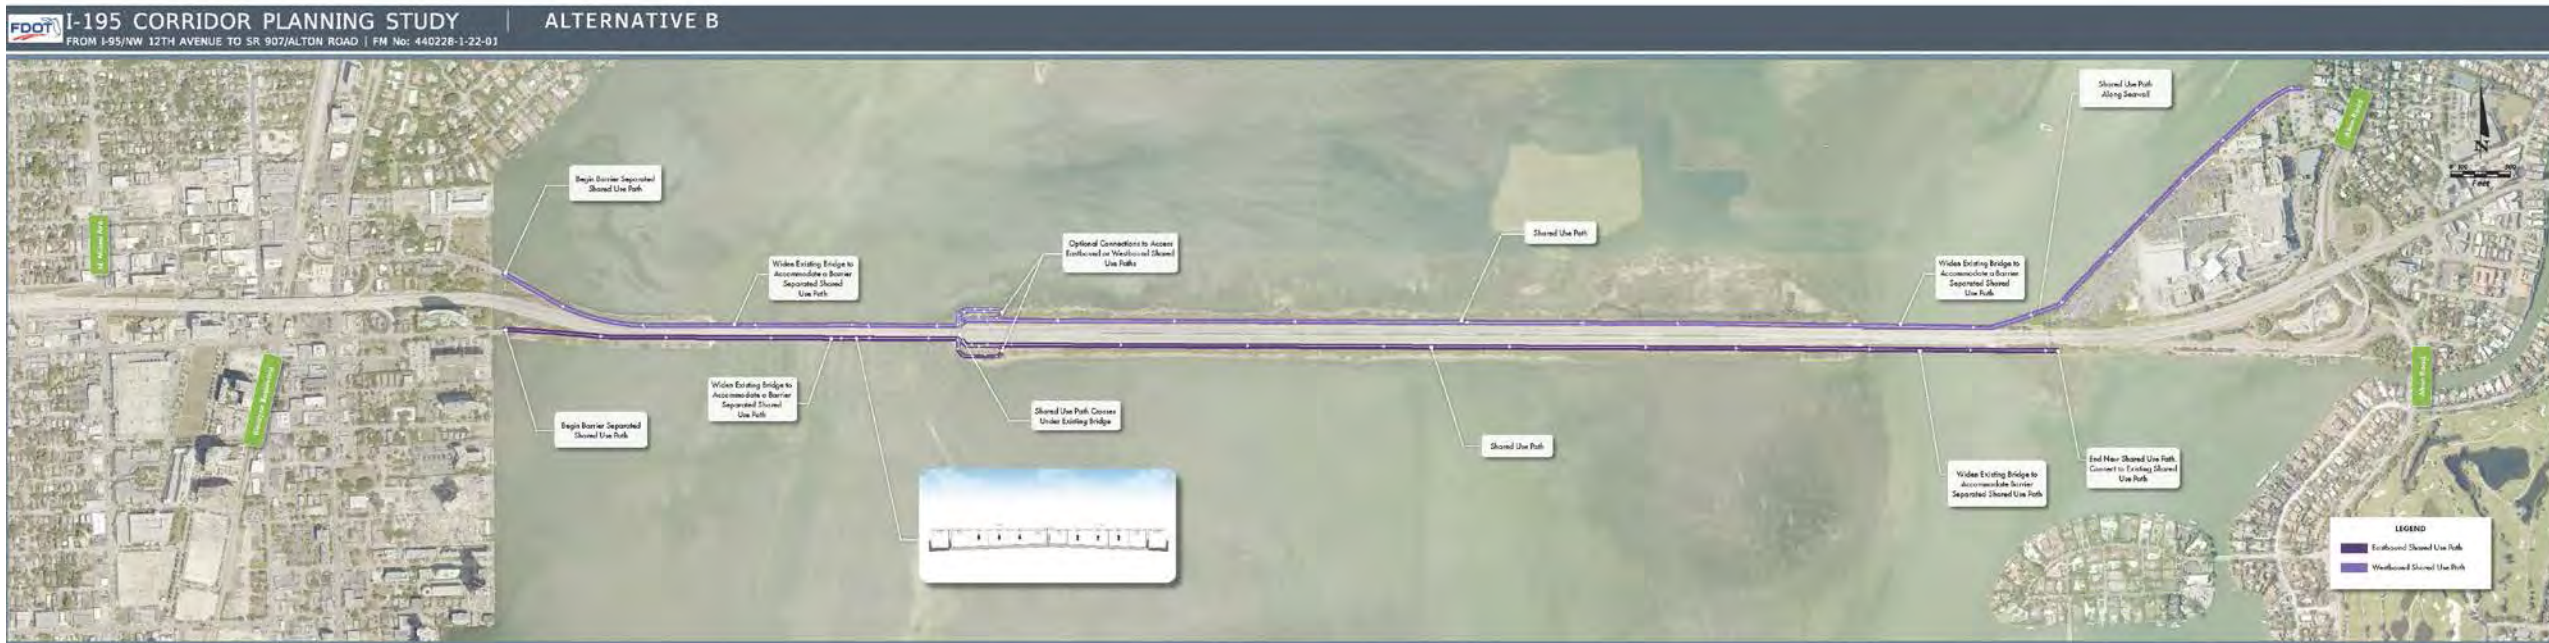

- **Two (2) Alternatives:**

- **Alternative A - 14' Shared use Path With Bridge Structures On One Side Of Julia Tuttle Causeway.**

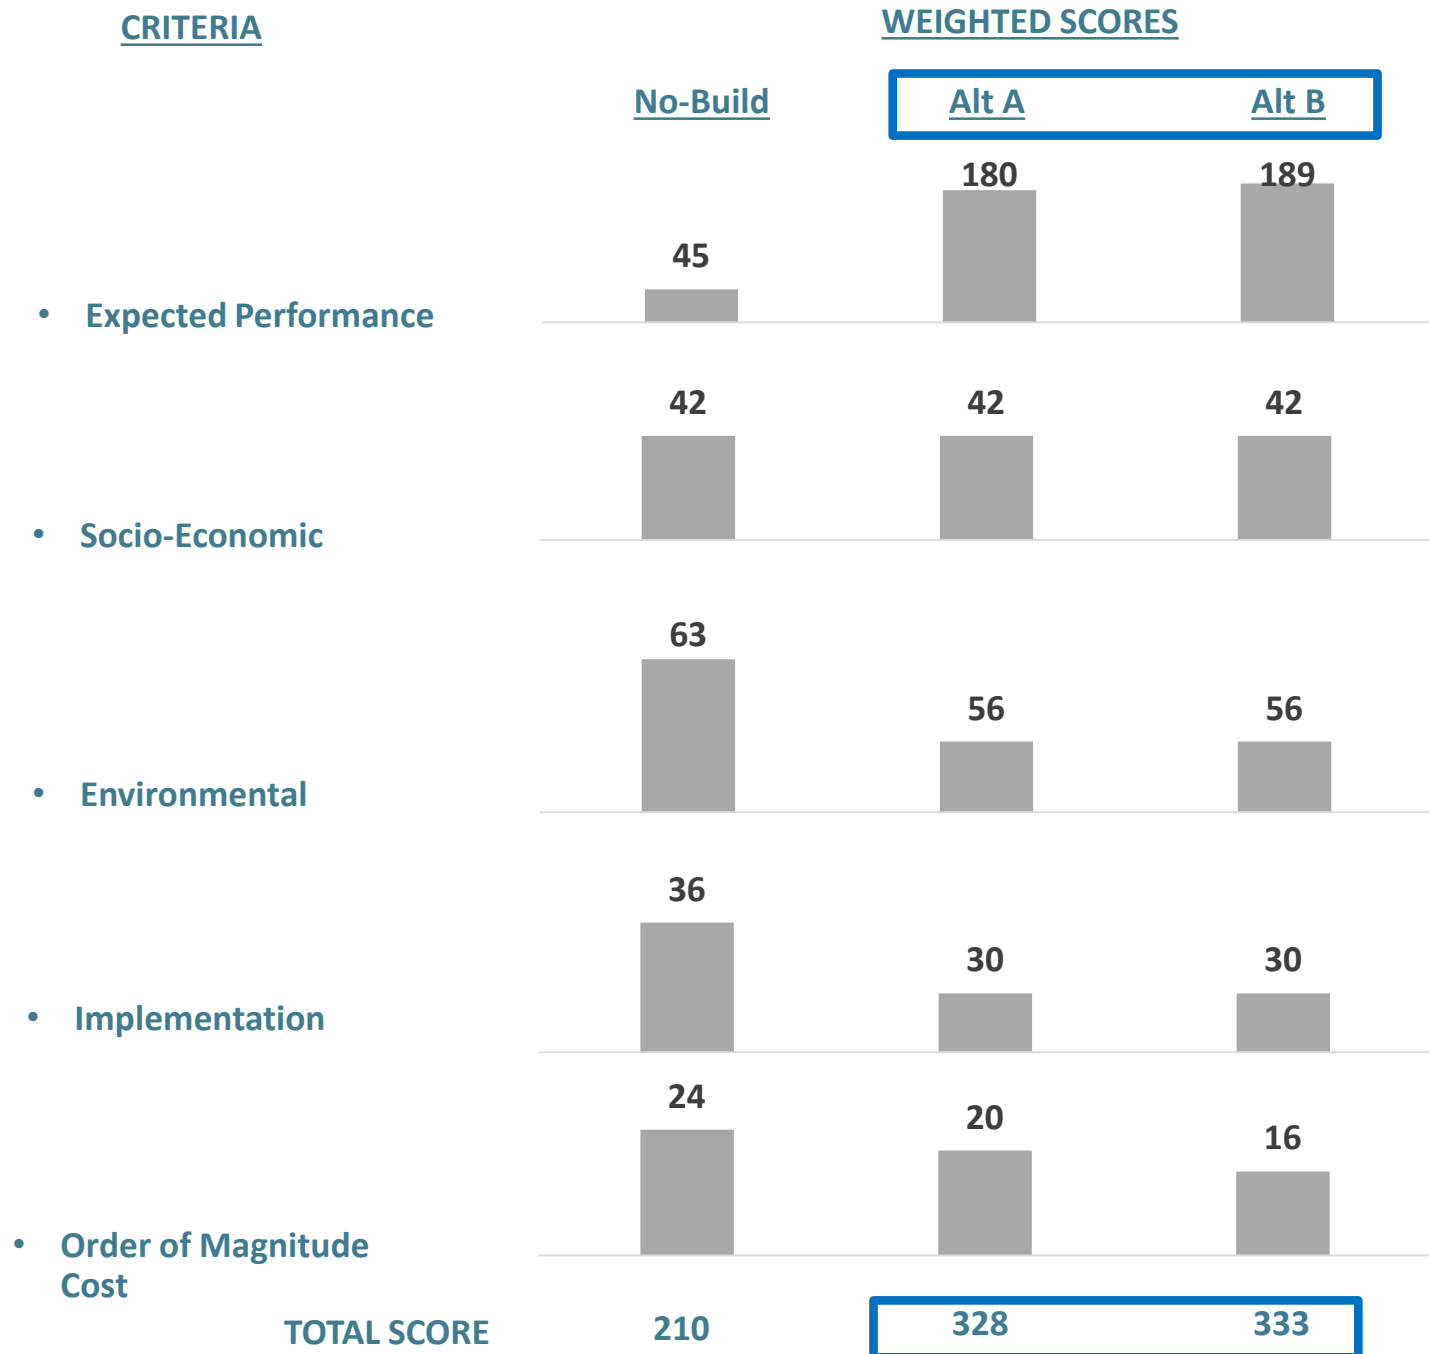

- **Alternative B - 12' Shared Use Paths With Widening Of Existing Causeway Bridges On North And South Sides.**

TIER 1 REVIEW (Bicycle / Pedestrian Improvements)

- Alt A - 14' Shared Path With Bridge Structures On One Side Of Julia Tuttle Causeway
- Alt B - 12' Shared Use Paths With Widening Of Existing Causeway Bridges On North And South Sides.

TIER 2 REVIEW – (OTHER PERFORMANCE MEASURES EVALUATION)

Measure	Comparison to Base Conditions					
	Alt 1	Alt 2	Alt 3	Option A	Option B	Notes
8 Quality of Pedestrian Connections	Minimal	Minimal	Minimal	Low	Low	All provide similar design opportunities (repair, lighting, art, etc.)
9 Quality of Access to Recreation	Minimal	Minimal	Minimal	High	High	Both shared path options provide roughly equal improved access to views/recreation
11 Return on Investment	TBD	TBD	TBD	TBD	TBD	TBD

REFINED BUILD ALTERNATIVE

REFINED BUILD ALTERNATIVE (OBJECTIVES)

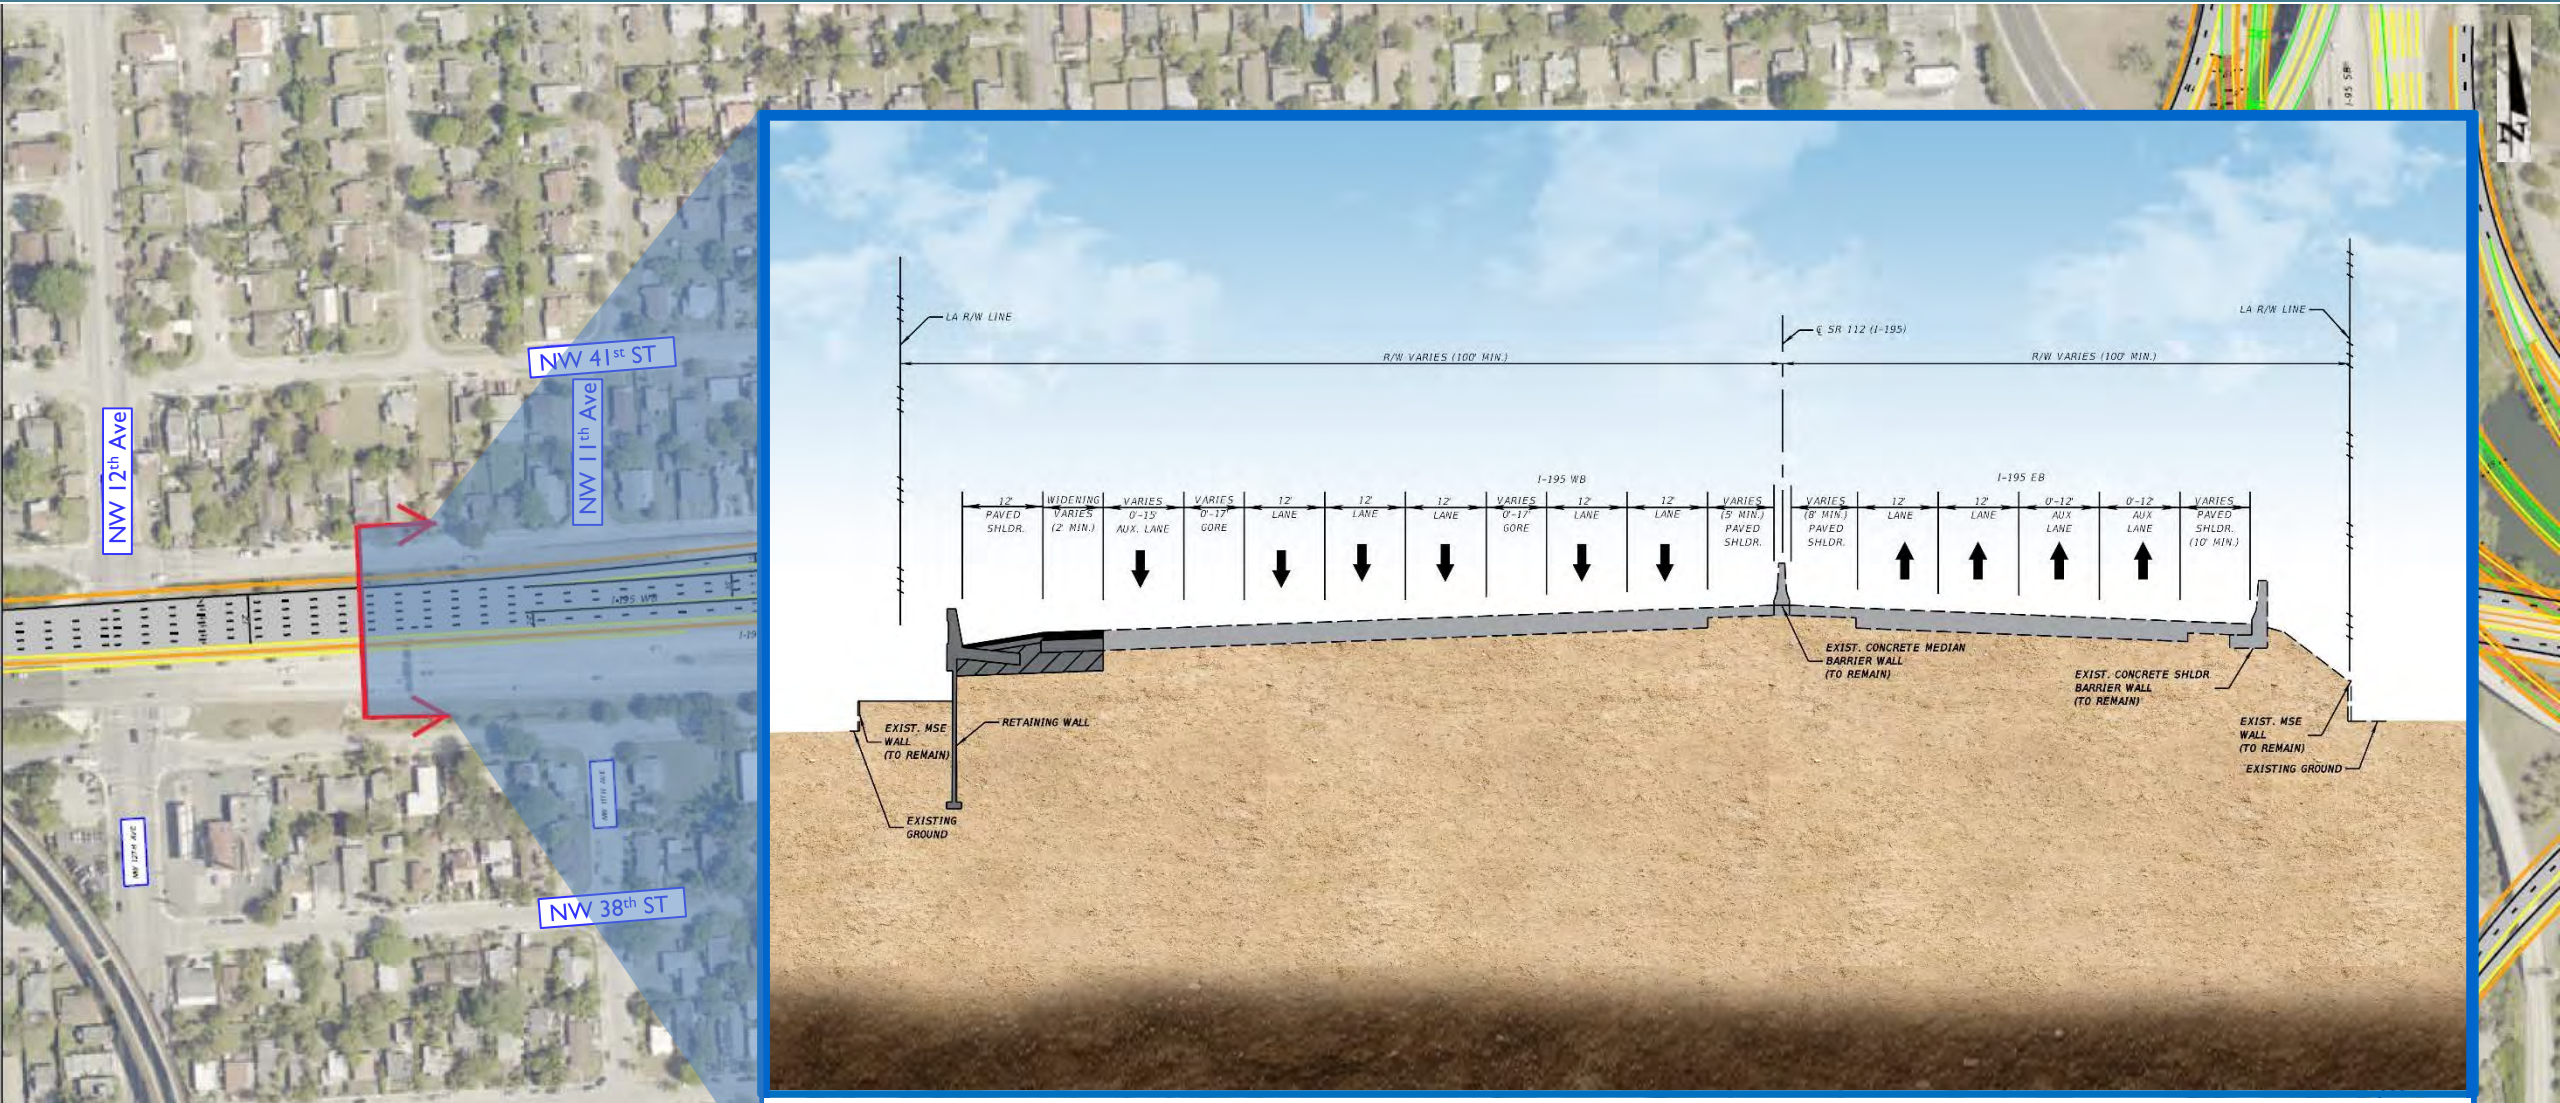

- **Reflects largest foot print and incorporates:**
 - **System Alternative 3**
 - **Shared Use Path Alternative A**
 - **All Base Improvements**
- **Will not preclude review of other alternatives during PD&E (i.e., Alt #s 1 & 2, Alt B)**
- **Developed for Project Screening using FDOT Environmental Screening Tool**

- **Incorporates:**
 - **System Alternative 3**
 - **Shared Use Path Alternative A**
 - **All Base Improvements**

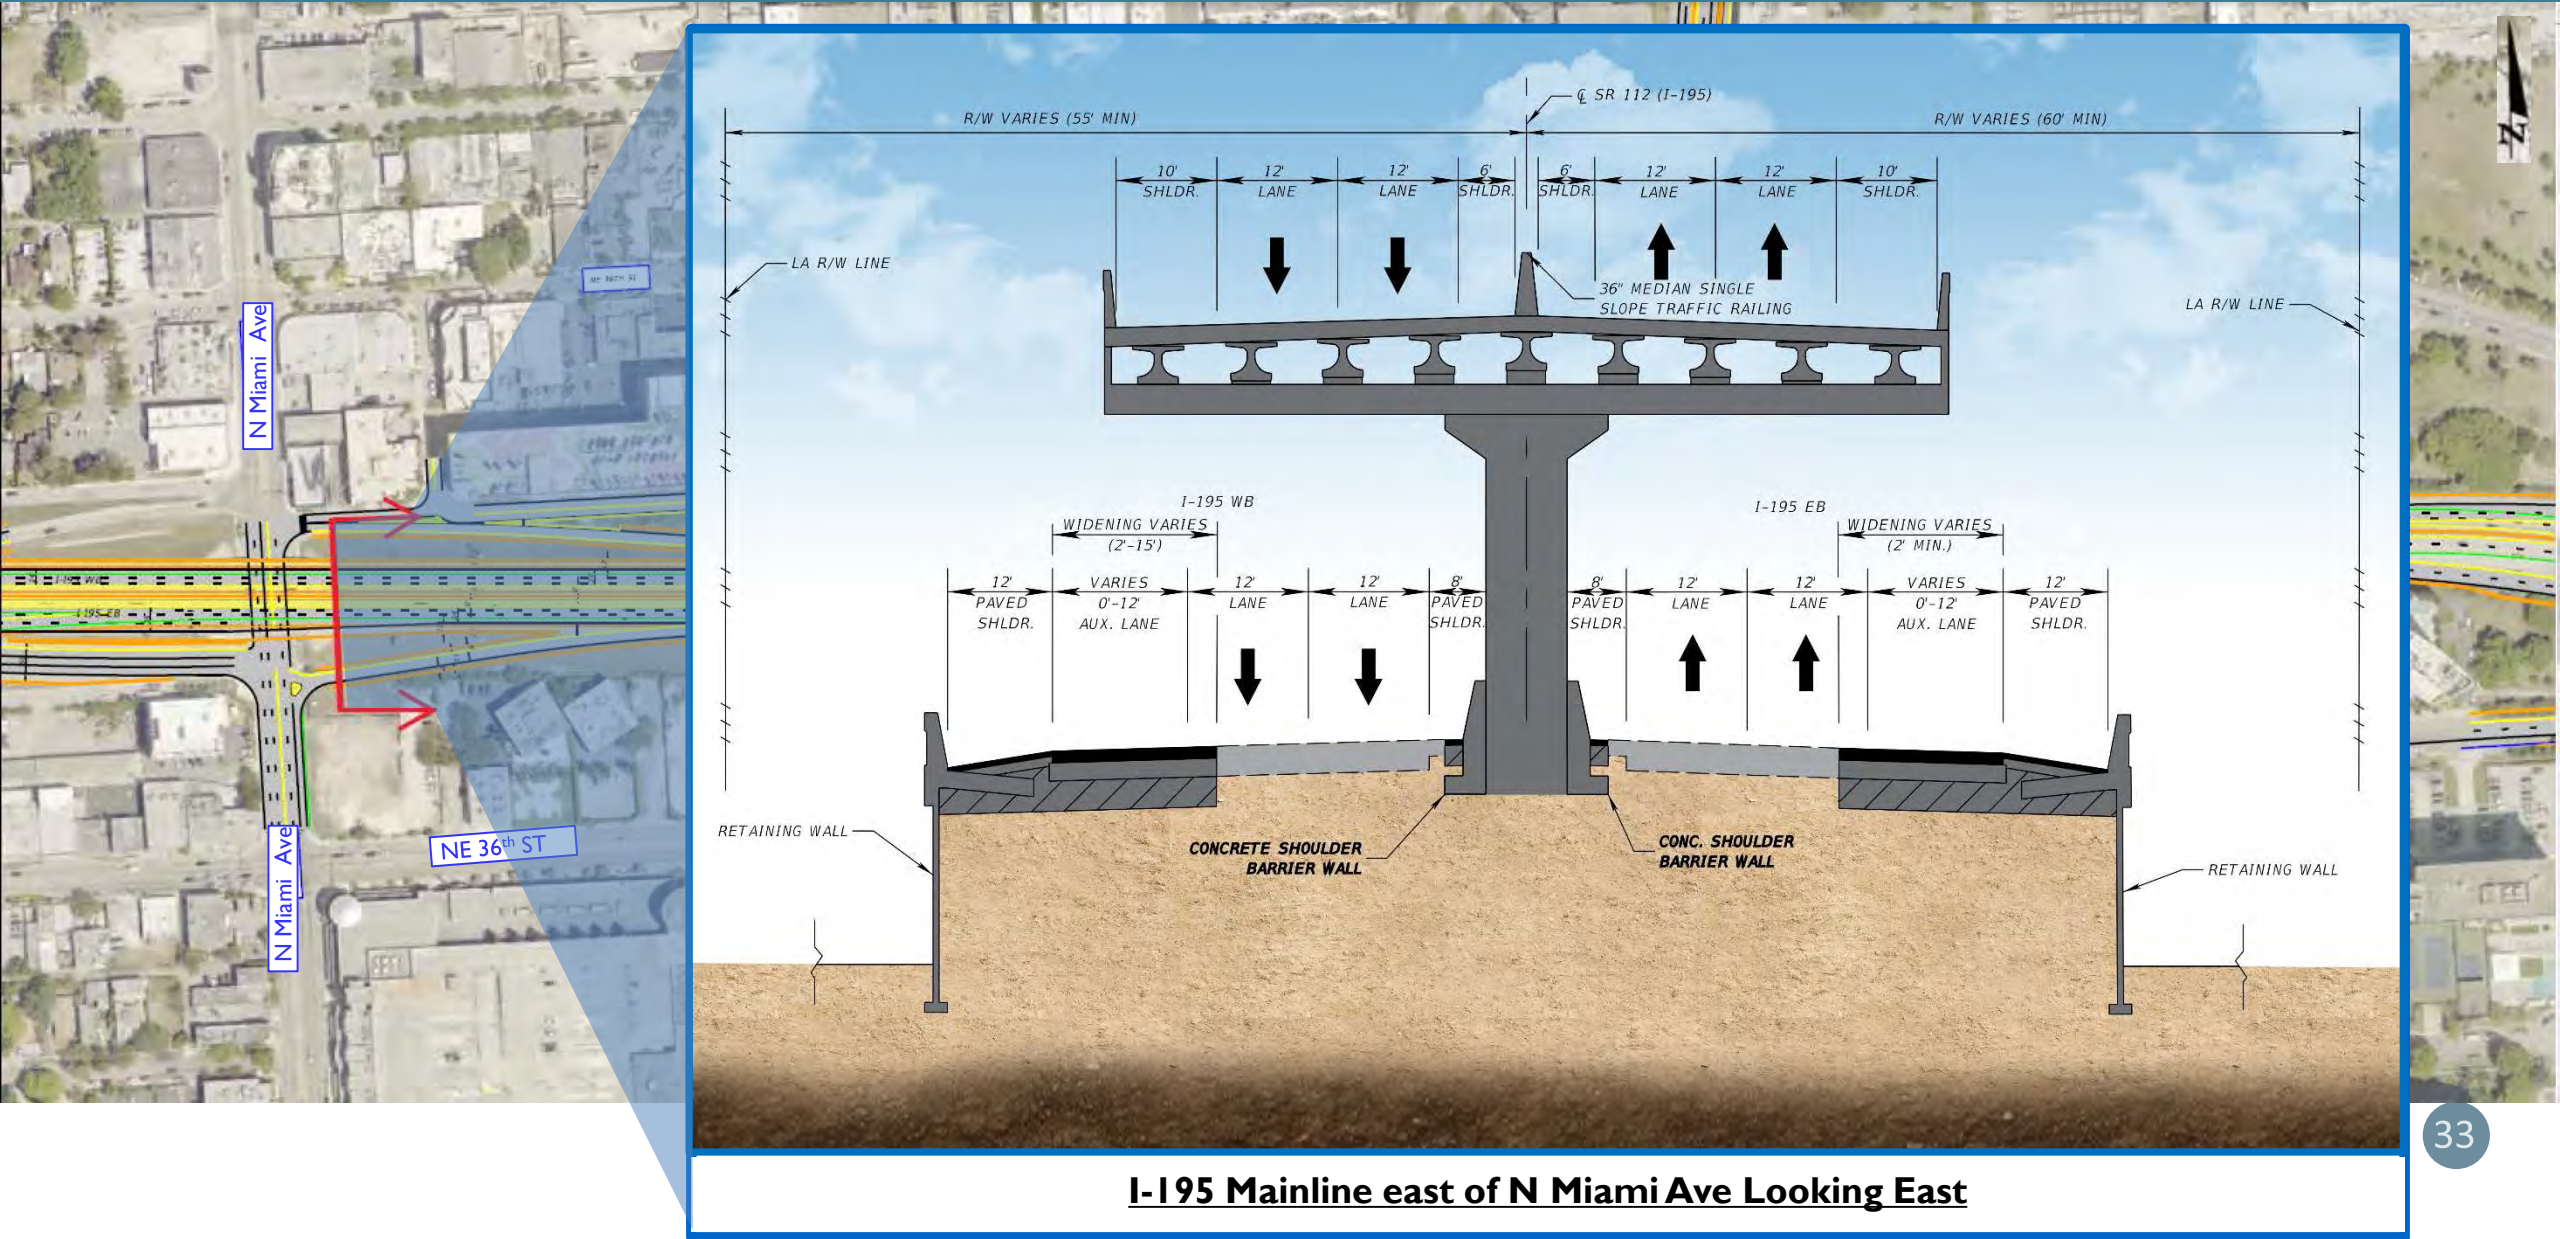

TYPICAL SECTIONS

REFINED BUILD ALTERNATIVE (TYPICAL SECTIONS)

GEOMETRIC CONSTRAINTS

REFINED BUILD ALTERNATIVE (GEOMETRIC CONSTRAINTS)

Location	Design Element	Existing	Required	Recommended	Reason for not addressing
SR 112 from NW 12th Ave to NW 10th Ave - South Side	Inside Shoulder Width	8' Min.	12' Min.	Match Existing	Require additional widening which may impact On-Ramps from I-95 SB Express to I-195 WB, I-95 SB to I-195 WB and I-95 NB to I-195 WB
SR 112 from NW 12th Ave to NW 10th Ave - North Side	Inside Shoulder Width	8' Min.	12' Min.	Match Existing	Require additional widening which may impact Off-Ramps from I-195 EB to I-95 NB Express, to I-95 SB and to I-95 NB

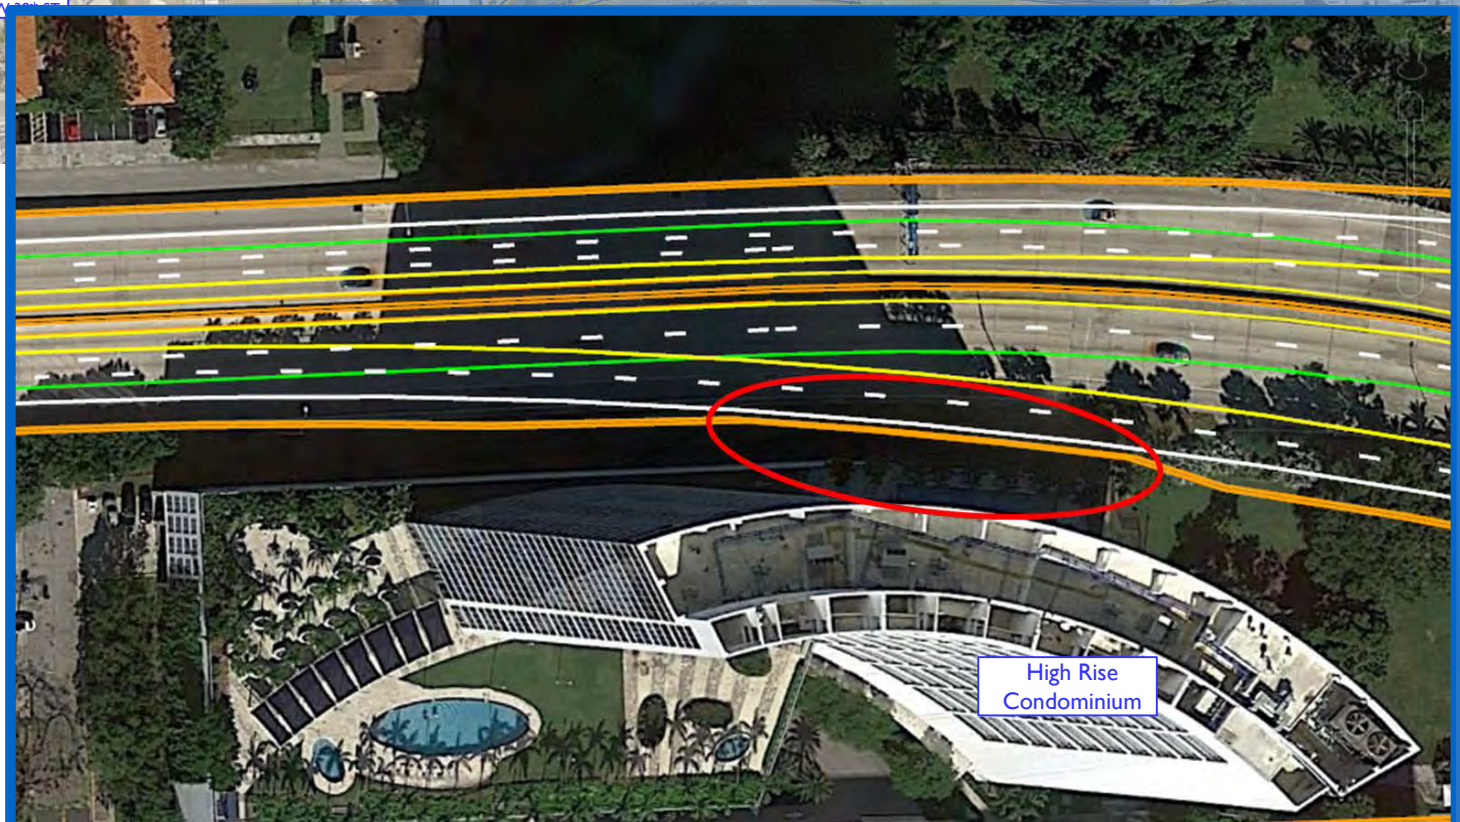

REFINED BUILD ALTERNATIVE (GEOMETRIC CONSTRAINTS)

Constraint #3

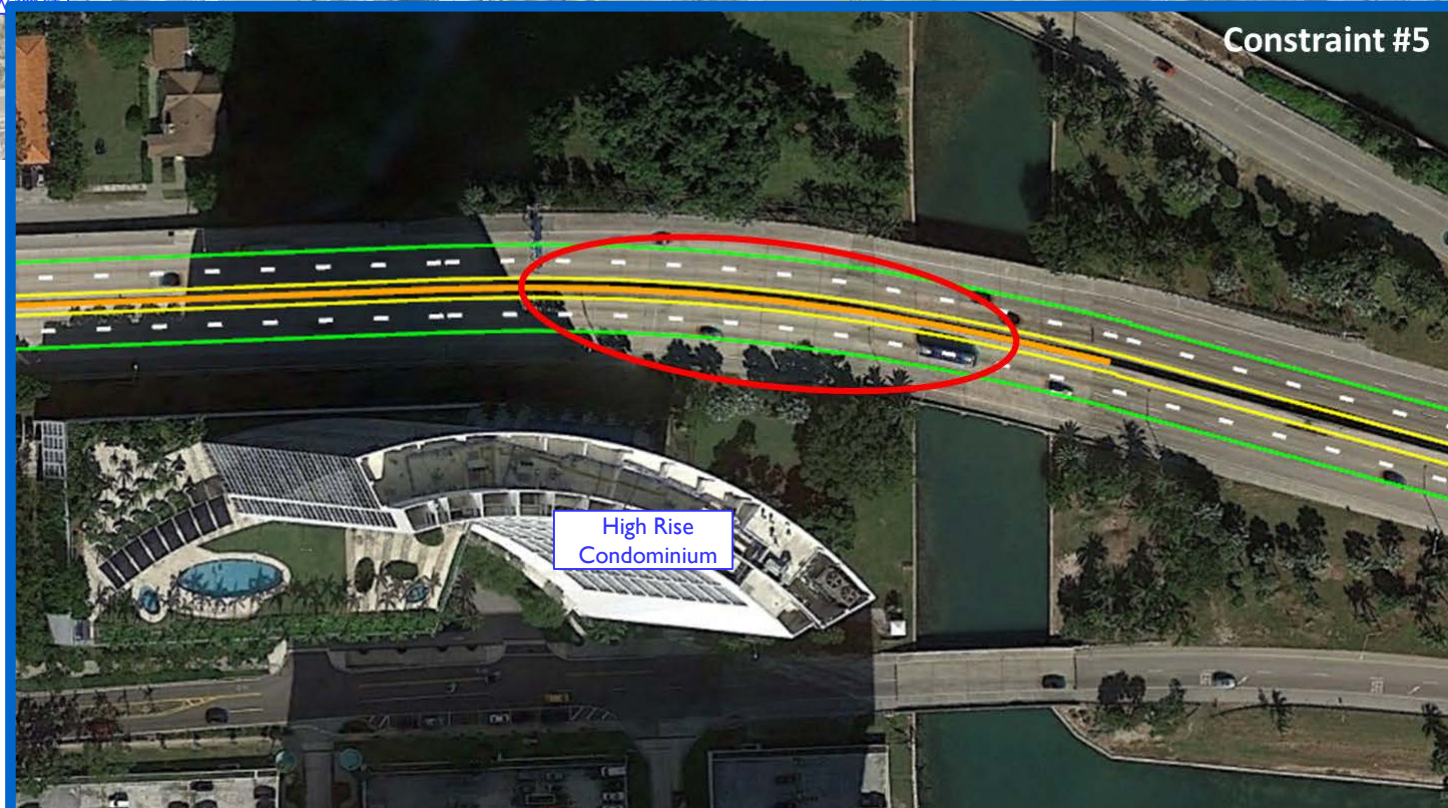

Location	Design Element	Existing	Required	Recommended	Reason for not addressing
I-195 EB at NE 1st Ct	Outside Shoulder Width	10' Min.	12' Min.	8'	Impacts to the building adjacent to I-195 EB at NE 1st Ct

REFINED BUILD ALTERNATIVE (GEOMETRIC CONSTRAINTS)

Location	Design Element	Existing	Required	Recommended	Reason for not addressing
I-195 EB, east of NE 36th St/ US-1 off-ramp	Outside Shoulder Width	10' Min.	12' Min.	6'	Impacts to the building adjacent to I-195 EB

REFINED BUILD ALTERNATIVE (GEOMETRIC CONSTRAINTS)

Location	Design Element	Existing	Required	Recommended	Reason for not addressing
Viaduct East of Biscayne Blvd	Horizontal Curve Length	N/A	900'	480'	Impacts to the building adjacent to I-195 EB

POTENTIAL ENVIRONMENTAL IMPACTS

- **Social**

- Aesthetic effects and controversy due to system improvements, i.e. new grade separated viaduct
- Relocation potential due to impacts to residential and retail/office properties

- **Cultural**

- Florida Master Site File (FMSF) review identified 171 previously recorded historic resources within the study area, which includes National Register of Historic Places – eligible resource groups, historic districts and historic structures.
- Numerous parks/recreational facilities and historic resources along the project corridor which are subject to Section 4(f) review

- **Natural**

- Project is within the Critical Habitat for the West Indian manatee and Johnson's seagrass and consultation area for various species.
- Project is within Essential Fish Habitat for several managed species
- Potential for seagrass, wetlands and mangroves within the project study area.
- Project is within Biscayne Bay Aquatic Preserve/Outstanding Florida Waters

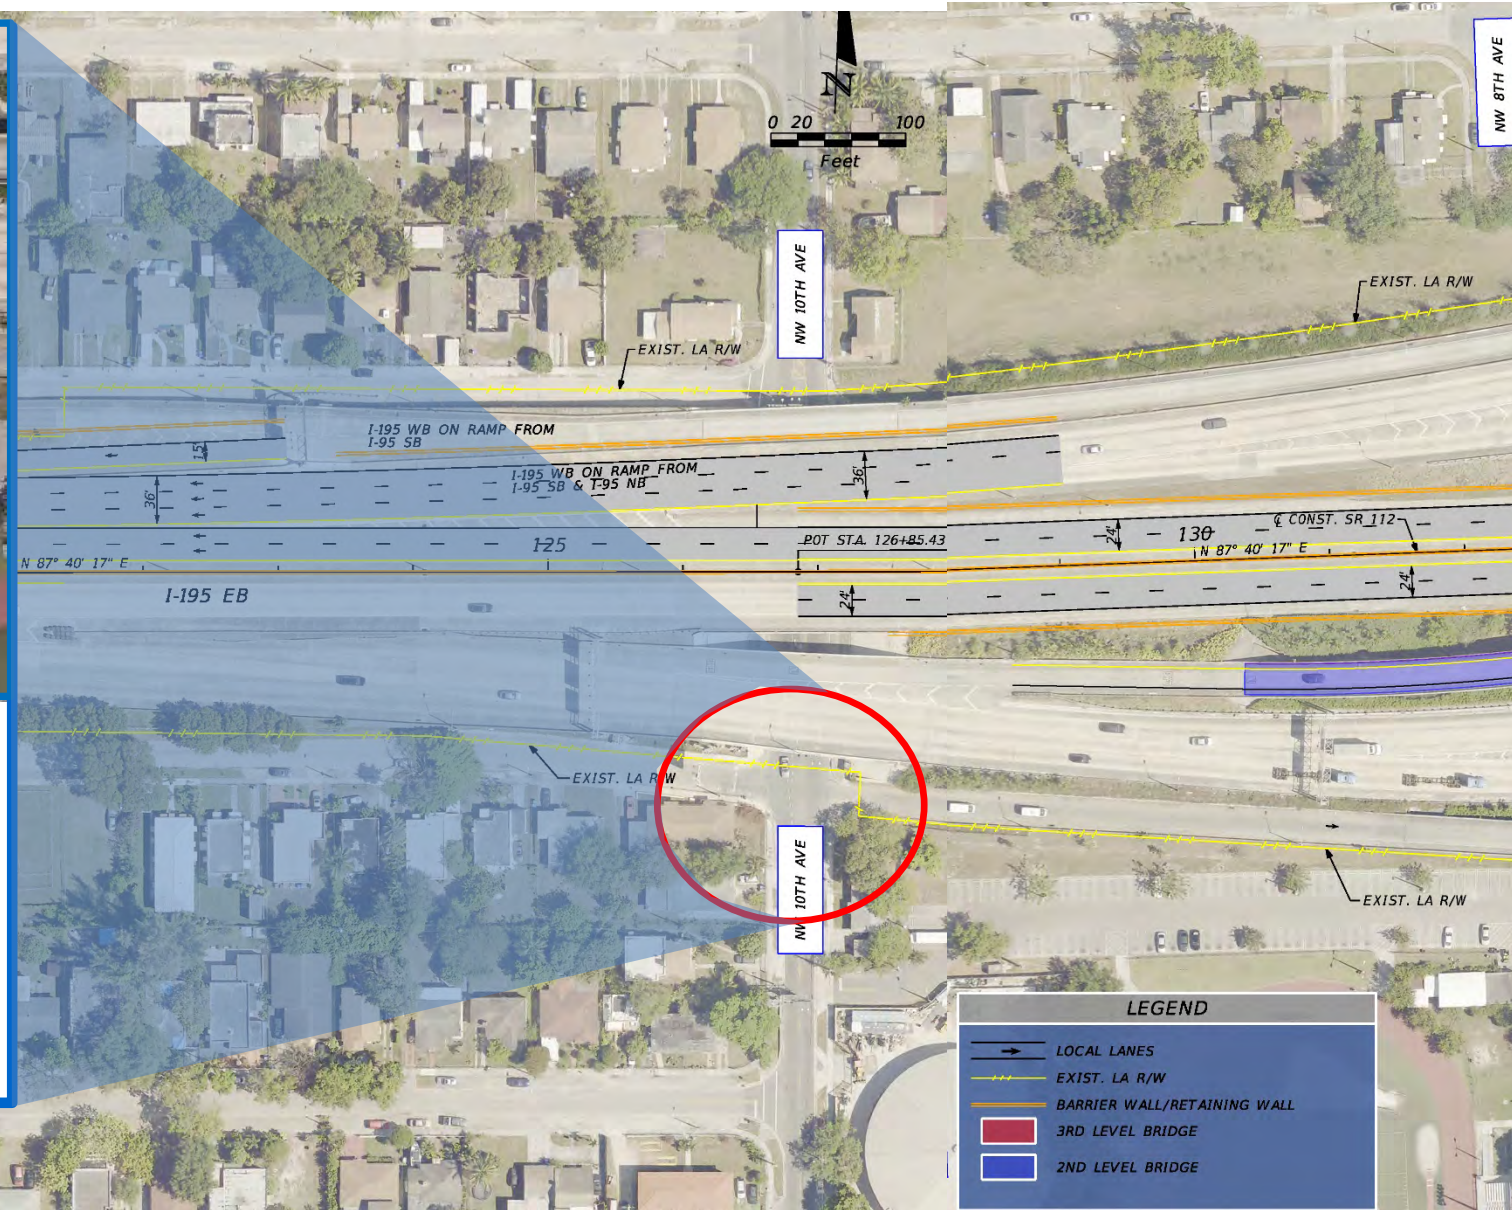

- **Physical**

- Several known contaminated sites within the project study area.
- Project crosses the Atlantic Intracoastal Waterway (ICW)

OTHER INTERSECTION IMPROVEMENTS

OTHER INTERSECTION IMPROVEMENTS (WEST OF I-95)

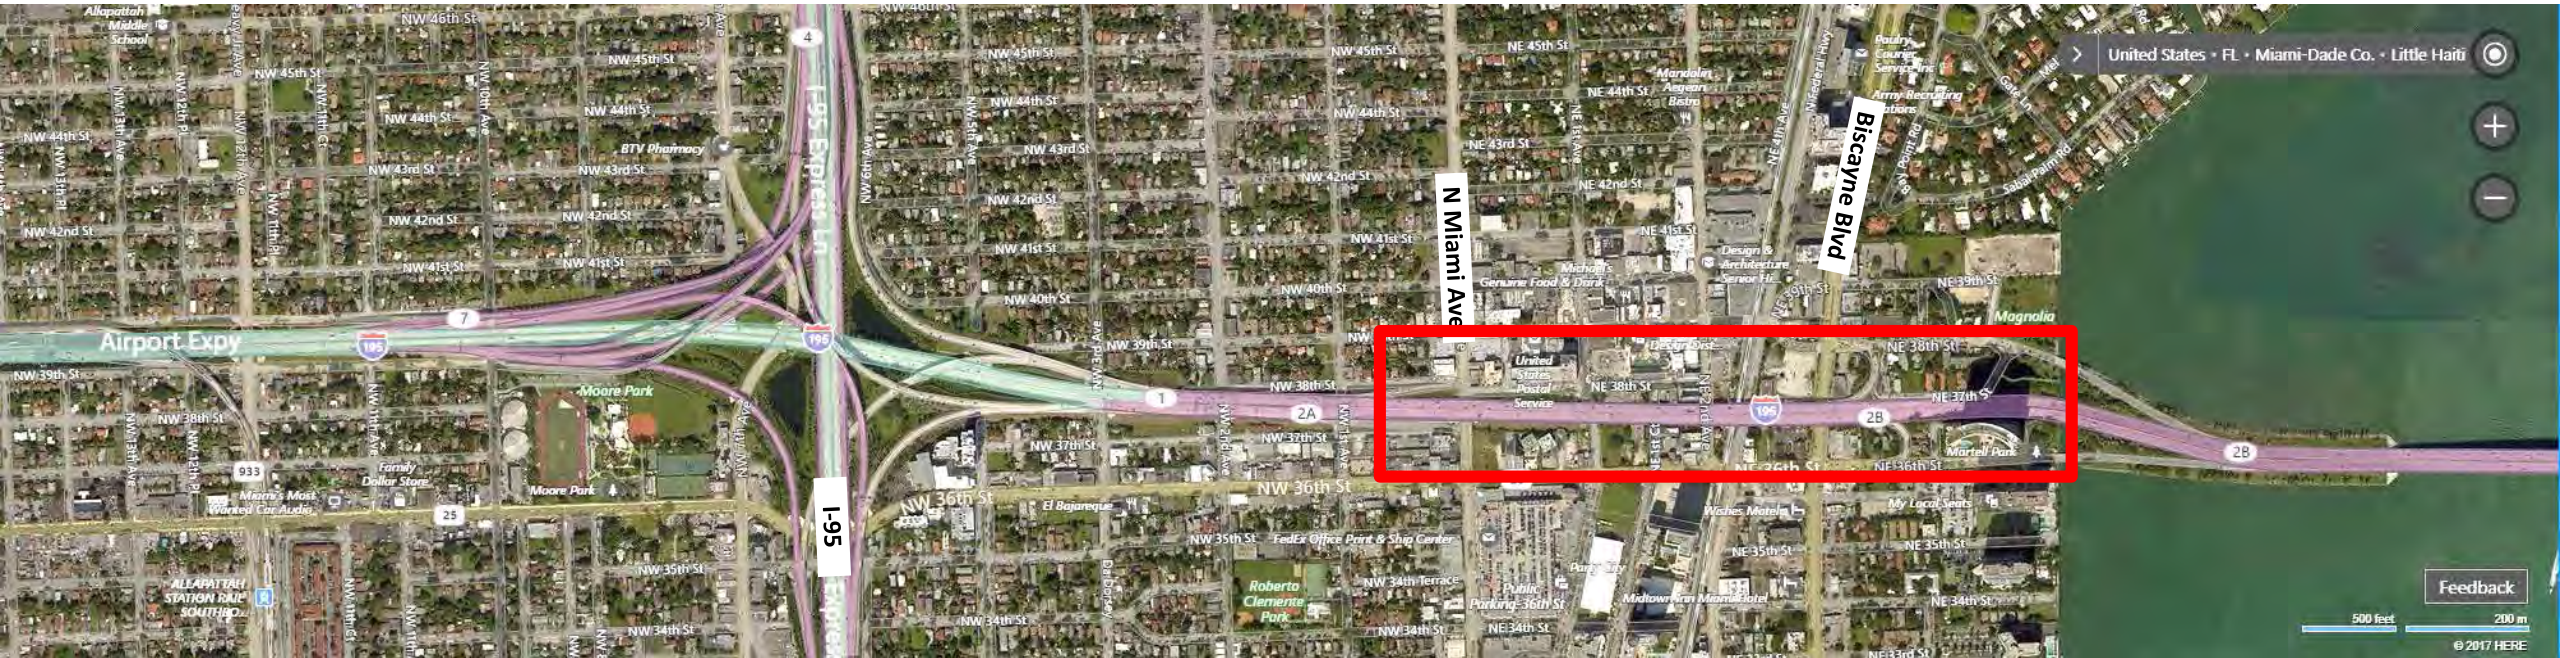

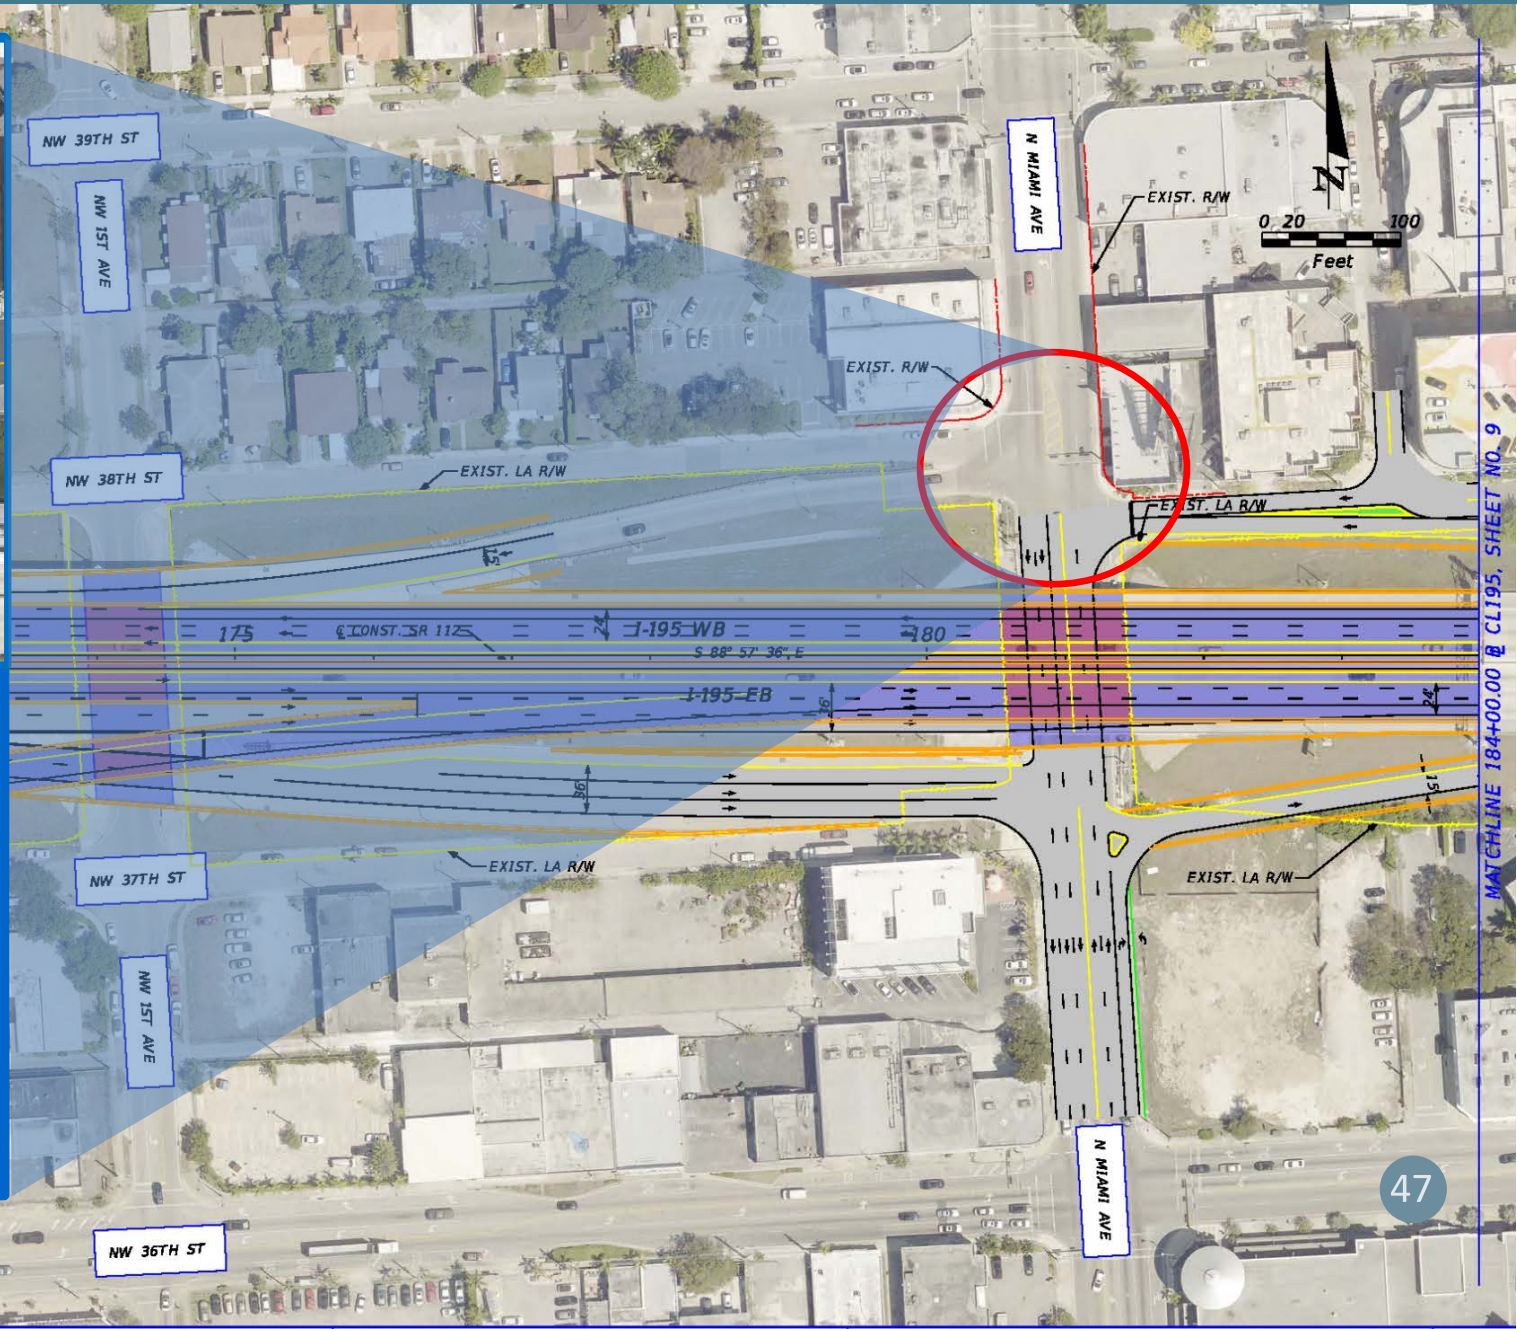

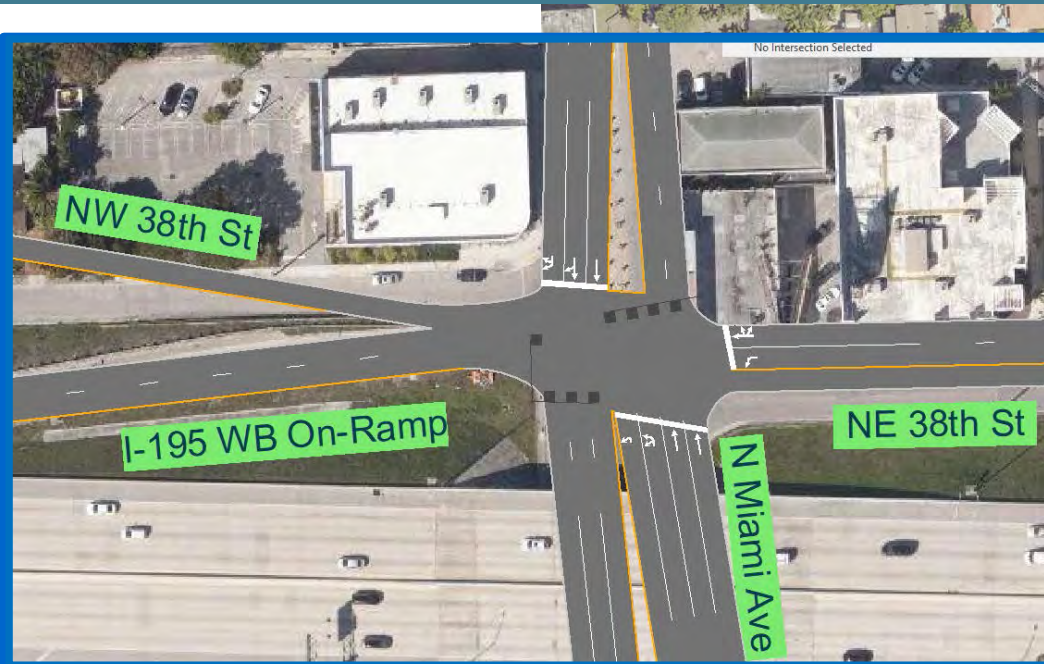

NW 39th St & NW 10th Avenue

- **Propose traffic signal to replace existing stop-control on EB Approach**
 - No modifications proposed to intersection lane geometry
 - Benefit mainly to EB NW 39th St operations which currently experiences excessive delay
- **Improvement could be advanced as separate project**

LEGEND	
	LOCAL LANES
	EXIST. LA R/W
	BARRIER WALL/RETAINING WALL
	3RD LEVEL BRIDGE
	2ND LEVEL BRIDGE

OTHER INTERSECTION IMPROVEMENTS (MIDTOWN INTERCHANGES)

N Miami Avenue & I-195 WB On-Ramp

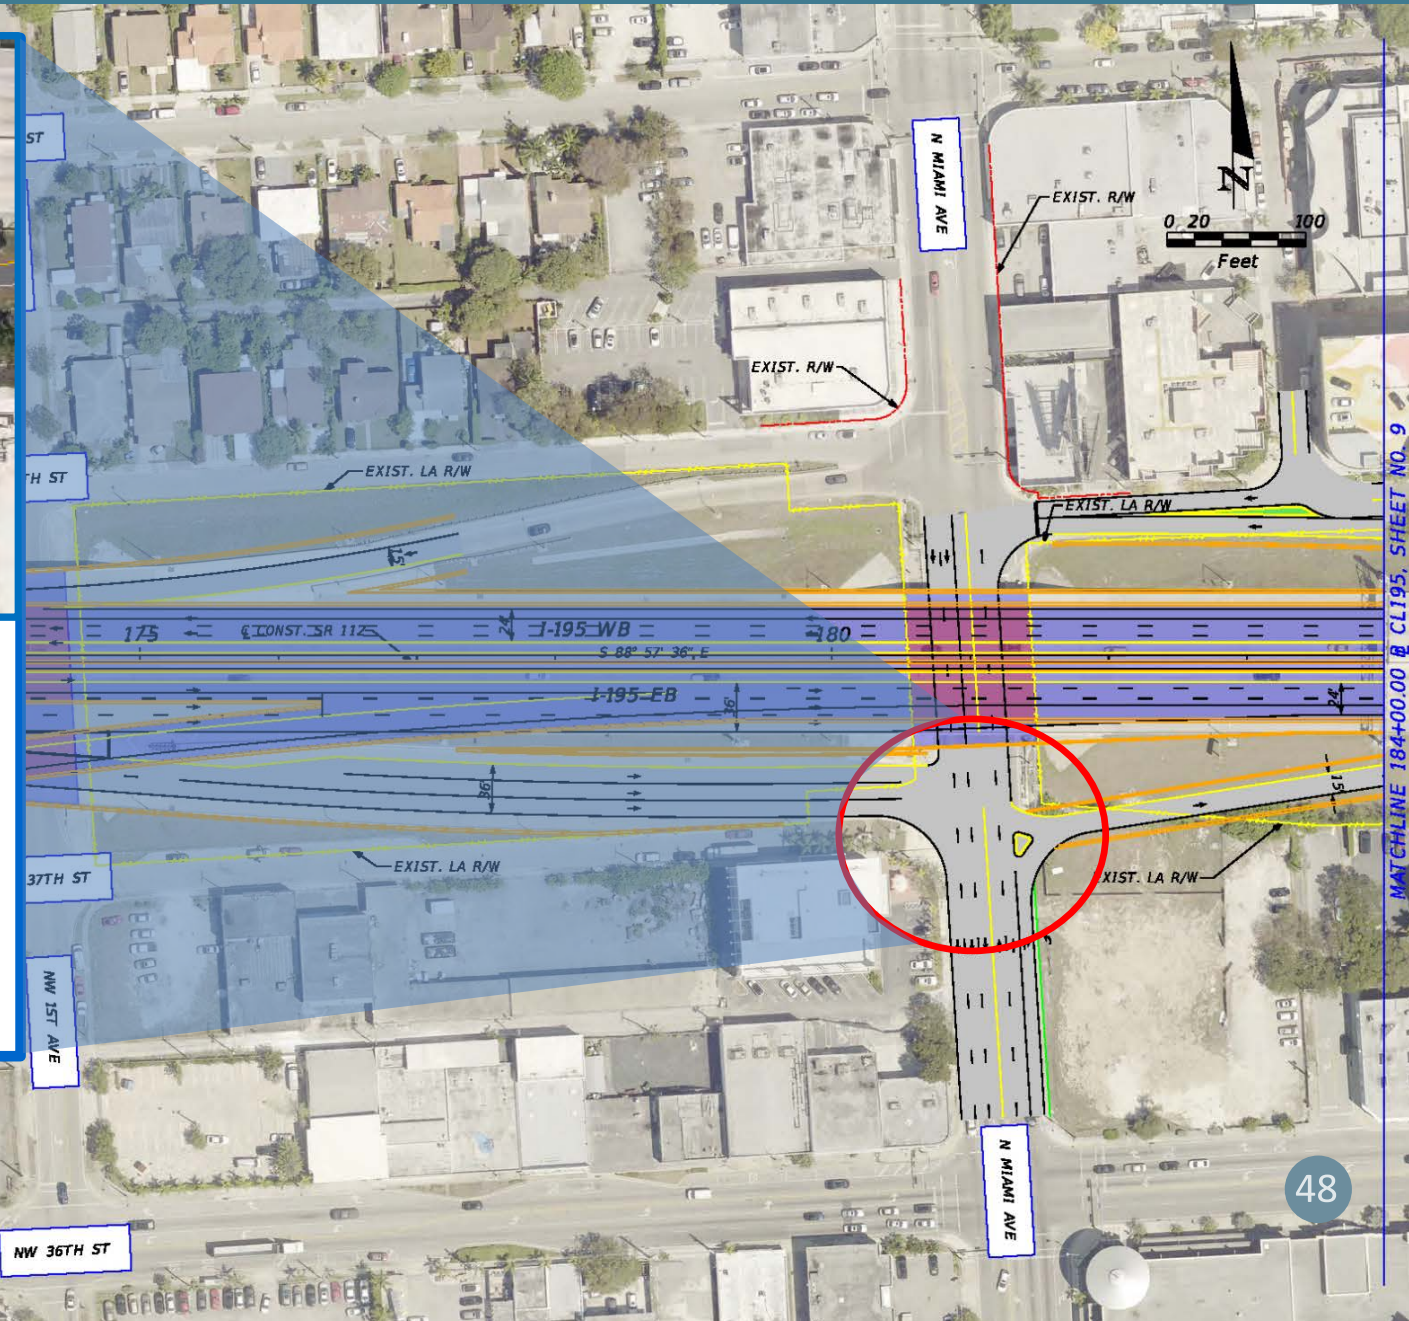

- **Lane additions:**
 - Right turn lane to serve the I-195 westbound on-ramp/NW 38th Street on the southbound approach
 - Exclusive left turn lane on the northbound approach
 - New left turn lane on the westbound approach from the proposed westbound off-ramp to N Miami Avenue
 - Modify the I-195 westbound on-ramp from a single lane to a two-lane entry ramp tapering to single lane before WB I-195
- **Retime / Optimize signal timing**
- **Tied to long term system alternative**

- 2ND LEVEL BRIDGE
- 3RD LEVEL BRIDGE
- POTENTIAL R/W NEEDS

N Miami Avenue & I-195 EB Off-Ramp

- **Lane additions:**
 - New left turn lane on the southbound approach for the proposed on-ramp from N Miami Avenue to I-195 Eastbound
 - Exclusive right turn lane on the eastbound approach
 - New shared through-right lane on the northbound approach for the proposed on-ramp from N Miami Avenue to I-195 Eastbound
- **Retime / Optimize signal timing**
- **Tied to long term system alternative**

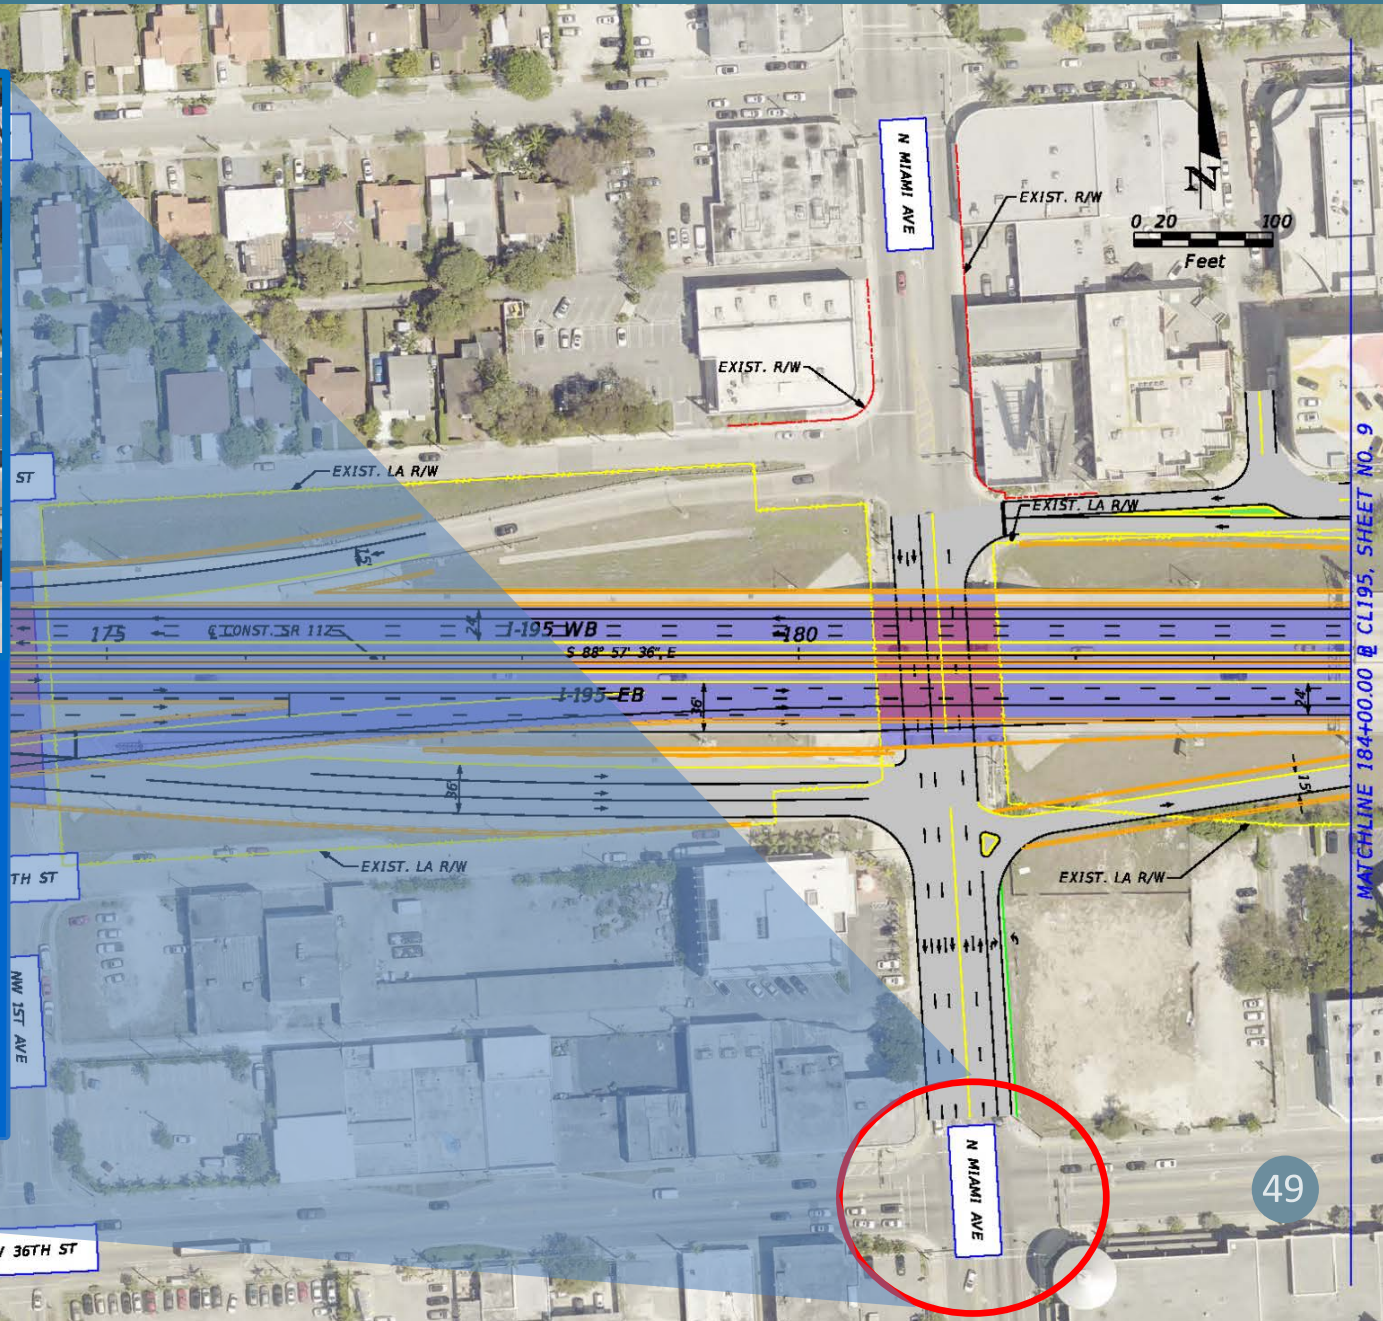

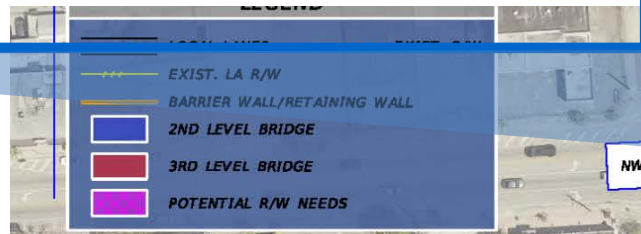

LEGEND	
	LOCAL LANES
	EXIST. LA R/W
	BARRIER WALL/RETAINING WALL
	2ND LEVEL BRIDGE
	3RD LEVEL BRIDGE
	POTENTIAL R/W NEEDS
	EXIST. R/W

