

CONSTRUCTION PROJECT FACT SHEET

FLORIDA DEPARTMENT OF TRANSPORTATION

Wrong-Way Detection System Installation At 24 ramps throughout Miami-Dade County

Project Identification Numbers: 446947-2-52-01

FDOT COMPASS

FDOT is committed to ensuring that the state's infrastructure serves residents, businesses, and visitors, to meet their needs now and in the future. Key areas include safety, resiliency, supply chain, technology, and workforce development. The following benefits are included in this project:

COMMUNITY

- Contributing to a more secure road environment for all Miami-Dade County residents and visitors

SAFETY

- Installing Wrong-Way Detection Systems at various locations along State Road (SR) 826/Palmetto Expressway, SR 9A/I-95, SR 93/I-75, and SR 112/I-195/Julia Tuttle Causeway
- Reducing accidents, injuries, and fatalities on the State Highway System
- Installing reflective raised pavement markers at various locations to delineate lines and improve pavement markings visibility

RESILIENCY

- Repaving and restriping the off-ramps to preserve the service life of the road

TECHNOLOGY

- Installing Wrong-Way Driving Intelligent Transportation Systems (ITS) which include:
 - A camera and computer system that detect vehicles driving the wrong way
 - Highlighted wrong-way signage with Light-emitting Diodes (LEDs) to alert drivers
 - A notification system that alerts SunGuide Transportation Management Center (TMC) of a wrong-way vehicle so operators can inform authorities

WORKFORCE DEVELOPMENT

- This project creates opportunities for contractors, which results in positive economic benefits for workers and the community

ALWAYS PUT SAFETY FIRST

For your safety and the safety of others, please use caution when driving, walking or biking around any construction zone. For real-time traffic information, visit: www.fl511.com.

WHAT TO EXPECT

Work will be done in phases to reduce the effects to the community. Temporary lane closures may affect traffic during non-peak hours. This project will require full ramp closures and detours when testing the new detection system at each ramp. All detours will be established with clear signage. Access to adjacent properties will be maintained.

SCHEDULE

May 2024 - Spring 2026

PROJECT COST

\$6.7 Million

PROJECT AREAS

Miami-Dade County

Note: Dates are subject to change.

LANE CLOSURE INFORMATION

Work will be done in phases to reduce the effects of construction on the community. Lanes and ramps can be closed during the following hours:

Sunday through Thursday

9 p.m. to 5:30 a.m., nightly

Friday and Saturday

11 p.m. to 7 a.m., nightly

Access to businesses and residences will be maintained. Lane closure and detour information will be posted weekly on the department's website, www.southflroads.com.
