ROBUST SUPPLY CHAIN

PROJECT SCOPE

- Replacing the existing Atlantic Isle bridge

- Upgrading signing and pavement markings

- Upgrading bridge hydraulics

- FDOT is invests in roadways, seaports, rail networks, freight and trucking networks, and airport cargo facilities to facilitate the movement of goods that serves our community and beyond.

- FDOT is dedicated to using new and emerging technologies to enhance safety and help prevent incidents

- This project creates opportunities for contractors, which results in positive economic benefits for workers and the community

CURRENT CONIDITIONS

CURRENT BRIDGE CONFIGURATION

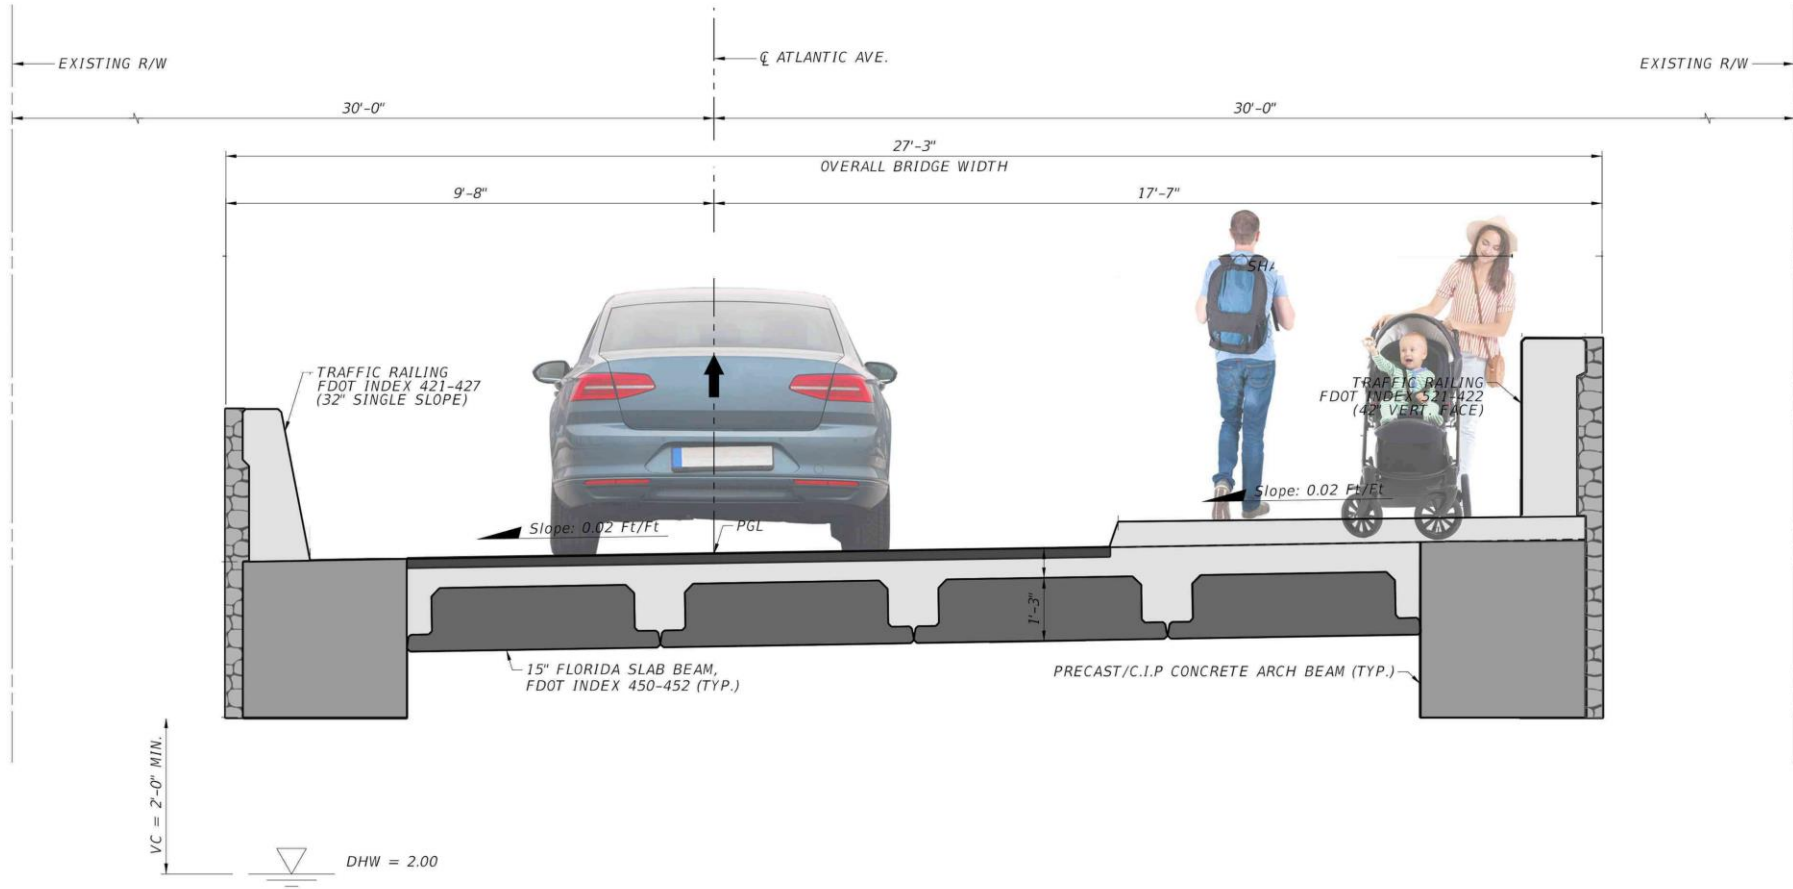

- Replacing the bridge
- Improving hydraulics

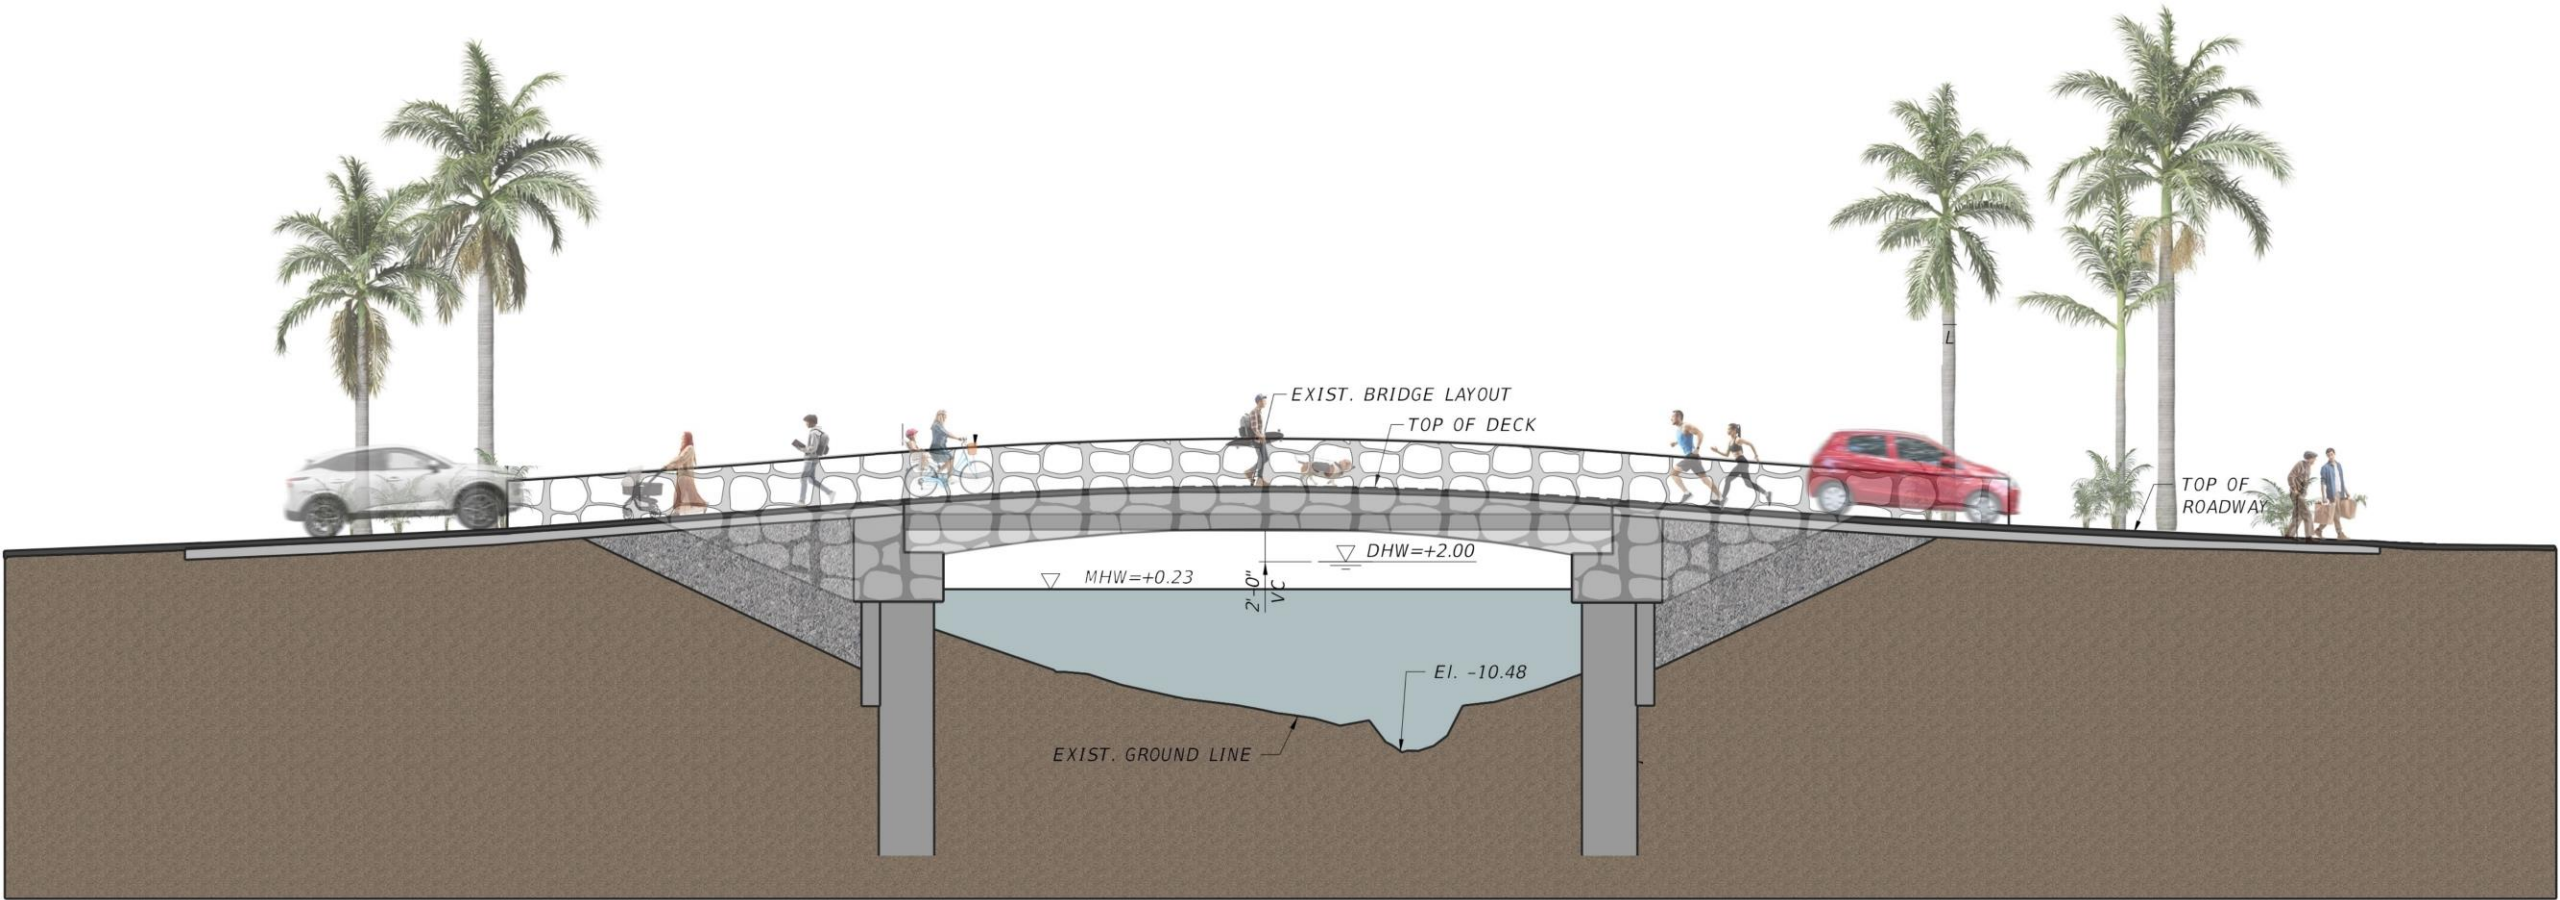

PROPOSED BRIDGE CONFIGURATION

- Improving bridge width to accommodate pedestrian access, traffic railing and weight limits