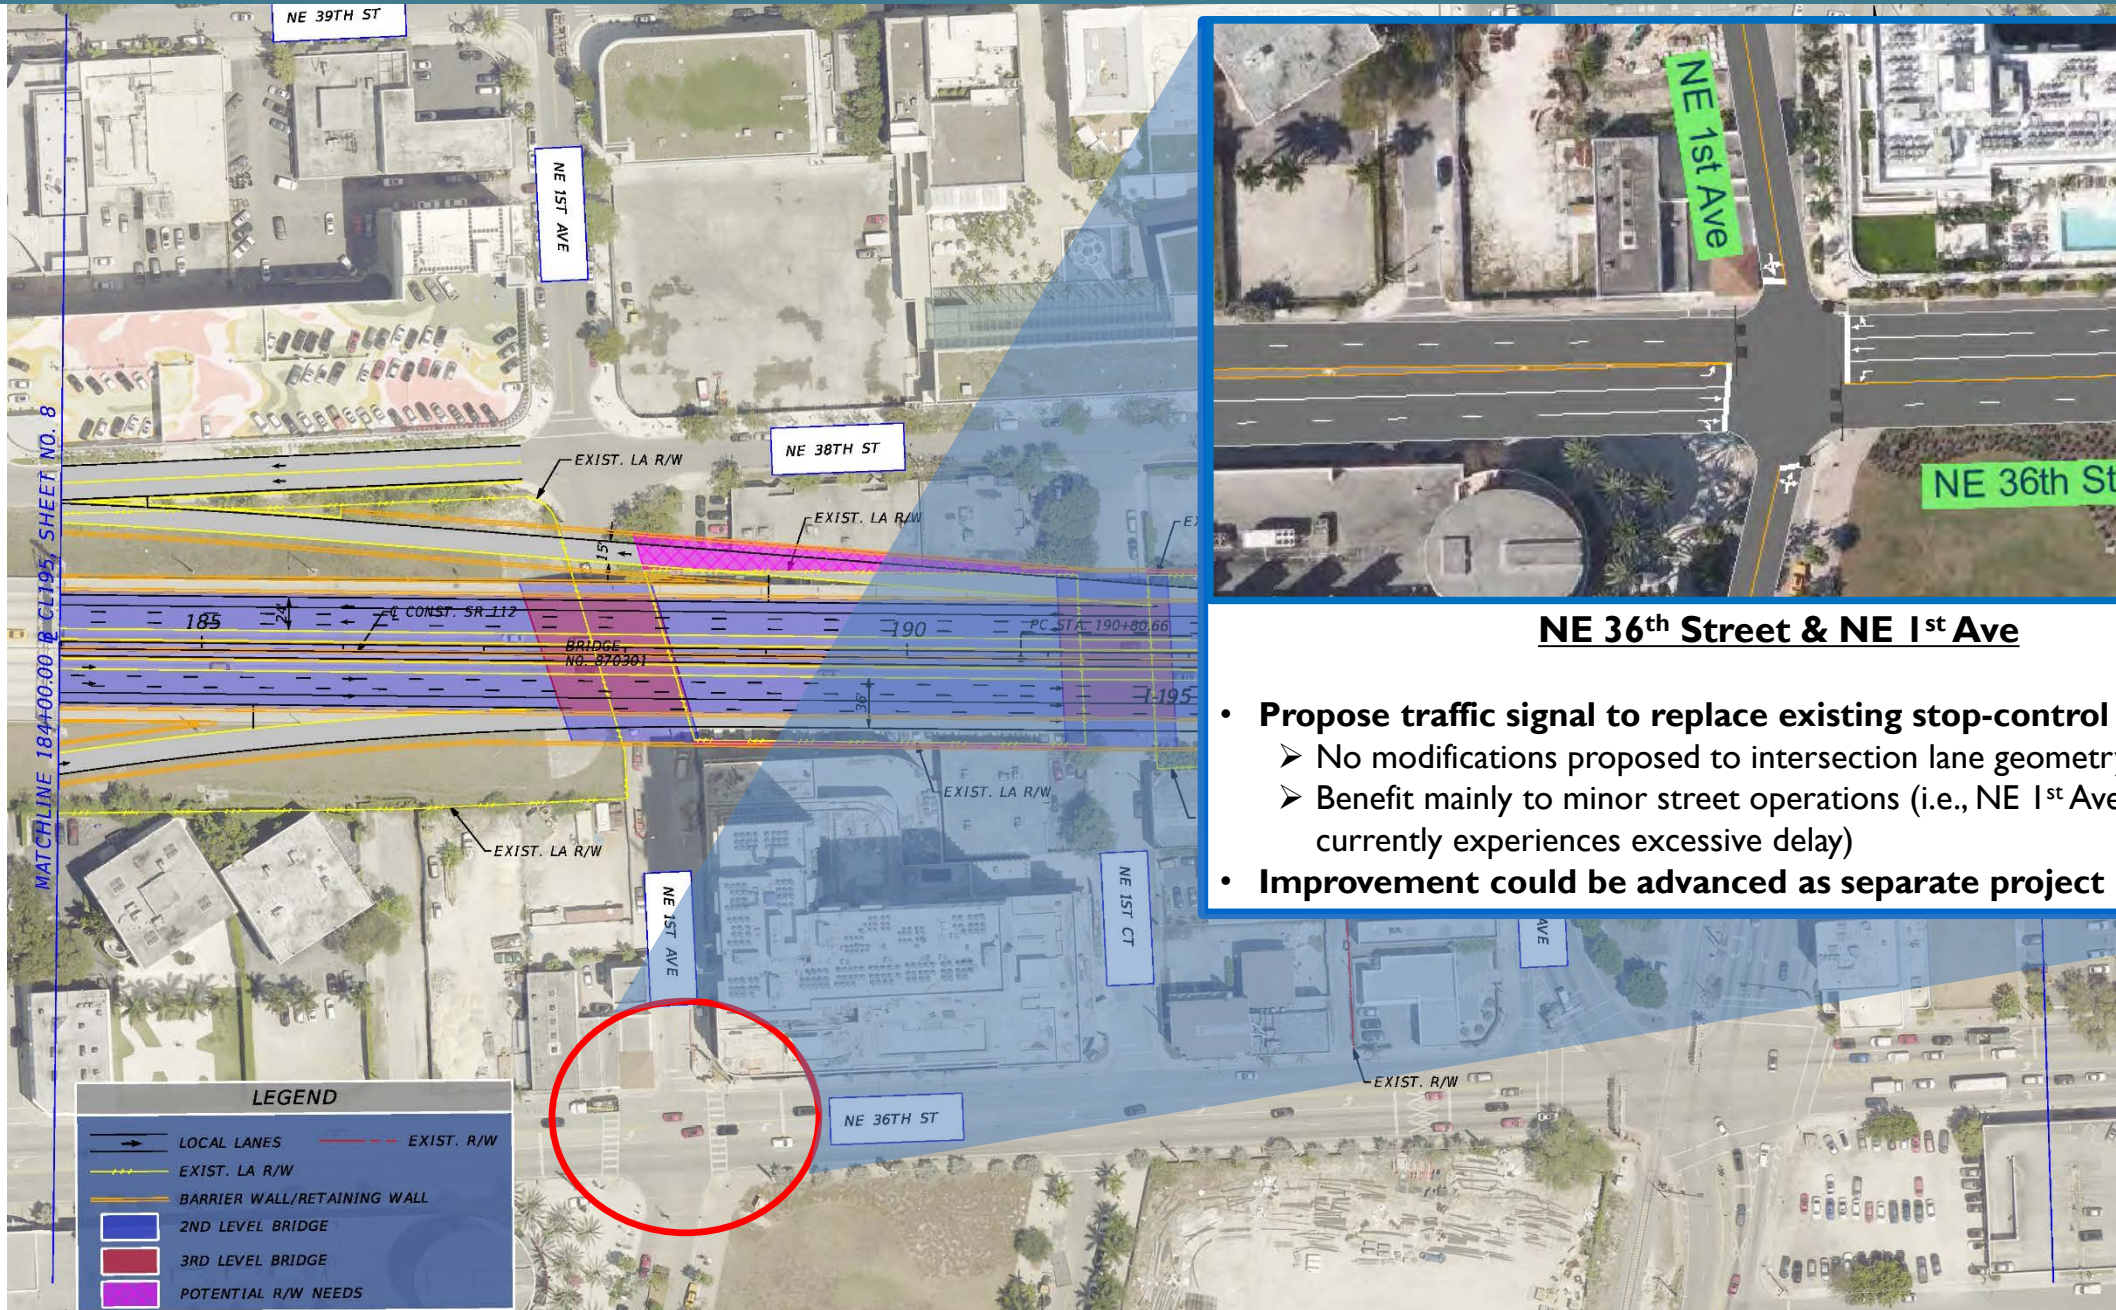

MATCHLINE 184+00.00 @ CL195, SHEET NO. 9

N Miami Avenue & NE 36th Street

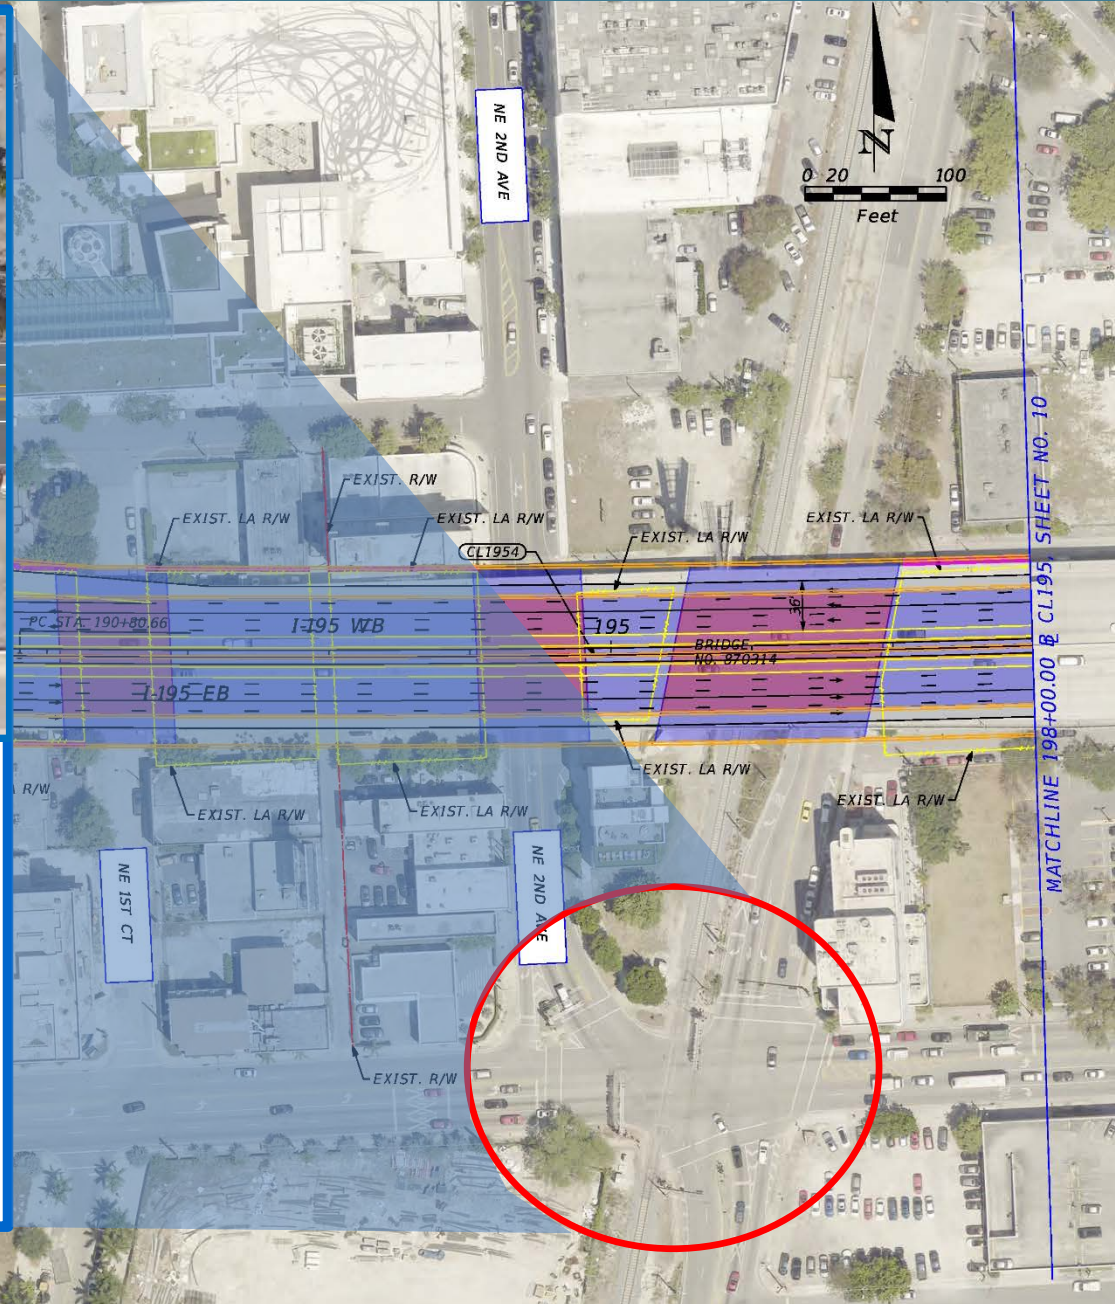

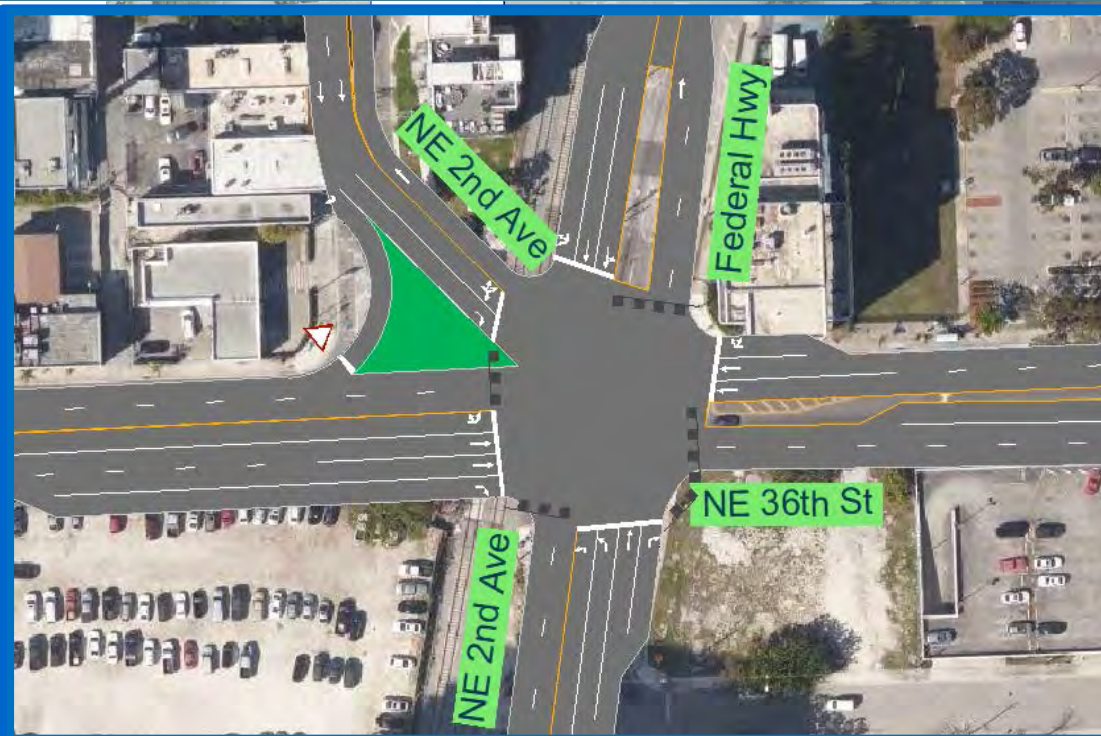

- **Lane additions:**
 - Exclusive left turn lane on the eastbound approach
 - Through lane on the westbound approach
- **Lane Utilization:**
 - Modify northbound exclusive right turn lane to a shared through-right lane
- **Retime / Optimize signal timing**
- **Tied to long term system alternative**

NE 36th Street & NE 1st Ave

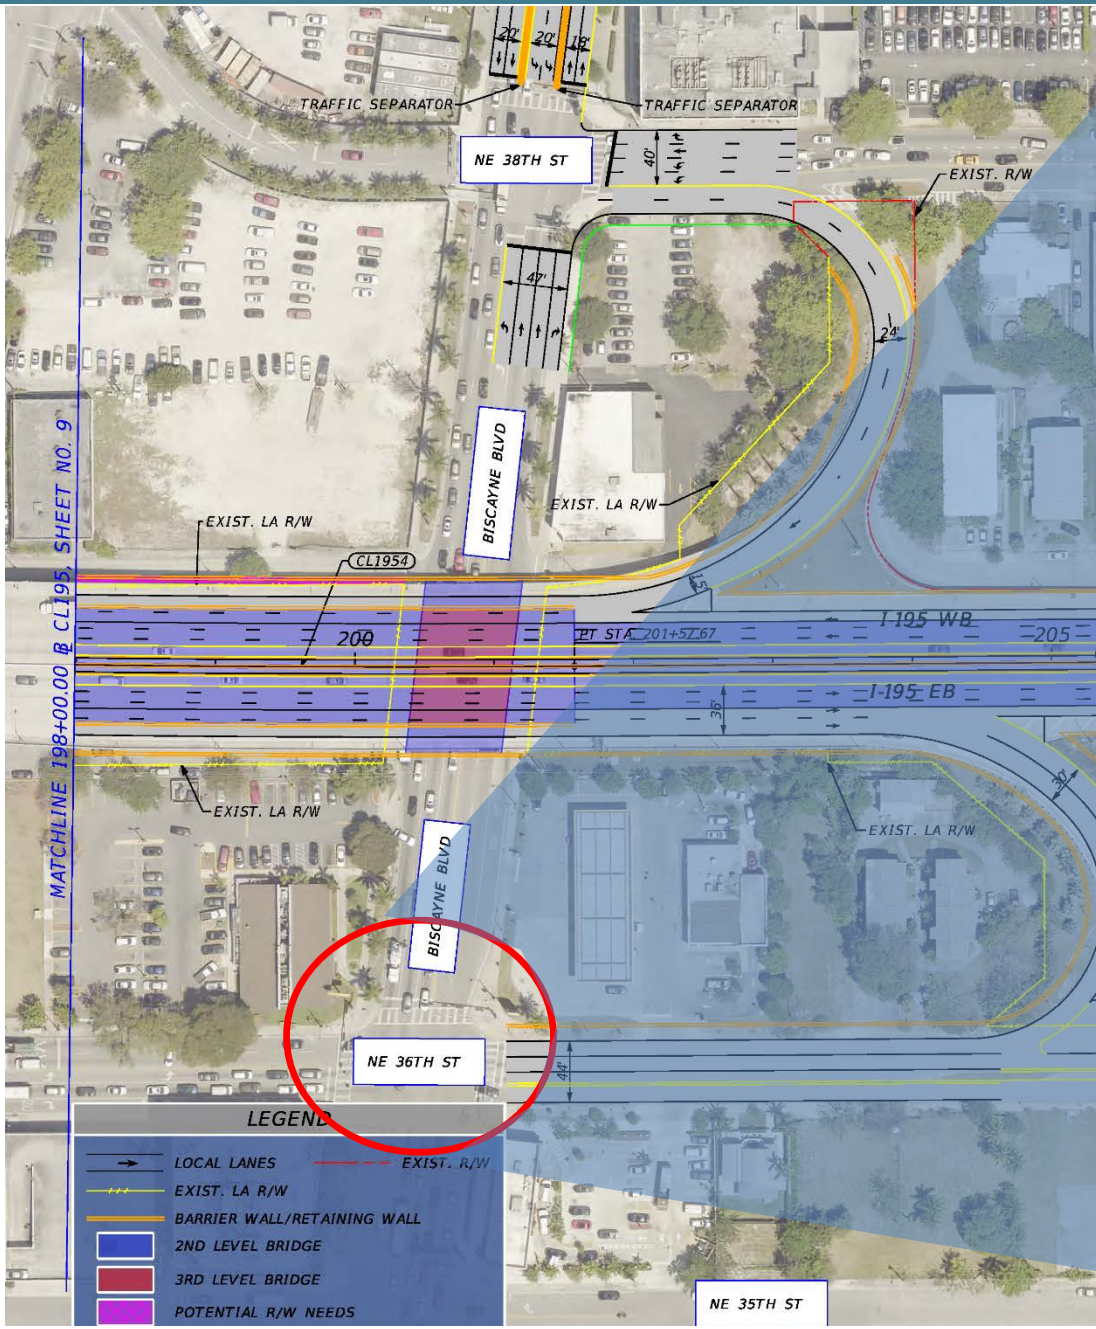

- **Propose traffic signal to replace existing stop-control**
 - No modifications proposed to intersection lane geometry
 - Benefit mainly to minor street operations (i.e., NE 1st Ave which currently experiences excessive delay)
- **Improvement could be advanced as separate project**

NE 36th St & NE 2nd Ave & Federal Highway

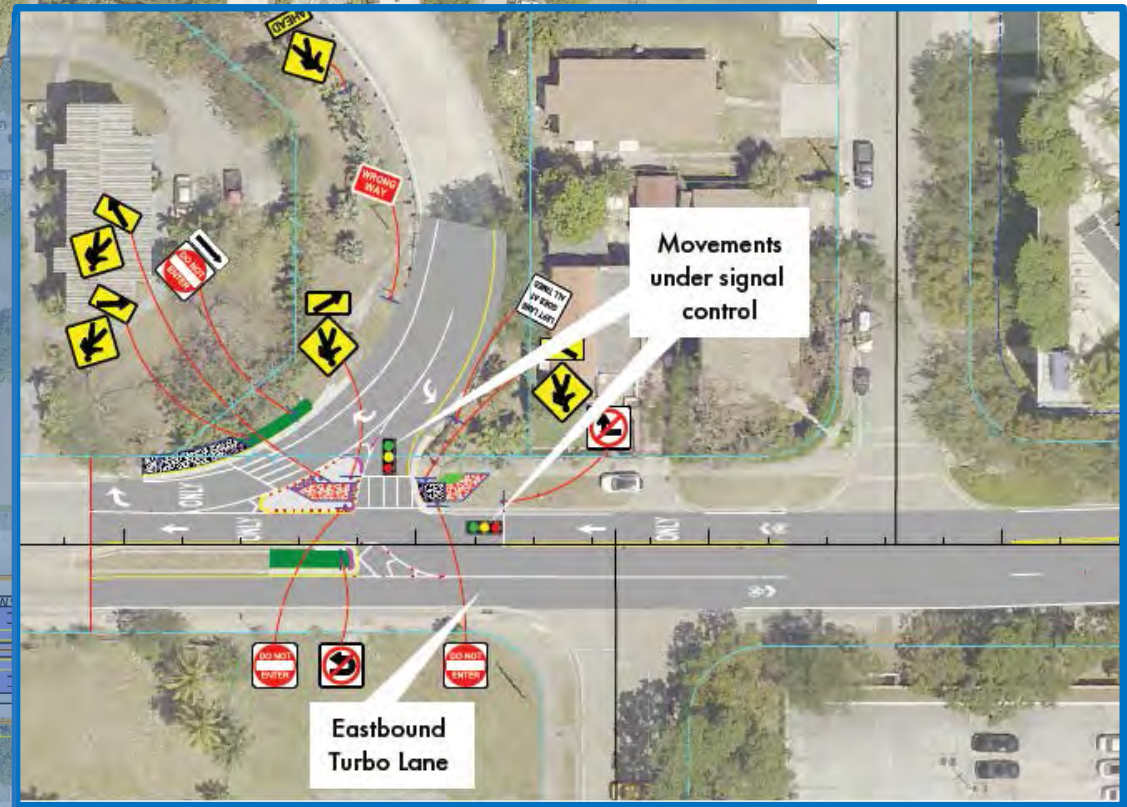

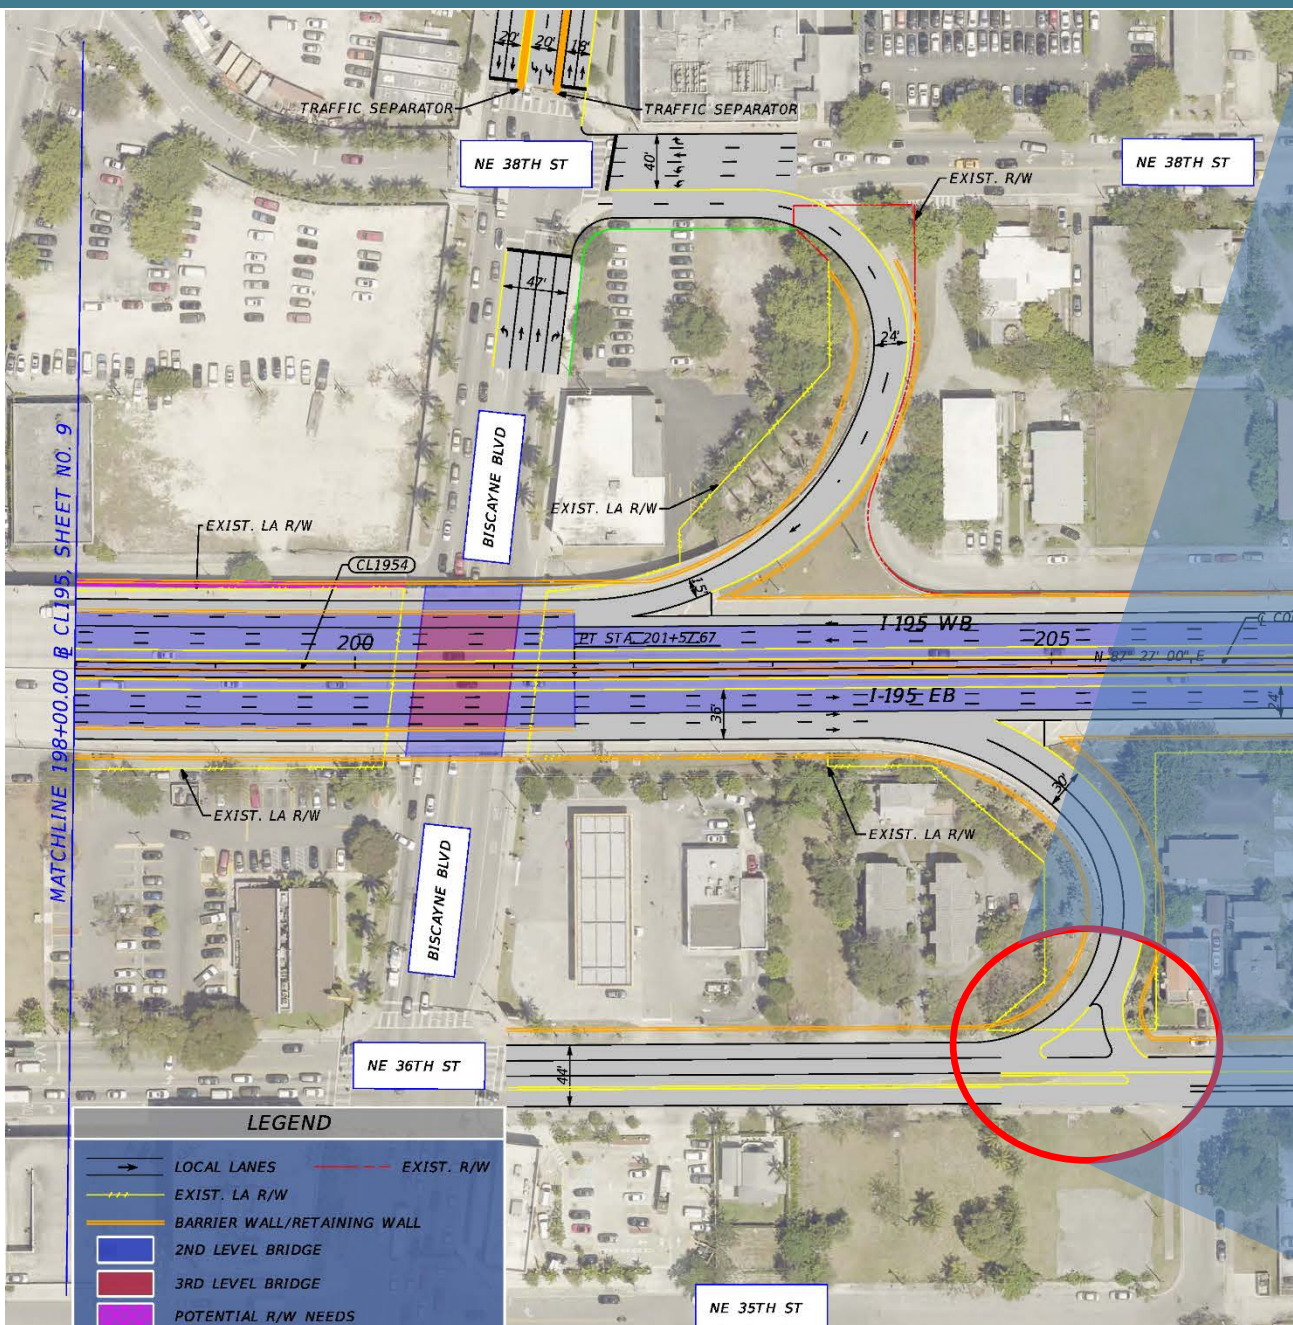

- **Lane additions:**
 - Exclusive right turn lane on the eastbound approach
 - Exclusive left and right turn lanes on the northbound approach
 - Exclusive right turn lane on the westbound approach
- **Lane Utilization:**
 - The exclusive left turn lane on the southbound approach will be modified to a shared left-through lane
- **Retime / Optimize signal timing**
- **Improvement could be advanced as separate project**

3RD LEVEL BRIDGE
 POTENTIAL R/W NEEDS

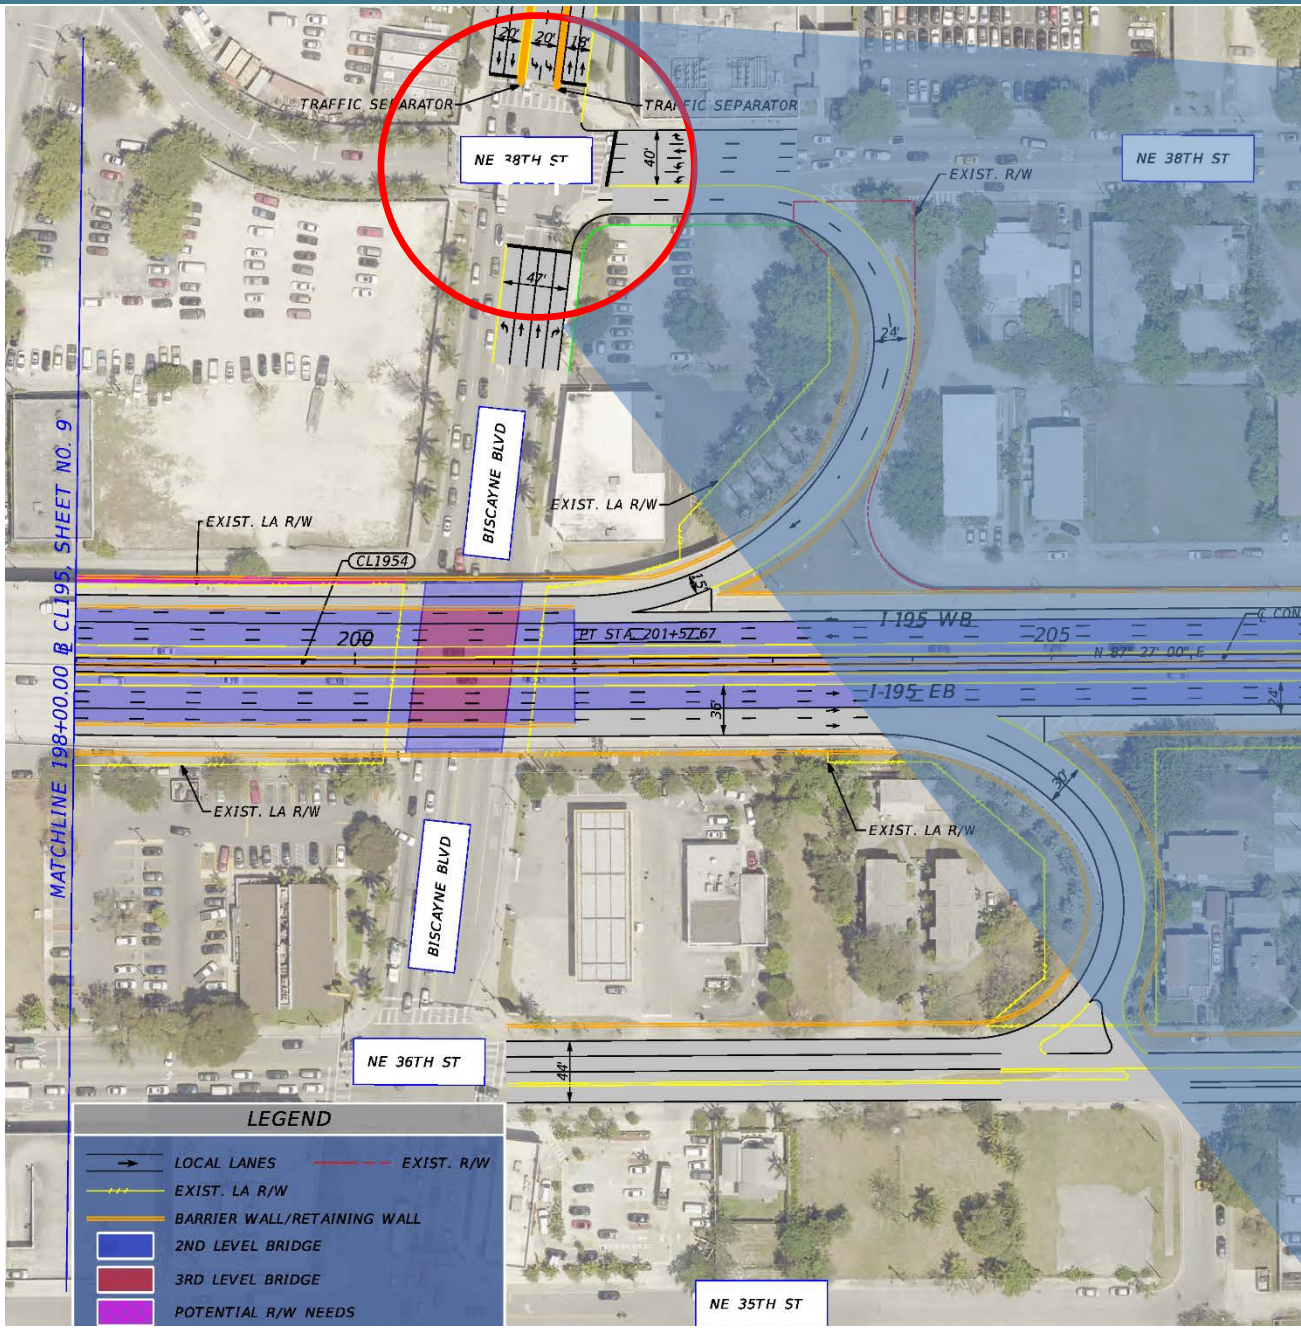

Biscayne Blvd & NE 36th St

- **Lane additions:**
 - Exclusive right turn lane on the southbound approach
 - Exclusive left turn lane on the westbound approach
- **Lane Utilization:**
 - The westbound approach will have two exclusive left turn lanes, a shared through-right lane and an exclusive right turn lane
- **Retime / Optimize signal timing**
- **Improvement could be advanced as separate project**

I-195 EB Off-Ramp Terminal at NE 36th St

- **Concept:**
 - Provide access to the condominiums on the east side of the ramp
 - Improve capacity of ramp terminal
- **Lane additions & Intersection Control:**
 - Exclusive left turn lane from the off-ramp
 - Westbound through movement and southbound left turn lane from the off-ramp under signal control
- **Improvement could be advanced as separate project**

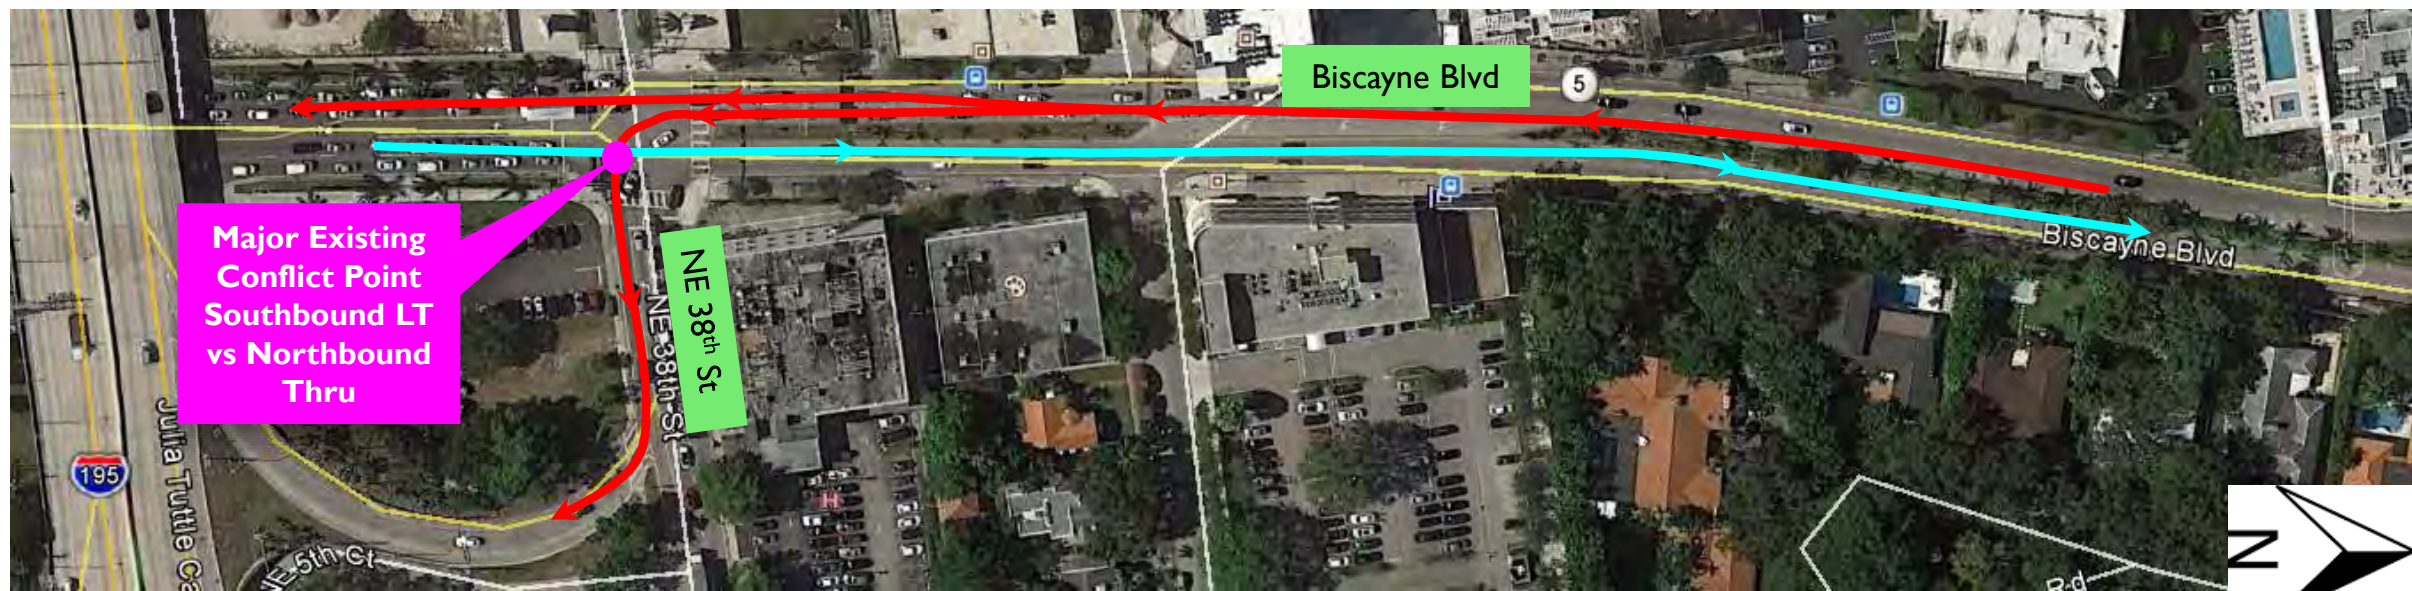

Biscayne Blvd at NE 38th St

- **Concept:**
 - Two-lane Displaced left turn concept on southbound approach
 - Add exclusive left turn lane on the westbound approach
 - Add exclusive right-turn lane on northbound approach
- **Lane additions & Intersection Control:**
 - Westbound approach: two exclusive left turn lanes, a shared through-right lane and an exclusive right turn lane
- **Improvement could be advanced as separate project**

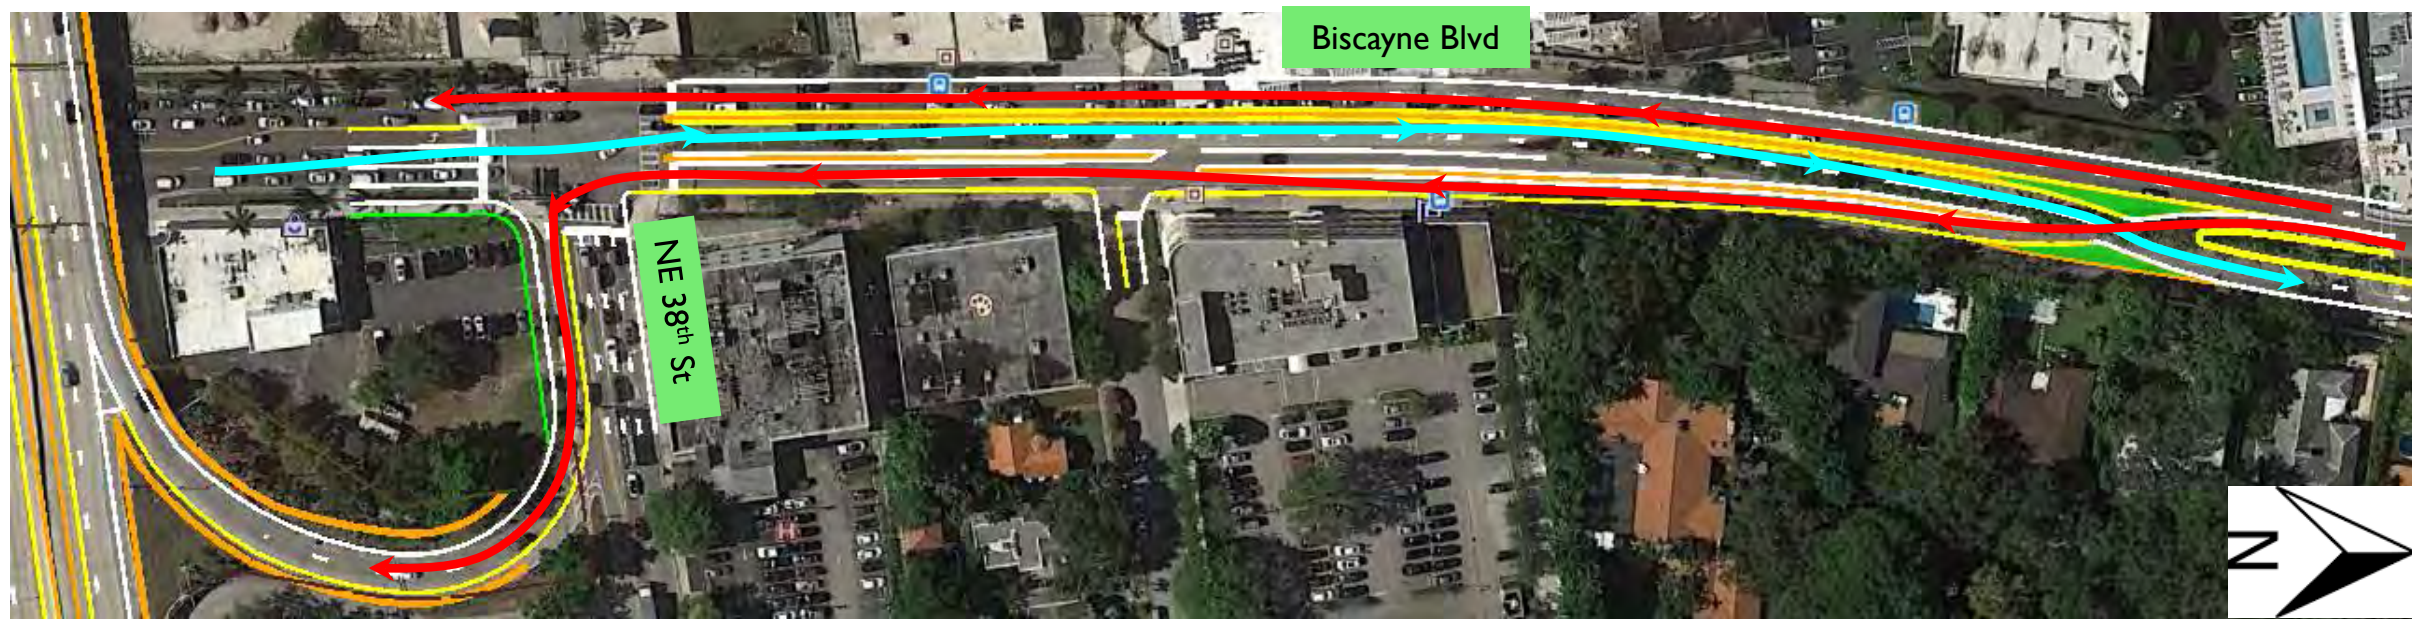

OTHER INTERSECTION IMPROVEMENTS (Biscayne Blvd at NE 38th St - Continued)

EXISTING

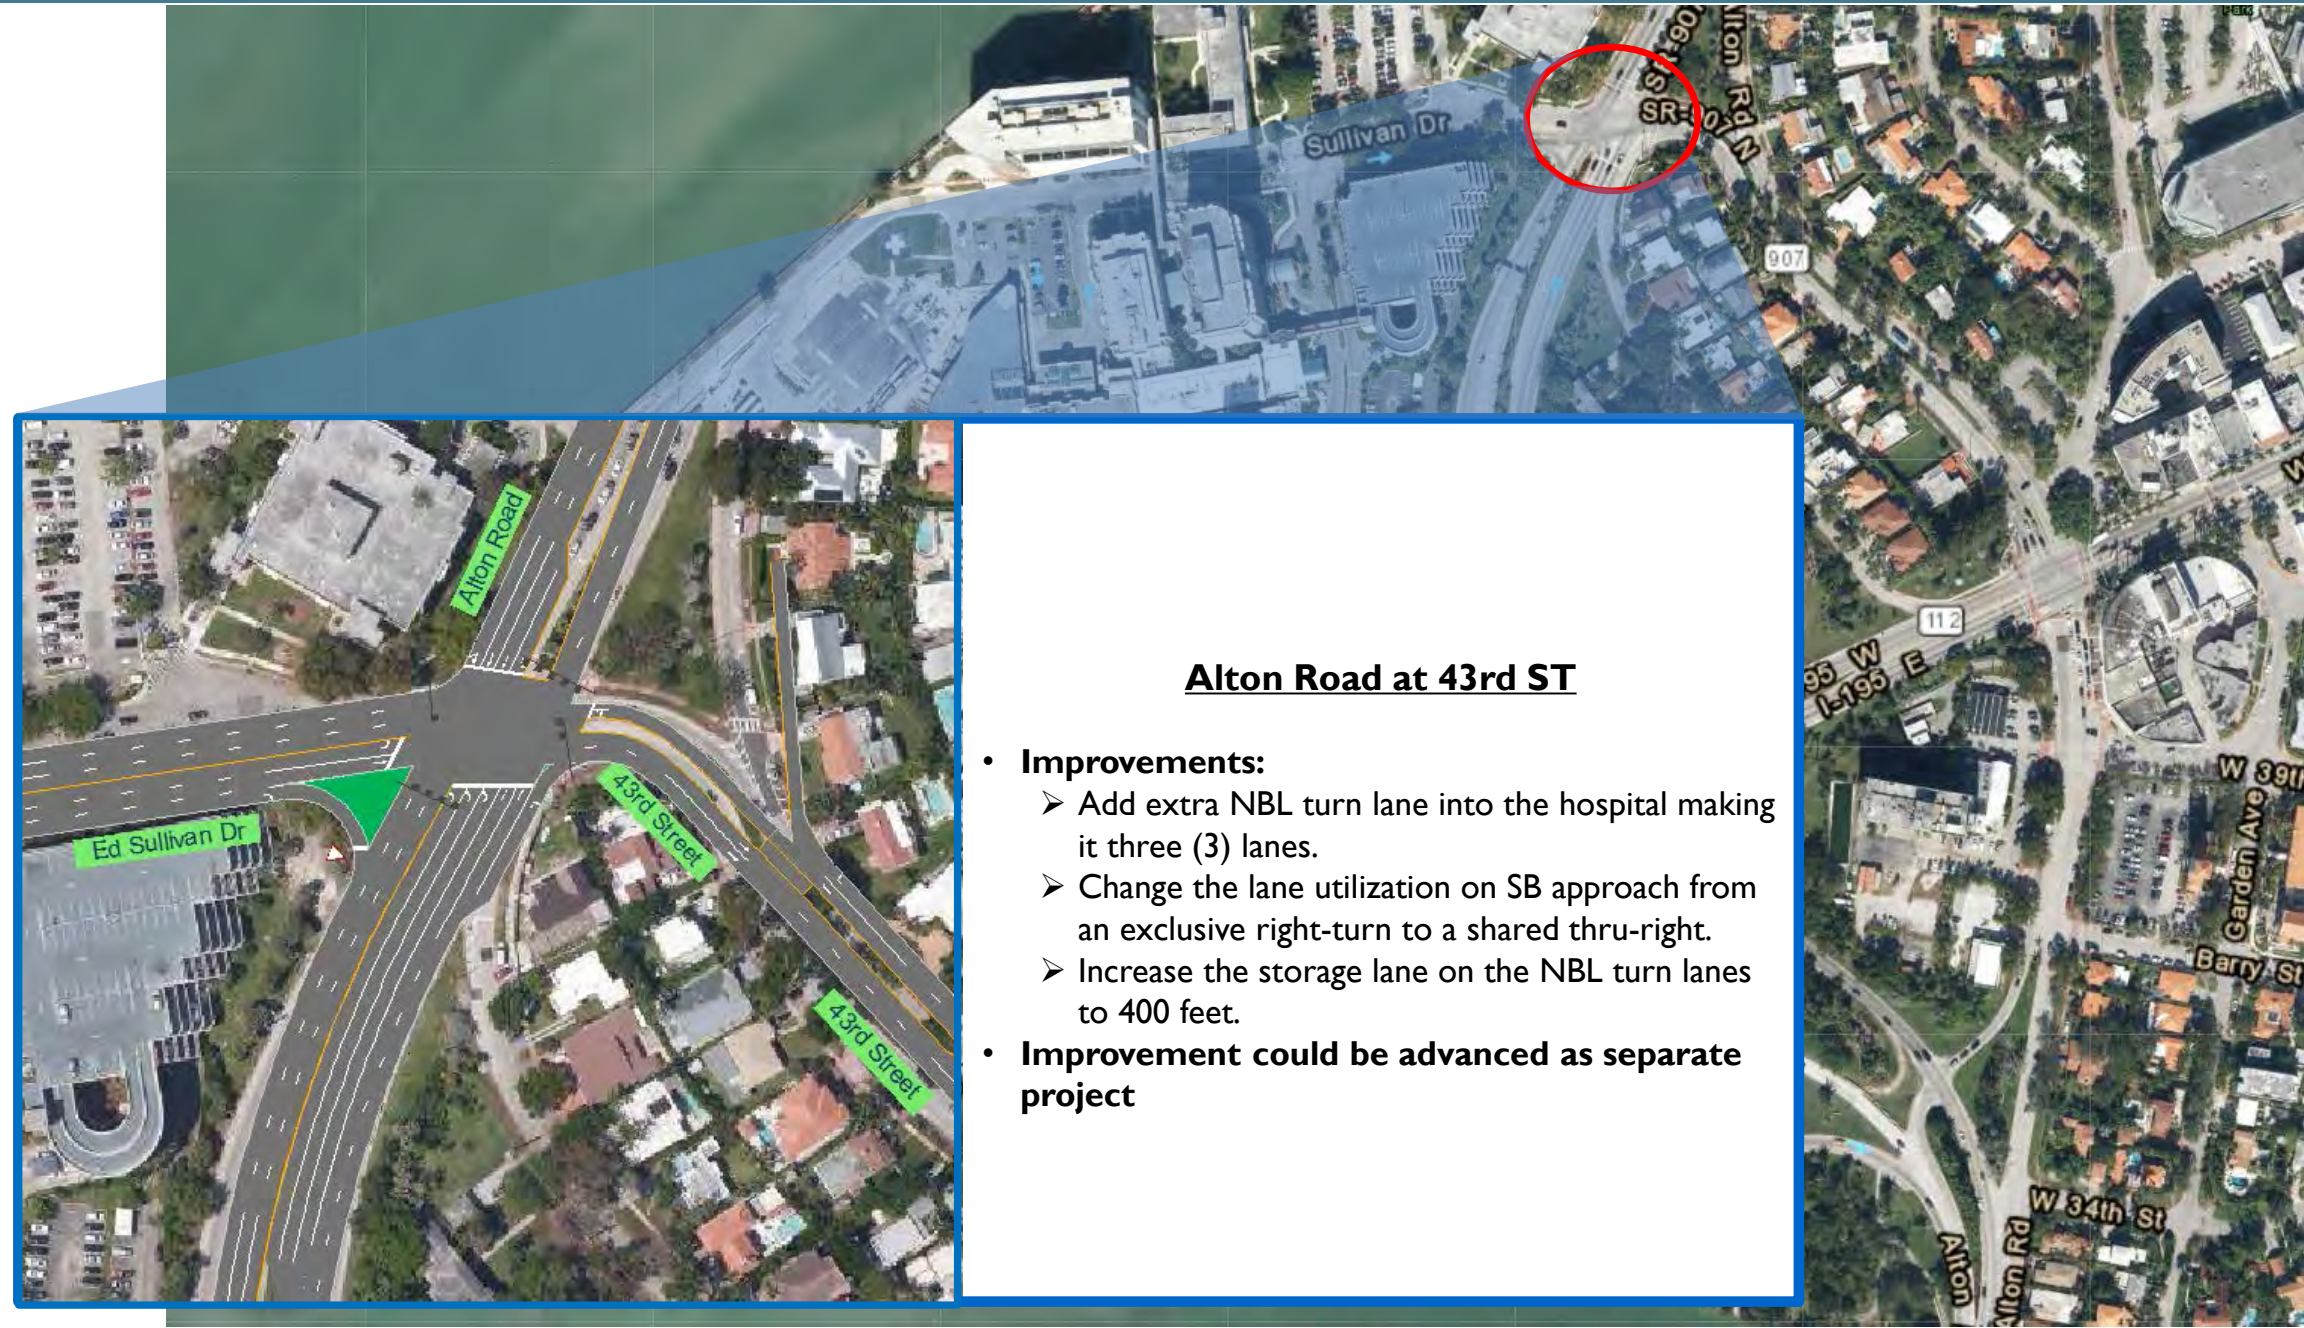

PROPOSED

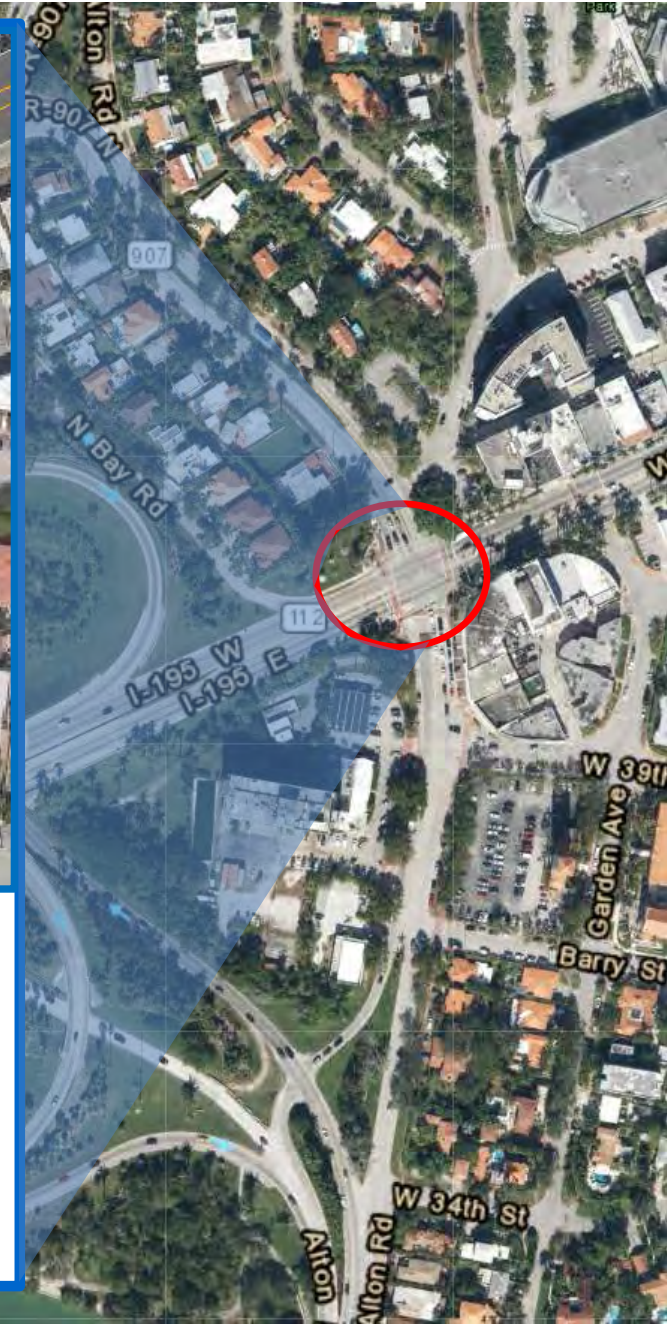

OTHER INTERSECTION IMPROVEMENTS (MIAMI BEACH)

Alton Road at 43rd ST

- **Improvements:**
 - Add extra NBL turn lane into the hospital making it three (3) lanes.
 - Change the lane utilization on SB approach from an exclusive right-turn to a shared thru-right.
 - Increase the storage lane on the NBL turn lanes to 400 feet.
- **Improvement could be advanced as separate project**

Alton Road at 41st / Arthur Godfrey Rd

- **Improvements:**

- Add exclusive through lane coming from I-195 EB which will become an exclusive right-turn lane.
- Modify SBR turn signal operation from permitted to permitted overlap.
- Optimize signal timing split

- **Improvement is tied to Base Improvement #6)**

OTHER INTERSECTION IMPROVEMENTS (NB Alton Rd at WB Alton Rd/Unnamed Rd)

NB Alton Rd at WB Alton Rd/Unnamed Rd

- **Propose traffic signal to replace existing stop-control on WB Approach of minor street**
 - No modifications proposed to intersection lane geometry
 - Benefit mainly to WB minor street operations which currently experiences excessive delay
- **Improvement could be advanced as separate project (Base Improvement #7)**

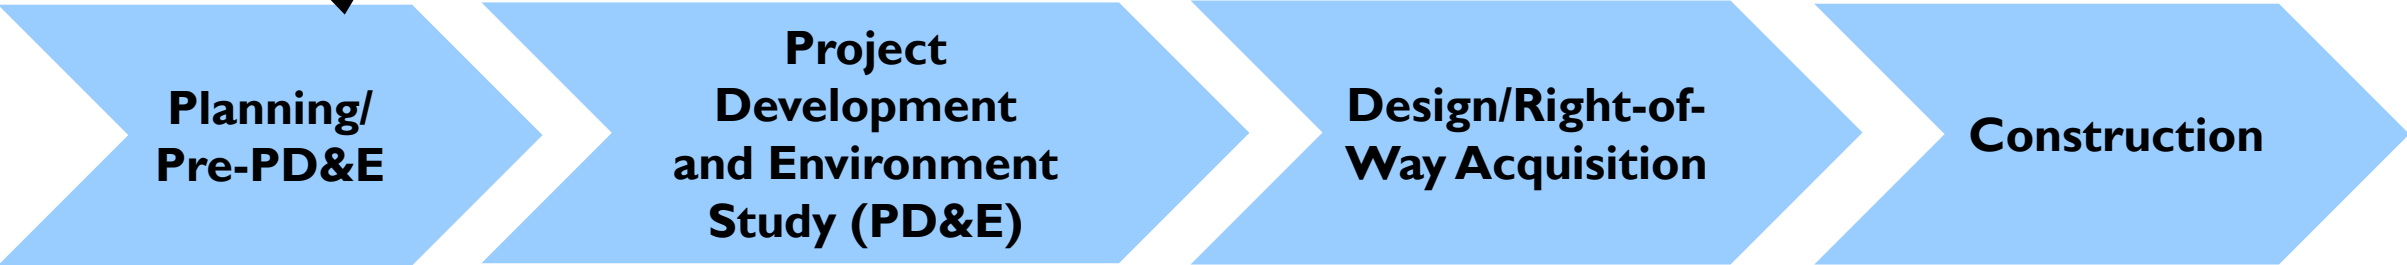

CONSTRUCTION COST ESTIMATES & POTENTIAL ROW IMPACTS

Improvement Type	Improvement/Intersection	Construction Cost Estimate	Potential Right-of-Way (ROW) Impact
System	Alternative 3 with Viaduct	\$ 430,000,000	Approximately 25,000 square feet
Shared Use Path	Alternative A (Separate Bridge)	\$ 41,600,000	No ROW impacts
Base Improvements	1. SR 112 WB widening to provide 2 lanes	\$ 550,000	No ROW impacts
	2. SR 112 / I-195 EB widening to provide 2 lanes	\$ 3,800,000	
	3. Partial Signalization at I-195 EB Off-Ramp to NE 36th Street	\$ 1,100,000	
	4. I-195 EB On-Ramp from NE 36th Street parallel entrance widening	\$ 450,000	
	5. I-195 WB to Biscayne Blvd off-ramp – widen to 2 lanes	\$ 3,600,000	
	6. I-195 EB widening to Alton Road Ramp	\$ 5,400,000	
	7. New traffic signal at Intersection of NB and SB Alton Road	\$ 350,000	
	8. I-195 WB CD from Alton Road	\$ 12,900,000	
Other Intersection Improvements	NW 39th Street at NW 10th Avenue	\$ 300,000	No ROW impacts
	NE 36th Street at N Miami Avenue	\$ 1,100,000	Medium ROW impacts to SW and SE corners
	I-195 EB Off-Ramp to N Miami Avenue	\$ 1,200,000	Low ROW impact to SW corner, it might need widening of bridge along I-195
	I-195 WB On-Ramp at N Miami Avenue	\$ 1,000,000	High ROW impact on the NW, NE and SE corners, it might need widening of bridge along I-195
	NE 36th Street at NE 1st Avenue	\$ 300,000	No ROW impacts
	NE 36th Street at Federal Hwy & NE 2nd Avenue	\$ 1,300,000	Heavy ROW impacts to the SE corner and Low impact on SW corner
	US-1 at NE 36th Street	\$ 1,100,000	Medium ROW impacts to NE corner and Low impact to NW corner
	US-1 at NE 38th Street	\$ 4,200,000	High ROW impact to SE corner
	Alton Road at Arthur Godfrey Road	\$ 450,000	Low ROW impact to SW corner
	Alton Road at 43rd Street	\$ 900,000	Low ROW impact to SW corner
Total Construction Costs		\$ 511,600,000	

FDOT PROJECT DEVELOPMENT PROCESS

We're Here

Develop initial concepts, estimate costs/impacts, and inform public

Refine concepts, engage public, define costs/impacts, complete environmental analysis, and identify final concept

Prepare surveys, design plans & right of-way plan, and engage public

Phased implementation, maintenance of traffic, and public outreach

Planning Study
Completion Date:
June 2020

IMPLEMENTATION STEPS, PHASING & PRIORITIZATION

Improvement Type	Improvement/Intersection	Prioritization	IAR	PD&E	Design/ ROW	Construction	Comments
System	Alternative 3 with Viaduct	Long-term	√	√	√	√	
Shared Use Path	Alternative A (Separate Bridge)	Mid-term		√	√	√	Keep as one PD&E with Alternative 3. Could be advanced as separate project after PD&E
Base Improvements	1. SR 112 WB widening to provide 2 lanes	Mid-term		√	√	√	Keep as one PD&E with Alternative 3. Could be advanced as separate project after PD&E
	2. SR 112/I-195 EB widening to provide 2 lanes	Mid-term		√	√	√	Keep as one PD&E with Alternative 3. Could be advanced as separate project after PD&E
	3. Partial Signalization at I-195 EB Off-Ramp to NE 36th Street	Mid-term	√		√	√	Could be advanced as separate project after IOAR
	4. I-195 On-Ramp from NE 36th Street parallel entrance widening	Mid-term		√	√	√	Keep as one PD&E with Alternative 3. Could be advanced as separate project after PD&E
	5. I-195 WB to Biscayne Blvd off-ramp – widen to 2 lanes	Mid-term		√	√	√	Keep as one PD&E with Alternative 3. Could be advanced as separate project after PD&E
	6. I-195 EB widening to Alton Road Ramp	Mid-term		√	√	√	Keep as one PD&E with Alternative 3. Could be advanced as separate project after PD&E
	7. New traffic signal at Intersection of NB and SB Alton Road	Short-term			√	√	
	8. I-195 WB CD from Alton Road	Long-term	√	√	√	√	Keep as one PD&E with Alternative 3. Could be advanced as separate project after PD&E
Other Intersection Improvements	NW 39th Street at NW 10th Avenue	Short-term			√	√	
	NE 36th Street at N Miami Avenue	Long-term		√	√	√	These improvements are tied to the system alternative 3 as part of the modification of the partial interchange at N Miami Avenue to a full
	I-195 EB Off-Ramp to N Miami Avenue	Long-term	√	√	√	√	
	I-195 WB On-Ramp at N Miami Avenue	Long-term	√	√	√	√	
	NE 36th Street at NE 1st Avenue	Short-term			√	√	
	NE 36th Street at Federal Hwy & NE 2nd Avenue	Short-term			√	√	
	US-1 at NE 36th Street	Short-term			√	√	
	US-1 at NE 38th Street	Short-term			√	√	
	Alton Road at Arthur Godfrey Road	Mid-term		√	√	√	Tied to Base Improvement #6
Alton Road at 43rd Street	Short-term			√	√		

CLOSING & NEXT STEPS

- **Final Report Completion, end of June 2020:**
 - Project Purpose and Need
 - Stakeholder Coordination
 - Performance Measures
 - Existing Conditions
 - Future No-Build Conditions
 - Concept Development & Evaluation
 - Refined Concept Build Review
 - Implementation Phasing & Prioritization
 - Conclusions & Recommendations
- **I-195 / SR 112 PD&E Study – 2021 Tentative**

I-195 Corridor Planning Study Project Advisory Team Meeting No. 4

Date: Wednesday, June 3, 2020
Time: 10 a.m.- Noon
Call-In: Microsoft Teams Meeting: (786) 636-1440
Access Code 413181843#
Attendees: See Sign-In Sheets at the end of this document

I. Overview

The I-195/State Road (SR) 112 Corridor Planning Study Project Advisory Team (PAT) Meeting No. 4 was conducted as a Microsoft Teams Meeting on Wednesday, June 3, 2020, at 10 a.m. The Florida Department of Transportation (FDOT) Project Manager, Shereen Yee Fong, welcomed meeting attendees and then asked Public Involvement Officer Charesse Chester to conduct a roll call. Consultant Deputy Project Manager, Lorin Brissett, P.E., opened with a recap of previous PAT meeting discussions before discussing the team's progress on the study. Dan Hardy, P.E., a member of the consultant team, presented the results of the Tier 2 Performance Measures evaluation.

Mr. Brissett's complete presentation is attached to the meeting summary.

Number of participants: 18: eight (8) PAT members: Arlene Davis-Walcott (South Florida Regional Planning Council); Christina Miskis (South Florida Regional Planning Council); Collin Worth (City of Miami); José González, P.E. (City of Miami Beach); Kevin C. Walford (Miami-Dade Transportation Planning Organization); Miguel Soria (Miami-Dade County Department of Transportation and Public Works); Ytve Guerrero (Miami-Dade Expressway Authority); and Vinod Sandanasamy (Miami-Dade County Planning).

Study Team (10 members): District Six Transportation Planning Manager Ken Jeffries (FDOT), Project Manager Shereen Yee Fong (FDOT), Consultant Project Manager Jose Munoz (BCC Engineering), Deputy Project Manager Lorin Brissett, P.E. (BCC Engineering), Michelle Rossi (BCC Engineering), Revanth Katta (BCC Engineering), Sudheer Chinta (BCC Engineering), Dan Hardy (Renaissance Planning), PIO Charesse Chester (Creativision MEDIA) and Deputy PIO Natacha Placide (Creativision MEDIA).

II. Meeting Presentation covered the following topics:

- Study Area & Background Review
- Study Focus Areas Review
- Project Purpose and Need Review
- Project Scope & Status of Stakeholder Activities
- Texas U-Turn Concept Update
- Concept Development & Evaluation Update
- Refined Build Alternative
- FDOT Project Development Process
- Implementation Steps, Phasing & Prioritization

Dan Hardy noted the following as a part of the Tier 2 Review update:

- Alternative 3 will have the most significant operational and capacity benefits
- Improvements that increase overall operating speeds make the corridor more attractive
- Concerns expressed by some attendees of the Public Workshop about what they deem a misguided focus of building facilities to increase traffic speed
- Proposed improvements will take traffic off parallel causeways (Venetian and MacArthur Causeway) by making Julia Tuttle Causeway marginally more attractive.
- All alternatives will support the Bus on Shoulder (BOS) project to facilitate express bus service.
- Opportunities for public art are available.

III. Open Discussion Highlights:

Key discussion points are summarized below:

Collin Worth (City of Miami) asked how the proposed ramp terminal improvements at the intersection with SR 5/US 1/Biscayne Boulevard at NE 38th Street will impact pedestrian safety at crossing SR 5/US 1/Biscayne Boulevard. He opined there could be a lot of concern about that modification from the residents.

Lorin Brissett, P.E. (BCC Engineering) noted a separate pedestrian phase could be introduced to the traffic signal operations that would allow pedestrians to cross when vehicular traffic is stopped. However, it will require further input from the stakeholders including the Miami-Dade Department of Transportation and Public Works and the City of Miami to address the operation. He also cited a request from State Senator Jason Pizzo and his constituent for FDOT to consider a more radical type of improvement with grade separation from southbound SR 5/US 1/ Biscayne Boulevard, connecting with I-195 to head east and westbound to address the congestion in this area. He mentioned the proposed improvement would be less intrusive than the type being requested by the State senator.

Collin Worth (City of Miami) asked if the potential allocation of the area south of NE 38th Street, between the on-ramp and Biscayne Blvd. are being considered.

Lorin Brissett, P.E. (BCC Engineering) instructed there's a limitation due to the bridge piers underneath. However, this would have to be further evaluated in the PD&E phase of the project.

Collin Worth (City of Miami) stated that the Miami-Dade County Highway Division has plans to modify the intersection of NE 2nd Avenue, NE 36th Street, and N Federal Highway. There would be no southbound traffic coming from NE 2nd Avenue continuing onto NE 2nd Avenue on N Federal Highway at NE 36th Street. This study proposes 2 lanes going south and southeast on NE 2nd Avenue and that northbound traffic on this intersection leg would be prohibited in the near future. He advised that the improvements being proposed at this intersection should be coordinated with the County to make sure what is being proposed will work for the County's future plans for the area. The County's plan proposes diverting NE 2nd Avenue to the N Federal Highway. The southbound to westbound movement is the only movement that will exist in the future.

Collin Worth (City of Miami) stated that N Miami Avenue between NE 36 Street and NE 38 Street is quite congested right now. Adding any additional legs to the ramp terminal intersections will create more chaos. Is there a way to divert people to NE First Avenue before they get on to N Miami Avenue?

Collin Worth (City of Miami) asked if the proposed alternative would add an on/off ramp at NW 2nd Avenue bringing traffic into the Buena Vista neighborhood. The residents have expressed their concerns about cut-through traffic.

Lorin Brissett, P.E. (BCC Engineering) responded by advising that exit ramps are not being proposed rather the lanes will connect to a viaduct.

Collin Worth (City of Miami) stated that the separated bicycle/pedestrian at the west end of the shared use path seems extremely high. He then asked if emergency vehicles will be able to access the bicycle/pedestrian facility.

Lorin Brissett, P.E. (BCC Engineering) responded the bicycle/pedestrian facility will be separate structures on both sides. Emergency vehicles will have to go back further to the entrance points to access the path in this area because of the separation.

Ytve Guerrero (Miami-Dade Expressway Authority) asked if the viaduct will remove some traffic from the lower level of I-195. She stated that due to the lower volume on the lower level, there was the possibility the speeds could increase in the weaving segments between the new ramps at N Miami Avenue and the existing ramps at Biscayne Boulevard creating safety concerns.

Lorin Brissett, P.E. (BCC Engineering) stated that at least 50% of traffic headed to Miami Beach from the I-95 General Use lanes was expected to be taken off the lower level, lessening on those lanes demand and improving mobility.

Ytve Guerra (Miami-Dade Expressway Authority) asked if the viaduct will take the I-95 traffic directly to Miami Beach, no ingress/egress. Traffic from general-purpose and I-95 will be able to access the viaduct.

Lorin Brissett, P.E. (BCC Engineering) confirmed the proposed movements.

Miguel Soria (Miami-Dade County DTPW) advised of the County's two projects managed by Alejandro Saulea: NE 2 Avenue and NE 36 Street and between NE 20 Street and NE 36 Street. Mr. Soria asked why the proposal is to install a separated bike/pedestrian facility instead of protected bike lanes.

Lorin Brissett, P.E. (BCC Engineering) stated that installing the facility into the existing structure limits flexibility especially when crossing over to the other side of the Julia Tuttle Causeway.

IV. Action Items:

The PowerPoint presentation will be made available to all the PAT members.

V. End of Meeting Summary

This meeting summary is not a word-for-word transcript but is a summary of the comments. If you feel that clarifications are necessary, or if this differs from your understanding, please notify Charesse Chester, Public Information Specialist by telephone at 305-944-7564 or by email at cchester@creativisionmedia.com within five (5) working days upon receipt of this summary.

STUDY CORRIDOR & BACKGROUND

- SR 112/195 5-Mile Corridor from NW 12th Avenue to Alton Road on Miami-Beach
- Limited access facility connecting MIA and Miami Beach
- Carries average 130,000 vehicles per day – Total both directions
- Provides access to several high growth neighborhoods
- Continued growth expected to increase demand exacerbating access issues

STUDY OBJECTIVES

- Evaluate Existing Conditions
- Identify Needs and Deficiencies
- Through intergovernmental coordination, develop recommendations that can:
 - Go directly into design for implementation
 - Transition directly in the PD&E (NEPA) process

FOCUS AREAS

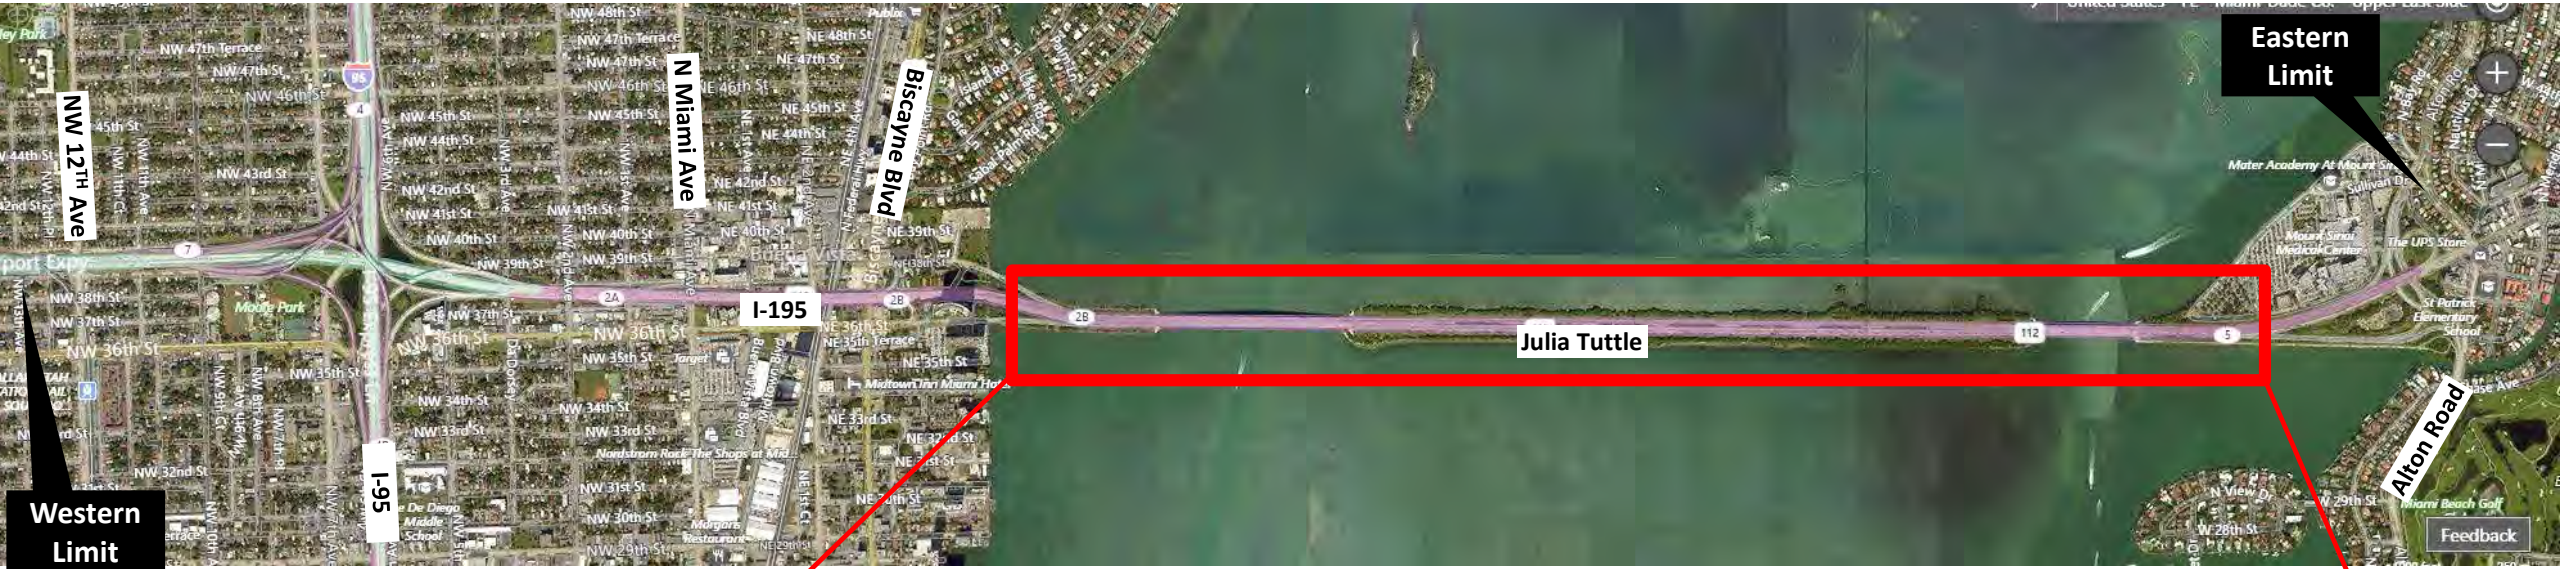

FOCUS AREA (Direct Connection to 95 Express Lanes)

FOCUS AREA (Improve Design District Interchange Access)

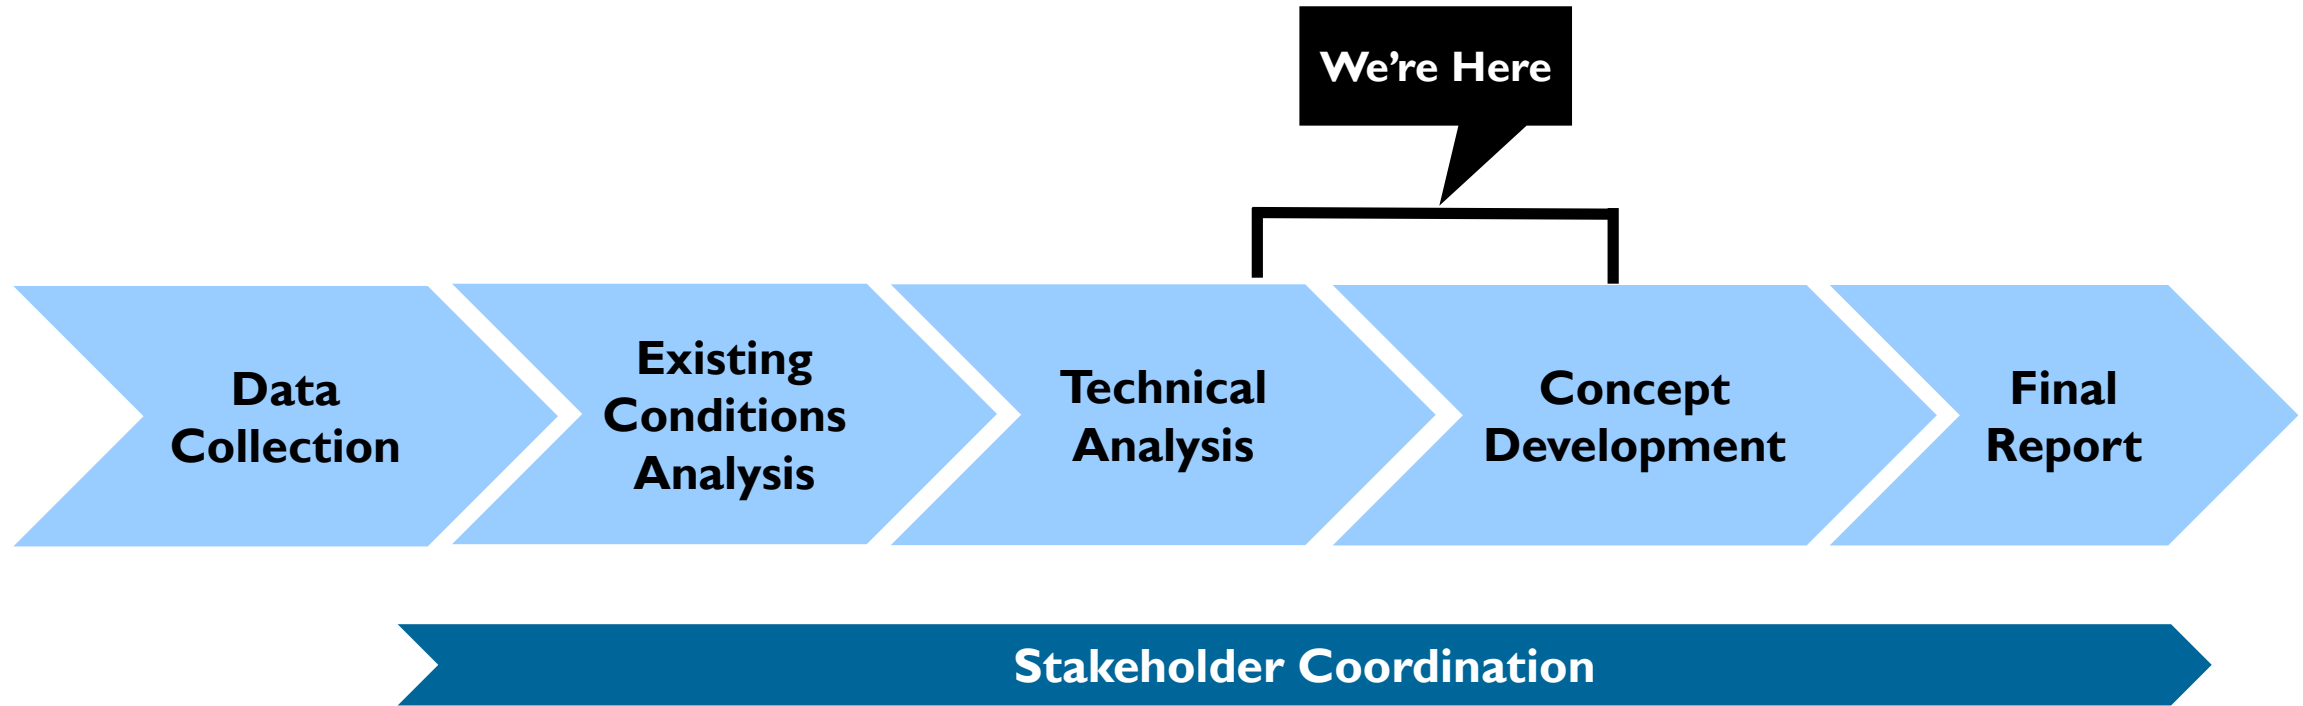

FOCUS AREA (Improve Bicycle Access on Causeway)

FOCUS AREA (Improve Alton Road Interchange Area)

PROJECT SCOPE - OVERVIEW

STAKEHOLDER COORDINATION - ONGOING

Project Advisory Team Meeting #1 - 5/23/18

- **4 PAT Meetings, (2 Down and 2 More to Go)**
- **Past Meetings:**
 - Miami Beach Chamber of Commerce
 - Dacra / Design District
 - Biscayne Neighbors Association
- **Upcoming Meetings:**
 - Public Workshops
 - City Commission Meetings
 - One-on-One Meetings with Elected Officials as Needed

NO – BUILD ALTERNATIVE

- Serves as the benchmark to which all Build alternatives are compared
- Includes planned or programmed improvements assumed to be in place prior to completion of Build Alternatives
- Planned / Programmed Projects assumed:
 - SR 907/Alton Road to westbound SR 112/I-195/Julia Tuttle Causeway acceleration lane improvement;
 - Golden Glades Interchange (GGI) Enhancement Project;
 - Julia Tuttle BOS Lanes; and
 - I-95 Express Lanes Capacity Improvements (recommended from I-95 CPS).

TIER 1 CONCEPTS

TIER 1 CONCEPT DEVELOPMENT

- **Approach**
 - **Scope Driven**
 - **Operational and Safety Driven**
 - **Stakeholder Driven**
- **Challenges**
 - **Express Lanes Access (who?, what?, and where?)**
 - **Right-Of-Way Constraints**
 - **Highly Built up Area**
 - **High Density land uses abutting corridor**
 - **Bike / Pedestrian access in urban environment**
 - **Likely Requires Full Reconstruction and/or Bridge Replacements**

BASE IMPROVEMENTS

- **Improvement 1 - Construct second SR-112 WB lane to eliminate single lane bottleneck within the I-95 interchange area**
- **Improvement 2 - Construct second I-195 EB lane to eliminate single lane bottleneck within the I-95 interchange area**
- **Improvement 3 - Construct roundabout at NE 36th Street and the I-195 eastbound to Biscayne Boulevard off-ramp.**
- **Improvement 4 - Lengthen taper for acceleration lane for the on ramp from Biscayne Boulevard to I-195 eastbound**
- **Improvement 5 - Provide a two-lane exit from I-195 WB to Biscayne Boulevard increasing the capacity of the off-ramp**
- **Improvement 6 - Widen existing Julia Tuttle Causeway in the EB direction from just west of diverge area for off-ramp to Alton Rd to intersection with Arthur Godfrey Rd and Alton Rd.**

SYSTEM IMPROVEMENTS

- **Alternative 1 - Texas U-Turn Connections to/from 95 Express Lanes**
- **Alternative 2 - Direct Connections to 95 Express Lane**
- **Alternative 3 - Direct Connections to 95 Express Lanes with Viaduct on I-195**
- **Alternative 4 - Direct Connections to 95 Express Lanes with Viaduct on I-195 (I-95/Miami Beach)**

BICYCLE / PEDESTRIAN IMPROVEMENTS

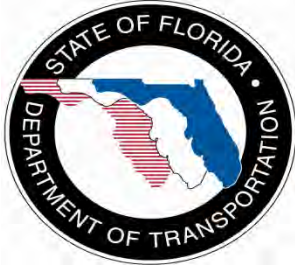

- **Alternative A - 14' Shared Path With Bridge Structures On One Side Of Julia Tuttle Causeway**
- **Alternative B - 12' Shared Use Path With Widening Of Existing Causeway Bridges On North And South Sides**

NEXT STEPS

- **Present Evaluation of Tier 1 Concepts to PAT (Meeting # 3 – October 9, 2019)**
- **Conduct Workshops for Community and Stakeholders**
- **Finalize Tier 2 Evaluation and Develop Recommended Alternatives**
- **Present Final Recommendations to PAT Meeting #4 (Final Recommendations)**
- **Prepare Final Report**
- **Project is Candidate for PD&E in 2021**

QUESTIONS ?

Florida Department of Transportation District Six

Elected or Public Official Meeting Follow-up Summary

FORM SHOULD BE COMPLETED AND SENT BY E-MAIL TO DISTRICT SECRETARY, DIRECTORS AND PUBLIC INFORMATION OFFICER. IT SHOULD BE SUBMITTED THE SAME DAY OF THE MEETING (OR AT LATEST THE FOLLOWING MORNING).

Purpose of meeting:

The Interstate 195 Corridor Planning Study (CPS) Briefing - City of Miami Beach Mayor Dan Gelber

Date/Time/Location of meeting:

Friday, September 27, 2019 at 9 a.m.

City of Miami Beach City Hall, 1700 Convention Center Drive, 4th Floor, Miami Beach, FL 33139

Elected or Public Official attendees:

Miami Beach Staff: Michele Burger (Chief of Staff), Jose Gonzalez (Transportation Director), Lynda Westin (Transportation Manager), and Adrian Chamberlin

Other attendees:

FDOT District Six Staff: Kenneth Jeffries, District Six Transportation Planning Manager
FDOT Consultants: Lorin Brissett, Deputy Project Manager (BCC Engineering)
Charesse Chester, Community Outreach Specialist (Creativision MEDIA)

Media involvement:

None

I-195 CPS key discussion items:

- Mr. Jeffries stated that the study is evaluating new connections to the I-95 express lanes to include Texas U-Turns near NW 10th and 12th Avenues. These improvements may require an environmental justice review to determine the impact to the local community. He mentioned that the timing of implementing the Texas U-Turns is tied to improvements being done near GGI to eliminate the express lanes bottleneck in that area.
- Mr. Brissett stated that improvements along the study corridor within the Midtown area will review converting the half interchange at N Miami Avenue to a full interchange. In addition, improvements at the terminus of the exit ramp to Biscayne Boulevard from I-195 eastbound are being reviewed to allow a more direct access to the high-rise condominiums east of the ramp terminal.
- Mr. Jeffries stated that a separated, off-road bike facility along the Julia Tuttle Causeway is also being looked at as part of the study. The Mayor responded by asking if there is a demand for a bike lane before stating that enforcement would be required. Mr. Gonzalez responded to the Mayor by stating that the bike lane would support the City's electric assist bike program and that it was also in their Master Plan.

- The Mayor brought up the 41st Street project and requested the Department's attendance at the Vision Committee meetings. The City has allocated \$15 million of bond funding to widen sidewalks and eliminate on-street parking. Mr. Jeffries stated the project will need a champion to build consensus among all stakeholder groups.

Other Projects

- Bus Rapid Transit Study – Mr. Jeffries stated that the Department is evaluating the feasibility of operating buses on the inside shoulders along the Julia Tuttle Causeway. It will also require a Memorandum of Understanding (MOU) to define the City of Miami Beach's responsibility and assign a public safety agency to respond to emergencies.
- The Mayor asked FDOT to provide an opinion on the alternatives being considered in the Miami Dade County Department of Transportation & Public Works (DTPW) Beach Corridor Project Development & Environment (PD&E) Study. Mr. Jeffries responded to the Mayor by stating that the Department will review the ridership projections for this study to determine if the projected levels could support the alternatives being considered.

Action items:

- Mr. Gonzalez to send Mr. Jeffries invitation to the next 41 Street Vision Committee Meeting.

Involvement needed from District Secretary or Directors:

I-195 Corridor Planning Study

Mayor Dan Gelber
City of Miami Beach Mayor
Briefing

February 24, 2020

District 6

STUDY AREA & BACKGROUND

- Important Limited Access Facility Connecting Miami International Airport and Miami Beach
- Carries average 130,000 Vehicles Per Day – Total both directions
- Provides Access to Several High Growth Neighborhoods
- Continued Growth Expected to increase demand exacerbating access issues

PROJECT PURPOSE AND NEED

- **Project Purpose:**

To provide multimodal improvements within the I-195 study corridor to address identified mobility and safety needs.

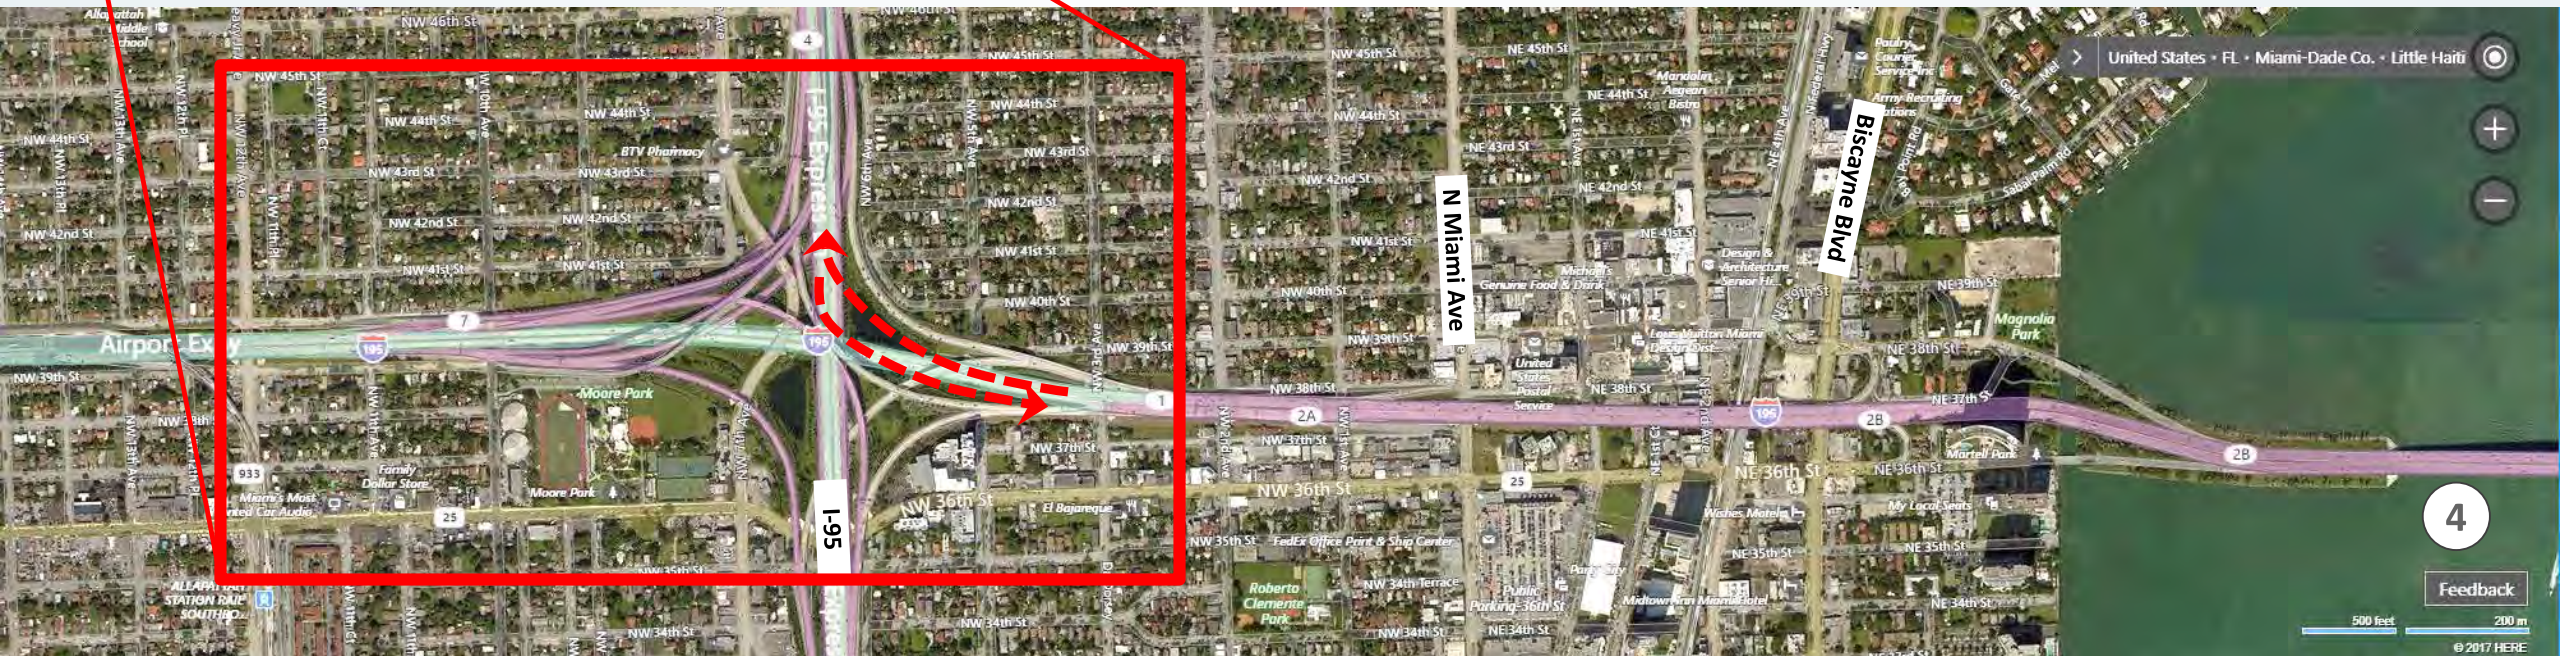

- **Need for:**

- **Better System Linkage including; better access to the I-95 express lanes for areas along I-195 east of I-95; better interchange access; separated bike/ped facility between City of Miami and City of Miami Beach.**
- **Increased transportation capacity to handle future transportation demand.**
- **Improved transportation system to facilitate the interaction of all transportation modes impacting the corridor.**
- **Better safety outcomes for the future.**

FDOT PROJECT DEVELOPMENT PROCESS

We're Here

Develop initial concepts, estimate costs/impacts, and inform public

Refine concepts, engage public, define costs/impacts, complete environmental analysis, and identify final concept

Prepare surveys, design plans & right of-way plan, and engage public

Phased implementation, maintenance of traffic, and public outreach

Planning Study
Completion Date:
June 2020

PD&E Phase
Candidate
2021

Design Phase
Candidate
2024

Phase not
currently
programmed

PROGRAMMED & PLANNED IMPROVEMENTS

- 1) Golden Glades Interchange (North of Study Area) – Design Phase
- 2) Alton Road to Westbound SR 112 On-Ramp (Mt. Sinai) – Design Phase
- 3) Bus on Shoulder Express Bus Service SR 112 – Upcoming Design Phase
- 4) I-95 Improvements – Upcoming PD&E

Tier 1 Concepts

- Identify Improvements
 - Base
 - System
 - Bicycle/pedestrian facilities
- Qualitative Evaluation
- Quantitative Evaluation
- Identify Tier 2 Improvements

Tier 2 Concepts

- Additional Qualitative / Quantitative Evaluations
 - Base
 - System
 - Bicycle/pedestrian facilities
- Identify Recommended Improvements for refinement

Refined Concepts

- Refine Recommended Improvements
 - Base
 - System
 - Bicycle/pedestrian facilities
- Cost / Right-of-Way Evaluation
- Concept Plans

- Three groups of improvements

Base Improvements

- Identified to address operational deficiencies as well as specific local issues raised by stakeholders.

System Improvements

- Address key study objectives relative to improving system linkage, system capacity, accommodating future transportation demand, modal interrelationships, and addressing safety.

Bicycle / Pedestrian Improvements

- Provide improved bicycle/pedestrian connectivity between the City of Miami and Miami Beach via a separated protected facility consistent with the visions of the Miami-Dade Long Range Transportation Plan & the City of Miami Beach Master Plan.

- Eight (8) Base Improvements

- **Three (3) Alternatives:**
 - **Alternative 1 - Direct Connections to 95 Express Lanes**

SYSTEM IMPROVEMENTS

- **Alternative 2 - Direct Connections to 95 Express Lanes with New Viaduct on I-195**

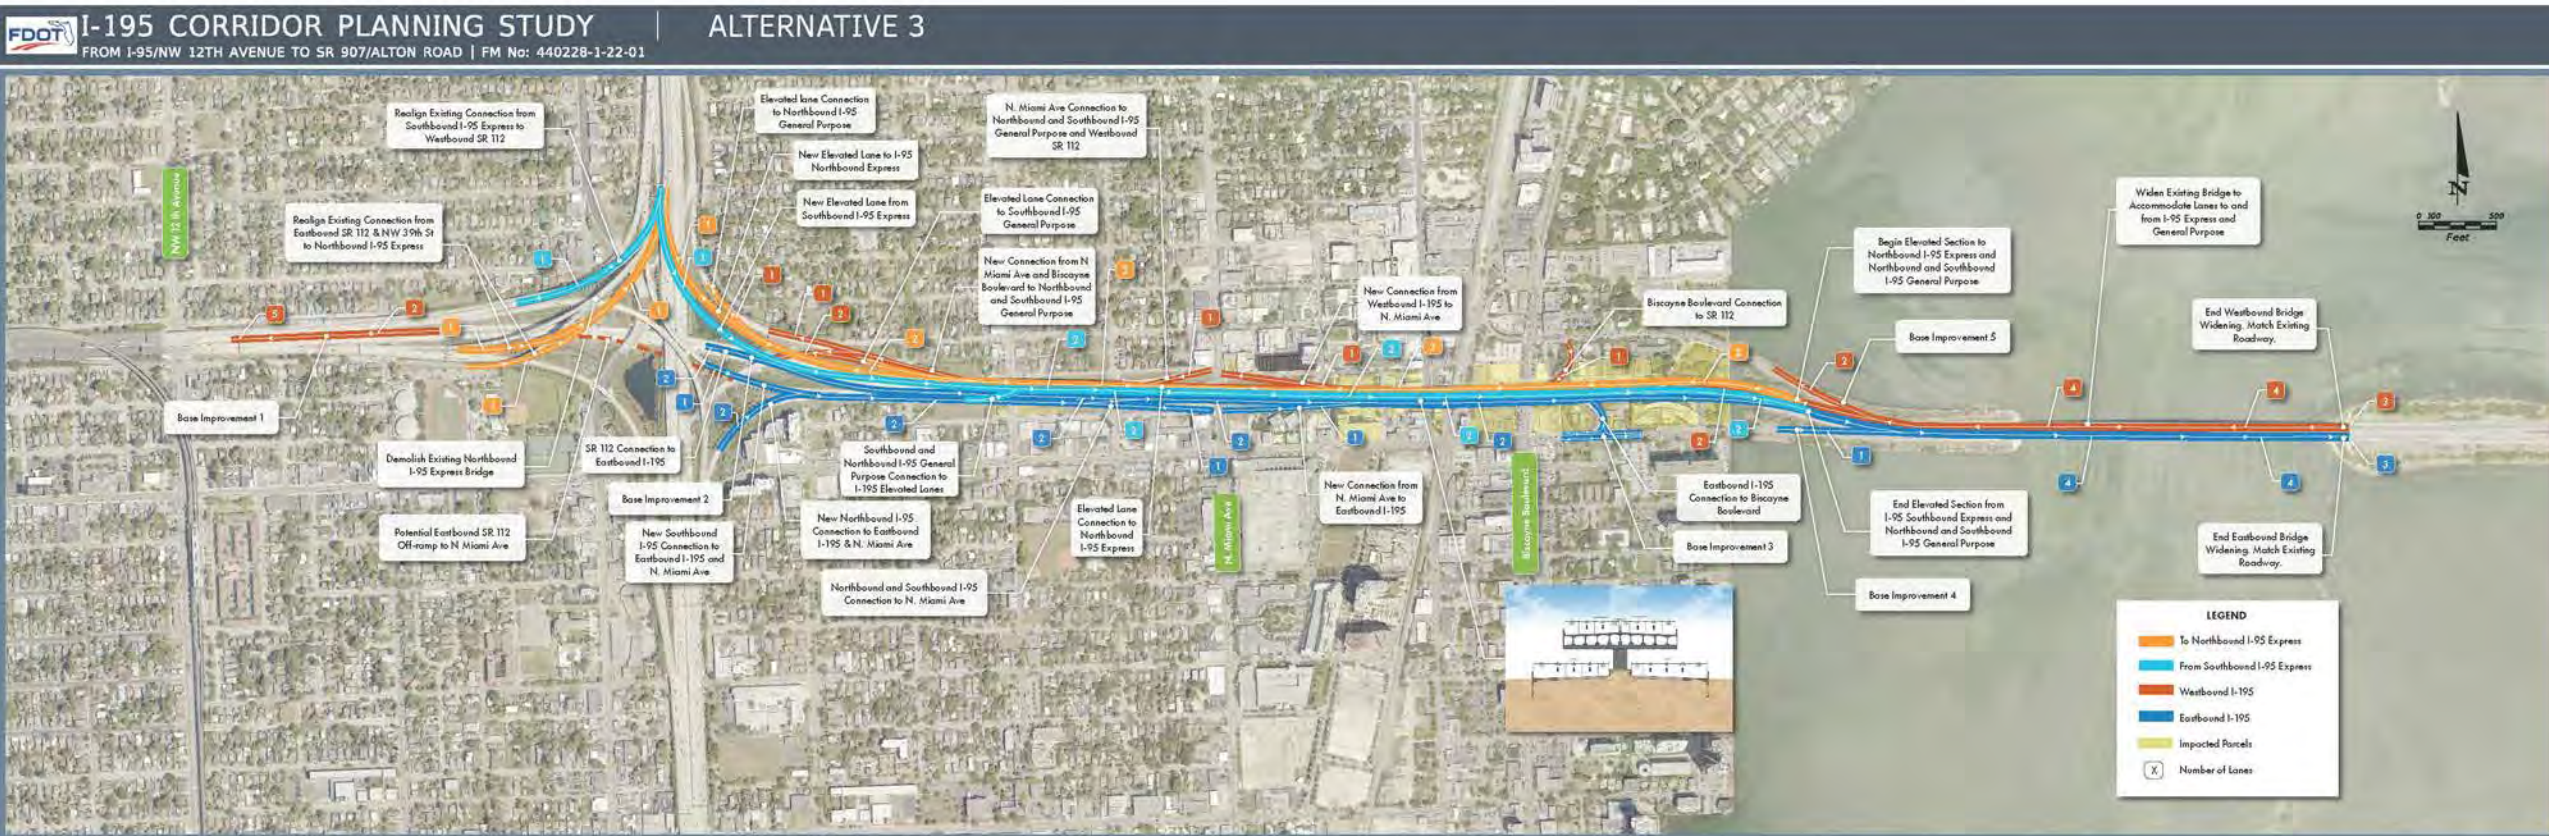

FDOT I-195 CORRIDOR PLANNING STUDY
FROM I-95/NW 12TH AVENUE TO SR 907/ALTON ROAD | FM No: 440228-1-22-01

ALTERNATIVE 2

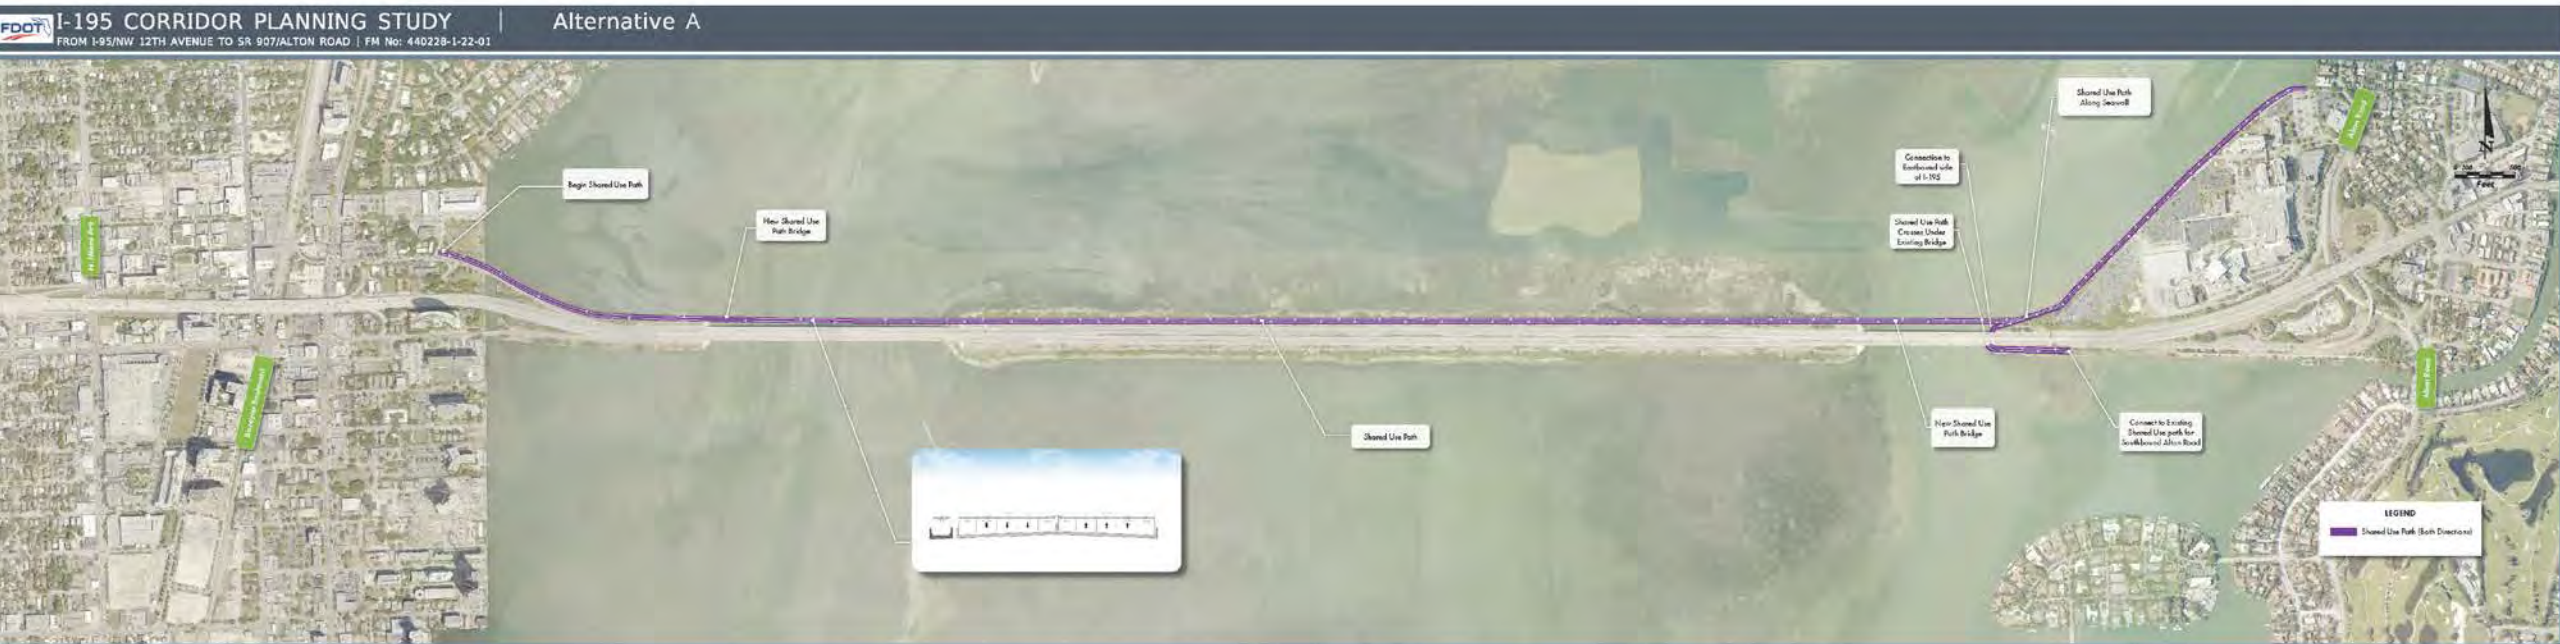

SYSTEM IMPROVEMENTS

- **Alternative 3 - Direct Connections between 95 Express Lanes / I-95 General Use Lanes and New Viaduct on I-195**

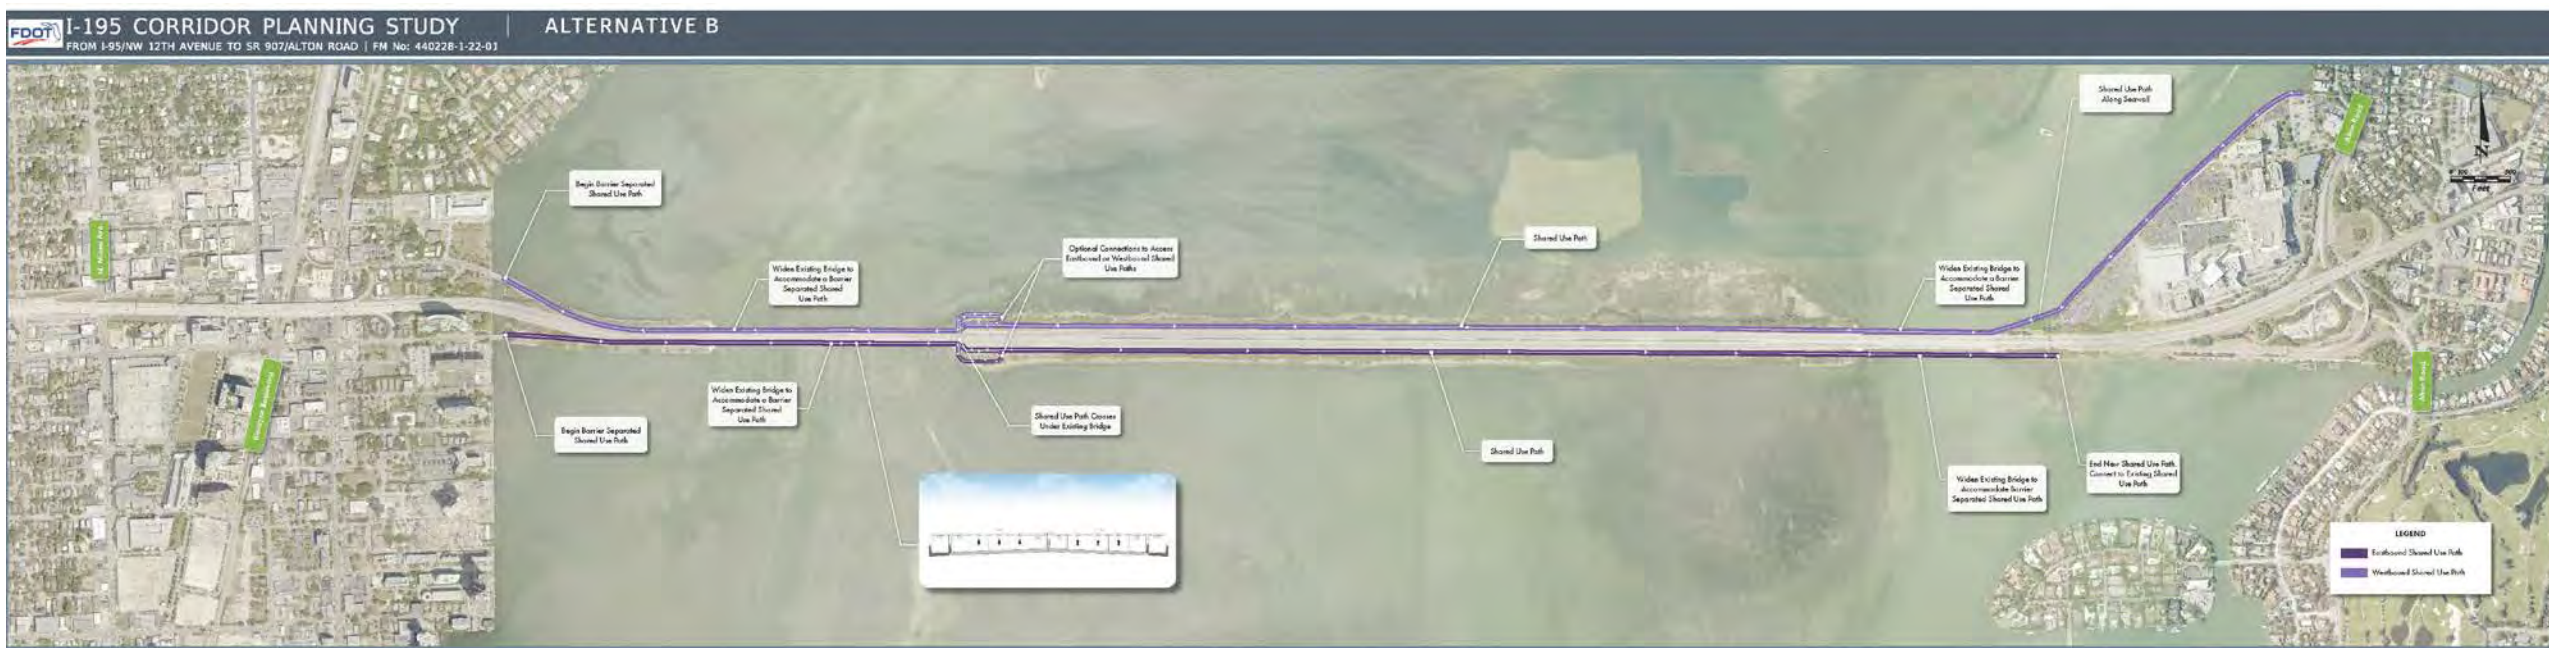

- **Two (2) Alternatives:**

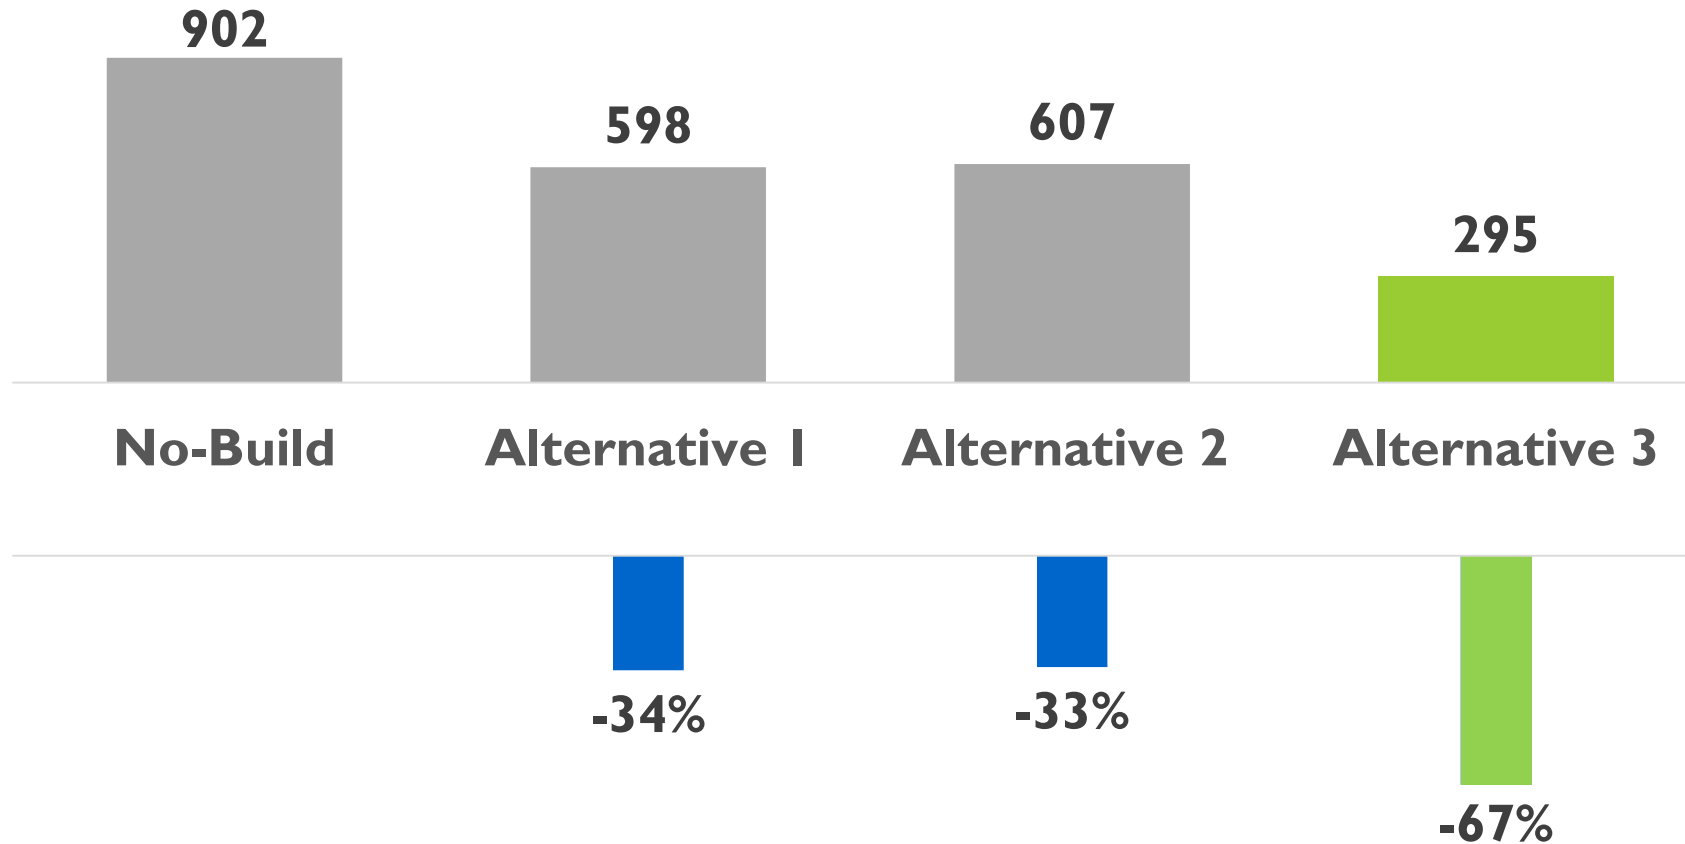

- **Alternative A - 14' Shared use Path With Bridge Structures On One Side Of Julia Tuttle Causeway.**

- **Alternative B - 12' Shared Use Paths With Widening Of Existing Causeway Bridges On North And South Sides.**

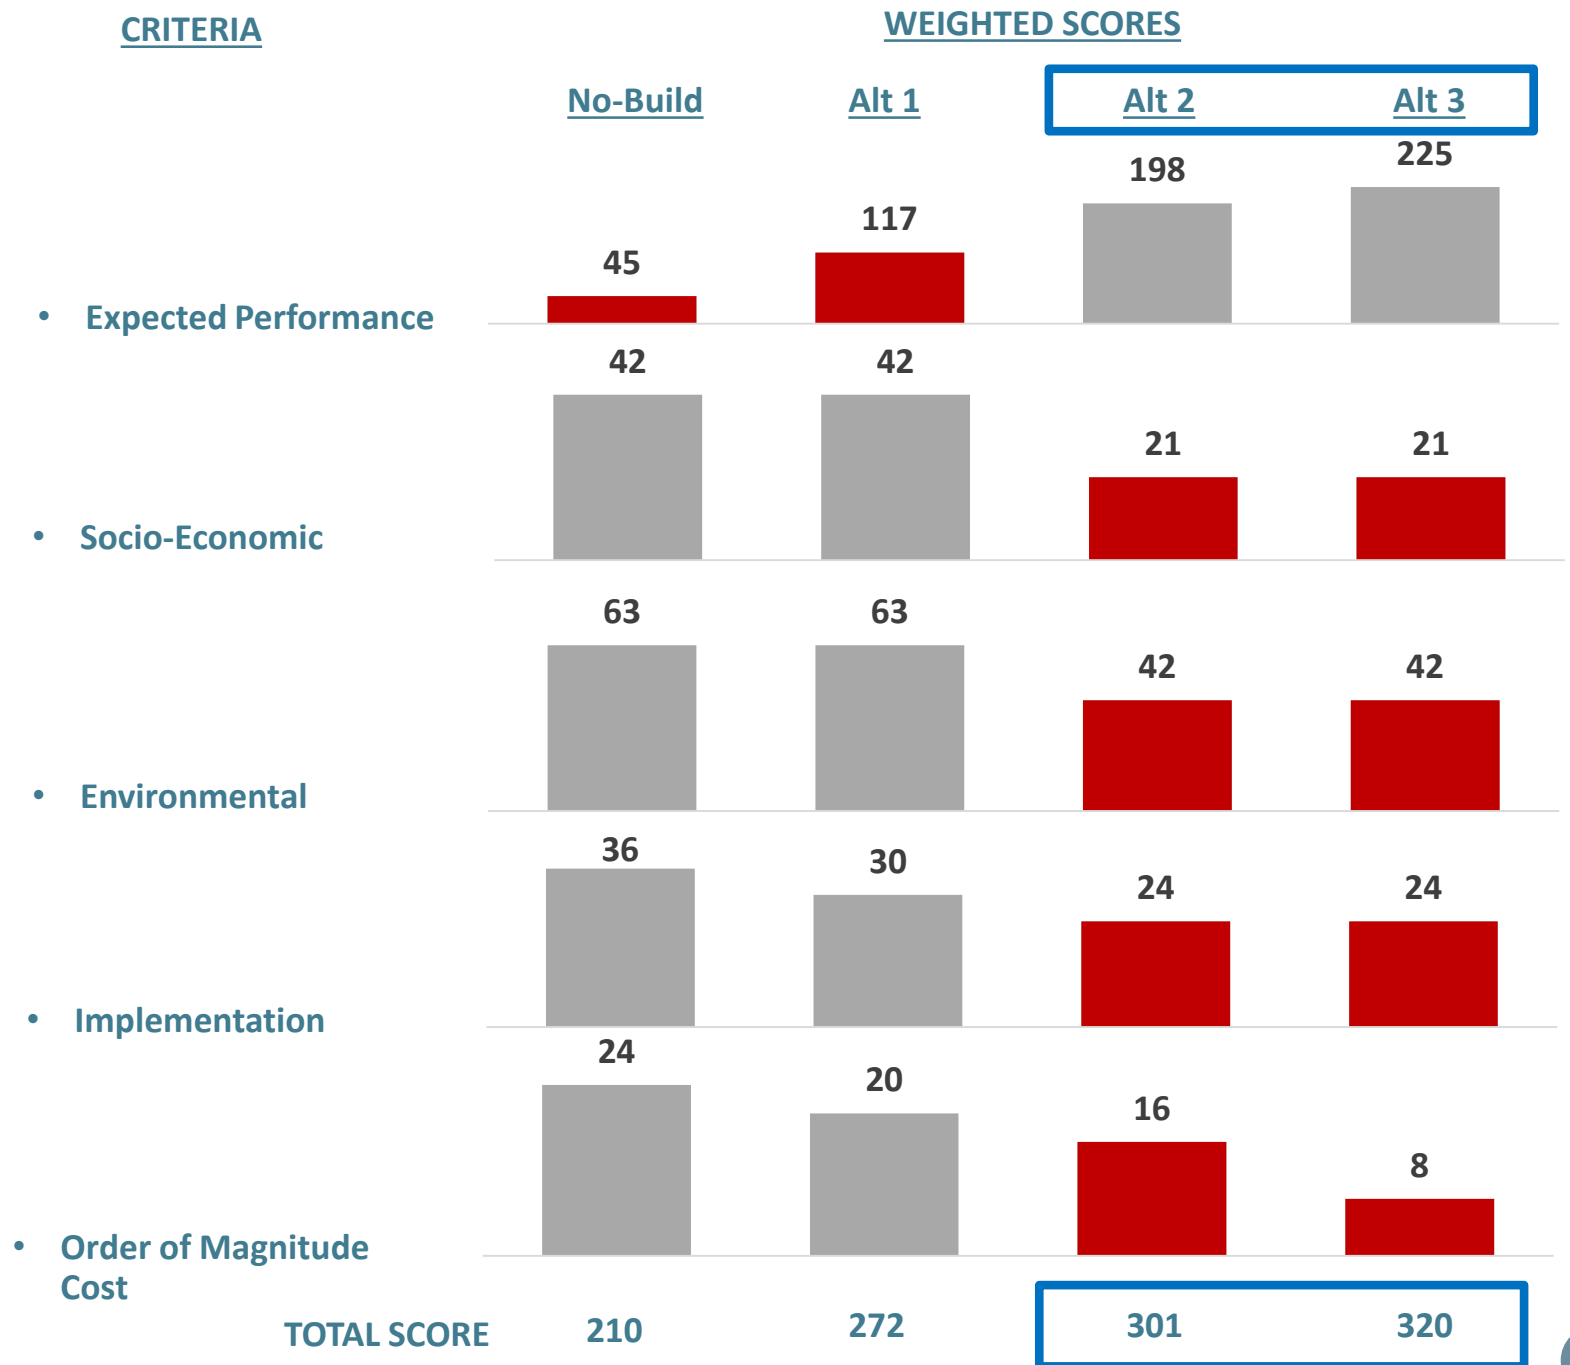

PRELIMINARY SYSTEMS OPERATIONS SUMMARY (VEHICLE HOURS OF DELAY)

- In 2045, No-Build has 902 vehicle hours of delay for AM and PM peak hours combined
- Alternatives 1, and 2 reduce delay by about one-third
- Alternative 3 reduces delay by about two-thirds

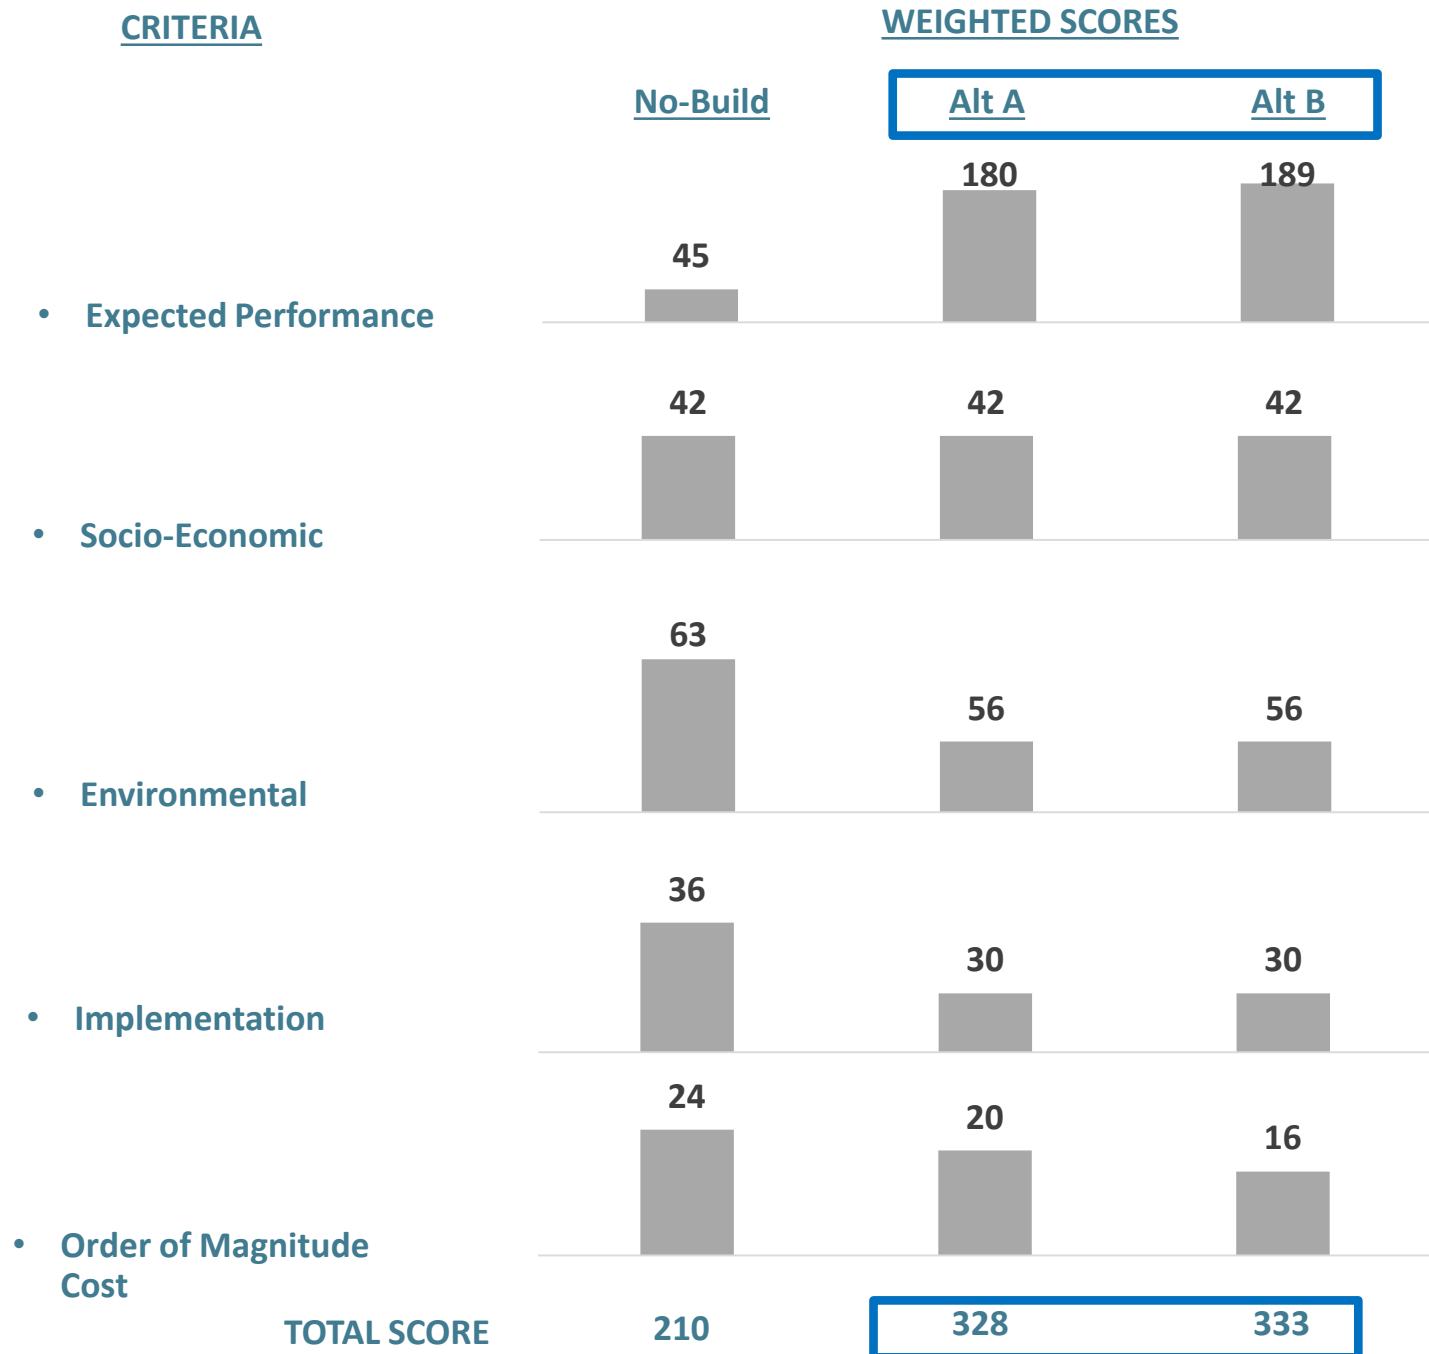

EVALUATION RESULTS (System Improvements)

- Alt 1 - Direct Connections to 95 Express Lanes
- Alt 2 - Direct Connections to 95 Express Lanes with New Viaduct on I-195
- Alt 3 - Direct Connections between 95 Express Lanes / I-95 General Use Lanes and New Viaduct on I-195

EVALUATION RESULTS (Bicycle / Pedestrian Improvements)

- Alt A - 14' Shared Path With Bridge Structures On One Side Of Julia Tuttle Causeway
- Alt B - 12' Shared Use Paths With Widening Of Existing Causeway Bridges On North And South Sides.

TIER 2 ALTERNATIVES

- **Base Improvements**

- All alternatives carried forward to Tier 2
- Concept plans are being developed during refinement of improvements

- **System Improvements**

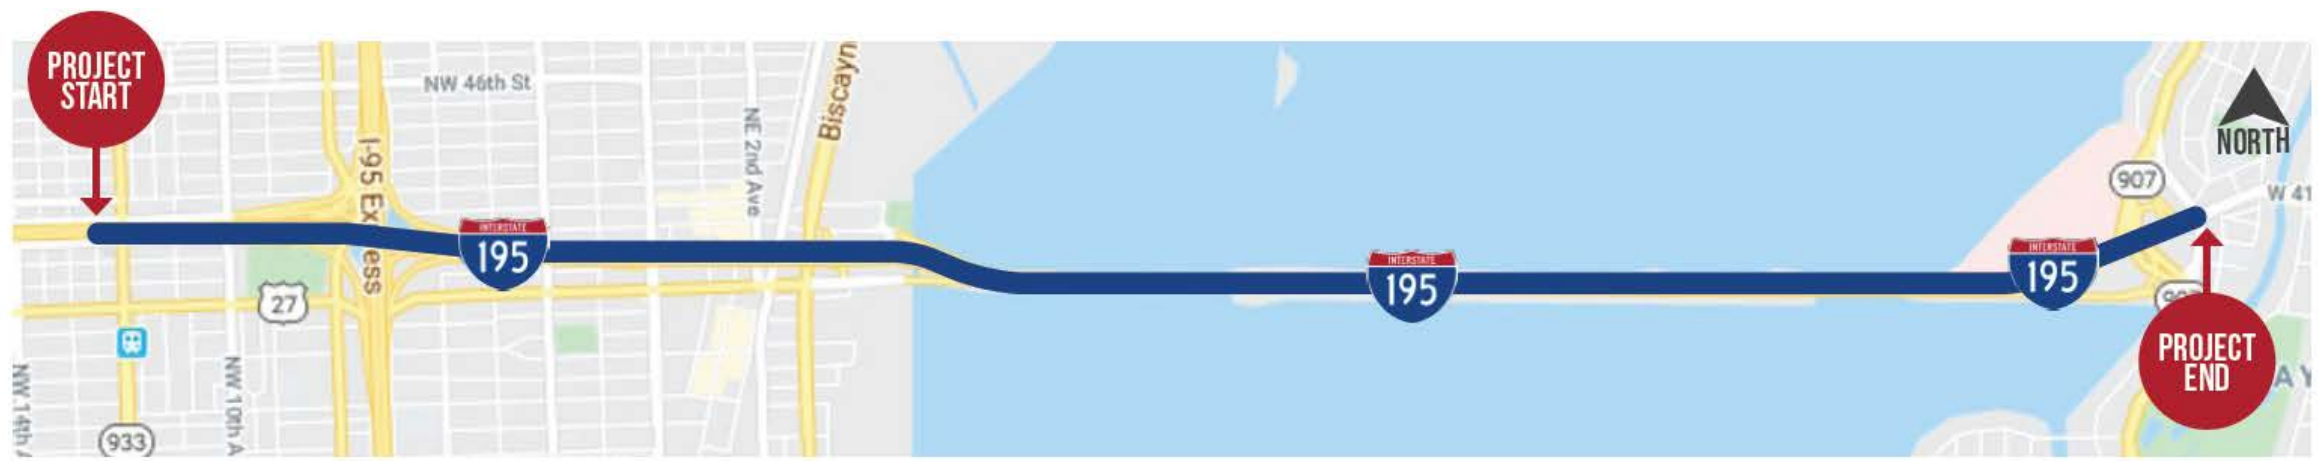

- Alternative 2 and 3 carried forward to Tier 2
- Concept plans will be developed for only one alternative

- **Bicycle / Pedestrian Improvements**

- Alternative B and A carried forward to Tier 2
- Concept plans will be developed for only one alternative

NEXT STEPS / FUTURE PROJECT PHASES

- Final Planning Study Report – June 2020
- I-195 / SR 112 PD&E Study – 2021 Tentative

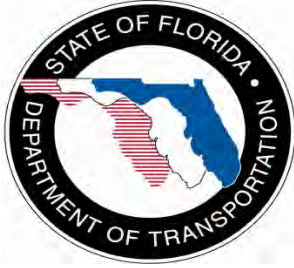

Note: Schedule and limits subject to change

Florida Department of Transportation District Six

Elected or Public Official Meeting Follow-up Summary

FORM SHOULD BE COMPLETED AND SENT BY E-MAIL TO DISTRICT SECRETARY, DIRECTORS AND PUBLIC INFORMATION OFFICER. IT SHOULD BE SUBMITTED THE SAME DAY OF THE MEETING (OR AT LATEST THE FOLLOWING MORNING).

Purpose of meeting:

The Interstate 195/State Road (SR) 112 Corridor Planning Study (CPS) SR 933/NW 12 Avenue to SR 907/Alton Road - City of Miami Beach Mayor Dan Gelber Briefing: Status Update on the Texas U-Turn Feasibility Study

Date/Time/Location of meeting:

Monday, February 24, 2020 at 3:30 p.m.
City of Miami Beach City Hall, 1700 Convention Center Drive, 4th Floor, Miami Beach, FL 33140

Elected or Public Official attendees:

Miami Beach Mayor Dan Gelber, Staff: José González (Transportation Director), Lynda Kompelien-Westin, AICP (Transportation Manager), Alina Hudak (Assistant City Manager), and Josiel Ferrer-Diaz (Assistant Transportation Director)

Other attendees:

FDOT District Six Staff: District Six Secretary James Wolfe, P.E., District Six Transportation Planning Manager Kenneth Jeffries, and Transportation Planner IV Shereen Yee Fong
FDOT Consultants: BCC Engineering Deputy Project Manager Lorin Brissett, P.E., and Joaquin Barnes, P.E.
Creativision MEDIA Consultant Community Outreach Specialist Charesse Chester

Media involvement:

None

I-195 CPS key discussion items:

FDOT Project Manager Shereen Yee Fong started the discussion with the purpose of the meeting. Consultant Deputy Project Manager Lorin Brissett presented the information shared at the I-195 Corridor Planning Study Public Information Workshop held on February 13, 2020, 6 p.m., at the Miami Beach Golf Club, 2301 Alton Road, Miami Beach, Florida 33140. Listed are key discussion topics:

- **Texas U-Turn Proposal**

Ms. Yee Fong (FDOT Project Manager) advised that the timing of the Texas U-Turn project is tied to the schedule of the Golden Glades Interchange (GGI) reconstruction project which addresses the current bottleneck on I-95. Mr. Jeffries (District Six Transportation Planning Manager) advised that the I-95 bottleneck prohibits the northbound improvement due to lack of adequate express lane capacity. Secretary Wolfe advised that in order to complete the GGI

reconstruction project an 18" gas transmission line must be relocated. The Secretary advised that the Department continues to negotiate the relocation costs with Florida Gas Transmission, so the project has been postponed until another improvement option is identified and/or the two parties reach an agreement. The Department expects to reprogram the GGI project in the District Six Tentative Five-Year Work Program by December 2020. José González (City of Miami Beach) stated that the southbound to eastbound traffic needing access to Miami Beach would already have passed the GGI; the Texas U-Turn would provide a connection for Miami Beach traffic. Mr. Jeffries (District Six Transportation Planning Manager) advised that the Department can explore the possibility of building the Texas U-Turn routes independently or together. This option may also require rebuilding the bridges. Joaquin Barnes (BCC Engineering) advised that the Texas U-Turn concept is currently constrained to a design speed of 15 MPH. Secretary Wolfe stated vehicles exiting a high-speed facility into a curb designed for 15 MPH is a safety concern. Ms. Yee Fong (FDOT Project Manager) advised that touching the express lanes ramps will require the Florida Highway Administration's (FHWA) approval. Mr. Jeffries (District Six Transportation Planning Manager) advised that any Systems Interchange Modification Report will be needed to implement the Texas U-Turns and cautioned this could trigger environmental justice issues, so the project must go through the National Environmental Policy Act (NEPA) process. Mr. González (City of Miami Beach) asked the next steps for the Texas U-Turn. It would be better for travelers to Miami Beach to access the express lanes to the Julia Tuttle Causeway rather than MacArthur Causeway. Secretary Wolfe advised that the challenges of the curb design would have to be addressed first. Based on the schedule, construction could begin in 2027/28 for the I 195 long term improvement project.

- **Bus-on-Shoulder Express Bus Service**

Mayor Gelber asked if the project includes express bus service. Ms. Yee Fong (FDOT Project Manager) advised that the Department is evaluating the feasibility of operating buses on the inside shoulders along the Julia Tuttle Causeway. The Department has programmed the project to accommodate express bus service. Mr. Brissett (BCC/Consultant Deputy Project Manager) advised that when speeds drop below 35 MPH, transit will be able to utilize the shoulder to travel. The Mayor asked where will buses go after exiting Alton Road. Mr. Jeffries advised that Mount Sinai Medical Center is pursuing Southeast Florida Transportation Council (SEFTC) Transportation Regional Incentive Program (TRIP) Funds to build a park-and-ride lot. He noted that short-term improvements can go right into design.

- **Sea-Level Rise**

The Mayor advised that "King Tide" covers portions of the Julia Tuttle Causeway. Josiel Ferrer-Diaz advised that the water covers on the west side entrance of the Causeway. The Mayor asked the lifecycle of the Julia Tuttle Causeway and expected date to raise the bridge. The Secretary advised the structures are built to last 50-60 years.

- **Bicycle/Pedestrian Improvements**

Mr. Brissett advised that Alternative A is a 14' shared use path on one side of the Julia Tuttle Causeway. A separate structure will be installed to accommodate bike/pedestrian users. Alternative B proposes 12' shared used paths with widening of the existing bridges on both sides to accommodate separate bike/pedestrian paths. Mr. Brissett advised that Alternative B will cost \$30 million, and Alternative A is projected to cost \$17 million. Secretary Wolfe advised that the bicycle/pedestrian improvements can move forward as a separate project. Josiel Ferrer-Diaz (City of Miami Beach) stated this system will divert some bike/ped traffic from the McArthur Causeway. Mr. Josiel Ferrer-Diaz (City of Miami Beach) also noted that bike riders avoid the Julia Tuttle Causeway because of the wind caused by truck traffic. The

Mayor stated that Alternative B is next to cars, so the bicycle/pedestrian users will prefer Alternative A, a structure separated from the roadway. The Mayor asked the Department to notify the City when it needs a resolution of support for this improvement. The Mayor directed his staff to get a Miami Beach Neighborhood/Community Affairs Committee's resolution for the project during the Project Development & Environment (PD&E) phase. Secretary Wolfe also suggested that the City of Miami Beach coordinate with the Miami-Dade Transportation Planning Organization (TPO) to make the Bicycle / pedestrian improvement a TPO priority.

- **Other Projects**

Alina Hudak (City of Miami Beach) asked the status of Bus Express Rapid Transit (BERT) construction on the Julia Tuttle Causeway.

Action Items:

1. The Department to explore making the bicycle/pedestrian improvements a separate project.
2. The Department to provide an update on the Julia Tuttle Causeway project construction schedule on the Bus Express Rapid Transit (BERT).

Involvement needed from District Secretary or Directors:

STUDY CORRIDOR & BACKGROUND

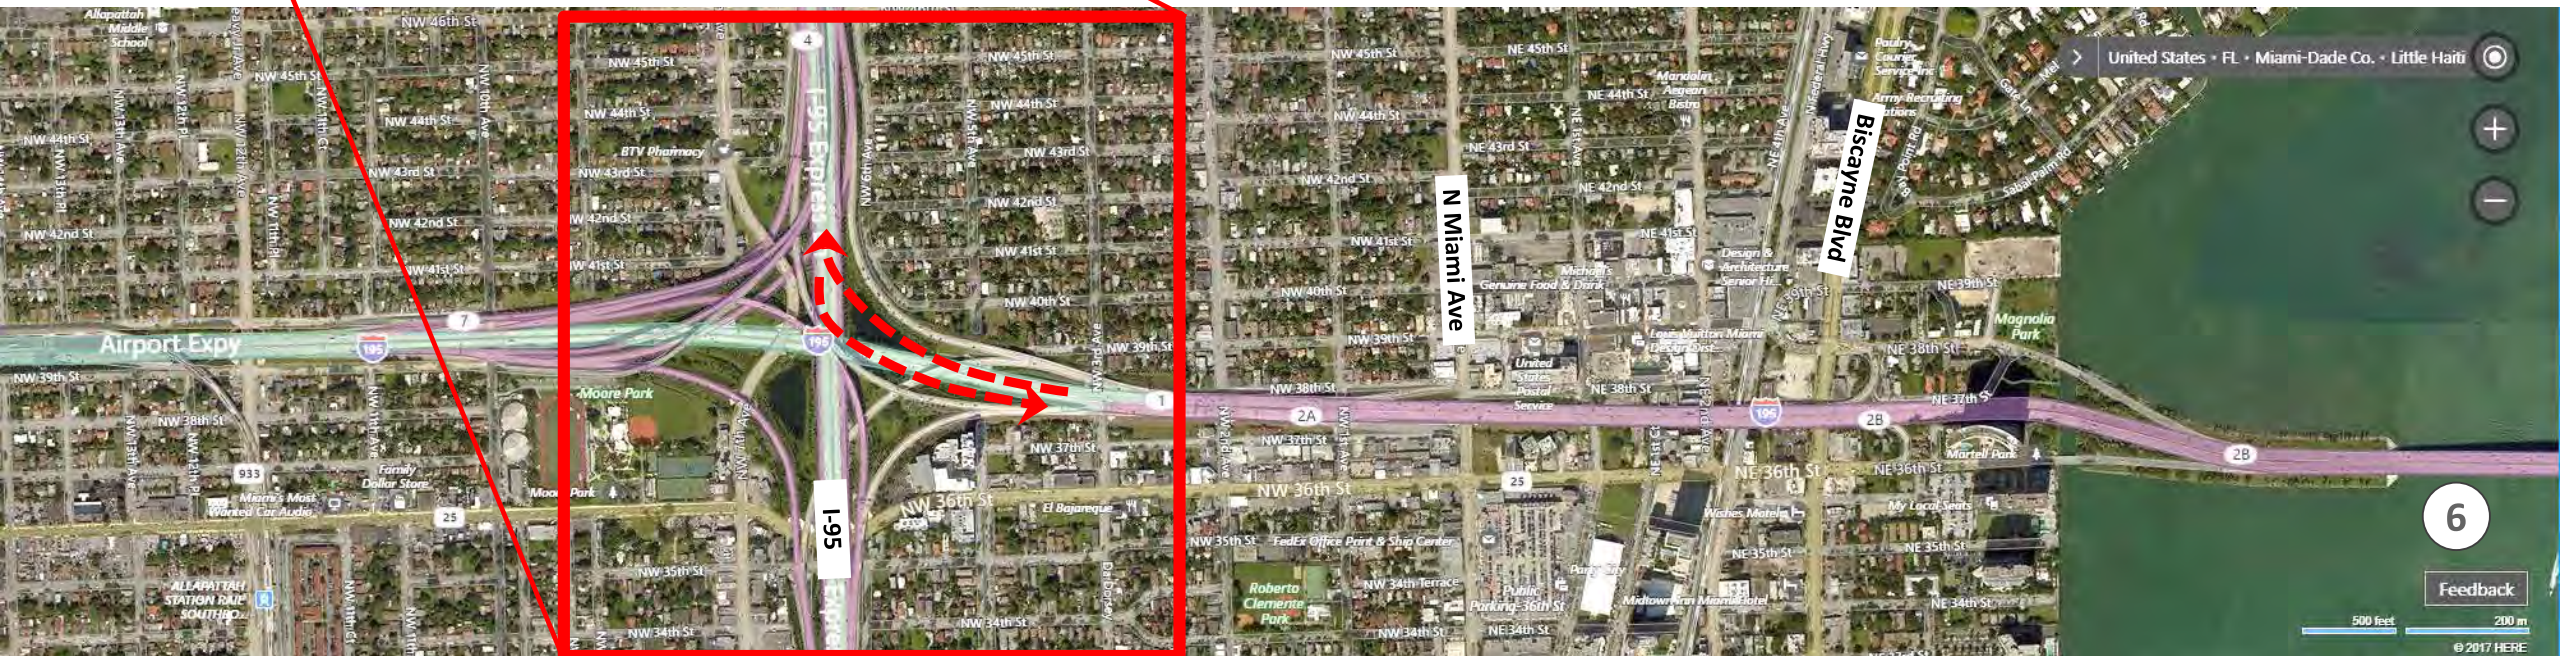

- SR 112/195 5-Mile Corridor from NW 12th Avenue to Alton Road on Miami-Beach
- Limited access facility connecting MIA and Miami Beach
- Carries average 130,000 vehicles per day – Total both directions
- Provides access to several high growth neighborhoods
- Continued growth expected to increase demand exacerbating access issues

STUDY OBJECTIVES

- **Evaluate Existing Conditions**
- **Identify Needs and Deficiencies**
- **Through intergovernmental coordination, develop recommendations that can:**
 - **Go directly into design for implementation**
 - **Transition directly in the PD&E (NEPA) process**

FOCUS AREAS

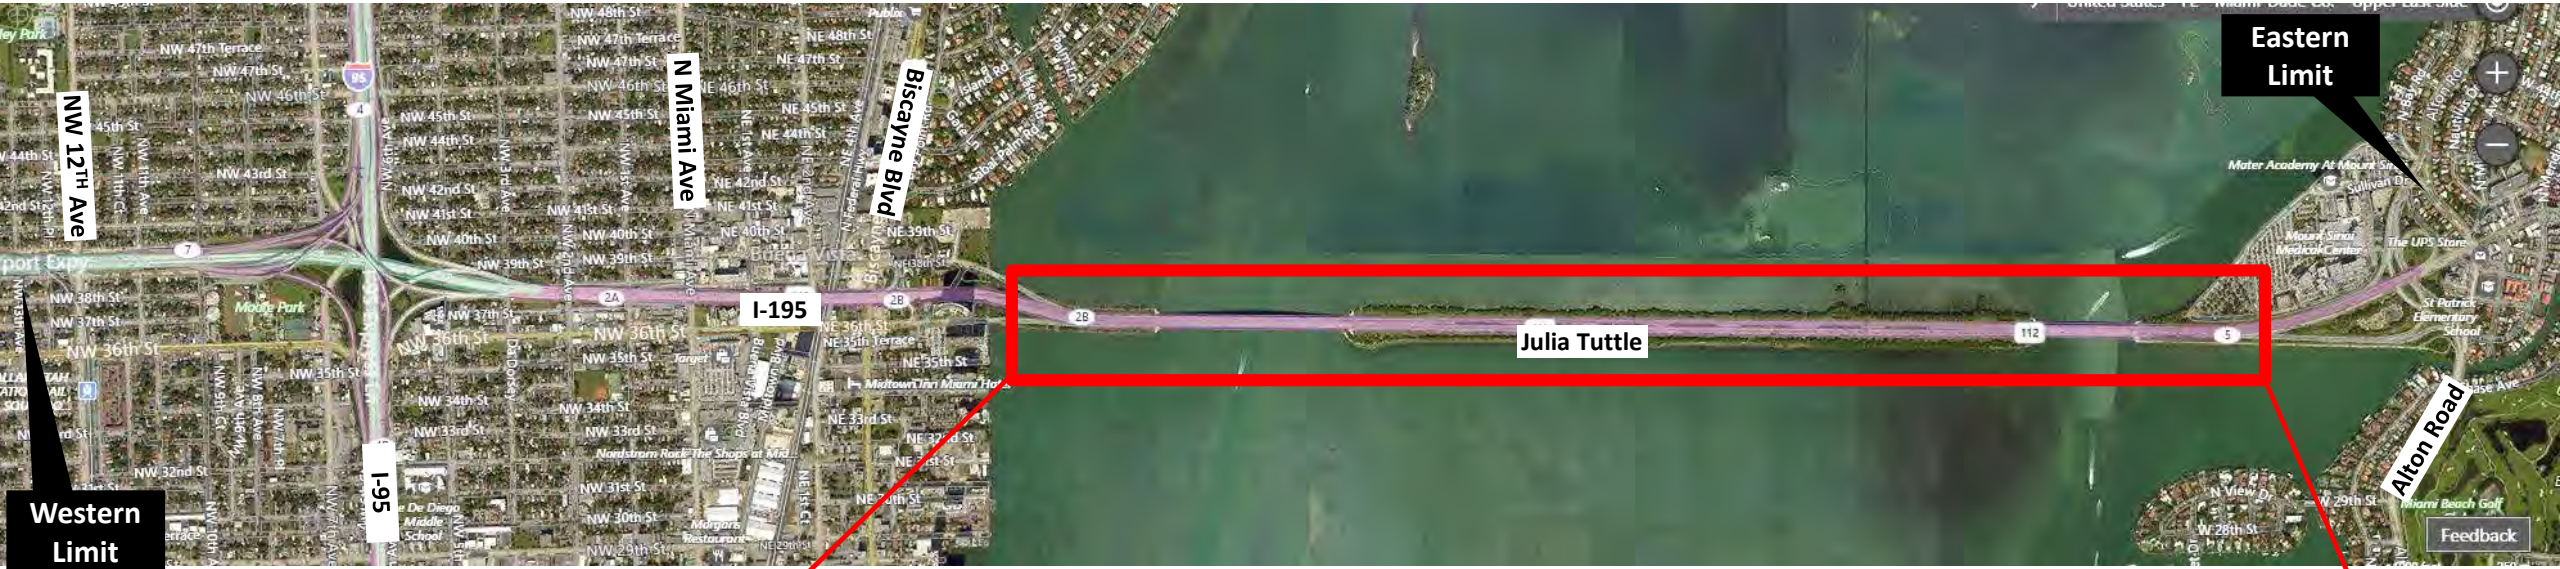

FOCUS AREA (Direct Connection to 95 Express Lanes)

FOCUS AREA (Improve Design District Interchange Access)

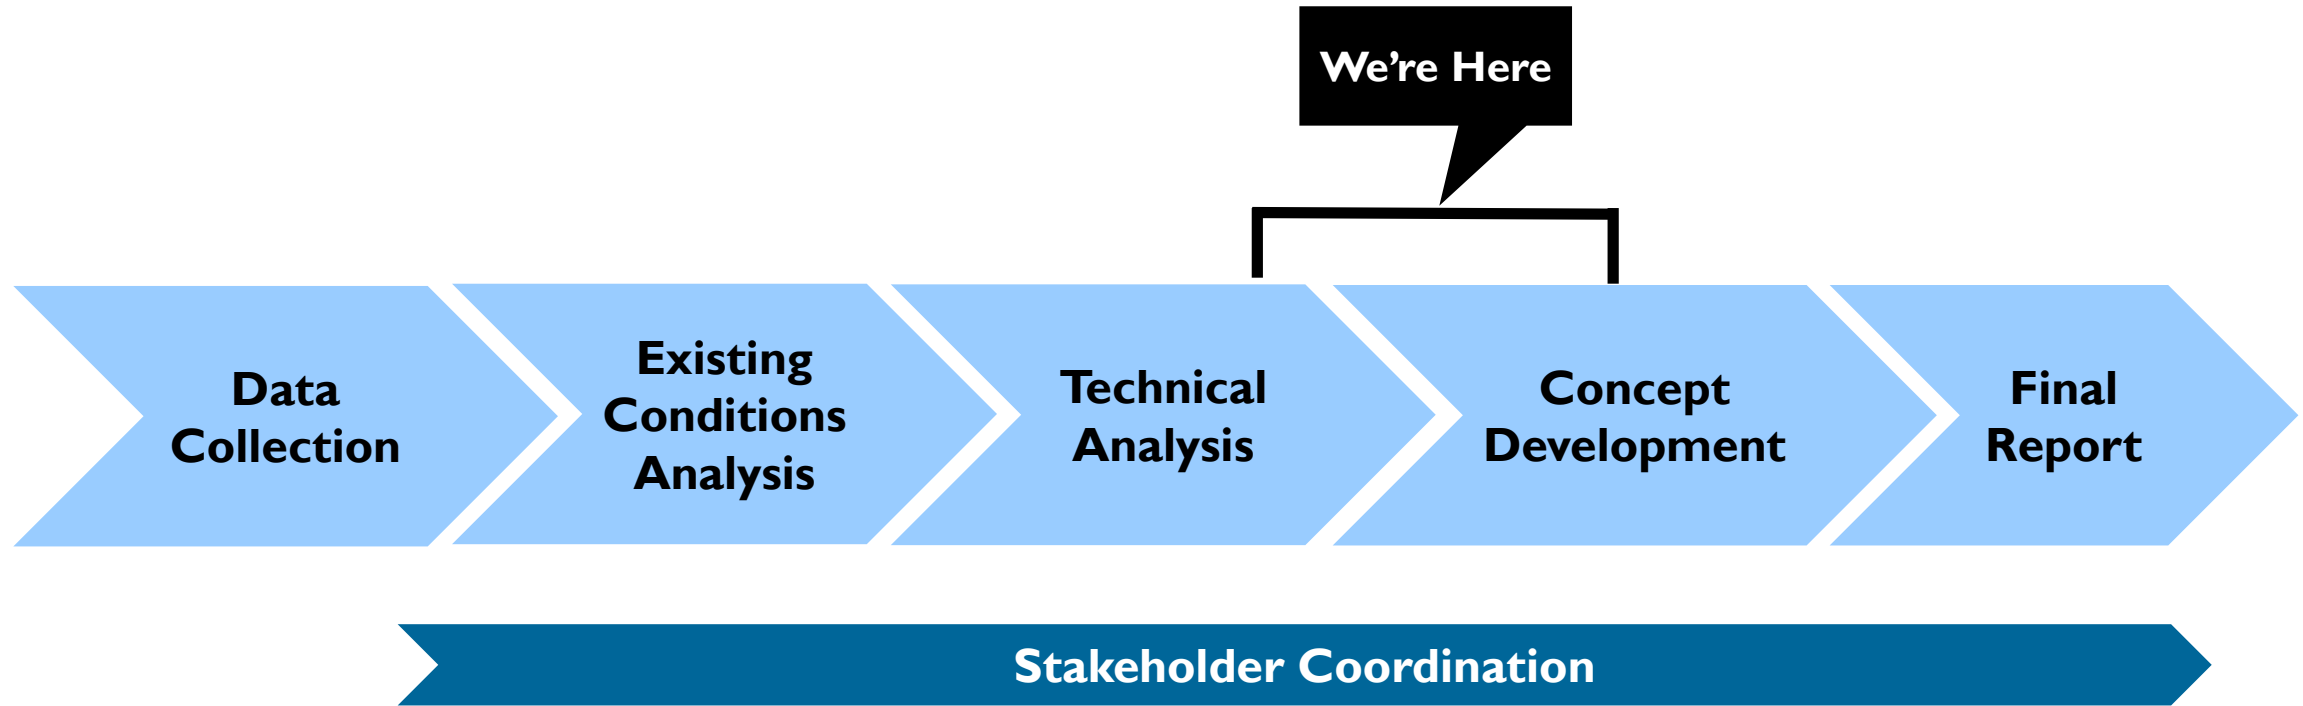

FOCUS AREA (Improve Bicycle Access on Causeway)

FOCUS AREA (Improve Alton Road Interchange Area)

PROJECT SCOPE - OVERVIEW

STAKEHOLDER COORDINATION - ONGOING

Project Advisory Team Meeting #1 - 5/23/18

- 4 PAT Meetings, (2 Down and 2 More to Go)
- Past Meetings:
 - Miami Beach Chamber of Commerce
 - Dacra / Design District
 - Biscayne Neighbors Association
- Upcoming Meetings:
 - Public Workshops
 - City Commission Meetings
 - One-on-One Meetings with Elected Officials as Needed

NO – BUILD ALTERNATIVE

- Serves as the benchmark to which all Build alternatives are compared
- Includes planned or programmed improvements assumed to be in place prior to completion of Build Alternatives
- Planned / Programmed Projects assumed:
 - SR 907/Alton Road to westbound SR 112/I-195/Julia Tuttle Causeway acceleration lane improvement;
 - Golden Glades Interchange (GGI) Enhancement Project;
 - Julia Tuttle BOS Lanes; and
 - I-95 Express Lanes Capacity Improvements (recommended from I-95 CPS).