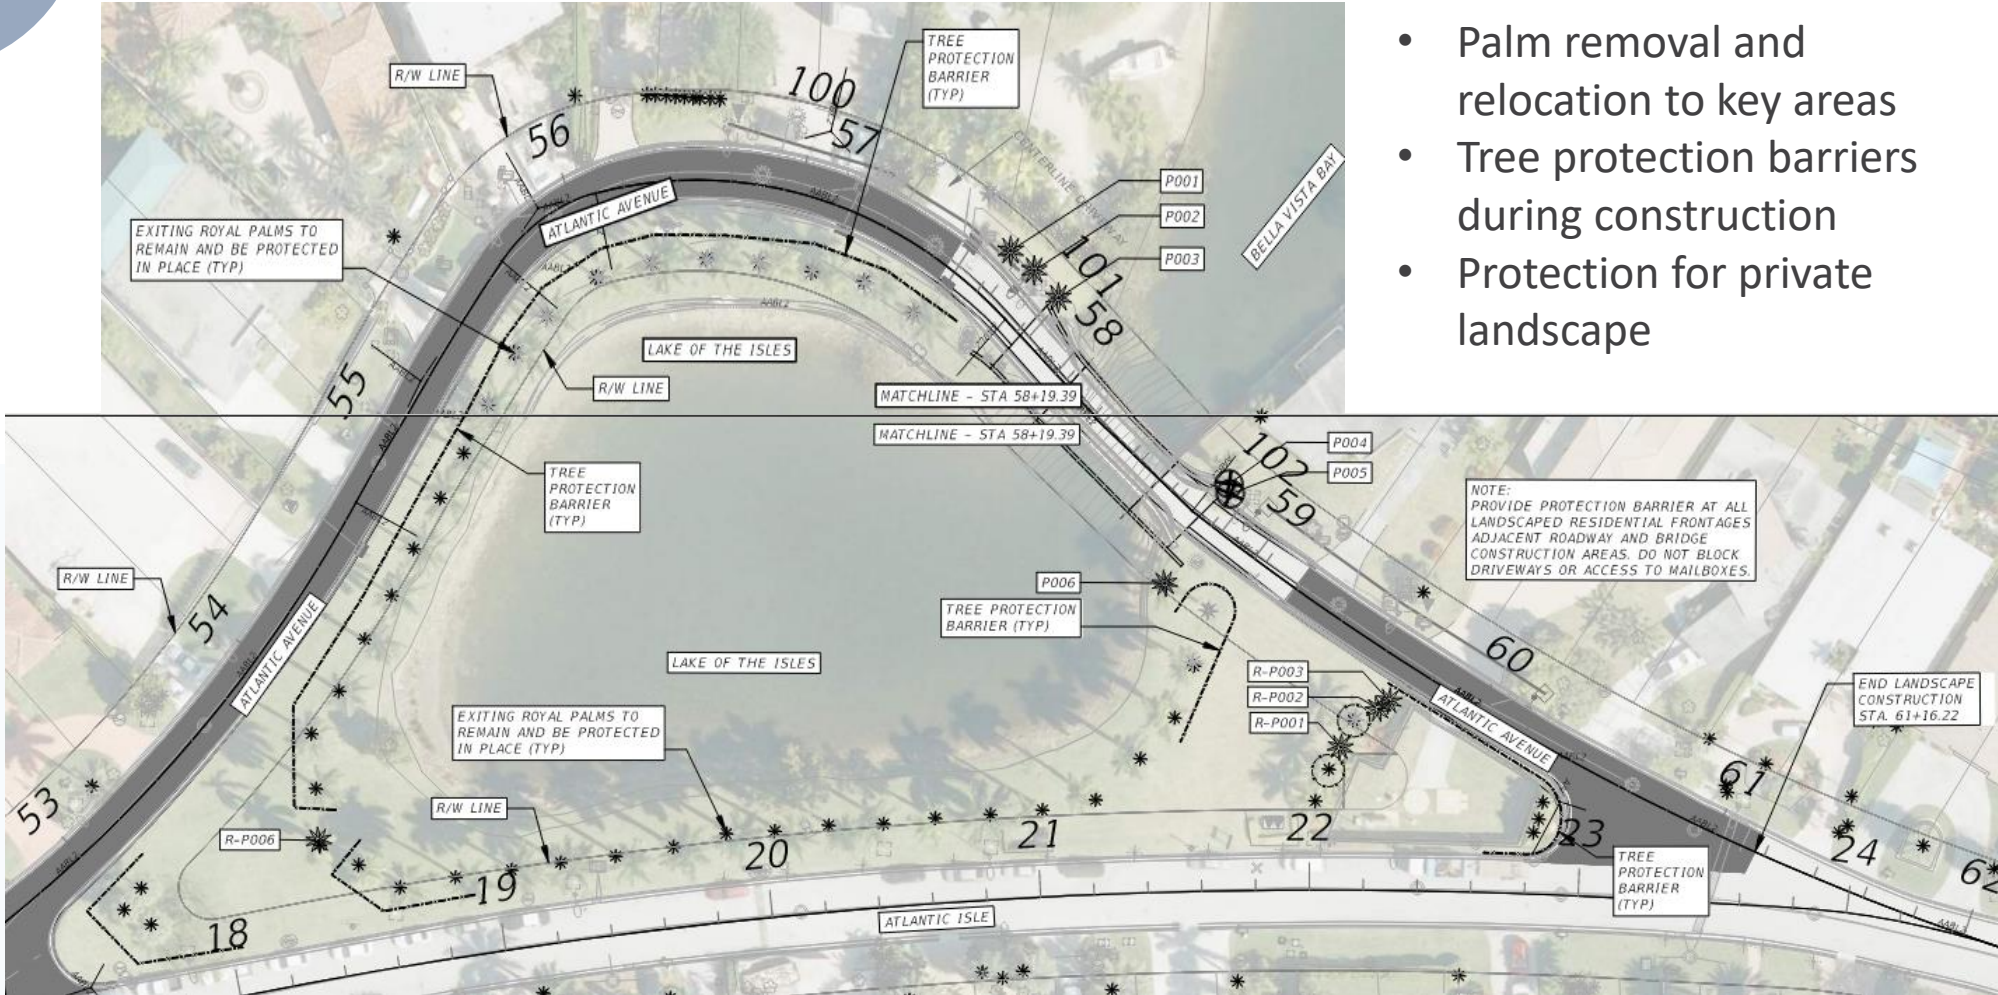

PROPOSED BRIDGE CONFIGURATION

LANDSCAPE PLANNING

- Palm removal and relocation to key areas
- Tree protection barriers during construction
- Protection for private landscape

WHAT TO EXPECT DURING CONSTRUCTION

Construction activities will be completed in phases to minimize impacts to the public.

Maintenance of Traffic (MOT):

- **Phase 1:** In this phase, Atlantic Avenue will be temporarily converted from a one-way street into a two-way street, temporary curb will be constructed and landscape removed.
- **Phase 2:** In this phase, the Atlantic Isles Bridge will be closed, and demolition operation will be performed to construct the new bridge.
- **Phase 3:** In this phase the bridge will be opened. the roadway will be converted back to one-way traffic with installation of new drainage, landscaping, lighting, and pavement markings.

WHAT TO EXPECT DURING CONSTRUCTION

PHASE 1 AND 3

PHASE 2

WHAT TO EXPECT DURING CONSTRUCTION

Maintenance of Traffic (MOT)*:

8 a.m. to 5 p.m. – Weekdays

- No major Nighttime activity is expected
- At least one travel lane will remain open during resurfacing operation
- Access to properties will be maintained

*Work hours and MOT subject to change during construction phase

PROJECT SCHEDULE AND COST

Milestone	Date
Plans Production	Summer 2027*
Contracting date	Late 2027*
Construction start	Spring 2028*
Construction duration	One year*
Construction end	Early 2029*
Current Construction cost	\$4 Million*

*Schedule and cost subject to change

- The project is currently in the design phase.
- Work with municipalities to review plans
 - Receive feedback from the public

WHAT TO EXPECT DURING CONSTRUCTION

Posted Speed:

- Existing 20 Mile Per Hour (MPH) limit will remain

Dust:

- The contractor will be required to water and sweep in order to minimize construction-related dust

Noise:

- Some noise should be expected during allowable construction hours

Access:

- Access to businesses and residences will be maintained