TIER 1 CONCEPTS

TIER 1 CONCEPT DEVELOPMENT

- **Approach**
 - **Scope Driven**
 - **Operational and Safety Driven**
 - **Stakeholder Driven**
- **Challenges**
 - **Express Lanes Access (who?, what?, and where?)**
 - **Right-Of-Way Constraints**
 - **Highly Built up Area**
 - **High Density land uses abutting corridor**
 - **Bike / Pedestrian access in urban environment**
 - **Likely Requires Full Reconstruction and/or Bridge Replacements**

BASE IMPROVEMENTS

- **Improvement 1 - Construct second SR-112 WB lane to eliminate single lane bottleneck within the I-95 interchange area**
- **Improvement 2 - Construct second I-195 EB lane to eliminate single lane bottleneck within the I-95 interchange area**
- **Improvement 3 - Construct roundabout at NE 36th Street and the I-195 eastbound to Biscayne Boulevard off-ramp.**
- **Improvement 4 - Lengthen taper for acceleration lane for the on ramp from Biscayne Boulevard to I-195 eastbound**
- **Improvement 5 - Provide a two-lane exit from I-195 WB to Biscayne Boulevard increasing the capacity of the off-ramp**
- **Improvement 6 - Widen existing Julia Tuttle Causeway in the EB direction from just west of diverge area for off-ramp to Alton Rd to intersection with Arthur Godfrey Rd and Alton Rd.**

SYSTEM IMPROVEMENTS

- **Alternative 1 - Texas U-Turn Connections to/from 95 Express Lanes**
- **Alternative 2 - Direct Connections to 95 Express Lane**
- **Alternative 3 - Direct Connections to 95 Express Lanes with Viaduct on I-195**
- **Alternative 4 - Direct Connections to 95 Express Lanes with Viaduct on I-195 (I-95/Miami Beach)**

BICYCLE / PEDESTRIAN IMPROVEMENTS

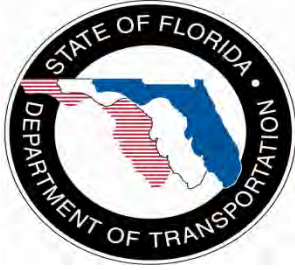

- **Alternative A - 14' Shared Path With Bridge Structures On One Side Of Julia Tuttle Causeway**
- **Alternative B - 12' Shared Use Path With Widening Of Existing Causeway Bridges On North And South Sides**

NEXT STEPS

- **Present Evaluation of Tier 1 Concepts to PAT (Meeting # 3 – October 9, 2019)**
- **Conduct Workshops for Community and Stakeholders**
- **Finalize Tier 2 Evaluation and Develop Recommended Alternatives**
- **Present Final Recommendations to PAT Meeting #4 (Final Recommendations)**
- **Prepare Final Report**
- **Project is Candidate for PD&E in 2021**

QUESTIONS ?

Florida Department of Transportation District Six

Elected or Public Official Meeting Follow-up Summary

FORM SHOULD BE COMPLETED AND SENT BY E-MAIL TO DISTRICT SECRETARY, DIRECTORS AND PUBLIC INFORMATION OFFICER. IT SHOULD BE SUBMITTED THE SAME DAY OF THE MEETING (OR AT LATEST THE FOLLOWING MORNING).

Purpose of meeting:

The Interstate 195 Corridor Planning Study (CPS) Briefing – Miami-Dade County Commission
Chairwoman Audrey Edmonson, District 3

Date/Time/Location of meeting:

Monday, September 30, 2019 at 2 p.m.
Joseph Caleb Center, 5400 NW 22 Avenue, 7th Floor, Miami, Florida 33142

Elected or Public Official attendees:

District 3 Staff: Deldra Owens, Gordon Bello, Chelsea Lum, and Akeem Brutus

Other attendees:

FDOT District Six Staff: Kenneth Jeffries, District Six Transportation Planning Manager
FDOT Consultants: Lorin Brissett, Deputy Project Manager (BCC Engineering)
Charesse Chester, Community Outreach Specialist (Creativision MEDIA)

Media involvement:

None

Key I-195 CPS discussion items:

Mr. Brissett provided an overview of the study purpose and objectives highlighting the study team's progress to date. He highlighted the four focus areas for improvement along the corridor including 1). providing new access connections between I-95 express lanes and I-195 to the east, 2). Improving access within the Midtown Interchange areas at N Miami Avenue and at Biscayne Boulevard, 3). Providing separated bicycle/pedestrian path along the Julia Tuttle Causeway, 4) Providing improvements in the Alton Road Interchange area, on Miami Beach. The presentation that was handed out at the meeting, is provided as an attachment. The remainder of this summary highlights the aspects of the meeting where the Chairwoman had specific questions or comments:

- Mr. Brissett stated that improvements along the study corridor within the Midtown area will review converting the half interchange at N Miami Avenue to a full interchange. In addition, improvements at the terminus of the exit ramp to Biscayne Boulevard from I-195 eastbound are being reviewed to allow a more direct access to the high-rise condominiums east of the ramp terminal. He also stated that this would likely require acquiring some land in the area. The Commissioner asked if the Department plans to purchase the 2-story home near the

exit ramp. Mr. Jeffries responded to the Commissioner stating the study would be confirming if this is a historic home as that would trigger a special review process and coordination if that parcel of land ended up needing to be acquired. He mentioned that other options are being considered. Mr. Brissett mentioned the study team was still assessing the likely operations of a potential roundabout and that the goal would be to minimize the required footprint of this improvement while optimizing its effectiveness as a one of the solutions to the poor operations that exist today.

- Mr. Brissett stated a separated, off-road bike facility along the Julia Tuttle Causeway is also being evaluated in the planning study. The Commissioner asked if this is a pilot project. Mr. Jeffries responded to the Commissioner stating the City of Miami Beach has long proposed a separated, permanent bike facility as a part of the City's Master Plan. The Commissioner asked how the bike lanes would be protected? Mr. Brissett responded by stating that the alternatives being evaluated include creating a separated bike structure that requires widening the roadway and bridges in order to provide a path on the north that has a midpoint connection to an existing trail on south. Mr. Jeffries stated that Mount Sinai Hospital may allow access to an existing trail on the southside that goes under the bridge and connects to an existing path near a seawall.
- Mr. Jeffries mentioned the Bus On Shoulder project currently being conducted for the Causeway and that a Concept of Operations would be developed. The Chairwoman asked who would be responsible for maintaining this. Mr. Jeffries stated that the Department, City of Miami Beach, and Miami-Dade County Department of Transportation and Public Works (DTPW) will have to enter into an agreement to establish a maintenance cycle, identify the enforcement agency, and schedule transit operations.
- Mr. Brissett stated that the Golden Glades Interchange (GGI) Enhancement Project is a critical project to provide the capacity necessary to install a direct connection to the I-95 Express Lanes. The Commissioner responded by asking if this improvement will still move forward given the recent discussion during the September 26, 2019 Miami-Dade Transportation Planning Organization (TPO) meeting to potentially defer the GGI project as a result of recently discovered utility conflicts in the area. Mr. Jeffries responded that in addition to FDOT projects, this issue will affect future plans by the Turnpike but that FDOT may be first in line to have to deal with this issue. FDOT's Central Office continues to negotiate with the Florida Gas Transmission (FGT) to reach a solution that will allow the project to move forward. The Commissioner asked if Miami-Dade County could add more express lanes access points between the southern limits and GGI like similar to the frequency of access points along I-95 in Broward County. Mr. Jeffries stated that unlike in Miami-Dade County, I-95 in Broward county has longer distances between exits, making transitions into the express lanes safer. Florida Highway Patrol (FHP) told the Department to limit the number of access points in Miami-Dade County to ensure a safe transition into the express lanes for slower moving vehicles.
- Mr. Brissett stated that the study is evaluating system improvements to provide a direct connection to the I-95 Express Lanes to include Texas U-Turns near NW 10th and 12th Avenues. Mr. Brissett also stated that the Department plans to advance this alternative in the short-term. The Commissioner asked if trucks will be allowed to utilize the Texas U-Turns. Mr. Jeffries responded to the Commissioner by stating that the system would prohibit truck access.

STUDY CORRIDOR & BACKGROUND

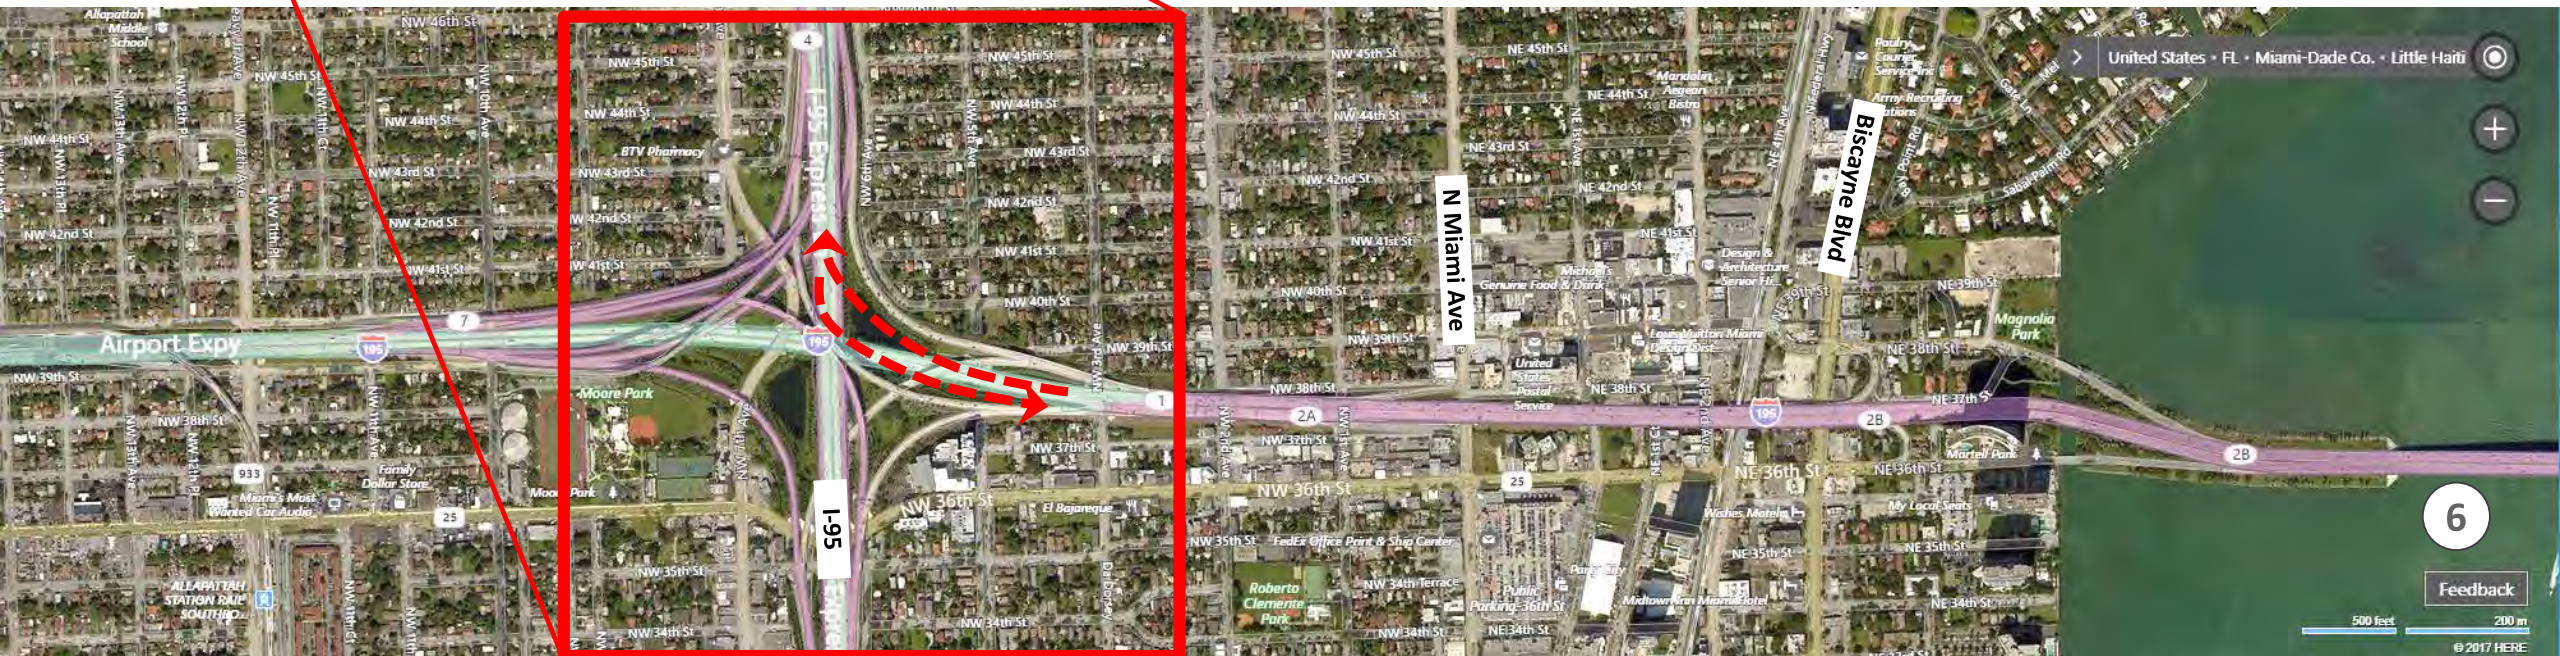

- SR 112/195 5-Mile Corridor from NW 12th Avenue to Alton Road on Miami-Beach
- Limited access facility connecting MIA and Miami Beach
- Carries average 130,000 vehicles per day – Total both directions
- Provides access to several high growth neighborhoods
- Continued growth expected to increase demand exacerbating access issues

STUDY OBJECTIVES

- **Evaluate Existing Conditions**
- **Identify Needs and Deficiencies**
- **Through intergovernmental coordination, develop recommendations that can:**
 - **Go directly into design for implementation**
 - **Transition directly in the PD&E (NEPA) process**

FOCUS AREAS

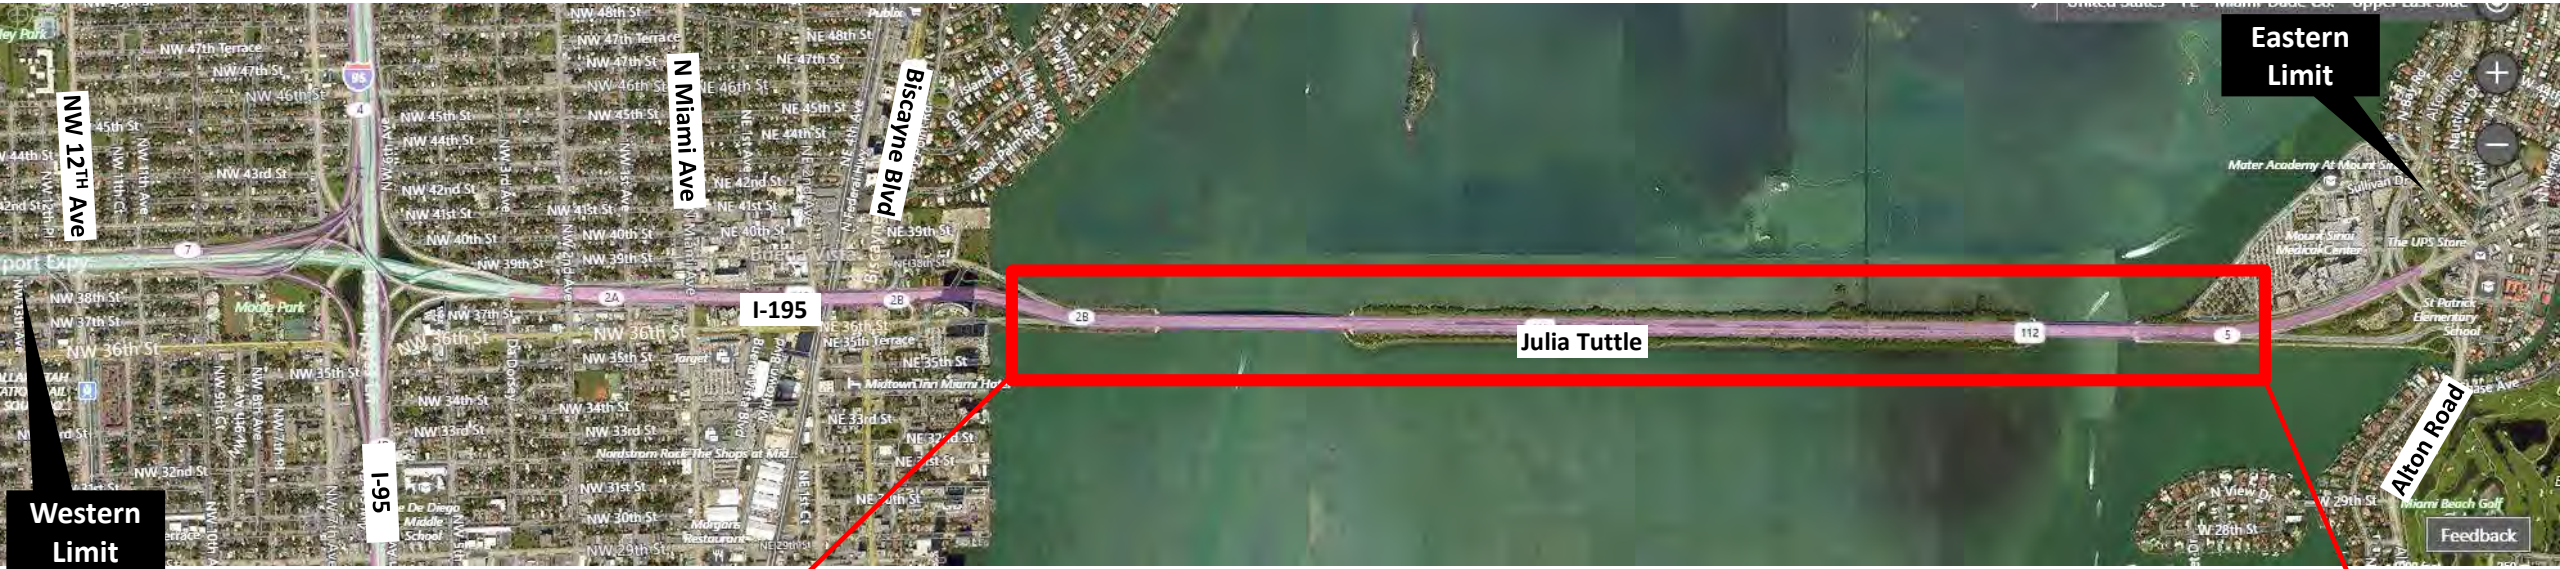

FOCUS AREA (Direct Connection to 95 Express Lanes)

FOCUS AREA (Improve Design District Interchange Access)

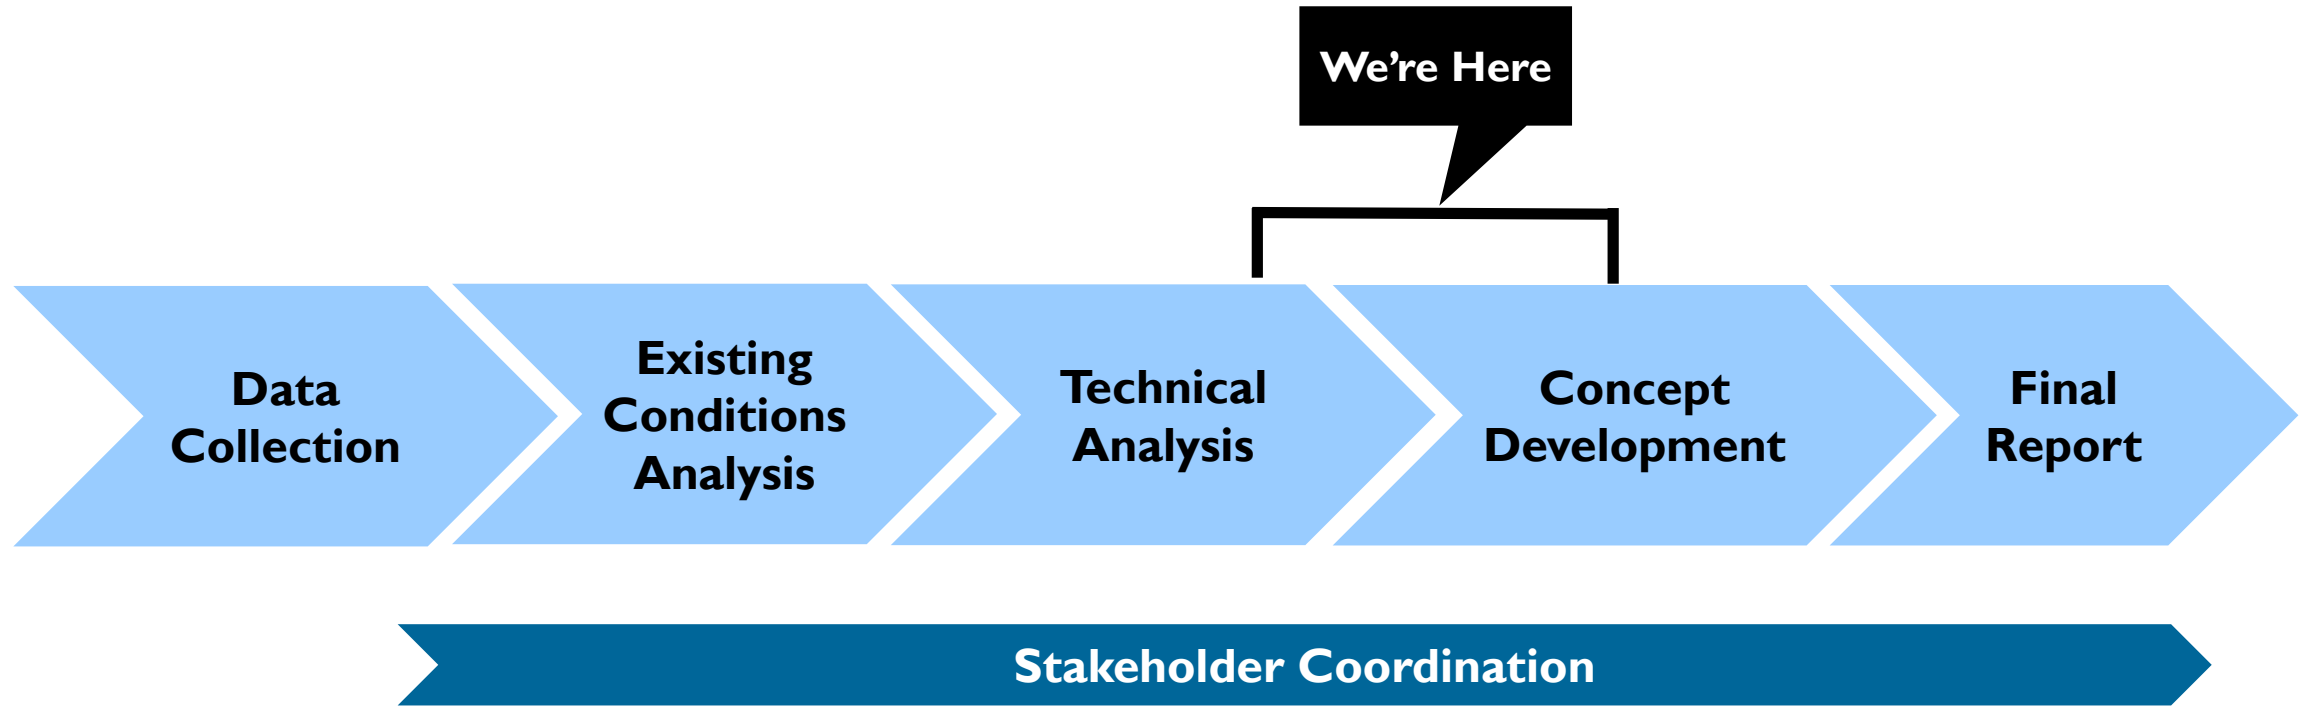

FOCUS AREA (Improve Bicycle Access on Causeway)

FOCUS AREA (Improve Alton Road Interchange Area)

PROJECT SCOPE - OVERVIEW

STAKEHOLDER COORDINATION - ONGOING

Project Advisory Team Meeting #1 - 5/23/18

- 4 PAT Meetings, (2 Down and 2 More to Go)
- Past Meetings:
 - Miami Beach Chamber of Commerce
 - Dacra / Design District
 - Biscayne Neighbors Association
- Upcoming Meetings:
 - Public Workshops
 - City Commission Meetings
 - One-on-One Meetings with Elected Officials as Needed

NO – BUILD ALTERNATIVE

- Serves as the benchmark to which all Build alternatives are compared
- Includes planned or programmed improvements assumed to be in place prior to completion of Build Alternatives
- Planned / Programmed Projects assumed:
 - SR 907/Alton Road to westbound SR 112/I-195/Julia Tuttle Causeway acceleration lane improvement;
 - Golden Glades Interchange (GGI) Enhancement Project;
 - Julia Tuttle BOS Lanes; and
 - I-95 Express Lanes Capacity Improvements (recommended from I-95 CPS).

TIER 1 CONCEPTS

TIER 1 CONCEPT DEVELOPMENT

- **Approach**
 - **Scope Driven**
 - **Operational and Safety Driven**
 - **Stakeholder Driven**
- **Challenges**
 - **Express Lanes Access (who?, what?, and where?)**
 - **Right-Of-Way Constraints**
 - **Highly Built up Area**
 - **High Density land uses abutting corridor**
 - **Bike / Pedestrian access in urban environment**
 - **Likely Requires Full Reconstruction and/or Bridge Replacements**

BASE IMPROVEMENTS

- **Improvement 1 - Construct second SR-112 WB lane to eliminate single lane bottleneck within the I-95 interchange area**
- **Improvement 2 - Construct second I-195 EB lane to eliminate single lane bottleneck within the I-95 interchange area**
- **Improvement 3 - Construct roundabout at NE 36th Street and the I-195 eastbound to Biscayne Boulevard off-ramp.**
- **Improvement 4 - Lengthen taper for acceleration lane for the on ramp from Biscayne Boulevard to I-195 eastbound**
- **Improvement 5 - Provide a two-lane exit from I-195 WB to Biscayne Boulevard increasing the capacity of the off-ramp**
- **Improvement 6 - Widen existing Julia Tuttle Causeway in the EB direction from just west of diverge area for off-ramp to Alton Rd to intersection with Arthur Godfrey Rd and Alton Rd.**

SYSTEM IMPROVEMENTS

- **Alternative 1 - Texas U-Turn Connections to/from 95 Express Lanes**
- **Alternative 2 - Direct Connections to 95 Express Lane**
- **Alternative 3 - Direct Connections to 95 Express Lanes with Viaduct on I-195**
- **Alternative 4 - Direct Connections to 95 Express Lanes with Viaduct on I-195 (I-95/Miami Beach)**

BICYCLE / PEDESTRIAN IMPROVEMENTS

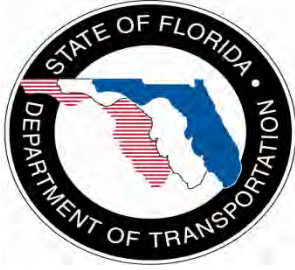

- **Alternative A - 14' Shared Path With Bridge Structures On One Side Of Julia Tuttle Causeway**
- **Alternative B - 12' Shared Use Path With Widening Of Existing Causeway Bridges On North And South Sides**

NEXT STEPS

- **Present Evaluation of Tier 1 Concepts to PAT (Meeting # 3 – October 9, 2019)**
- **Conduct Workshops for Community and Stakeholders**
- **Finalize Tier 2 Evaluation and Develop Recommended Alternatives**
- **Present Final Recommendations to PAT Meeting #4 (Final Recommendations)**
- **Prepare Final Report**
- **Project is Candidate for PD&E in 2021**

QUESTIONS ?

Florida Department of Transportation District Six

Elected or Public Official Meeting Follow-up Summary

FORM SHOULD BE COMPLETED AND SENT BY E-MAIL TO DISTRICT SECRETARY, DIRECTORS AND PUBLIC INFORMATION OFFICER. IT SHOULD BE SUBMITTED THE SAME DAY OF THE MEETING (OR AT LATEST THE FOLLOWING MORNING).

Purpose of meeting:

The Interstate 195 Corridor Planning Study (CPS) Briefing – Office of City of Miami Commissioner Keon Hardemon, District 5, Chief of Staff James McQueen

Date/Time/Location of meeting:

Tuesday, October 1, 2019 at 10 a.m.
City Hall, 3500 Pan American Drive, Miami, Florida 33133

Elected or Public Official attendees:

District 5 Chief of Staff James McQueen and Natalya Sangster

Other attendees:

FDOT District Six Staff: Kenneth Jeffries, District Six Transportation Planning Manager
FDOT Consultants: Lorin Brissett, Deputy Project Manager (BCC Engineering)
Charesse Chester, Community Outreach Specialist (Creativision MEDIA)

Media involvement:

None

Key I-195 CPS discussion items:

Mr. Brissett provided an overview of the study purpose and objectives highlighting the study team's progress to date. He highlighted the four focus areas for improvement along the corridor including 1). providing new access connections between I-95 express lanes and I-195 to the east, 2). Improving access within the Midtown Interchange areas at N Miami Avenue and at Biscayne Boulevard, 3). Providing separated bicycle/pedestrian path along the Julia Tuttle Causeway, 4) Providing improvements in the Alton Road Interchange area, on Miami Beach. The presentation that was handed out at the meeting, is provided as an attachment:

- Mr. Brissett explained the No-Build Alternative and the planned/programmed projects to include the Golden Glades Interchange (GGI), which would provide the additional capacity necessary to accommodate direct connections from I-195 to the express lanes.
- Mr. Brissett gave an overview of the Base Improvements, System Improvement Alternatives and the Bicycle / Pedestrian alternatives. He spent some time reviewing the Texas U-Turns near NW 10th and 12th Avenues as shorter-term improvement the Department plans to advance. Mr. Jeffries added that the Texas U-Turns will provide closer access points to the existing express lanes network in the shorter term while the longer term improvements that

will involve reconstructing the I-195/I-95 Interchange (to allow more direct connections) are developed. He also mentioned this system improvement will require the Federal Highway Administration's (FHWA) approval and must meet District Six design requirements.

- Mr. Brissett stated that a couple of the base improvements proposed were focused on eliminating the single lane bottlenecks at SR 112 westbound lane and the I-195 eastbound lane within the I-95 interchange area.
- Mr. McQueen asked if the improvements can be made within the existing right-of-way. Mr. Brissett confirmed that some of the improvements can be made within the existing right-of-way, but some would require additional right-of-way. Mr. Jeffries stated that the Department must determine the constructability of the proposed improvement, and, most importantly, how to keep traffic moving during construction.
- Mr. Brissett reviewed the Project Advisory Team (PAT) meeting schedule and community outreach meetings held to date. Mr. McQueen asked if stakeholders groups on the west have been briefed on the study. Ms. Chester responded to Mr. McQueen by stating that the residents will receive notifications of the workshops by mail and advertisements placed in the Miami Times.

Action items:

QUESTIONS ?

Florida Department of Transportation District Six

Elected or Public Official Meeting Follow-up Summary

FORM SHOULD BE COMPLETED AND SENT BY E-MAIL TO DISTRICT SECRETARY, DIRECTORS AND PUBLIC INFORMATION OFFICER. IT SHOULD BE SUBMITTED THE SAME DAY OF THE MEETING (OR AT LATEST THE FOLLOWING MORNING).

Purpose of meeting:

The Interstate 195 Corridor Planning Study (CPS) Briefing – Office of Miami-Dade County Commissioner Sally Heyman, District 4, Christopher Taylor, Aide

Date/Time/Location of meeting:

Tuesday, October 1, 2019 at 11:45 a.m.
District Office, 1100 NE 163 Street, Suite 303, North Miami Beach, FL 33162

Elected or Public Official attendees:

District 4 Staff: Christopher Taylor

Other attendees:

FDOT District Six Staff: Kenneth Jeffries, District Six Transportation Planning Manager
FDOT Consultants: Lorin Brissett, Deputy Project Manager (BCC Engineering)
Charesse Chester, Community Outreach Specialist (Creativision MEDIA)

Media involvement:

None

Key I-195 CPS discussion items:

Mr. Brissett provided an overview of the study purpose and objectives highlighting the study team's progress to date. He highlighted the four focus areas for improvement along the corridor including 1). providing new access connections between I-95 express lanes and I-195 to the east, 2). Improving access within the Midtown Interchange areas at N Miami Avenue and at Biscayne Boulevard, 3). Providing separated bicycle/pedestrian path along the Julia Tuttle Causeway, 4) Providing improvements in the Alton Road Interchange area, on Miami Beach. The presentation that was handed out at the meeting, is provided as an attachment:

- Mr. Brissett stated that improvements along the study corridor within the Midtown area will review converting the half interchange at N Miami Avenue to a full interchange. In addition, improvements at the terminus of the exit ramp to Biscayne Boulevard from I-195 eastbound are being reviewed to allow a more direct access to the high-rise condominiums east of the ramp terminal.
- Mr. Brissett stated a separated, off-road bike facility along the Causeway is also being evaluated. Mr. Taylor asked if this would include a sidewalk. Mr. Jeffries responded to Mr. Taylor by clarifying this improvement would look at creating a new barrier separated shared

use path facility running along the Julia Tuttle Causeway. He added that the Causeway is 1 of 3 pilot projects in the state that allows bikes on the shoulders. Mr. Jeffries stated that the new barrier separated facility would require Federal Highway Administration's (FHWA) approval and need to be properly lit to promote safety for its users.

- Mr. Brissett explained the system improvements for Alternatives 3 and 4 as direct connections to 95 Express Lanes with Viaduct on I-195 to carry traffic between I-95 and Miami Beach that will by-pass local interchanges at N Miami Avenue and Biscayne Boulevard. Mr. Jeffries added that constructability issues will need to be addressed as these alternatives move forward in the planning process. Mr. Taylor showed keen interest in Alternative 4 (given its potential to separate traffic between I-95 and the Beach from traffic between I-95 and local exits) and expressed hope that other stakeholders would similarly see the positive potential of this alternative.
- Mr. Taylor asked if the Bus on the Shoulder (BOS) project is a part of the BERT is (Bus Express Rapid Transit) project. Mr. Jeffries confirmed the BERT project and states that the next steps to moving the project forward generally include: developing a concept of operations, roadway redesign to allow buses on inside lane, milling and resurfacing the roadway to accommodate buses, signal prioritization at Alton Road, as well as coordinating the daily operations such as corridor sweeping and enforcement.

Another Project

- Mr. Taylor stated that the medians at Miami Gardens Drive and Ives Dairy Road require maintenance. Mr. Jeffries responded to the request by stating that during an earlier briefing on another project, Commissioner Sally Heyman brought the matter to the Department's attention. The Department's maintenance team immediately addressed the matter.

Action item:

- Ms. Chester to send the PAT calendar invitation to Mr. Taylor.

Involvement needed from District Secretary or Directors:

N/A

I-195 Corridor Planning Study

District 6

Bicycle Pedestrian Advisory Committee
Miami-Dade TPO
February 25, 2020

AGENDA

- STUDY AREA & PURPOSE
- PROJECT OVERVIEW
- PRIOR BICYCLE INITIATIVES
- BICYCLE / PEDESTRIAN ALTERNATIVES OVERVIEW
- BPAC INPUT / FEEDBACK

STUDY AREA & PURPOSE

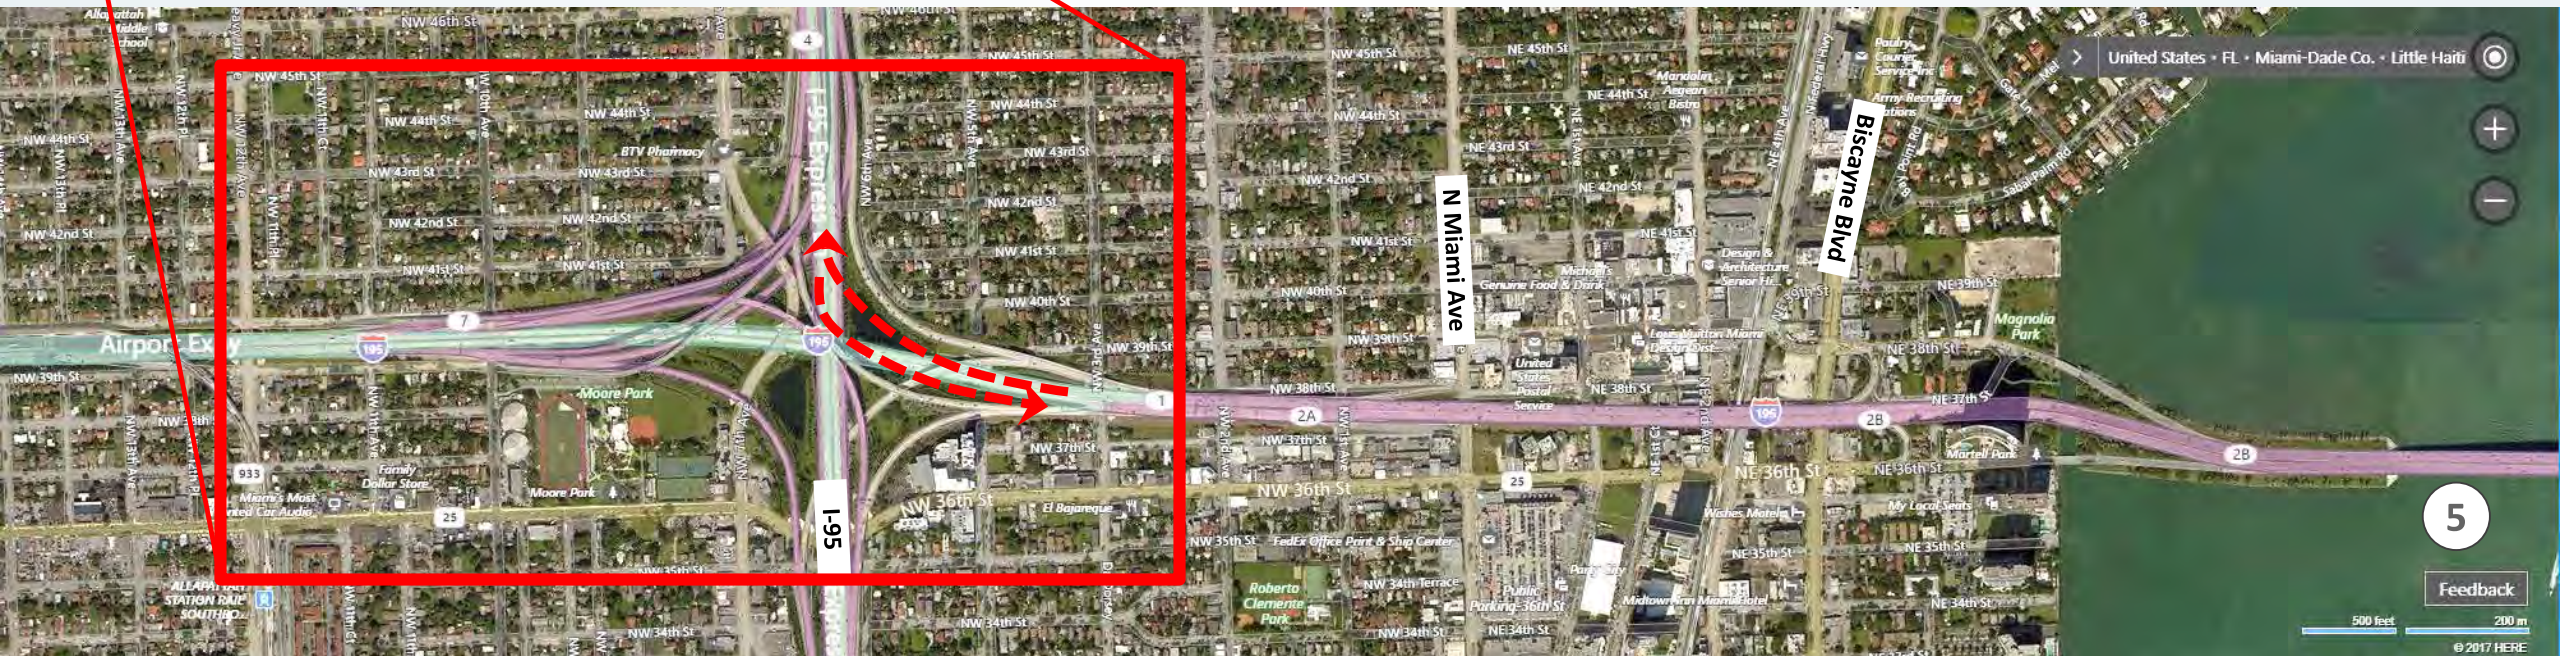

- ❑ 5-Mile section of SR 112 / I-195 from west of I-95 to Alton Road on Miami Beach
- ❑ Project to provide multimodal improvements addressing mobility and safety

PROJECT OVERVIEW

FOCUS AREA #1 (Direct Connection to 95 Express Lanes)

Western Limit

Eastern Limit

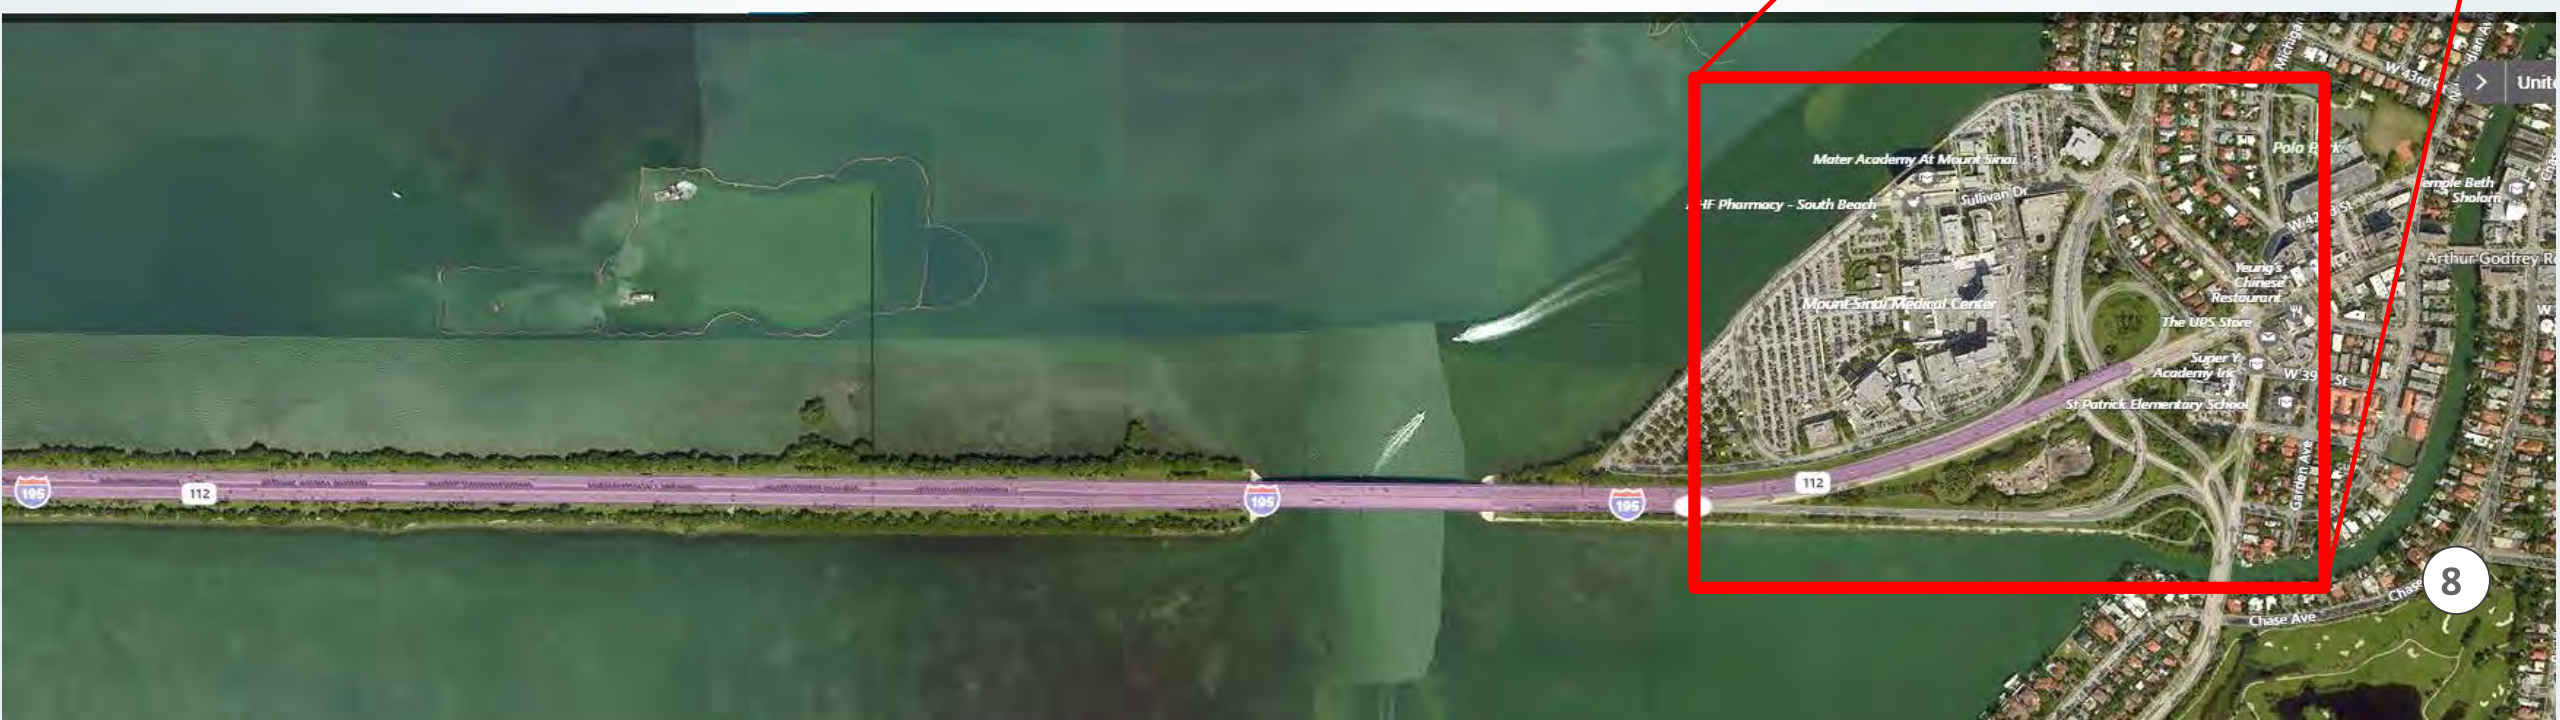

FOCUS AREA #2 (Improve Interchange Access in Midtown Area)

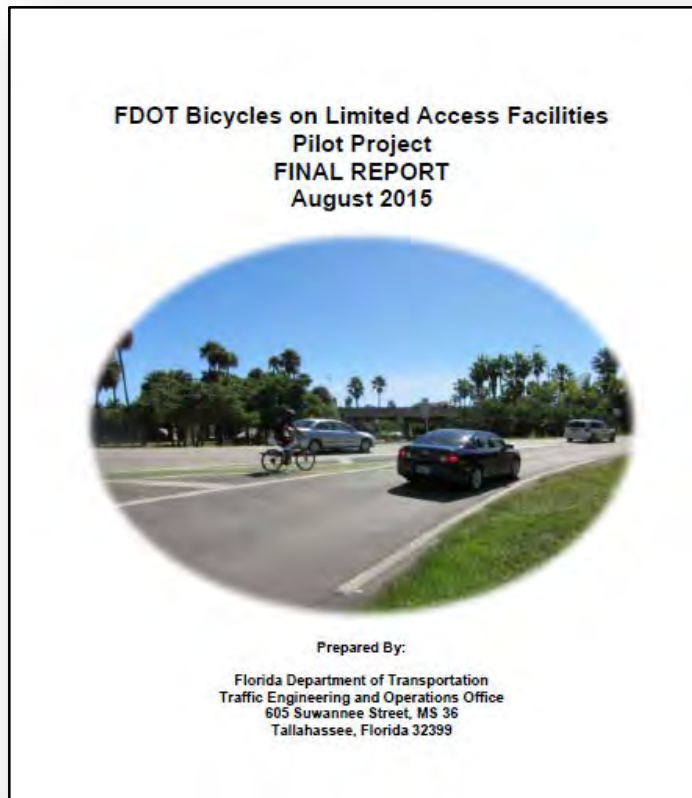

FOCUS AREA #3 (Improve Bicycle Access on Causeway)

FOCUS AREA #4 (Improve Alton Road Interchange Access)

❑ 2015 Pilot Study – FDOT Central Office

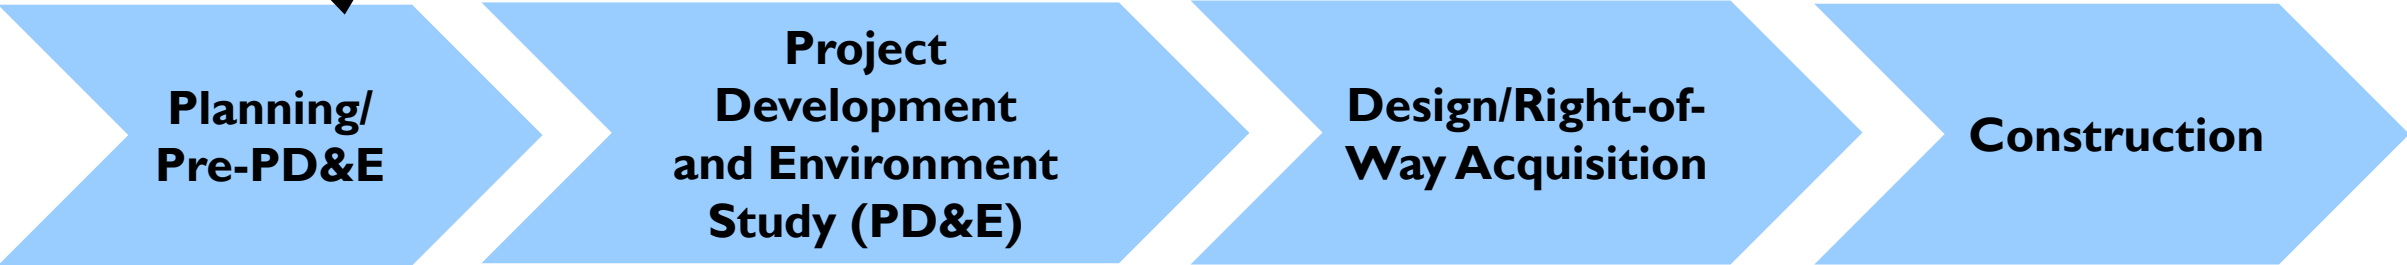

❑ Protected Bike Lanes Demonstration Plan – Miami-Dade TPO

- ✓ Julia Tuttle Causeway identified as potential location for Protected Bike Lane

We're Here

Develop initial concepts, estimate costs/impacts, and inform public

Refine concepts, engage public, define costs/impacts, complete environmental analysis, and identify final concept

Prepare surveys, design plans & right of-way plan, and engage public

Phased implementation, maintenance of traffic, and public outreach

Planning Study
Completion Date:
June 2020

PD&E Phase
Candidate
2021

Design Phase
Candidate
2024

Phase not currently programmed

- **Three groups of improvements**

Base Improvements

➤ Identified to address operational deficiencies as well as specific local issues raised by stakeholders.

- Eight (8) identified
- All carried forward
- All being refined

System Improvements

➤ Address key study objectives relative to improving system linkage, system capacity, accommodating future transportation demand, modal interrelationships, and addressing safety.

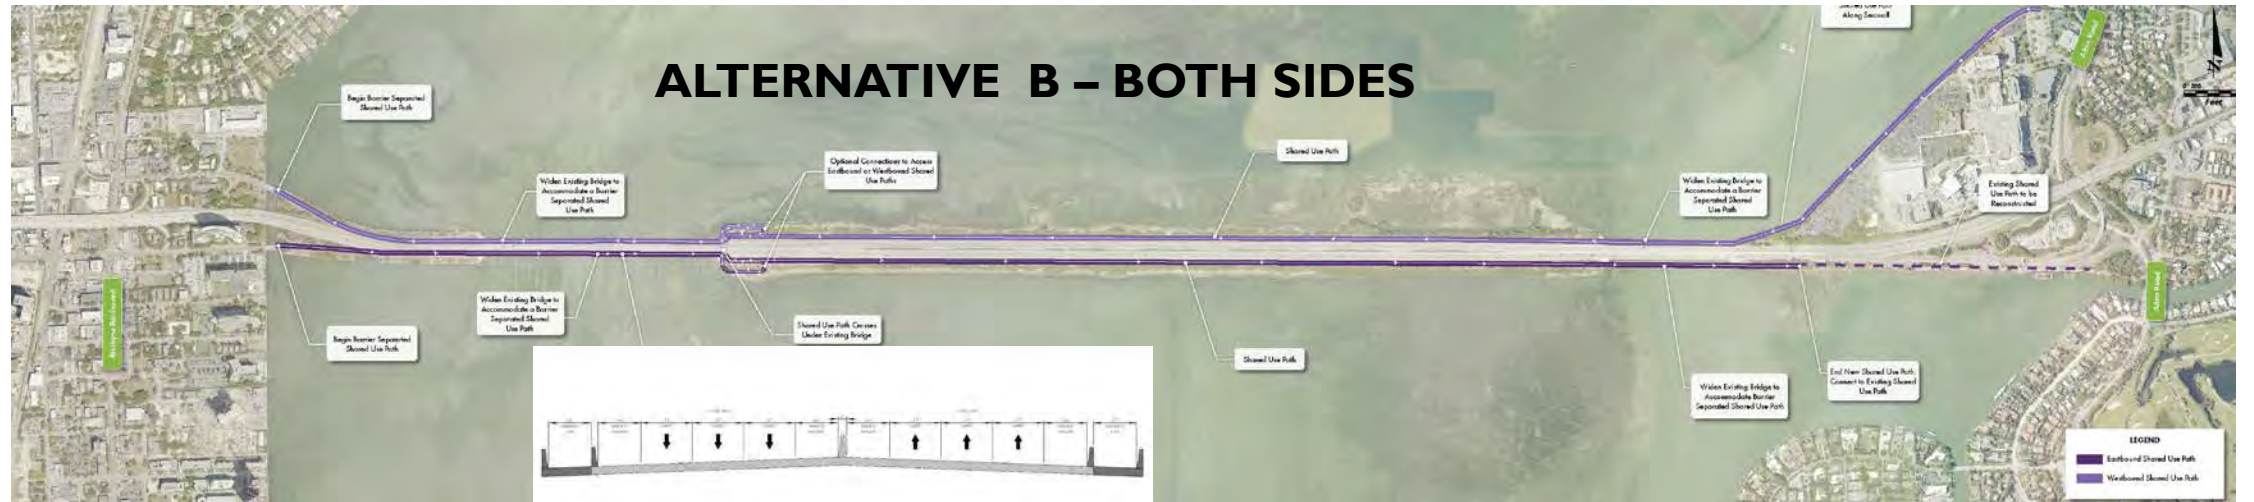

- Three (3) Alternatives identified
- Two (2) carried forward
- One being refined

Bicycle / Pedestrian Improvements

➤ Provide improved bicycle/pedestrian connectivity between the City of Miami and Miami Beach via a separated protected facility consistent with the visions of the Miami-Dade Long Range Transportation Plan & the City of Miami Beach Master Plan.

- Two (2) Alternatives identified
- Two (2) carried forward
- One will be refined

SHARED USE PATH ALTERNATIVES

SHARED USE PATH ALTERNATIVES

Alternative	Bridge Connections	Path Width	Estimated Capital Cost
A: One Side		14'	\$17M
B: Both Sides		12' (each)	\$30M

- ❑ Over 50 people attended workshops in Cities of Miami and Miami Beach
- ❑ Three people submitted written comments on Shared Use Path Alternatives, more commented verbally
- ❑ Alternative A was the favorite, sample comment(s) included:

1. *“Alternative A – for Bike Path seems to be best solution for all concerned.”*
2. *“I very much like the shared use path (Alternative A) as it is separated from the roadway. I suggest that this be implemented ASAP and not be part of any larger project. Connections in the City of Miami should be improved with Alternative A to allow further connectivity N/S/W (especially to NE 2 Ave). Do this today!”*
3. *“The Shared Bike/pedestrian path is much needed. I will tell you, I’d use that all the time to connect from my home to Wynwood. I prefer Alternative A that will be a much more pleasant ride or walk for people who use it. And, it should be cheaper than widening the highway.”*

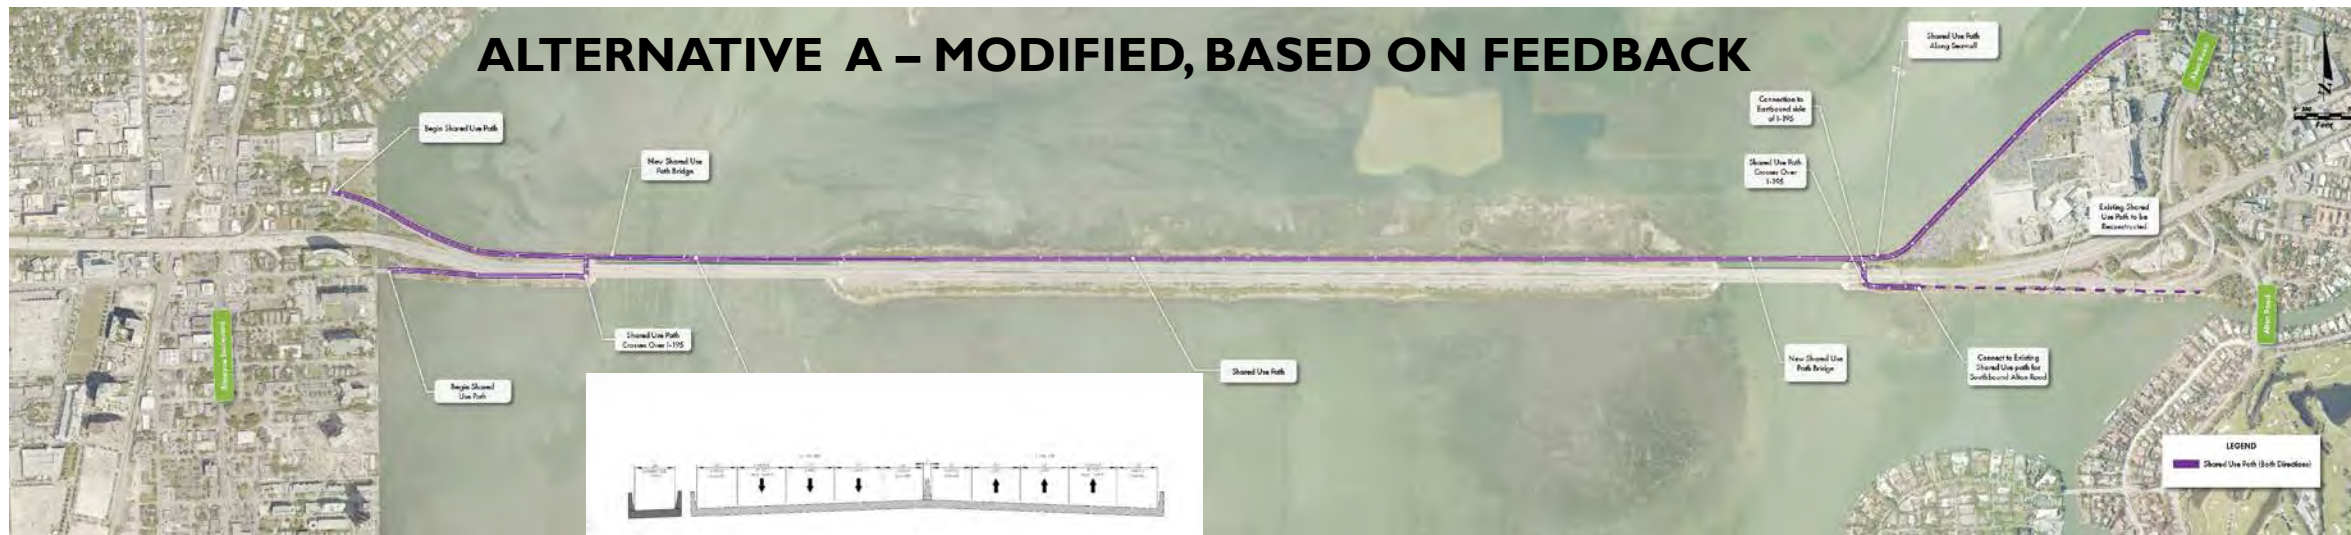

City of Miami Beach Feb 13, 2020 Workshop

North Side Advantages

- ✓ Better local park access
- ✓ Favored in public commentary

South Side Advantages

- ✓ Closer to residential population
- ✓ Better viewshed (toward Miami)

NOTE: Alternative A modified from version presented at Workshops to include connection on southside at western (Miami) end: eastern end would have both northern (on new alignment) and southern (using existing graded path) connections

☐ Attached Bridge Advantages

- ✓ Maintenance / operations
- ✓ Personal security

☐ Separate Bridge Advantages

- ✓ Independent vertical alignment for ADA
- ✓ Construction flexibility

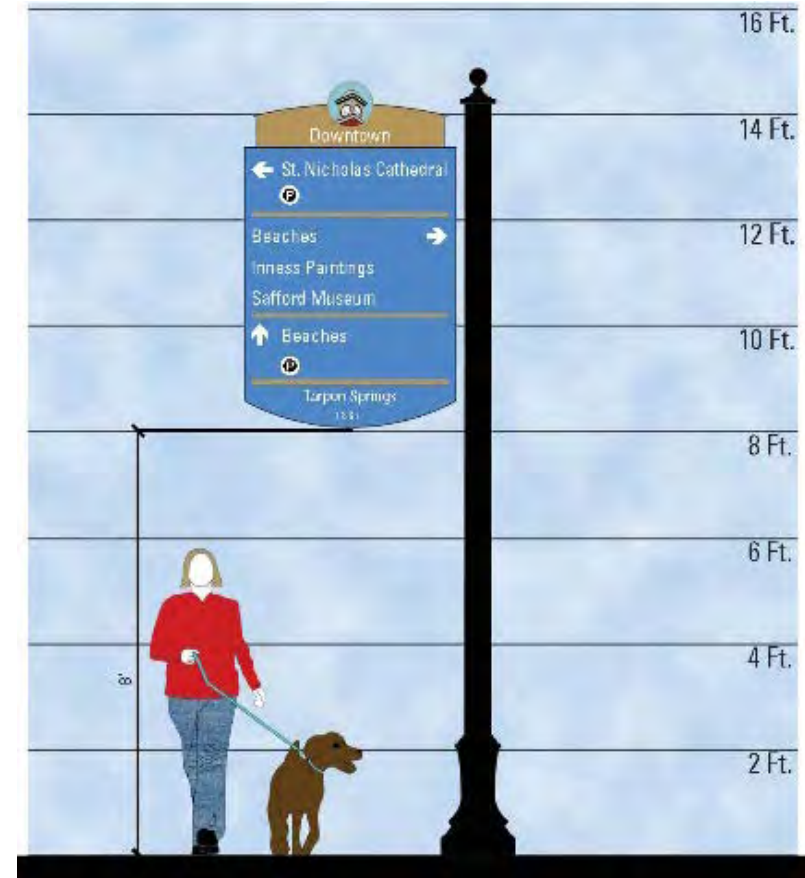

❑ Potential Amenities

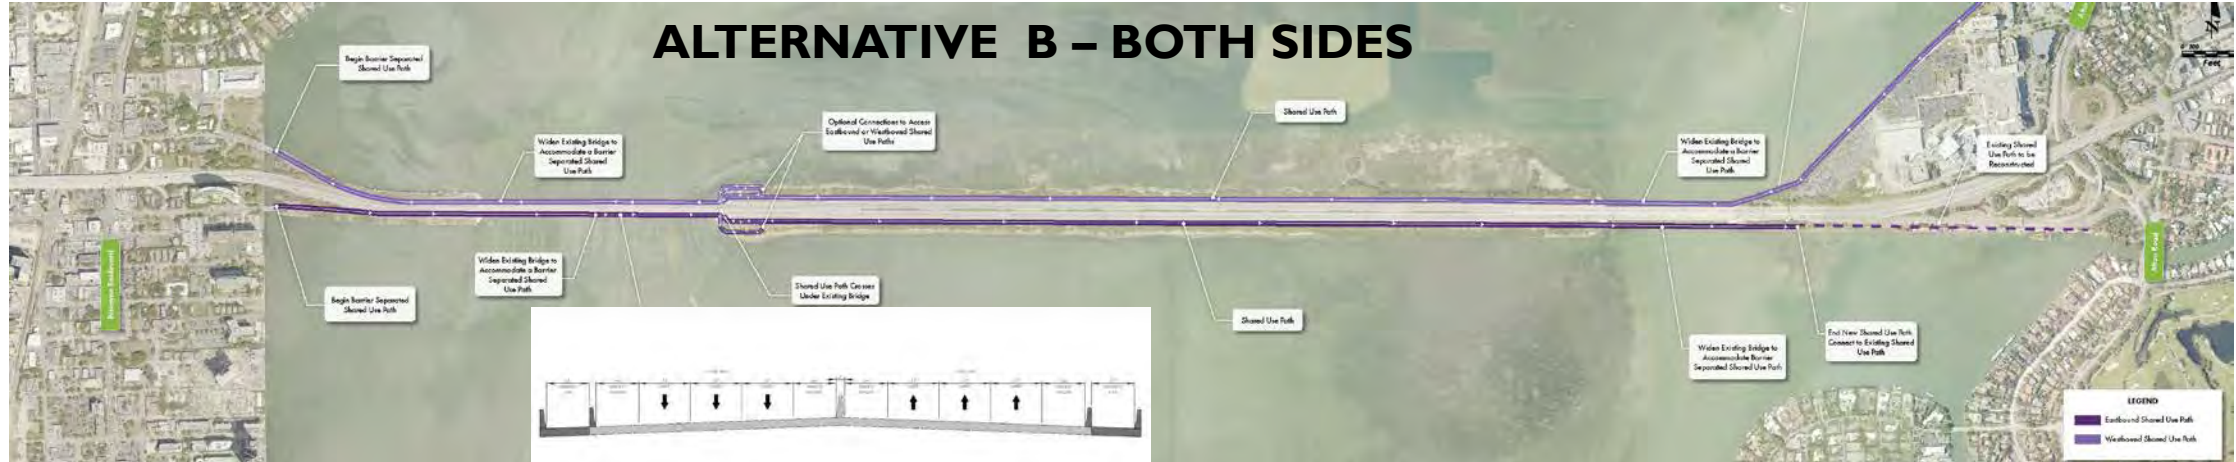

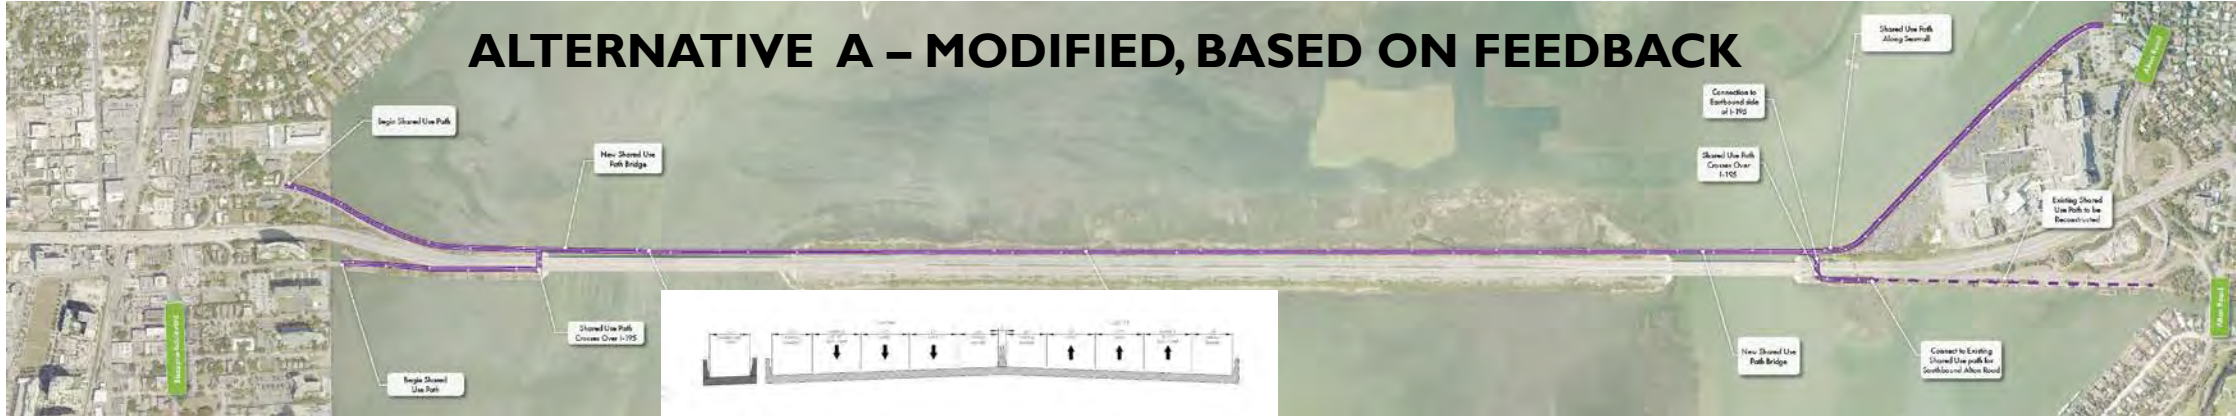

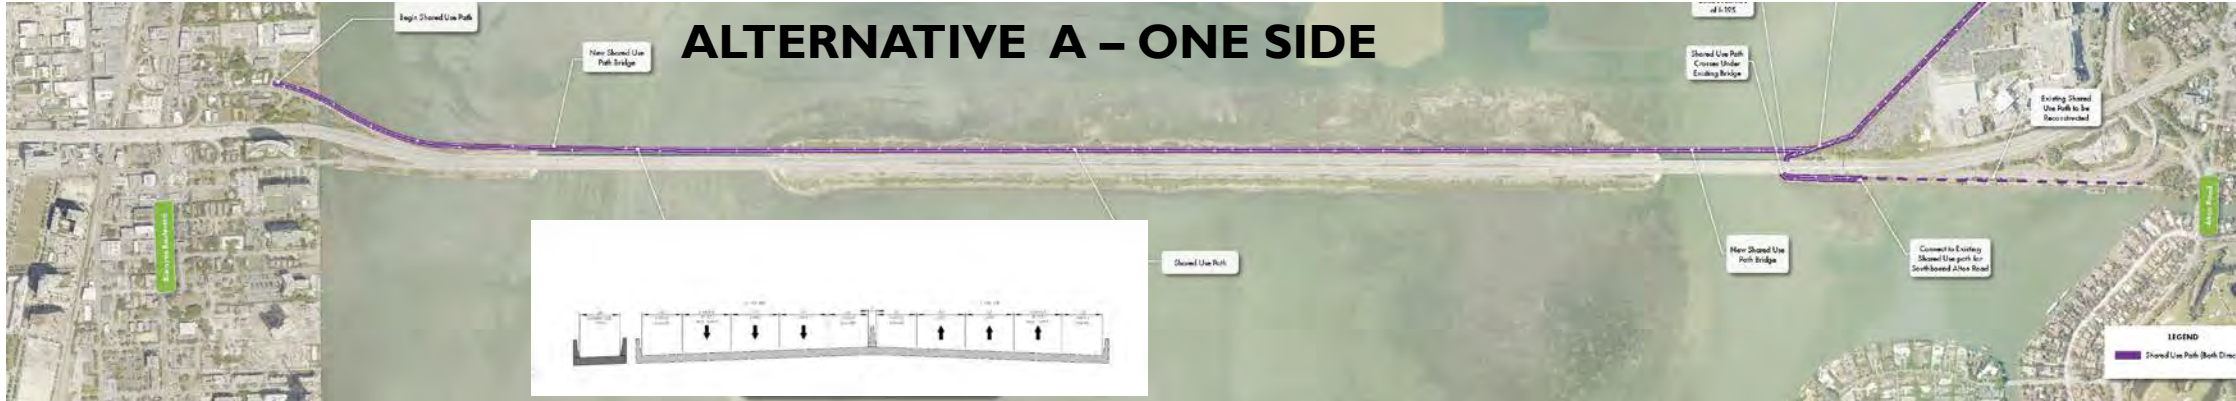

- Wayfinding / public information, art
- Rest areas (e.g., benches, trash bins)
- Other

❑ Emergency vehicle access

❑ Maintenance / liability

- Limited access ROW restrictions
- Litter patrol
- Security (e.g., operating hours, encampments)

CORRIDOR PLANNING STUDY WORKSHOP

DRIVING DOWN
FATALITIES

Miami-Dade TPO Bicycle/Pedestrian Advisory Committee (BPAC) Meeting

Date: Tuesday, February 25, 2020
Time: 5:30 p.m. to 7:30 p.m.
Location: Stephen P. Clark Center
111 NW 1 Street, Conference Room 18-2
Miami, Florida 33128
Attendees: The staff sign-in sheet is attached to this document.

I. Overview

The Miami-Dade Transportation Planning Organization (TPO) Bicycle/Pedestrian Advisory Committee (BPAC) invited the Interstate 195 (I-195) Corridor Planning Study Team to present the proposed Bicycle/Pedestrian Improvements. The BPAC meeting agenda is attached. Consultant Deputy Project Manager Lorin Brissett, P.E. introduced the bicycle/pedestrian improvements. Renaissance Planning's Dan Hardy, P.E., PTP discussed the Shared Use Path Alternatives.

II. BPAC Members:

Refer to the agenda for a complete list of board members.

III. Summary of Public Comments and Questions: (Lorin Brissett, P.E. responded to all questions/comments unless otherwise noted.)

- BPAC Board Member Eric Tullberg stated that the Department should consider the Virginia Key Beach Park configuration as a model to divide the proposed 14' path into 4' – 4' – 4' "lanes" for bikes (each direction) and peds (bidirectional) via paint to help separate users by speed and to avoid conflicts (and include a 1' shy zone on each side).
- BPAC Board Member Mike Fleming stated that concerns about trash are valid, but legitimate users will encourage good citizen behavior and a clean environment/bike path. The facility will be viewed as a benefit. An example is Oleta River State Park which provides eyes on the street with mountain bikers. Allowing access on both ends is a plus.
- Mr. Hardy (Renaissance Planning) advised a 2017 pilot study confirmed 20-40 riders daily. During recent observations, 7 riders were observed in 15 minutes, suggesting the daily volumes are likely in the 100 to 140 range.
- BPAC Board Member Mike Fleming estimated that the new e-bikes will lead to increased ridership on the path over time. The Global Cycling Network (www.globalcyclingnetwork.com) is a suggested resource providing information on the growing interest in e-bikes.

- BPAC Board Member Edgar Ayala supports the Modified A (especially with the lower cost than B).
- BPAC Board Member Francisco Arbelaez suggested that Alternative A should include an exercise loop in the center where the Causeway runs on land with access to a possible recreational and rest area. (Bridges would still have paths on just one side only).
- BPAC Board Member Hank Sanchez-Resnik asked if the bicycle/pedestrian facility will be integrated with the roadway on the east side. Mr. Hardy (Renaissance Planning) advised that the currently unimproved trail on the south side where the new path would tie into) would be paved in the future, and, on the north side, the path could continue along the seawall behind Mount Sinai Medical Center. He also mentioned that wayfinding will be important.
- BPAC Board Member Charles Fischer (who arrived late to the meeting), suggested that more consideration should be given to how both ends of the shared-use path connect to existing and future planned bikeways with particular focus given to how it might be integrated with 41st Street in Miami Beach.
- BPAC Chair Collin Worth noted the following about the project:
 - The south side of the Causeway offers a better viewshed;
 - A future path should consider implementing view corridors and opportunities for rest areas with seating;
 - A future path should be considered as an opportunity to provide access to the water;
 - Should consider ways to prevent people from parking to fish;
 - Ensure maintenance vehicles can access the area.
- BPAC adopted a resolution in support of the Modified Alternative A of the Shared Use Path as an excellent connection for bike/ped users between the Cities of Miami and Miami Beach. The committee further recommended:
 - Advancing modified Alternative A to Project Development & Environment (PD&E) phase;
 - Keeping the further development of the Shared Use Path alternative as a single standalone project decoupled from the other improvements being reviewed as part of the I-195 Corridor Planning Study.
- Mr. Brissett advised that some of the Base Improvements could also move forward separately.

IV. **Action Item:**

1. The committee actually voted to adopt a resolution in support of Modified Alternative A and moving the shared use path improvements to PD&E as part of a separate project.

V. Photo Summary

VI. End of Meeting Summary

This document is not a word-for-word transcript but is a summary of the comments. If you feel that clarifications are necessary, or if this differs from your understanding, please notify Charesse Chester, Public Information Specialist by telephone at 305-944-7564 or by email at cchester@creativisionmedia.com within five (5) working days upon receipt of this document.

STAKEHOLDERS/COMMUNITY AGENCIES MEETINGS

**Dacra Development Corporation /
Miami Design District
Meeting #1
January 19, 2018**

MEETING AGENDA

Meeting Title:	<u>Introductory Meeting with DACRA Representative(s)</u>
Date of Meeting:	<u>January 19, 2018 (Friday)</u>
Meeting Time:	<u>1:00 PM – 3:30 PM</u>
Location of Meeting:	<u>Design District - 3841 NE 2 Ave, Suite 400</u>
Purpose of Meeting:	<u>Introduce Project as well as Project Team and Receive Initial Input from DACRA</u>

Invited Staff

Dacra	FDOT	BCC	Creativision
Alex Schapiro Steven Gretenstein David Holtzman	Ken Jeffries Phil Steinmiller	Jose Munoz, PE Lorin Brissett, PE	Charesse Chester

Topics

- 1. Introductions**
- 2. Project Overview**
 - a) Study Limits
 - b) Scope
 - c) Overall Schedule
- 3. Project Status**
 - a) Current Tasks
 - b) Upcoming Tasks
- 4. Opportunities for Project Coordination**
 - a) Project Advisory Team
 - b) Public Workshops
- 5. Other Items for Discussion**

I-195 Corridor Planning Study Introductory Meeting With DACRA

Meeting Presentation:

January 19, 2018

Agenda

- **Introductions**
- **Project Overview**
- **Project Status**
- **Opportunities for Project Coordination**
- **Other Items for Discussion**

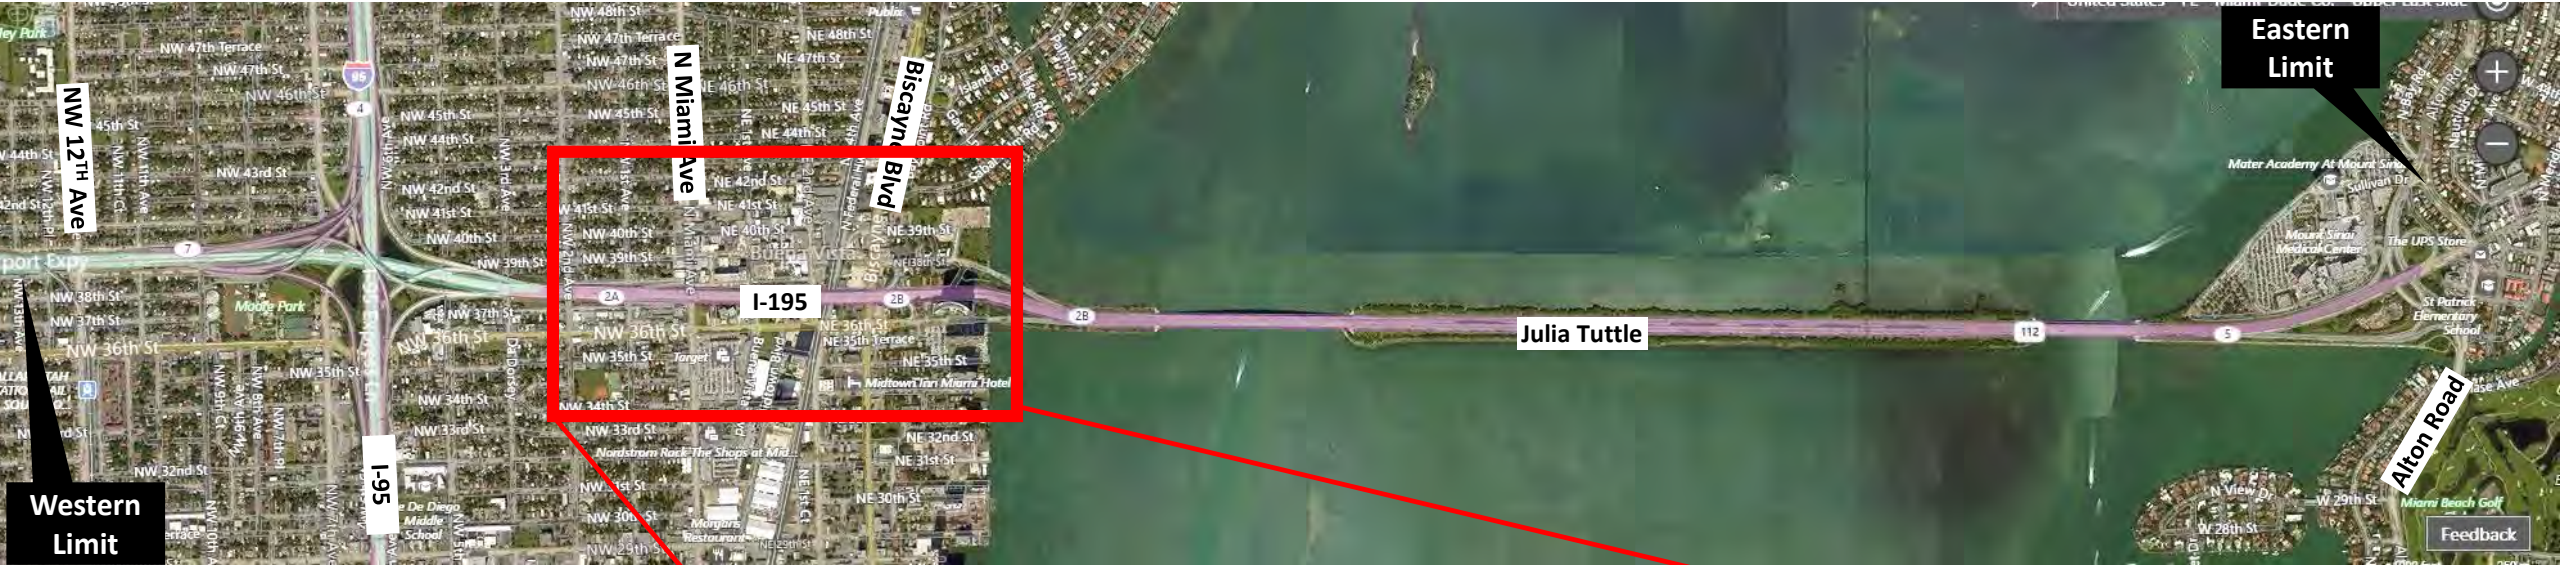

Project Overview (Study Area)

Project Overview (Direct Connection to 95 Express Lanes)

Project Overview (Improve Design District Interchange Access)

Project Overview (Improve Bike/Ped Access on Causeway)

Overview (Improve Alton Road Interchange Access)

Project Milestones

Task	Start	Finish
NTP	31-Aug-17	
Data Collection	22-Sep-17	9-Feb-18
Existing Conditions	12-Feb-18	7-Sep-18
Traffic Forecasting and Operations Modeling	21-Mar-18	2-Apr-19
Conceptual Engineering Alternatives	26-Sep-18	23-Apr-19
Development of Recommendations and Final Report	24-Apr-19	28-Aug-19

Project Status

- **Current Tasks**
 - **Data Collection Almost Complete**
 - **Developing Models For Traffic Analysis**
- **Upcoming Tasks**
 - **Existing Conditions Evaluation**
 - **Traffic Forecasting & Analysis**
 - **Stakeholder Coordination**
 - **Concept Development**

Project Coordination Opportunities

- **Project Advisory Team**
 - **Provide Guidance To Study Team**
 - **Comprises government & quasi-government representatives**
 - **Four Meetings**
- **Public Workshops**
 - **In City of Miami**
 - **In City of Miami Beach**

Questions??

Date and Time: Friday, January 19, 2018 – 1:30 p.m. – 2:30 p.m.

Meeting: I-195 Corridor Planning Study
Introductory Meeting with DACRA

Location: Miami Design District – 3841 NE 2 Avenue, Suite 400
Miami, FL 33137

I. Attendees

Alex Schapiro, Miami Design District Associates.
Jorge Espinal, Miami Design District Associates
Steven Gretenstein, DACRA
David Holtzman, DACRA
Maria Ruiz, DACRA
Ken Jeffries, FDOT
Charles Alfaro, FDOT
Phil Steinmiller, AECOM
Jose Muñoz, BCC Engineering
Lorin Brissett, BCC Engineering
Charesse Chester, Creativision MEDIA

II. Overview

DACRA/Miami Design District Associates requested a meeting to discuss their priorities for the study area. **FDOT Project Manager Ken Jeffries**, in his opening remarks discussed the objectives and status of the I-195 Corridor Planning Study (CPS).

Key discussion points are summarized below:

- **Alex Schapiro (Miami Design District Associates Development Manager)**
 - Improving access to and from Miami Beach into the Design District is a top priority.
 - Improving access at the North Miami Avenue ramps is another area of focus.
 - Design District was prompted to focus on improving access to neighborhood after Brightline launch. The main goal is to mitigate the negative impacts to traffic circulation due to the anticipated increase in frequency of train crossings.
 - DACRA owns 70% of land in the area.
 - **Mr. Jeffries** advised that FDOT initially considered extending the North Miami Avenue off ramp; however, the project went in a different direction.

- **Mr. Jeffries** stated that a fully funded Project Development & Environment (PD&E) Study will ultimately be required after the I-195 CPS is completed.
 - The project must follow the NEPA process to further develop long term improvements that will come from the I-195 CPS.
 - The I-195 CPS will evaluate the feasibility of an elevated facility as a long-term improvement.
 - Miami-Dade County has retained HNTB to conduct an Interchange Modification Report (IMR) to improve access at the N Miami Avenue interchange. FDOT is funding the study.
 - The Department will identify short-term solutions for the area where feasible.
 - Improvements proposed for NE 38th Street are complete.

- **Consultant Project Manager Jose Muñoz (BCC Engineering)** discussed other possible access improvements including:
 - Installing a separate bike facility along the Julia Tuttle Causeway.
 - Widening the Julia Tuttle Causeway if warranted by future needs.
 - Establishing separate movements for locally destined versus Miami Beach traffic on I-195.
 - Providing additional access points.

- **Steven Gretenstein (DACRA Chief Operating Officer)**
 - Underscored that improving movements from the neighborhood to Miami Beach is the priority.
 - Design District is committed to the FDOT study process and can help mobilize community and local business support as necessary.

- **Mr. Schapiro**
 - Estimates that during rush hour, a significant portion of north/south traffic diverts from I-95 to use local streets such as NE 2nd Avenue thereby negatively impacting neighborhood traffic circulation.
 - Working with AECOM to evaluate new rail crossing at NE 42nd Street .
 - Will be looking to take out crossing at NE 2nd Avenue/NE 36th Street and allow southbound to westbound movements only.
 - NE 42nd Street new crossing and NE 36 Street closing are considered one project
 - FDOT allocated funding for Miami-Dade County and City of Miami to conduct a traffic study. Designs completion scheduled for May 2018.
 - DACRA supports a Tri-Rail Station in the Design District as part of a Transit Oriented Development (TOD).
 - **Consultant PM Muñoz** mentioned that there would need to be a formal plan for the TOD in place before this can be considered or incorporated into the I-195 CPS.
 - DACRA is interested in incorporating some type of gateway feature from

I-195 into the Design District.

- **Mr. Jeffries** offered the example of the Wynwood community request for I-95 interchange access to provide some congestion relief, that was looked at as part of the I-95 CPS. The recommendation is to improve mobility by providing a frontage road.
- **Mr. Jeffries** explained the US 1 Corridor Planning Study proposes one-way pairs on the entire corridor to provide bike lanes.
- **Mr. Gretenstein** asked how the one-way pair would improve access to cross busy streets.
- **Mr. Schapiro** stated that:
 - DACRA owns properties on NE 39th Street could:
 - Provide an area to create another route to Miami Beach.
 - Be considered for a land swap to provide a better way out of the neighborhood
 - Dacra continues to work with Miami-Dade County to improve directional signage in the area
- **Mr. Jeffries** advised that the Baylink route may go on US 1 or NE 2 Avenue.
- **Consultant PM Muñoz** recommended to the DACRA representatives to:
 - Contact the FDOT Right of Way office to confirm that the Department's process to obtain the necessary ROW for improvements around the interchange is being followed. This will help to avoid unnecessary or unforeseen delays later on.
- **Mr. Schapiro** offered bike/pedestrian suggestions:
 - Provide wider sidewalks
 - Increase on-street parking
 - Improve lighting
- **Mr. Gretenstein** offered additional comments on improving bike/ped experience:
 - Create a pedestrian friendly environment
 - Provide access from Midtown
 - Improve pedestrian crossing at NE 36th Street

III. Action Items

- FDOT project team will actively consider the input provided by the DACRA representatives in this meeting as the I-195 CPS progresses.

I-195 Corridor Planning Study

Miami Design District
Meeting #2
April 17, 2020**

I-195 Corridor Planning Study

Design District Meeting

April 17, 2020

District 6

STUDY AREA & BACKGROUND

- Important Limited Access Facility Connecting Miami International Airport and Miami Beach
- Carries average 130,000 Vehicles Per Day – Total both directions
- Provides Access to Several High Growth Neighborhoods
- Continued Growth Expected to increase demand exacerbating access issues

PROJECT PURPOSE AND NEED

- **Project Purpose:**

To provide multimodal improvements within the I-195 study corridor to address identified mobility and safety needs.

- **Need for:**

- **Better System Linkage including; better access to the I-95 express lanes east of I-95; better interchange access; separated bike/ped facility between City of Miami and City of Miami Beach.**
- **Increased transportation capacity to handle future transportation demand.**
- **Improved transportation system to facilitate the interaction of all transportation modes impacting the corridor.**
- **Better safety outcomes for the future.**

STUDY FOCUS AREAS

FOCUS AREA #1 (Direct Connection to 95 Express Lanes)

Western Limit

Eastern Limit

FOCUS AREA #2 (Improve Interchange Access in Midtown Area)

FOCUS AREA #3 (Improve Bicycle Access on Causeway)

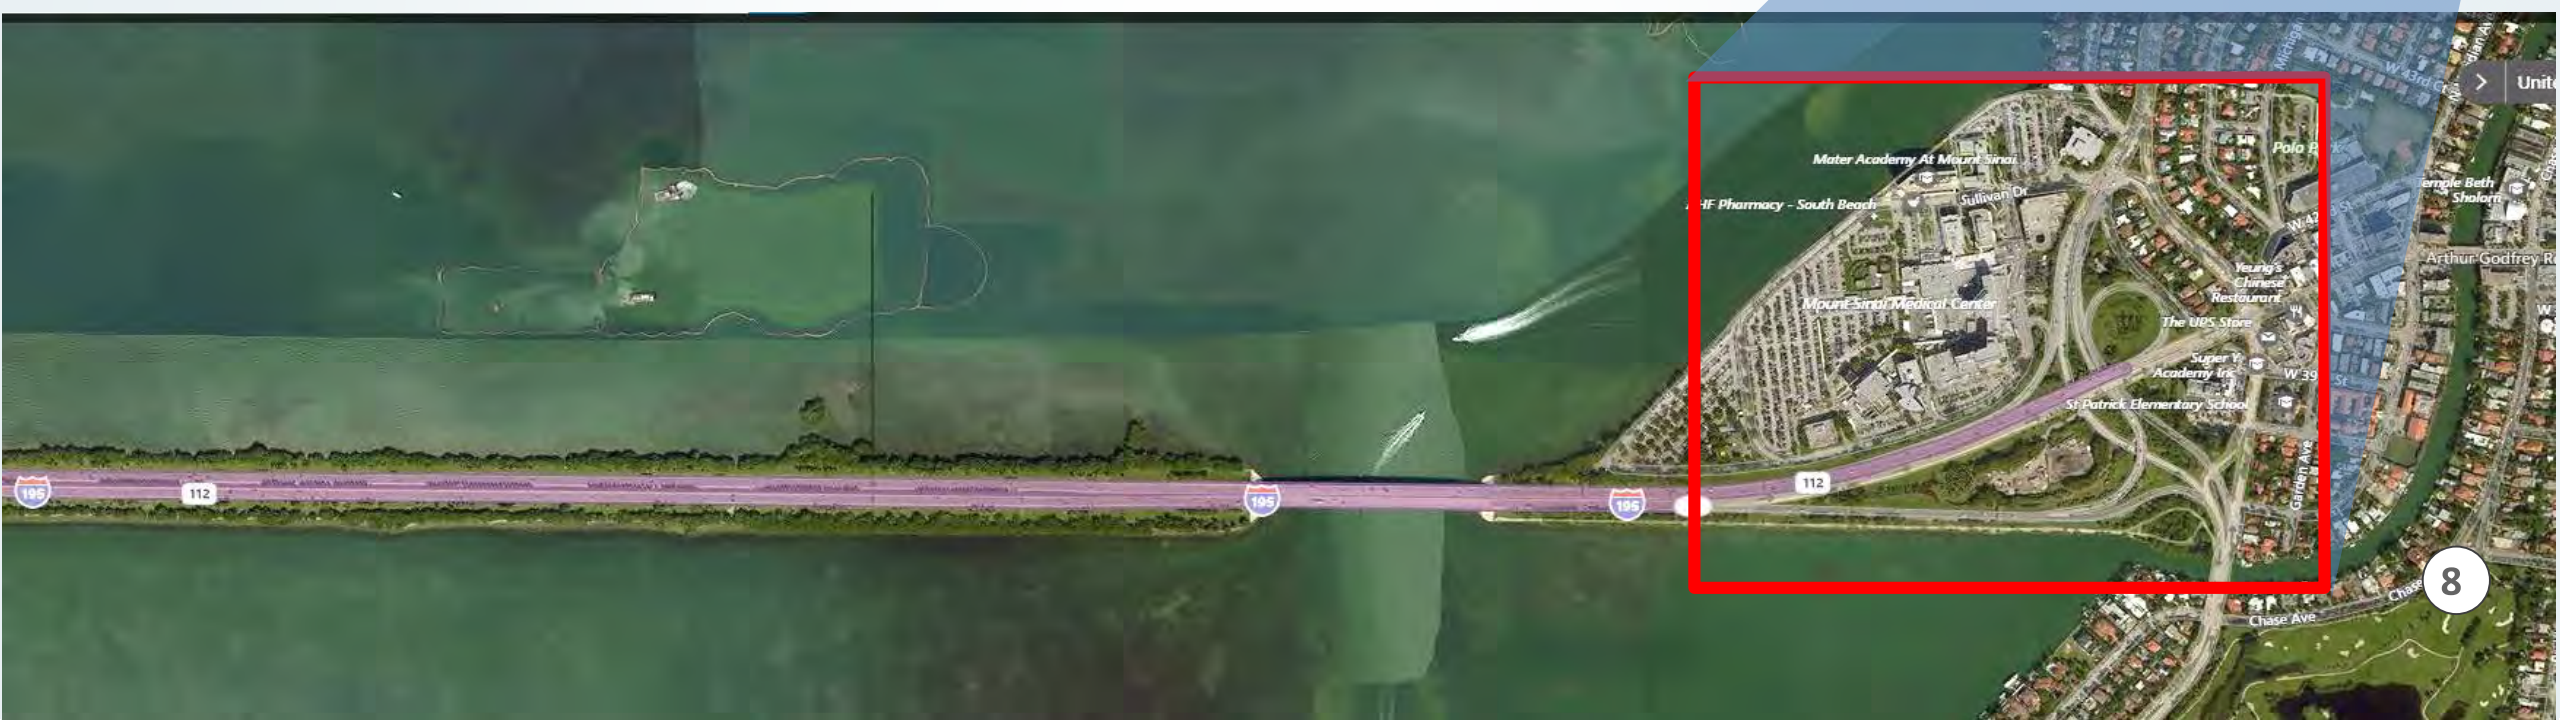

FOCUS AREA #4 (Improve Alton Road Interchange Access)

Eastern Limit

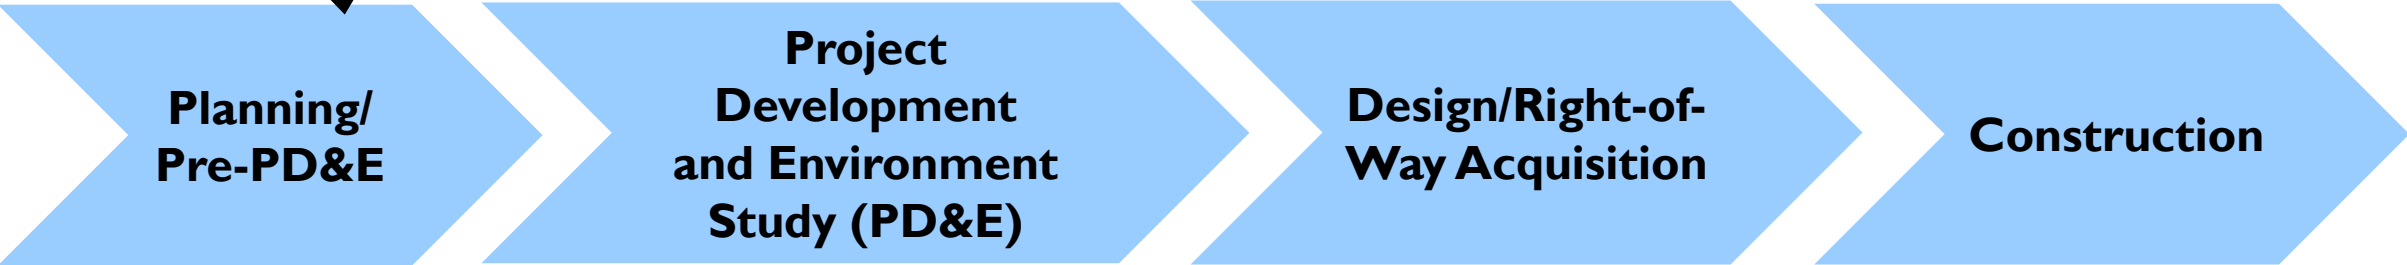

Western Limit

FDOT PROJECT DEVELOPMENT PROCESS

We're Here

Develop initial concepts, estimate costs/impacts, and inform public

Refine concepts, engage public, define costs/impacts, complete environmental analysis, and identify final concept

Prepare surveys, design plans & right of-way plan, and engage public

Phased implementation, maintenance of traffic, and public outreach

- 1) Golden Glades Interchange (North of Study Area) – Design Phase
- 2) Alton Road to Westbound SR 112 On-Ramp (Mt. Sinai) – Design Phase
- 3) Bus on Shoulder Express Bus Service SR 112 – Upcoming Design Phase
- 4) I-95 Improvements – Upcoming PD&E

Tier 1 Concepts

- Identify Improvements
 - Base
 - System
 - Bicycle/pedestrian facilities
- Qualitative Evaluation
- Quantitative Evaluation
- Identify Tier 2 Improvements

Tier 2 Concepts

- Additional Qualitative / Quantitative Evaluations
 - Base
 - System
 - Bicycle/pedestrian facilities
- Identify Recommended Improvements for refinement

Refined Concepts

- Refine Recommended Improvements
 - Base
 - System
 - Bicycle/pedestrian facilities
- Cost / Right-of-Way Evaluation
- Concept Plans

REVIEW OF TIER 1 ALTERNATIVES

- Three groups of improvements

Base Improvements

➤ Identified to address operational deficiencies as well as specific local issues raised by stakeholders.

System Improvements

➤ Address key study objectives relative to improving system linkage, system capacity, accommodating future transportation demand, modal interrelationships, and addressing safety.

Bicycle / Pedestrian Improvements

➤ Provide improved bicycle/pedestrian connectivity between the City of Miami and Miami Beach via a separated protected facility consistent with the visions of the Miami-Dade Long Range Transportation Plan & the City of Miami Beach Master Plan.

- Eight (8) Base Improvements

- **Three (3) Alternatives:**
 - **Alternative 1 - Direct Connections to 95 Express Lanes**

SYSTEM IMPROVEMENTS

- Alternative 2 - Direct Connections to 95 Express Lanes with New Viaduct on I-195

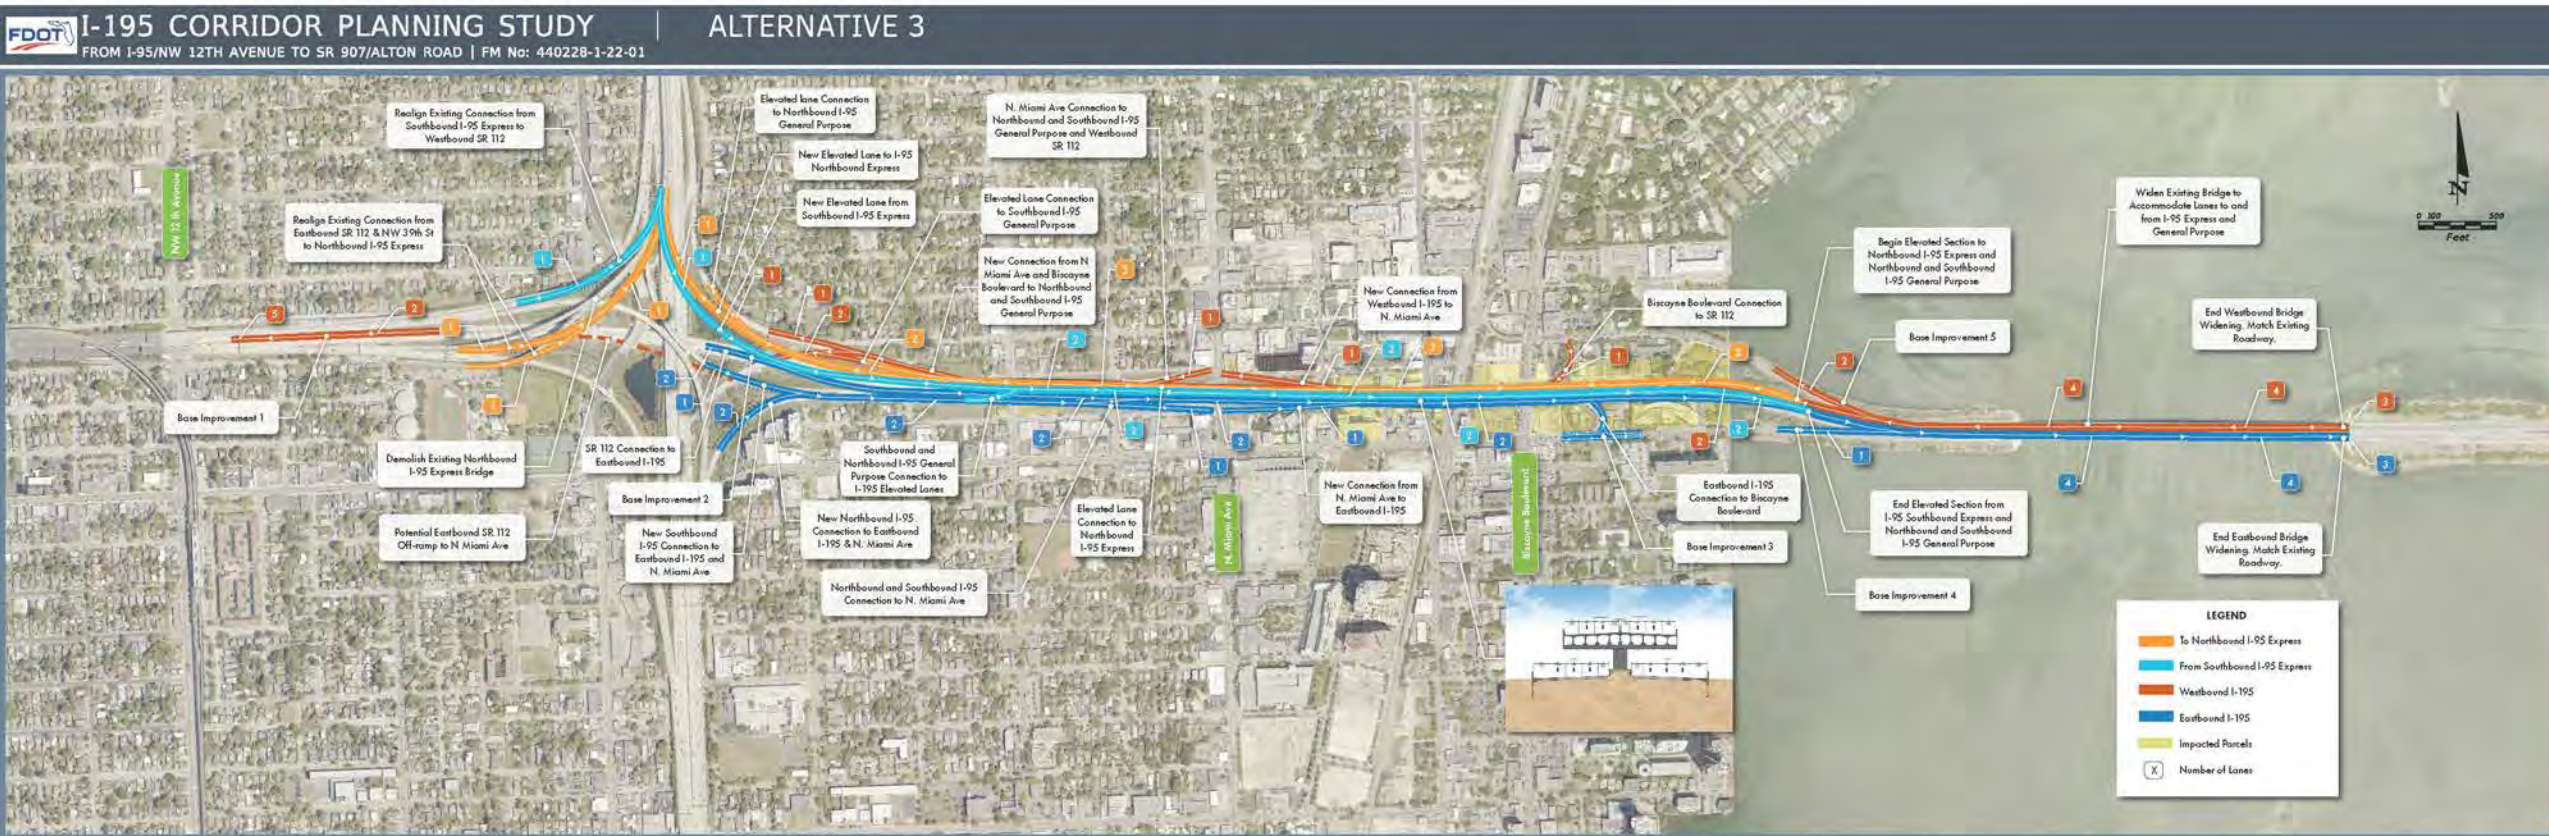

FDOT I-195 CORRIDOR PLANNING STUDY
FROM I-95/NW 12TH AVENUE TO SR 907/ALTON ROAD | FM No: 440228-1-22-01

ALTERNATIVE 2

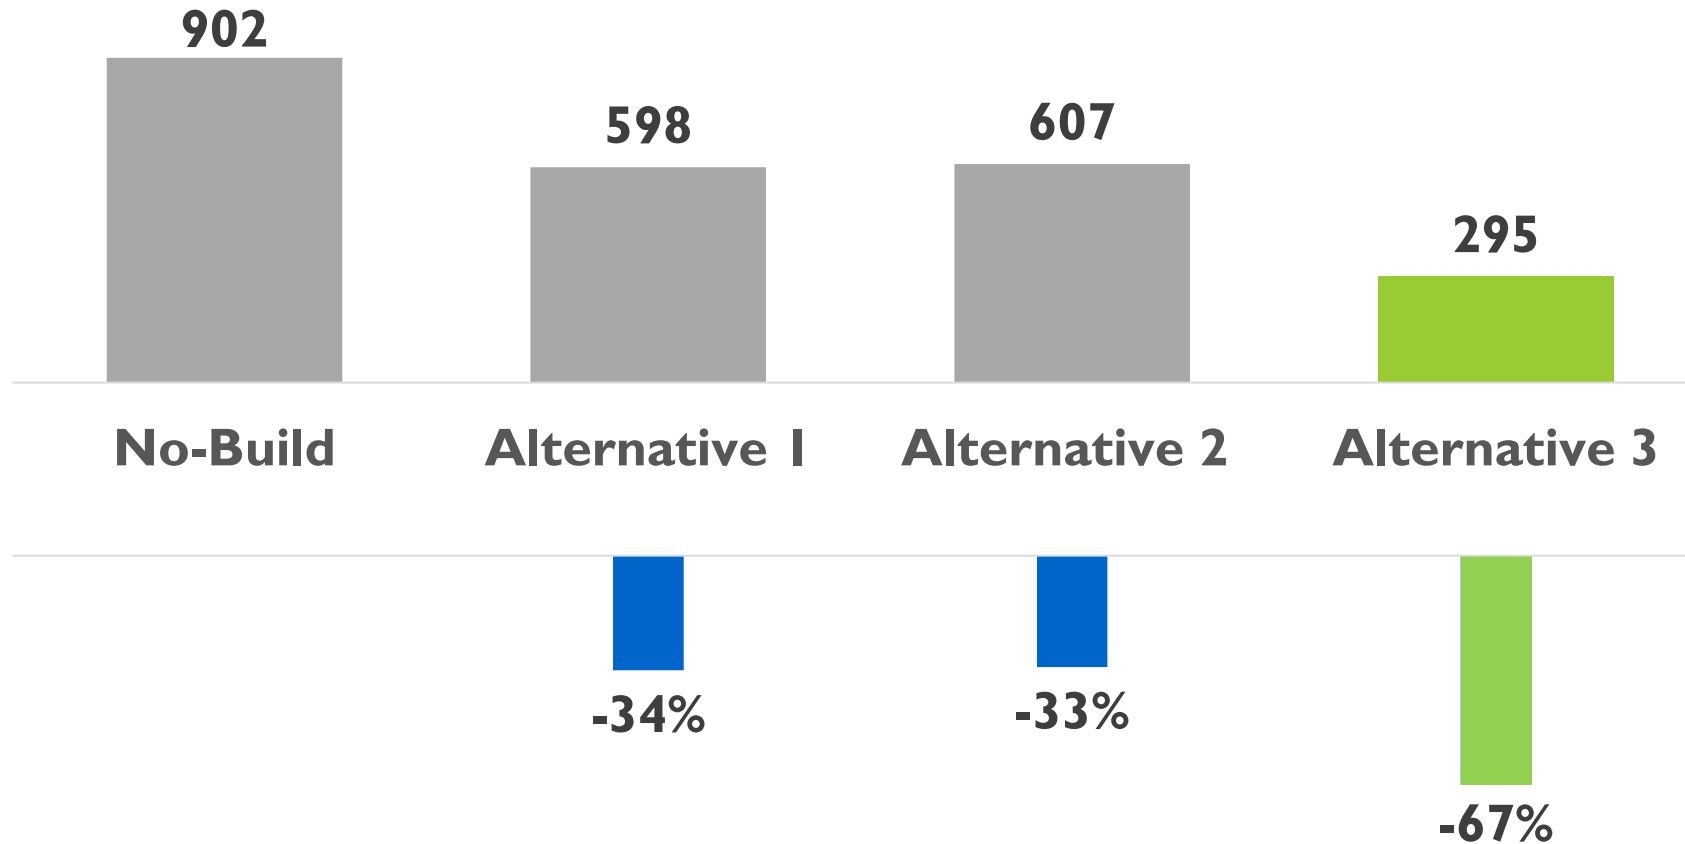

SYSTEM IMPROVEMENTS

- **Alternative 3 - Direct Connections between 95 Express Lanes / I-95 General Use Lanes and New Viaduct on I-195**

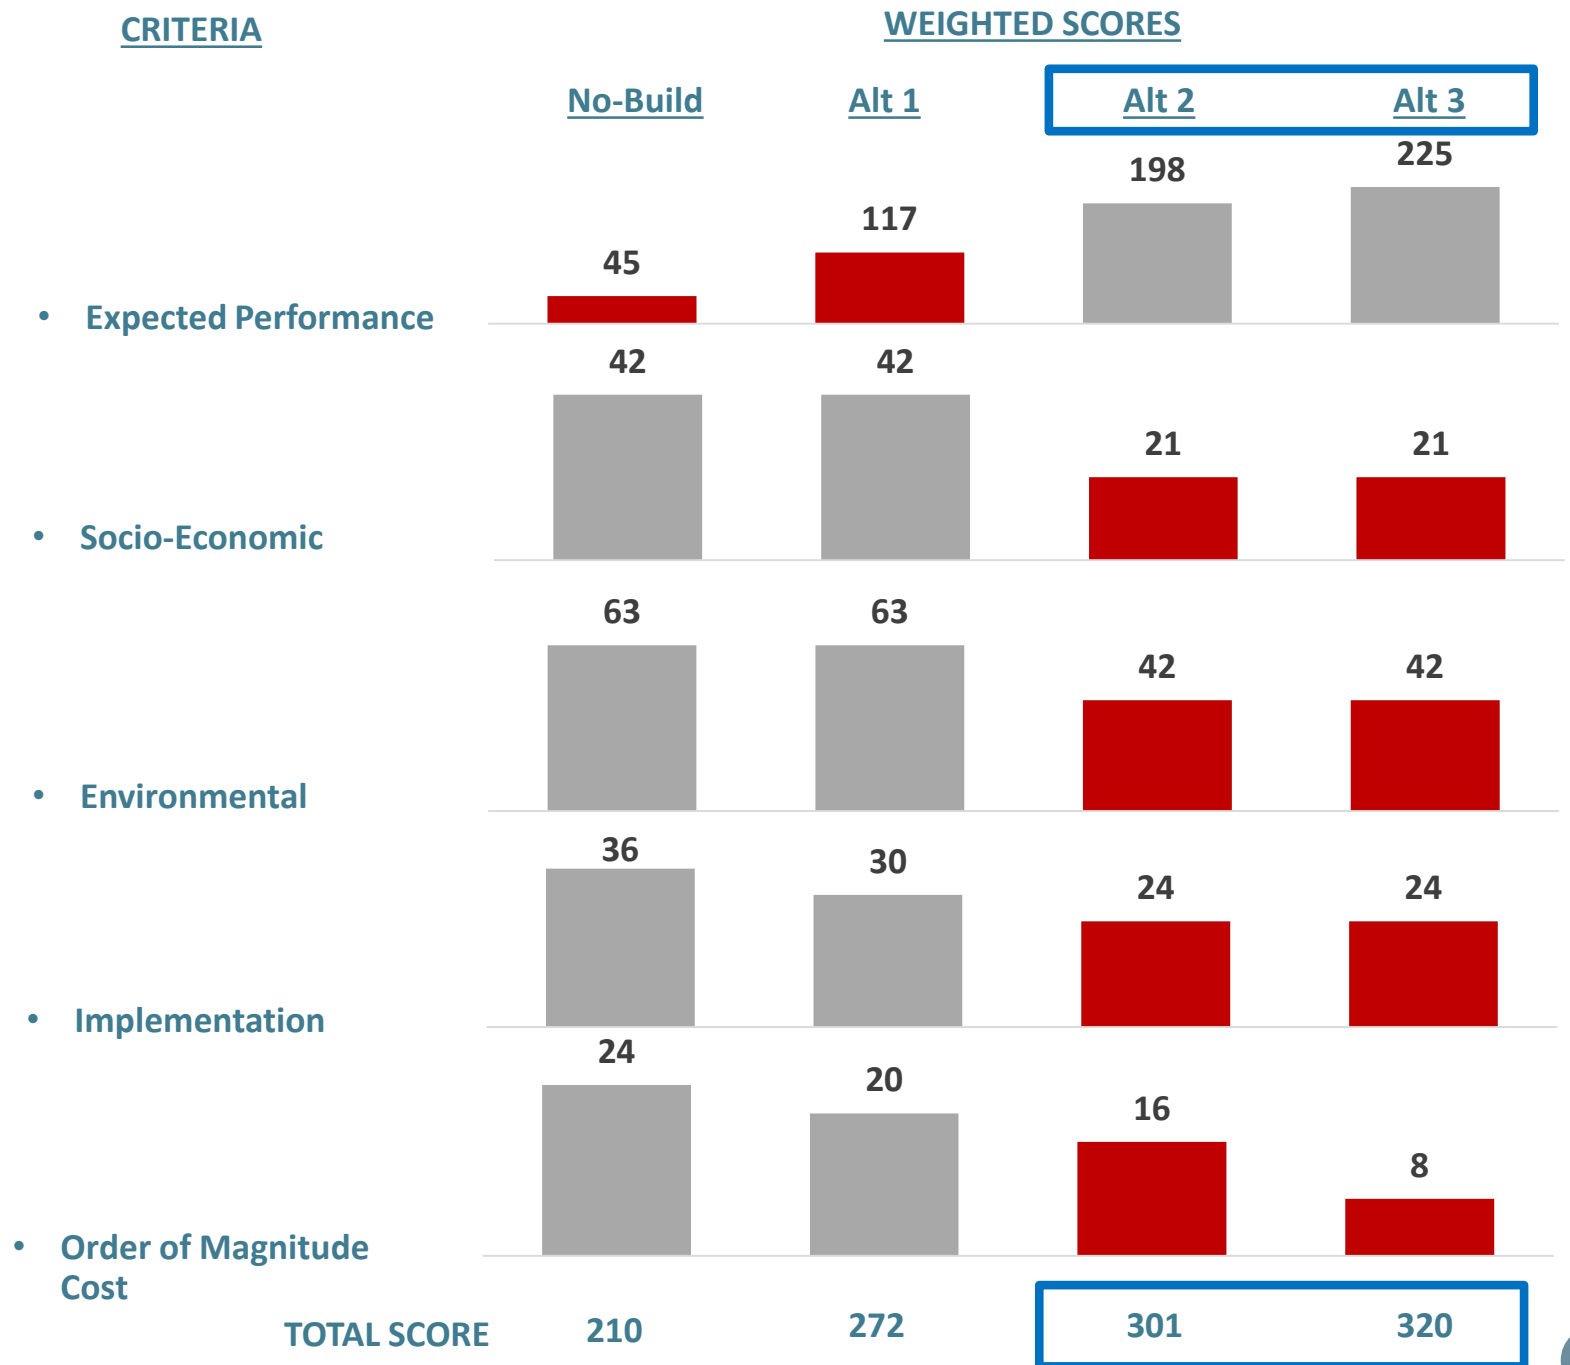

PRELIMINARY SYSTEMS OPERATIONS SUMMARY (VEHICLE HOURS OF DELAY)

- In 2045, No-Build has 902 vehicle hours of delay for AM and PM peak hours combined
- Alternatives 1, and 2 reduce delay by about one-third
- Alternative 3 reduces delay by about two-thirds

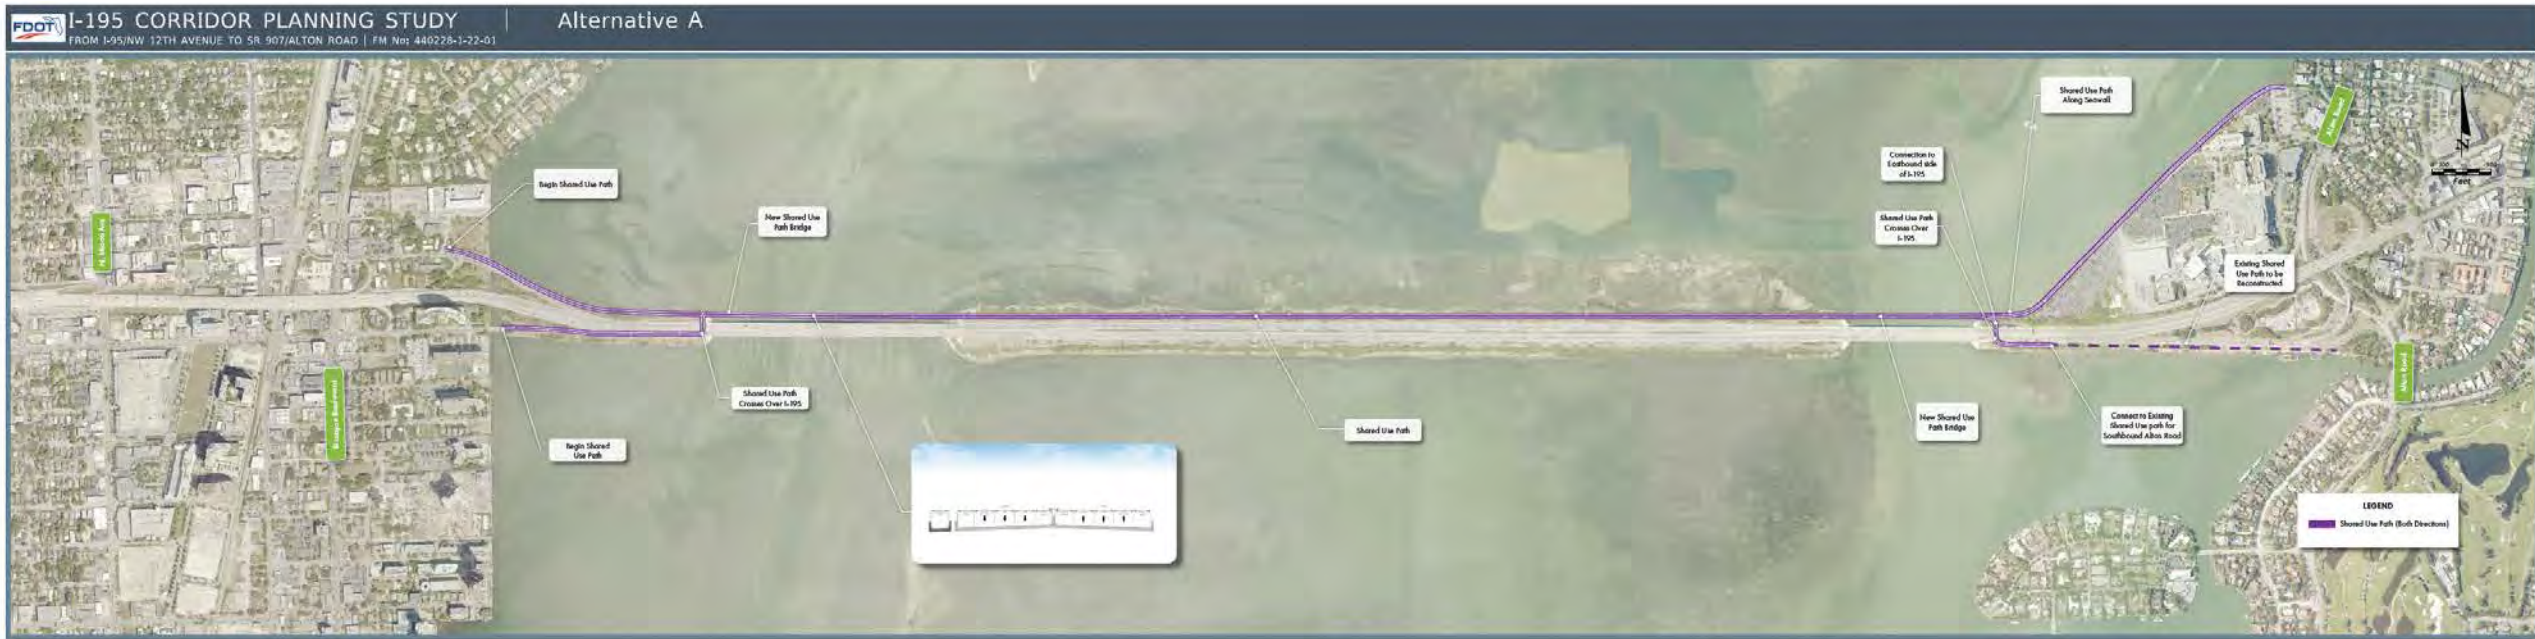

EVALUATION RESULTS (System Improvements)

- Alt 1 - Direct Connections to 95 Express Lanes
- Alt 2 - Direct Connections to 95 Express Lanes with New Viaduct on I-195
- Alt 3 - Direct Connections between 95 Express Lanes / I-95 General Use Lanes and New Viaduct on I-195

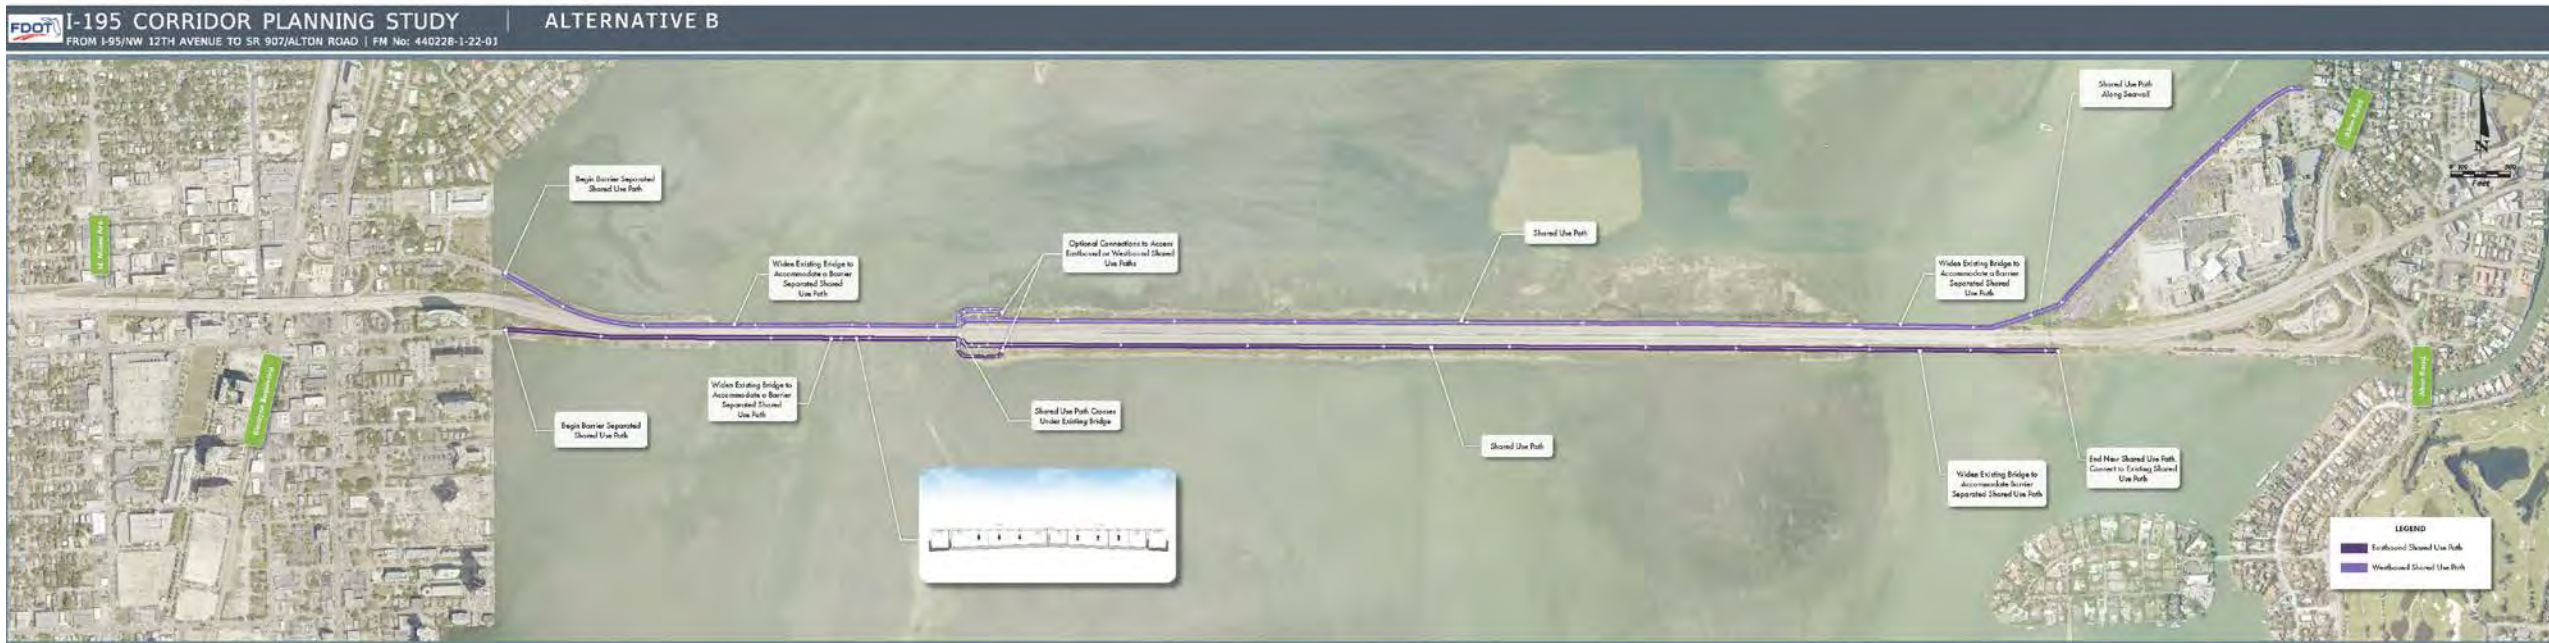

- **Two (2) Alternatives:**

- **Alternative A - 14' Shared use Path With Bridge Structures On One Side Of Julia Tuttle Causeway.**

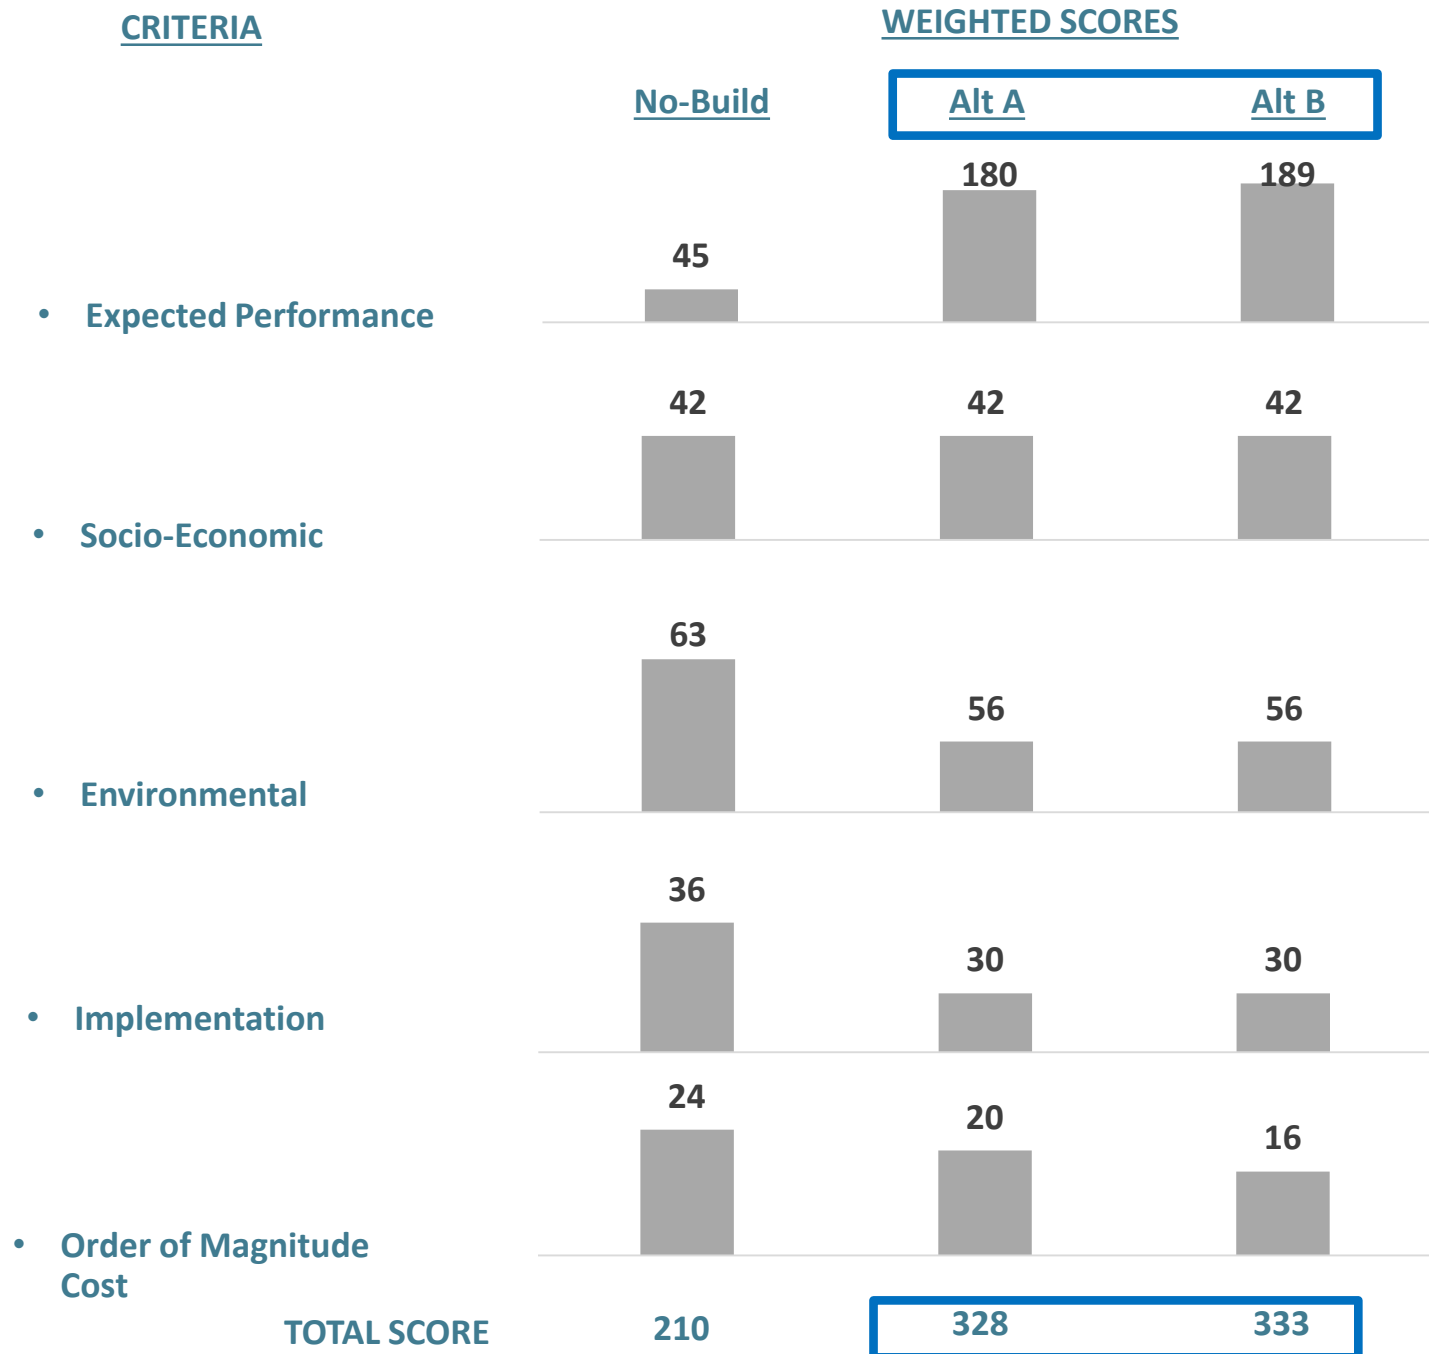

- **Alternative B - 12' Shared Use Paths With Widening Of Existing Causeway Bridges On North And South Sides.**

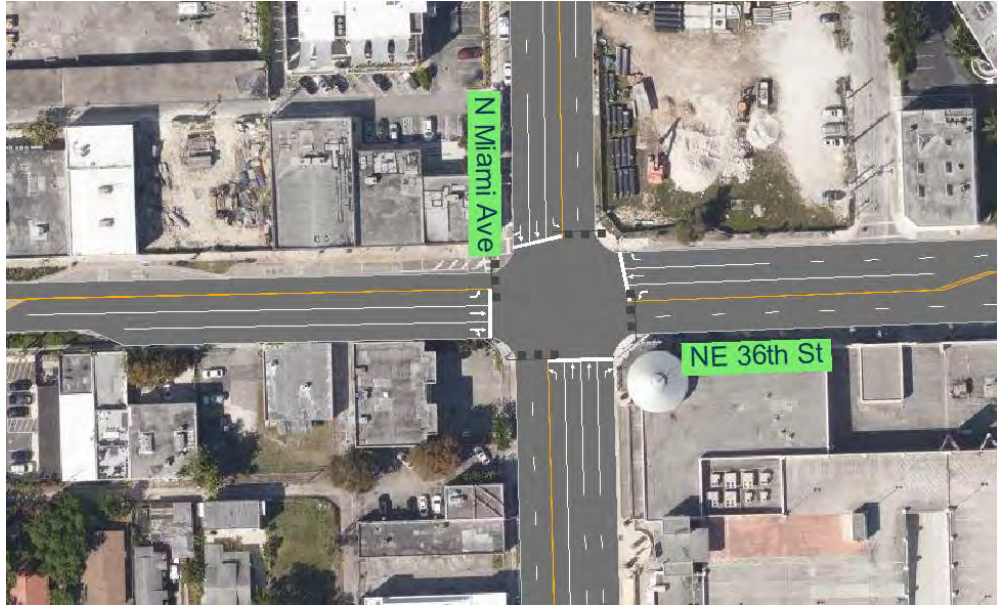

EVALUATION RESULTS (Bicycle / Pedestrian Improvements)

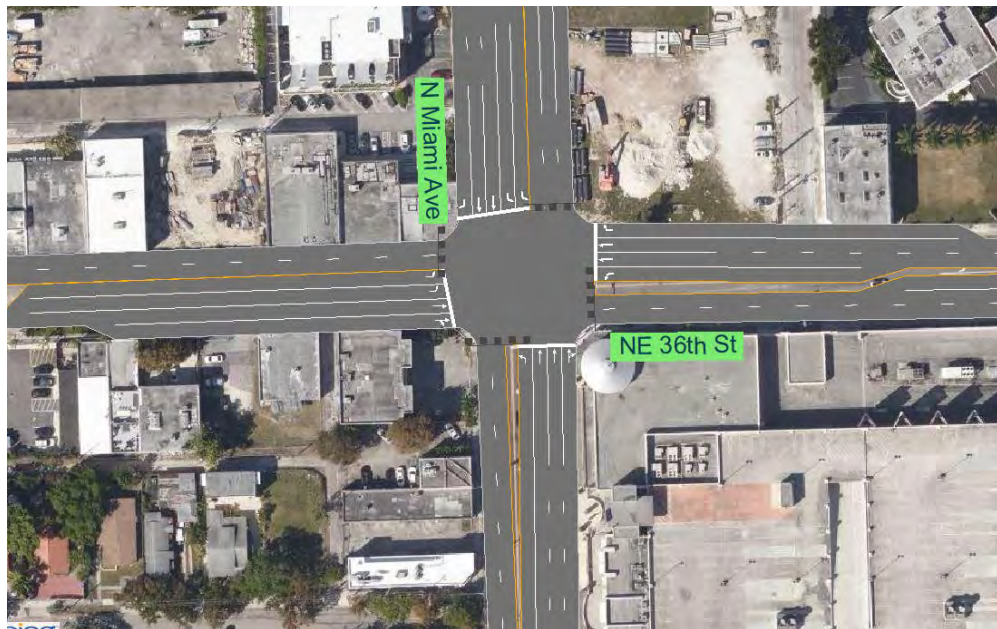

- Alt A - 14' Shared Path With Bridge Structures On One Side Of Julia Tuttle Causeway
- Alt B - 12' Shared Use Paths With Widening Of Existing Causeway Bridges On North And South Sides.

EXISTING

PROPOSED

- **Lane additions:**

- Exclusive right and left turn lanes on the southbound approach
- Exclusive left turn lane on the eastbound approach
- Through lane on the westbound approach

- **Lane utilization:**

- Modify northbound exclusive right turn lane to a shared through-right lane

- **Retime / Optimize signal timing**

OTHER INTERSECTION IMPROVEMENTS (N Miami Avenue & I-195 EB Off-Ramp)

EXISTING

PROPOSED

• Lane additions:

- New left turn lane on the southbound approach for the proposed on-ramp from N Miami Avenue to I-195 Eastbound
- Exclusive right turn lane on the eastbound approach
- New shared through-right lane on the northbound approach for the proposed on-ramp from N Miami Avenue to I-195 Eastbound

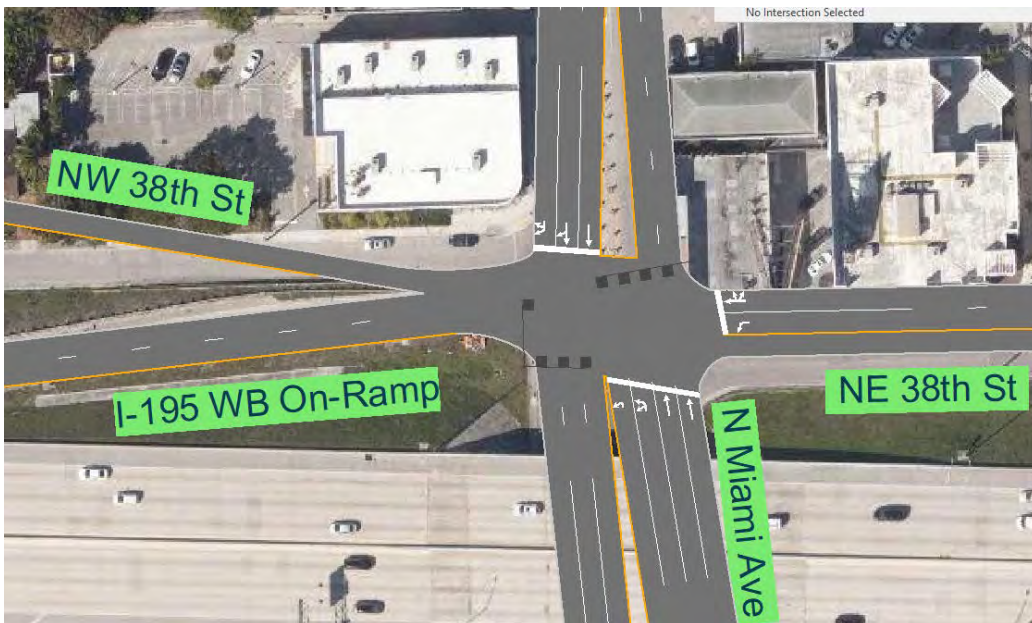

• Retime / Optimize signal timing

OTHER INTERSECTION IMPROVEMENTS (N Miami Avenue & I-195 WB On-Ramp)

EXISTING

PROPOSED

• Lane additions:

- Right turn lane to serve the I-195 westbound on-ramp/NW 38th Street on the southbound approach
- Exclusive left turn lane on the northbound approach
- New left turn lane on the westbound approach from the proposed westbound off-ramp to N Miami Avenue
- Modify the I-195 westbound on-ramp from a single lane to a two-lane ramp

• Retime / Optimize signal timing

OTHER INTERSECTION IMPROVEMENTS (NE 36th St & NE 1st Ave)

EXISTING

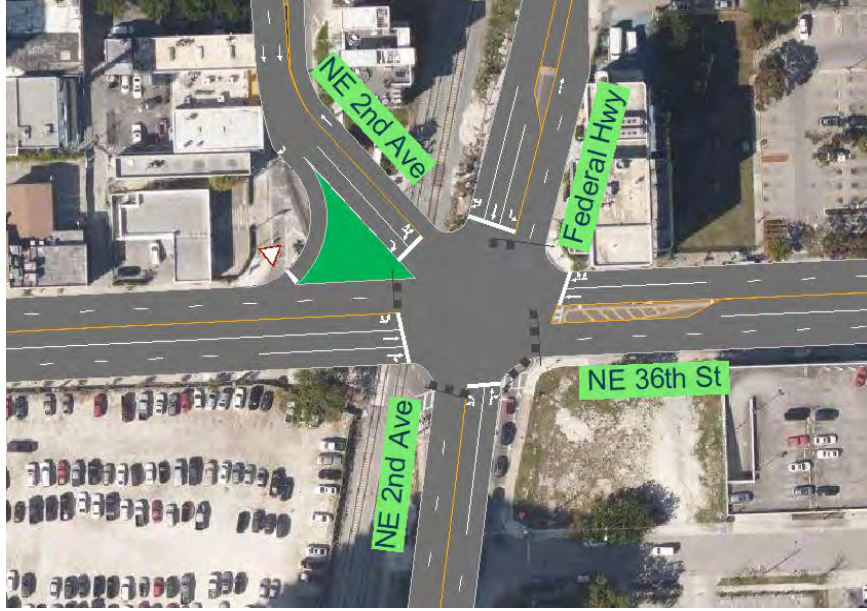

PROPOSED

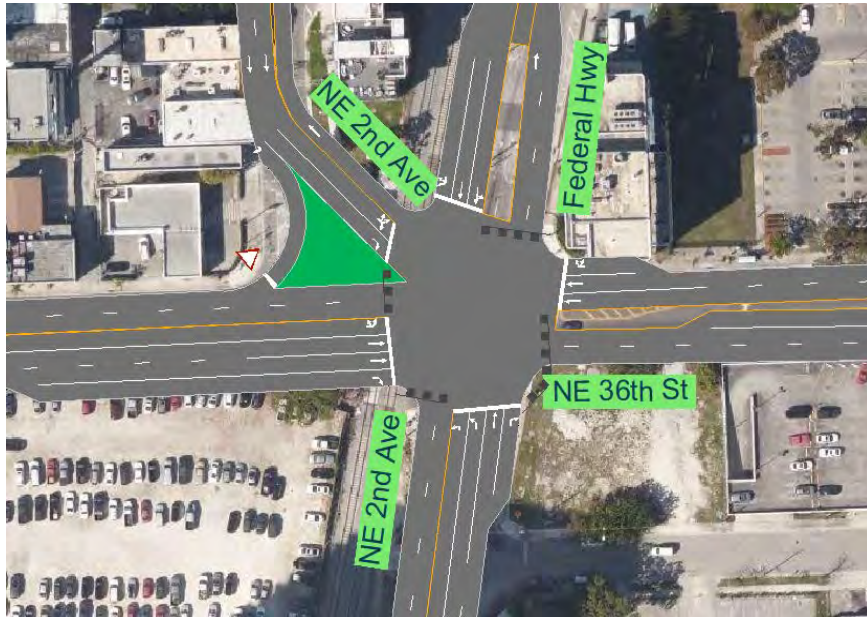

- Propose traffic signal to replace existing stop-control

OTHER INTERSECTION IMPROVEMENTS (NE 36th St & NE 2nd Ave & Federal Highway)

EXISTING

PROPOSED

• Lane additions:

- Exclusive right turn lane on the eastbound approach
- Exclusive left and right turn lanes on the northbound approach
- Exclusive right turn lane on the westbound approach

• Lane utilization:

- The exclusive left turn lane on the southbound approach will be modified to a shared left-through lane

• Retime / Optimize signal timing

OTHER INTERSECTION IMPROVEMENTS (NE 39th St/NE38th St & Federal Highway)

EXISTING

PROPOSED

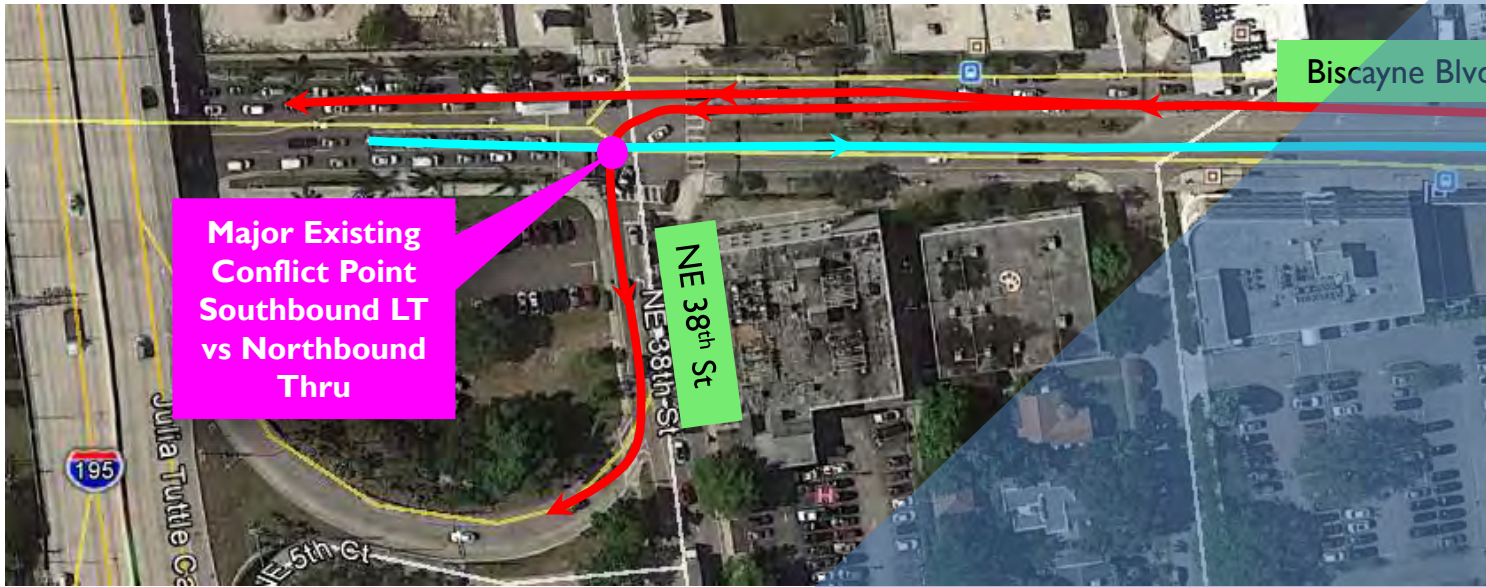

- **Lane additions:**

- Exclusive left turn lane on the eastbound approach
- Exclusive left turn lane on the northbound approach

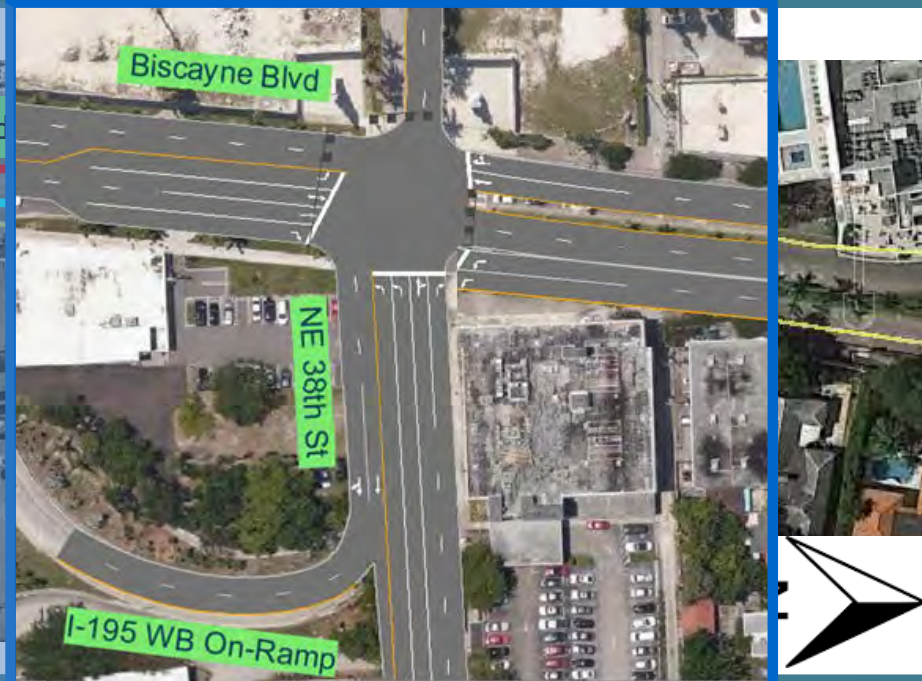

- **Retime / Optimize signal**

OTHER INTERSECTION IMPROVEMENTS (US 1 at NE 38th ST)

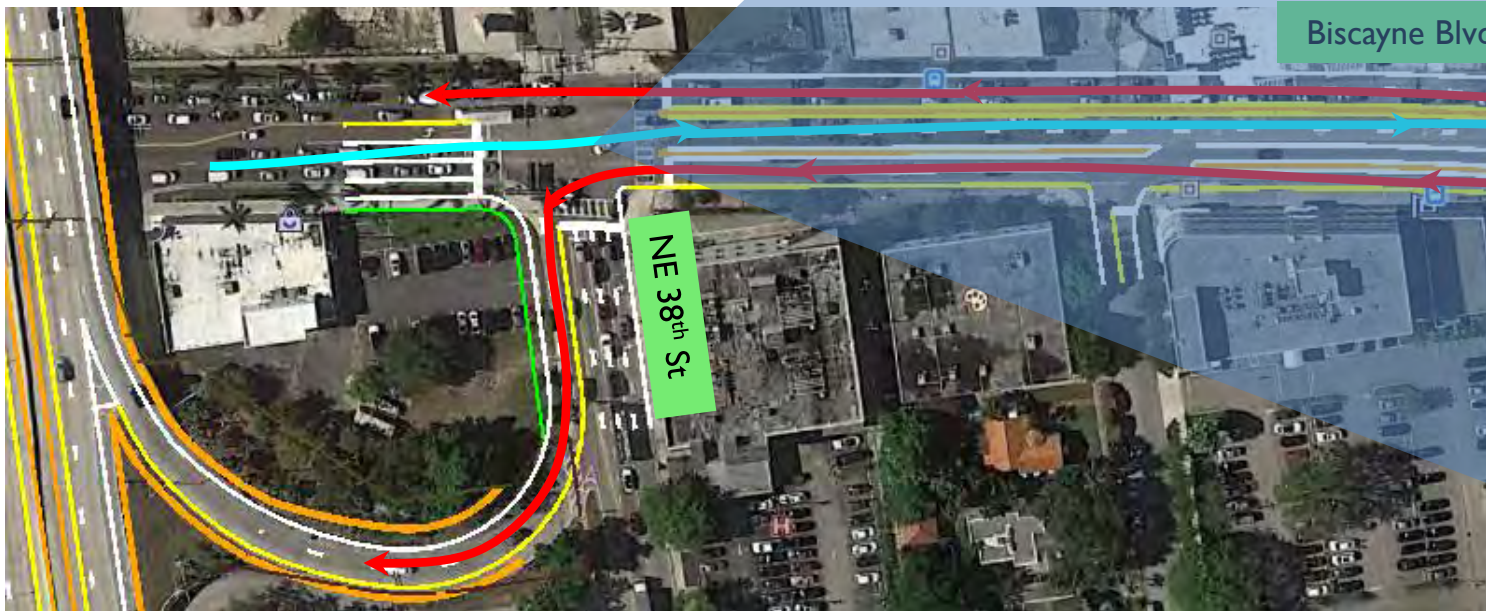

EXISTING

Major Existing Conflict Point Southbound LT vs Northbound Thru

PROPOSED

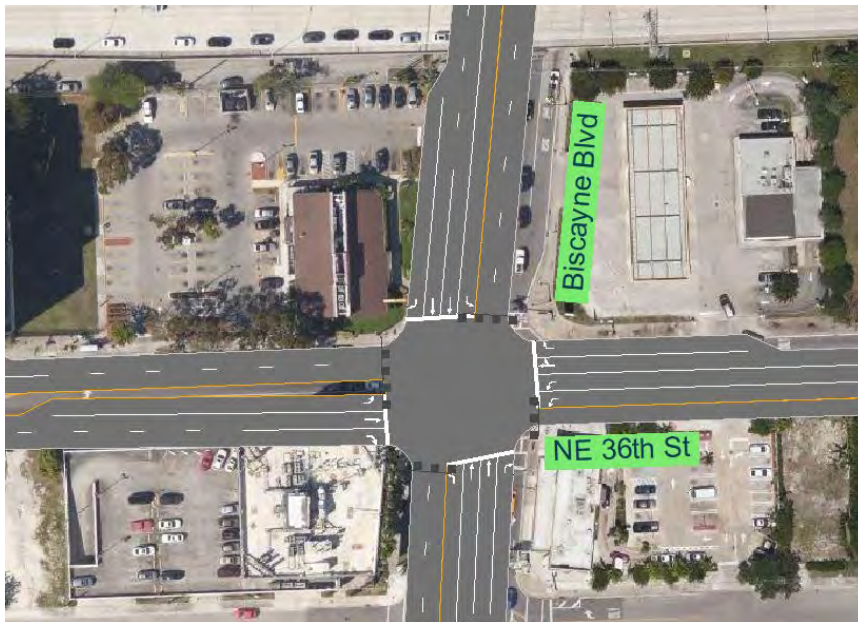

- Geometric Improvements:
 - Implement two-lane Displaced left turn concept
 - Add exclusive left turn lane on the westbound approach
 - Add exclusive right turn lane on northbound approach
- Lane utilization:
 - Westbound approach: two exclusive left turn lanes, a shared through-right lane and an exclusive right turn lane
- Retime / Optimize signal timing

EXISTING

PROPOSED

- **Lane additions:**

- Exclusive right turn lane on the southbound approach
- Exclusive left turn lane on the westbound approach

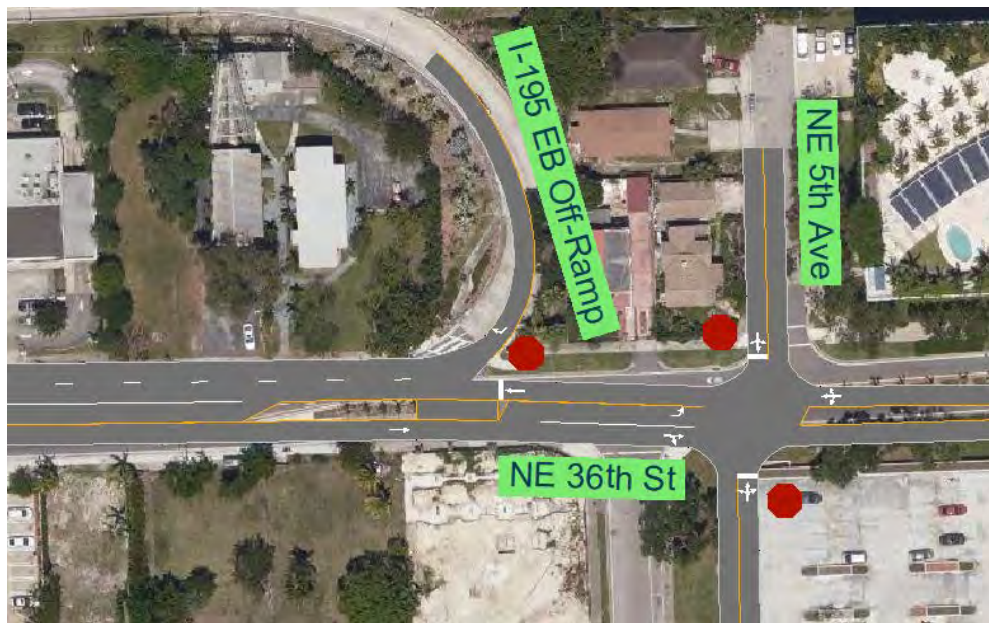

- **Lane utilization:**

- The westbound approach will have two exclusive left turn lanes, a shared through-right lane and an exclusive right turn lane

- **Retime / Optimize signal timing**

OTHER INTERSECTION IMPROVEMENTS (US-1 Off-Ramp at NE 36th St)

EXISTING

PROPOSED

- **Concept:**

- Provide access to the condominiums on the east side of the ramp
- Improve capacity of ramp terminal

- **Lane additions & Intersection Control:**

- Exclusive left turn lane from the off-ramp
- Westbound through movement and southbound left turn lane from the off-ramp under signal control

ONGOING EFFORTS TO COMPLETE PLANNING STUDY

- **Base Improvements**

- Concept plans for all improvements being developed
- Potential ROW Impacts are being quantified
- Construction Cost Estimates being developed

- **System Improvements**

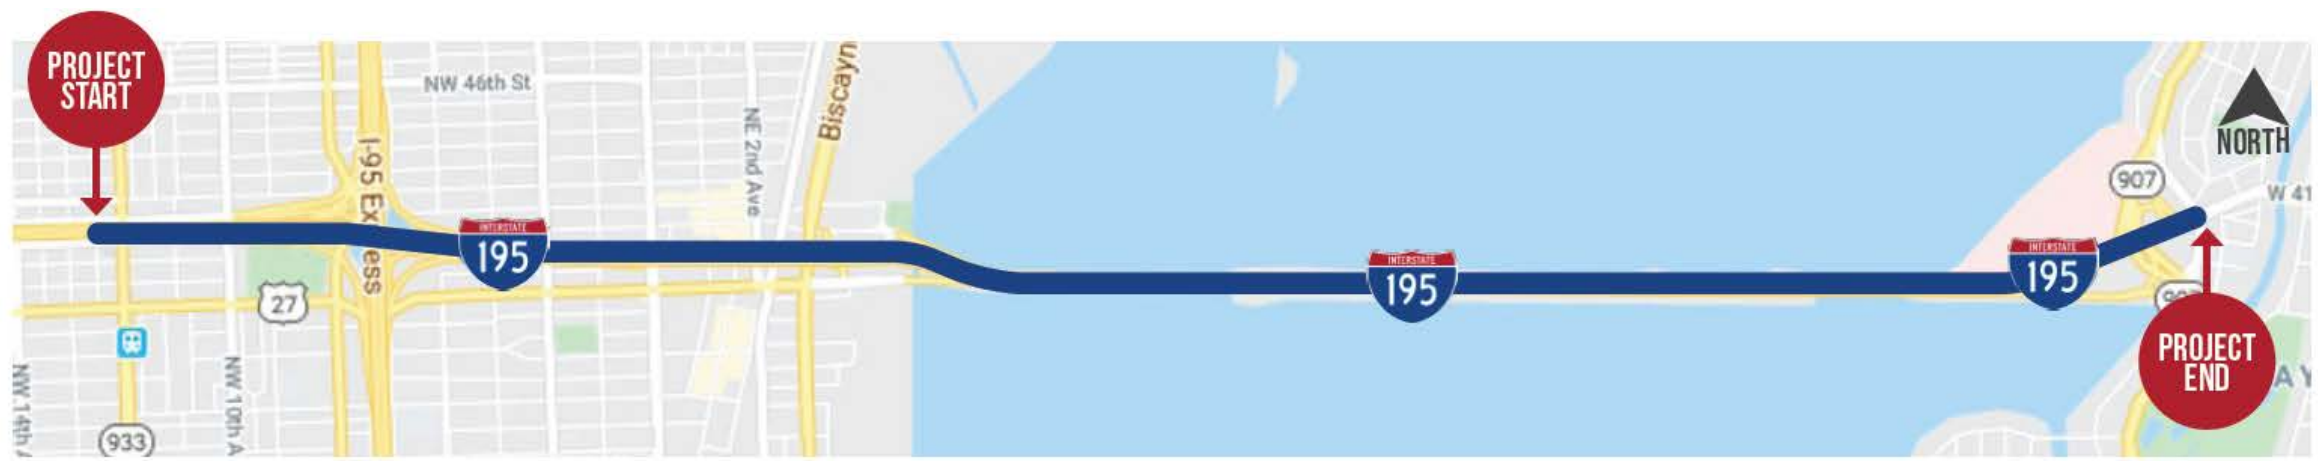

- Further Evaluation of all 3 alternatives
- Concept plans being developed for alternative with largest footprint
- Potential ROW Impacts being quantified
- Construction Cost Estimates being developed

- **Bicycle / Pedestrian Improvements**

- Further Evaluation of 2 alternatives
- Concept plans being developed for alternative A
- Construction Cost Estimates being developed

NEXT STEPS / FUTURE PROJECT PHASES

- Final Planning Study Report – June 2020
- I-195 / SR 112 PD&E Study – 2021 Tentative

Note: Schedule and limits subject to change

Meeting No. 2 with Dacra Development

Date and Time: Friday, April 17, 2020
11 a.m. – 12:30 p.m.

Meeting: I-195 Corridor Planning Study
Meeting No. 2 with DACRA Development

Call-In: Microsoft Teams Meeting: (786) 636-1440
Access Code 808058123#

Participants: **Dacra** – Craig Robins (CEO and President), Alex Schapiro (Development Manager), Steven Gretenstein (Chief Operating Officer), and David Holtzman (Vice President)

FDOT – Ken Jeffries (Transportation Planning Manager) and Shereen Yee Fong (Project Manager)

Consultant Project Team:
(BCC Engineering) Lorin Brissett, PE (Deputy Project Manager) Revanth Katta, PE, PTOE, Sudheer Chinta, PE

(Creativision MEDIA) Charesse Chester and Natacha Placide (Community Outreach Specialists)

I. Overview

The Interstate 195 (I-195) Corridor Planning Study team conducted DACRA Development second project briefing. The first briefing was held on January 19, 2018. Lorin Brissett, PE, (Consultant Deputy Project Manager) discussion points included the following topics:

- Study Area & Background
- Project Purpose & Need
- Study Focus Area
 - Focus Area #1 (Direct Connection to 95 Express Lanes)
 - Focus Area #2 (Improve Interchange Access in Midtown Area)
 - Focus Area #3 (Improve Bicycle Access on Causeway)
 - Focus Area #4 (Improve Alton Road Interchange Access)
- FDOT Project Development Process
- Programmed & Planned Improvements
- Concept Development & Evaluation Process
- Review of Tier 1 Alternatives
 - Base Improvements
 - System Improvements
 - Preliminary System Operation Summary (Vehicle Hours of Delay) - Evaluation Results

- Bicycle/Pedestrian Improvements - Evaluation Results
- Other Intersection Improvements (N Miami Avenue at NE 36th Street)
- Other Intersection Improvements (N Miami Avenue & I-195 EB Off-Ramp)
- Other Intersection Improvements (N Miami Avenue & I-195 WB On-Ramp)
- Other Intersection Improvements (NE 36th Street & NE 1st Avenue)
- Other Intersection Improvements (NE 36th Street & NE 2nd Avenue & Federal Highway)
- Other Intersection Improvements (NE 39th Street/NE 38th Street & Federal Highway)
- Other Intersection Improvements (US-1 at NE 38th Street)
- Other Intersection Improvements (US-1 and NE 36th Street)
- Other Intersection Improvements (US-1 Off-Ramp at NE 36th Street)

- Ongoing Efforts to Complete Planning Study
 - June 2020 – Study Concludes with a Final Planning Study Report
 - 2021 – Anticipated timeline for the PD&E Study

- Next Steps/Future Project Phases

The full DACRA presentation and sign-in sheet have been attached to this document.

II. Discussion Highlights

Key discussion points are summarized below:

- **David Holtzman (Dacra CEO and President)** asked if the System improvements that include new connections to the I-95 Express lanes would allow access to and from the Design District.

- **Lorin Brissett, PE (Consultant Deputy Project Manager)** mentioned that Alternative 1, (i.e., the non-viaduct option) which proposes new connections between the I-95 express lanes and the existing on/off ramps to I-95 general use lanes, will allow access to and from the Design District. This alternative will be studied further in the PD&E along with the two other system alternatives where the I-95 Express lanes connections is achieved via a new viaduct which bypasses the midtown interchanges along I-195.

- **Alex Schapiro (Miami Design District Associates Development Manager)** in reference to the potential encroachment into the southeast corner of the intersection of NE 38th Street at Biscayne Boulevard from the improvements being proposed at that location, asked if there was some way to reserve the required right-of-way now (that would not be tied to the overall project delivery schedule) to realize the design objectives. He inferred it would be good to have the ROW needs established early so that if or when the property in the southeast corner came up for redevelopment, there would be a basis for the City to stipulate conditions for its redevelopment including dedication of the required ROW.

- **Craig Robins (Dacra CEO and President)** opined the Department should consider ROW takes for this area like the process followed in the I-395 reconstruction project. He lamented, the City has rezoned the area, allowing anything to be built. Traffic and access to the Biscayne Boulevard ramp are disruptive to the community.
- **Ken Jeffries (District Six Transportation Planning Manager)** advised that the project is scheduled to enter the Project Development & Environment (PD&E) Study phase in 2021. ROW acquisition generally follows the completion of the environmental review process and starts during the design phase where the improvements are refined for construction. He then noted if it was a corner clip that was needed as in some intersection improvements, then acquiring the ROW early may be more feasible.
- **Lorin Brissett, PE (Consultant Deputy Project Manager)** advised that some of the intersection improvements noted may not need to be tied to the major study alternatives and could be advanced as separate standalone projects in an expedited manner.
- **Craig Robbins (Dacra CEO and President)** stated that it is problematic to have eastbound traffic at NE 36th Street going from NE 2nd Avenue to Biscayne Boulevard. Traffic backup is also caused by having only one lane going straight through on Biscayne Boulevard. He expressed keen interest in the improvements being proposed. He stated that his team would like the opportunity to review the presentation and offer any minor comments or suggestions.
- **Lorin Brissett, PE (Consultant Deputy Project Manager)** mentioned that the modifications being proposed to the partial interchange at N Miami Avenue to include a full interchange as part of System Alternative 3, would relieve some of the eastbound demand along NE 36th Street as some of the traffic destined for Miami Beach originating west of Biscayne Boulevard would now be able to access the new eastbound on-ramp from N Miami Avenue and by-pass eastbound NE 36th Street altogether.
- **Shereen Yee Fong (FDOT Project Manager)** stated that federal law prohibits acquiring ROW until the project PD&E study (according to the National Environmental Policy Act of 1969 -NEPA) is completed.
- **Meeting Adjourned – 12:04 p.m.**

III. **Action Item**

- The Department to send the presentation to DACRA for further review and comments. (On 4/20/2020, Creativision MEDIA's Charesse Chester sent this item to Alex Schapiro (DACRA).

IV. **End of Meeting Summary**

This document is not a word-for-word transcript but is a summary of the comments. If you feel that clarifications are necessary, or if this differs from your understanding, Please notify Charesse Chester, Public Information Specialist by telephone at 305-944-7564 or by email at cchester@creativisionmedia.com within five (5) working days upon receipt of this document.

It is illogical that the 2B exit from the 195 East does not have a left-turn option. We use to make an illegal left both there and through Taco Bell. Both options have been removed, you are ~~getting~~ ^{diverting} more ~~from~~ traffic to Biscayne Blvd which affects the whole area. Additionally we can not walk as it is simply not safe we cannot cross the street, it is too DANGEROUS. When 2B exit cars come very and they can see people crossing. A LEFT is a must.

First, it is very telling you decided to schedule this meeting at 5:30 p.m., so most people with a job will not be able to attend. The current project along U.S. 1 unreasonably restricts access to my home. The parking garage for residents is located on 35th St. With the current developments, the only way to access 35th St. is if you are traveling Northbound on US1. If you are taking I95 from Brickell, the only way to access 35th is by exiting on Exit 2D and taking Biscayne, or taking Exit 4B and then doing a "U" turn on 31st. This is crazy. The amount of time this has added to my already crazy commute is unacceptable. This project was clearly done without evaluating its impact on the 1000+ residents that live on NE 36th St. You need to come up w/ a better solution NOW.

Cc: Omar.Meitin@dot.state.fl.us; William.Abin@dot.state.fl.us; Tish.Burgher@dot.state.fl.us; MARTAMA@miamidade.gov; SBlanton@miamigov.com; amahony@miamigov.com; Misleidys.Leon@dot.state.fl.us; Hugo.LLamas@dot.state.fl.us
Date: Monday, June 5, 2017, 1:59:15 PM EDT

Dear Ramon,

I'm happy to hear that FDOT finished the study and concluded that a pedestrian crossing is needed. However, I'm not sure you have the location right. The place for the crossing should not be NE 5 Ave. See map below. To solve the existing problem, the crossing is needed on either one of two places: (1) at the exit ramp of State Road 112, or (2) to cross 36 Street (anywhere on 36 St. between the State Road 112 ramp and the Blue on the Bay Condominium). A crossing on NE 5 Ave. will not help because the traffic is not on NE 5 Ave. Please confirm the location. Thank you.

Subject: New Pedestrian Crosswalk on NE 36 St near Blue Condominium (FDOT Tracking 2017-02-0009)

Dear Ms. Aguila,

Please confirm that this will be built by June 2018, ~~like you~~ as committed to here. Thank you

I am pleased to inform you that FDOT just finished our pedestrian study along NE 36 Street between Biscayne Blvd. and Biscayne Bay and that we plan to build a new pedestrian crossing between the driveway to Blue Condominium and NE 5 Ave. The crosswalk will be equipped with rectangular rapid flashing yellow beacons similar to other nearby midblock crosswalks such as on [Biscayne Blvd at 45 St](#), advanced warning signs, high emphasis striping, and a pedestrian refuge in the existing median. We expect to build the improvements within the next 12 months approximately.

We appreciate the opportunity to have addressed your concern and thank you very much for your interest in pedestrian safety.

Sincerely,

Ramon Sierra

Good afternoon Ms. Paula Aquila,

Thank you for addressing this concern with our office. I am copying your NET Administrator, Ms. Sharie Blanton, who aides in overseeing constituent issues in your area. Additionally, as it is my understanding that this type of traffic issue is addressed by the County, I am copying Mr. Akeem Brutus who is the Legislative Aide for Community Affairs for County District 3.

Ms. Blanton and Mr. Brutus: Ms. Aquila contacted our office expressing her concern around safety issues due to the lack of traffic signals at 36th Street and the I-95 exit. I am writing to alert you to this issue and to inquire whether there are any plans to address this issue in the future.

Please include Ms. Aquila and myself in any follow-up emails on this topic.

Thank you,

Cc: Manuel Martinez

Subject: 600 condominium residents in your district are risking their lives every day to walk from the Blue Condominium to Biscayne Blvd. for lack of a stop sign or red light.

Dear Mr. Russell,

I'm writing because I live in your district and there are at least 600 condominium residents who risk their lives every day to walk from the Blue Condominium to Biscayne Blvd., for lack of a stop sign, a red light, or even a walk path. I own a unit in the Blue Condominium, located at 601 NE 36 Street. My building has over 300 units, with at least two residents per unit. We are located by the bay on 36th street, two blocks east of Biscayne Blvd. We cannot walk towards Biscayne Blvd. without risking our lives because to do so we need to cross the I-195 exit on 36th street that leads to Biscayne Blvd., where there's no stop sign or red light or even a painted walk path. The only way to avoid crossing that very risky exit is to cross 36th street to walk on the opposite sidewalk, but there's also no stop sign, red light or even a painted walk path to cross 36th street, and the traffic on 36th street is going non-stop from Biscayne Blvd. onto the Julia Tuttle Causeway, so it's a high speed traffic. This is terribly planning by the city and its putting lives **at risk every day**.

Please let me know how this can be corrected or if you need any additional information from me.

I look forward to hearing back from you soon regarding solutions to this very serious problem.

Sincerely yours,

M. Paula Aguila

Right only lanes on 36th St and
Biscayne are a waste of space and
time. Most of the time cars block
that lane and then wait to go straight
cut into the other vehicle.

I suggest make the 4 lanes
without right only, just one direction
each and two lanes.

on Biscayne heading South the new sign, "NO LEFT ~~S~~, NO U Turn" (The opening traffic is Not Respecting the sign. Cars are still turning + u turning illegally.

Also, on 36th St. heading East the traffic in the far Right lane often don't turn Right, but they wait + hold up the traffic then cut into the middle lane to cross Biscayne EAST.

In addition, they do the same "cutting" into the middle lane on 36th St. going East ~~to~~ to cross Biscayne from the Left turn lane, and they hold up the flow waiting to cut.

**Biscayne Neighborhood
Association (BNA)
Media and Agency Tour
March 20, 2018**

Biscayne Neighborhood Association (BNA) Media and Agency Tour

Date: Tuesday, March 20, 2018
Time: 6:30 p.m. to 8:15 p.m.
Location: SR 5/US 1/Biscayne Boulevard and NE 36 Street
Attendees: FDOT District Six Transportation Planning Manager Ken Jeffries, I-195/State Road (SR) 112 Corridor Planning Study Project Manager Shereen Yee Fong, Communications Manager Tish Burgher, District Traffic Operations Engineer Omar Meitin, P.E., I-195 Corridor Planning Study Community Outreach Specialist Charesse Chester

I. Overview

BNA invited the media, Florida Department of Transportation (FDOT) project team; Giovanni Castro, Office of City of Miami Mayor Francis Suarez; and Abigael Mahony, Office of City of Miami Commissioner Ken Russell to tour points of concerns in the study area.

II. Media: None

III. Open Discussion: Below is a summary of key points

- Increase capacity at NE 36 Street between SR 5/US 1/Biscayne Boulevard and NE 2 Avenue to accommodate the vehicles making right turns onto NE 36 Street
- Acquire land to add a lane at SR 5/US 1/Biscayne Boulevard and NE 38 Street
- Make pedestrian safety a priority on SR 5/US 1/Biscayne Boulevard
- Coordinate with the City of Miami to identify short-term improvements, increase traffic enforcement, and to allow a one-way on the roadway adjacent to the parking lot
- Add a roundabout at the I-195-Exit to allow Charter Club and Blue on the Bay residents to have a more direct route to their properties and to slow traffic heading to Miami Beach
- Evaluate the feasibility of a direct route to Blue on the Bay and The Charter Club from the I-195-Exit onto NE 5 Avenue
- Improve safety for pedestrians crossing at I-195-Exit
- Allow traffic exiting the Blue and Charter buildings to change lanes sooner; new striping doesn't alert vehicles of the right turn option until they are closer to the intersection of NE 36 Street and SR 5/US 1/Biscayne Boulevard
- Allow a left turn at the I-195-Exit for building residents

IV. Action Items:

- Omar Meitin has a meeting scheduled with a NE 38 Street property owner to discuss adding a lane.
- Andres Althabe (andres.althabe@gmail.com) to request a follow-up meeting with FDOT.
- Omar Meitin will evaluate the feasibility of a left-turn lane at the I-195 Exit in 90 days.

Meeting Summary

This meeting summary is not a word-for-word transcript but is a summary of the comments. If you feel that clarifications are necessary, or if this differs from your understanding, please notify Charesse Chester, Public Information Specialist by telephone at 305-944-7564 or by email at cchester@creativisionmedia.com within five (5) working days upon receipt of this summary.

I-195 Corridor Planning Study

Miami Beach Chamber of Commerce Meeting

*Dorothy Quintana Community Center | Multipurpose Room
Mondrian South Beach Hotel - 1100 West Avenue, Miami Beach, FL 33139
Wednesday, February 13, 2019 - 6:30 a.m.*

COMMUNITY STAKEHOLDER'S MEETING FEBRUARY 13TH

AT THE MONDRIAN HOTEL

AGENDA

WELCOME AND INTRODUCTIONS: CHAMBER CO-CHAIRS

NEW BUSINESS

1. THE MOTHER OF ALL HIGHWAY CONSTRUCTION PROJECTS-THE IMPACT ON MIAMI BEACH AND WHAT WE CAN DO ABOUT IT-LYLE STERN
2. ISSUES WITH TRUCKING DELIVERIES PRESENTED BY KEN ARMSTRONG-PRESIDENT OF FLORIDA TRUCKING ASSOCIATION (THIS IS A SERIOUS ISSUE THAT COULD IMPACT EVERY MAJOR BUSINESS ON THE BEACH AS WELL AS YOUR CUSTOMERS.
3. PROPOSED 1% INCREASE IN FOOD AND BEVERAGE TAX TO SUPPORT HOMELESS IN MIAMI BEACH
4. CHAMBER GOALS CONFERENCE FEBRUARY 22ND AT W HOTEL
5. OTHER ISSUES OF CONCERN TO STAKEHOLDERS

OLD BUSINESS

1. UPDATE ON DEVELOPER FEES FOR APPLICATION TO LAND USE BOARDS
2. UPDATE ON \$15 PER HOUR MINIMUM WAGE ORDINANCE
3. UPDATE ON GENERAL OBLIGATION BOND PROCESS
4. UPDATE ON P.O.P. FESTIVAL-NOVEMBER 8-10

GOOD AND WELFARE

I-195 Corridor Planning Study

Meeting With
Miami Beach Chamber of Commerce

Meeting Presentation:
February 13, 2019

District 6

INTRODUCTIONS (Study Team)

FDOT

- Shereen Yee-Fong – Project Manager
- Ken Jeffries – Planning Manager

BCC ENGINEERING

- Jose Muñoz, P.E. – Project Manager
- Lorin Brissett, P.E. – Deputy Project Manager
- Michelle Rossi, P.E. – Roadway Design Engineer

CREATIVISION MEDIA

- Charesse Chester – Public Involvement Officer (PIO)

AGENDA

1. **Study Overview**
2. **Project Scope & Status**
3. **Opportunities for Stakeholder Coordination**
4. **Preliminary Concepts**
5. **Phases to Implement Improvements**
6. **Study Contact Information**
7. **Questions**

STUDY OVERVIEW

STUDY AREA & BACKGROUND

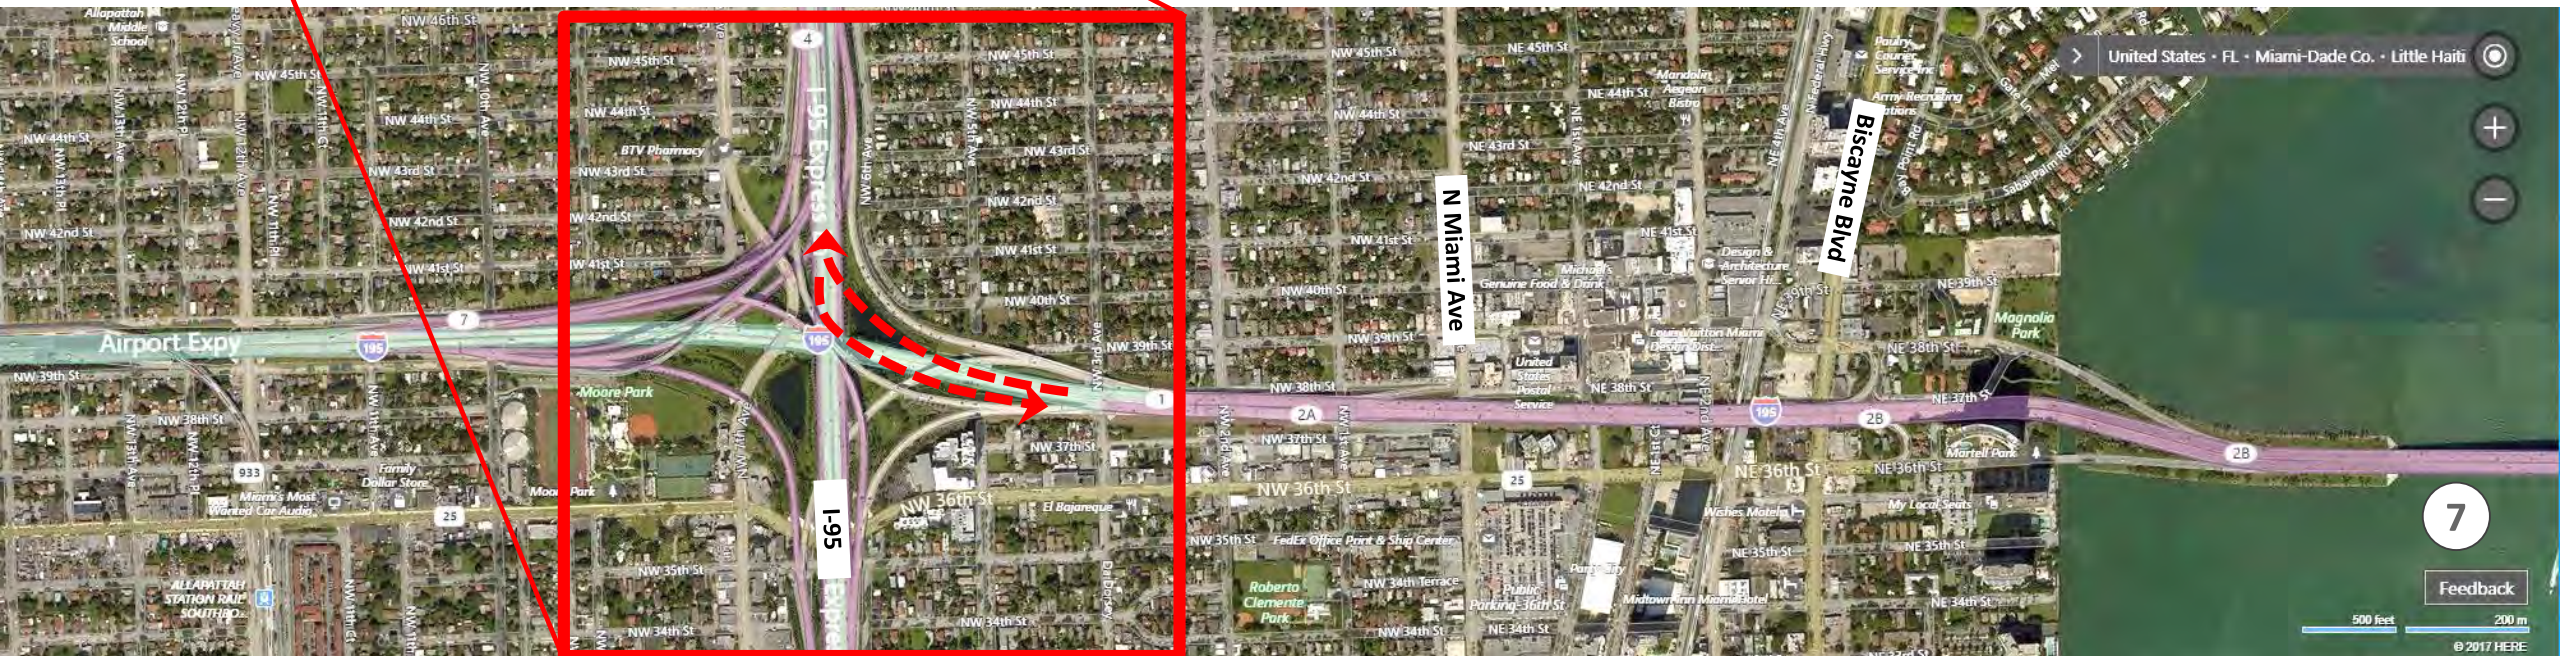

- SR 112/195 Corridor from NW 12th Avenue to Alton Road on Miami-Beach
- Important limited access facility connecting MIA and Miami Beach
- Carries average 130,000 vehicles per day – Total both directions
- Provides access to several high growth neighborhoods
- Continued growth expected to increase demand exacerbating access issues

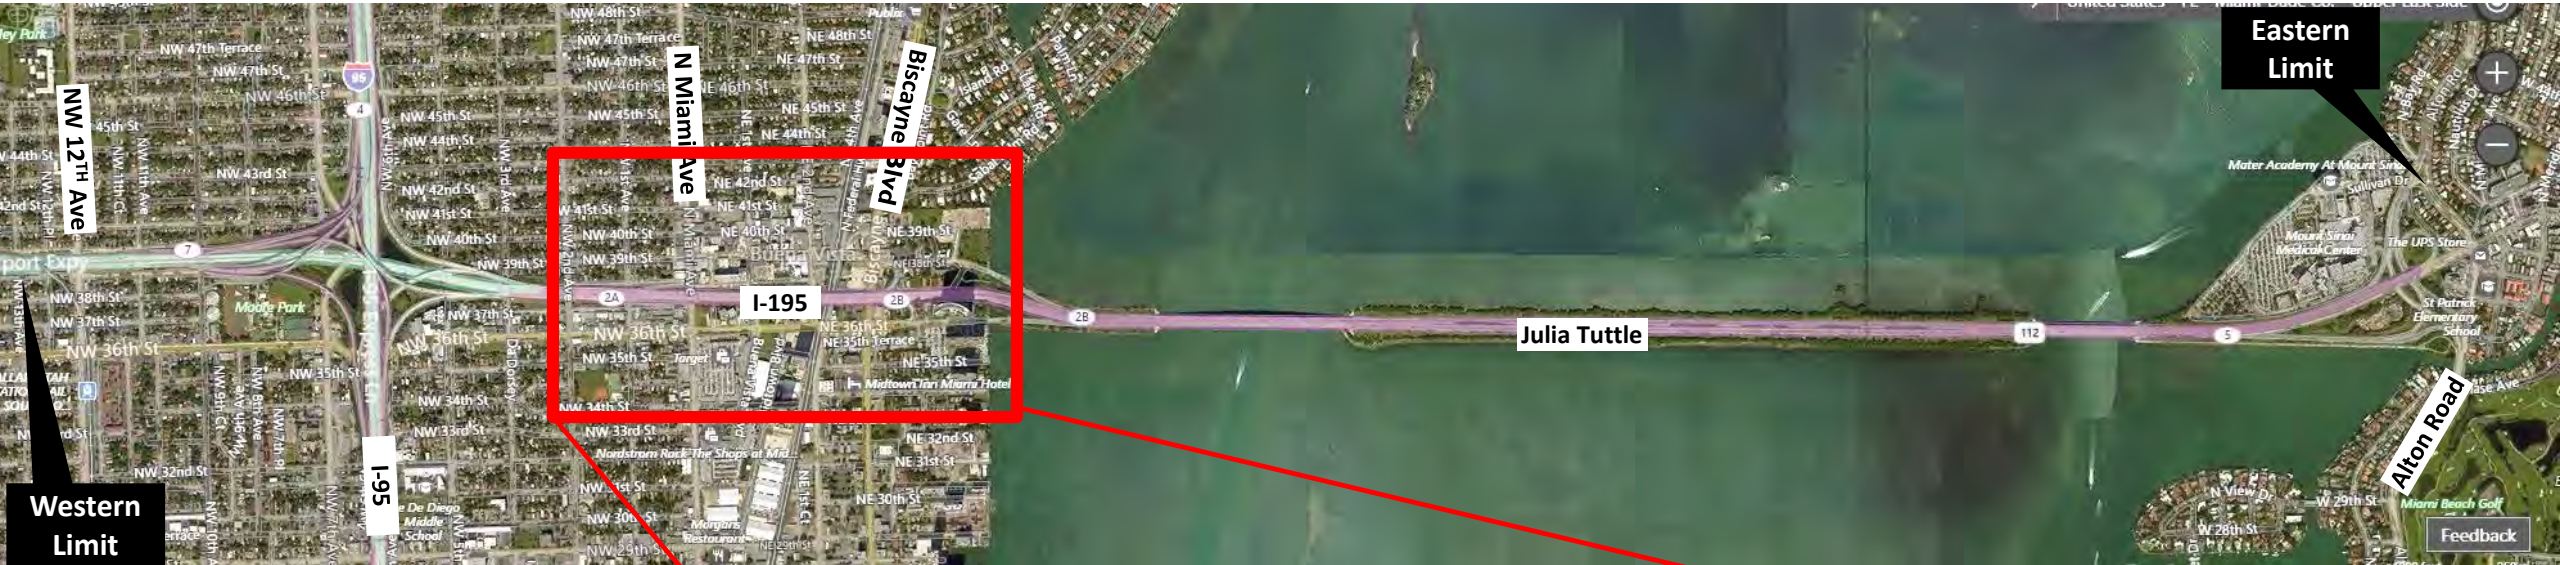

STUDY OBJECTIVES

- **Evaluate Existing Conditions**
- **Identify Needs and Deficiencies**
- **Develop and Evaluate Improvement Concepts**

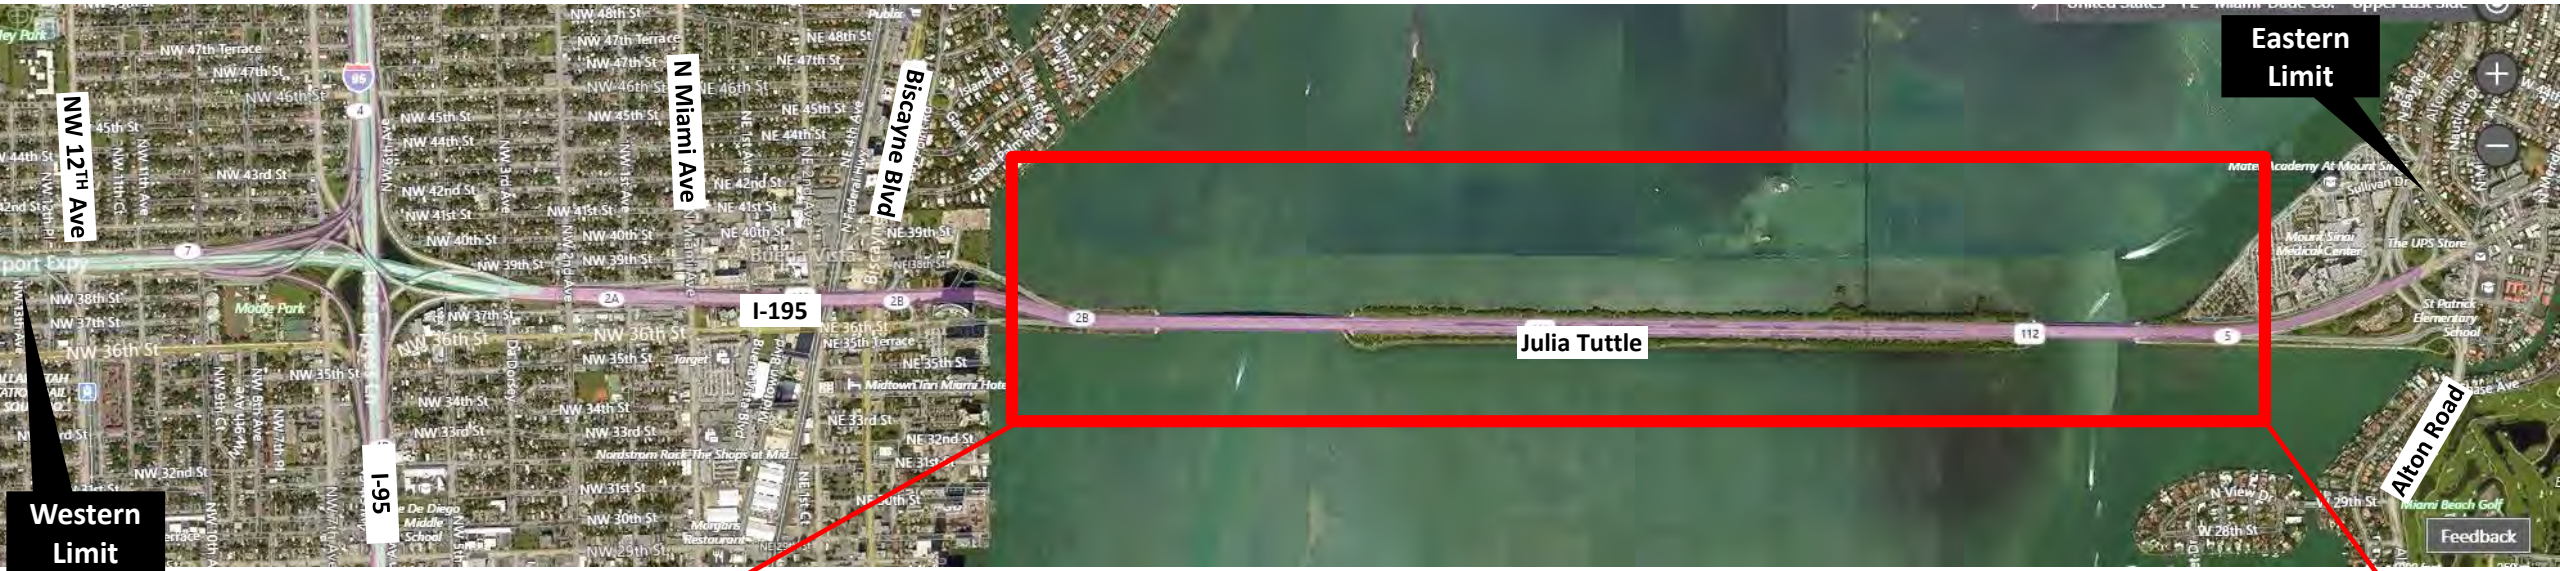

FOCUS AREA (Direct Connection to 95 Express Lanes)

FOCUS AREA (Improve Design District Interchange Access)

FOCUS AREA (Improve Bicycle Access on Causeway)

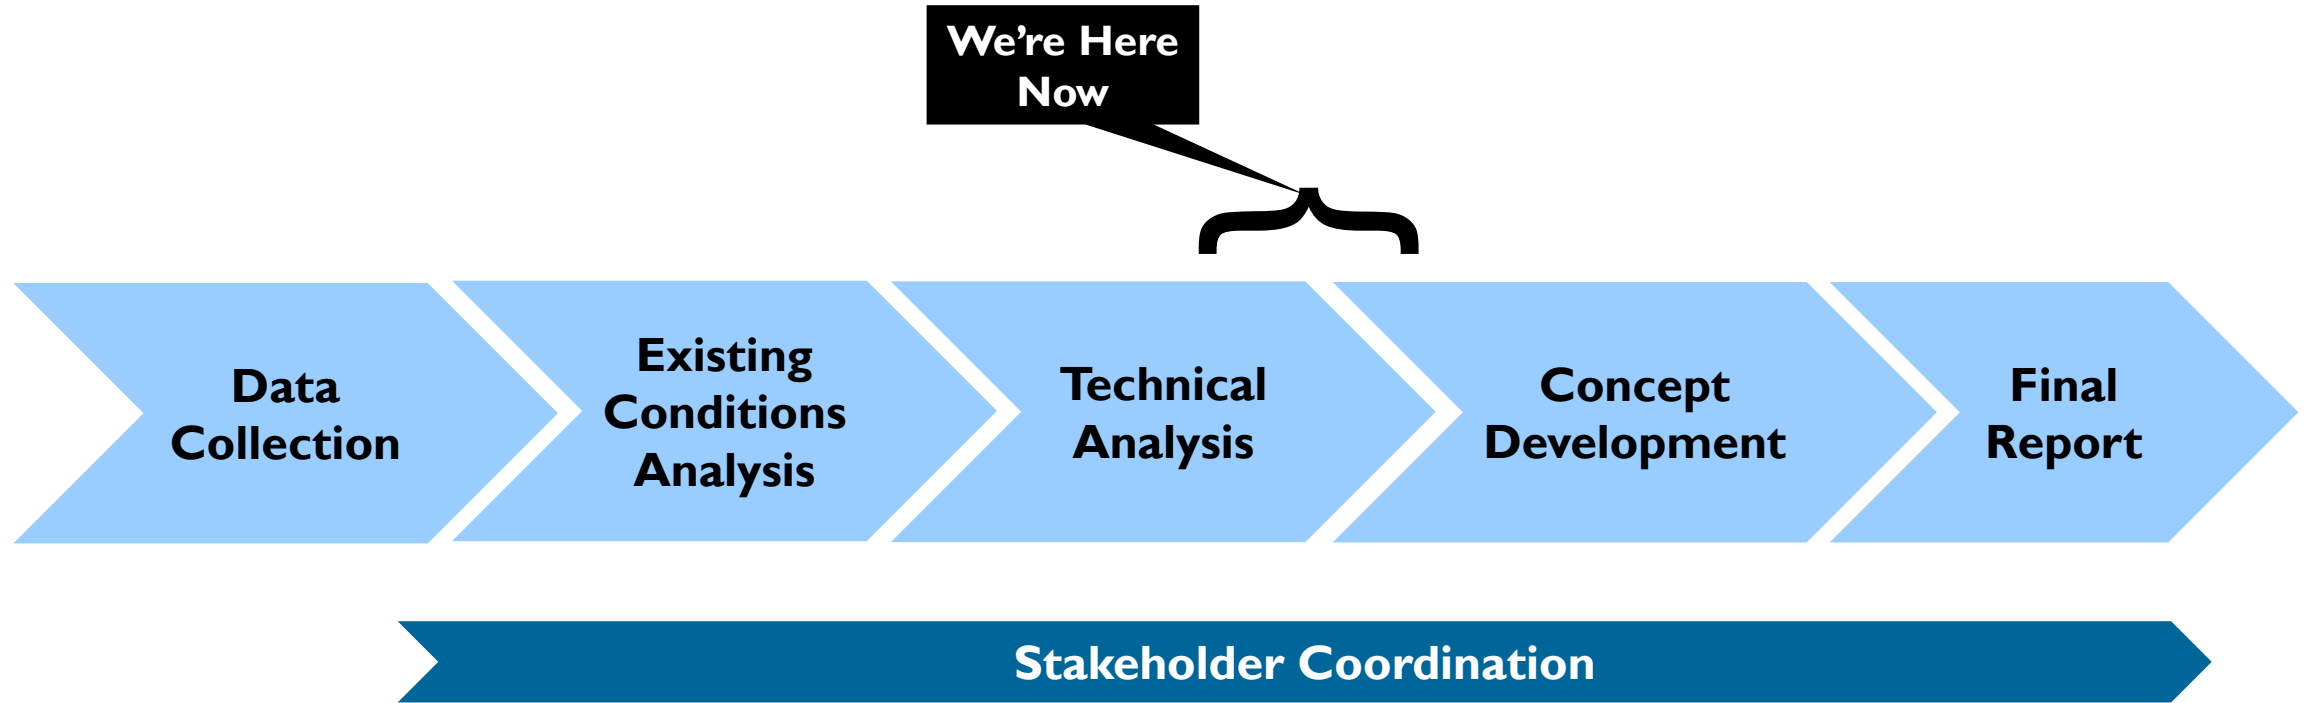

FOCUS AREA (Improve Alton Road Interchange Access)

PROJECT SCOPE & STATUS

PROJECT SCOPE - OVERVIEW

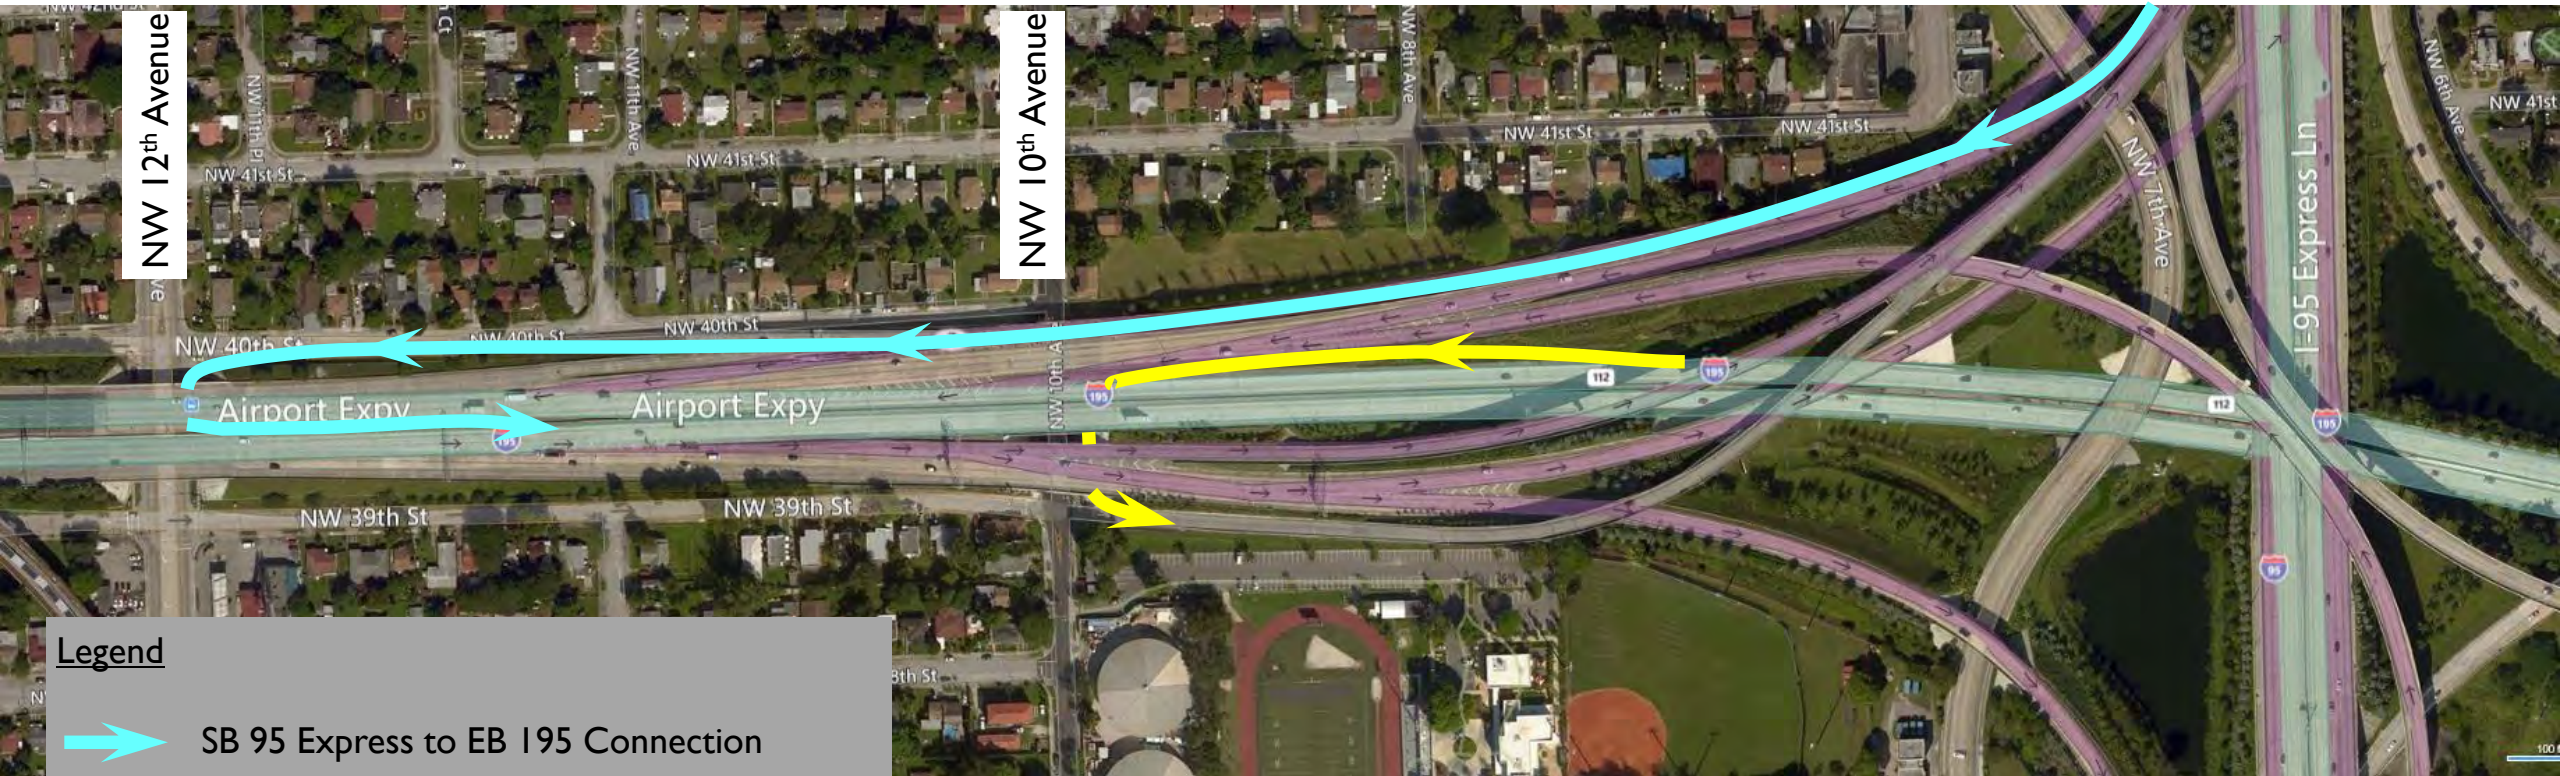

OPPORTUNITIES FOR STAKEHOLDER COORDINATION

COORDINATION OPPORTUNITIES

- **Public Workshops**
 - In City of Miami Beach
 - In City of Miami
- **City Commission Meetings**
 - In City of Miami Beach
 - In City of Miami
- **Other Meetings**

Miami Beach Chamber of Commerce Meeting

Date: Wednesday, February 13, 2019
Time: 6:00 p.m.- 8:00 p.m.
Location: Mondrian South Beach Hotel
1100 West Avenue
Miami Beach, FL 33139
Attendees: See Sign-In Sheets and the end of this document

I. Introduction/Overview

The Miami Beach Chamber of Commerce (MBCC) invited the Florida Department of Transportation (FDOT), District Six, team to make a presentation to its membership on I-395/SR 836/I-95 Project and to explain the proposed improvement strategies.

The meeting was held on **Wednesday, February 13, 2019, at 6 p.m. at the Mondrian South Beach Hotel, 1100 West Avenue, Miami Beach, FL 33139.** Jerry Libbin (President and CEO of the Miami Beach Chamber of Commerce) opened the meeting by welcoming the attendees. FDOT Project Manager, Ken Jeffries, P.E., stated the purpose of the studies before each presentation. Senior Community Outreach Specialist Oscar Gonzalez III (Media Relations Group, LLC) discussed Interstate 395 (I-395) design elements, method of traffic, and upcoming construction schedule. Consultant Deputy Project Manager Lorin Brissett, P.E. (BCC Engineering, Inc.) gave an Interstate 195 (I-195) overview before discussing the short and long-term preliminary concepts. Consultant Deputy Project Manager John McWilliams (Kimley-Horn and Associates, Inc.) discussed Interstate 95 (I-95) gave an overview of the I-395 and I-195 goals and objectives.

II. Meeting Materials Distributed

- i. Meeting Agenda
- ii. I-195 Corridor Planning Study (CPS) Presentation Handout

III. Open Discussion: Key discussion points are summarized below:

I-395/SR 836/I-95 Design-Build Project:

Question: During the construction phase, there will be congestion in both directions of I-395. It's already difficult to get to Miami Beach. People use alternative routes from NW 17 Street and the Julia Tuttle Causeway. Is there a way to relieve traffic and find ways for cars to get on and off the I-95 Express Lanes?

Response: Mr. Oscar Gonzalez explained that the I-395 "Signature Bridge" will be built outside of the traffic area. However, traffic will be impacted in some ways. For example, the existing westbound ramp that goes to northbound I-95 will be reconstructed. During the reconstruction, a temporary one-lane ramp to northbound I-95 will be built. Strong community outreach will be put into place to inform everyone before construction begins.

Question: South Beach already has an alert system which is great. Will you coordinate with the City of Miami Beach?

Response: Mr. Oscar Gonzalez advised that they already spoke to the City of Miami Beach Director of Marketing, Tonya Daniels, in an effort to coordinate notifications to stakeholders through emails and text alerts.

Question: Major traffic lane on I-395 will have 5-lane closures. Can you go back and explain from west to east of Miami Beach, what will be the closures on the main artery?

Response: The ramp closure will be at night. A temporary ramp will be built to the left, so at night the lanes can be closed in order to remove the existing median in between the two bridges. That detour, once it's implemented, it will be permanent for a year or more. That detour will take you to northbound I-95. The work to reduce the existing main lane will be after 10 p.m.

Question: At night, businesses will experience the most impact. South Beach is busiest in the evening. Are you going to close all the lanes or are you going to leave one lane open at all times to allow traffic to flow?

Response: If there are late night events, we will push the lane closure for a later time. The only time we will have to close the entire facility is when an overhead/sign structure is being installed. We would not want cars going underneath a structure as it's being moved or installed.

Question: The impact to the natural flow of I-395 traffic will be impacted for 5 years?

Response: The nighttime weekends (Fridays – Saturdays) the lane closures have been extended until 1 o'clock in the morning.

Comment: We could provide secondary access to Miami Beach and Downtown Miami. We like to explore with you opening access to Interstate 195 from I-95 South on the I-95 Express Lanes to make it easier. There is so much traffic on the way to the City of Miami Beach using the Express Lanes. It seems there should be a way to reduce the traffic further.

I-195 Corridor Planning Study:

Question: If 4 ½ years for the interim improvements, what is the length of time for the entire project?

Response: The ultimate improvements will take 10 to 12 years.

Question: During this period for the ultimate improvement, you calculate how long it takes on an average day to move 130,000 cars. During improvements time, what would be the delta? I am sure you have done some type of analysis for that area. How long does that normally take and what would be the difference in this process? Do you know those numbers?

Response: Mr. Lorin Brissett specified that the traffic report has not been finalized. However, they have seen a 20% reduction in travel time.

Comment: The access to Miami Beach to ingress/egress by the I-95 Express Lanes. We have a bottleneck at the Golden Glades Interchange (GGI) /I-95 ramp that takes you to the State Road (SR) 826/Palmetto Expressway westbound to Florida's Turnpike northbound. We have seven (7) projects set to start after Superbowl 2021. We cannot start any future projects until this project is put into place.

Question: Is there any action already taken place on West 41 Street to move traffic along once you get onto Miami Beach?

Response: FDOT Project Manager Jeffries stated that FDOT is working with the City of Miami Beach and Miami-Dade County to make transit a priority. Transportation Planning Organization (TPO) Strategic Miami Area Rapid Transit (SMART) Plan is conducting an analysis to identify transit solutions to alleviate traffic along the corridors. City of Miami Beach Manager Jimmy Morales asked if the removal of off-street parking can be explored. FDOT Project Manager Jeffries advised that option would present challenges.

Question: What will be the impact when both projects have a multiyear overlap? The I-395 project which will have a duration of 5 years and the I-195 project that will be starting in 2 ½ years.

Response: FDOT Project Manager Jeffries clarified that indirect access is currently not there. The access that will be built is new access to City of Miami Beach.

I-95 Express Project:

Question: Why couldn't the Texas U-turn be created on NW 12 or NW 10 Avenues? The cars that are on the I-95 Express Lanes today could get off and travel to Miami Beach. This would help alleviate traffic congestion.

Response: Southbound traffic, that is correct; however, the cars traveling northbound it's the same thing. The cars that are now going down on the MacArthur Causeway can access it from I-195.

Question: Other than providing revenue, can I-95 Express Lanes be more beneficial? Does it seem like we are giving up a lane and creating additional traffic?

Response: FDOT Project Manager Jeffries specified that the number of general-purpose lanes is the same while an additional lane was created. The High-Occupancy Vehicle (HOV) lanes used to be one lane and now it's a 2-lane road.

IV. Action Items:

- None

**Bloomberg Equities, LLC Meeting
March 25, 2020**

Bloomberg Equities, LLC Meeting

Date and Time: Wednesday, March 25, 2020
1:30 p.m. – 2:30 p.m.

Meeting: I-195 Corridor Planning Study
Meeting with Bloomberg Equities LLC

Call-In: Go To Meeting: 1(877) 568-4106, Access Code 587852352#

Attendees: See Sign-In Sheets at the end of this document

I. Overview

Ron Bloomberg, Bloomberg Equities, LLC, requested a follow-up meeting with the Interstate 195 (I-195) Corridor Planning Study team to discuss his proposal for the study area which included proposed modifications to the intersection of US 1 at NE 38th Street as well as changes east of the intersection that were expected to improve the traffic circulation in the area. The Bloomberg team offered its proposal to provide right of way to allow more access for bike/ped users. A PowerPoint presentation was provided by Mr. Ron Bloomberg.

II. Discussion Highlights

Key discussion points are summarized below:

- **Secretary James Wolfe, PE (District Six)** asked if the property owners saw the plan.
- **Mr. Bloomberg (Bloomberg Equities, LLC)** stated that his team has not conducted a charrette with the condos and neighborhood associations. Residents believe that any new development will worsen the traffic situation. The goal is to address traffic mitigation with FDOT first and seek FDOT's support and ideas on how to mitigate congestion and identify improvements to move forward. Additional community meetings will be held. The new development will face opposition.
- **Secretary Wolfe, PE (District Six)** stated that the following questions must be answered:
 - Does the design negatively or positively impact Interstate 195?
 - How will it work with US-1/SR 5/Biscayne Boulevard queuing?
 - How will it work with the traffic flow?
 - How will it work with bike/ped traffic?
 - Will the local government endorse the project?
 - The proposal must go through due process for all property owners to give their input.
- **Mr. Bloomberg (Bloomberg Equities, LLC)** stated that his team has met with

all the immediate neighbors including Baypoint Property Owners Association, Upper East Side Neighborhood Association, and Corona Bay Townhouses.

- **Secretary Wolfe, PE (District Six)** asked if the City of Miami or the County-owned the roadway.
- **Mr. Bloomberg (Bloomberg Equities, LLC)** advised that NE 5th Court and 37th Street are owned by the City of Miami, and 38th Street is under FDOT's jurisdiction.
- **Secretary Wolfe, PE (District Six)** asked if the east/west roadway running parallel to 38th Street immediately to the south, going eastbound is a street or an alley.
- **Mr. Bloomberg (Bloomberg Equities, LLC)** advised that it is a private alley and the Bloomberg Equities' proposal would maintain public access by creating a pedestrian platform over the alley.
- **Secretary Wolfe, PE (District Six)** advised that a response was issued that the proposal would allow better operations than existing conditions in the area.
- **Mr. Bloomberg (Bloomberg Equities, LLC)** confirmed that the Department sent an email in response to the proposal. He also noted that they have already met with the City of Miami Zoning Board. More meetings are required with the Commission in order to get the zoning changed.
- **Karina Fuentes, PE (FDOT District Six Design Engineer)** advised that her office will review the proposal.
- **Secretary Wolfe, PE (District Six)** stated that his team will review the proposal again.
- **Shereen Yee Fong (District Six Transportation Planner IV)** advised that it is too late to incorporate the proposal into the I-195 Corridor Planning Study. The Department will determine if it can be added as a related study during the Project Development and Environment (PD&E) Study. Ms. Yee Fong also noted that the Design and Traffic Operations must decide who will take the lead on the next steps.
- **Ken Jeffries, PE (District Six Transportation Planning Manager)** asked the Bloomberg team to forward their traffic analysis and modeling files to the Department.

- **Meeting Adjourned – 2:30 PM**

III. **Action Item**

- Bloomberg Equities LLC to send modeling files to the Department.

IV. **End of Meeting Summary**

This document is not a word-for-word transcript but is a summary of the comments. If you feel that clarifications are necessary, or if this differs from your understanding, please notify Charesse Chester, Public Information Specialist by telephone at 305-944-7564 or by email at cchester@creativisionmedia.com within five (5) working days upon receipt of this document.

- 1 >** Number of lanes
- Flyover

EXAMPLE #1 (WB COMMERCIAL BLVD to SB I-95 FLYOVER)

EXAMPLE #2 (WB NW 103rd ST to SB PALMETTO X-WAY FLYOVER)

REVIEW OF REQUESTED CONNECTIONS & OTHER CONSIDERATIONS

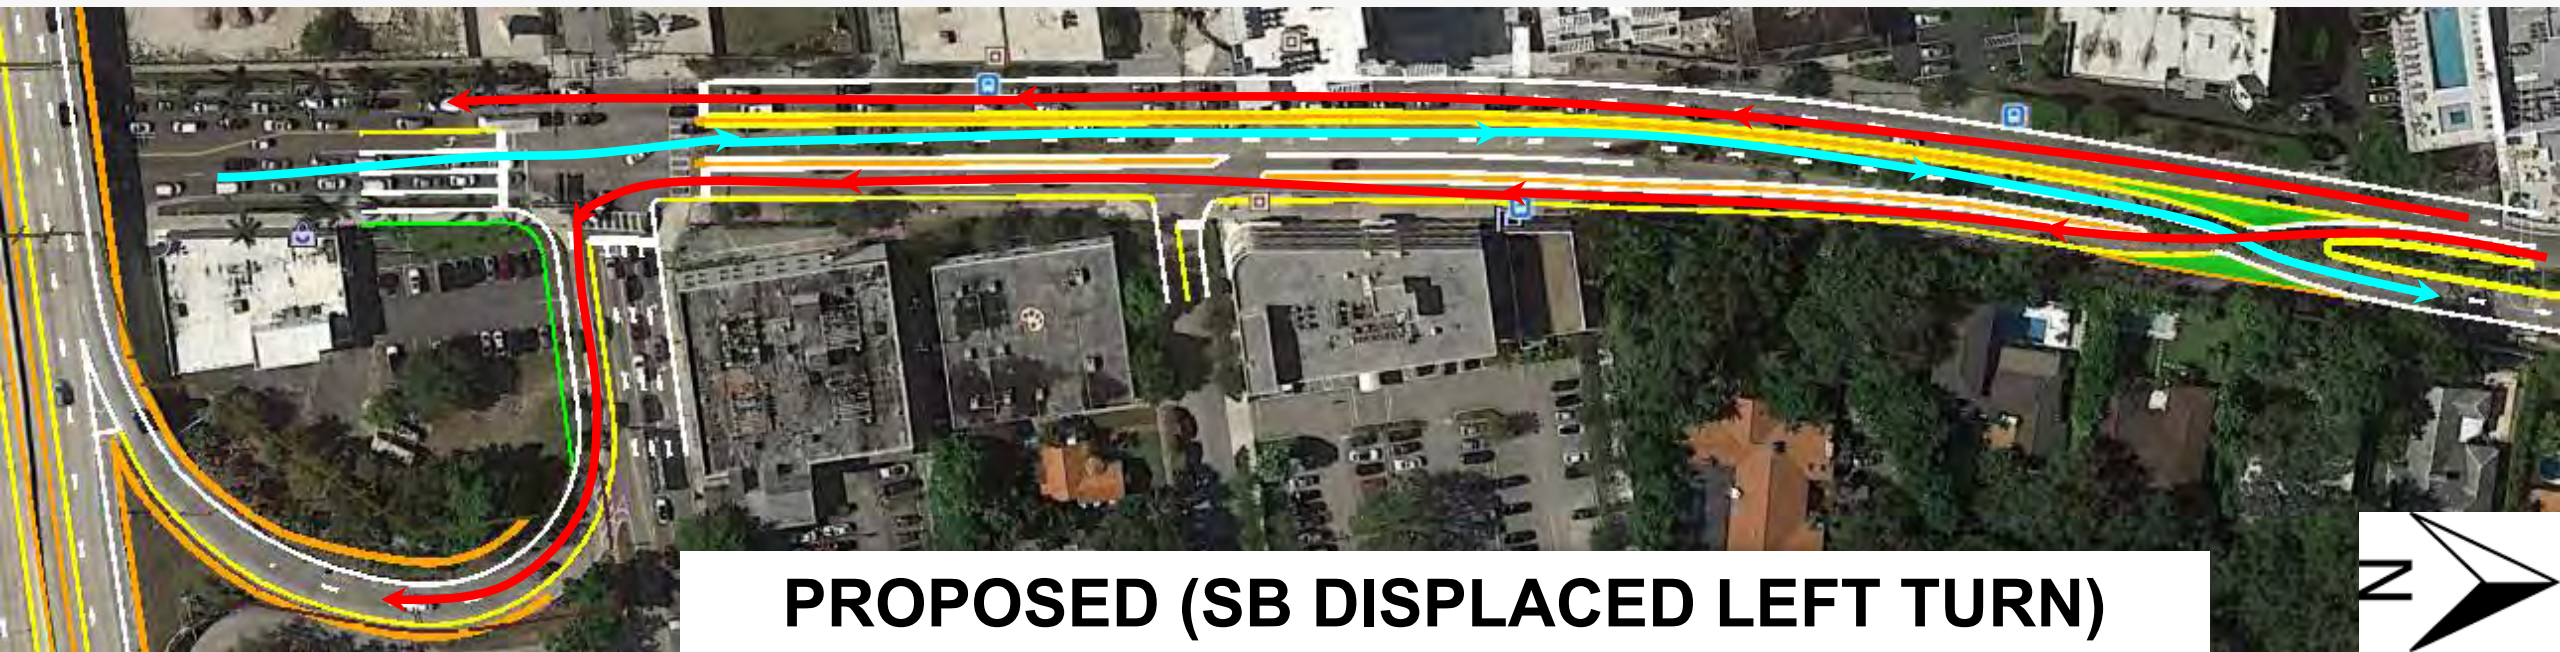

• Challenges

- Precludes all other viable alternatives
- Limited benefit not cost effective in addressing other needs
- Construction cost > \$100 Million
- Exorbitant Right-of-way Cost
- High potential for Public Controversy

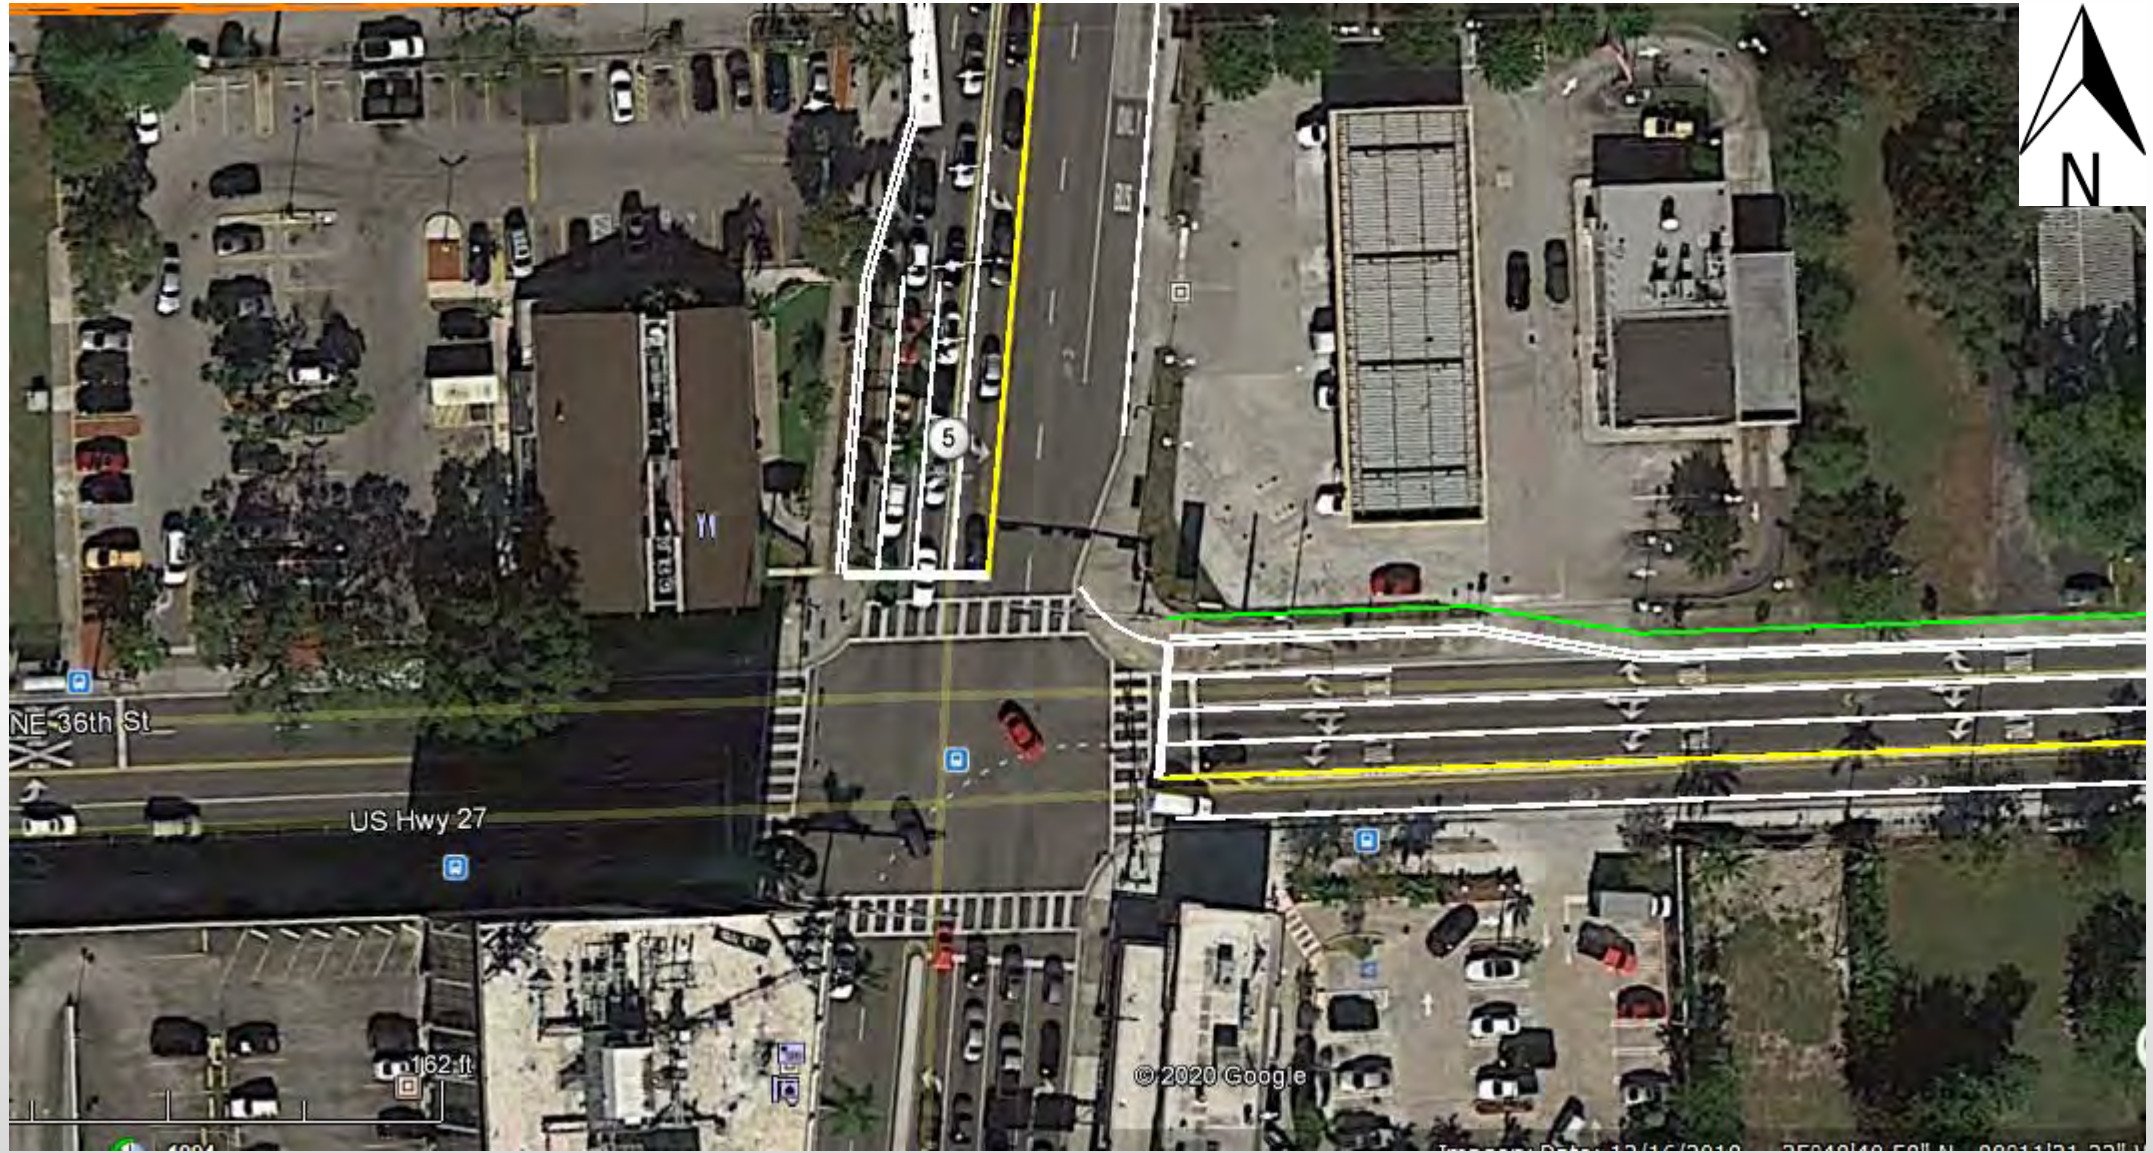

• Project Phases & Timing

- Planning Phase (2 to 3 years)
- Project Development & Environmental Phase (PD&E, 2 to 3 years)
- Design Phase/Right-of-Way Acquisition (2 to 3 years)
- Construction Phase (5+ Years)

POTENTIAL IMPROVEMENTS (BISCAYNE BLVD at NE 38th ST)

POTENTIAL IMPROVEMENTS (BISCAYNE BLVD at NE 36th ST)

NEXT STEPS

- **Evaluate improvements at Biscayne Boulevard and NE 38th Street**
- **Document recommendations for intersections and other improvements in final report for planning study**
- **Include your inquiry as part of official project record**
- **Include you on project contact list for future phases**

Meeting with Elvis Cruz – Southbound Biscayne Boulevard Access

Date and Time:	Tuesday, April 14, 2020 2 p.m. – 3 p.m.
Meeting:	I-195 Corridor Planning Study Meeting with Elvis Cruz Southbound Biscayne Boulevard Access
Call-In:	Microsoft Team Meetings (786) 636-1440 Access Code: 361876243#
Attendees:	See Sign-In Sheets at the end of this document

I. **Overview**

Elvis Cruz, an engaged citizen, requested a follow-up meeting with the Interstate 195 (I-195) Corridor Planning Study team to discuss his proposal for Southbound Biscayne Boulevard Access to I-195. The study team discussed Mr. Cruz’s proposal and reviewed options for improving mobility and traffic operations in the study area.

It is important to note that Mr. Cruz invited State Senator Jason Pizzo (District 38) to participate in the conference call.

Lorin Brissett, PE (Consultant Deputy Project Manager) reviewed:

- The email response to Mr. Cruz’s initial inquiry to implement flyover connections from southbound Biscayne Boulevard to I-195.
- A presentation with a rough schematic of the concept layout

Jose Muñoz, PE (Consultant Project Manager) presented the design considerations with the concept including:

- The flyover would need to elevate up to two levels in the air in order to clear existing structures and then touch down to locations east and west along I-195.
- Examples of the type of urban flyover that could be expected include:

- **Westbound Commercial Boulevard to Southbound I-95 Flyover (Fort Lauderdale)**
 - Tight design, due to urban conditions
 - Take off point is 1200’ away from I-95 along Commercial Boulevard
 - Moving in the westbound direction, flyover swings out about 200’ from Commercial Blvd at the farthest point before curving southward to touchdown as an on-ramp to southbound I-95 over a distance of 2000’
- **Westbound NW 103 Street to Southbound Palmetto Expressway Flyover (Hialeah)**

- Tight design, arterial connecting to an expressway
- Take off point is 900' away from Palmetto Expressway along NW 103 Street
- Moving in the westbound direction, flyover swings out about 400' from NW 103 Street at the farthest point before curving southward to touchdown as an on-ramp to southbound Palmetto Expressway

Mr. Muñoz, PE (Consultant Project Manager) added the following points:

- Proposed concept would impact major buildings including building with historic façade in Design District
- On the eastside, widening would impact the Blue Condo high-rise and parcel 7 (refer to attached slideshow)
- This is a highly urbanized area, tight ROW.
- High ROW expense would be likely
- It would be necessary to evaluate the social, environmental impacts

II. Discussion Highlights

Key discussion points are summarized below:

- **Elvis Cruz (Resident)** asked who will make the final decision on this study.
- **Shereen Yee Fong (FDOT Project Manager)** advised that during the Project Development & Environment (PD&E) phase, an alternative will be selected after a public process that includes getting input from the public, county, and city agencies, and major stakeholders.
- **Lorin Brissett, PE (Consultant Deputy Project Manager)** advised there is not a single entity or individual who would issue a directive on the project but that the Department has a process in place that must be followed before a determination is rendered on a project including :
 - Planning Phase – Includes initial identification of alternatives and coordination with stakeholders for input. This phase sets up the project for further review in the PD&E phase.
 - PD&E Phase - Alternatives are further evaluated and refined after getting additional public input. Preferred alternative is identified.
 - Design Phase – Preferred alternative is refined with further public input. Right-of-way needs are identified.
 - Construction Phase – Project gets built. Opportunity for public input exists at all phases
 - Project is programmed into the District Six Tentative 5-Year Work Program for construction and funds are secured.
- **Shereen Yee Fong (FDOT Project Manager)** mentioned the following additional steps in the review and approval process:

- Identify the preferred alternative based on all agencies input;
 - Submit for review by the Tallahassee-based FDOT Office of Environmental Management;
 - Refine the alternative in the design phase; and
 - Approve the Location Design Concept Acceptance (LDCA).
- **Elvis Cruz (Resident)** asked the current elevation of pavement on I-195 as it crosses US-1/SR-5/Biscayne Boulevard. He then asked if the flyover rises to 50' will it have the required distance for a flyover.

 - **Jose Muñoz (Consultant Project Manager)** advised that the elevation of I-195 is about 25' over US-1/SR-5/Biscayne Boulevard. Heading south a new flyover from Biscayne Boulevard will elevate at NE 38 Street through a height of 50' and up to 75' before touching down to connect with I-195. He also advised that the NW 103 Street Flyover example has an aggressive design of 900' for the approach. At its highest point, 60'-65', it runs parallel to the Palmetto Expressway.

 - **Mr. Cruz (Resident)** asked the Department's formula to determine the required height given the ground distance traveled.

 - **Mr. Muñoz (Consultant Project Manager)** advised that the required length is determined by several factors, including slope and curb, design speeds, and sight distance.

 - **Danny Iglesias, PE (District Six Transportation Development Director)** mentioned, in response to a question from Mr. Cruz asking why the flyover could not be designed to take off within the footprint of the long southbound left turn lane on Biscayne Boulevard to NE 38th Street (instead of swinging out to the right as shown in the concept) that, repurposing this turn lane as the flyover approach is not an option as access must be maintained for the local residents of the communities along NE 38 Street to the east.

 - **Mr. Cruz (Resident)** opined that:
 - FDOT should investigate providing the type of flyover access he is requesting considering what the State has spent huge amounts on other projects such as on NW 57 Avenue, Dolphin Expressway/Palmetto Expressway, and I-395.
 - It was a glaring omission years ago when US-1/SR-5/Biscayne Boulevard and I-195 were constructed that southbound ramp access was never built.
 - The existing flyover from eastbound McArthur Causeway to northbound Alton Road should serve as a model for the type of flyover

access that should be designed to connect southbound Biscayne Boulevard with I-195.

- **Ms. Yee Fong (FDOT Project Manager)** advised that the study team has identified some potential improvements for US-1/SR-5/Biscayne Boulevard, heading southbound.
- **Mr. Brissett, PE (Consultant Deputy Project Manager)** reviewed the proposed improvements for intersections of Biscayne Boulevard at NE 38th Street and at NE 36th Street:

Biscayne Boulevard at NE 38th Street:

- Main issue affecting intersection operations is the major conflict between heavy southbound left and northbound through movements.
 - Proposed improvement implements displaced left turn for southbound traffic at NE 38 Street which crosses over median at add a new simple two-phase signal to the north.
 - New configuration removes conflict between northbound through traffic and southbound left turns thereby allowing the signal timing to be optimized to operate more efficiently.
 - Proposed improvement also includes additional left turn lane on westbound approach as well as exclusive right turn lane on northbound approach.
 - Proposed improvements are anticipated to reduce traffic delays by 60-70 percent.
 - These are not grade-separated improvements.
 - Improvements to be made within the existing footprint.
 - Improvements will be incorporated into the next phase.
 - All proposed improvements will be documented in the final report.
- **Mr. Cruz (Resident)** asked the length of the existing southbound left turn lane at Biscayne Boulevard.
 - **Mr. Brissett, PE (Consultant Deputy Project Manager)** advised that the left turn lane is 1200'.
 - **Mr. Cruz (Resident)** stated that the length would be 300' longer than the 900' that was available for the previously cited example at the NW 103 Street/Palmetto Expressway flyover. He opined there should be adequate distance to accommodate the type of improvement he was requesting. He then suggested:
 - Using the long left turn lane in the median to accommodate the approach;
 - Designing the flyover similar to the flyover at Alton Road;
 - Purchasing parcels 5 and 6 for on-ramps.

- **Senator Jason Pizzo (District 38)** asked why the Alton Road flyover design would not work in this area. Is the 1200' sufficient to build the flyover?
- **Mr. Muñoz, PE (Consultant Project Manager)** advised that the existing Alton Road Flyover design would not meet today's design standards that are more stringent. The requested flyover would require significantly more room. Alton Road is different as it is a lot less steep. This ramp would require a wider entry, requiring more than 1200'.
- **Senator Pizzo (District 38)** asked about a proposal to shift southbound traffic (destined to I-195) to N Federal Highway and allow local traffic to use US-1/SR-5/Biscayne Boulevard. He opined that properties on N Federal Highway will be cheaper to acquire, and the infrastructure is available to expand on this roadway. He suggested placing the ramp incline around 40th Street to provide the flyover. The goal would be to convert US-1/SR-5/Biscayne Boulevard to a Coral Gables-style roadway. He posited this conversion would ease through traffic, improve pedestrian safety, and improve access to corridor businesses.
- **Mr. Brissett, PE (Consultant Deputy Project Manager)** advised that the FEC railroad may hinder the ability to expand the roadway.
- **Senator Pizzo (District 38)** clarified that his suggestion was to start the flyover on Federal Highway near the former Soyka Restaurant, 5808 NE 4th Court, Miami, FL.
- **Ms. Yee Fong (FDOT Project Manager)** advised that the Department could make a recommendation to add this proposal to the new projects list.
- **Mr. Iglesias, PE (District Transportation Development Director)** advised that the Department would review this recommendation to transfer north-south traffic to N Federal Highway.
- **Ms. Yee Fong (FDOT Project Manager)** advised that the Department could consider programming this recommendation for further study.
- **Mr. Muñoz, PE (Consultant Project Manager)** advised that there are other alternatives being considered to address broader study needs that would conflict with this proposal. The study team offered to schedule a meeting to brief the Senator on the alternatives being considered. The study has evaluated:
 - Installing a viaduct over I-195 to physically separate I-95/Miami Beach Traffic from I-95 traffic destined to/originating from the local midtown interchanges along I-195. Miami-Beach related traffic accounts for over 50% of traffic to/from I-95;

- Improvement allows I-195 to better handle local traffic and reduces effects of traffic weaving which is a safety issue.
- **Mr. Cruz (Resident)** stated that the N Federal Highway approach is something to consider. He then asked if the Department authorizes exceptions, so the flyover can be built.
- **Mr. Iglesias, PE (District Transportation Development Director)** confirmed that the District does have a design exception process; however, any deviation from the minimum design criteria must be approved by the Federal Highway Administration (FHWA). All deviations are evaluated to determine the impact on safety.
- **Mr. Cruz (Resident)** asked the cost for the NW 57th Avenue/ Divergent Diamond Interchange (DDI). He opined that this area should receive the same investments as I-395 and Dolphin Expressway.
- **Senator Pizzo (District 38)** asked the typical timeline for property acquisition for projects and ballpark costs.
- **Mr. Muñoz, PE (Consultant Project Manager)** responded with the cost for MDX's Dolphin Expressway (\$150 million) and I-395 (\$800 million). The ROW acquisitions began for the FDOT and MDX projects in the early 2000s.
- **Mr. Cruz (Resident)** stated that parcels 5 and 6 will continue to increase in costs. Millions have been spent on other projects and just to improve aesthetics on I-395. A flyover in this area should be a priority.
- **Tish Burgher (District Six PIO)** advised that the I-395 project improvements will address the congestion as well as improve mobility and increase safety enhancements. Local governments requested the aesthetic improvements.
- **Mr. Iglesias, PE (District Transportation Development Director)** advised that the Department continues to evaluate the impacts to the community and best improvements for the area.
- **Mr. Cruz (Resident)** asked if the double-decker proposal is still a planned improvement. He also asked why the proposal is to get people to the Alton Road signal quicker. He added that heading to Miami Beach is already a direct route.
- **Mr. Muñoz, PE (Consultant Project Manager)** advised that FDOT will review all options including this recommendation to determine the best option. The double-decker option will conflict with the flyover proposal. The goal is to take traffic to point "D" and minor widening is proposed for Julia Tuttle Causeway. It

is not a capacity issue; it is an operational issue to prevent the weaving traffic and backup on the ramps. These improvements will allow local traffic to access US-1/SR-5/Biscayne Boulevard quicker.

- **Mr. Cruz (Resident)** stated that at the existing exit ramps from eastbound I-195, the ramps themselves are congested but traffic flows freely on the left side along I-195.
- **Mr. Muñoz, PE (Consultant Project Manager)** advised that I-195 widening presents several issues:
 - ROW acquisition
 - Property values are increasing
 - Buildings abutting I-195
- **Senator Pizzo (District 38)** asked the Department to provide the local and through traffic data on Biscayne Boulevard.
- **Meeting Adjourned – 3:05 PM**

III. **Action Items**

- A meeting will be scheduled with Senator Pizzo (Contact: Gerson.Maggie@flsenate.gov).
- The Department will investigate feasibility of transferring US-1/SR-5/Biscayne Boulevard through traffic to N Federal Highway.
- FDOT will follow up with Senator Pizzo (Pizzo.Jason@flsenate.gov) on the traffic data split (i.e, local versus through traffic on Biscayne Boulevard).

IV. **End of Meeting Summary**

This document is not a word-for-word transcript but is a summary of the comments. If you feel that clarifications are necessary, or if this differs from your understanding, please notify Charesse Chester, Public Information Specialist by telephone at 305-944-7564 or by email at cchester@creativisionmedia.com within five (5) working days upon receipt of this document.

APPENDIX J
PUBLIC INFORMATION WORKSHOPS

I-95 Corridor Planning Study Public Information Workshop

City of Miami Legion Park / Multipurpose Room
6447 NE 7 Avenue, Miami, FL 33138
Wednesday, February 12, 2020, at 6:30 p.m.

I-195 Corridor Planning Study Public Information Workshop

*Miami Beach Golf Club / Multipurpose Room
2301 Alton Road, Miami Beach, Florida 33140
Thursday, February 13, 2020, at 5:30 p.m.*

Public Information Workshops

Date: Wednesday, February 12, 2020, and Thursday, February 13, 2020
Time: 6:30 p.m. to 8: 30 p.m. and 6 p.m. to 8 p.m.
Locations: See below
Attendees: A copy of the sign-in sheets is included in Appendix A

I. Overview

Interstate (I-195) 195 Corridor Planning Study Public Information Workshops were held on Wednesday, February 12, 2020, at 6:30 p.m. at City of Miami Legion Park, 6447 NE 7 Avenue, Multipurpose Room, Miami, Florida 33140, and Thursday, February 13, 2020, at 6 p.m. at Miami Beach Golf Club, Multipurpose Room, 2301 Alton Road, Miami Beach, Florida 33140. The meeting began with an open house to allow attendees to review the roll plots showing the proposed improvements within the study area. The official presentation began after the 30-minute open house. The same information was shared at both meetings.

II. Workshop Details:

- **City of Miami Legion Park**
6447 NE 7 Avenue, Multipurpose Room
Miami, Florida 33138
Number of attendees: 29
Comment Cards: 3
Elected official representatives: 0
- **Miami Beach Golf Club**
2301 Alton Road, Multipurpose Room
Miami Beach, Florida 33140
Number of attendees: 24
Comment Cards: 5
Elected official representatives: 2

III. Workshop Materials:

The following materials were distributed:

- Fact Sheet (English and Spanish) (see Appendix B)
- Comment Card (English, Spanish, and Creole) (see Appendix C)

IV. Boards/Roll Plots Display: (The following boards/roll plots display were available for the public to review (copies of the boards/roll plots are included in Appendix D)

- Welcome Board
- Base Improvements
- System Improvements
- Bicycle/Pedestrian Improvements

- FDOT Title VI Board (English, Spanish, and Creole)

V. Public Notice:

The workshops were advertised in advance through several methods including:

- Notification emails were sent to 31 state, local elected, and appointed public officials on January 21, 2020 (see Appendix E).
- Invitations were sent to 3,940 property owners and tenants by regular mail on January 30, 2020 (copies of the meeting invitations are included in Appendix F).
- Advertisements were placed in the following publications: Miami Herald Neighbors, El Nuevo Herald, Miami Times and Le Floridien. The ads ran from January 29, 2020, to February 14, 2020 (see Appendix H)
- Florida Administrative Register (FAR) Vol. 46/24 was posted on February 5, 2020 (see Appendix I).
- Press release was distributed by FDOT on Feb 3, 2020 (see Appendix G)
- Project Advisory Team (PAT) members and other interested parties were notified by e-mail twice: February 6, 2020, and February 11, 2020. Copies of the newspaper display ads, the FAR ad, and press release are included in Appendix H.

VI. Workshop Format:

The workshops began as an open house, where the Florida Department of Transportation (FDOT) staff and members of the study team were on-hand to discuss the project and answer questions. Upon arrival, each attendee was provided with a fact sheet in either English or Spanish and a comment sheet. The public was encouraged to provide comments in one of the following ways:

- Submit a written comment at the public information workshops
- Mail/e-mail comment to the FDOT project manager at the address provided on the comment form

Throughout the evening, the project team responded to any questions related to the project and comments.

FDOT Project Manager Shereen Yee Fong welcomed the attendees and BCC Engineering Project Manager Lorin Brissett gave an overview of the project and the proposed improvements. The following topics were discussed:

- Study Area & Background
- Study Focus Area
- Review of Tier 1 Alternatives
- Tier 1 Alternatives Assessment
- Evaluation of Tier 1 Alternatives
- Alternatives for Tier 2 (see Appendix I for the PowerPoint Presentation)

VII. Summary of Public Comments and Questions: (Lorin Brissett, P.E. responded to all questions/comments unless otherwise noted.) (see Appendix J for the Comment sheets

received at both workshops).

**A. Wednesday, February 12, 2020 – 6:30 p.m. to 8: 30 p.m.
City of Miami Legion Park, 6447 NE 7 Avenue, Miami, Florida 33138**

Will Alternative 2 bicycle/pedestrian improvement accommodate emergency vehicles?

Mr. Brissett (Consultant Deputy Project Manager) advised that it is not envisioned that emergency vehicles would ride directly on the bike path. The emergency responders will be able to stage an area near an incident on the path to gain access.

Ms. Yee Fong (FDOT Project Manager) advised that the shoulder improvements will allow emergency vehicles to use the shoulders to access the bike path area in the future.

Question: What will divide the bike/pedestrian lanes from the roadway?

Mr. Brissett (Consultant Deputy Project Manager) advised that a physical barrier will separate the bike lanes from the roadway. Access points will be installed to allow emergency responders to access the bike/pedestrian lanes.

Question: Is a part of the plan to widen the bridge in certain areas?

Mr. Brissett (Consultant Deputy Project Manager) advised Alternative B calls for the widening of the existing bridges to accommodate the paths on the north and south sides. For Alternative A with the path on one side, a separate structure will be installed to accommodate bike/pedestrian traffic.

Question: Is the bridge widening proposed in Alternative A?

Mr. Brissett (Consultant Deputy Project Manager) advised that the existing bridge would be widened as proposed in Alternative B. No, for Alternative A with the path on one side, a separate structure will be installed to accommodate bike/pedestrian traffic. Alternative B would require widening on both sides to accommodate a separate bike/pedestrian path on both sides.

Question: Will Alternative B allow for reversible lanes?

Mr. Brissett (Consultant Deputy Project Manager) advised that this study will not evaluate reversible lanes as an alternative. The 14' structure will provide the capacity required to accommodate bicycle and pedestrian traffic.

Will this project require an additional travel lane?

Jose Muñoz (Consultant Project Manager) advised that the analysis shows that we don't need to add additional lanes for traffic along the Causeway itself.

Comment: When the traffic backs up, people use the shoulder to pass, so emergency vehicles don't have a travel lane. If there is a bike path, the emergency vehicles can use the bike/pedestrian lane.

Question: There was no mention of the intersection improvements at US-1/State Road (SR-5)/Biscayne Boulevard and NE 36 Street. I represent the Morningside Civic Association/Upper Eastside. Our area is constantly dealing with the congestion at this intersection. What are the plans to address traffic at this intersection?

Mr. Brissett (Consultant Deputy Project Manager) advised that the study team is still evaluating the area to identify improvements to address the constraints to include turning lane improvements. Any improvements may require right of way. During the study, we are also evaluating alternative intersection configurations to further explore opportunities to provide additional capacity. Recommendations will be included in the final report.

Question: Is there another public outreach meeting?

Ms. Yee Fong (FDOT Project Manager) advised the resident to contact her office or the community outreach specialist to request a briefing.

Question: How will the north-south connection happen in Bicycle/Pedestrian Alternative A at the western end of the path?

Mr. Brissett (Consultant Deputy Project Manager) advised that a connection is not currently shown but the project team is currently reviewing how best to accommodate a connection to the south at the western end.

Is there a way to provide more capacity without creating the double layer and avoid the impacts similar to what was seen with the NW 25th Street Viaduct?

Mr. Brissett (Consultant Deputy Project Manager) advised that the Department will implement a Maintenance of Traffic (MOT) plan to minimize impacts and maintain traffic operations.

Mr. Muñoz (Consultant Project Manager) advised that the design would be more aligned with the project planned on SR 836 and NW 17th Avenue, heading east to the toll plaza. Nightly operations are planned at the site to make the improvements, and the work will be performed in phases. If it works, this model will be applied to this project, if not adjustments will be made.

B. Thursday, February 13, 2020 – 6 p.m. to 8 p.m.

Miami Beach Golf Club, 2301 Alton Road, Miami Beach, Florida 33139

Question: What factors are considered to make the environmental assessments?

During this study, the physical, cultural, historical impacts are evaluated to determine the environmental impacts.

Ms. Yee Fong (FDOT Project Manager) advised that the human impact is also evaluated. It also requires an evaluation of the increased pollution that will be caused by increased capacity. The Department must meet its air quality standards, so the goal is to not exceed certain levels.

Question: Does this process evaluate the impact of electric vehicles, legislative changes, and new technology used for public transit as a part of the environmental assessment?

This study examines other factors; however, technology is not considered for this study. The transportation industry is still working to develop a model for measuring the benefits of electric vehicles on capacity improvement projects. At present, there is no standard for measuring the benefits.

Comment: It is important to understand benefits in the future. If this project will last 100 years, then the impact of technology should be measured.

Comment: There should be more solutions for transit. Electric vehicles will have a huge impact in the next decade. Mobility options are a must.

Question: With the expansion of the existing bridge, any plans to study seagrass across Biscayne Bay? What does DERM (Department of Environmental and Resources Management) say about this alternative?

The evaluation of the seagrass is planned during Tier 2 and the refinement of the recommended alternative.

Question: To address the heavy gridlock and trucks on NE 36 Street and NE 38 Street, it will require more lanes and to install the roundabout. Will right of way be required? As a contractor, the timeline for this project is important. When did study start?

This study is in the planning phase. During this phase, the study team is tasked with identifying the impacts as well as alternatives that can be further considered in the Project Development & Environment (PD&E) phase. After the PD&E study, the project enters the design phase. At present, there is no funding for construction.

Some changes may move forward as an interim improvement. In 2021, the project will enter the PD&E phase and the design phase is projected to begin in 2024.

Question: Will the Department enter the design phase before acquiring ROW?

The Design phase will start first but there will be some overlap with the ROW phase.

Question: What is Bus Rapid Transit (BRT)?

Ms. Yee Fong (FDOT Project Manager) advised that the bus-on-shoulder project along the Julia Tuttle Causeway is entering the design phase. The Department has programmed the project to accommodate express bus service. When speeds drop below 35 MPH, transit will be able to utilize the shoulder to travel.

Question: For Alternative B, is the run-off water coming down to Mount Sinai being evaluated?

An in-depth drainage analysis for the preferred alternative will be conducted during the PD&E phase.

Question: I'm glad the Department found a solution for our residents at the I-195 eastbound off-ramp to NE 36 Street/ Biscayne Boulevard by adding a traffic light at the ramp or a roundabout. When will the traffic light be installed?

The improvement must first go through the detailed design phase before it can be installed.

Ms. Yee Fong (FDOT Project Manager) advised that the improvement would require at least a year to design before construction can begin.

Comment: It is important to evaluate sea-level rise.

Comment: Improving the flow of traffic to 41st Street through the school zone and business corridor should also be taken into consideration.

Mr. Brissett (Consultant Deputy Project Manager) advised the best way to improve operations in the area is to add an additional lane and better signalization of traffic light.

Comment: The ramp back up impacts the traffic heading to the mainland.

Question: Does this project include a Texas U-Turn?

The Texas U-Turn was initially proposed to allow Miami Beach residents to access/exit I-195. The timing of this improvement is pegged to the timing of the Golden Glades Interchange (GGI) reconstruction project which addresses the current bottleneck on I-95. Mitigating the I-95 bottleneck is necessary before the additional express lane demand that would result from the new connections can be accommodated. As of today, GGI is on hold until a utility issue is resolved, and the construction phase is once again funded.

Question: Is there a plan to move traffic more quickly during a hurricane?

Ms. Yee Fong (FDOT Project Manager) advised that the improvements to the shoulder for express bus lanes will also improve operations as an evacuation route.

Question: Is one area and/or improvement a priority over another?

System Operation – 95 to Miami Alternative 3 more closely impacts the entire system Julia Tuttle Causeway Bicycle/Pedestrian Improvements will require addressing specific issues in order to move forward with the proposed improvements.

Question: Will this system require more tolls?

No, this system will not install toll lanes.

During the walkthrough period prior to the start of the Public workshop.

Mr. Gerry Goldstein (a member of the Public) requested FDOT consider constructing a Median Crossover opening along the Julia Tuttle Causeway roughly midway between the City of Miami and Miami Beach to provide emergency vehicles with an intermediate access to travel lanes in the opposite direction without having to travel all the way to one end of the Causeway or the other. Editor's note, the FDOT Traffic Operations Section has previously reviewed a similar request and recommended against its implementation given the median crossover would not meet AASHTO and FHWA requirements for such an opening on the Causeway

C. Summary of Comments Received via E-mail:

Comment: I am the Property Manager of the Charter Club Condominium Association; I don't want bike riders to use our guest/resident parking. I think that public parking is very important.

Comment: I demand for I-195 to disband all plans to add single occupancy vehicle capacity, on-ramps, off-ramps, and bridges. Focus entirely on the proposed grade-separated pedestrian/bicycle facility.

Comment: What we want are fewer cars and less pollution. Not double-decking highways to cram even more automobiles on Miami Beach.

Comment: I believe the money would better serve all citizens if it were invested in transit, walkable and bikeable streets. Roads are a subsidy for everyone wealthy enough to afford one at the expense of all citizens. Please consider the environmental impact as well as the impact on our communities

Comment: I am shocked and outraged at the alternatives proposed and considered by FDOT District Six, for the System Improvement Alternatives. None of these make any meaningful effort in producing safer, environmentally sustainable, and cost-effective multimodal mobility. I believe that moving forward with any of them, without at least considering serious transit alternatives, would be a grave mistake. It would also be a possible violation of the statutory and design obligations imposed on FDOT.

VIII. End of Meeting Summary

This document is not a word-for-word transcript but is a summary of the comments. If you feel that clarifications are necessary, or if this differs from your understanding, please notify Charesse Chester, Public Information Specialist by telephone at 305-944-7564 or by email at cchester@creativisionmedia.com within five (5) working days upon receipt of this document.

STUDY OBJECTIVES

- ✓ Provide a basis for a Project Development and Environment (PD&E) study for the corridor.
- ✓ Evaluate existing and future demand/operations of the corridor and interchanges.
- ✓ Develop improvements for mainline and system-to-system connections to improve operations and safety.
- ✓ Develop improvements to provide a dedicated bicycle/pedestrian connection between the City of Miami Beach and the City of Miami.
- ✓ Evaluate the potential community impacts and costs of the conceptual improvements.
- ✓ Inform the community about the potential improvements and study findings through multiple public workshops in Feb. 2020.

STUDY DESCRIPTION

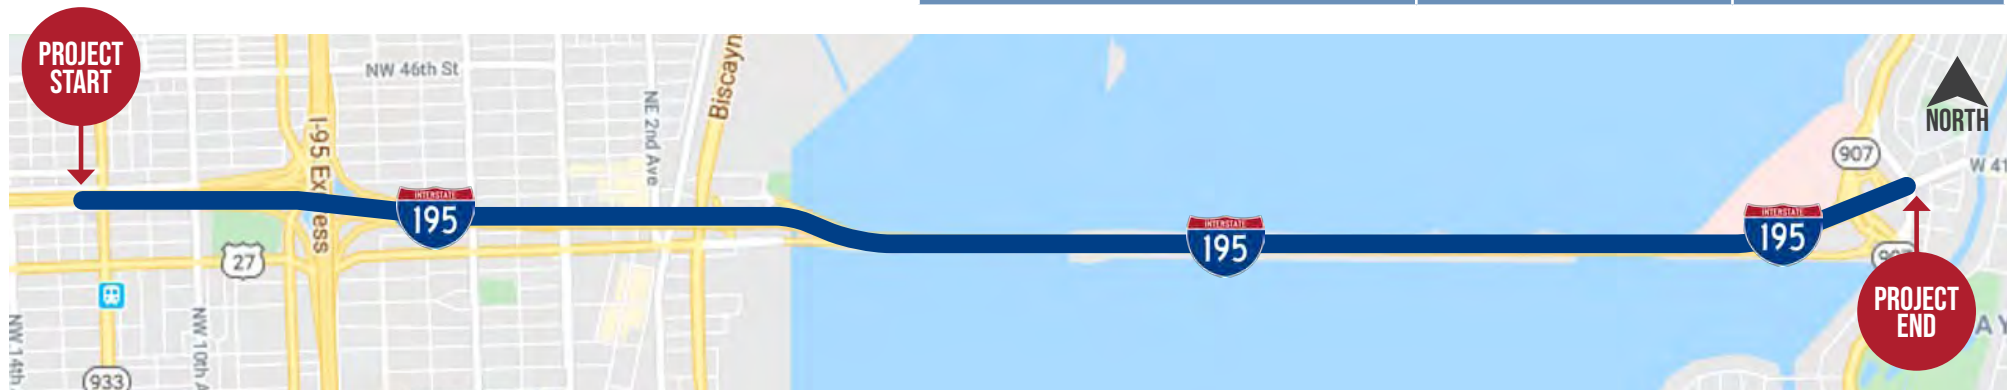

The Interstate 195 (I-195) Corridor Planning Study focuses on the 5-mile corridor along SR 112/I-195 from west of I-95 to Alton Road within the limits of Miami-Dade County to identify operational and safety improvements. The study area examines operations and conditions at interchange influence areas and ramp connections. The project also includes the development of performance measures, safety and operational analyses focusing on areas of recurring congestion, conceptual improvement development and evaluation, connectivity to the I-95 express lanes, cost estimating, and impact analyses.

PROJECT SCHEDULE

Start: August 2017 | **Completion:** June 2020

FUTURE STUDY-RELATED PROJECT

OBJETIVO DEL ESTUDIO

- ✓ Proporcionar una base para el Estudio del Proyecto de Desarrollo y Medio Ambiente (PD&E, Project Development and Environment) del corredor.
- ✓ Evaluar las operaciones y las demandas existentes y futuras del corredor y los intercambios.
- ✓ Desarrollar mejoras para la vía principal y las conexiones entre sistemas para mejorar las operaciones y la seguridad.
- ✓ Desarrollar mejoras para proporcionar una conexión dedicada para bicicletas y peatones entre la Ciudad de Miami Beach y la Ciudad de Miami.
- ✓ Evaluar los posibles impactos en la comunidad y los costos de las mejoras conceptuales.
- ✓ Realizar talleres públicos en febrero de 2020 para informar a la comunidad sobre las posibles mejoras y los hallazgos del estudio.

DESCRIPCIÓN DEL ESTUDIO

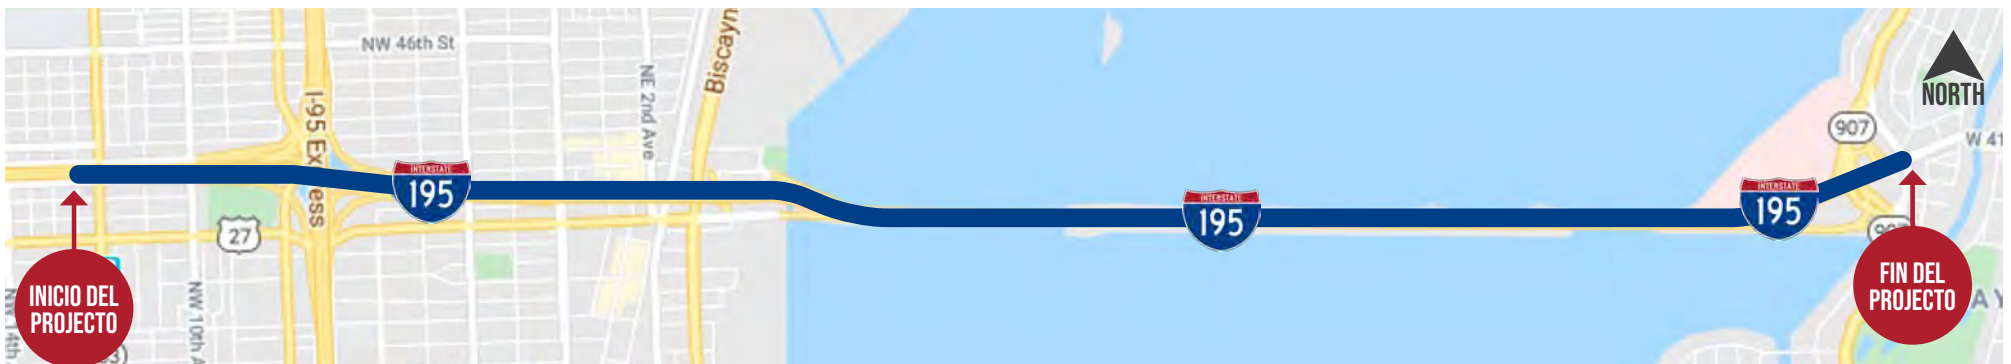

El Estudio de planificación del corredor de la carretera interestatal 195 (I-195) se centra en el corredor de 5 millas a lo largo de SR 112/I-195 desde el occidente de I-95 hasta Alton Road, dentro de los límites del condado de Miami-Dade, e identifica mejoras operacionales y de seguridad. El área del estudio examina operaciones y condiciones en las áreas de influencia del intercambio y las conexiones de rampas. El proyecto incluye el desarrollo de medidas de desempeño, análisis operacionales y de seguridad que se centran en áreas de congestión recurrente, evaluación y desarrollo de mejoras conceptuales, conectividad con los carriles exprés de I-95, estimación de costos y análisis de impactos.

CRONOGRAMA DEL PROYECTO

Inicio: agosto de 2017 | **Finalización:** junio de 2020

FUTURO PROYECTO RELACIONADO CON EL ESTUDIO

January 21, 2020

RE: PUBLIC INFORMATION WORKSHOPS
Interstate 195 (I-195) Corridor Planning Study
From State Road (SR) 933/NW 12 Avenue to SR 907/Alton Road
Miami-Dade County, Florida
Financial Management (FM) Number: 440228-1-22-01

Dear Ms. Placide:

The Florida Department of Transportation (FDOT) District Six, has scheduled two Public Information Workshops to discuss the I-195 Corridor Planning Study that will consider strategies to improve capacity deficiencies, traffic operations, and multimodal use along SR 933/NW 12 Avenue to SR 907/Alton Road in Miami-Dade County.

The Public Information Workshops will be held on:

Wednesday, February 12, 2020

6:30 p.m. – 8:30 p.m.

Presentation begins at 7 p.m.

City of Miami Legion Park

Multipurpose Room

[6447 NE 7 Avenue](#)

Miami, Florida 33138

Thursday, February 13, 2020

6 p.m. – 8 p.m.

Presentation begins at 6:30 p.m.

Miami Beach Golf Club

Multipurpose Room

[2301 Alton Road](#)

Miami Beach, Florida 33140

The workshops will provide participants with an opportunity to give their input on the proposed improvements. This letter is being sent to all property owners located within at least 300 feet on either side of the proposed alignment.

Public Participation at this meeting is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this meeting is asked to advise the agency at least seven working days before the meeting by contacting: Irene Varela at 305-470-5342 or in writing: FDOT, 1000 NW 111 Avenue, Miami, Florida 33172, email: Irene.Varela@dot.state.fl.us. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1-800-955-8771 (TDD) or 1-800-955-8770 (Voice).

If you have questions about the project or scheduled Public Information Workshops, please contact the Project Manager, Shereen Yee Fong at 305-470-5393 or via email at Shereen.YeeFong@dot.state.fl.us. You may also visit the project website at www.fdotmiamidade.com/I195CorridorPlanningStudy.

Sincerely,

James Wolfe, P.E.
District Six Secretary

APPENDICE F: Letter to Property Owners and Interested Parties (English, Creole, and Spanish)

Florida Department of Transportation

RON DESANTIS
GOVERNOR

1000 NW 111 Avenue
Miami, FL 33172

KEVIN J. THIBAUT, P.E.
SECRETARY

January 24, 2020

SUBJECT: PUBLIC INFORMATION WORKSHOPS
Interstate 195 (I-195) Corridor Planning Study
From State Road (SR) 933/NW 12 Avenue to SR 907/Alton Road
Miami-Dade County, Florida
Financial Management (FM) Number: 440228-1-22-01

Dear Property Owner/Interested Stakeholder:

The Florida Department of Transportation (FDOT) District Six, has scheduled two Public Information Workshops to discuss the I-195 Corridor Planning Study that will consider strategies to improve capacity deficiencies, traffic operations, and multimodal use along SR 933/NW 12 Avenue to SR 907/Alton Road in Miami-Dade County.

The Public Information Workshops will be held on:

Wednesday, February 12, 2020
6:30 p.m. – 8:30 p.m.
Presentation begins at 7 p.m.
City of Miami Legion Park
Multipurpose Room
6447 NE 7 Avenue
Miami, Florida 33138

Thursday, February 13, 2020
6 p.m. – 8 p.m.
Presentation begins at 6:30 p.m.
Miami Beach Golf Club
Multipurpose Room
2301 Alton Road
Miami Beach, Florida 33140

The workshops will provide participants with an opportunity to give their input on the proposed improvements. The workshops will follow an open-house format with a brief presentation. This letter is being sent to all property owners located within at least 300 feet on either side of the proposed alignment.

Public Participation at this meeting is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this meeting is asked to advise the agency at least seven working days before the meeting by contacting: Irene Varela at 305-470-5342 or in writing: FDOT, 1000 NW 111 Avenue, Miami, Florida 33172, email: Irene.Varela@dot.state.fl.us. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1-800-955-8771 (TDD) or 1-800-955-8770 (Voice).

If you have questions about the project or scheduled Public Information Workshops, I can be contacted at (305) 470-5393 or via email at shereen.yeefong@dot.state.fl.us. You may also visit the project website at www.fdotmiamidade.com/I195CorridorPlanningStudy.

Sincerely,

Shereen Yee Fong
Project Manager, District Six

SIJE: ATELYE PIBLIK POU ENFÒMASYON
Etid Plannifikasyon Koridò 195 (I-195)
Depi Wout Eta (SR) 933/NW 12 Avni, pou rive nan SR 907/Alton Road
Miami-Dade County, Florida
Nimewo Administrasyon Finansyè (FM): 440228-1-22 01

Bonjou Mèt Pwopriyete oswa Mèt Biznis ki Enterese:

Distrik Sis nan Depatman Transpò Florid la (FDOT) pral fè 2 Atelye Piblik pou Enfòmasyon pou pale sou Etid Plannifikasyon Koridò I-195 la, ki pral evalye estrateji pou amelyore sikilasyon trafik, sèvis otobis, mouveman piyon e moun sou bisiklet ak motosiklet sou SR 933/NW 12 Avni, pou rive SR 907/Alton Road nan Miami-Dade County.

Men dat, lè, ak kote Atelye Enfòmasyon yo pral fèt:

Mèkredi, 12 fevriye 2020
6:30 diswa – 8:30 diswa
Prezantasyon an ap kòmanse
a 7 diswa
City of Miami Legion Park
Multipurpose Room
6447 NE 7 Avenue
Miami, Florida 33138

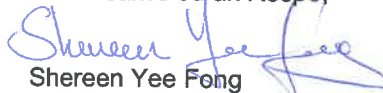

Jedi, 13 fevriye 2020
6 diswa – 8 diswa
Prezantasyon an ap kòmanse
a 6:30 diswa
Miami Beach Golf Club
Multipurpose Room
2301 Alton Road
Miami Beach, Florida 33140

Reyinyon an pral pèmèt moun ki patisipe yo di sa yo ta wè nan amelyorasyon yo pwopoze yo. Reyinyon an ap fèt dapre yon fòm pou rankont lib, avèk yon prezantasyon kout. Lèt sa a pral jwenn tout moun ki gen pwopriyete ki nan yon distans omwen 300 pye sou nenpòt bò aliyman yo pwopoze a.

Nou mande patisipasyon piblik la nan reyinyon sa a, san konsiderasyon sou ras, koulè, peyi kote moun soti, laj, gason oubyen fi, relijyon, andikap, oswa kondisyon matrimonyal. Dapre dipozisyon ki nan Lwa pou Moun Andikape nan Etazini an (Americans with Disabilities Act), si yon moun bezwen aranjman espesyal pou patisipe nan reyinyon sa a, li mèt fè FDOT konnen sa omwen (7) sèt jou anvan dat reyinyon an. Kontakte Irene Varela nan nimewo 305-470-5342, oubyen ekri pa lapòs nan adrès: FDOT, 1000 NW 111 Avenue, Miami, Florida 33172, oubyen voye yon mesaj elektwonik nan adrès: Irene.Varela@dot.state.fl.us. Si ou gen pwoblèm pou tande oswa pou pale, kontakte ajans lan nan Sèvis Lyezon Florid la (Florida Relay Service), nan nimewo 1-800-955-8771 (TDD pou moun ki pa tande byen), oswa 1-800-955-8770 (telefòn nòm).

Si ou gen kesyon sou pwojè a, oswa sou Atelye Piblik pou Enfòmasyon ki pral fèt la, ou mèt kontakte mwen nan nimewo telefòn 305-470-5393 oswa pa imèl nan Shereen.YeeFong@dot.state.fl.us, oswa kontakte Espesyalis nan Enfòmasyon Kominote a Charesse Chester nan nimewo telefòn 305-944-7564, oswa pa imèl nan CChester@creativisionmedia.com. Ou mèt gade nan adrès entènèt pwojè a tou, ki se www.fdotmiamidade.com/I195CorridorPlanningStudy.

Mwen salwe ou ak Respe,

Shereen Yee Fong

ASUNTO: TALLERES PÚBLICOS INFORMATIVOS

Estudio de planificación del corredor de la carretera interestatal 195 (I-195)
Desde la carretera estatal (SR) 933/noroeste 12 avenida hasta la SR 907/Alton Road
Condado de Miami-Dade, Florida
Número de identificación: 440228-1-22-01

Estimado Dueño/Persona Interesada:

El Departamento de Transporte de la Florida (FDOT), Distrito Seis, ha programado dos talleres públicos informativos para intercambiar opiniones sobre el estudio de planificación del corredor de la carretera interestatal I-195. En ellos se tomarán en consideración estrategias para mejorar las deficiencias en capacidad, las operaciones de tráfico y el uso multimodal a lo largo de SR 933/noroeste 12 avenida hasta SR 907/Alton Road en el condado de Miami-Dade.

Los talleres públicos informativos se llevarán a cabo el:

Miércoles, 12 de febrero de 2020
6:30 p.m. a 8:30 p.m.
La presentación comienza a las 7 p.m.
City of Miami Legion Park
Salon de Multipropósito
6447 NE 7 Avenue
Miami, Florida 33138

Jueves, 13 de febrero de 2020
6 p.m. a 8 p.m.
La presentación comienza a las 6:30 p.m.
Miami Beach Golf Club
Salon de Multipropósito
2301 Alton Road
Miami Beach, Florida 33140

Los talleres ofrecen una oportunidad para que los participantes compartan sus opiniones sobre las mejoras propuestas. Los talleres tendrán un formato de recepción para el público con una presentación breve. Esta carta se está enviando a todos los propietarios ubicados a menos de 300 pies a cada lado de la alineación propuesta.

Se solicita la participación pública en esta reunión sin distinción de raza, color de piel, nacionalidad de origen, edad, sexo, religión, discapacidad ni situación familiar. De conformidad con la Ley de Estadounidenses con Discapacidades, se agradece que toda persona que requiera ajustes especiales a fin de participar en esta reunión informe a la agencia al menos (7) siete días antes de la reunión a través del siguiente contacto: Irene Varela 305-470-5342 o por escrito al FDOT, 1000 NW 111 Avenue, Miami, Florida 33172, o correo electrónico: Irene.Varela@dot.state.fl.us. Si tiene dificultades auditivas o de hablar por favor comuníquese con la agencia a través del servicio Florida Relay Service, al 1-800-955-8771 (TDD) o al 1-800-955-8770 (voz).

Si tiene preguntas sobre el proyecto o sobre los Talleres Públicos Informativos, puede comunicarse conmigo por el 305-470-5393 o por correo electrónico a Shereen.YeeFong@dot.state.fl.us, o con la Especialista de Alcance Comunitario Charesse Chester al 305-944-7564, o por correo electrónico a CChester@creativisionmedia.com. También puede visitar la página web del proyecto: www.fdotmiamidade.com/I195CorridorPlanningStudy.

Cordialmente,

Shereen Yee Fong
Gerente del Proyecto, Distrito Seis

Dillard alum Eddie Frasier

The head coach came back to give back

There's no place like home for Dillard High School alum, Eddie Frasier.

Born and raised in Fort Lauderdale, Frasier absolutely loves Dillard High School Panthers.

The first-year head football coach came home to the Panthers and he brought success with him.

At 34 years old, Frasier led the Panthers' football team to an undefeated (10-0) regular season, finishing an impressive (12-1) overall.

Some critics say that the strength of the schedule was his best friend, but at the end of the day, you still have to play the game.

And the Panthers' haven't seen this kind of success in 30 years.

This year alone, Frasier added these accolades to his resume: Broward County Coach of the Year; 6A-8A Head Football Coach of the Year (which he humbly

shares with his coaching staff); Broward County Team of the Year and All County nods for some of his athletes.

His winning ways did not go unnoticed by his peers.

Coach Frasier was also one of 32 head coaching candidates nominated by their respective local NFL teams for the Don Shula NFL High School Coach of the Year Award. Shula is the winningest coach in NFL history and the only coach to record a perfect season including winning the Super Bowl.

Frasier represented the Miami Dolphins as one of the best to do it on the high school level.

Though he did not win this one, the criteria to be considered is an honor and makes one proud to know that this is what peers think about you.

Character, leadership, integrity, dedication to the community, commitment to player health and safety and

Eddie Frasier

on-field success are all good management traits.

Young, Black, talented, respected and successful ... coach had a Cinderella season for his first year out.

Frasier is one of the rare few that came back to give back.

Seems as though coach Frasier had a date with fate.

He went away to school and he came back in 2008 and started laying the groundwork to land his dream job of one day coaching at the school where he left his heart.

Once he graduated from college, he came back to Fort Lauderdale

and started coaching at Lauderdale Lakes Vikings, one of youth programs at which he played. Some of his old youth coaches, who he says made an impact on his life, let him come back and start coaching.

He went from being an assistant coach at Lakes to being a head coach there. He won a state championship for the youth level at Lauderdale Lakes.

Success breeds more opportunities and he started to get a lot of offers to come to high school programs because of his connection with the youth league kids.

But he says he didn't want to go anywhere but his alma mater - Dillard.

"I got the opportunity in 2013. I coached the middle school flag football team at Dillard (6-12 grades) winning two county championships," said Frasier. "And a lot of the guys now are the guys I

coached in middle school." From there, he was promoted to a JV coaching spot and won 13 straight games."

After paying some dues and having success, Feb. 1, 2019 is a day coach Frasier will fondly remember as the day he was promoted to the position of head football coach of the Dillard High School football team.

"Live for Dillard" is the motto that he guides his team by. He says Dillard is a "lifestyle."

That lifestyle he wants to introduce his team to express its pride in being a Dillard Panther.

"I am very committed to making sure that Dillard football is back where it needs to be," coach Frasier told The Miami Times.

It's always nice to see a hometown boy come back and make difference in the community from which he hailed.

Invitation to Bid

Turner Construction Company and Jackson Health System cordially invite interested subcontractors to complete and submit sealed bids by **Wednesday, February 12, 2019** no later than **3 PM EST** for the following project / bid packages:

**JACKSON HEALTH SYSTEM
JACKSON MEMORIAL HOSPITAL
DIAGNOSTIC TREATMENT CENTER (DTC) ICU VERTICAL
EXPANSION
SELECT TRADE BID PACKAGES (see below)**

The invitation to bid (ITB) for this project includes the following bid packages:

- Stucco
- Exterior Insulation and Finish System (EIFS)

Bid manual, bid requirements, bid forms, specifications, drawings, and other construction documents will be available through www.BuildingConnected.com. Respond via www.dtcjackson.com website to gain access to Building Connected and bid documents.

Bids must be delivered in a sealed envelope to Jackson Memorial Hospital Facilities, Design and Construction Department **trailer located at the corner of NW 12th Ave and NW 19th St.** Complete address is listed below (additional instructions and map will be provided via Building Connected):

Jackson Memorial Hospital
Facilities, Design and Construction Department
ATTN: Isa Nunez
1611 NW 12th Ave
Miami, FL 33136

Turner is committed to supporting the economic development of certified Miami-Dade County Small Business Enterprise - Construction (SBE-C) firms. Miami-Dade County certified SBE-C entities are encouraged to submit prequalification interest information for this and future projects. Turner Construction Company is an equal employment opportunity employer (minorities / females / veterans / individuals with disabilities / sexual orientation / gender identity).

All questions regarding **prequalification** should be directed to Eric Small at ersmall@tcco.com

All questions regarding the **bid process** should be directed to Andrew Gotschall at agotschall@tcco.com.

Floating solar array lands at MIA

Millions who fly into Miami International Airport will now see a solar array that generates 160 kilowatts of power. Florida Power and Light Co. partnered with Miami-Dade County to install the nation's first floating array at an airport, which launched Tuesday into the Blue Lagoon next to MIA.

The half-acre, 402-panel installation is a research project that tests how solar panels perform on water.

FPL has built numerous smaller solar installations throughout Miami-Dade County in urban areas that generate clean energy and raise awareness for solar technology.

PUBLIC MEETING NOTICE

Interstate 195 (I-195) Corridor Planning Study
from State Road (SR) 933/NW 12 Avenue to State SR 907/Alton Road
Financial Management (FM) Number: 440228-1-22-01

The Florida Department of Transportation (FDOT) District Six, has scheduled two Public Information Workshops to present the proposed improvements to the I-195 Corridor Planning Study from SR 933/NW 12 Avenue to SR 907/Alton Road in Miami-Dade County.

FDOT The Public Information Workshops will be held on:

Wednesday, February 12, 2020
6:30 p.m. - 8:30 p.m.
Presentation begins at 7 p.m.
City of Miami Legion Park
Multipurpose Room
6447 NE 7 Avenue
Miami, Florida 33138

Thursday, February 13, 2020
6 p.m. - 8 p.m.
Presentation begins at 6:30 p.m.
Miami Beach Golf Club
Multipurpose Room
2301 Alton Road
Miami Beach, Florida 33140

For information about this study, please contact FDOT Project Manager, Shereen Yee Fong, at (305) 470-5393 or by email at Shereen.YeeFong@dot.state.fl.us, or Community Outreach Specialist Charesse Chester at (305) 944-7564, or by email at CChester@creativisionmedia.com.

For more information, please visit the project website:

BIKE LANES VS. TREES

Coral Gables kills plan to add bike lanes on Alhambra Circle

BY BAILEY LEFEVER
blefever@miamiherald.com

On the same day Coral Gables City Commission declared a climate emergency, it unanimously voted to kill controversial plans to add bike lanes to Alhambra Circle — a project that would have removed at least some of the city's beloved tree canopy.

The irony did not go unnoticed by residents. At least a handful of speakers at the meeting noted that

cars are the number one source of carbon emissions in the city, and the world.

The added lanes would have provided safer streets for bicyclists along a 2.3-mile stretch of Alhambra Circle from Coral Way to the University of Miami. Alhambra Circle, north of Coral Way to Le Jeune Road, has bike lanes along tree-lined swales.

Residents packed the city's chambers for three tension-filled hours, with the bicyclists pitted against the homeowners. The main

point of contention: The bike lanes also would have wiped out some of the city's 38,000 trees.

While city officials weren't sure how many trees would be removed, the city manager has said that at least three dead trees would have to go. Mayor Raúl Valdés-Fauli interjected multiples times to say he counted 22 trees that would be removed.

However the plan is developed, argued Marvin Ross Friedman, a resident of Alhambra Circle, it's

impossible to go around the trees.

"We have no clear information on how many trees will be lost," he argued.

The bicycle lanes would be built at least partly on swales, which is city property, not the homeowners.'

Valdés-Fauli had put forth a resolution calling for the commission to direct the city manager and city staff to "cease further consideration of bike lanes on Alhambra Circle when designing the Alhambra Complete Streets Project."

The 5-0 vote did that, ending the latest city push to put bike lanes along Coral Gables streets. The city approved its first bicycle master plan in 2004, but the city hasn't created any new lanes for bicyclists.

In 2014, decade later, the city again tried to amp up its roadways, passing a proposal calling for 27 miles of new bike lanes, sidewalks and crosswalks. But residents vehemently challenged the plan.

The last push in 2018 to add bike lanes on Riviera Drive was quashed by the commission after residents protested.

Those opposed to the Alhambra bike lanes said the street is too busy and already dangerous for pedestrians.

Speakers argued that bicyclists would be safer using what sidewalks are there, rather than adding an additional lane to a busy street. Many blocks of Alhambra Circle don't have sidewalks.

A rendering shows a proposal for new bike lanes on Alhambra Circle in Coral Gables.

But the trees were the biggest reason the residents blocked the bike paths.

Henry Bell, a lawyer, who has lived on the street for years, talked about the four big trees past his front yard. Every year his family decorates the trees at Christmas with strings of lights.

The tradition is special to the community, he said. In fact, one year a young man asked if he could propose to his girlfriend under the trees' lights.

"I think it adds to the charm of the neighborhood," he said. And if the bike lanes were added, he said, "I don't have any confidence that our trees would not be at risk."

Multiple bicyclists showed up to protest the resolution, wearing stickers the size of saucers proclaiming, "Protect pedestrians and cyclists in the Gables."

This is about safety, said Robert Ruano, of Bike Walk Coral Gables.

"Our neighbors claim to be concerned about safety, but the point of this project is safety," he said. "People who choose to walk or cycle deserve a reasonable amount of safety. For me, this is personal. It's my life that we're talking about."

Now the city will give up the \$597,000 grant it received in 2015 from the Florida Department of Transportation for the Alhambra Circle bike lanes. City administrators say the road is a key link between residential neighborhoods, the city's downtown, the University of Miami, and the Underline, a 10-mile-long park for walkers and bikers in its first phase of construction beneath the elevated Metrorail tracks.

But the grant was contingent on community support for the project, said Silvia Pinera-Vazquez, an attorney who lives on Alhambra Circle, and it didn't have that support.

Commissioner Vince Lago voted for the resolution, but said the area's safety needs to be improved.

"I've heard mothers say it's hard to get to the park because there's no sidewalk," he said.

Lago explained that a traffic study will likely find that the area needs upgrades like sidewalks and other safety features.

"We're going to be back here in six months having a conversation about sidewalks. And to me, that's not ideal."

Ni una habitación libre en los mejores hoteles de Miami

ALBERTO DOMINGO CARRERO
EFE

Como cada año, el Super Bowl, la final de la Liga Nacional de Foot-

ball, que este año se disputará en el Hard Rock Stadium de Miami Gardens el próximo 2 de febrero, se convierte en la cita deportiva más importante de la temporada, y a menos de una semana del evento los

hoteles más importantes de Miami no disponen de ninguna habitación libre. Hard Rock Hotel, Four Seasons, The Biltmore o The Miami Beach Edition están al cien por cien de su capacidad para el fin de

semana del Super Bowl, un evento cuyas entradas más caras se pueden comprar por más de \$33,000, según indica Ticket Master, una de las páginas oficiales de reventa. El Super Bowl, que este

año será entre los Chiefs de Kansas City contra los 49ers de San Francisco, atrae a miles de aficionados y con ellos se mueven enormes sumas de dinero. Una opción mucho más asequible para los aficionados es la de reservar una habitación en Airbnb, en las inmediaciones del estadio de los Dolphins, donde se jugará el encuentro y que está en Miami Gardens.

En la aplicación de la empresa se pueden encontrar habitaciones desde 40 dólares la noche hasta casas completas a menos de 2 kilómetros del estadio, por 4.500 dólares la noche.

Según Airbnb, se espera un aumento del número de alquileres en los condados de Miami-Dade y Broward para el fin de semana del partido y ya se confirmaron más de 34.000 reservas, superando así las 26.000 de la feria Art Basel celebrada en diciembre pasado.

“Al comenzar el año en Florida con un gran evento masivo como es el Gran Partido, Airbnb está orgulloso de facilitar el viaje de decenas de miles de personas, mientras apoyamos e impulsamos la economía del estado”, indicó en un comunicado el director de políticas de Florida, Tom Martinelli.

VIENE DE LA 3A ACTOR

de toda la comunidad”. Por su parte, Cámara resaltó que su contacto comunitario local data de hace varias décadas a través de “fundaciones y en múltiples eventos de recaudación de donaciones, además de haber estado vinculado a campañas electorales de candidatos

locales a lo largo de las últimas tres décadas”. Otro candidato que registró su postulación al Concejo de Doral es el también venezolano Juan Carlos Esquivel, quien registró su candidatura al escaño 3, que dejará vacante Christi Fraga. “Mi candidatura oficializa el servicio que yo ya le doy a la comunidad”, dijo Esquivel, de 54 años y quien aseguró desempeñarse en Doral como agente de carga. “Hay quienes

incursionan en política para sacar provecho personal, yo en cambio lo hago tras haber logrado el éxito en mi campo que es el transporte y la logística, una actividad medular de la vida industrial y comercial de Doral”. Desde que se supo que Fraga aspiraría a la Junta Escolar por el Distrito 5, que comprende partes de Hialeah, Doral, Miami Springs, Sweetwater y Kendall entre otras zonas del condado, el escaño 3 de

la Comisión de Doral ha captado el interés de otros dos aspirantes: el empresario Oscar Puig y un entrenador de fútbol americano en Doral, Alberto Chávez. Puig saludó la inscripción de Esquivel. “Bienvenida la competencia. Todos tienen derecho a postularse”, dijo Puig el lunes. “Es sano para nuestra democracia”.

VIENE DE LA 3A HIALEAH

les del Departamento de Justicia en el 2016 tras haber rechazado acusar a Menocal. Tampoco la ciudad ha dado evidencia de que, como ha afirmado Veláz-

quez, la policía informó al MDC de una investigación sobre la presunta relación entre Menocal y la cadete de 22 años de su clase. “Discutimos lo ocurrido”, dijo Hernández, y calificó que el reportaje del Herald era “falso”. “No sé cuál es el problema del Miami Herald con nosotros”, agregó. Directivos del MDC

dijeron que nunca recibieron un memorando ni otra indicación de que la policía estaba investigando la conducta de Menocal. Durante las anteriores dos semanas del concejo, el alcalde criticó furiosamente la cobertura del Herald de la forma en que el gobierno de Hialeah manejó el caso de Menocal, y dijo: “Reto a la edito-

ra del periódico a que vaya en cualquier momento que quiera a una estación de radio en español conmigo. La voy a poner en el lugar que se merece”.

El reportero del Miami Herald Nicholas Nehamas contribuyó con esta historia.

VIENE DE LA 3A SÚPER BOWL

Miami Beach están contribuyendo millones de dólares en pagos al Comité Organizador del Super Bowl, por servicios de seguridad pública y cancelación de cargos. Miami Gardens pagará sus propios servicios policiales adicionales por el Super Bowl el domingo, con agentes adicionales en bicicletas, autos y encubiertos.

Comité Organizador sobre las sedes de los eventos y los programas. McCarthy señaló que la NFL celebró recientemente dos eventos relativamente modestos en Miami Gardens: el lunes, la NFL y la UNICEF ayudaron a renovar un jardín de vegetales en el Centro Educativo Robert Renick y dieron a la escuela una donación de \$1,000, y el martes, la NFL acogió un panel sobre relaciones saludables dirigido a alumnos de escuela intermedia en la Universidad St. Thomas.

la casa” debido al fuerte tráfico, dijo Karen Hunter Jackson, vecina de Miami Gardens. “Eso es una inconveniencia”. Gilbert se ha pronunciado contra los planes del Gran Premio, al igual que Barbara Jordan, la comisionada condal que representa la zona de la ciudad. Jordan, que normalmente es una aliada leal de los Dolphins, indicó su opinión de que el Hard Rock ya es demasiado grande para Miami Gardens. “Yo tengo la teoría de que el Sr. Ross está creando lo que me parece un centro completo de atracción. Punto. Tenemos a los Dolphins. Tenemos la Universidad de Miami. Tenemos una instalación de entrenamiento”, dijo. “Llega el momento en que tenemos que decir que no”.

negocios a la ciudad. La NFL quizás no se ha sumado, pero el alcalde parece decidido a cambiar eso. “Queremos que regresen”, dijo Gilbert el lunes en una conferencia de prensa del Comité Organizador. “No tienen que ir a esas otras ciudades. No hace falta una rotación. Nos encanta invitarlos a nuestra casa”.

Douglas Hanks, redactor del Miami Herald, contribuyó a este artículo.

Pero Gilbert dijo que espera que la ciudad se beneficie de uno de los proyectos de la NFL o celebre más eventos patrocinados por la organización esta semana. Agregó que los organizadores del Super Bowl han desarrollado fórmulas para promover el evento en la zona de Miami, que está acogiendo el juego por octava vez, un récord, pero Miami Gardens todavía no es una parte importante de la ecuación.

Un representante del Comité Organizador no respondió a una solicitud de declaraciones. La llegada del Super Bowl a la ciudad coincide con un período de enfrentamiento entre el liderazgo municipal y el Hard Rock sobre un intento de Ross por traer carreras de Fórmula 1 a la ciudad.

Un grupo de vecinos de Miami Gardens planea protestar por la propuesta del Gran Premio cerca del estadio antes del Super Bowl el domingo. La relación entre la ciudad y el estado es delicada. El Hard Rock es la propiedad que más impuestos paga a la ciudad, de lejos, unos \$1.4 millones el año pasado, que representa más de 15% del total del valor tasado de las propiedades en Miami Gardens. Un enorme proyecto de renovación del estadio, que comenzó en 2015, junto con esfuerzos para alentar proyectos como la creación de un “distrito de entretenimiento” cerca del Ayuntamiento el mismo año han ayudado a atraer nuevos

“A medida que cambiamos, pienso que esa interacción tiene que cambiar también”, dijo. “Esperamos que la próxima vez que el Super Bowl se celebre aquí tengamos muchas actividades relacionadas con el evento”. Cuando se le preguntó sobre la relación de la NFL con la ciudad y la falta de proyectos, Brian McCarthy, el vicepresidente de Comunicaciones de la liga, dijo que la NFL consulta con el

En una reunión pública el 15 de enero en la secundaria Miami Carol City, los vecinos presentaron quejas sobre el ruido, la contaminación y la congestión que provocaría el Gran Premio de Fórmula 1, pero también vincularon esas quejas con preocupaciones sobre la vida alrededor del estadio. “En el último juego [de los Dolphins] tuve que dejar mi auto en la casa de un vecino y caminar hasta

NOTIFICACIÓN DE REUNIÓN PÚBLICA
Estudio de planificación del corredor de la carretera interestatal 195 (I-195) Desde la carretera estatal (SR) 933/noroeste 12 avenida hasta la SR 907/Alton Road
Número de Identificación: 440228-1-22-01

El Departamento de Transporte de Florida (FDOT), Distrito Seis, ha programado dos (2) talleres públicos informativos para presentar las mejores propuestas al estudio de planificación del corredor de la carretera I-195, desde SR 933/noroeste 12 avenida hasta SR 907/Alton Road en el condado de Miami-Dade.

Los talleres públicos informativos se llevarán a cabo el:

Miércoles, 12 de febrero de 2020
6:30 p.m. a 8:30 p.m.
La presentación comienza a las 7 p.m.

U.S. calls on Haiti to set a date for elections: Pompeo

(Reuters) - Haiti should set a date for elections, U.S. Secretary of State Mike Pompeo said on Thursday, more than a week after Haiti's president began ruling by decree.

Pompeo did not specify which elections he was referring to, but Haiti failed to hold scheduled legislative elections last year.

"We need to have the elections. That is important," Pompeo said in an interview with the Miami Herald and El Nuevo Herald. "Once those elections will be held, there'll be a duly elected government. We won't have to be concerned about ruling by decree."

The U.S. State Department provided a transcript of Pompeo's interview with the newspapers.

Pompeo said he voiced concerns about the political situation with his Haitian counterpart in a meeting in Kingston, Jamaica, on Wednesday.

The Haitian embassy in Washington did not immediately respond to a re-

Haiti Foreign Minister Bocchit Edmond (right) and U.S. Secretary of State Michael Pompeo (2nd right) in Jamaica during a recent meeting between the Trump administration and a select group of Caribbean foreign ministers. BOCCHIT EDMOND'S TWITTER

quest for comment.

Haitian President Jovenel Moise is three years into a term, which began in 2017 after the results of an initial vote, in October 2015, was scrapped over fraud allegations.

Moise's support in the country has never been overwhelming. Electoral turnout for the re-run election was low, with Moise receiving only 600,000 votes in a country of 10 million people. Last year, the country was mired in anti-corruption protests for months, with the opposition calling for Moise

to step down.

Nevertheless, Moise has outlived his political opposition for now. The mandate of all deputies and most senators expired earlier in January and there were no successors as parliament failed to approve an electoral law last year necessary for holding legislative elections. In this situation, under Haitian law, the president rules directly.

Moise has blamed parliament for failing to approve the electoral law last year, though his opponents have accused him of trying to take advantage of the law.

The last two elected Haitian presidents, Rene Preval and Moise's political benefactor, Michel Martelly, both ruled by decree at some points.

Moise has said he wanted to overhaul the constitution. Though the precise changes he is seeking are not clear, it would be aimed at strengthening the presidency, which was weakened after the 30-year Duvalier family dictatorship.

Florida man pretending to be McDonald's cashier fakes taking order, takes cash, deputies say KISSIMMEE, Fla. — Would you like fries with that? How about a side of cash?

Deputies said a man walked into a McDonald's in Kissimmee on Sunday night wearing an employee uniform, walked behind a cash register and helped another man place an order.

Seconds later, the cash register drawer opened, and surveillance footage showed the man posing as a worker grab some cash before running out one door of the restaurant, while the other man ran out of the other door.

Deputies from the Osceola County Sheriff's Office said Sunday's incident is the second one involving the same man wearing a McDonald's uniform. Investigators said the incident happened at another restaurant Dec. 25, 2019.

Deputies described the suspect wearing the McDonald's uniform as a man in his mid-20s who is approximately 6 feet, 2 inches tall and weighs around 170 pounds. They described the second suspect in Sunday's incident as a male in the late 20s, approximately 5 feet, 10 inches tall and weighing around 230 pounds.

Pilot killed when small plane crashes into north Florida home A pilot was killed Saturday morning when a small plane crashed into the side of a north Florida home, according to the Columbia County Sheriff's Office.

The family inside the home managed to escape the home without injury, the sheriff's office said.

A picture a viewer sent to Action News Jax shows the moment when a plane crashed into the front yard of the Lake City home.

In the picture, a man in an orange shirt can be seen running across the yard to try to help the pilot, but he had to retreat because the plane was too extensive.

Neighbors watched as a ball of fire came out of the plane's yard.

Kristy Amato said she hears many small planes and often worries about them.

"I was sitting on my couch watching a movie with my daughter, and I heard a plane take off like all of the planes take off," Amato told Action News Jax. "Then I heard a loud boom, then a loud kaboom, so I ran out front and there was a plane in my neighbor's yard on fire."

Columbia County Sheriff's Office spokesman Sgt. Murray Smith told Action News Jax that after crews put the plane out, the pilot's body was found underneath debris.

Gunfire erupts at Mar-a-Lago

checkpoint after SUV breaches gate. Two in custody

Gunfire erupted at a checkpoint at Mar-a-Lago Friday afternoon after a black SUV breached one of its checkpoints. The Palm Beach County Sheriff's Office said two people were later taken into custody after a brief chase.

The suspects (still trying to determine) discharged their weapons at the vehicle," the department said in a statement.

It was unclear if anyone was injured. President Donald J. Trump was not there but was expected to arrive at Mar-a-Lago later Friday.

There was a heavy police response outside the resort.

"I don't know what's going on but there was a lot of activity out here," one Instagram user said in a video that appeared to have been taken outside Mar-a-Lago. "[They're] shutting it down." The Florida Department of Law En-

forcement will be investigating this shooting.

Ludacris Surprises Hialeah-Miami Lakes HS With \$75K Worth Of Instruments, Teacher With Super Bowl Tickets

MIAMI (CBSMiami) – Quite a day of surprises inside Hialeah-Miami Lakes Senior High School Wednesday afternoon.

It all started with a guest appearance by Grammy Award winning hip hop artist and actor Ludacris.

The recording star joined forces with StubHub's #TicketForward program to announce a donation of \$75,000 in musical instruments.

Ludacris, whose real name is Chris Bridges, participated in a Q-and-A with students, advising them to work hard, go after their dreams and help others.

"It makes me feel great. I feel with power comes great responsibility. I al-

ways say that. I think it's my duty to make them understand how powerful they are and what they can accomplish," Ludacris said.

The StubHub program is in partnership with Mr. Holland's Opus Foundation, a three-year commitment to put \$3 million worth of instruments into public schools.

"When you look at music education and funding, it has continually gotten stripped. We know that those programs with instruments donation and to keep these programs driving is an incredible thing to be able to do," said Poirer, StubHub General Manager.

Then another wonderful surprise was announced – this one for the music teacher. For his dedication to the students, Kevin Segura was awarded two tickets to the Super Bowl.

CREATIVISION MEDIA

The Florida Department of Transportation (FDOT) District Six, announces two public information workshops to which all persons are invited.

DATE AND TIME: February 12, 2020, 6 p.m. – 8 p.m. at Legion Park, 6447 NE 7 Avenue, Miami, Florida 33138 and February 13, 2020, 6:30 p.m. – 8:30 p.m. at the Miami Beach Golf Club, 2301 Alton Road, Miami Beach, Florida 33140

PLACE: Legion Memorial Park, 6447 NE 7 Avenue, Multipurpose Room, Miami, Florida 33138
Miami Beach Golf Club, 2301 Alton Road, Multipurpose Room, Miami Beach, Florida 33140

GENERAL SUBJECT MATTER TO BE CONSIDERED:

The Florida Department of Transportation (FDOT), District Six, has scheduled two Public Information Workshops for the Interstate 195 (I-195) Corridor Planning Study from State Road (SR) 933/NW 12 Avenue to SR 907/Alton Road (FM Number: 440228-1-22-01) in Miami-Dade County, Florida. The study is evaluating strategies to improve capacity deficiencies, traffic operations, and multimodal use along I-195 Corridor Planning Study within the study limits. The workshop is being conducted to explain the study process, seek public input on proposed improvements and provide interested persons an opportunity to get involved in the study. The workshop will follow an open-house format with a brief presentation. FDOT representatives will be available to discuss the project and answer questions. Participants will also be able to submit written comments to the project team if they so desire.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this meeting is asked to advise the agency at least 7 days before the meeting by contacting: contacting: Irene Varela at 305-470-5342 or in writing: FDOT, 1000 NW 111 Avenue, Miami, Florida 33172, email: Irene.Varela@dot.state.fl.us. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1 (800) 955-8771 (TDD) or 1 (800) 955-8770 (Voice).

If you have questions about the project or scheduled public information workshops, please contact the Project Manager, Shereen Yee Fong at (305) 470-5393 or via email at Shereen.YeeFong@dot.state.fl.us. You may also visit the project website at www.fdotmiamidade.com/I195CorridorPlanningStudy.

**FDOT to Host Public Information Workshops for
Interstate 195 (I-195) Corridor Planning Study**
from State Road (SR) 933/NW 12 Avenue to SR 907/Alton Road

Miami, Fla – The Florida Department of Transportation (FDOT) District Six, has scheduled two Public Information Workshops to present the proposed improvements to the I-195 Corridor Planning Study from SR 933/NW 12 Avenue to SR 907/Alton Road in Miami-Dade County. The workshops will be held on:

Wednesday, February 12, 2020

6:30 p.m. - 8:30 p.m.

Presentation begins at 7 p.m.

City of Miami Legion Park

Multipurpose Room

6447 NE 7 Avenue

Miami, Florida 33138

Thursday, February 13, 2020

6 p.m. – 8 p.m.

Presentation begins at 6:30 p.m.

Miami Beach Golf Club

Multipurpose Room

2301 Alton Road

Miami Beach, Florida 33140 8

The workshops will follow an open-house format with a brief presentation. FDOT representatives will be available to discuss the project and answer questions. These workshops are being held to allow interested persons an opportunity to be informed and provide comments on the proposed improvements to I-195 from SR 933/NW 12 Avenue to SR 907/Alton Road. The proposed project consists of improving capacity deficiencies, traffic operations, and multimodal use along the roadway.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons who require special accommodations under the Americans with Disabilities Act or who need translation services (free of charge) should contact Irene Varela at 305-470-5342 or in writing to FDOT, 1000 NW 111 Avenue, Miami, Florida 33172 or by email at: Irene.Varela@dot.state.fl.us. at least seven (7) days prior to the public workshops.

District 6

STUDY AREA & BACKGROUND

- Important Limited Access Facility Connecting Miami International Airport and Miami Beach
- Carries average 130,000 Vehicles Per Day – Total both directions
- Provides Access to Several High Growth Neighborhoods
- Continued Growth Expected to increase demand exacerbating access issues

PROJECT PURPOSE AND NEED

- **Project Purpose:**

To provide multimodal improvements within the I-195 study corridor to address identified mobility and safety needs.

- **Need for:**

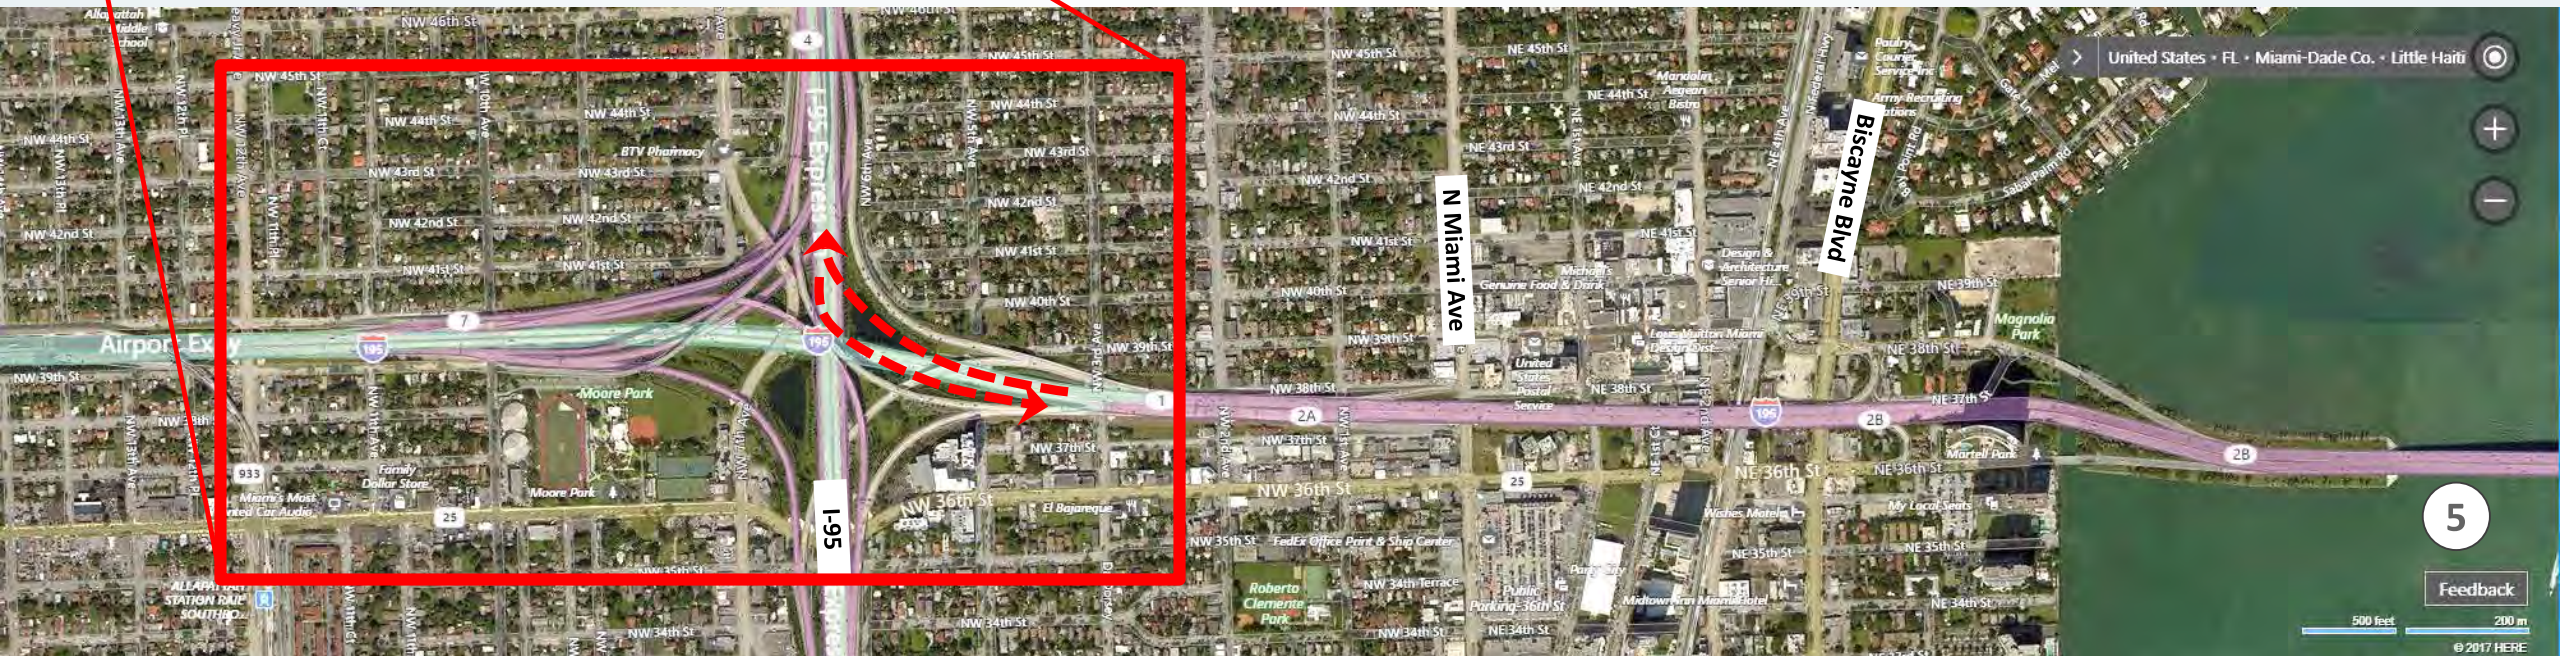

- **Better System Linkage including; better access to the I-95 express lanes for areas along I-195 east of I-95; better interchange access; separated bike/ped facility between City of Miami and City of Miami Beach.**
- **Increased transportation capacity to handle future transportation demand.**
- **Improved transportation system to facilitate the interaction of all transportation modes impacting the corridor.**
- **Better safety outcomes for the future.**

STUDY FOCUS AREAS

FOCUS AREA #1 (Direct Connection to 95 Express Lanes)

Western Limit

Eastern Limit

5

Feedback

500 feet 200 m © 2017 HERE

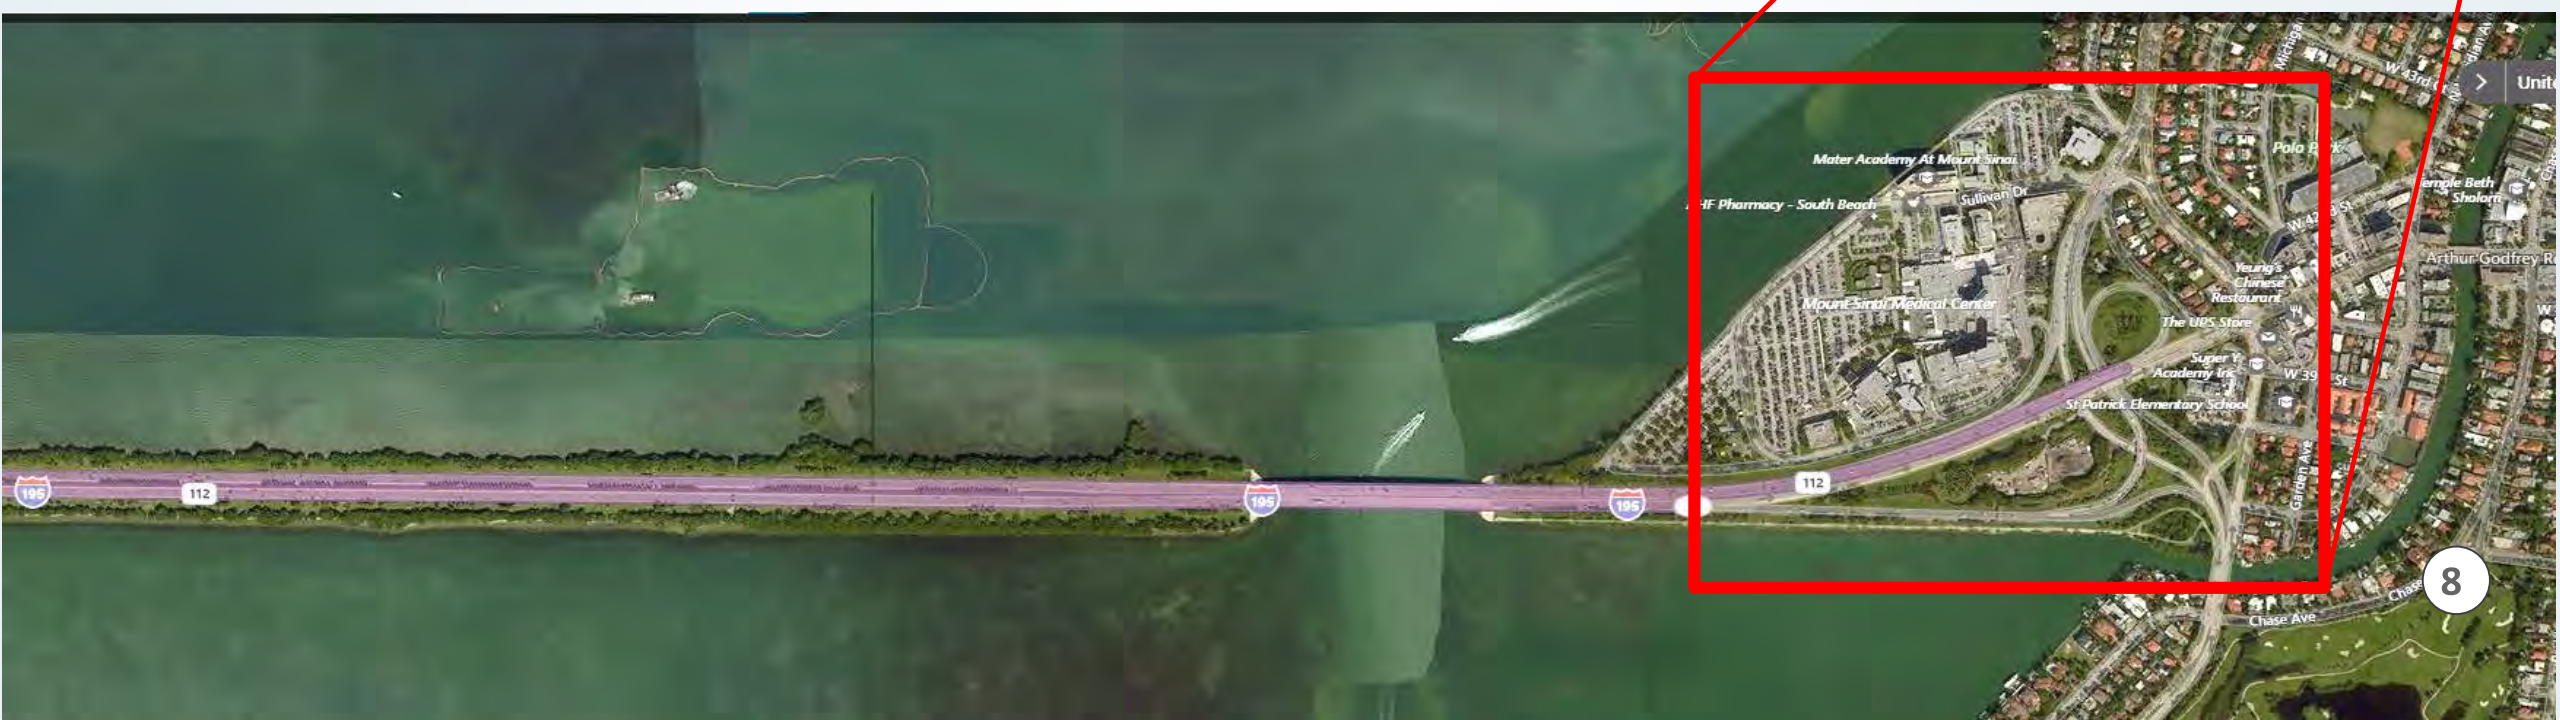

FOCUS AREA #2 (Improve Interchange Access in Midtown Area)

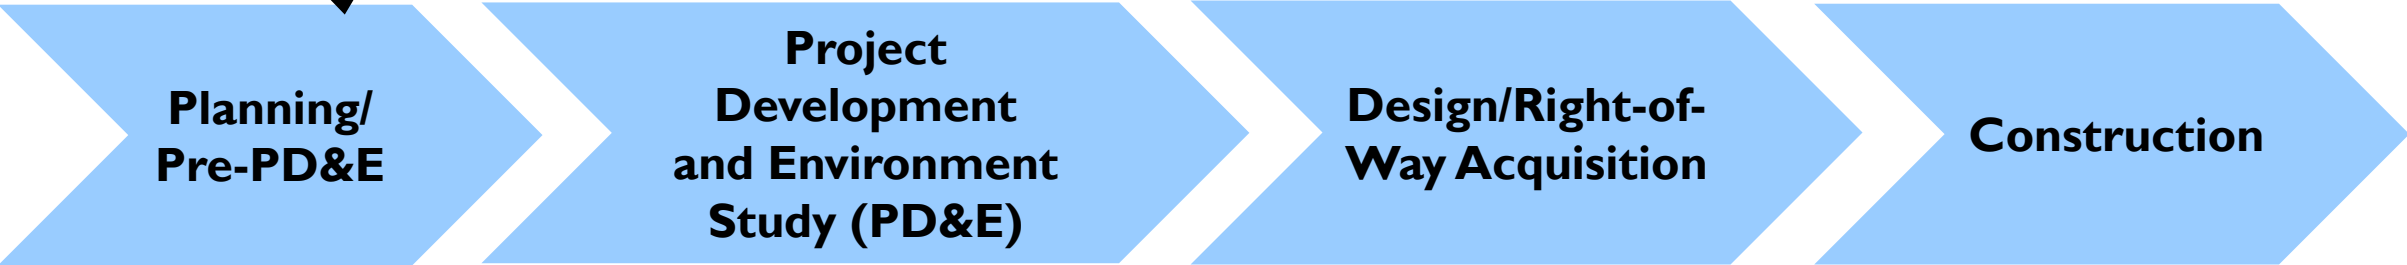

FOCUS AREA #3 (Improve Bicycle Access on Causeway)

FOCUS AREA #4 (Improve Alton Road Interchange Access)

We're Here

Develop initial concepts, estimate costs/impacts, and inform public

Refine concepts, engage public, define costs/impacts, complete environmental analysis, and identify final concept

Prepare surveys, design plans & right of-way plan, and engage public

Phased implementation, maintenance of traffic, and public outreach

Planning Study
Completion Date:
June 2020

PD&E Phase
Candidate
2021

Design Phase
Candidate
2024

Phase not currently programmed

PROGRAMMED & PLANNED IMPROVEMENTS

- 1) Golden Glades Interchange (North of Study Area) – Design Phase
- 2) Alton Road to Westbound SR 112 On-Ramp (Mt. Sinai) – Design Phase
- 3) Bus on Shoulder Express Bus Service SR 112 – Upcoming Design Phase
- 4) I-95 Improvements – Upcoming PD&E

Tier 1 Concepts

- Identify Improvements
 - Base
 - System
 - Bicycle/pedestrian facilities
- Qualitative Evaluation
- Quantitative Evaluation
- Identify Tier 2 Improvements

Tier 2 Concepts

- Additional Qualitative / Quantitative Evaluations
 - Base
 - System
 - Bicycle/pedestrian facilities
- Identify Recommended Improvements for refinement

Refined Concepts

- Refine Recommended Improvements
 - Base
 - System
 - Bicycle/pedestrian facilities
- Cost / Right-of-Way Evaluation
- Concept Plans

REVIEW OF TIER 1 ALTERNATIVES

- Three groups of improvements

Base Improvements

➤ Identified to address operational deficiencies as well as specific local issues raised by stakeholders.

System Improvements

➤ Address key study objectives relative to improving system linkage, system capacity, accommodating future transportation demand, modal interrelationships, and addressing safety.

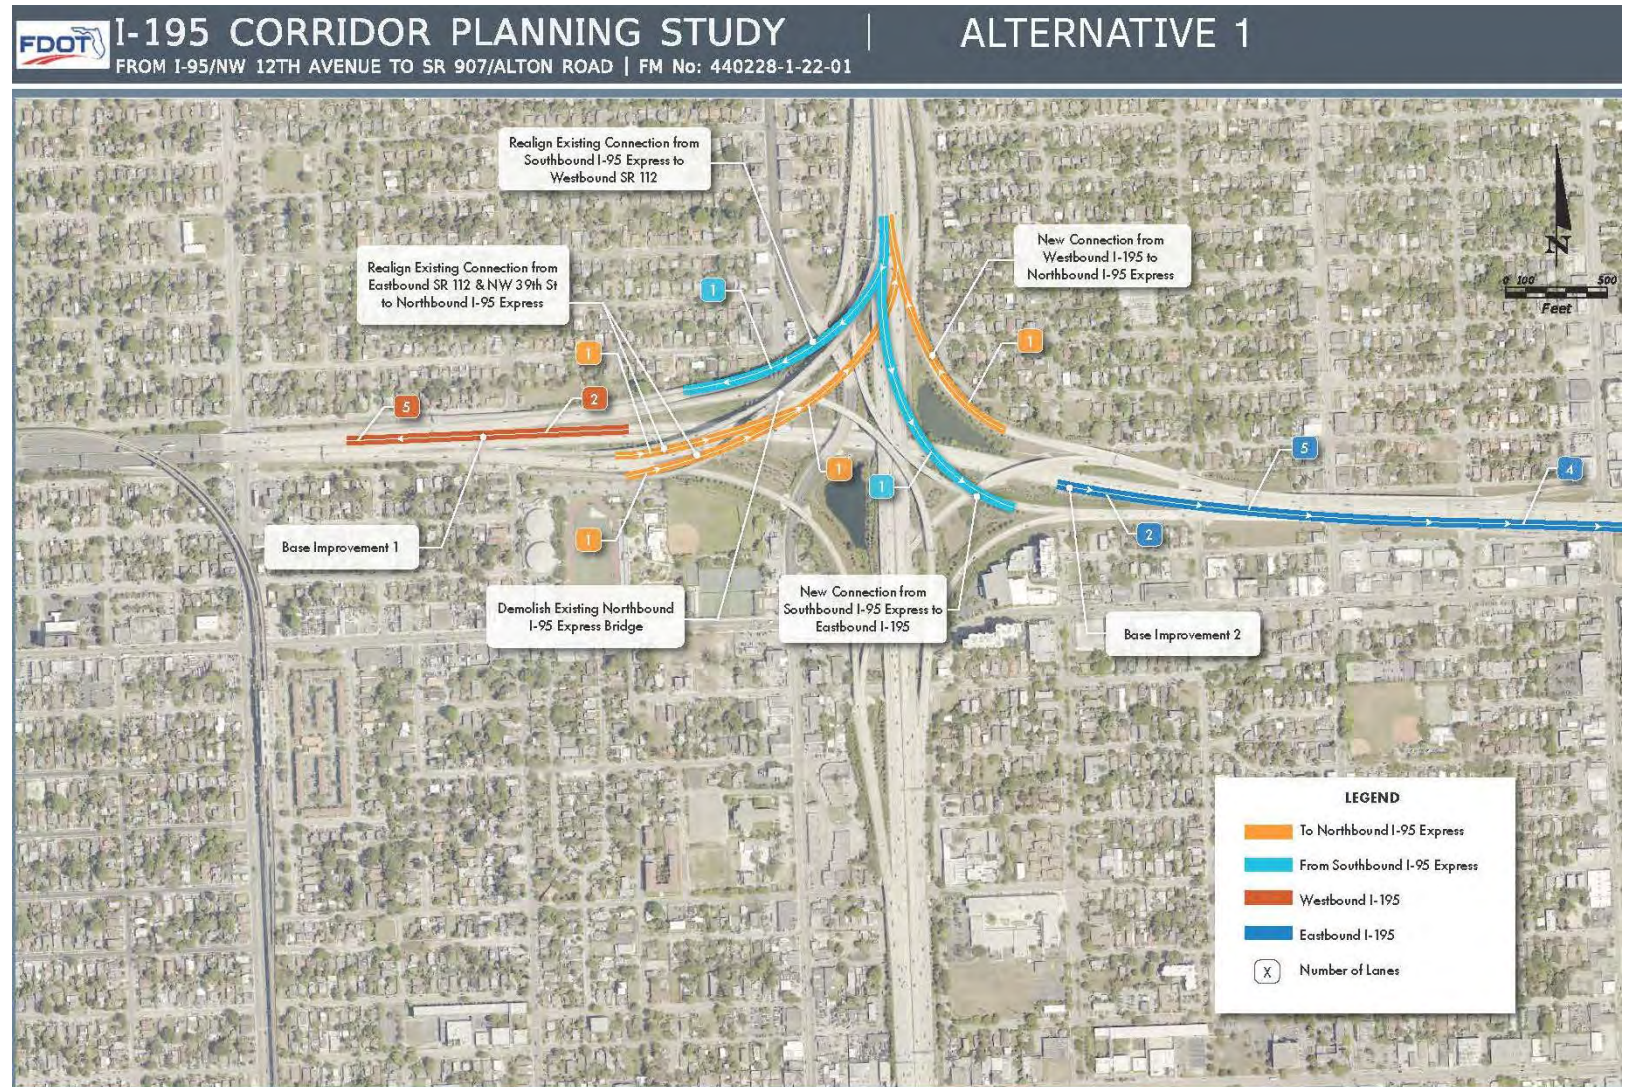

Bicycle / Pedestrian Improvements

➤ Provide improved bicycle/pedestrian connectivity between the City of Miami and Miami Beach via a separated protected facility consistent with the visions of the Miami-Dade Long Range Transportation Plan & the City of Miami Beach Master Plan.

- Eight (8) Base Improvements

- **Three (3) Alternatives:**
 - **Alternative 1 - Direct Connections to 95 Express Lanes**

SYSTEM IMPROVEMENTS

- Alternative 2 - Direct Connections to 95 Express Lanes with New Viaduct on I-195

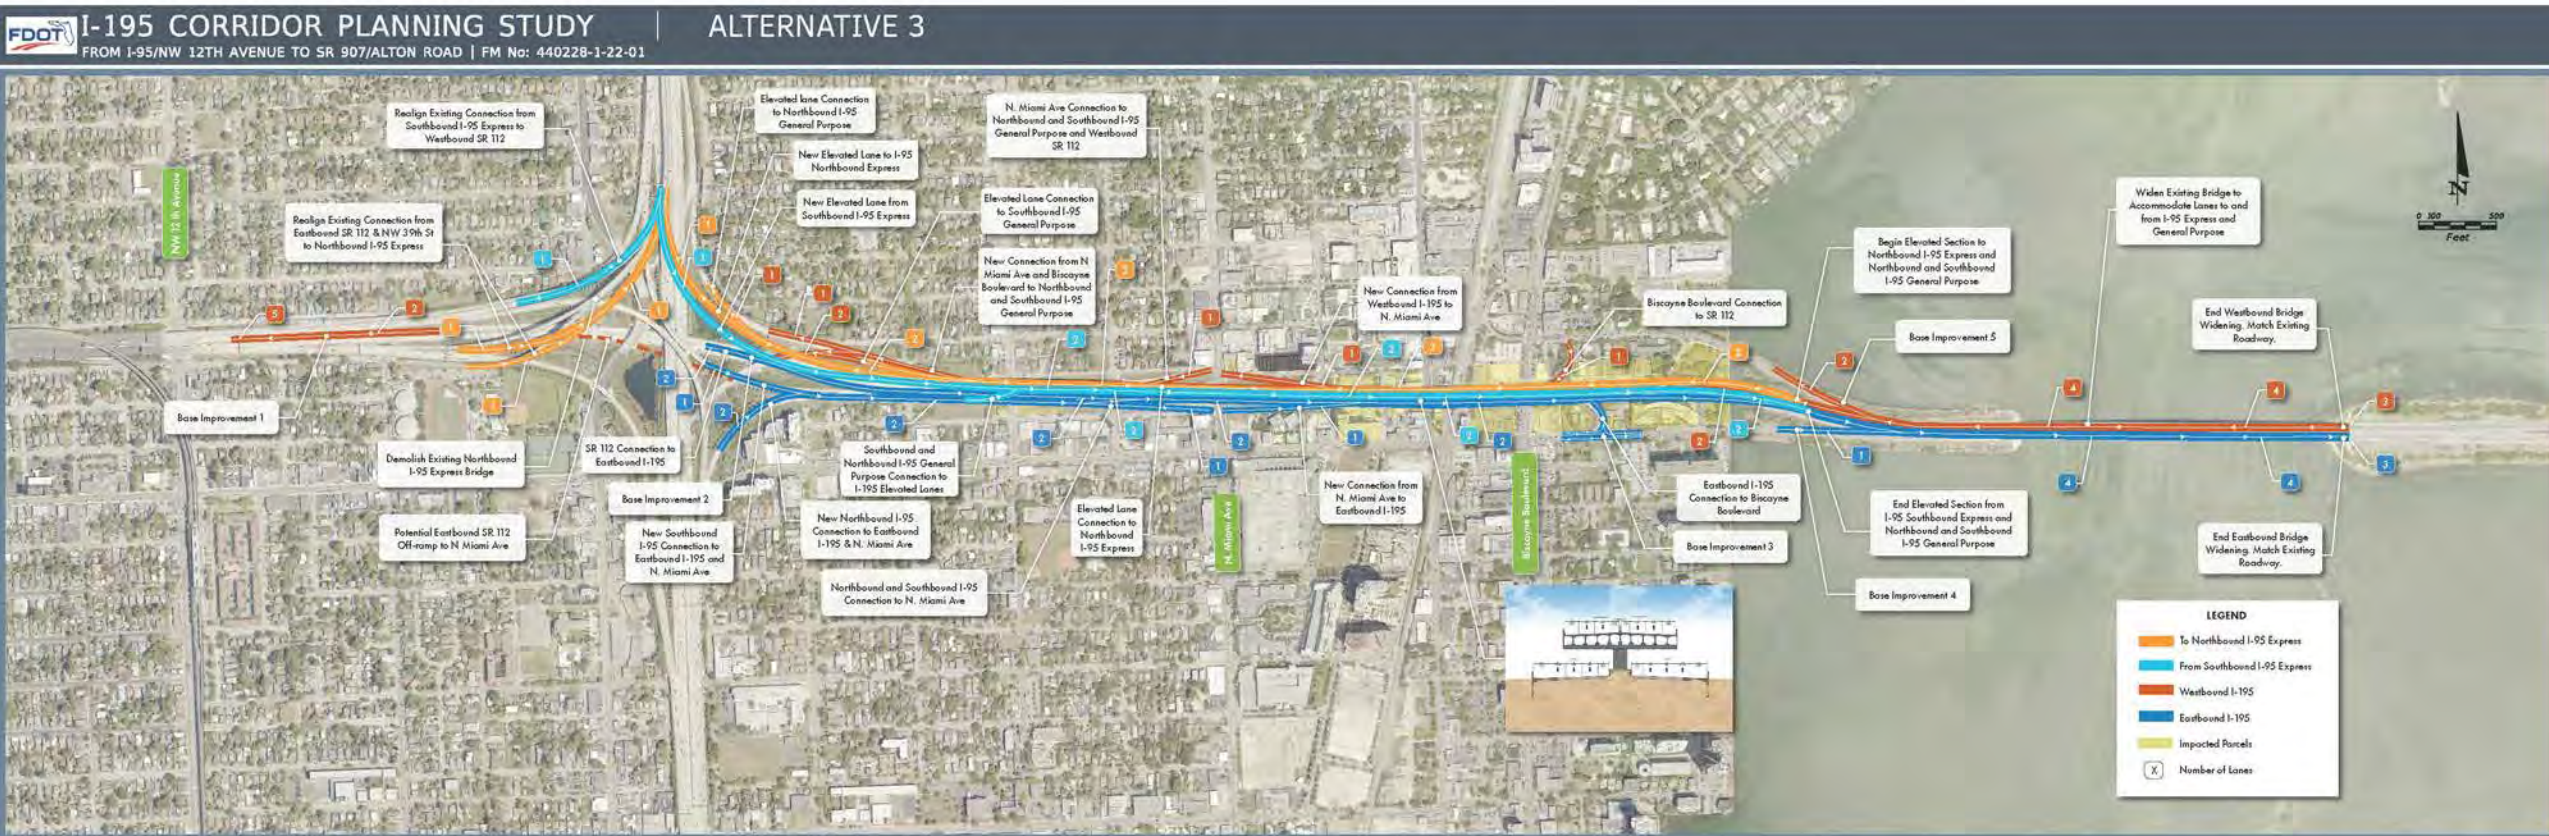

FDOT I-195 CORRIDOR PLANNING STUDY
FROM I-95/NW 12TH AVENUE TO SR 907/ALTON ROAD | FM No: 440228-1-22-01

ALTERNATIVE 2

SYSTEM IMPROVEMENTS

- **Alternative 3 - Direct Connections between 95 Express Lanes / I-95 General Use Lanes and New Viaduct on I-195**

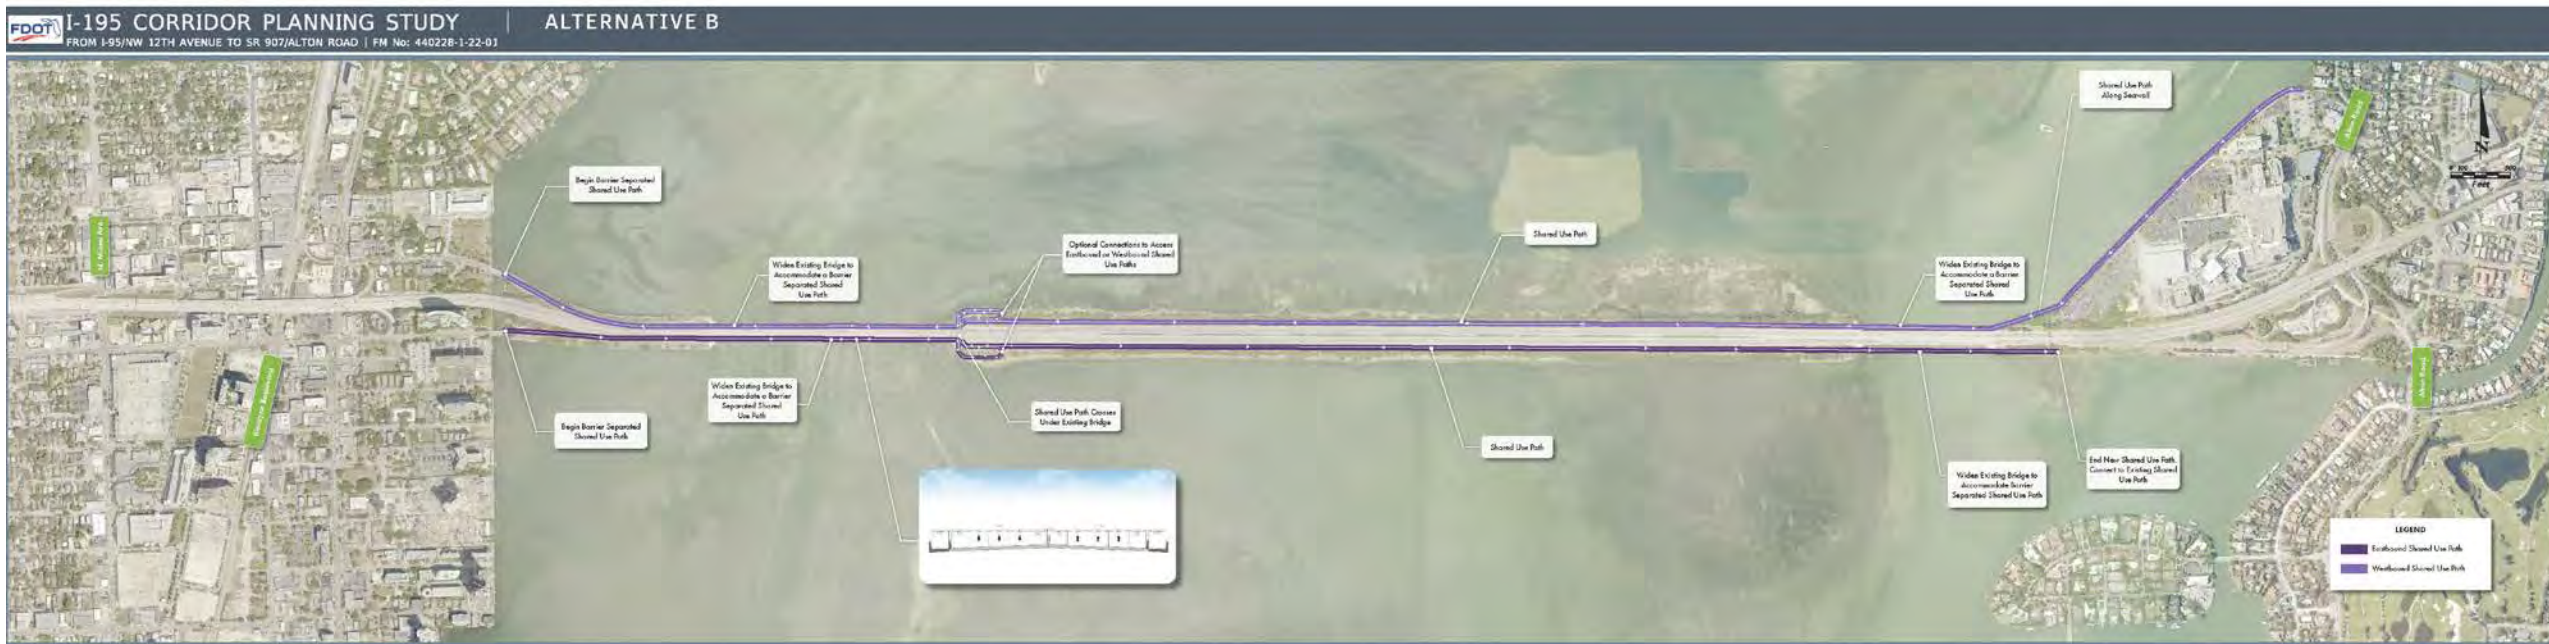

- **Two (2) Alternatives:**

- **Alternative A - 14' Shared use Path With Bridge Structures On One Side Of Julia Tuttle Causeway.**

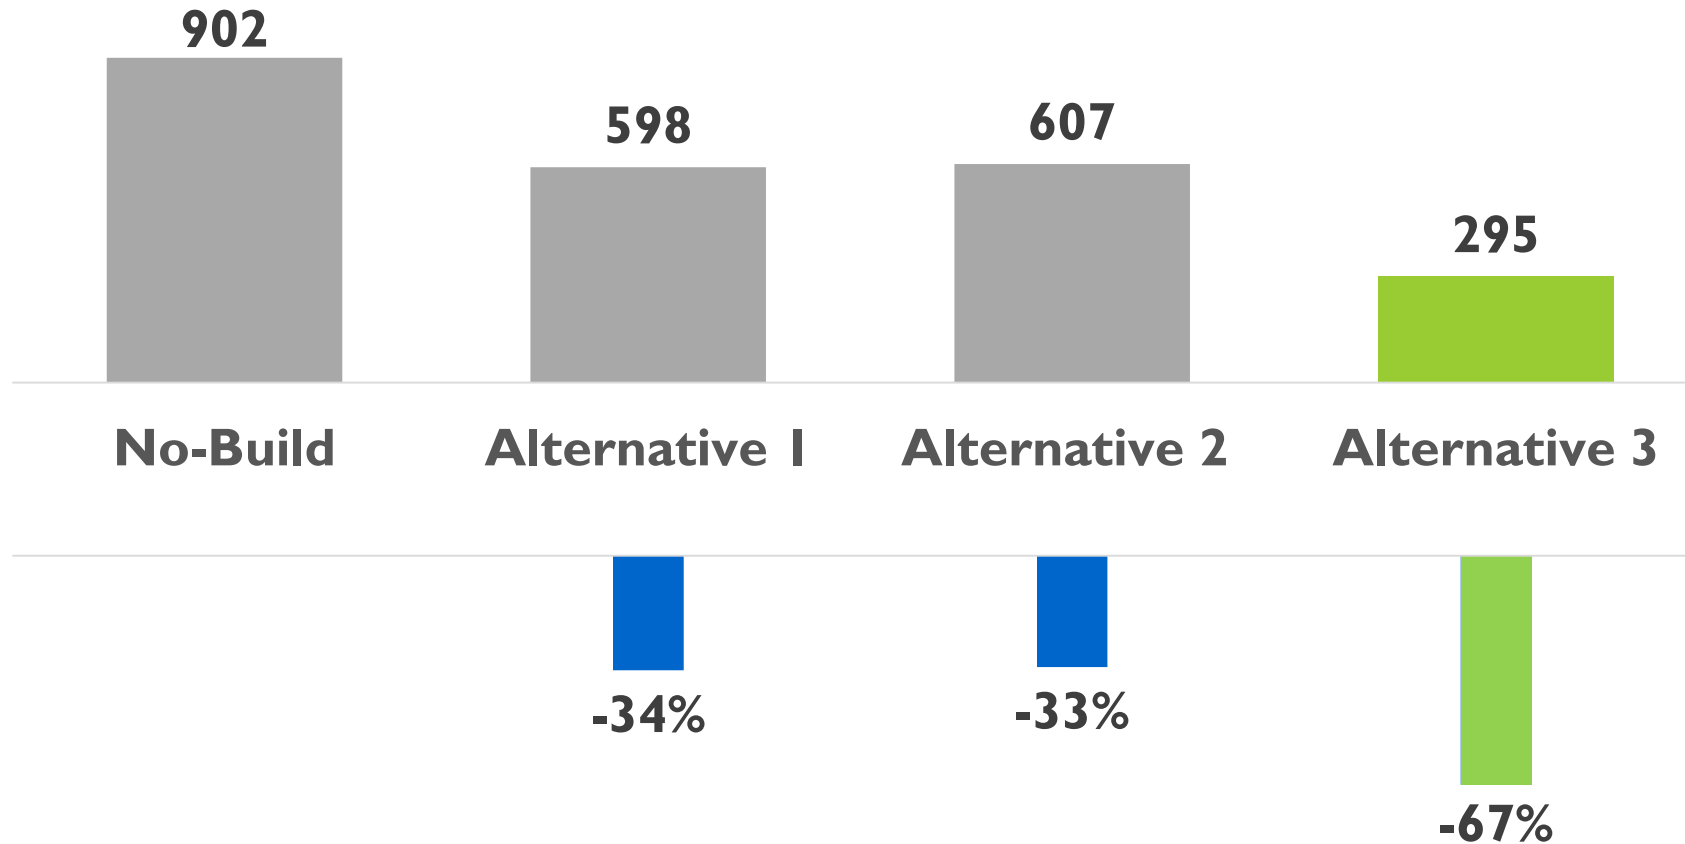

- **Alternative B - 12' Shared Use Paths With Widening Of Existing Causeway Bridges On North And South Sides.**

TIER 1 ALTERNATIVES ASSESSMENT

PRELIMINARY SYSTEMS OPERATIONS SUMMARY (VEHICLE HOURS OF DELAY)

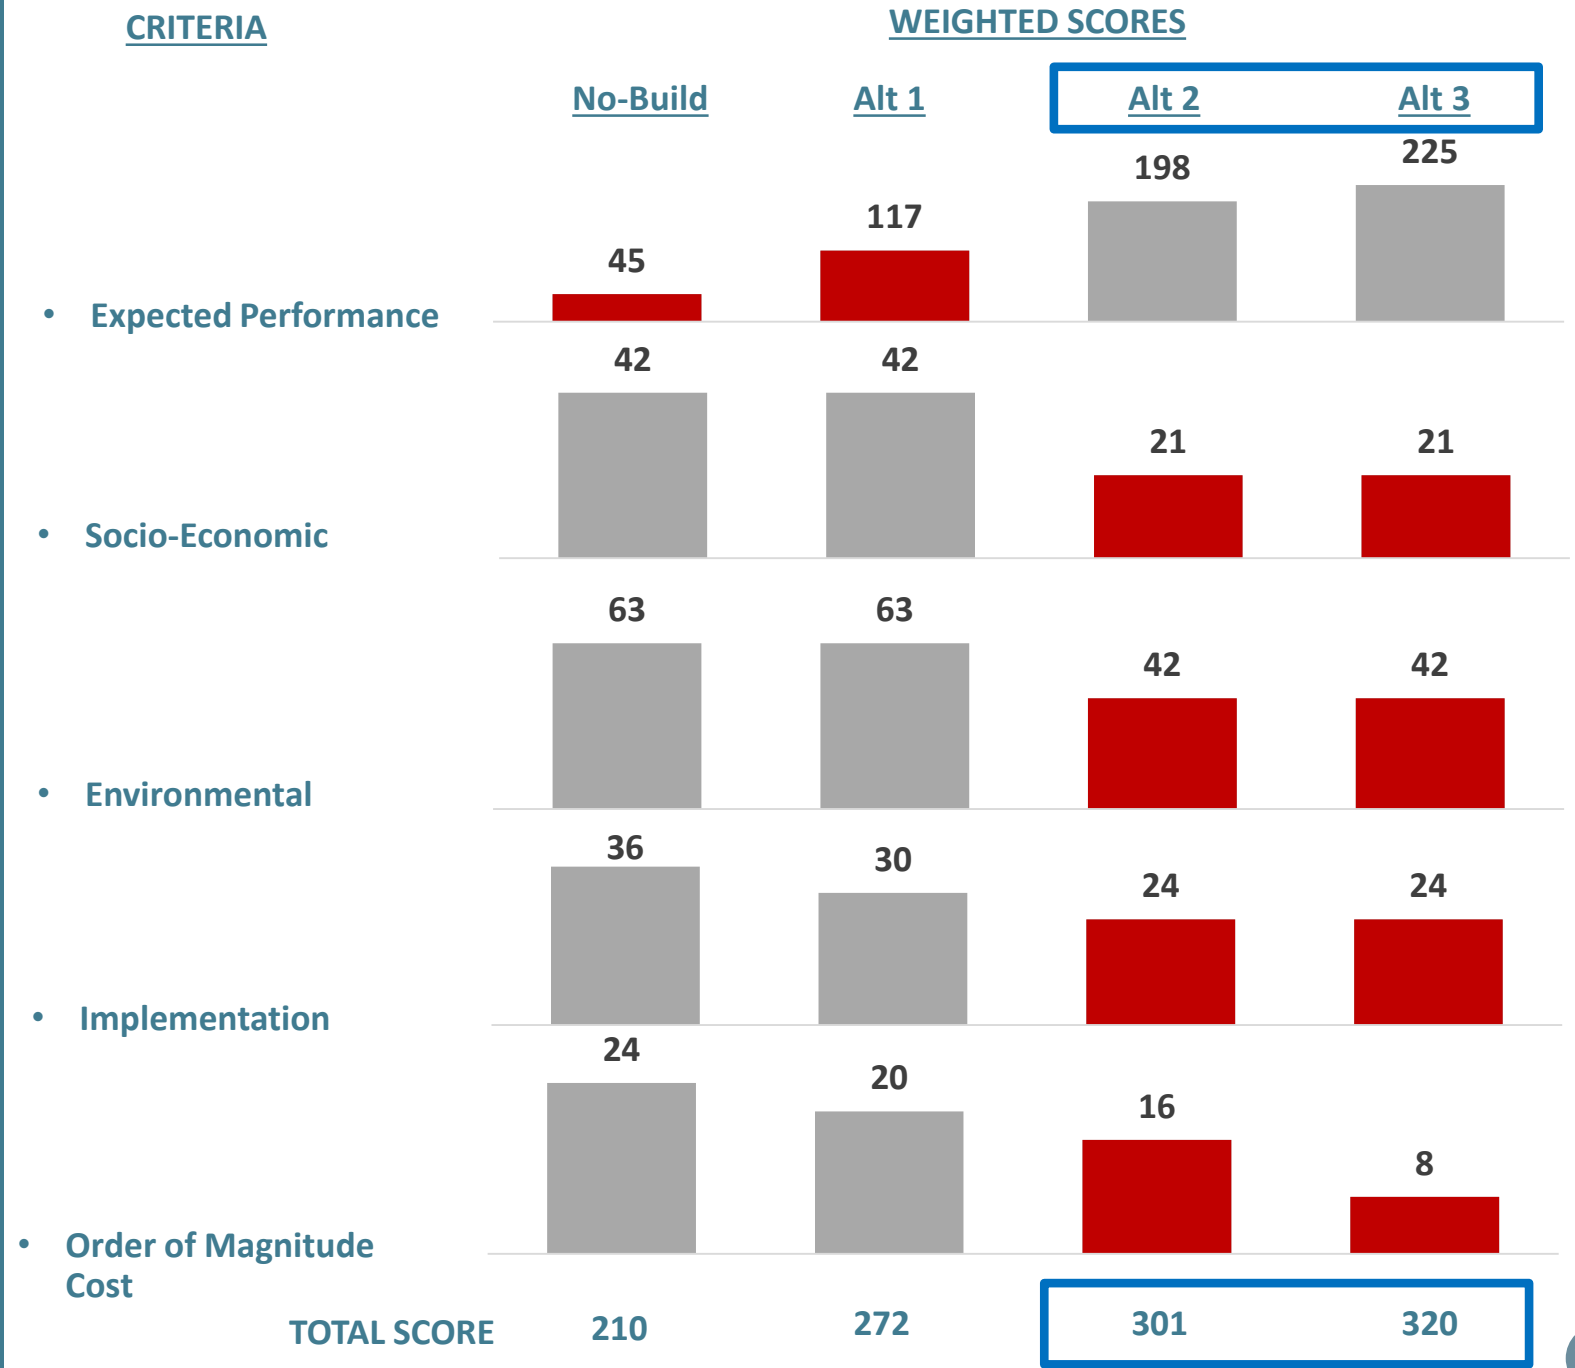

- In 2045, No-Build has 902 vehicle hours of delay for AM and PM peak hours combined
- Alternatives 1, and 2 reduce delay by about one-third
- Alternative 3 reduces delay by about two-thirds

EVALUATION OF TIER 1 ALTERNATIVES

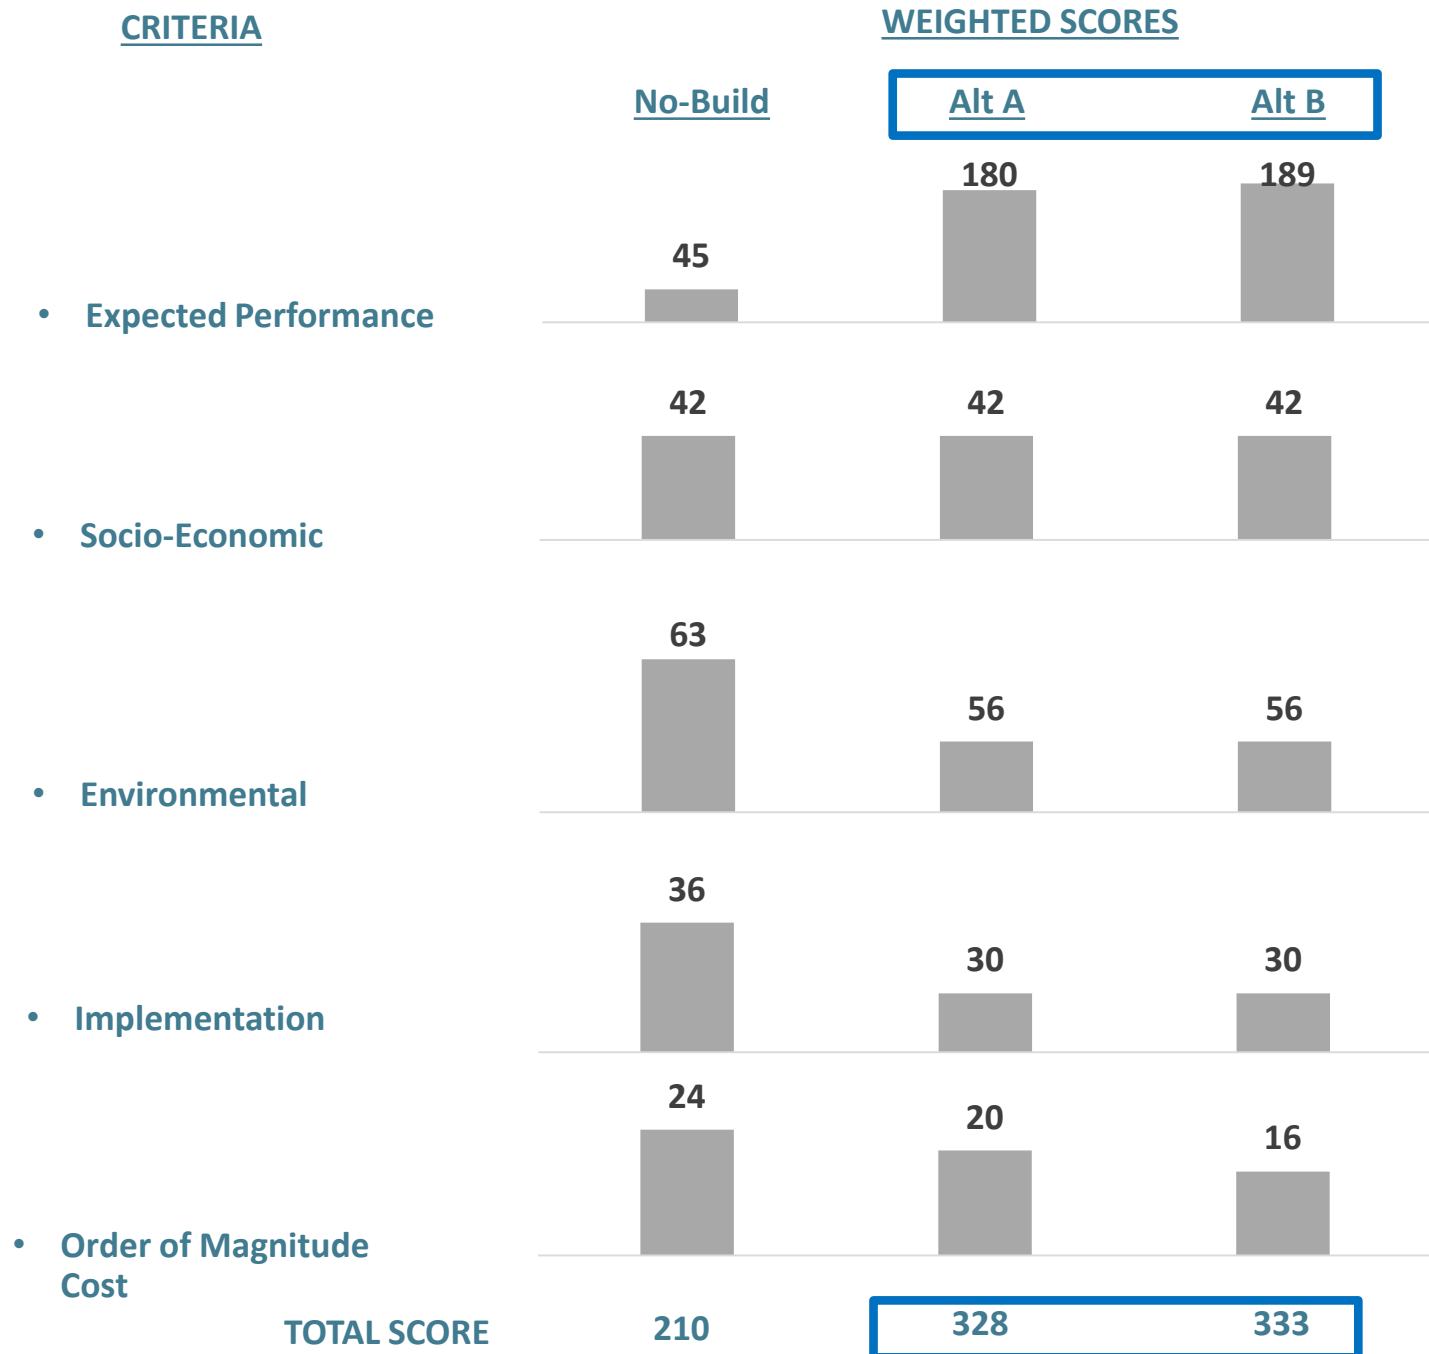

EVALUATION RESULTS (System Improvements)

- Alt 1 - Direct Connections to 95 Express Lanes
- Alt 2 - Direct Connections to 95 Express Lanes with New Viaduct on I-195
- Alt 3 - Direct Connections between 95 Express Lanes / I-95 General Use Lanes and New Viaduct on I-195

EVALUATION RESULTS (Bicycle / Pedestrian Improvements)

- Alt A - 14' Shared Path With Bridge Structures On One Side Of Julia Tuttle Causeway
- Alt B - 12' Shared Use Paths With Widening Of Existing Causeway Bridges On North And South Sides.

ALTERNATIVES FOR TIER 2

TIER 2 ALTERNATIVES

- **Base Improvements**

- All alternatives carried forward to Tier 2
- Concept plans are being developed during refinement of improvements

- **System Improvements**

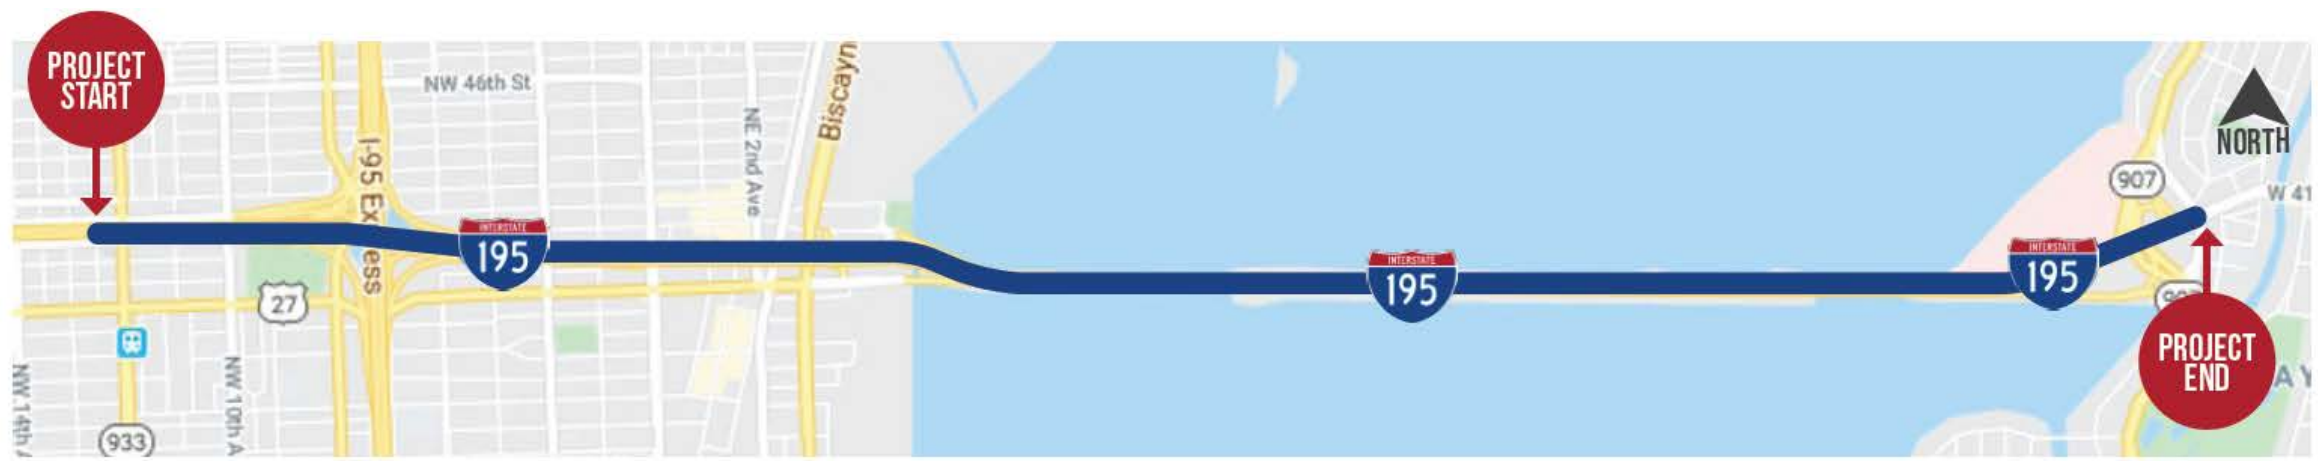

- Alternative 2 and 3 carried forward to Tier 2
- Alternative 1 discarded
- Concept plans will be developed for only one alternative

- **Bicycle / Pedestrian Improvements**

- Alternative B and A carried forward to Tier 2
- Concept plans will be developed for only one alternative

NEXT STEPS / FUTURE PROJECT PHASES

- Final Planning Study Report – June 2020
- I-195 / SR 112 PD&E Study – 2021 Tentative

Note: Schedule and limits subject to change

Any option that results in widening highways into Miami Beach will end at our city grid. The grid is already full during peak times and cannot accommodate any further vehicles.

With respect to Miami Beach I think the only option you can do in good faith is creating 9 lanes to/from 95 express lanes.

Any further increase in capacity will result in more cars and a lower quality of life and increased pollution - CO₂ + Noise).

I very much like the shared use path (option 4) as it is separated from the roadway. I suggest that this be implemented ASAP and not be part of any larger project. Commuters in the City of Miami

The shared bike/pedestrian path is much needed. I will tell you I'd use that all the time to connect from my home to Wynwood. I prefer Alternative A - that will be a much more pleasant ride or walk for people who use it. And it should be cheaper than widening the highway.

I want to strenuously object to adding capacity for cars. Adding lanes may improve traffic temporarily, but ~~it~~ it will just induce people to drive more, and in another decade you'll have the same problems. There are reams of data showing this; I'm not sure why we are considering spending millions on "solutions" that have been shown ~~to~~ time and time again to be ineffective in the long run. ~~As someone pointed out at the meeting, this won't change the geometry on 41st street, where there are schools and businesses. Adding capacity there to make traffic free-flowing there would ruin that street and make it more dangerous for those of us who walk + bike there.~~

The presentation is very pre-liminary at this point.
Some options are definitely not worth it. The biggest
issue will be space for construction and ROW
acquisition.

I also think some ~~more~~ conversation with
Mount Sinai is necessary. This has probably
never been brought up. Specifically the bike path,
major security concerns and space limitations
plus affecting parking and roads inside campus.

Hi Shereen,

I'm writing to you to ask you to reconsider how Florida could be better spent than expanding the highway.

I believe the money would better serve all citizens if it were invested in transit, walkable and bikeable streets. Roads are a subsidy for everyone wealthy enough to afford one at the expense of :

Please consider the environmental impact as well as the impact on our communities

Thank you,
-Ryan

EXTERNAL SENDER: Use caution with links and attachments.

Dear Ms. Yee Fong,

I heard from friends about your I-195 corridor presentation in Miami Beach, and reviewed the materials.

Your organization is largely run by criminals who serve the construction industry and automobile industry. Your organization is essentially an unmonitored funnel of PUBLIC money into these inc corridor study. I'll assume you know this; the I-395 "signature bridge" is appropriate evidence.

With that in mind, I demand that for I-195 that you disband all plans to add single occupancy vehicle capacity, on ramps, off ramps, and bridges. Focus entirely on the proposed grade separate

We are all well aware of induced demand and FDOT's penchant for controlling/gutting local roads that have to receive induced demand traffic, then widen those roads, then charge taxpayers, th

Thank you,

John Whalen

Subject: Public comments to FDOT District Six Julia Tuttle Study

To: Shereen.YeeFong@dot.state.fl.us <Shereen.YeeFong@dot.state.fl.us>

Cc: cchester@creativisionmedia.com <cchester@creativisionmedia.com>

Hello,

My name is William Quinlan, and I am a student at the University of Miami. I live on Miami Beach, where I have grown up, and take the I-195 to get across Biscayne Bay on meetings in person held by FDOT District Six on its I-195 Corridor Planning Study, so I wish for this email to serve as my comment. In doing so, I speak only for myself and not for any other party.

I am shocked and outraged at the alternatives proposed and considered by FDOT District Six, for the System Improvement Alternatives. None of these make any meaningful cost-effective multimodal mobility. I believe that moving forward with any of them, without at least considering serious transit alternatives, would be a grave mistake. It would impose obligations on FDOT.

Each of the system improvement alternatives looks to connect drivers in individual vehicles with the I-95 Express Lanes, going so far as to propose a new viaduct along the I-95 out to 2045. This would sink billions of dollars in long-term infrastructure to funnel drivers into the Express Lanes, a project itself only about a decade old. This seems like a preeminent tool of highway congestion management, even at a time when the use of toll lanes continues to garner significant [local controversy](#). To the extent that the Express Lanes are an option for drivers coming westbound along the I-195, I don't see why opening a portion of the barricades on the northbound I-95 itself would not suffice for entry, at much lower cost.

Moreover, none of the proposed system improvement alternatives make any use of a genuine, cost-effective tool that FDOT is obligated to at least consider: separate bus lanes as outlined in Florida Greenbook § C.7.j.3 (preferential lanes). The powerpoint from the meeting speaks of a "bus on the inside shoulder" planned improvement, but this is not sufficient and as [conducted elsewhere](#) in the state, limits the speed of buses on the shoulders to 35 mph, available only when the surrounding traffic is at a standstill. While the County of Miami-Dade's bus system, a long-term plan for the Julia Tuttle Causeway must at the very least consider a separate bus lane for the J and 150 Airport Express routes. Note that the US Department of Transportation has advised consideration of induced demand for NEPA compliance. Federal Highway Administration's [NEPA Assignment](#). And the US Department of Transportation has advised consideration of induced demand for NEPA compliance. Federal Highway Administration's [NEPA Assignment](#), § 2.4.6.3 ("While there are limits and complex factors in reality and every corridor is unique to some degree, it is important for transportation planners to consider induced demand"). Estimating the intersection of expanded bus frequency through designated lanes and reduced vehicle use from not building more vehicle lanes would be wildly optimistic. Getting it right at this stage of consideration is critical.

Each system alternative is compared against a no-build baseline (though not, as mentioned above, against a proposal to simply create an entry into express lane barricade). A cantilevered viaduct resulting in *lower* costs and environmental impacts would be if FDOT was only concerned in the emissions and cost delays in what business-as-usual consideration would look at the induced demand equilibrium effects of building more lanes that will be met with more drivers. Better still if the cost-benefit accounting took into account [increased speeds](#) and average daily traffic through more lanes.

Speaking in general, the consequences of this oversight could be serious. FDOT is liable for violations of the National Environmental Policy Act in its construction of highway alternatives. Federal Highway Administration's [NEPA Assignment](#). And the US Department of Transportation has advised consideration of induced demand for NEPA compliance. Federal Highway Administration's [NEPA Assignment](#), § 2.4.6.3 ("While there are limits and complex factors in reality and every corridor is unique to some degree, it is important for transportation planners to consider induced demand"). Estimating the intersection of expanded bus frequency through designated lanes and reduced vehicle use from not building more vehicle lanes would be wildly optimistic. Getting it right at this stage of consideration is critical.

As far as the bicycle and pedestrian improvements go, I would prefer Alternative B, which has separated lanes on both sides of the Causeway. The width of these lanes will be significantly narrower than what FDOT recognizes the potential for serious cross-bay bicycle commuting in an age of electric-assisted bicycles. Other causeways across the county with protected separate bicycle lanes are uncomfortably narrow, like the MacArthur or JFK Causeways. We have too many pedestrian deaths on our roads, and building a space necessary for the safety of pedestrians is a high priority.

Thank you so much for your ongoing consideration of my comments, and your outreach to the community.

Good Morning Shereen:

Thank you very much for the follow-up and again it was a pleasure meeting you at the FDOT workshop a few weeks ago. I was out of town all last week and catching up this week, but would very much like to meet with you and your team to further discuss my endeavors for 38th street westbound to Biscayne Blvd..

As I have CC'ed additional members of my team in this correspondence, it might be helpful to have a few times that work for you next week. Then I can check with my crew and see which times work best for all.

Kindly let me know of few time slots, and lets plan to connect via phone or email before the end of this week.

Thanks again.

Ron Bloomberg

EXTERNAL SENDER: Use caution with links and attachments.

Dear Jim:

I wanted to follow up and let you know I went to the FDOT workshop on Miami Beach last night and met with Shereen and Lorin (and several other FDOT representatives).

You group conducted a very thorough and professional presentation which I found to be quite informative. Shereen appeared to be quite interested in learning more about some of the roadway improvements I was suggesting for 38th Street and it is my intention to connect with her in the near future.

Thank you again for putting in the good word. I look forward to speaking with you soon.

Sincerely;

Ron

Shereen,

I am sending you an email string with Ron Bloomberg so you have his contact information. Danny and I have both met with him many times about NE 38th Street and Biscayne Boulevard. This pertains to your I-195 project. He wants to know that the project team is aware that he is in talks about a potential dedication and roadway improvements that could occur at such a time as his project gets the right development approvals from the City. I am giving him your number and he may call.

Thanks,

Jim

Subject: NE 38th Street - Biscayne Boulevard

Dear Jim:

Pursuant to our conversation yesterday, the following are our thoughts as to what items a correspondence from FDOT might include in order to facilitate our agenda to widen NE38 Street and help the traffic conditions

at the Biscayne and NE38 Intersection and the surrounding area. I am also providing for your review a revised draft plan that has been worked on to date.

- Reference to the current (poor) condition of the intersection of NE38th street and Biscayne Blvd and that it is currently subpar to handle the westbound traffic output from the I-195 off-ramp that transitions to 38th street;
- The bottleneck situation that is created at the intersection results in traffic intrusion into the neighborhood immediately to the north having an adverse effect on the residential nature of NE 39th Street and its neighbors;
- The proposed solution presented by the Magnolia Development, i.e. dedication of its land area, eliminating westbound access to NE37 Street, and reversing the eastbound NE38 Street traffic pattern, will create a significant improvement to the intersection configuration, alleviating the through-put with and provide for an additional “straight/westbound lane leading to the design district and NE 2nd Avenue;
- This solution proposes additional dimensions offered by the property owner, which is necessary to solve the vehicular movement north, south and west through Biscayne Boulevard.
- Having reviewed this proposal, FDOT believes it will significantly improve existing traffic conditions.
- Furthermore and contingent on **(Jim: feel free to add here any contingencies that the department requires)** FDOT will undertake the necessary improvements.

Please feel free to edit the above suggestions. As always, you can call me or Ron if you have any questions.

Regards,

~juan

Dear Mr. Cruz,

Thanks for your well wishes and I too hope for safe passage for you and your family during this pandemic. FDOT has considered your inquiry. Please see below for our findings:

Brief Description of Concept – The concept you envision would likely involve new flyovers connecting southbound Biscayne Boulevard to eastbound and westbound I-195 as shown in the sketch. It is anticipated the flyover would need to generally start from node A with 2-lanes then expand to 3 lanes at node B. From node B, a new 2-lane ramp would continue to connect with westbound I-195 and a new 1-lane ramp would continue to connect with eastbound I-195.

Overview of Design Considerations – The Flyover would start from ground level at Biscayne Boulevard elevating to approximately 50' in the air before connecting to I-195. The touch down points on I-195 would need to be extended as shown to avoid impacts to Parcels 7 and 8. From a structural perspective, due to the need to accommodate aesthetic enhancements and bridge span length requirements, a 10-foot structure depth is likely. Straddle bents (i.e, rectangular supports used to hold up curved elevated structures such as flyovers) would need to be erected over Biscayne Boulevard for the eastbound flyover as well as over the railroad and I-195 for the westbound flyover.

Right-of-Way Impacts – In this concept, partial right-of-way would be needed from Parcels 1, 2 and 3 (shown in the sketch). Full right-of-way impact is anticipated for Parcels 4, 5, and 6. Additional right-of-way would be needed to accommodate piers to support westbound flyover cantilever piers (if that's even feasible) as well as to provide an area necessary for touch down on westbound I-195.

Issues With Concept – In addition to the potential right-of-way impacts cited, this concept would preclude all other viable alternatives currently being studied to improve mobility and safety along I-195. The limited benefit to southbound US 1 traffic (while important) would not be a cost effective approach when juxtaposed against the other needs within the corridor the project is aiming to address. The construction cost would be well over \$100 million and the right-of-way costs would be astronomically high.

Project Timing – I want to reiterate a key point made at the public workshop with respect to project timing. FDOT's project delivery process consists of four major phases including; 1.Planning Phase (2 to 3 years), 2.Project Development and Environment Phase (PD&E, 2 to 3 years), 3.Design/Right-of-Way Acquisition (2 to 3 years), 4. Construction Phase (5+ Years). We are currently in the planning phase where initial concepts have been identified but no alternatives will be selected until the end of the PD&E phase. The planning study is scheduled for an end of June 2020 completion. The public workshop(s) that were held a few weeks ago, reflect FDOT's commitment to begin the public engagement on our projects early in the delivery process including during the initial planning phase. There will be even more opportunities for public and stakeholder engagement (for stakeholders such as yourself) in the PD&E phase.

Next Steps - While we do not believe the requested flyover connections are feasible at this time for the reasons stated, since the Public Workshop, we have been looking at some improvements that can help improve the operations at the intersection of Biscayne Boulevard and NE 38th Street (the area the flyovers would by-pass). Recommendations for this intersection will be included in the final report for further consideration and evaluation in the PD&E phase.

Closing – FDOT has included your contact information so that you will receive notification and future correspondences concerning the project into the PD&E phase. Your inquiry as well as this response will become part of the official project record. I have copied our consultants on this email in case you have follow-up questions they can answer pertaining to our evaluation of your concept. You spoke to Mr. Jose Munoz at the workshop. Thank you for your inquiry and follow up.

Best Regards,

Shereen Yee Fong

MIAMI BEACH

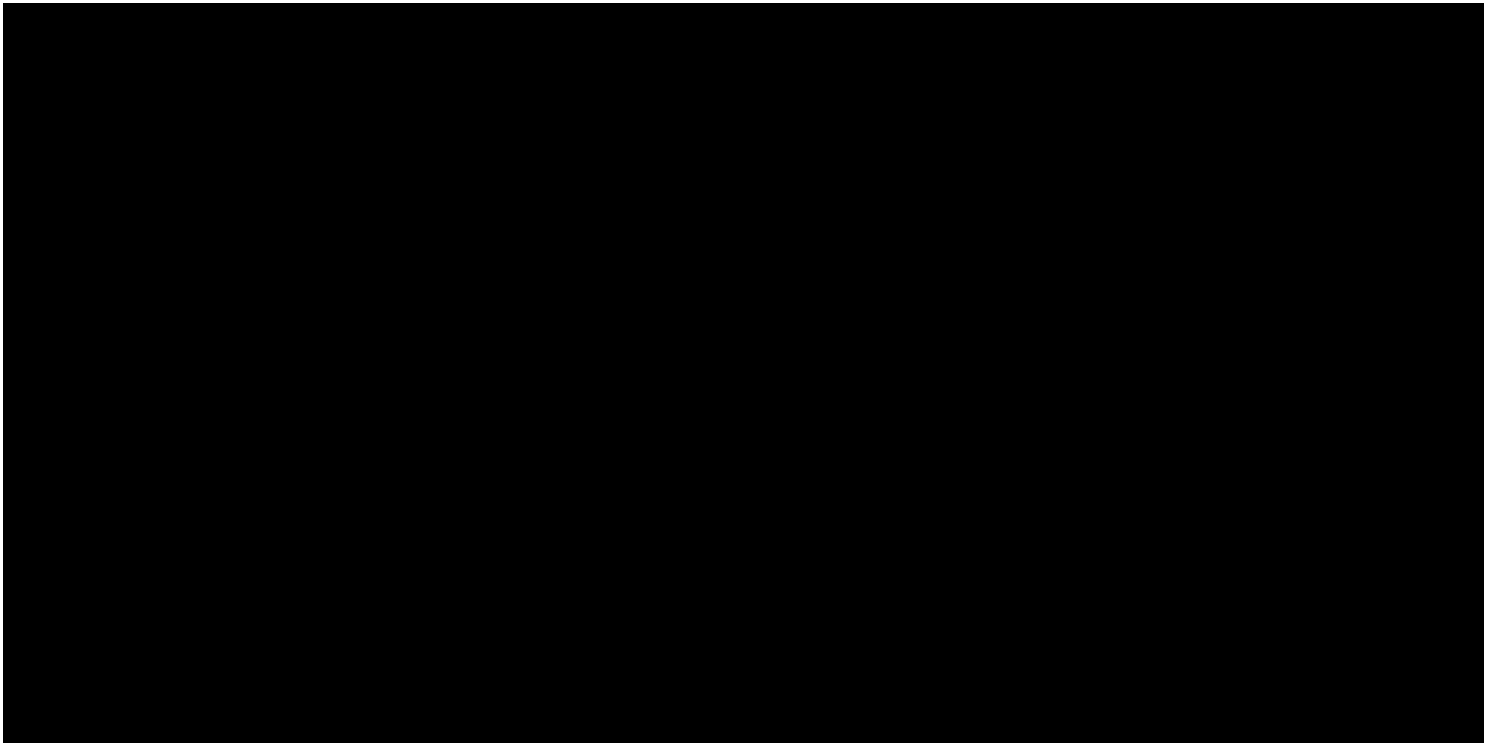

As massive construction project looms, Miami Beach studies ‘emergency’ traffic measures

BY KYRA GURNEY

MARCH 15, 2019 06:00 AM, UPDATED MARCH 15, 2019 04:48 PM

SHARE

The mother of all highway construction projects starts on Jan. 14, 2019, with the initial stage of the \$800 million redesign of I-395.

By Marta Oliver Craviotto

Think traffic in Miami Beach is bad now? Brace yourself, because it’s about to get a lot worse.

The Florida Department of Transportation and the Miami-Dade Expressway Authority are ramping up an [\\$800 million redesign](#) of Interstate 395, which will include sections of I-95 and State Road 836 and is expected to take until the fall of 2023 to complete. That means years of lane closures, ramp closures and detours that are sure to clog the already congested MacArthur Causeway. As drivers try to avoid the MacArthur, traffic is also expected to get worse on the Julia Tuttle and Venetian causeways.

And that’s not all. A separate construction project [on the MacArthur Causeway](#) — which has already turned the main artery connecting South Beach to the mainland into a maze of orange construction barriers — isn’t slated for completion [until July 2020](#). The Miami Beach end of the bridge had to be repaired due to corrosion from salt water at the underside of the bridge.

The traffic complaints from desperate residents have already been loud enough to [prompt elected officials](#) to institute speed restrictions for motorboats and personal watercraft.

[SUBSCRIBE WITH GOOGLE](#)

#READLOCAL

It's not yet clear how the new construction project will clash with repairs on the MacArthur Causeway because the schedule for the new project has yet to be finalized. But Miami Beach residents attending a meeting at City Hall on Thursday evening to learn about the I-395 project said they were sure it could only mean more traffic headaches.

"I can't imagine what the impact of the traffic is going to be," said Belle Isle resident Geoff Lawton. "It's not going to be good."

The city of Miami Beach is considering placing speed restrictions for watercrafts and motorboats that go under bridges. Engineers say salt water sprays from the vehicles cause corrosion to the bridges.

By [Matias J. Ocner](#) | [Kyra Gurney](#)

"It's going to make people not even want to go to South Beach," said Paula Roman, a South Beach resident who works in Miami and has already suffered through traffic jams caused by the current MacArthur construction project.

Once it's completed, the I-395 project should improve mobility in and out of downtown and Miami Beach. A double-decker span will fly over I-95 and provide drivers with a way to bypass traffic and get directly onto the MacArthur Causeway. The signature bridge [some have compared](#) to a giant spider will stretch over Biscayne Boulevard, and highway entrance ramps will be expanded.

But that was little consolation to residents at the construction meeting.

"They're making the bottleneck worse for 20 months before they're making it better," said Arthur Diskin, a doctor who lives on Palm Island and commutes to Miami for work. "The MacArthur has been a nightmare."

By continuing to use this site, you give your consent to our use of cookies for analytics, personalization and ads. [Read more](#)

MIAMI BEACH officials are already bracing for gridlock and phone calls from irate residents.

“We know this train is coming, no pun intended, we know it’s going to have a big impact,” said Commissioner Mark Samuelian, who sponsored a resolution at Wednesday’s City Commission meeting giving city staff the green light to evaluate several temporary traffic fixes while construction is underway.

One of the ideas on the table is speeding up implementation of an [express bus route](#) across the Julia Tuttle Causeway that could give hospitality and hospital workers who live on the mainland a better option for getting to work in Miami Beach.

Rendering of the double-decker portion of SR 836 over the Miami River.
FDOT

The city has already set aside \$5.1 million for the three-year pilot project, which Miami Beach developed with county transportation officials and which the county could make permanent if it’s successful. FDOT still has to make changes to the inside shoulder of the causeway before the bus can start running, however, and that could take until 2022 to complete. Miami Beach initially hoped the bus could run on the outside shoulder, which would have taken less time to outfit, but FDOT didn’t want the new bus route to interfere with a bike lane on the causeway.

José González, Miami Beach’s transportation director, said there might be a way to temporarily run the new bus route on the outside shoulder “on an emergency basis”. That would require approval from both FDOT and the county, but, González told commissioners on Wednesday, “desperate times call for desperate measures.”

Miami Beach is also working with Miami-Dade County to evaluate changes to existing bus routes, including adding stops to the Route 150 Airport Express bus near Mount Sinai Medical Center and the Fontainebleau hotel and expanding the hours of operation for county bus Route A, which runs over the Venetian Causeway.

For drivers, the city also plans to ask Miami-Dade County to temporarily waive tolls on the Venetian Causeway during the height of the construction. The county [temporarily suspended tolls](#) last fall during a particularly congested phase of the MacArthur Causeway repairs.

Lastly, the city is evaluating a temporary water taxi service between Miami and Miami Beach. The city ran a water taxi pilot program two years ago connecting Sunset Harbour, the Miami Beach Marina and downtown Miami, but, as one commissioner put it, the pilot “failed miserably.” The taxi ran only from Friday through Sunday and [cost \\$15 for a one-way fare](#). The city ditched the idea after finding that only 144 people had used the taxi in its first nine months of operation.

If the city were to try again, it would likely need to subsidize the water taxi to bring prices down, González said. Last time, the service operated at no cost to the city.

This idea could be a tough sell. Commissioner John Elizabeth Alemán said the water taxi would be “a big waste of money and resources” given that it “failed miserably” last time.

“I’m opposed to a public subsidy for that,” she said at Wednesday’s commission meeting.

But the one thing everyone in Miami Beach agrees on is that communication between FDOT, the city of Miami Beach and other government agencies has to get better. When repairs on the MacArthur began last summer, elected officials complained that Miami Beach hadn’t been given enough information ahead of time about the lane closures and other traffic impacts.

“We need much better communication,” Alemán said, proposing an agreement between the various government entities involved in the I-395 project to notify each other about traffic impacts. Miami Beach has a [text message alert system](#) to warn commuters about traffic accidents and lane closures, and the sooner the city gets that information, Aleman said, the sooner it can pass it on to drivers.

The only light at the end of a dark and congested tunnel? Some of the temporary traffic measures could end up improving mobility in Miami Beach over the long haul.

“We would deploy them as temporary traffic mitigation solutions but if they work and it’s something used by the community” they could become permanent, González said.

MIAMI-DADE COUNTY

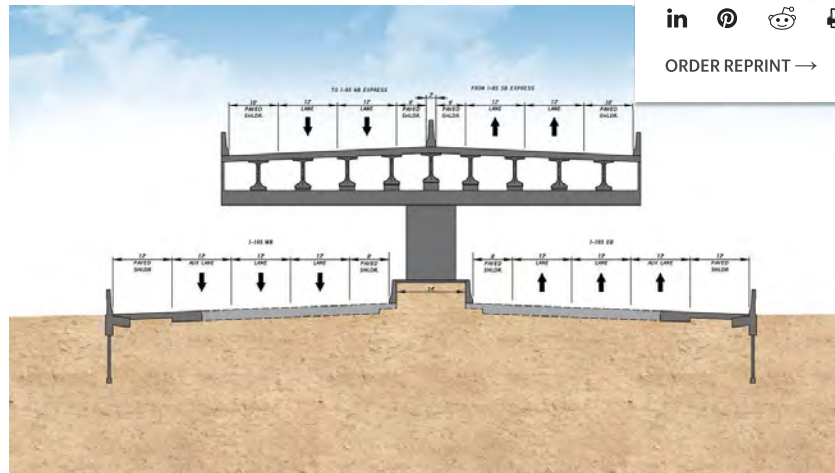

Looking for a traffic fix, Florida may build double-decker ramps for Julia Tuttle

BY DOUGLAS HANKS

FEBRUARY 26, 2020 06:15 AM

ORDER REPRINT →

A rendering of how Florida might design double-decker roads to connect I-95 with the Julia Tuttle Causeway, with a new elevated option for vehicles on the I-195 stretch that connects the two roadways.

Searching for a traffic fix at one of Miami’s busiest interchanges, Florida might build double-decker lanes connecting I-95 with the Julia Tuttle Causeway.

The elevated ramps would let cars travel directly from I-95 to the bridge connecting Miami with Miami Beach, bypassing the stretch of I-195 that includes exits to Miami’s Midtown shopping district. The proposals under consideration in a [state study would cost as much as \\$370 million to build](#). They’ve received an exasperated response from transit advocates urging Florida to create dedicated lanes for buses and bikers instead of more space for cars

“You can’t just double-deck a highway, dump thousands of more cars into Miami Beach and expect everything to be okay,” said Azhar Chougale, director of Transit Alliance Miami, which [called the double-decker ideas “a massive waste of money”](#) that would “cement car-dependency” in a Twitter post earlier this month.

[GET OFFER](#)

Administrators for the state's Transportation Department emphasize the double-decker scenarios are just options being considered as part of an in-depth look at how to ease traffic on I-195.

"We're at the very early stage of the planning process," said Shereen Yee Fong, project manager for the Transportation Department study. "Nothing has been decided. No alternatives have been selected. Everything is usually on the table for the planning study."

Even so, a preliminary analysis in the \$1.8 million state study concluded the double-decker scenarios would ease traffic the most, with delays in 2045 projected to be down about 67 percent compared to doing nothing. And double-decker ramps connecting I-95 to Miami Beach have already been approved nearby, for the new ["signature bridge"](#) project by the MacArthur Causeway about a mile south of the Tuttle.

To create more space for cars and trucks, state planners say, there aren't many options in built-out urban areas like Miami.

"We have run out of real estate," said Tish Burger, communications manager for the Transportation Department's Miami office. "One of the ways to add travel lanes is to build up, rather than out."

Part of the plan for the Tuttle includes protected bike and pedestrian paths along the center of the state-controlled bridge. The project is also considering a boost for transit on the Tuttle, with center shoulders on the Tuttle redesigned to accommodate buses when traffic grinds to a halt. Buses could use the shoulders to avoid extreme congestion, but would run on regular lanes whenever regular traffic was moving faster than 35 mph. That's still not the dedicated lane required to speed buses faster than traffic, as Miami-Dade created for its South Dade busway connecting Florida City with Metrorail.

The Transportation Department could make a decision on the project choice by 2022, with construction at least a decade away, said Kenneth Jeffries, a planning manager for the agency.

For the elevated lanes, the most expensive option would involve a pair of double-decker ramps for I-195. One would connect Tuttle traffic with I-95's regular lanes, the other with the tolled express lanes. Motorists exiting I-95 would have the option of driving directly to the Tuttle or using the I-195 exits to Miami.

Miami Beach has been pressing Florida for more access to the I-95 express lanes, [which steer beach traffic to the entrances and exits at I-395 by the MacArthur](#). With traffic already disrupted by the signature-bridge project and Miami-Dade considering building a monorail or other transit option for the MacArthur, city leaders say residents need a northern option to hop on the I-95 toll lanes.

“Traffic is just getting worse and worse,” said city commissioner [Ricky Arriola](#). “We want an alternative. We’re stuck.”

Even so, Arriola said Miami Beach hasn’t pushed for double-decker ramps or anything that extensive for an I-195 upgrade. “We were hoping they could just move some of those cones,” he said.
